Bidding Documents for Public Private Partnership in Integrated Solid Waste Management and Integrated Liquid Waste Management

NITI Aayog
Government of India
June 2020
In pursuance of the chamber meeting held at the National Green Tribunal on the subject of enforcement of orders of the Hon’ble Tribunal relating to solid waste and sewage management dealt with by way of earlier orders in above matter and in O.A. No. 673/2018 and O.A. No. 06/2012 and other connected matters, the Hon’ble Tribunal passed an order dated 18.10.2019 in O.A. No. 606/2018 (Main) on ‘Compliance of Municipal Solid Waste Management Rules, 2016 and other environmental issues’. The Order stated in paragraph 8 that - “There is need to standardize necessary technologies with cost breakups for operation and maintenance, including procurement. Besides this, the service providers need to be identified and empanelled. This exercise may also require the concerned authority to explore business models”. It had also stated in paragraph 2 that - “development of business models for privatisation of (a) sewage collection, treatment and disposal, including utilisation of treated water and sludge; (b) remediation of legacy waste dumpsites; and (c) other such activities relating to collection, treatment and processing and utilisation of wastes and provision of services such as setting up of rainwater harvesting system may have to be considered”.

For the above-mentioned purpose, Hon’ble NGT constituted a Committee under the Chairmanship of the nominee of Vice-Chairman, NITI Aayog, including Secretary, Ministry of Housing & Urban Affairs (MoHUA), Secretary, Ministry of Jal Shakti (MoJS), Director-General, National Mission for Clean Ganga (NMCG), Secretary, Ministry of Environment, Forests & Climate Change (MoEFCC), Chairman, Central Pollution Control Board (CPCB), and CEO, Government e-Marketplace (GeM) Portal (in paragraph 8 of the Order).

Subsequently, first meeting of the Committee under the chairmanship of Vice-Chairman, NITI Aayog was held on 19.11.2019 wherein it was decided that CEO, NITI Aayog will be the nominee of the Vice-Chairman, NITI Aayog to chair the committee constituted by the Hon’ble
Tribunal. Thereafter, CEO, NITI Aayog convened a meeting in which a sub-group was formed under the chairmanship of Director General, NMCG, which included Additional Director-General, NMCG, Additional CEO, GeM Portal, Joint Adviser, Central Public Health Environmental Engineering Organization (CPHEEO) of MoHUA, Adviser (Housing & Urban Affairs), NITI Aayog and Adviser (Water Resources & Land Resources), NITI Aayog. It was directed during the meeting that this sub-group will take a decision regarding the documents and business models that should be uploaded on GeM Portal for easy adoption by states to undertake solid and liquid waste management in India.

The Committee held three meetings: on 19.11.2019, 20.11.2019 and 17.03.2020. Pursuant to the decisions taken during these meetings, NITI Aayog has formulated the Model Concession Agreements (MCAs) and Model Request for Proposals documents (RFPs) for Integrated Solid Waste Management (including Bio-Remediation of Legacy Waste) and Integrated Liquid Waste Management (including Faecal Sludge Management) on Hybrid Annuity Model (HAM) of Public-Private Partnership (PPP).

MoHUA has provided Engineering Procurement Construction (EPC) Contract for Legacy Waste Dumpsite Remediation and several other documents relating to legacy waste dumpsite remediation and integrated solid waste management activities such as collection, transportation, processing and disposal of municipal solid waste.

NMCG has also provided documents for setting up of sewage treatment plants and other guiding documents for improved liquid waste management in the country.

Now the Urban Local Bodies (ULBs) have the following options for solid waste management and liquid waste management under PPP:

For Solid Waste Management:

(i) To undertake only legacy waste remediation: existing method of tendering EPC contract which is entirely financed by the government be taken up (it is a successful model as indicated by MoHUA).

(ii) To undertake only solid waste management system (collection, transportation, processing & disposal) (Non-HAM): the existing method of tendering Design, Build, Finance, Operate
& Transfer (DBFOT) contracts which is either not funded or only partly funded by the government be taken up. The drafts of such agreements, model RFP, list of necessary clauses of such agreements, and guidelines for drafting of concession agreements have been made available through Swachh Bharat Mission (Urban), MoHUA, and the World Bank.

(iii) To undertake both legacy waste remediation as well as solid waste management system: the MCA of NITI Aayog under HAM may be taken up.

(iv) To undertake only solid waste management system (collection, transportation, processing & disposal) (under HAM): only the parts of the NITI Aayog MCA pertaining to Bio-Remediation of Legacy Waste may accordingly be removed by the ULB and remaining agreement may be taken up.

For Liquid Waste Management:

(i) To undertake only sewage treatment (Non-HAM): existing method of tendering EPC contract or DBFOT contract for setting up sewage treatment plants under state or central government funding schemes, may be taken up.

(ii) To undertake only sewage treatment (under HAM): model bidding documents prepared by NMCG may be taken up.

(iii) To undertake both sewage treatment as well as faecal sludge management system: the MCA of NITI Aayog under HAM may be taken up.

I hope the efforts of the Committee will help the ULBs and all stakeholders involved in the waste value chain in making cleaner and greener cities. My sincere thanks to the Vice-Chairman, NITI Aayog, the CEO, NITI Aayog, and all the Committee members for their able guidance, support, cooperation and contribution in this endeavour to take forward the vision of the Hon’ble Prime Minister of India of creating a Swachh Bharat.

(Avinash Mishra)
BEFORE THE NATIONAL GREEN TRIBUNAL  
PRINCIPAL BENCH, NEW DELHI 

Original Application No. 606/2018(Main) 

Compliance of Municipal Solid Waste Management Rules, 2016 and other environmental issues 

Date of hearing: 18.10.2019 

CORAM: HON’BLE MR. JUSTICE ADARSH KUMAR GOEL, CHAIRPERSON  
HON’BLE MR. JUSTICE RAGHU VENDRA S. RATHORE, JUDICIAL MEMBER  
HON’BLE MR. JUSTICE S.P. WANGDI, JUDICIAL MEMBER  
HON’BLE MR. JUSTICE K. RAMAKRISHNAN, JUDICIAL MEMBER  
HON’BLE DR. SATYAWAN SINGH GARBYAL, EXPERT MEMBER  
HON’BLE DR. NAGIN NANDA, EXPERT MEMBER 

ORDER 

1. This order is being passed in pursuance of chamber meeting held today in the National Green Tribunal on the subject of enforcement of orders of this Tribunal relating to solid waste and sewage management dealt with by way of earlier orders in above matter and in O.A. No. 673/2018 and O.A. No. 06/2012 and other connected matters. 

2. The meeting became necessary as it was being repeatedly put forward that compliance of the orders was taking lot of time on account of procedures of DPRs and tendering process which could be curtailed if standardize technologies, cost breakup and service providers could be identified and placed on GeM Portal operated by the Ministry of Commerce, Govt. of India. The subject of the meeting is as follows:

“Clean environment and implementation of Swachh Bharat Mission, and Namami Gange initiatives inter alia require proper management of solid and liquid waste. In absence of collection, treatment and disposal of sewage, untreated sewage is being discharged in water bodies or on land. There is huge collection of solid waste which needs to be remedied. It may be noted that there are 351 polluted river
stretches in the country and about 2500 legacy waste dumpsites which are hazard to health and environment.

One of the challenges for effective remedial action is to reduce avoidable delays caused in DPRs and Tender process. Information of suitable service providers at reasonable terms can be of great help. There is need to standardise the methodology and terms for empanelling credible service providers and evolving an appropriate mechanism which may obviate the need for DPRs and Tender process. Observations of NGT on the subject in some of the orders are annexed.

GeM portal developed by Government of India is one of the standardized focal point which can be followed for this purpose as well. This requires consideration of the following:

(i) Procedure for standardising technologies and cost breakup for operation and maintenance of such methodologies.

(ii) Developing a business models for privatisation of

(a) sewage collection, treatment and disposal, including utilisation of treated water and sludge;

(b) remediation of legacy waste dumpsites; and

(c) other such activities relating to collection, treatment and processing and utilisation of wastes and provision of services such as setting up of rainwater harvesting system

3. The orders already passed on the subject annexed to the meeting note are as follows:

“ANNEXURE

- The Tribunal is of the view that instead of every Local Body individually floating tenders for different services, standards and technical specifications of available services may be specified by the Department of Urban Development and adopted by Local Bodies. Such services may be hired on laid down standard norms to save time. However, this aspect may be finally gone into by the Committees.

Tabular chart furnished by the MoHUA suggesting solution to the problems presented during the interactions is as follows:

<table>
<thead>
<tr>
<th>Sr. No.</th>
<th>Problems faced by the States/Union Territories</th>
<th>Solution suggested by the MoHUA</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Financial constraints</td>
<td>Collect user fee</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Levy penalty for polluters</td>
</tr>
<tr>
<td></td>
<td></td>
<td>• Bulk Waste Generators rules be complied</td>
</tr>
</tbody>
</table>

- Procedure for giving of contracts (for STPs etc.) may be shortened and standardized at State level and if possible at

- A flat recovery rate towards collection and treatment of sewage may be adopted as a viable option for sustainable sewage management. - O.A 496/2016News Item Published in “Hindustan Times” dated 19.06.2015 Titled “Dirty flows your drinking water” authored by Ritam Haldar Order dated 11.09.2019; para 18.

- Having regard to urgency of the situation, if Indore model is to be adopted, wholly or in part, the need for tender process can be dispensed with if the work is to be done departmentally, as already directed in the cases of Ahmedabad and Gurugram. - O.A No. 519/2019 WITH O.A No. 386/2019, News item published in “The Times of India” Authored by Jasjeev Gandhiok & Paras Singh Titled “Below mountains of trash lie poison lakes” WITH Centre for Wildlife and Environment Litigation Applicant(s) Versus Union of India & Ors Order dated 17.07.2019; para 21.

- (iii) Technical specification for the RWH systems and recharge purposes and indicative list of available service providers may be placed on the website of the DJB and the Local bodies within one month from today. Online interactive helpline/information may also be made available to facilitate the users. It maybe made clear that the users are at liberty to engage services of their choice from any source – O.A 496/2016News Item Published in “Hindustan Times” dated 19.06.2015 Titled “Dirty flows your drinking water” authored by Ritam Haldar” Order dated 11.09.2019; para 18.”

4. The meeting was attended inter alia by representatives of Niti Ayog, MoHUA, MoEF&CC, DG, NMCG, Chairman CPCB, Mr. Talleen Kumar, CEO, GeM and Ms. Radha Chauhan, former CEO GeM Portal.

5. The general view of the participants was that standardization of technologies and cost breakup and identification of service providers and placing them on GeM Portal will go a long way in tackling the situation by curtailing the procedural delay. This requires coordination among the concerned authorities and clarifying the existing CVC guidelines, if necessary.

6. As per CPCB data, there are more than 4000 legacy waste dump sites which need immediate remediation under the binding rules and...
orders of this Tribunal having regard to harmful impacts on environment and public health. Besides, this will unlock the land occupied by such waste sites which is urgently required for setting up of integrated waste management and processing facilities for afforestation/green belts/bio-diversity parks/buffer zones in accordance with environmental laws. If necessary, a part of the land could be monetized if so decided by the concerned State Governments. The legacy dump sites remediation is to start at the earliest as already directed in O.A. No. 519/2019 vide order dated 17.07.2019.  

7. Discharge of untreated sewage in water bodies is a major source of pollution of rivers. 351 river stretches are identified as polluted including Ganga, Yamuna and other major rivers. Either STPs are inadequate or non-functional and/or not connected to the sewerage network. This needs to be remedied and treated sludge utilized for manure or otherwise and treated water utilized for industrial or agricultural purposes. No untreated sewage may be discharged in the rivers. This direction has been issued by this Tribunal vide order dated 28.08.2019 in O.A. No. 593/2017.

8. Expeditious compliance of directions for clearance of legacy waste sites as well as stopping of discharge of untreated sewage and directions on associated subjects require immediate implementation

---

1 Remediation work on all other dumpsites may commence from 01.11.2019 and completed preferably within six months and in no case beyond one year. Substantial progress be made within six months.

2 Thus, the mandate of law is that there must be 100% treatment of sewage as well as trade effluents. This Tribunal has already directed in the case of river Ganga that timelines laid down therein be adhered to for setting up of STPs and till then, interim measures be taken for treatment of sewage. There is no reason why this direction be not followed, so as to control pollution of all the river stretches in the country.

... (iii) All the Local Bodies and or the concerned departments of the State Government have to ensure 100% treatment of the generated sewage and in default to pay compensation which is to be recovered by the States/UTs, with effect from 01.04.2020. In default of such collection, the States/UTs are liable to pay such compensation. The CPCB is to collect the same and utilize for restoration of the environment.
for protection of environment and public health by curtailing undue delay. As suggested, necessary technologies need to be standardized with cost breakups for operation and maintenance, including procurement. Besides this, the service providers need to be identified and empaneled. This exercise may also require the concerned authorities to explore business models. For this purpose, we consider it necessary to constitute a Committee as follows:

i. Nominee of Vice-Chairman, Niti Ayog - Chairman and Coordinator
ii. Secretary, Ministry of Urban Development - Member
iii. Secretary, Ministry of Jal Shakti - Member
iv. DG, National Mission for Clean Ganga - Member
v. Secretary, Ministry of Environment, Forest & Climate Change - Member
vi. Chairman, Central Pollution Control Board - Member
vii. CEO of GeM Portal - Member

9. Let the above Committee hold its first meeting preferably within two weeks and take further prompt action in the matter preferably within one month. An action taken report may be furnished to this Tribunal within two months from today by e-mail at judicial-ngt@gov.in.

A copy of this order be sent to Niti Ayog, National Mission for Clean Ganga, Ministries of Urban Development, Jal Shakti and Ministry of Environment, Forest & Climate Change, Central Pollution Control Board, CEO of GeM Portal and the Chief Secretaries of all the States/UTs.

CONCESSION AGREEMENT

This CONCESSION AGREEMENT (Agreement) is entered into on this {the ……………… day of
……………………, 20…..}§

BETWEEN

1. The State Department of [Urban Development] of [Name of the State] represented by [the
Secretary], and having its offices at [*] (hereinafter referred to as the “State Government”
which expression shall, unless repugnant to the context or meaning thereof, include its
administrators, successors and assigns);

AND

2. The [Municipal Corporation/Cluster[£] of [*] represented by [*], and having its offices at [*]
(hereinafter referred to as the “Authority” which expression shall, unless repugnant to the
context or meaning thereof, include its administrators, successors and assigns);

AND

3. {****** Limited}, a company incorporated under the provisions of the Companies Act, 2013
and having its registered office(s) at [*], (hereinafter referred to as the “Concessionaire” which
expression shall, unless repugnant to the context or meaning thereof, include its successors and
permitted assigns and substitutes).

Collectively referred to as “Parties”, and individually as “Party”.

WHEREAS:

(A) Government of [Name of the State], through the [Name of the Municipal Act of the State], has
entrusted the municipalities with such powers and functions as institutions of self-governance
and to assign to them tasks relating to solid waste management.

(B) The Authority is engaged in the development of integrated solid waste management projects
and bio-remediation of legacy waste.

(C) [The cluster comprises of Local Self Government Institutions (the “LSGI”) of [Municipal
Corporation of ***], *** Municipality(ies), and *** Gram Panchayat, (collectively referred to
as “Participating Local Bodies or PLBs”) collectively decided for development and operation
of integrated solid waste management system and reclamation of land through bio-remediation
of legacy waste;]

(D) [The Municipal Corporation and the PLBs have entered into an Inter-LSGI Agreement dated [*]
for implementation of the Project whereby the Authority shall discharge the obligations

§The provisions in curly parenthesis and blank spaces shall be retained in the draft Agreement and shall be suitably modified/
filled after completion of the bid process to reflect the particulars relating to the selected bidder and other post-bid
particulars. Provisions in square parenthesis may be modified in the concession agreement as per the requirement of the State
Government and Authority at the time of bidding.

£ In case the Project is to be developed for a cluster of municipalities, one representative Municipality to be the
Authority. Names and addresses of all PLBs to be included as Party 1, Party 2, and so on.

The Municipal Corporation may also enter into inter-LSGI agreements and represent other PLBs as the Authority in a
cluster-based approach.
set out herein on behalf of the PLBs;

(E) The Authority is desirous of implementing such development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste (the “Project”) by seeking private sector participation on Public Private Partnership (“PPP”) mode by inviting Proposals for the Project within the [jurisdiction of the Authority/collective jurisdictions of PLBs] (the “Project Area”); which will inter alia include setting up and operation of the Project in accordance with the terms and conditions to be set forth in the Agreement.

(F) The Authority had accordingly invited proposals under its {Request for Proposals/ Request for Qualifications} No. ____ dated [*] (the “Request for Proposals/Request for Qualification” or “RFP/RFQ”) for short-listing of bidders for undertaking the development, operation and maintenance of the Project on Design, Build, Finance, Operate and Transfer (the “DBFOT”) basis and had shortlisted certain bidders including inter alia, the {the selected bidder/consortium comprising ............ and ............ (collectively, the “Consortium”) with ............. as its lead member (the “Lead Member”).

(G) After evaluation of the bids received, the Authority had accepted the bid of the {selected bidder/Consortium} (the “Selected Bidder”) and issued its Letter of Award (hereinafter called the “LOA”) No. ........ dated ............... to the Selected Bidder requiring, inter alia, the execution of this Agreement within 30 (thirty) days of the date of issue thereof.

(H) {The Selected Bidder has since promoted and incorporated the Concessionaire (“Special Purpose Vehicle” or “SPV”) as a company under the Companies Act, 2013, and has requested the Authority to accept the Concessionaire as the entity which shall undertake and perform the obligations under the Concession Agreement for implementing the Project.}

(I) The Authority has {agreed to the said request of the Selected Bidder} and the Parties have accordingly agreed to enter into this Agreement with the Concessionaire for Development and Operation of Integrated Solid Waste Management System and Reclamation of land through Bio-Remediation of Legacy Waste at Municipal Dumpsite(s)on Hybrid Annuity Model (the “HAM”) basis, subject to and on the terms and conditions set forth hereinafter.

NOW THEREFORE in consideration of the foregoing and the respective covenants and agreements set forth in this Agreement, the sufficiency and adequacy of which is hereby acknowledged, and intending to be legally bound hereby, the Parties agree as follows:

2To be inserted upon issuance of the RFP/RFQ.
ARTICLE 1
DEFINITIONS AND INTERPRETATION

1.1 Definitions

1.1.1 The words and expressions beginning with capital letters and defined in this Agreement (including those in Article 32) shall, unless the context otherwise requires, have the meaning ascribed thereto herein, and the words and expressions defined in the Schedules and used therein shall have the meaning ascribed thereto in the Schedules. The words and expressions used but not defined in this Agreement and defined in the Environment Protection Act, 1986 (the “EPA”), Solid Waste Management Rules, 2016 (the “SWM Rules”), the Construction and Demolition Waste Management Rules, 2016 (the “C&D Rules”), the Plastic Waste Management Rules, 2016 (the “PWM Rules”), the Bio-Medical Waste Management Rules, 2016 (the “BWM Rules”), the E-Waste Management Rules, 2016 (the “EWM Rules”), the Hazardous Waste Management Rules, 2016 (the “HWM Rules”), and Guidelines for Disposal of Legacy Waste, 2019 (the “Legacy Waste Guidelines”), shall have the respective meanings as are assigned to them, respectively, in the EPA, the SWM Rules, the C&D Rules, the PWM Rules, the BWM Rules, the EWM Rules, the HWM Rules, and the Legacy Waste Guidelines.

1.2 Interpretation

1.2.1 In this Agreement, unless the context otherwise requires,

(a) the words, phrases and expressions defined hereinabove in this Article 1 or Article 32 or defined elsewhere by description in this Agreement, together with their respective grammatical variations and cognate expressions shall carry the respective meanings assigned to them in the said Article or in this Agreement and shall be interpreted accordingly. Expressions which have not been defined in this Agreement shall carry the respective meanings assigned to them in their ordinary applicability read in context with the manner of their usage in this Agreement or in their respective technical sense, as the case may be;

(b) references to any legislation or any provision thereof shall include amendment or re-enactment or consolidation of such legislation or any provision thereof so far as such amendment or re-enactment or consolidation applies or is capable of applying to any transaction entered into hereunder;

(c) references to laws of the State, laws of India or Indian law or regulation having the force of law shall include the laws, acts, ordinances, rules, regulations, bye laws or notifications which have the force of law in the territory of India and as from time to time may be amended, modified, supplemented, extended or re-enacted;

(d) references to a “person” and words denoting a natural person shall be construed as a reference to any individual, firm, company, corporation, society, trust, government, state or agency of a state or any association or partnership (whether or not having separate legal personality) of two or more of the above and shall include successors and assigns;
(e) the table of contents, headings or sub-headings in this Agreement are for convenience of reference only and shall not be used in, and shall not affect, the construction or interpretation of this Agreement;

(f) the words “include” and “including” are to be construed without limitation and shall be deemed to be followed by “without limitation” or “but not limited to” whether or not they are followed by such phrases;

(g) references to “construction” or “building” include, unless the context otherwise requires, investigation, design, developing, engineering, procurement, delivery, transportation, installation, processing, fabrication, testing, commissioning and other activities incidental to the construction, and “construct” or “build” shall be construed accordingly;

(h) references to “development” include, unless the context otherwise requires, construction, renovation, refurbishing, augmentation, upgradation and other activities incidental thereto, and “develop” shall be construed accordingly;

(i) any reference to any period of time shall mean a reference to that according to Indian Standard Time;

(j) any reference to “hour” shall mean a period of 60 (sixty) minutes commencing either on the hour or on the half hour of the clock, which by way of illustration means 5.00 (five), 6.00 (six), 7.00 (seven) and so on being hours on the hour of the clock and 5.30 (five thirty), 6.30 (six thirty), 7.30 (seven thirty) and so on being hours on the half hour of the clock;

(k) any reference to day shall mean a reference to a calendar day;

(l) reference to a “business day” shall be construed as reference to a day (other than a Sunday and public holiday) on which banks in [Name of the State] are generally open for business;

(m) any reference to month shall mean a reference to a calendar month as per the Gregorian calendar;

(n) any reference to “quarter” shall mean a reference to the period of 3 (three) months commencing from April 1, July 1, October 1, and January 1, as the case may be;

(o) references to any date, period or Project Milestone shall mean and include such date, period or Project Milestone as may be extended pursuant to this Agreement;

(p) any reference to any period commencing “from” a specified day or date and “till” or “until” a specified day or date shall include both such days or dates; provided that if the last day of any period computed under this Agreement is not a business day, then the period shall run until the end of the next business day;

(q) the words importing singular shall include plural and vice versa;

(r) references to any gender shall include the other and the neutral gender;

(s) “lakh” means a hundred thousand (100,000) and “crore” means ten million (10,000,000);
“indebtedness” shall be construed so as to include any obligation (whether incurred as principal or surety) for the payment or repayment of money, whether present or future, actual or contingent;

references to the “winding-up”, “dissolution”, “insolvency”, or “reorganisation” of a company or corporation shall be construed so as to include any equivalent or analogous proceedings under the law of the jurisdiction in which such company or corporation is incorporated or any jurisdiction in which such company or corporation carries on business including the seeking of liquidation, winding-up, reorganisation, dissolution, arrangement, protection or relief of debtors;

save and except as otherwise provided in this Agreement, any reference, at any time, to any agreement, deed, instrument, licence or document of any description shall be construed as reference to that agreement, deed, instrument, licence or other document as amended, varied, supplemented, modified or suspended at the time of such reference; provided that this Sub-clause (u) shall not operate so as to increase liabilities or obligations of the Authority hereunder or pursuant hereto in any manner whatsoever;

any agreement, consent, approval, authorisation, notice, communication, information or report required under or pursuant to this Agreement from or by any Party shall be valid and effective only if it is in writing under the hand of a duly authorised representative of such Party in this behalf and not otherwise;

the Schedules and Recitals to this Agreement form an integral part of this Agreement and will be in full force and effect as though they were expressly set out in the body of this Agreement;

references to Recitals, Articles, Clauses, Sub-clauses, Provisos or Schedules in this Agreement shall, except where the context otherwise requires, mean references to Recitals, Articles, Clauses, Sub-clauses, Provisos and Schedules of or to this Agreement; reference to an Annex shall, subject to anything to the contrary specified therein, be construed as a reference to an Annex to the Schedule in which such reference occurs; and reference to a Paragraph shall, subject to anything to the contrary specified therein, be construed as a reference to a Paragraph of the Schedule or Annex, as the case may be, in which such reference appears;

the damages payable by either Party to the other of them, as set forth in this Agreement, whether on per diem basis or otherwise, are mutually agreed genuine pre-estimated loss and damage likely to be suffered and incurred by the Party entitled to receive the same and are not by way of penalty (the “Damages”); and

time shall be of the essence in the performance of the Parties’ respective obligations. If any time period specified herein is extended, such extended time shall also be of the essence.

1.2.2 Unless expressly provided otherwise in this Agreement, any Documentation required to be provided or furnished by the Concessionaire to the Authority shall be provided free of cost and in three copies, and if the Authority is required to return any such Documentation with their comments and/or approval, they shall be entitled to retain two copies thereof.
1.2.3 The rule of construction, if any, that a contract should be interpreted against the parties responsible for the drafting and preparation thereof, shall not apply.

1.2.4 Any word or expression used in this Agreement shall, unless otherwise defined or construed in this Agreement, bear its ordinary English meaning and, for these purposes, the General Clauses Act, 1897 shall not apply.

1.2.5 The Parties acknowledge that damages for specific defaults prescribed under this Agreement (including the Delay Liquidated Damages, the Performance Liquidated Damages, the Availability Liquidated Damages, and the Power Consumption Liquidated Damages) are a genuine pre-estimate of and reasonable compensation for the loss and damage that shall be suffered by the non-defaulting Party due to failure of the defaulting Party to perform its obligations in accordance with this Agreement, and are not in the nature of a penalty.

1.2.6 Subject to the provisions of this Agreement, the Concessionaire shall be responsible to and indemnify, the State Government and the Authority for the acts and omissions of the Concessionaire Related Parties as if they were the acts and omissions of the Concessionaire and the State Government and the Authority shall be responsible to and indemnify the Concessionaire for the acts and omissions of State Government Related Parties and the Authority Related Parties, respectively, as if they were the acts and omissions of the State Government and the Authority, as the case may be.

1.2.7 Neither the giving of any approval or consent, the review, knowledge or acknowledgement of the terms of any document by or on behalf of the State Government and the Authority, nor the failure to do so, shall, unless expressly stated in this Agreement, relieve the Concessionaire of any of its obligations under this Agreement or of any duty which it may have under this Agreement to ensure the correctness, accuracy or suitability of the matter or thing which is the subject of the approval, consent, review, knowledge or acknowledgement.

1.3 Measurements and arithmetic conventions

All measurements and calculations shall be in the metric system and calculations done to 2 (two) decimal places, with the third digit of 5 (five) or above being rounded up and below 5 (five) being rounded down; provided that the drawings, engineering dimensions and tolerances may exceed 2 (two) decimal places as required.

1.4 Priority of agreements, clauses and schedules

1.4.1 This Agreement, and all other agreements and documents forming part of or referred to in this Agreement are to be taken as mutually explanatory and, unless otherwise expressly provided elsewhere in this Agreement, the priority of this Agreement and other documents and agreements forming part hereof or referred to herein shall, in the event of any conflict between them, be in the following order:

(a) this Agreement; and
(b) all other agreements and documents forming part hereof or referred to herein, i.e. the Agreement at (a) above shall prevail over the agreements and documents at (b).

1.4.2 Subject to the provisions of Clause 1.4.1, in case of ambiguities or discrepancies within this Agreement, the following shall apply:

(a) between two or more Clauses of this Agreement, the provisions of a specific Clause relevant to the issue under consideration shall prevail over those in other Clauses;

(b) between the Clauses of this Agreement and the Schedules, the Clauses shall prevail and between Schedules and Annexes, the Schedules shall prevail;

(c) between any two Schedules, the Schedule relevant to the issue shall prevail;

(d) between the written description on the Drawings and the Specifications and Standards, the latter shall prevail;

(e) between the dimension scaled from the Drawing and its specific written dimension, the latter shall prevail; and

(f) between any value written in numerals and that in words, the latter shall prevail.
ARTICLE 2
SCOPE OF WORK

2.1. **Scope of Work**

The scope of work of the Agreement (the “**Scope of Work**”) shall mean and include, during the Concession Period:

2.1.1. Reclamation of land through Bio-Remediation of Legacy Waste at the [Name of the Municipal Dumpsite(s)] on Design, Build, Operate and Maintain (DBOM) basis;

2.1.2. Design, Build, Operate and Maintain (DBOM) infrastructure and facilities of design capacity of *** lakh metric tonnes for the co-processing/recycling/selling of the Bio-Remediated Legacy Waste at [Name of the Municipal Dumpsite(s)];

2.1.3. Design, Build, Operate and Maintain (DBOM) Processing facility(ies), Material Recovery Facility(ies) and other facilities of similar nature, as per requirement, of design capacity of *** tonnes per day at the site of Sanitary Land Filling (the “SLF”), identified and provided by the Authority for daily processing/recycling/disposal of the fresh municipal solid waste;\(^3\)

2.1.4. Deploy [*] number of decentralized units for Processing of Organic Waste;

2.1.5. Primary and Secondary Collection, Transportation, Processing and Disposal of Solid Waste from Waste Generators in the Project Area to the SLF and decentralized units for Processing and Disposal in accordance with this Agreement;

2.1.6. Dispose/sell processed waste, by-products, recycled products, etc.; and

2.1.7. Discharge the Scope of Services more specifically set out in **Schedule 1.**\(^4\)

---

\(^3\) Depending on the availability of land, or lack thereof, the Authority may allocate a portion of the municipal dumpsite as the site for SLF.

\(^4\) Based on the local requirement, during the construction period, the bio-remediation of legacy and subsequent reclamation of land may operate simultaneously as the construction of processing facility for fresh waste at the municipal dumpsite or both activities may occur one after the other at the municipal dumpsite or both activities may be undertaken simultaneously at different locations within the Project Area.
ARTICLE 3
THE CONCESSION

3.1. Grant of Concession

3.1.1. Subject to and in accordance with the provisions of this Agreement, Applicable Laws and Applicable Permits, the Authority, awards to the Concessionaire the concession set forth herein including exclusive right, license and authority to construct, develop, operate and maintain the Project (the “Concession”), during the period of [24 (twenty four) months] for Bio-Remediation of Legacy Waste at the [Name of the Municipal Dumpsite(s)] as well as Construction of Project Facilities, and Operation and Maintenance Period of [20 (twenty) years] commencing from Commercial Operation Date (the “COD”) of the Processing facilities, and the Concessionaire hereby accepts the Concession and agrees to implement the Project subject to and in accordance with the terms and conditions set forth in this Agreement.

[Provided that the Concessionaire may, at any time no earlier than [5 (five) years], but no later than [2 (two) years] prior to the completion of the Concession Period upon issuing a notice to this effect to the Authority, request for an additional Concession Period on the terms and conditions set out herein and in accordance with the provisions of Article 3.4.]

3.2. Rights Associated with the Grant of Concession

Without prejudice to the generality of foregoing, the Concession hereby granted to the Concessionaire shall oblige or entitle (as the case may be) the Concessionaire to:

3.2.1. the Right of Way, access and license rights to use the Site for the purpose of and to the extent conferred by the provisions of this Agreement;

3.2.2. access to the Site from the Compliance Date, for the sole purpose of implementing the Project, provided, however, to the extent of applicability of Article 14.1.1, the Concessionaire shall be entitled to access the Site prior to the Compliance Date;

3.2.3. To design, engineer, part-finance, procure, construct, install, commission, operate and maintain the Project either itself or through such Person/Sub-Contractor as may be selected by it;

3.2.4. Upon achieving COD of the Project, forming part of the Project, to manage, operate and maintain the same till the Termination Date of the Project;

3.2.5. To obtain financing for the Project in the form of equity or debt, from domestic and from recognized foreign sources, through public issues, private placements or direct borrowings

Depending on the local factors, the parties may mutually decide as to: (a) first, the bio-remediation of legacy waste is carried out, land is reclaimed, and then on that land project facilities such as processing plant/MRF, etc. may be developed; or (b) a portion of land of the municipal dumpsite is assigned to the Concessionaire for construction of project facilities and bio-remediation of legacy waste carries on simultaneously; or (c) while the bio-remediation of legacy waste goes on, project facilities may be developed at a different location and once the land of dumpsite is reclaimed then the project facilities may be shifted to the reclaimed land.
or investment from the capital markets, banks, lending institutions, mutual funds, insurance companies, pension funds, provident funds and any other source as it may deem necessary for implementing the Project; and

Provided that the Authority shall be informed by the Concessionaire as to the creation of any security interest in favour of the Lenders within a period of [14 (fourteen)] days from the date such security interest comes into existence and provide to the Authority within such time, notarized true copies of any and all documents/agreements relating thereto.

Provided further, nothing contained herein shall (i) absolve the Concessionaire from its responsibilities to perform/discharge any of its obligations under and in accordance with the provisions of this Agreement; (ii) authorise or be deemed to authorise the Lenders to implement and execute Project themselves; and (iii) under any circumstances amount to any guarantee from or recourse to the Authority;

3.2.6. To develop SLF facility of design capacity of *** lakh metric tonnes on the Site provided by the Authority for this purpose in accordance with the Legacy Waste Guidelines and other Applicable Laws;

3.2.7. To collect, segregate and Process entire Solid Waste from the Project Area and Dispose the residual inert matter and rejected waste/processing rejects [and air pollution control residue] in SLF facility;

3.2.8. To store, use, appropriate, market and sell or dispose-off all the constituents / products / by-products from the Solid Waste, including but not limited to recyclables, electricity, methane (biogas), refuse derived fuel (the “RDF”), residual inert waste and to further retain and appropriate any revenues generated from the sale of such products/by-products in accordance with this Agreement;

3.2.9. To retain the fiscal incentives and benefits accruing in respect of or on account of the Project including Certified Emission Reductions (CERs) or Verified Emission Reductions (VERs) under Kyoto Protocol / Climate Change initiative;

3.2.10. To obtain the utilities required for enabling the construction of the Project, by fulfilling eligibility conditions (if any) and paying the applicable charges for the utilities;

3.2.11. To hold, possess, control the Sites, in accordance with the terms of the Concession Agreement, for the purposes of the due implementation of the Project;

3.2.12. To appropriate, possess, control and to further, at its sole discretion, utilize, renovate, modify, replace or demolish, free of any cost or charges or any liability for payment of compensation in respect thereof, all the buildings and structures and infrastructure that may be existing on Secondary Collection Points and Sites with reference to Solid Waste management in Project Area;

3.2.13. To develop the Project using such technology to establish [Waste to Energy plant(s) having a processing capacity of [•] TPD and a production capability of [•] MW] and to retain and appropriate any revenues generated from the sale of [energy/residual inert waste]; such
technology should be suitable and commercially viable for the purposes of implementing the Project, in accordance with terms of this Agreement, SWM Rules and Good Industry Practice;

3.2.14. To modify, adapt, upgrade or change the technology, from time to time, based on actual operations of the Processing Project Facility, Good Industry Practices and the requirements of the Project except in respect of the building by-laws, subject to no disruption in services and obligations;

3.2.15. The Concessionaire may, as per requirement and in agreement with the Authority, subject to fulfilling the eligibility conditions and procuring all required approvals from related regulatory/ statutory authorities, develop, operate and maintain additional recycling or Processing facilities on the Site(s), provided that the same does not cause any adverse effect on its Project related obligations or increases in any manner the financial liability (including in relation to land requirement) of the Authority under the Agreement. In the event and so long as the Concessionaire meets the foregoing conditions, the Authority shall render such reasonable assistance that Concessionaire requests in this connection.

3.3. **Concession Period**

3.3.1. Subject to early Termination of this Agreement in accordance with its terms, the term of this Agreement is [22 (twenty two)] years from the Compliance Date (the “Concession Period”) during which the Concessionaire is authorised to implement the Project on Hybrid Annuity Model including management of all facilities and resources required for integrated management of Solid Waste in accordance with the provisions hereof:

Provided that in the event of Termination, the Concession Period shall mean and be limited to the period commencing from the Compliance Date and ending with the Termination Date.

3.3.2. [The Authority shall, at any time prior to the date of expiry of the Concession Period, have the right to grant concession with respect to the Project for a period which it may determine in its sole discretion, after the expiry of the Concession Period, through international competitive bidding amongst developers other than the Authority and any undertaking owned by it. The Authority further agrees that the Concessionaire shall have the right to participate in such competitive bidding and make its offer in accordance with the terms thereof. In the event that the Concessionaire is not the highest bidder, it shall have the first right of refusal to accept the concession, if its bid is in the range of plus-minus (+/-) [10% (ten per cent)] of the highest bid. Provided that the aggregate amounts paid by the Concessionaire to the Authority during the Concession Period in the nature of liquidated damages in accordance with the terms of this Agreement, are not more than [15% (fifteen per cent)] of the amount of the Performance Security or not more than [5 (five)] incidents of Concessionaire Default shall have occurred for [6 (six)] consecutive months during the entire Concession Period. For the purposes of this Article 3.3.3, the aggregate amounts of liquidated damages paid by the Concessionaire to the Authority during the Concession Period shall be calculated at the present value, which shall be taken as on the Execution Date.]
3.4. **[Extension of Concession Period]**

The Authority / State Government may in its sole discretion, in the event the Concessionaire does not commit any Event of Default during the last [5 (five) years] of the Concession Period, agree to extend the Concession after the expiry of the Concession Period on same [or modified] terms and conditions for a term as mutually decided by the Parties by issuing a notice to the Concessionaire by no later than [6 (six)] months prior to the date of expiry of the Concession Period.

Provided that any such extension shall also lead to an extension of license agreement(s) for an equal period so as to make the license agreement co-terminus with extended Concession Period.]
ARTICLE 4
CONDITIONS PRECEDENT

4.1. Conditions Precedent

4.1.1. Save and except as expressly provided in Articles 4, 7, 8, 9, 10, 11, 12, 19, 20, 22, 31, and 32 and any related Schedules or unless the context otherwise requires, the respective rights and obligations of the Parties under this Agreement shall be subject to the satisfaction in full of the conditions precedent specified in this Article 4.1 (the “Conditions Precedent”). Provided, however, that a Party may grant waiver from satisfaction of any Condition Precedent by the other Party in accordance with the provisions of Articles 4.1.2, 4.1.3 or 4.1.4, as the case may be, and to the extent of such waiver, that Condition Precedent shall be deemed to be fulfilled for the purposes of this Article 4.1.1.

4.1.2. Conditions Precedent for Authority

The Concessionaire may, upon providing the Performance Securities to the Authority in accordance with Article 9 and at any time after [15 (fifteen)] days from the Execution Date or on an earlier day acceptable to the Authority, by notice require the Authority to satisfy any or all of the Conditions Precedent set forth in this Article 4.1.2 within a period of [180 (one hundred and eighty)] days of receipt of the notice, or such longer period not exceeding [210 (two hundred and ten)] days as may be specified therein, and the Conditions Precedent required to be satisfied by the Authority shall be deemed to have been fulfilled when the Authority shall have:

(a) Procured for the Concessionaire the Right of Way to the Site(s) in accordance with Article 10;

(b) Provided a portion of land at the Dumpsite as demanded by the Concessionaire for setting up of Project Facilities for Bio-Remediation of Legacy Waste, vacant and free from Encumbrances; provided, however, the Authority may add the task of clearance of a portion of land for setting up of Project Facilities for Bio-Remediation of Legacy Waste at the Dumpsite in the Scope of Work of this Agreement;\(^6\)

(c) Executed and procured execution of Substitution Agreement;

(d) Facilitated and ensured that the Site(s) and vacant and unencumbered possession of all Site(s) handed over to the Concessionaire.

(e) Facilitated the Concessionaire in terms of obtaining all Applicable Permits from the Departments concerned/Competent Authority, if requested by the Concessionaire, including permits in relation to environmental protection and conservation including but not limited to those specified in Schedule 2;

\(^6\)If the Scope of Work is expanded to include the task of clearance of a portion of land for setting up of Project Facilities for Bio-Remediation of Legacy Waste at the Dumpsite, the duration of Construction Period may be increased if required.
(f) Finalized and allocated location for setting up decentralized waste processing units, in consultation with the Concessionaire;

(g) Finalized and allocated Secondary Collection Points, if any, in the Project Area in consultation with the Concessionaire;

(h) Finalized and allocated to the Concessionaire the locations proposed for keeping the Designated Bins;

(i) Provided land for SLF within 3 (three) months from the date of LoA;

(j) Ensure no fresh Waste is dumped at the Dumpsite assigned for Bio-Remediation of Legacy Waste;

(k) [Provided assistance and facilitated in execution of Power Purchase Agreement between the Concessionaire and [Name of the State] Electricity Board;]

(l) [Executed the Inter-LSGI Agreement between the Authority]; and

(m) Provided Access Roads to the Site as per Good Industry Practices.

Provided, that upon request in writing by the Authority, the Concessionaire may, in its discretion, waive the Conditions Precedent set forth in this Article 4.1.2.

4.1.3. **Conditions Precedent for the Concessionaire**

The Conditions Precedent required to be satisfied by the Concessionaire within a period of [90 (ninety)] days from the Execution Date shall be deemed to have been fulfilled when the Concessionaire shall have:

(a) Provided to the State Government and the Authority the copies (certified as true copies by an authorised officer of the Concessionaire) of the constitutional documents of the Concessionaire;

(b) Provided the Performance Securities to the State Government and the Authority pursuant to Article 9;

(c) Prepared and submitted a detailed project report, covering technology proposed, demand assessment, technical feasibility, detailed cost estimates, capital investment plan, project financing details, revenue projections, environment & social impact assessment and detailed financial analysis, to the Authority, consistent with the technical plan submitted during the bidding stage within 3 (three) months from Compliance Date;

(d) Executed the Financing Agreements and delivered to the Authority [3 (three)] true copies thereof, duly attested by a director of the Concessionaire;

(e) Delivered to the Authority [3 (three)] true copies of the Financial Package and the Financial Model, duly attested by a director of the Concessionaire, along with copies of the Financial Model in an editable version either in MS Excel version or any substitute
thereof, which is acceptable to the Senior Lenders;

(f) Achieved financial closure i.e. procured and raised all the funds (debt, equity, etc.) necessary to finance the Project as evidenced by the funding documents becoming effective and the Concessionaire having immediate access to the funds thereunder;

(g) Finalized and taken over Secondary Collection Points in the Project Area in consultation with the Authority;

(h) Provided notarised true copies of its board resolution authorizing the execution, delivery and performance of this Agreement by the Concessionaire;

(i) Executed and procured execution of the Escrow Agreement with the State Government, the Authority, and the Escrow Bank in accordance with Article 19 and Schedule 17;

(j) Procured all Applicable Permits unconditionally or if subject to conditions, then all such conditions required to be fulfilled under such Applicable Permits, have been fulfilled as on date the Concessionaire claims satisfaction of all the Conditions Precedent under this Agreement;

(k) Delivered to the Authority [from the Consortium Members, their respective] confirmation, in original, of the correctness of their representations and warranties set forth in Article 7;

(l) Delivered to the Authority a legal opinion from the legal counsel of the Concessionaire with respect to the authority of the Concessionaire to enter into this Agreement and the enforceability of the provisions thereof;

(m) Provided proof of its shareholding pattern, evidenced by certificates from the authorised signatory of the Concessionaire.

(n) Executed and procured execution of Substitution Agreement with the State Government, the Authority and the Lenders in the agreed form set out in Schedule 9;

(o) Taken over vacant and unencumbered possession of all the Site(s) from the Authority;

(p) [Made an application to [Name of the State] Electricity Regulatory Commission (the “Power Regulator”) for fixing power tariff for the waste processing plant to be paid by the [Name of the State] Electricity Board, as provided Power Purchase Agreement (PPA) signed between Concessionaire and [Name of the State] Electricity Board separately];

(q) Procured at its own cost, water connection, power connection and other service connections to the Site;

Provided that upon request in writing by the Concessionaire, the Authority may in its sole
discretion, waive fully or partially any or all the Conditions Precedent set forth in this Article 4.1.

4.1.4. **Conditions Precedent to be satisfied by the State Government**

The State Government shall satisfy the following Conditions Precedent (if not already fulfilled on the Execution Date):

(a) work with the Authority to appoint the Project Engineer in accordance with Article 13;

(b) execute the Substitution Agreement with the Concessionaire, Authority and the Lenders in the agreed form set out at Schedule 9; and

(c) execute the Escrow Agreement with the Concessionaire, Authority, and the Escrow Bank in the agreed form set out at Schedule 17 and open the Escrow Account with the Escrow Bank;

4.2. **Satisfaction of Conditions Precedent**

4.2.1. Each Party shall make all reasonable endeavours at its respective cost and expense to procure the satisfaction in full of the Conditions Precedent relating to it within a period of [180 (One Hundred & Eighty)] days from the Execution Date (the “Compliance Period”) unless specified otherwise;

4.2.2. The later of the date within such time when the Authority or the Concessionaire fulfills its Conditions Precedent (unless the Authority waives the same for the Concessionaire) shall be the date from which the relevant and respective obligations of the Parties hereunder shall commence (the “Compliance Date”), respectively.

4.2.3. Each Party shall make all reasonable endeavors to satisfy the Conditions Precedent within the time stipulated and shall provide the other Party with such reasonable cooperation as may be required to assist that Party in satisfying the Conditions Precedent for which that Party is responsible.

4.2.4. The Parties shall notify each other in writing at least [once a month] on the progress made in satisfying the Conditions Precedent. Each Party shall promptly inform the other Party when any Condition Precedent for which it is responsible has been satisfied.

4.2.5. The Concessionaire shall, upon satisfaction or waiver, as the case may be, of all the Conditions Precedent, subject to confirmation by the Authority, notify the Authority of the occurrence of the Compliance Date.

4.3. **Damages for delay by the State Government or Authority**

In the event that: (i) the Authority and the State Government does not procure fulfillment or waiver of the Condition Precedent set forth in Articles 4.1.2 and 4.1.4, respectively, within the period specified in respect thereof; and (ii) the delay has not occurred as a result of breach of this Agreement by the Concessionaire or due to Force Majeure Event, the State Government or the Authority shall pay Damages to the Concessionaire of an amount calculated at the rate
of [0.1% (zero point one per cent)] of the Performance Security for each day’s delay until the fulfillment of such Conditions Precedent, subject to a maximum amount equal to the bid security.

4.4. **Damages for delay by the Concessionaire**

In the event that: (i) the Concessionaire does not procure fulfillment or waiver of any or all of the Conditions Precedent set forth in Article 4.1.4 within the period specified in that Article; and (ii) the delay has not occurred as a result of breach of this Agreement by the Authority or the State Government or due to Force Majeure Event, the Concessionaire shall pay Damages to the Authority of an amount calculated at the rate of [0.2% (zero point two per cent)] of the Performance Security for each day’s delay until the fulfillment of the Conditions Precedent, up to the maximum amount equal to the bid security and upon reaching such maximum amount, the Authority may, in its sole discretion and subject to the provisions of Article 23, terminate the Agreement. Provided that in the event of delay by the Authority in procuring fulfillment of the Conditions Precedent specified in Article 4.1.2, no Damages shall be due and payable by the Concessionaire under this Article 4.4 until the date on which the Authority shall have procured fulfillment of the Conditions Precedent specified in Article 4.1.2.

4.5. **Commencement of the Concession Period**

The date on which Financial Close is achieved and all the Conditions Precedent specified in Article 4.1, are satisfied or waived, as the case may be, shall be the Compliance Date which shall be the date of the commencement of the Concession Period. For avoidance of doubt, the Parties agree that the Concessionaire may, upon occurrence of the Compliance Date hereunder, by notice convey the particulars thereof to the Authority, and shall thereupon be entitled to commence development of the Project in accordance with the terms of this Agreement.

4.6. **Non-Compliance with Conditions Precedent**

4.6.1. In the event the Conditions Precedent for Concessionaire have not been satisfied within the stipulated time and the Authority or the State Government has not waived, fully or partially, such conditions relating to the Concessionaire, this Agreement shall cease to have any effect as of that date and shall be deemed to have been terminated by the mutual agreement of the Parties and no Party shall subsequently have any rights or obligations under this Agreement and the Authority or the State Government shall not be liable in any manner whatsoever to the Concessionaire or Persons claiming through or under it;

4.6.2. In the event this Agreement fails to come into effect on account of non-fulfillment of the Concessionaire’s Conditions Precedent, the State Government or the Authority shall be entitled to forfeit and encash the Performance Security;

4.6.3. In the event the Conditions Precedent for the Authority or the State Government have not been satisfied within the stipulated time, then the Concessionaire shall have the option to either: (i) mutually extend the time period for satisfaction of the Conditions Precedent for the Authority or the State Government (as the case may be) or (ii) terminate this Agreement. In the event of termination, the Authority or the State Government shall pay to the
Concessionaire, reasonable development costs, as determined through the mechanism enumerated below. In case of extension of time period for fulfillment of Conditions Precedent for the Authority or the State Government beyond a period of 180 (one hundred and eighty) days from the Compliance Date, the Concession Period shall be proportionately extended for the same period. Parties hereby agree that for determination of the said development cost, the Authority may appoint a financial consultant for determining such development cost, whose determination shall be final, conclusive and binding. The Parties shall share the cost of such financial consultant. For the purpose of this clause the term “Development Cost” shall mean the reasonable cost (if any) incurred by the Concessionaire and as determined in terms above in relation to and limited to any physical development of the Site;

4.6.4. In the event this Agreement fails to come into effect on account of the non-fulfillment of the Authority Conditions Precedent, or the State Government Conditions Precedent, the Authority shall in addition to payment of Development Cost in terms of Article 4.6.3 above, shall return the Performance Securities to the Concessionaire; provided there are no outstanding claims of the Authority on the Concessionaire.

4.7. Termination upon delay

4.7.1. Without prejudice to the Damages for delay prescribed in Articles 4.3 and 4.4 above, the Parties expressly agree that in the event the Compliance Date does not occur, for any reason whatsoever, within a period of [180 (one hundred and eighty)] days from the Execution Date or the extended period provided in accordance with this Agreement, then all rights, privileges, claims and entitlements of the Concessionaire under or arising out of this Agreement shall be deemed to have been waived by, and to have ceased with the concurrence of the Concessionaire and the Agreement may be terminated by the non-defaulting Party. Provided, however, that in the event the delay in occurrence of the Compliance Date is for reasons attributable to the Concessionaire, the Performance Security or the bid security, as the case may be, of the Concessionaire shall be encashed and appropriated by the Authority as Damages thereof.

4.7.2. Instead of terminating this Agreement as provided in Article 4.7.1 above, the Parties may by mutual agreement extend the time for fulfilling the Conditions Precedent. In the event of such extension in time for fulfilling Conditions Precedent, the Concession Period shall also be extended proportionately.
ARTICLE 5
OBLIGATIONS OF THE CONCESSIONAIRE

5.1 General Obligations of the Concessionaire

5.1.1 Subject to and on the terms and conditions of this Agreement, the Concessionaire shall, at its own cost and expense, implement the Project, procure finance for and undertake the development, engineering, procurement, equipping, operation and maintenance of the Project and observe, fulfill, comply with and perform all its obligations set out in this Agreement or arising hereunder.

5.1.2 Perform and fulfill all of the Concessionaire’s obligations with respect to the Project set out in Schedule 1 and under this Agreement;

5.1.3 The Concessionaire shall arrange for and procure, at its own cost and risk, all infrastructure facilities and utilities for the construction, development, operation and maintenance of the Project, including procuring connection for and supply of electricity, water, gas and other utilities as may be necessary or required for the operation of the Project. The Concessionaire shall obtain all Applicable Permits and comply with the conditions there under for the procurement and use of such infrastructure facilities and utilities.

5.1.4 During the Concession Period, the Concessionaire shall obtain from the relevant Government Instrumentalities, the Applicable Permits (other than the Applicable Permits required to be obtained by the Authority under Article 4.1.2) and keep in force and comply with the conditions of all Applicable Permits for the development, Operation and Maintenance of the Project.

5.1.5 The Concessionaire shall comply with all Applicable Laws (including without limitation all public and labour related laws and health, safety, and sanitation laws, as then in force) and conditions of all Applicable Permits (including keeping them valid and in force as required) while performing its obligations under this Agreement. Further, the Concessionaire shall ensure and procure that its Contractors, if any, comply with all Applicable Permits and Applicable Laws during their performance of any of the Concessionaire's obligations under this Agreement.

5.1.6 The Concessionaire shall procure that its Sub-Contractors, if any, shall discharge its obligations in accordance with Good Industry Practice and as a reasonable and prudent person. For the purpose of this Agreement, the discharge of obligations by the Sub-Contractors shall be the obligation of the Concessionaire.

5.1.7 The Concessionaire shall, at its own cost and expense, in addition to and not in derogation of its obligations elsewhere set out in this Agreement:

(a) procure, as required, the appropriate proprietary rights, licences, agreements and permissions for materials, methods, processes and systems used or incorporated into the Project.
(b) perform and fulfill its obligations under the Financing Agreements;

(c) carry out Bio-Remediation of Legacy Waste by employing environment-friendly technologies which are not potentially detrimental or pose harm or risk to the quality of the reclaimed land;

(d) maintain harmony and good industrial relations among the personnel employed by it or its Contractors in connection with the performance of its obligations under this Agreement and shall be solely responsible for compliance with all labour laws and be solely liable for all possible claims and employment related liabilities of its staff employed in relation with the Project and hereby agrees to keep the Authority/ State Government indemnified against any claims, damages, expenses or losses in this regard and in no case and for no purpose shall the Project Engineer/ Authority/ State Government be treated as the employers of the Concessionaire, in this regard;

(e) not do or omit to do any act, deed or thing which may in any manner violates any provision of this Agreement;

(f) always act in a manner consistent with the provisions of this Agreement and not cause or fail to do any act, deed or thing, whether intentionally or otherwise, which may in any manner violate any of the provisions of this Agreement or Applicable Laws and Applicable Permits;

(g) procure that all equipment and facilities comprising the Project are developed, operated and maintained in accordance with the Specifications and Standards, Maintenance Requirements, Safety Requirements as specified in Schedules 3,4 and 5 and Good Industry Practice;

(h) support, cooperate with and facilitate the Authority/ State Government in the implementation and operation of the Project in accordance with the provisions of this Agreement;

(i) to comply with the time lines for setting up the Project Facilities;

(j) endeavour to improve the ancillary conditions and infrastructure related to the Project including assistance to informal recycling workers, procure and maintain in full force and effect, as necessary, appropriate proprietary rights, licenses, agreements and permissions for materials, methods, processes and systems used in or incorporated into the Project;

(k) right to enter into sub-contracts for the purposes of and subject to the terms of this Agreement;

(l) for Bio-Remediation of Legacy Waste and reclamations of land develop, construct and operate the Sanitary Landfill Site at the allocated site in conformity with the terms of this Agreement for disposal of residual inert matter and rejected waste;

(m) be responsible for all the health, security, environment and safety aspects of the Project at all times during the Concession Period;
(n) ensure that the Project remains free from all encroachments and take all steps necessary to remove encroachments, if any;

(o) upon receipt of a request thereof, afford access to the Project to the authorised representatives of the Project Engineer/ Authority/ State Government for the purpose of ascertaining compliance with the terms, covenants and conditions of this Agreement;

(p) bear all expenses towards uniforms, safety gear and waste handling equipment to all the waste lifters and drivers;

(q) ensure that the project is operational on all calendar days of the year;

(r) be responsible for the conduct of its staff employed for this project while on duty;

(s) shall obtain approval from transport department as applicable and obtain fitness certificate for the vehicles each year before the due date and shall bear any cost or expense associated with this;

(t) to operate, maintain, repair and renovate the project assets and project facilities, in accordance with, inter alia, the Applicable Laws, Applicable Permits and the requirements;

(u) submit the Operational Plan to the Authority (with a copy to the State Government) at least 1 (one) month before proposed Commencement Date and get the same approved;

(v) commence Secondary Collection and Transportation of the Solid Waste from the Designated Bins and Collection Points within the Project Area at least [60 (sixty)] days prior to COD, during the Trial Operations period;

(w) intimate to the Project Engineer, the Authority, and the State Government, the date of commencement of the Secondary Collection and Transportation (the “Commencement Date”) at least 2 (two) weeks in advance, and place the Designated Bins at the locations at least 2 (two) days before actual date of commencement of Secondary Collection and Transportation services;

(x) procure, acquire and put into place at its own cost and expenses all the Project Assets and Project Facilities required by the Concessionaire to implement the Project during the Pre-COD Period so as to achieve COD within the time stipulated in this Agreement;

(y) promptly rectify and remedy any defects or deficiencies, at its own cost, if any pointed out by the Project Engineer in the Inspection Report and furnish a report within the stipulated time period in respect thereof to the Project Engineer;

(z) comply with all the performance parameters as specified in KPIs, set forth in Article 18;

(aa) to carry out all necessary test(s) and get the approvals as per Applicable Law and in conformity with Good Industry Practices, prior to achieving COD;
(bb) pay all taxes, duties and outgoings, including utility charges relating to the project;

(cc) handover/transfer the Sites and immovable Project Facilties to the Authority upon Termination of this Agreement, in accordance with the provisions thereof;

(dd) provide live GPS feed of movement of transportation vehicles, camera feeds at weighbridge of Site to the Project Engineer, as and when sought by the Project Engineer;

(ee) be responsible and indemnify the Authority/ State Government for any accident due to negligence or otherwise in the performance of the project; and

(ff) submit compliance as required to environmental agency and shall provide all information related to project as would be required by the Project Engineer/ Authority/ State Government pursuant to any RTI query or any issue raised in State Assembly/ Parliament; and

5.2 **Obligations relating to Project Agreements**

5.2.1. It is expressly agreed that the Concessionaire shall, at all times, be responsible and liable for all its obligations under this Agreement. Notwithstanding anything contained in the Project Agreements or any other agreement, and no default under any Project Agreement or any other agreement shall excuse the Concessionaire from its obligations or liability hereunder.

5.2.2. Before finalisation, the Concessionaire shall submit to the Authority and the State Government the drafts of all Project Agreements and the operation and maintenance contract (if any) or any amendments or replacements thereto for its review and comments, and the Authority and the State Government shall have the right but not the obligation to undertake such review and provide its comments and observations, if any, to the Concessionaire. Concessionaire shall appropriately make amendments as per review/comments/observations and re-submit the same to the Authority and the State Government for its review. Within [7 (seven)] days of execution of any Project Agreement or amendment thereto, the Concessionaire shall submit to the Authority and the State Government a true copy thereof, duly attested by a Director of the Concessionaire, for its record. For avoidance of doubt, it is agreed that the review and comments/ observations by the Authority / State Government on any Project Agreement or failure or omission of the Authority / State Government to review and/ or comment hereunder shall not be construed or deemed as acceptance of any such agreement or document by the Authority/ State Government. No observation and/or review of the Authority/ State Government and/or its failure to review and/or convey its observations on any document shall relieve the Concessionaire of its obligations and/or liabilities under this Agreement in any manner whatsoever nor shall the Authority/ State Government be liable for the same in any manner whatsoever.

5.2.3. The Concessionaire shall not make any addition, replacement or amendments to any of the Financing Agreements without the prior written consent of the Authority/ State Government if such addition, replacement or amendment has, or may have, the effect of imposing or
increasing any financial liability or obligation on the Authority/ State Government, and in the event that any replacement or amendment is made without such consent, the Concessionaire shall not enforce such replacement or amendment nor permit enforcement thereof against the Authority/ State Government. For avoidance of doubt, the Authority / State Government acknowledges and agrees that it shall not unreasonably withhold its consent for restructuring or rescheduling of the debt of the Concessionaire.

5.2.4. Notwithstanding anything to the contrary contained in this Agreement, the Concessionaire shall not sub-lease, sub-license, assign or in any manner create an Encumbrance on any of the Project Assets as the case may be, without prior written approval of the Authority/ State Government, which approval the Authority may, in its discretion, deny if such sub-lease, sub-license, assignment or Encumbrance has or may have a Material Adverse Effect on the rights and obligations of the Authority/ State Government under this Agreement or Applicable Laws.

5.2.5. The Concessionaire shall procure that each of the Project Agreements contains provisions that entitle the Authority/ State Government to step into such agreement, in its sole discretion, in substitution of the Concessionaire in the event of Termination or Suspension (the “Covenant”). For the avoidance of doubt, it is expressly agreed that in the event the Authority/ State Government does not exercise such rights of substitution within a period not exceeding [90 (ninety)] days from the Termination Date, the Project Agreements shall be deemed to cease to be in force and effect on the Termination Date without any liability whatsoever on the Authority/ State Government and the Covenant shall expressly provide for such eventuality. The Concessionaire expressly agrees to include the Covenant in all its Project Agreements and undertakes that it shall, in respect of each of the Project Agreements, procure and deliver to the Authority/ State Government an acknowledgment and undertaking, in a form acceptable to the Authority/ State Government, from the counter party(ies) of each of the Project Agreements, where such counter party(ies) shall acknowledge and accept the Covenant and undertake to be bound by the same and not to seek any relief or remedy whatsoever from the Authority/ State Government in the event of Termination or Suspension.

5.3 No Breach of Obligations

The Concessionaire shall not be considered to be in breach of its obligations under this Agreement nor shall it incur or suffer any liability if and to the extent performance of any of its obligations under this Agreement is affected by or on account of any of the following:

(i) Force Majeure Event, subject to Article20;
(ii) Authority Event of Default;
(iii) State Government Event of Default;
(iv) Compliance with the instructions of the Project Engineer/ Authority/ State Government or the directions of any Government Agency other than instructions issued as a consequence of a breach by the Concessionaire of any of its obligations hereunder;

5.4 Concessionaire's Representative

To fulfill the Concessionaire’s obligations and for implementation of the Project in
accordance with this Agreement, the Concessionaire shall deploy representative(s) (the “Concessionaire Representative”) on its behalf including a team leader (the “Team Leader”). The Team Leader shall have full authority to act on behalf of the Concessionaire for all matters relating to this Agreement and shall be an overall in charge to ensure implementation of the project in accordance with the provisions hereof. The Team Leader shall closely co-ordinate with the Project Engineer/Authority/ State Government and shall be responsible to ensure redressal on an immediate basis, any objections, observations, shortcomings, defects or defaults pointed out by the Project Engineer during routine inspections and project review meetings and submit action take report to the Project Engineer/Authority/ State Government within a period not later than 7 (seven) days from the date of conveying of such defect/shortcoming. The Team Leader or its nominee shall make themselves available for meetings as and when called upon by the Project Engineer, the State Government and the Authority.

5.5 Sole purpose of the Concessionaire

The Concessionaire having been set up for the sole purpose of exercising the rights and observing and performing its obligations and liabilities under this Agreement, the Concessionaire or any of its subsidiaries shall not, except with the previous written consent of the Project Engineer/Authority/ State Government, be or become directly or indirectly engaged, concerned or interested in any business other than as envisaged herein.

5.6 Engagement of trained personnel

The Concessionaire shall ensure that the personnel engaged by it in the performance of its obligations under this Agreement are at all times properly skilled and trained for their respective functions.

5.7 Equity Lock-in requirements

The Concessionaire acknowledges that:

5.7.1. The Selected Bidder shall hold [100% (one hundred per cent)] shareholding in the paid-up Equity capital of the Concessionaire until expiration of [1 (one)] year from COD, [51% (fifty one per cent)] shareholding in the paid-up Equity capital until expiration of [10 (ten)] years from COD and thereafter [26% (twenty six per cent)] shareholding in the paid up equity capital during the remaining Concession Period.

Provided that in case the Selected Bidder is a Consortium of entities, then the lead member (the “Lead Member”) of such Consortium and the member whose credentials were considered for prequalification for bid, shall have the majority equity share holding of the paid-up Equity capital of the Concessionaire and that all the members of the Consortium together shall hold [100% (one hundred per cent)] Equity capital of the Concessionaire, until expiry of [1 (one)] year from COD, [51% (fifty one percent)] shareholding in the paid-up Equity capital until expiration of [10 (ten)] years from COD and thereafter [26% (twenty six per cent)] shareholding in the paid-up Equity capital during the remaining Concession period.
Provided further that a member of the Consortium meeting either the Technical Capacity or the Financial Capacity shall subscribe at least 10% (ten per cent) of the paid-up and subscribed Equity of the SPV until the 2\textsuperscript{nd} (second) anniversary of the COD for member meeting the Technical Capacity and until the 1\textsuperscript{st} (first) anniversary of the COD for the member meeting the Financial Capacity.

5.7.2. Any violation in the shareholding pattern in the equity lock-in requirements would be treated as Concessionaire Event of Default.

5.7.3. **Exit from Consortium**

(a) Any Consortium member other than the Lead Member shall be allowed to exit the Consortium anytime during the Concession Period post-COD and the Lead Member will be allowed to replace/absorb the shares and responsibilities of other Consortium members, subject to approval from Authority and the State Government which will not be unreasonably withheld.

(b) Notwithstanding the provisions of Article 5.7.3(a) above, the member of the Consortium responsible for carrying out Bio-Remediation of Legacy Waste may be allowed to exit the Consortium before COD, subject to receipt of Completion Certificate from the Authority upon satisfactory completion of works.

5.8. **Obligations relating to management of the Concessionaire**

5.8.1. The Concessionaire shall not, without the prior written approval of the Authority and the State Government, undertake or cause to be undertaken, any action for all or any of the following or any matter incidental or consequential thereto:

(a) to alter or add to the provisions of the memorandum of association;

(b) to alter or add to the articles of association;

(c) to change the name of the Concessionaire;

(d) to reduce the share capital;

(e) to commence any new lines of business;

(f) to enter into any contract or agreement with a related party with respect to such related party’s appointed to any office or place of profit in the company, its subsidiary company or associate company;

(g) to make inter-corporate-loans and investments or guarantee or security (except where such security or payment is to be made to the Authority) to be given, if the aggregate amount thereof, exceeds the limit of [30% (thirty per cent)] of the Concessionaire’s paid-up share capital;
(h) to apply for corporate insolvency proceedings under the Insolvency and Bankruptcy Code, 2016;

(i) for various other matters pertaining to the winding up of the Concessionaire; and

(j) any other matter which is required by the Companies Act to be passed by a special resolution of the shareholders of the Concessionaire.

For the purposes of this clause, a “related party” shall have the meaning ascribed to it under the Companies Act, 2013.

5.9 **EHS Standards and L&FS Standards**

5.9.1. The Concessionaire shall at all times and throughout the Concession Period (designing, development, construction, operation and maintenance) comply with Applicable Laws including the relevant Environmental, Health and Safety (the “**EHS**”) Rules and Regulations and life and fire safety Standards (the “**L&FS Standards**”).

5.9.2. The Concessionaire shall prepare and comply with the performance standards, including an environmental and sustainability plan stating how the Concessionaire intends to manage and mitigate risks in relation to EHS. Such performance standards shall take into consideration the principles set out in:

(a) [National EHS regulations;]

(b) Real Estate (Regulation and Development) Act, 2016;

(c) National Building Code of India published by BIS and other statutory BIS standards applicable to projects of similar nature; and

(d) L&FS Standards.]\(^7\)

5.10 **Obligations relating to Taxes**

The Concessionaire shall pay, at all times during the subsistence of this Agreement, all Taxes, levies, duties, cesses and all other statutory charges payable in respect of the Project. Provided, however, that all payments made by the Concessionaire with respect to GST levied on or in respect of any services provided by the Concessionaire to the Authority / State Government for and in respect of the Project shall be paid by the Authority / State Government upon receipt of particulars thereof.

5.11 **Obligations relating to information**

5.11.1. Without prejudice to the provisions of Applicable Laws, Applicable Permits and this Agreement, upon receiving a notice from the Authority/ State Government for any

---

\(^7\)This list may be added to depending upon the specific laws of the state in which the Project is to be set up.
information that it may reasonably require or that it considers may be necessary to enable it to perform any of its functions, the Concessionaire shall provide such information to the Authority forthwith and in the manner and form required by the Authority/State Government.

5.11.2. After receiving a notice from the Authority/State Government for reasoned comments on the accuracy and text of any information relating to the Concessionaire’s activities under or pursuant to this Agreement which the Authority/State Government proposes to publish, the Concessionaire shall provide such comments to the Authority in the manner and form required by the Authority/State Government.

5.12 **Obligations relating to other charges**

The Concessionaire shall make timely payments for all utility services in respect of the Sites, including water, sewage, electricity, telecommunication, internet and cable charges, etc.
ARTICLE 6
OBLIGATIONS OF THE AUTHORITY

6.1. General Obligations of the Authority

6.1.1. The Authority shall, at its own cost and expense, undertake, comply with and perform all its obligations set out in this Agreement.

6.1.2. Subject to and in accordance with the provisions of this Agreement and Applicable Laws, the Authority agrees to provide support to the Concessionaire and undertakes to observe, comply with and perform the following:

(a) identify and earmark / allocate parcel(s) of land, by itself, within or outside the Project Area for the purpose of setting up of Project Facilities including SLF, Processing Project Facility and decentralized units, etc., for scientific management of Solid Waste;

(b) primary collection, Transportation, Processing and Disposal of Solid Waste until the COD;

(c) conduct an aerial survey using latest technology such as LIDAR to determine the indicative quantum and type of waste in the Legacy Waste Dumpsite and make this information available in the [Request for Qualification/Request for Proposal];

(d) upon written request from the Concessionaire, and subject to the Concessionaire complying with Applicable Laws, provide reasonable support and assistance to the Concessionaire in procuring Applicable Permits required from any Government Instrumentality for implementation and operation of the Project, subject to the Concessionaire submitting its applications complete in all respects in a timely manner. The Authority agrees and undertakes that it shall not unreasonably delay or withhold provision of any such reasonable support or assistance to the Concessionaire;

(e) upon written request from the Concessionaire, provide reasonable assistance to the Concessionaire in obtaining access to all necessary infrastructure facilities and utilities, including water and electricity at rates and on terms no less favourable to the Concessionaire than those generally available to commercial customers receiving substantially equivalent services;

(f) provide the Sites on lease and license basis free from Encumbrance to the Concessionaire and ensure that no barriers are erected or placed on or about the Sites by any Government Instrumentality or persons claiming through or under any Government Instrumentality, except for reasons of Safety Requirements, Emergency, national security, or law and order;

(g) not do or omit to do any act, deed or thing which may in any manner violate the provisions of this Agreement;

Subject to Sub-Clauses 5.1.8 (w) and (x), the Authority and Concessionaire may arrive at a mutual agreement that during Trial Operation Period, the primary waste collection and transportation may be carried out by the Authority but processed and disposed by the Concessionaire.
(h) support, cooperate with and facilitate the Concessionaire in the implementation and operation of the Project in accordance with the provisions of this Agreement;

(i) upon written request from the Concessionaire, execute the Substitution Agreement;

(j) engage an independent monitoring and appraisal entity (Project Engineer) who shall monitor, supervise, and review Concessionaire’s progress details/activities. The Concessionaire shall submit monthly reports to the Project Engineer regarding progress of the Project. The Project Engineer shall validate the data provided by the Concessionaire in monthly progress reports;

(k) undertake on its own or through the Project Engineer, the development and management of ICT (Information Communication and Technology) and IoT (Internet of Things) based infrastructure (including sensors and video analytics) for monitoring the project, including but not limited to, GPS tracking of vehicles, Sensor based weight measurement in transportation vehicles, electronic weigh bridges at Site, surveillance cameras at Sites, etc., and a central command centre for all waste management projects in [Name of the State];

(l) make timely payments as prescribed in Article 17;

(m) observe and comply with all obligations set forth in this Agreement, and any other Agreement to be executed with the Concessionaire;

(n) handover to the Concessionaire within [24 (twenty four) months] of the Execution Date, the existing infrastructure of Secondary Collection Points on an ‘as is where is’ basis, if any;

(o) facilitate in a timely manner all such approvals, permissions and authorisations which Concessionaire may require or is obliged to seek from them under this Agreement, in connection with implementation of the Project and the performance of its obligations. Provided where authorization for availing permits for utilities such as power, water, sewerage, telecommunications or any other incidental services/utilities is required, the same shall be provided by the Authority within [30 (thirty)] days from receipt of such request from the Concessionaire, subject to the conditions of the applications / details submitted being complete and correct.

(p) approve the Operational Plan within [a week] of its submission by the Concessionaire;

(q) maintain the Minimum Escrow Balance;

(r) collect user fee as for door-to-door collection of solid waste.

6.2. Obligations relating to refinancing

Without prejudice to any rights or remedies of the Authority under this Agreement or otherwise, upon request made by the Concessionaire to this effect, the Authority shall, in
conformity with any regulations or guidelines that may be notified by the Government Instrumentality, permit and enable the Concessionaire to secure refinancing on such terms as may be agreed upon between the Concessionaire and the entity providing such refinancing; [provided, however, that the refinancing hereunder shall always be subject to the prior consent of the Authority, which consent shall not be unreasonably withheld. The Authority shall endeavor to convey its decision on such request of the Concessionaire within [30 (thirty)] days of receipt of the proposal by the Authority. ] For the avoidance of doubt, the tenure of debt refinanced hereunder may be determined mutually between the Senior Lenders and the Concessionaire, but the repayment thereof shall be completed no later than 1 (one) year prior to expiry of the Concession Period.

9 Alternately, a metric may be developed to serve the objective of refinancing based on net present value and/or internal rate of return, etc. E.g., a) If the interest rates offered may be reduced by say 2% points from the base case or b) Tenure is increased by say 2 years or c) If the new offer from a lender improves the base case financial model/projections resulting in an NPV increase of say Rs. 20 Cr.
ARTICLE 7
REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

7.1. Representations and Warranties of the Parties

Each Party represents and warrants to the others that:

(a) It is duly organized, validly existing and in good standing under the laws of India;

(b) It has full power and authority to execute, deliver and perform its obligations under this Agreement and to carry out the transactions contemplated hereby;

(c) It has taken all necessary corporate and other action under Applicable Laws and its constitutional documents to authorize the execution, delivery and performance of this Agreement;

(d) It has the financial standing and capacity to undertake the Project;

(e) This Agreement constitutes its legal, valid and binding obligation fully enforceable against it in accordance with the terms hereof;

(f) It is subject to civil and commercial laws of India with respect to this Agreement and it hereby expressly and irrevocably waives any immunity in any jurisdiction in respect thereof; and

(g) It shall have an obligation to disclose to the other Party as and when any of its representations and warranties ceases to be true and valid.

7.2. Representations and Warranties of the Concessionaire

The Concessionaire represents and warrants to the Authority and the State Government that:

(a) it is duly organised and validly existing under the laws of India, and hereby expressly and irrevocably waives any immunity in any jurisdiction in respect of this Agreement or matters arising thereunder including any obligation, liability or responsibility hereunder;

(b) it has full power and authority to execute and perform its obligations under this Agreement and to carry out the transactions contemplated hereby;

(c) it has taken all necessary corporate and other actions under Applicable Laws to authorise the execution and delivery of this Agreement and to validly exercise its rights and perform its obligations under this Agreement;

(d) it has the financial standing and capacity to undertake the Project in accordance with the terms of this Agreement;
(e) this Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with the terms hereof, and its obligations under this Agreement shall be legally valid, binding and enforceable obligations against it in accordance with the terms hereof;

(f) all undertakings and obligations of the Concessionaire arising from the {RFP/RFQ} or otherwise shall be binding on the Concessionaire as if they form part of this Agreement;

(g) it is subject to the laws of India, and hereby expressly and irrevocably waives any immunity in any jurisdiction in respect of this Agreement or matters arising thereunder including any obligation, liability or responsibility hereunder;

(h) the information furnished in the Bid and as updated on or before the Execution Date is true and accurate in all respects as on the Execution Date;

(i) the execution, delivery and performance of this Agreement shall not conflict with, result in the breach of, constitute a default under, or accelerate performance required by any of the terms of its memorandum and articles of association or any Applicable Laws or any covenant, contract, agreement, arrangement, understanding, decree or order to which it is a party or by which it or any of its properties or assets is bound or affected;

(j) there are no actions, suits, proceedings, or investigations pending or, to its knowledge, threatened against it at law or in equity before any court or before any other judicial, quasi-judicial, Government Instrumentality or other authority, the outcome of which may result in the breach of this Agreement or which individually or in the aggregate may result in any material impairment of its ability to perform any of its obligations under this Agreement;

(k) it has no knowledge of any violation or default with respect to any order, writ, injunction or decree of any court or any legally binding order of any Government Instrumentality which may result in any Material Adverse Effect on its ability to perform its obligations under this Agreement and no fact or circumstance exists which may give rise to such proceedings that would adversely affect the performance of its obligations under this Agreement;

(l) it has complied with Applicable Laws in all material respects and has not been subject to any fines, penalties, injunctive relief or any other civil or criminal liabilities which in the aggregate have or may have a Material Adverse Effect on its ability to perform its obligations under this Agreement;

(m) the SPV is duly organised and validly existing under the laws of the jurisdiction of its incorporation, and has requested the Authority to enter into this Agreement pursuant to the Letter of Award, and has agreed to and unconditionally accepted the terms and conditions set forth in this Agreement;

(n) all its rights and interests in the Project shall pass to and vest in the Authority on the Termination Date free and clear of all liens, claims and Encumbrances without any further act or deed on its part or that of the Authority, and that none of the Project Assets shall be acquired by it Subject to any agreement under which a security interest or other lien or Encumbrance is retained by any person, save and except as expressly provided in this Agreement;
(o) no representation or warranty given by it contained herein or in any other document furnished by it to the Authority or the State Government, including the Bid or to any Government Instrumentality in relation to Applicable Permits contains or shall contain any untrue or misleading statement of material fact or omits or shall omit to state a material fact necessary to make such representation or warranty not misleading;

(p) no sums, in cash or kind, have been paid or shall be paid, by it or on its behalf, to any person by way of fees, commission or otherwise for securing the Concession or entering into this Agreement or for influencing or attempting to influence any officer or employee of the Authority in connection therewith;

(q) all information provided by the Concessionaire in response to the {Request for Proposals/Qualification} or otherwise, is to the best of its knowledge and belief, true and accurate in all material respects;

(r) agree that the execution, delivery and performance by it of this Agreement and all other agreements, contracts, documents and writings relating to this Agreement constitute private and commercial acts and not public or government acts;

(s) consents generally in respect of the enforcement of any judgment against it in any proceedings in any jurisdiction to the giving of any relief or the issue of any process in connection with such proceedings; and

(t) the Concessionaire shall not venture into or continue any business which is in direct or indirect competition with the Project. In the event the Concessionaire engages in such activities, the same shall constitute a fundamental breach of this Agreement by the Concessionaire;

(u) all undertakings and obligations of the Concessionaire arising from the {Request for Proposals/Qualification} or otherwise shall be binding on the Concessionaire as if they form part of this Agreement

(v) further representations as may be added depending on the specific circumstances of the Concessionaire.

7.3. **Representations and Warranties of the Authority**

The Authority represents and warrants to the Concessionaire that:

(a) it has full power and authority to execute, deliver and perform its obligations under this Agreement and to carry out the transactions contemplated herein and that it has taken all actions necessary to execute this Agreement, exercise the rights and perform the obligations specified under this Agreement on behalf of the Authority.

(b) it has taken all necessary actions under the Applicable Laws to authorize the execution, delivery and performance of this Agreement.
(c) it has the financial standing and capacity to perform its obligations under this Agreement.

(d) this Agreement constitutes a legal, valid and binding obligation enforceable against it in accordance with the terms hereof.

(e) it has no knowledge of any violation or default with respect to any order, writ, injunction or any decree of any court or any legally binding order of any Government Instrumentality which may result in any material adverse effect on the Authority’s ability to perform its obligations under this Agreement;

7.4. **Representations and Warranties of the State Government**

The State Government represents and warrants to the Concessionaire and the Authority that:

(a) it has the financial standing and legal capacity to execute this Agreement and perform its obligations under this Agreement;

(b) it has taken all necessary approvals to execute this Agreement and perform its obligations under this Agreement;

(c) this Agreement constitutes legal, valid and binding obligations enforceable against it in accordance with the terms hereof; and

(d) it has complied with all Applicable Laws and Applicable Permits in all material respects.

7.5. **Disclosure**

(a) In the event that any occurrence or circumstance comes to the attention of either Party that renders any of its aforesaid representations or warranties untrue or incorrect, such Party shall immediately notify the other Party of it. Such notification shall not have the effect of remedying any breach of the representation or warranty that has been found to be untrue or incorrect nor shall it adversely affect or waive any right, remedy or obligation of a Party under this Agreement.

(b) Neither the Authority nor any of its agents or employees shall be liable to the Concessionaire in contract, tort, including negligence or breach of statutory duty, statute or otherwise as a result of:

(i) any inaccuracy, omission, unfitness for any purpose of inadequacy of any kind whatsoever in the data disclosed by the Authority to the Concessionaire in relation to the Project; and/or

(ii) any failure to make available to the Concessionaire any materials, documents, drawings, plans or other information relating to the Project.
ARTICLE 8
DISCLAIMER

8.1. The Concessionaire acknowledges that prior to the execution of this Agreement, the Concessionaire has, after a complete and careful examination, made an independent evaluation of the Request for Proposals, Scope of the Project, Specifications and Standards, Site, existing structures, local conditions, physical qualities of ground, subsoil and geology, and all information provided by the Authority/ State Government or obtained procured or gathered otherwise, and has determined to its satisfaction the accuracy or otherwise thereof and the nature and extent of difficulties, risks and hazards as are likely to arise or may be faced by it in the course of performance of its obligations hereunder. The Authority/ State Government makes no representation whatsoever, express, implicit or otherwise, regarding the accuracy, adequacy, correctness, reliability or completeness of any assessment, assumption, statement or information provided by it and the Concessionaire confirms that it shall have no claim whatsoever against the Authority/ State Government in this regard.

8.2. The Concessionaire acknowledges and hereby accepts the risk of inadequacy, mistake or error in or relating to any of the matters set forth in Article 8.1 above and hereby acknowledges and agrees that the Authority/ State Government shall not be liable for the same in any manner whatsoever to the Concessionaire, Associates or any person claiming through or under any of them.

8.3. The Parties agree that any mistake or error in or relating to any of the matters set forth in Article 8.1 above shall not vitiate this Agreement or render it voidable.

8.4. In the event that either Party becomes aware of any mistake or error relating to any of the matters set forth in Article 8.1 above, that Party shall immediately notify the other Party, specifying the mistake or error; provided, however, that a failure on part of the Authority/ State Government to give any notice pursuant to this Article 8.4 shall not prejudice the disclaimer of the Authority/ State Government contained in Article 8.1 and shall not in any manner shift to the Authority any risks assumed by the Concessionaire pursuant to this Agreement.

8.5. The Concessionaire accepts that it is solely responsible for the verification of any design, data, documents or information provided by the Authority/ State Government, any Government Authority or their consultants and advisors to the Concessionaire and that it shall accept and act thereon at its own cost and risk.

8.6. The Concessionaire shall be solely responsible for the contents, adequacy and correctness of the design, data, drawings and detailed engineering prepared or procured by the Concessionaire for implementing the Project.
ARTICLE 9
PERFORMANCE SECURITIES AND MOBILIZATION ADVANCE GUARANTEES

9.1. Performance Security

9.1.1. The Concessionaire shall for the due and punctual performance of its obligations hereunder relating to the Project simultaneously with the execution of this Agreement, furnish an unconditional and irrevocable bank guarantee, in favor of the State Government and the Authority, in the form as set out in Schedule 6\(^\text{10}\), (the “Performance Security”) for a sum of Rs. [*] (Rupees [*]) or corresponding to [9\% (nine per cent)] of the Bid Project Cost till receipt of Completion Certificate of reclaimed land post Bio-remediation of Legacy Waste. A fresh bank guarantee of will issued one month before construction of Processing facilities and valid until COD. Post-COD, the Performance Security shall be reduced to [25\% (twenty five per cent)] to Rs. [*] (Rupees [*]) till the end of Concession Period or till the Termination Date, as the case may be.

9.1.2. The Performance Security or the amount retained by the State Government or the Authority as cash security shall be returned after the expiry of 30 (thirty) days from the COD, unless this Agreement is terminated earlier, in which case the Performance Security will be returned within 30 (thirty) days from the date of termination, subject to the State Government’s or the Authority’s right to receive any amounts from the Concessionaire under this Agreement.

9.1.3. The Performance Security shall secure the due performance of all the Concessionaire's obligations during the Construction Period.

9.2. ESHS Performance Security

9.2.1. The Concessionaire shall have submitted to the State Government and the Authority, prior to the Execution Date an unconditional and irrevocable bank guarantee for an amount equal to Rs. [*] (Rupees [*]), corresponding to [1\% (one per cent)] of the Bid Project Cost (the “ESHS Performance Security”).

9.2.2. The ESHS Performance Security shall be valid until the Termination of the Agreement. The ESHS Performance Security shall have an initial validity period till COD, which must thereafter be renewed on a year-on-year basis, before the expiry of the 11th (eleventh) month of the relevant year, until the expiry of the O&M Period. If any of the ESHS Performance Security is not renewed by the expiry of the 11th (eleventh) month of the relevant year, then the State Government or the Authority shall be entitled to drawdown the total amount available under the ESHS Performance Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the ESHS Performance Security.

9.2.3. The ESHS Performance Security shall secure the due performance of the Concessionaire's ESHS obligations during the Construction Period and the O&M Period, as set out in the approved ESHS Documents.

\(^{10}\) Same format may be used for ESHS Performance Security and O&M Security and Technology Performance Security, if any.
9.3. O&M Security

9.3.1. As Condition Precedent to the COD, within 60 (sixty) days of the Construction Completion Date, or 30 (thirty) days before COD, whichever is earlier, the Concessionaire shall furnish an unconditional and irrevocable bank guarantee to the State Government and the Authority, for an amount equal to Rs. [*] (Rupees [*]), corresponding to [4% (four per cent)] of the Bid Project Cost (the “O&M Security”).

9.3.2. The Concessionaire shall furnish the O&M Security in the same format as provided for the Performance Security in the RFP, with necessary modifications. The Concessionaire shall maintain the O&M Security in full force and effect until the expiry of the O&M Period. The O&M Security shall have an initial validity period of 1 (one) year, which must be renewed on a year-on-year basis, before the expiry of the 11th (eleventh) month of the relevant year, until the Termination of the Concession Agreement.

9.3.3. The O&M Security shall secure the due performance of all the Concessionaire’s obligations during the O&M Period.

9.4. Extension of Performance Securities

9.4.1. If the Performance Security is scheduled to expire before the COD, then the Concessionaire shall arrange for an extension of the Performance Security at least 30 (thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, the State Government and the Authority shall be entitled to drawdown the total amount available under the Performance Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the Performance Security, that is scheduled to expire.

9.4.2. If the ESHS Performance Security is scheduled to expire before the expiry of the O&M Period, the Concessionaire shall replace or arrange for an extension of the ESHS Performance Security at least 30(thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, the State Government and the Authority shall be entitled to drawdown the total amount available under the ESHS Performance Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the ESHS Performance Security.

9.4.3. If any O&M Security is not renewed by the expiry of the 11th (eleventh) month of the relevant year of the O&M Period, then the State Government and the Authority shall be entitled to drawdown the total amount available under the O&M Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the O&M Security.

9.5. Encashment of Performance Securities by the State Government and the Authority

9.5.1. The decision of the State Government or the Authority as to any breach/ delay having been committed, liability accrued or loss or damage caused or suffered shall be conclusive, absolute and binding on the Concessionaire and the Concessionaire specifically confirms and agrees that no proof of any amount of liability accrued or loss or damages caused or suffered
by the State Government or the Authority under this Concession Agreement is required to be provided in connection with any demand made by the State Government or the Authority to recover such compensation through appropriation of the relevant amounts from the Performance Security/O&M Security/ESHS Performance Security under this Agreement.

9.5.2. In the event of encashment of the Performance Security/O&M Security/ESHS Performance Security by the State Government or the Authority, in full or part, the Concessionaire shall within 15 (fifteen) days of receipt of the encashment notice from the State Government or the Authority provide a fresh Performance Security/O&M Security/ESHS Performance Security or replenish (in case of partial appropriation) the existing Performance Security, as the case may be. The provisions of this Article shall apply mutatis mutandis to such fresh Performance Security/O&M Security/ESHS Performance Security. The Concessionaire’s failure to comply with this provision shall constitute a default or breach of the Concession Agreement by the Concessionaire, which shall entitle the State Government and the Authority to terminate this Concession Agreement in accordance with the provisions hereof.

Provided that if the Agreement is terminated due to any event other than a Concessionaire Event of Default, the Performance Security if subsisting as of the Termination Date shall subject to the State Government’s and the Authority’s right to receive amounts, if any, due from the Concessionaire under this Agreement, be duly discharged and released to the Concessionaire.

9.6. Utilization of retained amount

9.6.1. The State Government and the Authority shall be entitled to utilize the retained amount in the same manner as it would utilise the Performance Security, the ESHS Performance Security or the O&M Security, as the case may be.

(a) Upon receipt of a renewed or replacement Performance Security within 30 (thirty) days of the COD or expiry / termination of the Agreement, the State Government or the Authority shall return the unutilized cash security amount for the Performance Security to the Concessionaire.

(b) Upon receipt of a renewed or replacement ESHS Performance Security within 30 (thirty) days of the expiry / termination of the Term, the State Government or the Authority shall return the unutilized cash security amount for the ESHS Performance Security to the Concessionaire.

(c) Upon receipt of a renewed or replacement O&M Security within 30 (thirty) days of the expiry / termination of the O&M Period, the State Government or the Authority shall return the unutilized cash security amount for the O&M Security to the Concessionaire.

(d) The interest earned on any retained amounts on cash security shall be the property of the State Government and the Authority and the State Government or the Authority shall not be required to account to the Concessionaire for any such interest.

9.6.2. The State Government and the Authority shall have the right to draw on the Performance Securities and claim up to the amount guaranteed upon the Concessionaire's failure to satisfy
any Condition Precedent or honour any of its obligations, responsibilities or commitments during the Construction Period, or any amount due and payable by the Concessionaire to the State Government or the Authority (including any Delay Liquidated Damages), in accordance with this Agreement.

9.6.3. The State Government and the Authority shall have the right to draw on the O&M Securities and claim up to the amount guaranteed upon the Concessionaire's failure to honour any of its obligations, responsibilities or commitments during the O&M Period, or any amount due and payable by the Concessionaire to the State Government or the Authority (including any Availability Liquidated Damages), in accordance with this Agreement.

9.6.4. Without prejudice to its right to draw on the Performance Securities or, as the case may be, the O&M Securities, the State Government and the Authority shall have the right to draw on the ESHS Performance Securities and claim up to the amount guaranteed upon the Concessionaire's failure to honour any of its ESHS related obligations, responsibilities or commitments during the Construction Period or the O&M Period, as set out in the approved ESHS Documents, in accordance with this Agreement.

9.6.5. Bank Guarantees would not be released in case of breach by the Concessionaire of any of the terms of the Agreement.

9.7. **Cost to be borne by Concessionaire**

The cost of procuring the Performance Security, the ESHS Performance Security and the O&M Security shall be borne solely by the Concessionaire.

9.8. **Demand under Performance Securities**

9.8.1. The State Government or the Authority shall not be required to give any prior notice to the Concessionaire of its intention to make a demand under the Performance Securities, the ESHS Performance Securities or the O&M Securities, as the case may be. However, the State Government and the Authority shall provide the Concessionaire with a copy of any demand notice issued by them under the Performance Securities, the ESHS Performance Securities or the O&M Securities, simultaneously with the issuance of the demand notice to the Scheduled Bank that has issued the relevant Performance Security, ESHS Performance Security or the O&M Security.

9.8.2. If the State Government or the Authority makes a demand under any Performance Security and/or ESHS Performance Security and/or O&M Security, in part or in full, the Concessionaire shall immediately and in no event later than 15 (fifteen) days of such demand, restore the value of such Performance Security, ESHS Performance Security or O&M Security to the amount stated in Sub-Clauses 9.1.1, 9.2.1 and 9.3.1.

9.9. **Release of Performance Security by the State Government and the Authority**

9.9.1. Within 30 (thirty) days from the COD or the termination of this Agreement, whichever is earlier, the Performance Securities or, as the case may be, the amount retained by the State Government or the Authority as cash security, shall be released to the Concessionaire after the
expiry of 30 (thirty) days from the COD or termination of this Agreement, subject to the State Government’s and the Authority’s right to receive any amounts from the Concessionaire before or upon COD or Transfer Date.

9.9.2. Upon the expiry of the O&M Period or the termination of this Agreement, whichever is earlier, the O&M Securities, the ESHS Performance Securities or, as the case may be, the amount retained by the State Government or the Authority as cash security, shall be released to the Concessionaire after the expiry of 30 (thirty) days from the Termination of this Agreement, subject to the State Government’s and the Authority’s right to receive any amounts from the Concessionaire before or upon Transfer Date.

9.10. Mobilization Advance Guarantee

9.10.1. Within 30 (thirty) days of the Compliance Date, the Concessionaire shall submit to the State Government and the Authority: (i) an unconditional and irrevocable bank guarantee for an amount equal to 110% (one hundred and ten per cent) of the Mobilization Advance for the Project Facilities in the form set out at Schedule 7 (the “Mobilization Advance Guarantee”); and the Mobilization Advance Guarantee shall secure the Mobilization Advance paid to the Concessionaire in accordance with Article 17. The cost of procuring the Mobilization Advance Guarantees shall be borne solely by the Concessionaire.

9.10.2. The Mobilization Advance Guarantee shall remain valid until the entire Mobilization Advance secured by such Mobilization Advance Guarantee has been adjusted against the Construction Payments. However, the Concessionaire may, at its discretion, progressively reduce the value of the relevant Mobilization Advance Guarantee by the amount of the Mobilization Advance adjusted against each of the 5 (five) installments of the Construction Payments, in accordance with Article 17. For this purpose, the Concessionaire shall be required to furnish a replacement Mobilization Advance Guarantee of the reduced amount within 15 (fifteen) days of receipt of a Payment Certificate from the Authority on successful completion of the relevant Payment Milestone. The State Government and/or the Authority shall return the relevant existing Mobilization Advance Guarantee upon receipt of a replacement Mobilization Advance Guarantee from the Concessionaire.

9.10.3. If any Mobilization Advance Guarantee is scheduled to expire before the entire Mobilization Advance has been adjusted, then the Concessionaire shall arrange for an extension of the relevant Mobilization Advance Guarantee at least 30 (thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, the State Government and the Authority shall be entitled to drawdown the total amount available under such Mobilization Advance Guarantee and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the Mobilization Advance Guarantee.

9.10.4. The State Government and the Authority shall be entitled to utilize such retained amount in the same manner as it would utilize the Mobilization Advance Guarantee. Upon receipt of an extension or replacement Mobilization Advance Guarantee or on adjustment of the entire Mobilization Advance, the State Government and/or the Authority shall return the unutilized cash security amount to the Concessionaire.
9.10.5. The interest earned on any retained amounts or cash security shall be the property of the State Government and the Authority and the State Government or the Authority shall not be required to account to the Concessionaire for any such interest.

9.10.6. The State Government and the Authority shall have the right to draw on the Mobilization Advance Guarantees in the event of the inadequate adjustment of the Mobilization Advance in accordance with Article 17, prior to the Construction Completion Date.

9.10.7. The State Government or the Authority shall not be required to give any prior notice to the Concessionaire of its intention to make a demand under any Mobilization Advance Guarantee. However, the State Government and the Authority shall provide the Concessionaire with a copy of any demand notice issued by the State Government or the Authority under a Mobilization Advance Guarantee, simultaneously with the issuance of the demand notice to the Scheduled Bank that has issued the Mobilization Advance Guarantee.

9.11. [Technology Performance Security]
In accordance with Article 14.2.1 (e) (iv), the Concessionaire shall have submitted to the State Government and the Authority, prior to the Execution Date, an unconditional and irrevocable bank guarantee to the Authority, issued by the technology provider, for an amount equal to INR [_____________] (Rupees [_____________]), corresponding to 5% (five per cent) of the aggregate Bid Project Cost (the “Technology Performance Security”)

In the event of the Selected Bidder having submitted Additional Performance Security in accordance with the RFP document, then such Additional Performance Security shall be in force till the end of Construction period if the Bid Project Cost is found to be unreasonable, and till the end of the Concession Period if O&M Charges are found to be unreasonable. Notwithstanding anything contained herein, the Additional Performance Security shall be liable to be forfeited either fully or partially by the State Government or the Authority as it deems fit for the reasons mentioned in Article 24 of the Concession Agreement. The Additional Performance Security for the unreasonable Bid Project cost shall be returned 30 (thirty) days after COD and the Additional Performance Security for O&M Charges shall be returned at the end of Concession Period.

11To be deleted if not applicable
ARTICLE 10
THE SITES

10.1. The Sites

10.1.1. The Sites of the Project Facilities shall comprise of the land as described in Schedule 8, and in respect of which the Rights of Way shall be provided and granted by the Authority to the Concessionaire on a leave and license basis under and in accordance with this Agreement (the “Sites”).

10.1.2. The Sites would include (but not limited to) land for setting up of Project Facilities relating to Bio-Remediation of Legacy Waste (at the Municipal Landfill/Dumpsite), Processing and Material Recovery Project Facility (at the reclaimed Municipal Landfill/Dumpsite), decentralized units for Processing of Organic Waste, Secondary Collection Points, etc.

10.1.3. Without prejudice and subject to the Agreement, the ownership of the Project except Sites, including all improvements made therein by the Concessionaire, during the Concession Period, shall at all times remain with the Concessionaire.

10.2. Grant of License over the Site

10.2.1. Authority shall grant the Concessionaire a license over the Site along with all necessary Rights of Way, to enter upon, access and occupy the Sites, free of all Encumbrances in accordance with this Article 10, Applicable Laws, and Applicable Permits. The license granted to the Concessionaire shall include the exclusive right to:

(a) design, construct, commission, operate and maintain during the O&M Period, the Project Facilities necessary for implementation of the Project at various Sites, in accordance with the SWM Rules, Legacy Waste Guidelines and other Applicable Laws;

(b) install, operate, use, maintain, and remove such equipment, devices or other structures and improvements on, over, or under the Sites, as may be necessary or appropriate for the operations and activities required or permitted under this Agreement;

(c) use Access Roads, gates, fences and utilities at or about the Sites;

(d) construct, use, operate, maintain, replace and repair electric lines, telecommunication lines, water supply networks and other utilities required to undertake the Project at the Sites.

10.2.2. On and from the Compliance Date and subject to the provisions of this Agreement, Authority shall grant the Concessionaire: (i) license over the Sites including the exclusive right to occupy and use the Sites to construct the Project Facilities; and (ii) all necessary Rights of Way to the Sites. Any charges payable for obtaining the Right of Way will be paid directly by Authority.

10.2.3. Authority shall provide the Site to the Concessionaire free of Encumbrances and
encroachments as a Condition Precedent. If the Concessionaire discovers any hazardous substances at the time of handover of the Site by Authority, Authority will remove such hazardous substances at its own cost and expense. The Concessionaire’s acceptance of the Sites at the time of Authority’s handover/giving access to the Sites shall be deemed to be unconditional acceptance and that there were no hazardous substance or any possible form of obstruction to the project at the time of handover of Sites and concessionaire shall be barred from raising any such issues, whatsoever, after the handover or having access to the Sites.

10.2.4. The Concessionaire shall not without the prior written consent or approval of Authority use the Sites for any purpose other than to undertake the Project and purposes incidental thereto, as permitted under this Agreement or as may be otherwise approved by Authority.

10.2.5. The full ownership and title over the Sites shall vest with Authority for the entire Concession Period.

10.2.6. Authority warrants that the Concessionaire shall, subject to complying with the terms and conditions of this Agreement, occupy the Sites, from such time that access is granted to the Concessionaire and until the expiry of the Concession Period or early termination of this Agreement. If the Concessionaire is obstructed by any Person claiming any right, title or interest in or over the Sites or any part thereof or in the event of any enforcement action including any attachment, distraint, appointment of receiver or liquidator being initiated by any Person claiming to have a charge on the Site or any part thereof, Authority shall, if called upon by the Concessionaire, defend such claims and proceedings.

10.2.7. Subject to any substitution rights exercised by the Lenders, the license granted by Authority shall automatically terminate upon termination of this Agreement or expiry of the Concession Period.

10.2.8. The Concessionaire hereby irrevocably appoints the Authority (or its nominee) to be its true and lawful attorney, to execute and sign in the name of the Concessionaire a transfer or surrender of the rights granted hereunder at any time after the Concession Period has expired or has been Terminated in terms hereof, whichever is earlier, a sufficient proof of which shall be the declaration of any duly authorised officer of the Authority, and the Concessionaire consents to it being registered for this purpose.

10.2.9. Termination of the Agreement shall automatically terminate the license granted over the Sites.

10.3. Site Data and Verification

10.3.1. Authority has made available to the Concessionaire, the layout plans, aerial survey of the Legacy Waste Dumpsite, load flow studies and all other relevant data, studies and reports in Authority’s possession in connection with the Sites.

10.3.2. The Concessionaire shall be deemed to have obtained all necessary information as to risks, contingencies and other circumstances which may influence or affect the implementation of the Project at the Sites.

10.3.3. The Concessionaire shall also be deemed to have inspected and examined the Site and its
surroundings, analysed and verified the accuracy and reliability of the studies, reports and data provided by Authority and any other information available with respect to the Sites and to have satisfied itself as to all the relevant matters including:

(a) the nature of the Site, including the subsurface, hydrological, climatic and general physical conditions of the Site;

(b) the suitability of the Site for undertaking the construction and operation of the Project;

(c) the condition of the utilities available till the battery limits of the Sites;

(d) the extent, nature and availability of labour, material, transport, accommodation, storage facilities and other facilities and resources necessary to undertake the Project;

(e) the nature of design, construction work and O&M services necessary for the performance of its obligations under this Agreement;

(f) Applicable Laws and Applicable Permits required to be obtained and maintained to undertake the Project;

(g) the risk of injury or damage to Adjoining Property and to the occupiers of such property or any other risk;

(h) the suitability and adequacy of any access roads to the Sites and other utilities and facilities to be provided by the relevant Government Authority; and

(i) all other matters that may affect the performance of its obligations under this Agreement.

Subject to Clause 10.3, the Concessionaire acknowledges and agrees that if any error or discrepancy is subsequently discovered in the data made available by Authority, then the Authority and the Concessionaire may mutually arrive at a decision regarding any extension of the Scheduled Payment Milestone Completion Date, the Scheduled Construction Completion Date and/or compensation for additional costs incurred caused due to such error or discrepancy. Provided that the Concessionaire shall not be entitled to any extension as mentioned above, nor shall it be open to the Concessionaire to justify any default or delay on the ground of the Concessionaire having not visited or acquainted itself with the Sites and Sites’ conditions in any manner whatsoever. Further, any misinterpretation of the data, studies and reports provided by Authority shall not relieve the Concessionaire from the performance of its obligations under this Agreement on the ground that it could not reasonably be expected to have foreseen any of the matters listed in Clause 10.3.3 above, which affect or may affect the Project or the performance of any of its obligations under this Agreement.

10.4. [Unforeseen Site Conditions]

Without prejudice to Clause 10.3 above, if during the execution of the Project, the Concessionaire encounters any adverse physical conditions, which could not have been
reasonably foreseen by acting in accordance with Good Industry Practices, the Concessionaire may seek a Variation in accordance with Article 28. Upon receipt of a request for a Variation due to unforeseen Site conditions, if, in the opinion and sole discretion of Authority, such conditions could not have been reasonably foreseen by a prudent developer acting in accordance with Good Industry Practices, then Authority shall issue a Variation Order in accordance with Article 28. Any decision of Authority regarding the existence of any unforeseen Site conditions shall be final and binding.

10.5. Site Related Covenants

10.5.1. The Concessionaire agrees and undertakes that:

(a) the Concessionaire shall not transfer, alienate, assign, dispose of, sub-license or create any Security over any part of the Site or its rights and interest in the Site, other than as specifically permitted under this Agreement;

(b) the Concessionaire shall not allow any encroachment on, or unauthorized occupation of any part of the Site and in the event of any encroachment or unauthorized occupation, the Concessionaire shall immediately cause such encroachment or any unauthorized occupants to be removed from the Site. The Concessionaire shall not be entitled to any extension of time or costs incurred in removal of any encroachment or any unauthorized occupants from the Site;

(c) the grant of any rights to a Sub-Contractor or any other third party shall not interfere with or hinder the performance of the Concessionaire's obligations under this Agreement;

(d) the Concessionaire shall be wholly responsible for safety at and security of the Sites and the Project Facilities developed;

(e) the Concessionaire shall take all necessary measures to confine its operations, personnel and equipment to the Site and not encroach on any Adjoining Property;

(f) all minerals, fossils, articles of value or antiquity, structures and other remains or things of geological or archaeological interest and other objects with historic, antique or monetary value discovered at, on or under any of the Sites shall be dealt with in accordance with Applicable Laws and the Concessionaire shall take all necessary precautions to prevent its or its Sub-Contractor's personnel from removing or damaging any such article or thing. Further, immediately upon the discovery of any such article or thing of value, the Concessionaire shall inform Authority of such discovery and carry out the instructions of Authority in this regard;

(g) the Concessionaire shall make good any damage to any roads, footpaths, conduits, and other works on any Adjoining Property, which is caused by the Concessionaire or the Concessionaire Related Parties;

(h) the Concessionaire shall not do or permit to be done anything which might:
(i) cause destruction, scarring or defacing of natural surroundings in the vicinity of the Site;
(ii) be or become a danger or nuisance or give rise to liability in tort to any owners or occupiers of the Adjoining Property or to members of the public; or
(iii) cause any contamination or damage to any Adjoining Property,

and the Concessionaire shall, at its own expense, take all reasonable measures and precautions to avoid any such danger, nuisance, tort, damage or interference and shall make good any damage so caused.

If the construction works and/or the O&M services cannot be carried out without interfering with the rights of the owner or occupier of any Adjoining Property, the Concessionaire shall promptly and at its own cost obtain all necessary third party consents and/or the approval of the concerned Government Authority(ies) to undertake such construction works and/or the O&M services. Authority shall provide all assistance to the Concessionaire for procuring such approvals.

(i) The Concessionaire shall not sub-license whole or any part of the Sites.

(j) The Concessionaire shall obtain and maintain the Applicable Permits in such sequence as is consistent with the requirements of the Project. The Concessionaire shall be responsible and shall be in compliance with the terms and conditions subject to which Applicable Permits have been issued.

(k) During the Concession Period, the Concessionaire shall protect the Sites from any and all occupations, encroachments or Encumbrances, and shall not place or create nor permit any Contractor or other person claiming through or under the Concessionaire to place or create any Encumbrance or security interest over all or any part of the Sites or the Project Facilities, or on any rights of the Concessionaire therein or under this Agreement, save and except as otherwise expressly set forth in this Agreement.

(l) The Concessionaire may landscape and develop the Sites and regulate the use thereof in accordance with the Good Industry Practice and in conformity with the provisions of this Agreement.

10.6. Access to State Government Related Parties and Authority Related Parties

10.6.1. The Concessionaire shall ensure that the State Government Related Parties, and the Authority Related Parties have access to the Sites and the license granted to the Concessionaire over the Site shall always be subject to:

(a) the rights of Authority, Authority's Representative, State Government’s Representative, the Project Engineer, and other Authority Related Parties or State Government Related Parties to enter upon and access the Site to inspect and monitor the progress of the Project, and for the exercise of their rights and the performance of their obligations under this Agreement, provided that Authority and State Government shall ensure that the exercise of the inspection or monitoring rights do not impede or obstruct the construction and/or operation of the Project in any manner whatsoever; and
(b) the rights of the utility providers to enter upon and access the Sites for laying or installing telegraph lines, electric lines or for any other public purpose.

If any physical damage is caused to the Sites or the Project Facilities as a result of such access and use of the Sites by Authority, Authority’s Representative, State Government Representative, the Project Engineer, and other Authority Related Parties or State Government Related Parties then the Authority or the State Government shall bear the costs of remedying such damage and restoring the Sites and the Project Facilities.

10.7. Sites to be free from Encumbrances

The Sites shall be made available by the Authority to the Concessionaire pursuant hereto free from all Encumbrances and occupations and without the Concessionaire being required to make any payment to the Authority on account of any costs, compensation, expenses and charges for the acquisition and use of such Sites for the duration of the Concession Period, except insofar as otherwise expressly provided in this Agreement. For avoidance of doubt, it is agreed that existing Rights of Way, easements, privileges, liberties and appurtenances to the Sites shall not be deemed to be Encumbrances. It is further agreed that the Concessionaire accepts and undertakes to bear any and all risks arising out of the inadequacy or physical condition of the Sites.
ARTICLE 11
UTILITIES AND ASSOCIATED ROADS

11.1. Existing utilities and roads

Notwithstanding anything to the contrary contained herein, the Concessionaire shall ensure that the Government Instrumentalities owning the existing roads, Right of Way or utilities, on, under or above the Site are enabled by it to keep such utilities in continuous satisfactory use, if necessary, by providing suitable temporary or permanent diversions with the authority of the relevant Government Instrumentality. Further, the Authority shall, upon written request from the Concessionaire, initiate and undertake at the Concessionaire's cost, legal proceedings for acquisition of any Right of Way necessary for such diversion.

11.2. Shifting of obstructing utilities

The Concessionaire shall, subject to Applicable Laws, provisions of Applicable Permits and with the assistance of the Authority, undertake shifting of any utility, including electric lines, water pipes and telephone cables, to an appropriate location or alignment within or outside the Site, if and only if such utility causes or shall cause a Material Adverse Effect on the construction, operation or maintenance of Project. The cost of such shifting shall be borne by the Concessionaire, and in the event of any delay in shifting thereof, the Concessionaire shall be excused for failure to perform any of its obligations hereunder if such failure is a direct consequence of delay on the part of the entity owning such electric lines, water pipes or telephone cables, as the case may be.

11.3. Felling of Trees

The Authority and the State Government shall assist the Concessionaire in procuring the Applicable Permits for felling of trees to be identified by the Concessionaire for this purpose if and only if such trees cause a Material Adverse Effect on the construction, operation or maintenance of the Project. In the event of any delay in felling thereof for reasons beyond the control of the Concessionaire, it shall in the sole discretion of the Authority/State Government, be excused for failure to perform any of its obligations hereunder if such failure is a direct consequence of delay in the felling of trees. For avoidance of doubt, the costs and expense in respect of felling of trees shall be borne by the Concessionaire and any revenues thereof shall be paid to the Authority/State Government.
ARTICLE 12
FINANCIAL CLOSURE AND SUBSTITUTION AGREEMENT

12.1. General Obligations

12.1.1 The Concessionaire expressly agrees and undertakes that it shall itself be responsible to arrange for financing and/or meeting all financing requirements for the Project at its cost and shall enter into Financing Agreements with the Lenders for the same. To this end, the State Government and the Authority shall co-operate with the Concessionaire to achieve Financial Closure, including providing such consents and waivers as may be reasonably required by the Lenders.

12.1.2 The Concessionaire hereby agrees and undertakes that it shall achieve Financial Closure within [90 (ninety)] days from the date of this Agreement and in the event of delay, it shall be entitled to a further period not exceeding [90 (ninety)] days, subject to payment of Damages to the Authority in a sum calculated at the rate of 0.1% (zero point one per cent) of the Performance Security for each day of delay.

12.1.3 Damages specified herein shall be payable every week in advance and the period beyond the said [90 (ninety)] days shall be granted only to the extent of Damages so paid; provided further that no Damages shall be payable if such delay in Financial Closure has occurred solely as a result of any default or delay by the Authority in procuring satisfaction of the Conditions Precedent specified in Article 4 or due to Force Majeure.

12.1.4 In case of a Concessionaire Event of Default, the State Government and the Authority acknowledge that the Lenders will have a right to substitute the Concessionaire in accordance with Article 25 and the Substitution Agreement. The Authority will suspend its right to step-in or terminate this Agreement until the expiry of the period available to the Lenders to exercise their substitution rights under Article 25.

12.1.5 The Concessionaire shall, upon occurrence of Financial Closure, notify the Project Engineer/Authority forthwith, and shall have provided to the Project Engineer/Authority, at least 2 (two) days prior to Financial Closure, 3 (three) true copies of the Financial Package and the Financial Model, duly attested by a Director of the Concessionaire, along with 3 (three) soft copies of the Financial Model in Microsoft Excel version or any substitute thereof, which is acceptable to the Senior Lenders.

12.1.6 The Concessionaire shall maintain books of accounts recording all its receipts (including fees and other revenues derived/collected by it from or on account of any of the Project Facilities and/or its use), income, expenditure, payments (including payments from the Escrow Account), assets and liabilities, in accordance with this Agreement, Good Industry Practice, Applicable Laws and Applicable Permits.

12.1.7 The Concessionaire shall not make any addition, replacement or amendments to any of the Financing Agreements without the prior written consent of the Authority if such addition, replacement or amendment has, or may have, the effect of imposing or increasing any financial liability or obligation on the Authority, and in the event that any replacement or amendment is made without such consent, the Concessionaire shall not enforce such
replacement or amendment nor permit enforcement thereof against the Authority. For avoidance of doubt, the Authority acknowledges and agrees that it shall not unreasonably withhold its consent for restructuring or rescheduling of the debt of the Concessionaire.

12.2. Security Creation

12.2.1. The Concessionaire shall be entitled to create assignment by way of Security over all of its rights, title and interests in and to the Concession Agreement and the Escrow Agreement in favour of the Lenders for the purpose of obtaining Financial Assistance for the Project, provided that the creation of such Security will not result in any financial liability to the Authority or the State Government.

12.2.2. The Concessionaire shall be entitled to include the Lenders as co-insured and/or additional loss payees in any of the insurances taken by the Concessionaire in accordance with Article 27 and/or grant Security over the proceeds of such insurance.

12.2.3. Except for any Security created by operation of law and any Security created pursuant to this Article 12.2, the Concessionaire shall not be entitled to create any other Security over the Concession Agreement, the Escrow Agreement or insurance policies taken by it in favour of any third Persons, without the prior written consent of the Authority, which consent the Authority may deny in its sole discretion.

12.2.4. The Concessionaire shall not be entitled to create any Security over the Site or any part thereof, or any of the Project Facilities whether in favour of the Lenders or any third Persons.

12.3. Termination due to failure to achieve Financial Closure

Notwithstanding anything to the contrary contained in this Agreement, in the event that Financial Closure does not occur, for any reason whatsoever, within the period set forth in this Article or the extended period provided thereunder, all rights, privileges, claims and entitlements of the Concessionaire under or arising out of this Agreement shall be deemed to have been waived by, and to have ceased with the concurrence of the Concessionaire, and the Concession Agreement shall be deemed to have been terminated by mutual agreement of the Parties. In case of Termination due to such event, the State Government or the Authority shall have the right to forfeit the Performance Security or bid security. For the avoidance of doubt, it is agreed that in the event the Parties hereto have, by mutual consent, determined the Compliance Date to precede the Financial Closure, the provisions of this Article shall not apply.

12.4. Substitution Agreement

12.3.1 This Agreement shall not be assigned by the Concessionaire. Provided, however, subject to the provisions of this Agreement, Lenders may be given the right of substitution by execution of the Substitution Agreement in the form annexed hereto as Schedule 9.

12.3.2 The Lenders may exercise the rights of step in or substitution as provided in the Substitution Agreement provided that the Nominated Company substituting the Concessionaire shall enjoy
all rights and be responsible for performing/ fulfilling all obligations of the Concessionaire under this Agreement.
Provided that in the event the Lenders are unable to substitute the Concessionaire by Nominated Company as per the provisions of the Substitution Agreement, the Authority shall proceed to terminate the Agreement.
ARTICLE 13
PROJECT ENGINEER\(^{12}\)

13.1. **Project Engineer**

The State Government and the Authority shall appoint a third-party engineering firm with requisite technical expertise, knowledge and experience in the [design, engineering, construction, development, and operation] of [bio-remediation of legacy waste, waste processing facilities, material recovery facilities, and other machinery and facilities forming part of the integrated solid waste management system] as the engineer for the Project (the “**Project Engineer**”). The Project Engineer shall assist the State Government and the Authority in supervising the development of all the amenities and facilities required as basic and support infrastructure for implementation of the Project including construction/renovation, operation and maintenance of facilities for Bio-Remediation of Legacy Waste and the integrated Solid Waste management system such as infrastructure, collection and transportation vehicles, ICT infrastructure, machinery and equipment procured, inherited, installed and operated and all other Project related physical assets (the “**Project Facilities**”) and shall support Authority to monitor compliance with the KPIs during the O&M period. The detailed scope of work of the Project Engineer is set out in **Schedule 10**.

13.2. **Remuneration**

All fees, costs, charges and expenses payable to the Project Engineer shall be borne by the State Government and the Authority.

13.3. **Replacement of Project Engineer**

13.3.1. The Concessionaire may request the State Government or the Authority to replace the Project Engineer if the Concessionaire believes that the Project Engineer is not performing its duties in accordance with this Agreement or is otherwise impeding the performance of the Concessionaire's obligations under this Agreement.

13.3.2. The State Government or the Authority may replace the Project Engineer in any of the following circumstances:

(a) if it has reason to believe that the Project Engineer has not discharged its duties in accordance with this Article and/or **Schedule 10**; or  
(b) has received a formal complaint from the Concessionaire. In such a case the State Government or the Authority will make necessary investigations and it is established that the Project Engineer has not discharged its duties in accordance with this Article and/or **Schedule 10**; or  
(c) if the Project Engineer submits its resignation.

13.3.3. In appointing any replacement of the Project Engineer, the State Government and the Authority shall comply with this Article and **Schedule 10**.

---

\(^{12}\)To be replaced with Project Management Unit should the Authority choose to opt for the PMU Model. The detailed provisions of PMU have been provided as an option.
13.4. **Duties of Project Engineer**

13.4.1. The Project Engineer shall be required to act independently, reasonably, fairly and expeditiously to ensure:

(a) the timely completion of construction of the Project Facilities on or before the Scheduled Construction Completion Date; and

(b) compliance with the KPIs during the O&M Period.

13.4.2. The Project Engineer shall at all times during the Concession Period have the right to enter upon and access the Site. The Concessionaire shall have the right to accompany the Project Engineer during its inspection of the Project Facilities.

13.4.3. During the Construction Period, the Project Engineer shall inspect the Project Facilities at least once a month and prepare an inspection report, setting out the progress of the construction of the Project Facilities, defects or deficiencies, if any, and status of compliance with the Construction Plan, Specifications and Standards, and Designs and Drawings. The Project Engineer shall send the report to Authority and the Concessionaire within 7 (seven) days of such inspection, pursuant to which, the Concessionaire shall be required to rectify the defects or deficiencies, if any, identified by the Project Engineer.

13.4.4. During the O&M Period, the Project Engineer shall inspect the Project Facilities at least once a month and prepare an inspection report, setting out the defects or deficiencies, if any, and status of compliance with the KPIs (including specifically, the Influent Standards and the Discharge Standards). The Project Engineer shall send the report to Authority and the Concessionaire within 7 (seven) days of such inspection, pursuant to which, the Concessionaire shall be required to rectify the defects or deficiencies, if any, identified by the Project Engineer. The Project Engineer shall also have the right to verify the results of the tests undertaken by the Concessionaire at any time during the O&M Period of the quality of the compost or any other by-products created during waste management processes which are intended to be sold in the market.

13.4.5. The Project Engineer shall, at all times, have the right to attend any meetings held by the Concessionaire to review the progress of the construction or O&M of the Project Facilities, and to provide its comments/suggestions regarding the progress as well as the manner in which the construction works, or O&M services is being undertaken. Neither any comments/suggestions provided by the Project Engineer nor any failure to provide comments/suggestions shall be deemed to be an acceptance of the construction works or the O&M services or a waiver of the Concessionaire's obligations to implement the Project, in accordance with this Agreement, the Technical Specifications, the Designs and Drawings, the ESHS Documents, and all Applicable Laws and Applicable Permits.

13.5. Except as specifically provided in this Agreement, the Project Engineer shall have no authority, whether express or implied, to amend, vary or curtail any of the rights or obligations of the Parties.

13.6. The Concessionaire agrees that notwithstanding any review by the Project Engineer of any or all of the construction works or O&M services, the Concessionaire shall bear all risk, responsibility and liability for the quality, adequacy and suitability of the Project Facilities.
ARTICLE 13
PROJECT MANAGEMENT UNIT

13.1 Composition

The State Government and the Authority shall appoint project level Project Management Unit (the “PMU”) comprising of a project manager, representative(s) of the Authority, and experts from relevant fields (including a third-party engineering firm). There shall also be a representative of Concessionaire in the Project Management Unit.13

13.2 Role of the PMU

The PMU is expected to play a key role in discharging its functions as an extension to the State Government and the Authority, thereby facilitating the smooth implementation and operation of the Project. Broadly, the role of the PMU is to:

13.2.1. review, monitor and where required by the Agreement, to approve activities associated with the design, construction, operation and maintenance of the Project;
13.2.2. report to the Parties on the various physical, technical and financial aspects of the Project based on inspections, PMU site visits and Tests;
13.2.3. assist the Parties in arriving at an amicable settlement of disputes should the need arise; and
13.2.4. review matters related to safety and environment management measures adopted by the Concessionaire for the Project.

13.3 Duties and functions

13.3.1. The PMU shall have the overall responsibility of monitoring and supervision of the Project.
13.3.2. The PMU shall coordinate with the State Government and the Authority and keep them updated on all activities and approvals accorded to the Concessionaire on a regular basis.
13.3.3. Further, any event of default by PMU as part of its obligations shall be treated as State Government Event of Default or the Authority Event of Default (as the case may be) and its consequence thereof.

13.4 Scope of Services

The services to be provided by the PMU are listed below. In addition, the scope of services would also include such other functions as are required to be undertaken pursuant to specific provisions of the Agreement.

13.4.1. Design and Planning

(a) Ensure that all activities of the Project fully comply with all Applicable Laws and, governing the requirements of Municipal Solid Waste disposal in India in particular,

---

13 If the Project is partly-funded by a Financial Institution (FI) such as the World Bank, International Development Agency, etc., a representative from the respective FI may also be a part of the PMU.
SPCB and CPCB standards for air, water and land.

(b) Review of the implementation plan submitted by the Concessionaire.

13.4.2. Construction Inspection and General Services

(a) The PMU would monitor, in accordance with Good Industry Practice, the progress in implementation of the Project. For this purpose the PMU shall undertake, *inter-alia*, the following activities and where appropriate make suitable suggestions:

(i) Ensure compliance by the Concessionaire with the provisions of this Agreement and Applicable Laws;
(ii) Act on behalf of the Authority or State Government as the Authority’s Representative or State Government Representative regarding all contact with the Concessionaire unless expressly indicated otherwise;
(iii) Review of all Tests;
(iv) Interpret the requirements of the contract and make decisions regarding performance of the Concessionaire. The PMU shall inform and advise the State Government and the Authority in a timely manner all matters relating to the execution, progress, and completeness of the Project;
(v) Reject work which fails to comply with the specifications and requirements of the Agreement. Whenever considered necessary or advisable to ensure correction of defective work, the PMU may require inspection or testing of such work, whether or not such work be then fabricated, installed, or completed;

13.4.3. The PMU shall attend regular meetings (the “Project Review Meetings” or “PRMs”) with the State Government, the Authority and the Concessionaire, from time to time. The PMU shall take notes at the meetings and provide a copy of the PRM minutes to each person who attended the meeting.

13.4.4. The PMU shall approve fortnightly progress reports and bills and invoices raised by the Concessionaire.

13.5 Remuneration

The remuneration, cost and expenses of the PMU shall be borne by the State Government and the Authority only.

13.6 Replacement

The State Government or the Authority may, in its discretion, terminate the appointment of any member in the PMU, other than the Concessionaire's representative, at any time and appoint another member in his place.

13.7 Tenure

The tenure of the PMU shall commence from the date of its constitution during the Compliance Period and extend up to the Termination Date, unless the Agreement is terminated earlier in terms hereof.]
ARTICLE 14
CONSTRUCTION PERIOD

14.1 Commencement and Duration

14.1.1. The period for construction of the Project Facilities shall commence on and from the Compliance Date and shall continue until the Construction Completion Date (the “Construction Period”).

Notwithstanding anything to the contrary in this Agreement, the Concessionaire shall, prior to the Compliance Date, be entitled to commence:

(a) soil or geophysical investigation or testing at the Sites; and

(b) appointment of Sub-Contractors for the construction works for the Project Facilities, with the prior approval of Authority.

14.1.2. Bio-Remediation of Legacy Waste at Municipal Dump(s) shall be carried out by the Concessionaire during and as a part of the Construction Period of [24 months] from the Compliance Date. [Due to the nature of work, the Bio-Remediation of Legacy Waste may be difficult to be carried out during the months of monsoon. Hence, number of days of monsoon showers in a year may be calculated mutually by the Parties and the Project Engineer and accordingly subtracted from the number of working days for Bio-Remediation of Legacy Waste. Accordingly, the KPIs relating to Bio-Remediation of Legacy Waste shall stand suspended for the number of days not counted as working days for Bio-Remediation of Legacy Waste, and its details shall reflect in the KPI Adherence Report of the Project Engineer.]

14.2 Designs and Drawings

14.2.1. Basic Engineering Designs

(a) The Concessionaire shall prepare the Basic Engineering Designs in accordance with the Technical Specifications, Applicable Laws and Applicable Permits. [If the Concessionaire proposes to set up the Waste to Energy Plant(s), the Concessionaire shall also submit the Basic Engineering Designs for the Waste to Energy Plant(s).] The Basic Engineering Designs shall be drawn to scale, with accurate dimensions, to minimize construction delays, disputes and cost overruns and to ensure smooth construction of the Project Facilities and submitted in accordance with Schedule 11. The Project Facilities should be designed in a manner such that the Concessionaire can obtain consent to operate from the [State Pollution Control Board] for the operation of the Project Facilities. The Basic Engineering Designs should also specify the Proposed Technology(ies) for the implementation of the Project.

(b) Within 30 (thirty) days from the Execution Date, the Concessionaire shall submit 4

---

14 Depending on the local climate, the provision in the square brackets may be removed if the Project Area is not affected by monsoon showers.
(four) hard copies and 1 (one) soft copy on a compact disc of the draft Basic Engineering Designs to Authority for its review and approval.

(c) Authority shall forward the Basic Engineering Designs to the Project Engineer for their review and comments.

(d) Authority shall provide comments if any, on the draft Basic Engineering Designs (including any comments from the Project Engineer) to the Concessionaire or notify the Concessionaire of its approval of the draft Basic Engineering Designs within 20 (twenty) days from the date of receipt of the draft Basic Engineering Designs. Authority may require the Concessionaire to amend or modify the draft Basic Engineering Designs if Authority or the Project Engineer identifies any deficiencies, inaccuracies or shortcomings in the draft Basic Engineering Designs. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Basic Engineering Designs from Authority, then the Concessionaire shall modify the draft Basic Engineering Designs to correct any such shortcomings, inaccuracies or deficiencies and/or address, in writing, Authority’s/ the Project Engineer’s comments on the draft Basic Engineering Designs and submit the revised Basic Engineering Designs to Authority for its approval within 10 (ten) days of receipt of comments. The process set out in this Clause 14.2.1(a) shall continue until the Basic Engineering Designs are approved by Authority in accordance with this Clause 14.2.1(c) and Clause 14.2.1(d). For the avoidance of doubt, approval of Basic Engineering Designs by the Authority/ the Project Engineer shall not relieve the Concessionaire of its obligations to prepare the Basic Engineering Design in accordance with Technical Specifications, Applicable Laws and Applicable Permits.

(e) **Use of Proposed Technology**

(i) The Concessionaire shall design and develop the Project on the basis of the Proposed Technology, approved by Authority and the State Government as part of the Designs and Drawings.

(ii) If the Selected Bidder is the owner of the Proposed Technology, then the Concessionaire shall enter into a technology license agreement with the Selected Bidder, under which the Selected Bidder will grant to the Concessionaire an irrevocable, perpetual, assignable, non-exclusive and royalty-free license to use the Proposed Technology to develop and operate the Facilities.

(iii) If the Selected Bidder does not own the Proposed Technology, then the Concessionaire shall, at its own cost, enter into a technology license agreement with the technology provider, under which the technology provider will grant to the Concessionaire an irrevocable, perpetual, assignable and royalty-free license to use the Proposed Technology. At no point will the State Government and the Authority be obliged to make any payments to the Concessionaire towards the licensing and use of the Proposed Technology.

(iv) In the event of the Selected Bidder opting for a technology other than those
mentioned in the existing manuals, guidelines, and Applicable Laws, the technology provider shall have submitted to the Authority, prior to the Execution Date, the Technology Performance Security of 5% (five per cent) of the aggregate Bid Project Cost, which shall remain valid until [2 (two)] years from the COD. If the technology provider leaves the Project before the completion of [2 (two)] years, the Technology Performance Security shall be liable to be forfeited by the State Government or the Authority. Any modification required to make the Project operational in the absence of the technology provider, as suggested and approved by the State Government and the Authority, shall be undertaken by the Selected Bidder at his own risk. Any failure to meet the requirements as mentioned in this Clause shall be considered as a Concessionaire Event of Default.

(v) Upon the expiry or early termination of this Agreement, the Concessionaire shall assign the license and related rights to use the Proposed Technology for the sole purpose of operating and maintaining the Project at no additional cost to the Authority.

(vi) The Concessionaire shall indemnify the State Government and the Authority for any claims, losses, damages and costs suffered by the State Government and the Authority as a result of an infringement of any third party's Intellectual Property Rights caused by the operation and use of the Project Facilities.

14.2.2. Screening Report

(a) The Concessionaire shall prepare the Screening Report in accordance with the relevant safeguard policies/performance standards/Applicable Laws, and the Environment and Social Management Framework (the “ESMF”).

(b) Within 30 (thirty) days from the Execution Date, the Concessionaire shall submit 4 (four) hard copies and 1 (one) soft copy of the draft Screening Report on a compact disc to the Executing Agency for its review and approval.

(c) The Authority shall forward the draft Screening Report to the Authority for its review and comments.

(d) The Authority shall provide comments if any, on the draft Screening Report to the Concessionaire or notify the Concessionaire of its approval of the draft Screening Report within 20 (twenty) days from the date of receipt of the draft Screening Report. The Authority may require the Concessionaire to amend or modify the draft Screening Report if the Authority identifies any deficiencies, inaccuracies or shortcomings in the draft Screening Report. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Screening Report from the Authority, then the Concessionaire shall modify the draft Screening Report to correct any such shortcomings, inaccuracies or deficiencies and/or address, in writing, the Authority's comments on the draft Screening Report and submit the revised Screening Report to the Authority for its approval within 10 (ten) days of receipt of comments. The process set out in this Clause 14.2.2(d) shall continue until the Screening Report is approved by the Authority in accordance with this Clause 14.2.2(d).

14.2.3. The process set out in Clause 14.2.2 above shall apply to the submission and approval of the
Designs and Drawings for the work corresponding to each subsequent Payment Milestone for the Project Facilities.

14.2.4. The Concessionaire shall construct the Project Facilities strictly in accordance with the approved Designs and Drawings. If there are any errors or deficiencies in the Technical Specifications, the Designs and Drawings shall take into account, address or rectify such errors or deficiencies. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved Designs and Drawings without the prior written approval of Authority. The Concessionaire shall not commence construction of any part of the Project Facilities prior to approval of the Designs and Drawings in accordance with the Clause 14.2. If the Concessionaire undertakes any construction work for the Project Facilities prior to the approval of the Designs and Drawings, it shall do so at its own risk and Authority shall have the right to reject any such construction work that does not comply with the approved Designs and Drawings.

14.2.5. Notwithstanding any approval of the Designs and Drawings by Authority, the Concessionaire shall bear all risk, responsibility and liability for the suitability, accuracy, adequacy and practicality of the Designs and Drawings. Subject to satisfaction of Conditions Precedent set out in Article 4, the Concessionaire shall not be entitled to any extension of time and/or costs incurred in the preparation of the Designs and Drawings and complying with the requirements of the Clause 14.2.

14.2.6. The process set out in this Clause 14.2 above shall separately apply to works of Bio-Remediation of Legacy Waste at the Municipal Dumpsite(s) corresponding to its Payment Milestones.

14.3 Construction Plan and land Reclamation Plan

14.3.1. Within [30 (thirty)] days from the Execution Date, the Concessionaire shall prepare and submit to Authority a detailed Construction Plan. The Construction Plan shall set out:

(a) The detailed plan for completing the construction (the “Construction Completion Schedule” as set out in Schedule 12) of the Project Facilities by the Scheduled Construction Completion Date; specific activities and extent of construction work to be performed by the Concessionaire to achieve each of the Project Facilities Payment Milestones; and

(b) the order in which the Concessionaire proposes to execute the construction of the Project Facilities.

14.3.2. Authority shall review and provide comments, if any, on the draft Construction Plan to the Concessionaire or notify the Concessionaire of its approval of the draft Construction Plan within 30 (thirty) days from the date of receipt of the draft Construction Plan from the Concessionaire. Authority may require the Concessionaire to amend or modify the draft Construction Plan if Authority identifies any deficiencies or shortcomings in the draft Construction Plan. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Construction Plan from Authority, then the Concessionaire shall incorporate the suggestions made by Authority and modify the draft Construction Plan to address any such comments, shortcomings or deficiencies identified by Authority. Thereafter, the Concessionaire shall submit the revised Construction Plan to Authority for its approval.
The process set out in this Clause 14.3.2 shall continue until the Construction Plan is approved by Authority in accordance with this Clause 14.3.2.

14.3.3. The Concessionaire shall develop and construct the Project Facilities strictly in accordance with the approved Construction Plan. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved Construction Plan without the prior written approval of Authority. The Concessionaire shall not commence construction of any part of the Project Facilities prior to approval of the Construction Plan in accordance with this Clause 14.3.

14.3.4. Notwithstanding any approval of the Construction Plan by Authority, the Concessionaire shall, be solely liable for completing the construction of the Project Facilities by the Scheduled Construction Completion Date.

14.3.5. The Concessionaire shall submit a consolidated Construction Plan for the Project Facilities.

14.3.6. Within a maximum of [20 (twenty)] days from the Execution Date, the Concessionaire shall prepare and submit to Authority a detailed plan for reclamation of the Municipal Dumpsite through Bio-Remediation (the “Reclamation Plan”). The Reclamation Plan shall set out:

(c) The detailed plan for completing Bio-Remediation of Legacy Waste and clearing the land by the a date before or coincidental with COD (the “Scheduled Reclamation Date”); specific activities and extent of work to be performed by the Concessionaire to achieve each of the Project Facilities Payment Milestones; and

(d) the order in which the Concessionaire proposes to execute the work of Bio-Remediation of Legacy Waste.

14.3.7. Authority shall review and provide comments, if any, on the draft Reclamation Plan to the Concessionaire or notify the Concessionaire of its approval of the draft Reclamation Plan within 20 (twenty) days from the date of receipt of the draft Reclamation Plan from the Concessionaire. Authority may require the Concessionaire to amend or modify the draft Reclamation Plan if Authority identifies any deficiencies or shortcomings in the draft Reclamation Plan. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Reclamation Plan from Authority, then the Concessionaire shall incorporate the suggestions made by Authority and modify the draft Reclamation Plan to address any such comments, shortcomings or deficiencies identified by Authority. Thereafter, the Concessionaire shall submit the revised Reclamation Plan to Authority for its approval. The process set out in this Clause 14.3.6 shall continue until the Reclamation Plan is approved by Authority in accordance with this Clause 14.3.6.

14.3.8. The Concessionaire shall execute Bio-Remediation of Legacy Waste strictly in accordance with the approved Reclamation Plan. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved Reclamation Plan without the prior written approval of Authority. The Concessionaire shall not commence execution works of Bio-Remediation of Legacy waste prior to approval of the Reclamation Plan in accordance with this Clause 14.3.7.

14.3.9. Notwithstanding any approval of the Reclamation Plan by Authority, the Concessionaire
shall, be solely liable for Reclamation of land through Bio-Remediation of Legacy Waste by the Scheduled Reclamation Date.

14.3.10. The expenditure borne by the Concessionaire for Bio-Remediation of Legacy Waste at the Municipal Dumpsite(s) shall be covered under the Project Facilities Payment Milestones. Therefore, the Concessionaire shall bear in mind the timeline of work of Bio-Remediation of Legacy Waste while formulating the Construction Plan.

14.4 ESHS Documents

14.4.1. Within 45 (forty five) days from the Execution Date, the Concessionaire shall prepare and submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the ESHS Documents to Authority in the format prescribed in Schedule 13.

14.4.2. The ESHS Documents shall set out the Project Facilities specific health, safety and environment policies, guidelines and procedures to be followed by the Concessionaire in undertaking the Project, developed in accordance with the applicable safeguard policies/performance standards/Applicable Laws, the ESMF, this Agreement, Applicable Permits, and Good Industry Practices.

14.4.3. The ESHS Documents shall comprise the following:

(a) Safeguard Documents

As part of the Safeguard Documents, the Concessionaire shall be required to:

(i) submit an update of the environment and social impact assessment report (the “ESIA”), which has been prepared by Authority and shall be provided to the Concessionaire along with the RFP; and

(ii) prepare the environmental management plan (the “EMP”).

or

(iii) in case of unavailability of such existing document, create ESIA and prepare the EMP

(b) Safety Documents

As part of the Safety Documents, the Concessionaire shall be required to prepare the following:

(i) environment, social, health and safety management plan (the “ESHSMP”);

(ii) environmental, social, health and safety management strategies and implementation plan (the “ESH-MSIP”). The ESHS-MSIP\(^\text{15}\) shall include the following, for the purposes of managing the key ESHS risks in relation to the Project:

\(^{15}\) The ESHS-MSIP shall be prepared on the basis of the template of requirements as set out in Schedule 13.
(A) traffic management plan to ensure safety of local communities from construction traffic;
(B) water resource protection plan to prevent contamination of drinking water;
(C) boundary marking and protection strategy for mobilization and construction to prevent offsite adverse impacts; and
(D) strategy for obtaining Concessionaire Applicable Permits prior to the start of relevant works.

c) Code of Conduct

The Code of Conduct shall be prepared on the basis of the requirements set out in Schedule 13. The Code of Conduct shall apply to the Concessionaire's employees and subcontractors and shall set out the ESHS obligations of the Concessionaire under the Agreement relating to risks associated with labor influx, spread of communicable diseases, sexual harassment, gender-based violence, illicit behaviour and crime, and maintaining a safe environment etc. The Code of Conduct shall also set out the manner in which the Code of Conduct will be implemented, including how it will be introduced into conditions of employment/engagement, what training will be provided, how it will be monitored and how the Concessionaire proposes to deal with any breaches.

d) In the ESHS, the Concessionaire shall also be required to provide details of the core team of 3 (three) people for implementation of the Concessionaire's ESHS obligations, comprising: (i) health expert and safety specialist; (ii) an environmental specialist; and (iii) social specialist, who meet the minimum qualification requirements specified in Schedule 13.

e) Within 30 (thirty) days from the Execution Date, the Concessionaire shall prepare and submit 4 (four) hard copies and 1 (one) soft copy of Labour Influx and Workers' Camp Management Plan to Authority that addresses specific activities that will be undertaken to minimize the impact on the local community, including elements such as worker codes of conduct, training programs on HIV/AIDS, etc. A Workers’ Camp Management Plan addresses specific aspects of the establishment and operation of workers’ camps.

This Labor Influx and Workers’ Camp Management Plan will include:

(i) mandatory and repeated training and awareness raising for the workforce about refraining from unacceptable conduct toward local community members, specifically women;
(ii) informing workers about national laws that make sexual harassment and gender-based violence a punishable offence which is prosecuted;
(iii) introducing a Worker Code of Conduct as part of the employment contract, and including sanctions for non-compliance (e.g., termination), manual scavenging, engagement with local residents, child labor, nondiscrimination, harassment of coworkers including women and those belonging to Scheduled Castes and Schedules Tribes and other minority social groups,
(iv) contractors adopting a policy to cooperate with law enforcement agencies in investigating complaints about gender-based violence.
(v) training programs on HIV/AIDS and other communicable diseases,
(vi) workers’ Camp Management Plan addressing specific aspects of the establishment and operation of workers’ camps provided the Authority is unable to cater to the demand for affordable housing for this additional workforce in terms of rentals, hostels, apartments, etc.; and
(vii) complaint handling mechanism at the Project level.

14.4.4. Authority shall forward a copy of the draft ESHS Documents to the Project Engineer and the State Government for its review and comments.

14.4.5. Authority shall provide comments, if any, on the draft ESHS Documents (including any comments from the Project Engineer and the State Government) to the Concessionaire or notify the Concessionaire of its approval of the draft ESHS Documents within 30 (thirty) days from the date of receipt of the draft ESHS Documents from the Concessionaire. Authority may require the Concessionaire to amend or modify the draft ESHS Documents if Authority or the Project Engineer or the State Government identifies any deficiencies or shortcomings in the draft ESHS Documents. If the Concessionaire receives any comments, suggestions or instructions to modify the draft ESHS Documents from Authority, then the Concessionaire shall modify the draft ESHS Documents to address any such comments, shortcomings or deficiencies identified by Authority. Thereafter, the Concessionaire shall submit the revised ESHS Documents to Authority for its approval. The process set out in this Clause 14.4.5 shall continue until the ESHS Documents are approved by Authority in accordance with this Clause 14.4.5.

14.4.6. The Concessionaire shall ensure that its Sub-contractors comply with and conform in all aspects of the ESHS Documents, approved in accordance with this Clause 14.4, in executing the Project. Any failure of the Concessionaire or the Sub-Contractors to comply with the ESHS Documents shall constitute a Concessionaire Event of Default. The Concessionaire shall indemnify Authority and the State Government against all costs, expenses, penalties and liabilities incurred/suffered by Authority the State Government due to the Concessionaire’s or any Sub-Contractor’s failure to comply with the ESHS Documents in the course of execution of the Project. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved ESHS Documents without the prior written approval of Authority.

14.4.7. Neither any approval of the ESHS Documents by Authority, nor any failure to review and provide comments on the ESHS Documents shall excuse any failure by the Concessionaire to adopt proper and recognized safety and environment friendly practices during the execution of the Project. The Concessionaire shall bear all risk, responsibility and liability for the accuracy and adequacy of the final ESHS Documents in ensuring compliance with the applicable safeguard policies/performance standards/Applicable Laws, the ESMF, this Agreement, Applicable Permits and Good Industry Practices in the execution of the Project. The Concessionaire shall not be entitled to any extension of time and/or costs incurred in preparation of the ESHS Documents and complying with the requirements of Clause 14.4.
14.5 Sub-contracting

14.5.1. The Concessionaire may enter into Sub-Contracts to perform any part of its Scope of Work during the Construction Period, with the prior intimation to the Authority.

14.5.2. The Concessionaire shall provide a copy of each proposed Sub-Contract, along with details of the relevant Sub-Contractor, for the record to the Authority, which should set out the precise Scope of Work to be Sub-contracted to such Sub-Contractor and should be consistent with the terms of this Agreement.

14.5.3. The Concessionaire shall be responsible for the supervision and monitoring of the performance of any work or services by the Sub-Contractor.

14.5.4. If the Concessionaire proposes to novate or replace a Sub-Contract after submission of details as required under Article 14.5.2 above, then such novation or replacement shall also be intimated to the Authority.

14.5.5. The Concessionaire shall be and remain liable under this Agreement for all work and services subcontracted under this Agreement and for all acts, omissions or defaults of any Sub-Contractor. No default under any Sub-Contract shall excuse the Concessionaire from its obligations or liabilities under this Agreement. All references in this Agreement to any act, default, omission, breach or negligence of the Concessionaire shall be construed to include any such act, default, omission, breach or negligence of the Sub-Contractors.

14.5.6. The Project Engineer and Authority have the right to access of information and audit the Sub-Contractor files with regards to the Concession Agreement.

14.6 Concessionaire’s Construction Obligations

14.6.1. The Concessionaire shall design, finance, construct and complete the Project Facilities and achieve the COD in accordance with Applicable Laws, Applicable Permits, Good Industry Practice, the Technical Specifications, the ESHS Documents, the Designs and Drawings, the Construction Plan and other provisions of this Agreement.

For this purpose, during the Construction Period, the Concessionaire shall:

(a) complete the work corresponding to each Payment Milestone by the Scheduled Payment Milestone Completion Date and complete the development and construction of the relevant Project Facilities by the relevant Scheduled Construction Completion Date, in a manner that:

(i) is in compliance with the Technical Specifications, the Designs and Drawings, the Construction Plan, the ESHS Documents, Applicable Laws, Applicable Permits and Good Industry Practices. For the avoidance of doubt, if there arises any ambiguity or conflict between the Technical Specifications and any Applicable Laws, then the one setting out the more stringent requirements or specifications shall prevail;
(ii) the Project Facilities are fabricated, erected, installed and completed in accordance with the final Designs and Drawings;

(iii) the Project Facilities are free from all defects in design, materials, and workmanship;

(iv) the Project Facilities are safe, reliable and fit for purpose;

(v) the Project Facilities shall be capable of operating up to their respective design capacity; and

(b) maintain and comply with the conditions of all Applicable Permits in undertaking the construction of the Project Facilities;

(c) within 30 (thirty) days of the Compliance Date, and in any event, prior to the commencement of any construction of the Project Facilities, appoint a Person with sufficient skill and expertise to act as the Concessionaire's Representative. The Concessionaire's Representative shall monitor, coordinate and supervise the completion of the Project Facilities, and liaise with Authority's Representative and the State Government Representative and the Project Engineer during the Construction Period and the O&M Period. At any time during the Concession Period, the Concessionaire may replace the Concessionaire's Representative with prior written notice to the Authority and the State Government;

(d) provide all necessary assistance to the Project Engineer, the State Government, and the Authority in undertaking inspection of the Project Facilities, and in performing its other obligations and duties under this Agreement;

(e) [provide all necessary assistance to the Financial Institutions to inspect the Site(s) and/or all accounts, records, and other documents relating to the submission of proposals and contract performance of the Concessionaire, as well as its Sub-Contractors, agents, personnel, consultants, service providers or suppliers relating to the Project and have them audited by auditors appointed by the Financial Institutions];

(f) ensure that none of its employees, consultants, service providers, suppliers, or Sub-Contractors, who may be engaged in future, shall be engaged in corrupt, fraudulent, collusive, coercive or obstructive practice;

(g) reasonably consider and act upon the comments/suggestions made by the Project Engineer and Authority during any meetings with the Concessionaire;

(h) rectify any defects and/or deficiencies in the Project Facilities, including any defects and/or deficiencies identified by the Project Engineer or Authority;

(i) take all necessary measures to maintain the safety and security of personnel, material

16 For the projects funded through Financial Institutions such as the World Bank, IBRD, International Development Agency (IDA), JICA, etc.
and property at the Site(s) and the Adjoining Properties, in accordance with the approved ESHS Documents and all Applicable Laws;

(j) ensure that all excavated materials, earthworks, waste materials and hazardous substances are stored and/or disposed in accordance with the ESHS Documents, Applicable Laws and Applicable Permits;

(k) submit monthly reports to the Project Engineer (with a copy to Authority), no later than 10 (ten) days after the end of each month, which should set out the following:

(i) extent of progress of construction activities performed by the Concessionaire for the Project Facilities;

(ii) comparison of actual progress against the planned progress of construction works, reasons for delay, if any and steps taken by the Concessionaire to mitigate the delay;

(iii) details of any accident or hazardous incident at the Site(s) and the steps taken by the Concessionaire to mitigate the consequences of such accident or hazardous incident; and

(iv) status of rectification of defects and/or deficiencies discovered by the Project Engineer or Authority;

(l) ensure that an adequate number of suitably skilled and experienced contractors, architects, workmen and other personnel are engaged to undertake the Project. The Concessionaire shall be solely responsible for the work performed by any staff and labour engaged by it to execute the Project and for payment of all applicable labour charges, fees, cess payable under Applicable Laws (including labour welfare legislations) in connection with the skilled and unskilled manpower employed for the Project, including specifically the ‘Building and Other Construction Workers Welfare Cess Act, 1996’. The Concessionaire shall ensure that its Sub-Contractors provide all necessary amenities and welfare facilities for the staff and labour engaged by them at the Site(s) and comply with all applicable labour laws. The Concessionaire shall indemnify and hold harmless Authority and the State Government from and against all claims, liabilities, expenses, costs and losses suffered or incurred by Authority or the State Government due to the Concessionaire’s or any Sub-Contractor’s failure to comply with any Applicable Laws (including labour welfare legislations);

(m) arrange for all equipment, machinery, tools and other resources required to undertake the Project and be solely responsible for such equipment, machinery, tools and resources;

(n) take all reasonable measures to ensure that the transportation of any of the Concessionaire’s or the Sub-Contractors’ personnel or equipment, to or from the Site(s), does not interfere with local traffic in the vicinity of the Site(s);

(o) maintain accurate and systematic accounts and records of goods and material utilized
and other costs and expenses incurred in connection with the construction works for the Project Facilities, including all invoices, receipts, challans, vouchers, quotations and other records and documents with respect to the Project Facilities in accordance with Applicable Laws;

(p) obtain and maintain adequate insurances as per this Agreement; and

(q) prepare and keep up-to-date, "as-built" records of the execution of the construction work for the Project Facilities, showing the exact as-built locations, sizes and details of the works executed. The "as-built" records shall be kept on the Site(s) and be made available to the Project Engineer and Authority for review and verification. The Concessionaire shall provide 4 (four) hard copies and 1 (one) soft copy on a compact disc, of the complete set of "as-built" drawings for the Project Facilities to Authority as a condition precedent to the issuance of the Construction Completion Certificate.

(r) The Concessionaire shall not be ordinarily entitled to additional land beyond the quoted land in the Financial Proposal for the implementation of the Project. However, under unavoidable circumstances and in the interest of the Project, Authority based on availability, may consider to allocate additional land for the implementation of the Project upon the request of the Concessionaire and such allocation shall be subject to the payment of [150% (one hundred and fifty percent)] of the [circle rate] of the land, for each additional acres of land and part thereof. If the additional land requirement changes position of the Selected Bidder vis-à-vis the second preferred bidder, then the Concessionaire shall pay to Authority, a sum of equivalent to: (a) [150% (one hundred and fifty percent)] of the [circle rate] of the land for each additional acres of land and part thereof; or (b) the difference between Bid Project Cost of second preferred bidder and the revised Bid Project Cost of the Selected Bidder/Concessionaire; whichever is higher.

14.7 [Waste to Energy Plant(s)]

14.7.1. The Concessionaire [may at its sole option and discretion] construct Waste to Energy Plant(s) at the Project Facilities Site(s) to produce, utilize and/or sell the clean energy generated from the treatment of the Solid Waste/Legacy Waste. The Concessionaire may, at its sole option and discretion, also construct a rooftop solar power plant(s) at the Project Facilities to produce clean energy.

14.7.2. If the Concessionaire chooses to construct a Waste to Energy Plant(s) at the Site(s), the Concessionaire shall undertake such construction of Waste to Energy Plant(s) at the Site(s) in accordance with all Applicable Laws and after obtaining all necessary approvals and consents to construct the Waste to Energy Plant(s) at the Site(s).

14.7.3. The Concessionaire shall not be entitled to any additional land, Construction Payments, or an extension of the Scheduled Construction Completion Date for construction of the Waste to Energy Plant(s).

14.7.4. The Concessionaire shall not be entitled to any additional O&M Payments for operating the Waste to Energy Plant(s).
14.7.5. It shall be the Concessionaire’s obligation to obtain all required clearances and approval for purposes of setting up, operating and maintaining the Waste to Energy Plant(s).]

14.8 Rights and Obligations of the Authority and the State Government

14.8.1. During the Construction Period, Authority shall:

(a) comply with all its obligations under Applicable Laws (including, specifically the [Act applicable in the State] Act) and Applicable Permits;

(b) make reasonable endeavors to assist the Concessionaire in obtaining the Applicable Permits from the relevant Government Authorities, provided that the Concessionaire has complied with all the requirements as per Applicable Laws for applying for such Applicable Permits;

(c) within 30 (thirty) days of the Compliance Date, and in any event, prior to the commencement of any construction for the Project Facilities, appoint a Person with sufficient skill and expertise to act as Authority’s Representative. Authority’s Representative shall liaison with the Concessionaire’s Representative and the State Government Representative, and the Project Engineer during the Construction Period and the O&M Period. At any time during the Concession Period, Authority may replace Authority’s Representative with prior written notice to the Concessionaire and the State Government;

(d) cause the Project Engineer to carry out timely inspection of the Project Facilities, and perform its other obligations and duties under this Agreement;

(e) upon progressive completion of construction works for the Project Facilities in accordance with the Technical Specifications, Designs and Drawings, Construction Plan and other provisions of this Agreement, as certified by the Project Engineer, issue the Milestone Completion Certificates and the Construction Completion Certificate to the Concessionaire;

(f) ensure that the Concessionaire enjoys peaceful access to the Site(s) and shall not assign, transfer, or otherwise dispose its rights, title, and interest in the Site(s) or create any Encumbrance over any part of the Site(s), which may adversely impact the exercise of the Concessionaire’s rights and duties under this Agreement; and

(g) ensure that the Escrow Account is funded with the Minimum Escrow Balance.

14.8.2. During the Construction Period, the State Government shall:

(a) comply with all its obligations under the Applicable Laws;

(b) make the Construction Payments, on satisfactory completion of the relevant Payment Milestone; and
(c) within 30 (thirty) days of the Compliance Date, and in any event, prior to the commencement of any construction for the Project Facilities, appoint a Person with sufficient skill and expertise to act as the State Government Representative. The State Government Representative shall liaise with the Concessionaire’s Representative, Authority’s Representative and the Project Engineer during the Construction Period and the O&M Period. At any time during the Concession Period, the State Government may replace the State Government Representative with prior written notice to the Authority and the Concessionaire; and

(d) ensure that the Escrow Account is funded with the Minimum Escrow Balance.

14.9 Utilities

14.9.1. The Concessionaire shall obtain install and maintain at its cost, all utilities necessary for undertaking the construction of the Project Facilities, including all temporary power and water connections, lighting facilities, telephone connections, internet connections, etc., at the Site(s). The Concessionaire shall bear the cost of all power, water, and other utilities consumed by it during the Construction Period, and the Concessionaire shall not be entitled to claim any reimbursement from Authority or the State Government in this regard.

14.9.2. The Concessionaire shall not be entitled to any extension of time or costs to comply with its obligations in Clause 14.9.1 and Clause 14.9.2 above.

14.9.3. Authority shall provide any reasonable assistance required by the Concessionaire to obtain the utilities for the construction of the Project Facilities.

14.10 Construction Timelines

14.10.1. The Concessionaire shall comply with the Construction Plan, the Designs and Drawings and the Technical Specifications and complete the construction of the Project Facilities on or before the date scheduled for completion of construction works (the “Scheduled Construction Completion Date”).

14.10.2. Subject to Clause 14.10.3 below, the Concessionaire shall be entitled to a day-for-day extension of the relevant Scheduled Payment Milestone Completion Date or as the case may be, the Scheduled Construction Completion Date, if the completion of construction of the Project Facilities is delayed due to any of the following reasons (each such event, a “Delay Event”):

(a) occurrence of a Force Majeure Event, provided that the requirements of Article 14 have been complied with;

(b) a Qualifying Change in Law;

(c) any delay attributable to unforeseen Site conditions; or
(d) any variation proposed by Authority in the Technical Specifications or the Designs and Drawings in accordance with Article 28.

(e) delay caused in complying with any instructions of Authority or the Project Engineer, which instructions are not attributable to any default of the Concessionaire.

The Concessionaire shall promptly provide Authority (with a copy to the State Government and the Project Engineer) with a notice upon becoming aware of any Delay Event listed at Article 14.10.2 above. The notice should specify the nature of the Delay Event, the extent of delay suffered or likely to be suffered by the Concessionaire and mitigation measures being taken by the Concessionaire.

The issuance of the notice under this Article 14.10.2, within 7 (seven) days from the date the Concessionaire became aware of the Delay Event, shall be a condition precedent to the Concessionaire's entitlement to an extension under Article 14.10.2.

For the avoidance of doubt, a Delay Event shall allow the Concessionaire only the extension of time and no additional costs.

14.10.3. Without prejudice to the Concessionaire's obligations to notify Authority regarding the occurrence of a Delay Event above, the Concessionaire shall: (i) keep and maintain records as reasonably necessary to substantiate and establish claims for extensions under Article 14.10.2; and (ii) give Authority and the Project Engineer access to such records and documents or provide Authority and the Project Engineer with copies, if so requested.

14.10.4. If the Concessionaire claims an extension of time in accordance with Article 14.10.2 and Authority is of the opinion that such delay was caused or materially contributed to by any concurrent or interacting cause or causes of delay not listed in Article 14.10.2 but solely attributable to the Concessionaire, then the Concessionaire shall not be entitled to any extension of time for the concurrent period of delay.

14.10.5. If two or more of the Delay Events listed in Clause 14.10.2 occur concurrently, then such concurrent period shall not be counted twice in determining an extension under Clause 14.10.2.

14.10.6. Except as provided in Clause 14.10.2, the Concessionaire shall not be entitled to any extension of time for any reason whatsoever, including due to:

(a) delay caused in complying with any instructions of Authority or the Project Engineer which are attributable to any act or omission of the Concessionaire;

(b) failure of any Sub-Contractor to commence or carry out any work within the prescribed timelines;

(c) unavailability or shortage of equipment, materials, or any other resources;

(d) any delay in approving the drafts of the Designs and Drawings, the Construction Plan, the ESHS Documents or any other document submitted by the Concessionaire due to any deficiencies or shortcomings in such drafts of the Designs and Drawings, the
Construction Plan, the ESHS Documents or other documents, as the case may be; or

(e) [the construction of Waste to Energy Plant(s) at the Site(s)]

14.10.7. Any Dispute between the Parties with respect to the occurrence, length of subsistence or consequence of any of the Delay Event shall be settled in a final and binding manner in accordance with Article 26.

14.11 Delay Liquidated Damages and Bonus

14.11.1. Subject to Clause 14.10.2, if the Concessionaire fails to complete the work corresponding to any Payment Milestone by the relevant Scheduled Payment Milestone Completion Date or fails to complete the construction of the Project Facilities by the Scheduled Construction Completion Date, then Authority shall be entitled to liquidated damages for each day of delay beyond the Scheduled Payment Milestone Completion Date, or, as the case may be, the Scheduled Construction Completion Date, at the rate of [0.1% (zero point one per cent)] of the Performance Security (in case of a delay in achieving a Project Facilities Payment Milestone or completing the Project Facilities by the Scheduled Construction Completion Date) for each day of delay up to [6 (six)] months from the Scheduled Payment Milestone Completion Date, or the Scheduled Construction Completion Date as the case may be (the “Delay Liquidated Damages”).

The Delay Liquidated Damages will be payable until the work for the relevant Payment Milestone is completed or, as the case may be, the construction of the Project Facilities is completed, as certified by Authority in accordance with Article 14.11.

If the Concessionaire completes the construction of the Project Facilities by the Scheduled Construction Completion Date, the aggregate Delay Liquidated Damages recovered by Authority under this Article 14.11.1 for a delay in achieving any Payment Milestone shall be refunded by Authority to the Concessionaire, without any interest.

14.11.2. Authority shall be entitled to deduct the Delay Liquidated Damages from the amount payable to the Concessionaire for any Payment Milestone, and if such amounts are insufficient, Authority shall have a right to invoke the Performance Security(ies) to the extent of the Delay Liquidated Damages.

14.11.3. The Parties acknowledge that the Delay Liquidated Damages are a genuine pre-estimation of and reasonable compensation for the loss that shall be suffered by Authority as a result of the delay in the completion of the Project Facilities, and not as penalty.

14.11.4. If, for any reason, the above paragraphs relating to the payment of Delay Liquidated Damages are void, invalid or otherwise inoperative so as to disentitle Authority from claiming any Delay Liquidated Damages, then Authority will be entitled to claim against the Concessionaire for general damages for delay in completing the works for the relevant Payment Milestone by the Scheduled Payment Milestone Completion Date, or for the delay in completing the construction of the Project Facilities by the Scheduled Construction Completion Date.
14.11.5. If the Concessionaire fails to complete the works for a Payment Milestone within 6 (six) months of the Scheduled Payment Milestone Completion Date or if the Concessionaire fails to complete the construction of the Project Facilities within 6 (six) months from the Scheduled Construction Completion Date, other than on account of any Delay Event (the “Grace Period”), then such failure shall be deemed to be a Concessionaire Event of Default in accordance with Clause 16.1.

14.11.6. The payment or deduction of Delay Liquidated Damages shall not relieve the Concessionaire from its obligations to complete the construction of the Project Facilities, or from any of its other duties, obligations or responsibilities under the Agreement. The Concessionaire shall use and continue to use its best endeavors to avoid or reduce further delay in completing the Project Facilities.

14.11.7. Bonus on early completion

If the Construction Completion Date for a Project Facilities occurs prior to the Scheduled Construction Completion Date, the Concessionaire shall be entitled to a bonus equal to [0.05% (zero point zero five per cent)] of the relevant Performance Security for each day by which the Construction Completion Date precedes the Scheduled Construction Completion Date.

14.12 Completion of Works

14.12.1. Completion of Payment Milestones

(a) Upon completion of the works corresponding to each Payment Milestone, as specified in the Construction Plan, the Concessionaire shall issue a notice to Authority, with a copy to the Project Engineer and the State Government, requiring Authority to inspect (or cause the Project Engineer to inspect) the completed works covered by the relevant Payment Milestone. The purpose of such inspection shall be to determine whether the works corresponding to the relevant Payment Milestone have been completed in accordance with the requirements of Article 14.6.

(b) If Authority is satisfied that the works for the relevant Payment Milestone have been completed in accordance with the requirements of Article 14.6, then, subject to Article 14.12.1(e) below, Authority shall issue a Milestone Completion Certificate to the Concessionaire for such completed Payment Milestone, with a copy to the State Government, within 7 (seven) Business Days from the date of inspection of the works covered by such Payment Milestone.

(c) If Authority is of the view that the works for the relevant Payment Milestone do not satisfy the requirements of Article 14.6, then Authority shall have the right to provide any comments, suggestions and/or instruct the Concessionaire to carry out necessary modifications, to ensure that the works comply with the requirements of Article 14.6. Upon receipt of such comments, suggestions or instructions from Authority, the Concessionaire shall make necessary modifications to the works to remedy any defects.
or deficiencies and re-issue a notice to Authority. The Concessionaire shall bear all costs of remedying the defects and deficiencies in the works and shall not be entitled to any extension of time for remedying such defects or deficiencies. This process shall be repeated until Authority is satisfied that the works for the relevant Payment Milestone have been completed in accordance with the requirements of Article 14.6 and issues a Milestone Completion Certificate in accordance with this Article 14.12.1.

(d) If Authority fails to:

(i) inspect the completed portion of the works covered by the relevant Payment Milestone, within 7 (seven) Business Days from the date of receipt of a notice from the Concessionaire under Clause 14.12.1(a) above;

(ii) provide any comments or suggestions or notify the Concessionaire of any defects or deficiencies in the completed portion of the works covered by the relevant Payment Milestone, within 7 (seven) Business Days from the date of inspection of such completed portion of the works; or

(iii) issue the Milestone Completion Certificate, within 7 (seven) Business Days from the date of inspection of the completed portion of the works covered by the relevant Payment Milestone,

then, such delay shall be treated as a Delay Event, which will entitle the Concessionaire to a day for day extension in the Scheduled Payment Milestone Completion Date or the Scheduled Construction Completion Date, as the case may be, beyond the 7 (seven) Business Days period.

(e) Authority may exercise its rights to review and certify the completion of works for any Payment Milestone either itself or through the Project Engineer. If Authority instructs the Project Engineer to undertake a review of the works, then the Concessionaire shall cooperate with the Project Engineer to facilitate such review and rectify any defects or deficiencies identified by the Project Engineer in the works. Provided that, in all instances, Authority shall finally approve the works and issue the Milestone Completion Certificates.

14.12.2. Testing and Commissioning of the Project Facilities

(a) Upon completion of construction of each Project Facilities, in accordance with the requirements set out in this Agreement, the Concessionaire shall issue a notice to Authority, with a copy to the State Government, requiring it to be present at the Site(s) on the date specified in such notice to undertake a final inspection of the completed Project Facilities and conduct any tests required to ensure that the Project Facilities complies with the Technical Specifications, the Designs and Drawings, Applicable Laws and Applicable Permits.

(b) Within 5 (five) days from the date of receipt of a notice under Article 14.12.2(a) above, Authority may request the Concessionaire to vary the date of the final inspection and tests and the Concessionaire shall accommodate such request, provided that, such date
shall be no later than 7 (seven) days from the date specified in the notice received from the Concessionaire under Article 14.12.2(a) above.

(c) The Concessionaire shall, on the date specified in the notice issued under Article 14.12.2(a) or on such other date as may be agreed with Authority, carry out the tests in accordance with the instructions and under the supervision of Authority and in accordance with Schedule 14, to demonstrate that the Project Facilities complies with the requirements of Clause 14.6.

(d) If Authority is not satisfied with the results of the tests or inspection, then the Concessionaire shall remedy any defects or deficiencies in the Project Facilities, identified by Authority or revealed through the tests and the Project Facilities shall be tested again upon rectification of such defects or deficiencies. This process shall be repeated until such time that Authority is satisfied that the Project Facilities has been completed in accordance with Clause 14.6 and is safe and fit for purpose. The Concessionaire shall bear all costs of remedying the defects and deficiencies and retesting the Project Facilities and shall not be entitled to any extension of time for remedying such defects or deficiencies or for retesting the Project Facilities.

(e) If Authority is satisfied with the results of the tests and inspection of the Project Facilities, Authority shall issue the Milestone Completion Certificate in respect of the last Payment Milestone to the Concessionaire, with a copy to the State Government, within 7 (seven) days from the date of inspection and testing of the completed Project Facilities. The issue of the Milestone Completion Certificate for the last Payment Milestone shall certify that the Project Facilities has been completed in accordance with this Agreement, the Technical Specifications, the Designs and Drawings, Applicable Laws and Applicable Permits and the Project Facilities is safe and fit for purpose.

(f) If Authority fails to:

(i) inspect or witness the testing of the Project Facilities within 14 (fourteen) Business Days from the date of receipt of notice from the Concessionaire issued under Article 14.12.2(a) or such other date as may be agreed with the Concessionaire;

(ii) notify the Concessionaire of any defects or deficiencies in the Project Facilities within 7 (seven) Business Days from the date of inspection and testing of the Project Facilities; or

(iii) issue the Milestone Completion Certificate for the last Payment Milestone within 7 (seven) Business Days from the date of inspection and testing of the Project Facilities,

Then, such delay shall be treated as a Delay Event, which will entitle the Concessionaire to a day-for-day extension in the Scheduled Payment Milestone Completion Date and the Scheduled Construction Completion Date.

Waste at the Site(s)

(a) The Concessionaire may, upon completion of obligations and responsibilities of works relating to Reclamation of Land through Bio-Remediation of Legacy Waste at the Site(s) assigned by the Authority, in accordance with this Agreement, by notice inform the Authority with a copy to the State Government of such completion of works.

(b) Within [30 (thirty)] Business Days from the date of issuance of the notice as provided in Article 14.12.3(a), the Authority shall issue the Completion Certificate in the format prescribed in Schedule 15 for the Reclamation of land through Bio-Remediation of Legacy Waste to the Concessionaire, subject to the following conditions having been fulfilled by the Concessionaire:

(i) the Concessionaire having cleared the Site(s) and removed all Legacy Waste, equipment, temporary works, work sheds, labour camps and all other temporary installations on the Site(s);
(ii) the quality of the reclaimed land has not deteriorated compared to the quality of dumpsite as it was prior to the commencement of Bio-Remediation of Legacy Waste at the Site(s); and
(iii) the Bio-Remediation of Legacy Waste at the Site(s) has been carried out satisfactorily as per the reports of the Project Engineer and/or Authority.

(c) If Authority fails to issue the Completion Certificate for Reclamation of Land through Bio-Remediation of Legacy Waste at the Site(s) to the Concessionaire within [30 (thirty)] Business Days from the date of satisfaction of the conditions set out in Clause 1.12(c)(ii) above and fails to notify the Concessionaire of any reasons for the failure to issue such Completion Certificate, then, the Completion Certificate for Reclamation of Land through Bio-Remediation of Legacy Waste at the Site(s) shall be deemed to have been issued to the Concessionaire upon the expiry of the [30 (thirty)] Business Days period.

(d) The date of the issuance or deemed issuance of the Completion Certificate shall be the completion date for the Bio-Remediation of Legacy Waste at the Site(s).

(e) Upon receipt of the Completion Certificate as set forth in Article 14.12.3, the member of the Consortium shall be allowed to exit the Consortium in accordance with the Article 5.7.3 of this Agreement.

14.12.4. Issue of Construction Completion Certificate of Project Facilities

(a) Within [7 (seven)] Business Days from the date of issuance of the Milestone Completion Certificate for the last Payment Milestone, Authority shall issue the Construction Completion Certificate for the Project Facilities to the Concessionaire with a copy to the State Government, subject to the following conditions having been fulfilled by the Concessionaire:

(i) the submission of 4 (four) hard copies and 1 (one) soft copy on a compact disc of complete sets of the ‘as-built’ drawings of the Project Facilities;
(ii) the Concessionaire having obtained all Applicable Permits necessary for commencement of the O&M services (including specifically, the consent to operate from the [State Pollution Control Board] for the operation of the Project Facilities);

(iii) the Concessionaire having obtained adequate insurance for the O&M Period in accordance with Clause 11.2;

(iv) the Concessionaire having engaged sufficient number of adequately skilled O&M personnel to perform the services during the O&M Period; and

(v) the O&M Manual having been approved by Authority; and

(vi) the Concessionaire having cleared the Site(s) and removed all debris, hazardous materials, surplus construction materials, equipment, temporary works, work sheds, labour camps and all other temporary installations on the Site(s).

(b) If Authority fails to issue the Construction Completion Certificate for the Project Facilities to the Concessionaire within [7 (seven)] Business Days from the date of satisfaction of the conditions set out in Clause 14.12.4(a) above and fails to notify the Concessionaire of any reasons for the failure to issue the Construction Completion Certificate for the Project Facilities, then, the Construction Completion Certificate for the Project Facilities shall be deemed to have been issued to the Concessionaire upon the expiry of the [7 (seven)] Business Days period.

(c) The date of the issuance or deemed issuance of the Construction Completion Certificate shall be the Construction Completion Date for the Project Facilities.

14.13 Trial Operations

14.13.1 Subject to Clause 14.13.3 below, within [1 (one)] day of the issuance or deemed issuance of the Construction Completion Certificate for the Project Facilities to the Concessionaire, the Concessionaire shall commence the Trial Operations of the Project Facilities in accordance with the trial operation procedures to determine whether the Project Facilities meets the KPIs on a continuous basis and is fit and ready to be placed into commercial operations in accordance with this Agreement.

14.13.2 Concessionaire shall ensure that adequate quantity of Solid Waste is delivered to the Project Facilities during the Trial Operations to enable the Concessionaire to demonstrate that the Project Facilities meets the Technical Specifications and the KPIs.

---

17 The same may be ensured if the Solid Waste from Secondary Collection Points may be collected by the Concessionaire during Trial Operation Period in accordance with Sub-Clauses 5.1.8 (w) and (x), or the Authority and Concessionaire may arrive at a mutual agreement that during Trial Operation Period, the primary waste collection and transportation may be carried out by the Authority but processed and disposed by the Concessionaire, or the Authority and Concessionaire may develop another mechanism for delivery of adequate quantity of Solid Waste to the Project Facilities during Trial Operation Period.
14.13.3. If the Concessionaire fails to commence or continue the Trial Operations, due to the inadequate quantity or inferior quality of the Solid Waste, then the Concessionaire shall promptly notify Authority. If in the opinion of Authority, the quantity or quality of Solid Waste is not adequate to undertake Trial Operations, then Authority shall extend the time period for the Trial Operations. In such case, the date scheduled for commencement of operations (the “Scheduled COD”) will also be extended on a day-for-day basis, provided that the Scheduled COD shall not be extended beyond the date which is [6 (six)] months from the Construction Completion Date.

14.13.4. During the Trial Operations, Authority shall or shall cause the Project Engineer to monitor the performance of the Project Facilities on a regular basis to ensure that the Project Facilities meets the Technical Specifications.

14.13.5. If Authority, or, as the case may be, the Project Engineer is of the view that: (i) the Trial Operations are not being conducted in accordance with the Trial Operations Procedure; or (ii) there are any defects or deficiencies in the Project Facilities, Authority shall instruct the Concessionaire to follow the trial operation procedures and/or rectify the defects and deficiencies to ensure compliance with the KPIs.

It is clarified that no Availability Liquidated Damages are payable by the Concessionaire during the Trial Operations period for a failure to achieve the KPIs. However, for the Trial Operations to be successfully concluded, the Concessionaire must demonstrate that the Project Facilities consistently and continuously meets the KPIs during the last [20 (twenty)] days of the [3 (three)] months Trial Operations period, as may be extended in accordance with Clause 14.14(e) above. If the Project Facilities fails to achieve the KPIs on a continuous basis during the last [20 (twenty)] days of the[3 (three)] months Trial Operations period (as extended in accordance with Clause 14.14(e), then the Trial Operations period shall be extended by another 20 days. Subject to Clause 14.14(e)(i), the Trial Operations shall continue until the Concessionaire can demonstrate that the Project Facilities consistently achieves the KPIs for 20 (twenty) consecutive days.

14.13.6. If the Concessionaire has been able to consistently achieve the KPIs for [20 (twenty)] consecutive days (as supported by daily reports), the Concessionaire shall issue a notice to Authority requiring Authority to undertake a final inspection of the Project Facilities. Authority shall have the right to undertake such final inspection within [5 (five)] Business Days of a notice being issued by the Concessionaire.

14.13.7. If, upon final inspection, Authority is satisfied that the Project Facilities meets the KPIs and the Technical Specifications, and are capable of safe and reliable operations, then, Authority shall issue the Trial Operations Completion Certificate for the Project Facilities to the Concessionaire within [7 (seven)] days of Authority undertaking a final inspection of the Project Facilities pursuant to Article 14.13.5 above.

14.13.8. If, upon final inspection, Authority believes that the Project Facilities does not comply with the KPIs and/or Technical Specifications, then Authority may reject the Project Facilities and terminate this Agreement. Upon termination of this Agreement, in accordance with this Article 14.13.8, the consequences set out in Article 23.4.1 and Article 23.4.7 shall follow.
14.13.9. If Authority: (i) does not undertake a final inspection of the Project Facilities within [5 (five)] Business Days of receipt of a notice from the Concessionaire under Clause 14.14(e); or (ii) fails to notify the Concessionaire of any defects in the Project Facilities within [7 (seven)] days of undertaking a final inspection; or (iii) fails to issue a Trial Operations Completion Certificate within [7 (seven)] Business Days from the date of the final inspection, then the Trial Operations shall be deemed to have been successfully completed for Project Facilities and the Trial Operations Completion Certificate will be deemed to have been issued to the Concessionaire upon the expiry of the [5 (five)] Business Days period (in case of (i)) and upon the expiry of the [7 (seven)] Business Days period (in case of (ii) and (iii)).

14.13.10. If the Trial Operations are not successfully completed and/or the Concessionaire fails to issue a notice to Authority under Article 14.13.5 above on or prior to the Scheduled COD, as may be extended in accordance with Article 14.13.3, for any Project Facilities, then such failure shall be treated as a Concessionaire Event of Default and the consequences set out at Article 16 shall follow.

14.13.11. Notwithstanding anything contained in Article 14.13.8, if the Concessionaire fails to successfully complete the Trial Operations for the Project Facilities on or prior to the Scheduled COD, as may be extended in accordance with Clause 14.13.3, then such failure will be treated as an Authority Event of Default, and the consequences set out at Article 23 shall follow.

14.13.12. The Concessionaire will not be entitled to any O&M Payments or any other payment for conducting the Trial Operations, which shall be carried out solely at the cost and risk of the Concessionaire.

14.14 Commercial Operations Date

14.14.1. Within [7 (seven)] Business Days from the date of issuance or deemed issuance of the Trial Operations Completion Certificates for the Project Facilities, Authority shall issue the COD Certificate with a copy to the State Government, subject to the following conditions having been fulfilled by the Concessionaire:

(a) the Concessionaire having received the Construction Completion Certificate;
(b) the Concessionaire having submitted to Authority the Scheduled Maintenance Programme for the first-year Post-COD; and
(c) the O&M Manual having been approved by Authority;
(d) the Concessionaire having submitted the Project Facilities O&M Security to Authority.

14.14.2. If Authority fails to issue the COD Certificate to the Concessionaire within 7 (seven) Business Days from the date of satisfaction of the conditions set out in Article 14.14.1 above and fails to notify the Concessionaire of any reasons for the failure to issue the COD Certificate, then, the COD Certificate shall be deemed to have been issued to the Concessionaire upon the expiry of the 7 (seven) Business Days period.

14.14.3. The date on which the COD Certificate is issued or deemed to have been issued to the Concessionaire shall be the Commercial Operations Date of the Project Facilities.
14.15 **Safety certification prior to Project COD**

The Concessionaire shall, not later than [15 (fifteen)] days prior to the likely Project COD, notify the Authority and the Project Engineer of the compliance or Safety Requirements and invite them to observe any or all the Tests that may be specified by the Project Engineer in accordance with Applicable Laws, Applicable Permits and Good Industry Practice to determine that the Project infrastructure is safe for entering into commercial service, and the costs of such Tests shall be shared equally between the Concessionaire and the Authority; provided that in case of failure in any Test requiring repetition thereof, the cost of such second or subsequent Test shall be borne entirely by the Concessionaire.
ARTICLE 15
OPERATIONS AND MAINTENANCE PERIOD

15.1 Commencement and Duration

The period for the operation and maintenance of the Project Facilities, other than the Project Facilities used for Bio-Remediation of Legacy Waste, shall commence on and from COD and shall continue until the Termination Date (the “O&M Period”).

15.2 O&M Manual

15.2.1. The Concessionaire shall prepare a detailed O&M Manual for the Project Facilities based on the Proposed Technology and in accordance with the Technical Specifications, the ESHS Documents, Applicable Laws and Applicable Permits. The O&M Manual shall specify the operation procedures (separately for each component of the Project Facilities) and maintenance procedures. In case of any errors or deficiencies in the Technical Specifications, the O&M Manual shall take in account, address or rectify such errors or deficiencies. The Language of the O&M Manual shall be English.

15.2.2. At least 30 (thirty) days prior to the Scheduled Construction Completion Date, the Concessionaire shall submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the draft O&M Manual to Authority for its review and approval.

15.2.3. Authority shall review and provide comments, if any, on the draft O&M Manual to the Concessionaire or notify the Concessionaire of its approval of the draft O&M Manual within 20 (twenty) days from the date of receipt of the draft O&M Manual from the Concessionaire. Authority may require the Concessionaire to amend or modify the draft O&M Manual if Authority identifies any deficiencies, inaccuracies or shortcomings in the draft O&M Manual. If the Concessionaire receives any comments, suggestions or instructions to modify the draft O&M Manual from Authority, then the Concessionaire shall modify the draft O&M Manual to correct any shortcomings, inaccuracies or deficiencies identified by Authority and/or address, in writing, Authority’s comments on the draft O&M Manual and submit the revised O&M Manual to Authority within 10 days of having received Authority’s response, for its approval. The process set out in this Article 15.2.3 shall continue until the O&M Manual is approved by Authority in accordance with this Article 15.2.3.

15.2.4. The Concessionaire shall revise the O&M Manual as and when the Concessionaire thinks it necessary to do so and in such case the provisions of Article 15.2.3 will apply as is to the approval of the revised manual.

15.2.5. The Concessionaire shall undertake the O&M of the Project Facilities strictly in accordance with the approved O&M Manual. The Concessionaire shall not deviate from or make any amendment to the approved O&M Manual without the prior written approval of Authority. The Concessionaire shall not commence operation of the Project Facilities prior to approval of the O&M Manual in accordance with Article 15.2.

15.2.6. Notwithstanding any approval of the O&M Manual by Authority, the Concessionaire shall
bear all risk, responsibility and liability for the suitability, accuracy, adequacy and practicality of the O&M Manual. The Concessionaire shall not be entitled to any extension of time and/or costs incurred in the preparation of or updating the O&M Manual and complying with the requirements of Article 15.2.

15.2.7. The Concessionaire shall submit a consolidated O&M Manual for the Project Facilities.

15.3 Sub-Contracting

15.3.1. The Concessionaire may enter into Sub-Contracts to perform any part of its Scope of Work during the O&M Period, with the prior intimation to the Authority.

15.3.2. The Concessionaire shall provide a copy of each proposed Sub-Contract, along with details of the relevant Sub-Contractor, to Authority for its approval, which should set out the precise Scope of Work to be Sub-Contracted to such Sub-Contractor and should be consistent with the terms of this Agreement.

15.3.3. Within 7 (seven) days of the execution of an amendment to any approved Sub-Contract, the Concessionaire shall submit a copy of such amendment to Authority for its records.

15.3.4. If the Concessionaire proposes to novate an approved Sub-Contract and/or replace an approved Sub-Contractor, then such novation or replacement shall be with prior intimation to the Authority.

15.3.5. Notwithstanding the approval of any Sub-Contractor by Authority, the Concessionaire shall be and remain liable under this Agreement for all work and services subcontracted under this Agreement and for all acts, omissions or defaults of any Sub-Contractor. No default under any Sub-Contract shall excuse the Concessionaire from its obligations or liabilities under this Agreement. All references in this Agreement to any act, default, omission, breach or negligence of the Concessionaire shall be construed to include any such act, default, omission, breach or negligence of the Sub-Contractors.

15.4 Concessionaire's rights and obligations

15.4.1. The Concessionaire shall operate and maintain the Project Facilities in a manner that:

(a) is in compliance with the Technical Specifications, Applicable Laws, Applicable Permits and Good Industry Practice;
(b) results in the Project Facilities achieving the KPIs;
(c) ensures that each of the Project Facilities is capable of operating up to its design capacity on a daily basis;
(d) is safe and reliable, subject to normal wear and tear of the Project Facilities;
(e) is in compliance with the technology license agreement(s) executed by the Concessionaire for the technology, processes, know-how and systems used or incorporated into the Project Facilities;
(f) maintains the safety and security of personnel, material and property at the Site(s), in accordance with the approved ESHS Documents, Applicable Laws and Applicable Permits;
(g) ensures that all waste materials and hazardous substances are stored and/or disposed in
according with the ESHS Documents, Applicable Laws and Applicable Permits; and
(h) rectify, cure, remedy all defects, deficiencies, defaults, damage, etc., all of the Project Facilities at its own cost and risk.

15.4.2. The Concessionaire shall provide adequate power backup at the Site(s) (including through installation of DG Sets) to ensure continuous supply of power (even during any interruption(s) in the supply of power from the grid) for the uninterrupted operations of the Project Facilities during the O&M Period.

15.4.3. The Concessionaire shall provide all necessary assistance to the Project Engineer, the State Government, and Authority in undertaking inspection and monitoring of the operation and maintenance of the Project Facilities.

15.4.4. The Concessionaire shall reasonably consider and act upon the comments/suggestions made by the Project Engineer and Authority during any meetings of the Concessionaire with its Sub-Contractors.

15.4.5. The Concessionaire shall provide Authority and the Project Engineer with reasonable access to the Site(s) during office hours to monitor and inspect the Project Facilities.

15.4.6. The Concessionaire shall arrange for all equipment, machinery, tools and other resources required to undertake the O&M of the Project Facilities and shall take all reasonable measures to ensure that the transportation of any of the Concessionaire's or the Sub-Contractors' personnel or equipment, to or from the Site(s), does not interfere with local traffic in the vicinity of the Site(s).

15.4.7. The Concessionaire shall develop and implement a safety and surveillance programme for the Project Facilities and for handling and disposal of the residual inert matter and adopt appropriate measures and safeguards for security of the environment, life, and property at the Site(s).

15.4.8. The Concessionaire shall ensure that none of its employees, consultants, service providers, suppliers, or Sub-Contractors, including any O&M contractor appointed by the Concessionaire, shall engage in any corrupt, fraudulent, collusive, coercive or obstructive practice.

15.5 Rights and obligations of the Authority and the State Government

15.5.1. During the O&M Period, Authority shall:

(a) comply with all its obligations under Applicable Laws (including, specifically the [Act applicable in the State] Act) and Authority Applicable Permits;

(b) monitor and review the operations and performance of the Project Facilities. This includes the right to access the Project Facilities, and review the records and reports that the Concessionaire is required to maintain, during normal working hours;

(c) review the Scheduled Maintenance Programme and all other plans and documents
submitted by the Concessionaire in an expeditious manner, in accordance with this Agreement;

(d) ensure that the Escrow Account is funded with the Minimum Escrow Balance; and

(e) ensure that the Concessionaire continues to enjoy peaceful access to the Site(s) and shall not assign, transfer, or otherwise dispose of its rights, title, and interest in the Site(s) or create any Encumbrance over any part of the Site(s), which may adversely impact the exercise of the Concessionaire’s rights and duties under this Agreement.

15.5.2. During the O&M Period, the State Government shall:

(a) comply with all its obligations under the Applicable Laws;

(b) make the O&M Payments in accordance with Article 17; and

(c) ensure that the Escrow Account is funded with the Minimum Escrow Balance.

15.6 Utilities

15.6.1. The Concessionaire shall apply for and obtain the power connection (at the battery limit of the relevant Site(s)) for the operation of the Project Facilities, in its name, at least 30 (thirty) days prior to the Scheduled Construction Completion Date. The Concessionaire shall provide all necessary assistance to Authority in procuring the power connection, including by providing all documents and information necessary to complete the application process.

15.6.2. The Concessionaire shall install and maintain at its cost, all utilities (other than power) necessary for the O&M of the Project Facilities, including water, telephone connections, internet connections, etc. at the Site(s). Specifically, to procure water for the O&M of the Project Facilities, the Concessionaire may dig bore wells at the Site(s) after obtaining all Applicable Permits (including any no-objection certificates from the Central Ground Water Authority or the relevant state authority).

15.6.3. The Concessionaire shall not be entitled to any additional costs to comply with its obligations in Article 15.6.

15.6.4. Authority shall provide any reasonable assistance required by the Concessionaire to obtain the utilities for the O&M of the Project Facilities.

15.7 Monitoring and Reporting

15.7.1. Online Monitoring and Meters

(a) At the Project Facilities Sites, the Concessionaire shall install and maintain an online monitoring system, in accordance with the Technical Specifications and Applicable Laws (including specifically, the EPA) to monitor the volume, specifications and characteristics of the incoming Solid Waste and ensure that the Project Facilities are capable of operating up to its design capacity on a daily basis. The online monitoring
devices should be capable of measuring and analyzing the quantum and characteristics of the Solid Waste at the Processing facility and decentralized units and of the quantum and quality of disposables discharged from the Sites.

(b) Online monitoring system shall maintain a record for equipment’s historical running information, status, faults, and any other parameters required to judge its conditions. Such monitoring shall be conducted in accordance with Applicable Laws and Good Industry Practices.

(c) The Concessionaire shall record and transmit all data collected from the online monitoring systems and the meter reading of the grade, volume and characteristics of the incoming Solid Waste and the processed disposables. The Concessionaire shall furnish a summary report for the Project Facilities to Authority (with a copy to the Project Engineer) on a daily basis, which shall indicate: (A) the quantum of the Solid Waste received at the relevant Project Facility(ies) and the quantum of the processed disposables including compost from the relevant Project Facility(ies) of the relevant day; and (B) the periods during which the quantum of Solid Waste received at the relevant Project Facility(ies) exceeded its design capacity.

(d) The Concessionaire shall also be required to upload the periodic reports from the online monitoring on the Central Pollution Control Board’s website.

(e) The Concessionaire shall maintain the online monitoring systems and meters at its own cost and expense for the entire O&M Period.

(f) At Project Facility (ies), the Concessionaire shall also install meters and gauges at the DG Sets to measure the total number of energy units (in kWh) consumed from the DG Sets in each month of the O&M Period.

(g) [If the Concessionaire sets up a Waste to Energy Plant(s), then the Concessionaire shall install meters at the Waste to Energy Plant(s) to measure the total number of energy units (in kWh) generated from the Waste to Energy Plant(s) in each month of the O&M Period.]

(h) The meters shall be calibrated once every year during the O&M Period in accordance with Good Industry Practices and the meters shall be jointly tested by Authority and the Concessionaire to ensure the accuracy of the meters installed by the Concessionaire.

15.7.2. Records and Reporting Requirements

(a) The Concessionaire shall maintain:

(i) records of the quantum and characteristics of the Solid Waste received at, and the processed disposables discharged from the Project Facilities; and

(ii) books of accounts recording all payments received from Authority and/or the State Government and other revenues derived/collected by it from the Project Facilities or resulting from its use, separately for each of the Project Facility and Site.
(b) The Concessionaire shall provide to Authority, 2 (two) copies of its audited financial statements along with a report from its statutory auditors, within 90 (ninety) days of the close of each Financial Year.

(c) For Project Facilities, the Concessionaire shall deliver to Authority, with a copy to the Project Engineer, the following during the O&M Period within the specified timelines:

(i) reports relating to any activity, problem, incident or circumstance that threatens or may threaten public health, safety, the environment or the safety and security of the Project Facilities, and any action taken to mitigate the effect of such incident or problem, as soon as reasonably practicable but no later than 12 (twelve) hours after the occurrence of such event or circumstance;

(ii) reports on any critical breakdowns or failures in the Project Facilities, within 12 (twelve) hours of such occurrence;

(iii) reports on accidents or other incidents in relation to the O&M personnel or any third party, along with statements on actions taken to minimise recurrence, within 2 (two) days of such occurrence;

(iv) daily reports with the data collected from the monitoring and metering system, the online monitoring system and the tests conducted by the Concessionaire in accordance with Clause 15.9 on the characteristics and volume of Solid Waste treated at the Project Facilities, processed disposables discharged from the Project Facilities, at the end of each day (i.e., on or before [1500 hours] every day);

(v) monthly progress reports relating to the performance of O&M services (including on compliance with the KPIs, details of disposal or sale, as the case may be, of the processed disposables, and details of any Emergency during the relevant month), on or before the 7th (seventh) day of the following month. The monthly progress report must be certified by the Project Engineer before it is submitted to Authority;

(vi) copies of any reports, notices or responses submitted for compliance/non-compliance with Applicable Laws or Applicable Permits, within 2 (two) days of making such submissions to the relevant Government Authority; and

(vii) reports on any material litigation, including any winding-up proceedings or notice to commence winding-up proceedings or material disputes to which the Concessionaire is a party, appointment of a receiver or administrator in relation to the business or assets of the Concessionaire and any adverse orders or judgments passed by any Government Authorities that affects or is likely to affect the performance of the O&M services, as soon as reasonably possible after the occurrence of any such event.

(d) It is clarified that the reports set out in this Clause 15.7 will be separately prepared and furnished for each of the Project Facilities.
(e) [It is expressly agreed between the Parties that the [Name of the Financial Institution] shall be permitted to inspect the Site(s) and/or all accounts, records, and other documents relating to contract performance of the Concessionaire, as well as its Sub-Contractors, agents, personnel, consultants, service providers or suppliers, including O&M contractors for the Project and have them audited by auditors appointed by the [Name of the Financial Institution].]

15.8 Design Capacity Utilization

15.8.1. During each day of the O&M Period, the Concessionaire shall ensure that Project Facilities can accept and process Solid Waste up to its design capacity.

15.8.2. The Concessionaire shall notify Authority (with a copy to the Project Engineer) as soon as it becomes aware that the quantum of Solid Waste received at the relevant Project Facility is more than its design capacity.

15.8.3. In such circumstances, if the Concessionaire is unable to accept and process the excess Solid Waste (i.e., over and above the design capacity) at the relevant Project Facility, then such failure shall be treated as a Forced Unavailability for which the Concessionaire shall not be liable, subject to the Concessionaire having notified Authority in accordance with Article 15.8.2 above. Authority reserves the right to require the Project Engineer to verify the capacity utilization at any Project Facility, at any time during the O&M Period.

15.9 Maintenance and Repair of the Project Facilities

15.9.1. During the O&M Period, the Concessionaire shall, at its own cost, undertake the maintenance of the Project Facilities and repair any damage to the Project Facilities either by itself, or through an approved Sub-Contractor, such that the Project Facilities shall be:

(a) in good working condition (subject only to wear and tear and Force Majeure) and achieve their full useful economic life in accordance with the Designs and Drawings;

(b) maintained in compliance with the Technical Specifications, O&M Manual, Scheduled Maintenance Programme, Applicable Laws, Applicable Permits, Good Industry Practice and the recommendations of the technology providers;

(c) capable of meeting the KPIs.

15.9.2. For the first year of the O&M Period, the Concessionaire shall submit its scheduled maintenance programme for the Project Facilities, specifying the Scheduled Maintenance periods for the Project Facilities and the impact of such Scheduled Maintenance periods on the Availability of each of the Project Facility (the “Scheduled Maintenance Programme”) to the Authority at least 1 (one) month before the Scheduled COD and for every subsequent year of the O&M Period, the Concessionaire shall submit the Scheduled Maintenance Programme, at least 1 (one) month prior to the beginning of the relevant year. The Scheduled Maintenance Programme for the first year will cover the period from the COD until the end of

18Insert if the Project is partly funded by a Financial Institution such as the World Bank, IDA, etc.
the calendar year in which the COD occurs. It is clarified that the Concessionaire shall submit a consolidated Scheduled Maintenance Programme for the Project Facilities.

15.9.3. Within 15 (fifteen) days of receipt of the Scheduled Maintenance Programme, Authority shall notify the Concessionaire of its approval of such schedule.

If Authority does not accept any one or more of the requested Scheduled Maintenance periods or its impact on the Availability of a Project Facilities, Authority shall advise the Concessionaire within 15 (fifteen) days of the receipt of the Scheduled Maintenance Programme on when any Scheduled Maintenance can be rescheduled or how its impact on the Availability of a Project Facilities may be minimised. The rescheduled time shall be as close as reasonably practicable to the requested time and shall be of equal duration as the requested period. If Authority fails to object to any Scheduled Maintenance within the specified time period or fails to advise the Concessionaire of a substitute time, the Concessionaire may schedule the Scheduled Maintenance for such duration and at such time as initially requested.

(a) Notwithstanding the finalization of the Scheduled Maintenance Programme pursuant to this Article 15.9, Authority may require the Concessionaire to reschedule a Scheduled Maintenance in the Scheduled Maintenance Programme, provided that:

(i) Authority has given the Concessionaire at least 30 (thirty) days’ prior written notice of such re-scheduling;

(ii) Authority shall not require such Scheduled Maintenance to be rescheduled for a period of shorter or longer duration;

(iii) Authority shall not require that a single Scheduled Maintenance period be split into two or more periods; and

(iv) Authority shall not require that a Scheduled Maintenance be brought forward any earlier than 15 (fifteen) days from the date of such notice without the consent of the Concessionaire.

(b) Notwithstanding the finalization of the Scheduled Maintenance Programme pursuant to this Clause 15.9, the Concessionaire may request a rescheduling of any Scheduled Maintenance upon 60 (sixty) days’ prior written notice to Authority. Authority shall respond to such request within 10 (ten) days and shall not unreasonably withhold its permission for such re-scheduling.

(c) Within 5 (five) days of any re-scheduling of a Scheduled Maintenance, as may be approved by the Authority, the Concessionaire shall provide to Authority, the amended Scheduled Maintenance Programme, which shall then be the “Scheduled Maintenance Programme”.

(d) During the O&M Period, the Concessionaire shall, at its own cost, replace any component or part of the Project Facilities that is damaged or worn out or in the Concessionaire’s judgment becomes no longer practicable to repair as a result of normal wear and tear.
If at any time during the O&M Period, a Project Facilities is damaged by a Minor Casualty, the Concessionaire shall, with reasonable diligence, proceed to process the claim with insurance providers and at its own cost, repair, replace, and restore the damaged portion of the Project Facilities to the same condition that it was in before the occurrence of such Minor Casualty. To the extent available, insurance proceeds shall be applied to such repair, replacement or restoration.

If at any time during the O&M Period, a Project Facilities is damaged by a Total Casualty, then this Agreement shall be terminable at the option of the Concessionaire. If the Concessionaire elects to terminate the Agreement, then the consequences set out in Article 23 will follow. If, however, the Concessionaire elects not to terminate the Agreement, then the Concessionaire shall repair, replace and restore the damaged Project Facilities to the same condition that it was in before the occurrence of such Total Casualty. To the extent available, insurance proceeds shall be applied to such repair, replacement or restoration.

15.10 Remedial Measures

If after the COD, the Concessionaire ceases to operate Project Facilities for a period of 48 (forty eight) consecutive hours other than due to a Forced Unavailability, Scheduled Maintenance, or a suspension pursuant to Article 21, which is not attributable to the Concessionaire, or a Force Majeure Event, without the prior written consent of Authority, then Authority shall be entitled to step-in and undertake O&M of such Project Facilities until the Concessionaire demonstrates to the satisfaction of Authority that it can and will resume normal operation and maintenance of the Project Facilities. The exercise of Authority’s rights under this Article 15.10 shall be at the cost, risk and expense of the Concessionaire. The Concessionaire shall not be entitled to receive any O&M Charges for the duration that Authority steps-in to operate and maintain the Project Facilities.

15.11 O&M Personnel

15.11.1. The Concessionaire shall engage (either directly or through an approved Sub-Contractor) adequate number of suitably skilled and qualified personnel to undertake the O&M of the Project Facilities in accordance with the requirements set out in this Article 15.

15.11.2. The Concessionaire shall be solely responsible for discharging all obligations in connection with the employment of the O&M personnel, including the payment of wages, salaries, Taxes, and retrenchment compensation and providing all amenities and benefits required under applicable laws.

15.11.3. Subject to compliance with the Applicable Laws, the Concessionaire shall have full freedom to determine its internal human resources (HR) policies, including the wages, benefits and salary structure of its employees, the conditions of service, the shifts of work, its hire and fire policy (whether for misconduct or other cause), and payment of severance or retrenchment compensation.

15.11.4. Authority is not and shall not be treated as the "principal employer" of or be deemed to have any contractual or other relationship with the O&M personnel. The Concessionaire shall hold
harmless and indemnify Authority against all losses, claims, costs and damages that Authority may suffer due to the Concessionaire’s or any of its Sub-Contractor’s failure to comply with Applicable Laws.
ARTICLE 16
MONITORING AND INSPECTION

16.1 During Pre-COD Period

16.1.1 Monthly Progress Reports

During the Pre-COD Period, the Concessionaire shall, not later than 7 (seven) days after
the close of each month, furnish to the Project Engineer, a monthly report bringing out in
detail the progress made by the Concessionaire and also organise monthly review
meetings with respect to its Scope of Work, including *inter-alia* the Processing facility
(including the power plant, if any), Project Facilities and any such information as may be
considered essential by the Project Engineer.

16.1.2 Inspection

During the Pre-COD Period, the Project Engineer shall inspect or cause to be inspected
the Project Facilities at least [once a month] or at such shorter intervals as may be
considered essential by the Project Engineer and make report of such inspection (the
“Pre-COD Inspection Report”) stating in reasonable detail the delay or deficiencies,
if any, with particular reference to the Scope of Work, specifications, Good Industry
Practices, and Applicable Laws.

It shall send a copy of such a Report to the Concessionaire within 2 (two) days of such
inspection/observation and upon receipt thereof, the Concessionaire shall rectify and
remedy the observations, if any, stated in the Inspection Report. Provided however, such
inspection or submission of Inspection Report by the Project Engineer shall not relieve
or absolve the Concessionaire of its obligations and liabilities hereunder in any manner
whatsoever.

16.1.3 Tests

For determining that the Project Facilities conform to the specifications and
requirements of this Agreement, the Project Engineer shall require the Concessionaire to
carry out or cause to be carried out tests, at such time and frequency and in such manner
as may be specified by the Project Engineer/Authority from time to time, in accordance
with Good Industry Practice for quality assurance. The Concessionaire shall, with due
diligence, carry out or cause to be carried out all the tests in accordance with the
instructions of the Project Engineer and furnish the results thereof to the Project
Engineer. For the avoidance of doubt, the costs to be incurred on any such test
undertaken shall be borne solely by the Concessionaire. In the event that results of any
tests conducted under this Article 16.1.3 above establish any defects or deficiencies in
the works, the Concessionaire shall carry out remedial measures and furnish a report to
the Project Engineer in this behalf. For the avoidance of doubt, it is agreed that tests
pursuant to this Article 16.1.3 shall be undertaken in addition to and independent of the
tests that shall be carried out by the Concessionaire for its own quality assurance in accordance with Good Industry Practice. It is also agreed that a copy of the results of such tests shall be sent by the Concessionaire to the Project Engineer forthwith.

16.2 Post-COD period

16.2.1 Monthly Status Reports

During Post-COD Period, the Concessionaire shall, not later than 7 (seven) days after the close of each month, furnish to the Project Engineer a monthly report stating in reasonable detail the condition of the Project including its compliance or otherwise with the Maintenance Requirements, the quantity of Solid Waste Collected, Processed and Disposed and shall promptly give such other relevant information as may be required by the Project Engineer. In particular, such report shall separately identify and state in reasonable detail the defects and deficiencies that require rectification.

16.2.2 Inspection

16.2.3 The Project Engineer shall inspect or cause to be inspected the execution of the Project at least [once a month]. It shall make a report of such inspection (the “Post-COD Inspection Report”) stating in reasonable detail the defects or deficiencies, if any, with reference to the Maintenance Requirements, maintenance manual, KPIs or requirements as set forth in this Agreement including Schedules/ Schedules, and send a copy thereof to the Concessionaire within 7 (seven) days of such inspection and upon receipt thereof, the Concessionaire shall rectify and remedy the defects or deficiencies, if any, stated in the Post-COD Inspection Report. Such inspection or submission of Post-COD Inspection Report by the Project Engineer shall not relieve or absolve the Concessionaire of its obligations and liabilities hereunder in any manner whatsoever.

16.2.4 Remedial measures

(a) The Concessionaire shall repair or rectify the defects or deficiencies, which have impact on the operations/ efficiency of the Project, if any, set forth in the Post-COD Inspection Report and furnish a report in respect thereof to the Project Engineer within 15 (fifteen) days of receiving the Post-COD Inspection Report; provided that where the remedying of such defects or deficiencies is likely to take more than 15 (fifteen) days, the Concessionaire shall submit progress reports to the Project Engineer of the repair works [once every week] until such works are completed in conformity with this Agreement.

(b) In the event that remedial measures are not completed by the Concessionaire in conformity with the provisions of this Agreement, the Project Engineer/ Authority shall be entitled to recover Damages from the Concessionaire at the rate of [0.1% (zero point one percent)] of Performance Security for each day of delay beyond the period specified for rectification of such defect or deficiency by the Project Engineer/Authority.
16.2.5 Authority’s right to take remedial measures

(a) In the event the Concessionaire does not maintain and/or repair the Project Facilities/Project Assets or any part thereof in conformity with the Maintenance Requirements, maintenance manual or KPI or requirements as set forth in this Agreement including Schedules/ Schedules, and fails to commence remedial works within 15 (fifteen) days of receipt of Post-COD Inspection Report or notice in this behalf from the Authority, the Authority shall, without prejudice to its right under this Agreement including termination thereof, be entitled to undertake such remedial measures at the risk and cost of the Concessionaire, and to recover its cost from the Concessionaire. In addition to recovery of the aforesaid cost, an additional sum equal to [10% (ten percent)] of such cost shall be paid by the Concessionaire to the Authority as damages.

(b) The Authority shall have the right, and the Concessionaire hereby expressly grants to the Authority the right, to recover the costs and Damages specified in this Article directly from the Escrow Account, and for that purpose, the Concessionaire hereby agrees to give irrevocable instructions to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the Authority under this Article. Any demand from the Authority stating that a specified amount is payable shall be final, binding and conclusive on the Concessionaire and Escrow Bank and Escrow Bank shall pay and Concessionaire shall cause the Escrow Bank to pay such amount without any demur, delay, cavil or protest on receiving a demand for such costs and Damages.
ARTICLE 17
PAYMENTS

17.1. Payment during Concession Period

In consideration of the works and services required to be performed by the Concessionaire for designing, financing, constructing, operating and maintaining the Project Facilities in accordance with this Agreement, the Concessionaire shall be entitled to receive the Construction Payments and the O&M Payments from the Authority and the State Government in accordance with this Article 17.

The Concessionaire shall be deemed to have satisfied itself regarding the adequacy, accuracy and sufficiency of the Construction Payments and the O&M Payments. Except for any adjustment in accordance with this Agreement, or any permitted Variation, the Construction Payments and the O&M Payments are the total consideration payable to the Concessionaire for undertaking the Project.

17.1.1. Bid Project Cost

The Parties expressly agree that the cost of construction of the Project, as on the Bid Date, which is due and payable by the Authority/State Government to the Concessionaire, shall be deemed to be Rs. [•] (Rupees [•]) (the “Bid Project Cost”). The Parties further agree that the Bid Project Cost specified hereinabove for payment to the Concessionaire shall be inclusive of the cost of Bio-Remediation, cost of decentralized units, cost of construction, interest during construction, working capital, physical contingencies and all other soft costs, expenses and charges for and in respect of construction of the Project [save and except any additional costs arising on account of variation in Price Index, change of Scope of Work, Change in Law, Force Majeure or breach of this Agreement, which costs shall be due and payable to the Concessionaire in accordance with the provisions of the Agreement]. For the avoidance of doubt, the Bid Project Cost specified herein represents the amount due and payable by the Authority/State Government to the Concessionaire and may be less than, equal to, or more than the Estimated Project Cost.

17.1.2. Adjusted Bid Project Cost

(a) The Bid Project Cost specified shall be revised from time to time in accordance with the provisions to reflect the variation in Price Index occurring after the Reference Index Date immediately preceding the Bid Date.

(b) The Bid Project Cost adjusted for variation between the Price Index occurring between the Reference Index Date preceding the Bid Date and the Reference Index Date immediately preceding the Execution Date shall be deemed to be the Bid Project Cost at commencement of construction.

(c) For every month occurring after the Execution Date, the Authority shall compute the variation in Price Index occurring between the Reference Index Date preceding the Bid Date and the Reference Index Date preceding the date of Invoice, and shall express the latter as a multiple of the former (the “Price Index Multiple”).
All Invoices to be submitted by the Concessionaire to the Authority for and in respect of the Construction Period shall be the product of the relevant proportion of the Bid Project Cost and the Price Index Multiple applicable on the date of Invoice. For the avoidance of doubt and by way of illustration, if the Price Index on the Reference Index Date preceding the Bid Date, say January 31, 2016, is 200 (two hundred); the Invoice is submitted on October 15, 2017; and the Price Index as on September 30, 2017 is 210 (two hundred and ten), then the Price Index Multiple for determination of the amount due in respect of such Invoice shall be 1.05 (one point zero five).

17.1.3. Payment of Bid Project Cost

(a) [45% (forty five per cent)] of the Bid Project Cost, adjusted for the Consumer Price Index multiple, shall be due and payable to the Concessionaire in 5 (five) equal installments of [9% (nine per cent)] each during Bio-Remediation of Legacy Waste and construction of other Project Facilities in accordance with the provisions of this Agreement.

(b) The remaining Bid Project Cost, adjusted for the Consumer Price Index Multiple, shall be due and payable in [120 (one hundred and twenty)] [monthly] installments commencing from the day of COD in accordance with the Article 17.1.6 (e).

17.1.4. Payment during Construction Period

(a) The State Government or the Authority shall deposit an amount equivalent to the first [2 (two)] Payment Milestones in the Escrow Account in accordance with the Escrow Agreement, prior to the Compliance Date. From the Compliance Date and during the Construction Period, the State Government and Authority shall ensure that the Escrow Account is funded with an amount equivalent to the next [2 (two)] Payment Milestones for the Project Facilities.

(b) 10% (ten per cent) of the Bid Project Cost for the Project Facility shall be given to the Concessionaire as a Mobilization Advance in accordance with Article 17.1.4(d), which will be adjusted against the Construction Payments to be paid by the State Government or the Authority to the Concessionaire in 5 (five) installments, in accordance with Article 17.1.4(e). The Construction Payments will be paid to the Concessionaire upon completion of the work corresponding to the Payment Milestones and certification of completion of such Payment Milestones by the Authority.

(c) Adjustment in Construction Payments

(i) The Construction Payments shall be adjusted during the Construction Period to reflect the variation in the Construction Price Index occurring after the Reference Index Date immediately preceding the Bid Due Date.

(ii) All Invoices to be submitted by the Concessionaire to the Authority for any installment of the Construction Payments shall be the product of the relevant percentage of the Bid Project Cost and the Price Index Multiple applicable on the
date of the Invoice.

(d) Mobilization Advance

(i) 10% (ten per cent) of the Bid Project Cost shall be payable to the Concessionaire as the Mobilization Advance, within 30 (thirty) days from the Compliance Date, subject to the Concessionaire having submitted a Mobilization Advance Guarantee in accordance with Article 9.

(ii) Subject to Article 17.1.4(d)(iv) below, Project Facilities Mobilization Advance shall be an interest free advance for mobilization and towards execution of the construction works for the Project Facilities.

(iii) The Mobilization Advance shall be deducted in equal installments from the 5 (five) installments of the Construction Payments to be made to the Concessionaire upon progressive completion of the Payment Milestones.

(iv) However, the Concessionaire is liable to pay a simple interest at the rate of 8% (eight per cent) on the Mobilization Advance, if the Payment Milestones are not achieved by the Concessionaire in accordance with the agreed Construction Plan and for the reasons attributed to the Concessionaire. The interest shall be payable for the period between the actual Payment Milestone and agreed Payment Milestone. The interest amount shall be deducted along with the Mobilization Advance from the Construction Payments.

(e) Milestone Construction Payments

(i) Subject to this Article 17.1.4(e), and upon receiving a report from the Project Engineer certifying the physical progress for each Project Facility, the Construction Payments will be paid by the State Government or the Authority to the Concessionaire in the following 5 (five) equal installments (the "Payment Milestones") (after adjusting the Mobilization Advance (and the interest payable if any as per Clause 17.1.4(d)(iii)):

(A) 1st (first) installment equal to [9% (nine per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 10% (ten per cent) physical progress, upon the issuance of the first Milestone Completion Certificate;

(B) 2nd (second) installment equal to [9% (nine per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 30% (thirty per cent) physical progress, upon the issuance of the second Milestone Completion Certificate;

(C) 3rd (third) installment equal to [9% (nine per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 50% (fifty per cent) physical progress, upon the issuance of the third Milestone Completion Certificate;
(D) 4th (fourth) installment equal to [9% (nine per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 75% (seventy five per cent) physical progress, upon the issuance of the fourth Milestone Completion Certificate; and

(E) 5th (fifth) installment equal to [9% (nine per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 100% (hundred per cent) physical progress, upon the issuance of the Construction Completion Certificate.

For the purpose of this Article 17.1.4, physical progress shall mean and include the Metric Tonnes of Legacy Waste cleared from the Dumpsite, and the stage of construction achieved for the Project Facility(ies) in accordance with the agreed Construction Plan submitted by the Concessionaire. 19

Provided that in case of change of Scope of Work, the Physical Progress shall be re-calculated to account for the changed scope.

(ii) For the Project Facility(ies), within 7 (seven) days of issuance of the Milestone Completion Certificate for a Payment Milestone, the Concessionaire shall submit an Invoice to the Authority for the amount of the Construction Payment linked to such Payment Milestone along with the KPI Adherence Report. Any Invoice raised by the Concessionaire for the Construction Payments shall be accompanied by a copy of the relevant Milestone Completion Certificate issued by the Authority.

(iii) Within 10 (ten) days of receipt of an Invoice from the Concessionaire pursuant to Article 17.1.4(c)(ii) above, the Authority shall verify and certify the amounts due and payable to the Concessionaire, and either:

(A) approve the Invoice and issue a certificate to the Escrow Bank (the “Payment Certificate”) (with a copy to the State Government and the Concessionaire), conveying its approval for the release of the amount specified in the Invoice, less any necessary deductions or adjustments in accordance with this Agreement and/or Applicable Laws (including for payments to be made by the Concessionaire under applicable labour laws); or

(B) issue a notice to the Concessionaire disputing the Invoice and directing the Concessionaire to issue a revised Invoice, after rectifying the errors or discrepancies identified by the Authority.

The Concessionaire shall submit a revised Invoice to the Authority after

---

19 If the Concessionaire is a Consortium or Joint-Venture, the internal mechanism of payment basis and payment frequency to the Consortium member carrying out Bio-Remediation of Legacy Waste related works is to be devised by the Consortium members.
rectifying the errors or discrepancies identified by the Authority and this process will be repeated until the Authority approves the Invoice and issues a Payment Certificate to the Escrow Bank with a copy to the State Government and the Concessionaire, conveying its approval for release of the amount specified in the Invoice.

(iv) Any dispute between the Parties in relation to a disputed Invoice will be settled in accordance with Article 26.

(v) If, within 10 (ten) days from the date of receipt of an Invoice, the Authority does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by the Authority, and the Concessionaire may issue instructions to the Escrow Bank (with a copy to the Authority and the State Government) to release the amounts specified in the Invoice, upon the expiry of the 10 (ten) day period.

(vi) Immediately upon receipt of a Payment Certificate from the Authority or upon receipt of instructions from the Concessionaire in accordance with Clause 17.1.4(e)(vi), the Escrow Bank shall release the amount specified in the Payment Certificate or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice, in accordance with the Escrow Agreement.

(vii) Notwithstanding anything to the contrary in this Agreement, the Authority shall have no obligation to issue a Payment Certificate unless:

(A) the Performance Securities remain valid and in effect;

(B) the insurances to be obtained by the Concessionaire in accordance with Article 27 are valid and in effect;

(C) the Concessionaire Applicable Permits for construction of the Project Facilities are in full force and effect, unless the withdrawal or cancellation of any Applicable Permit is not attributable to the Concessionaire's failure to comply with Applicable Laws;

(D) the Concessionaire has complied with the ESHS Documents in undertaking the construction of the Project Facilities; and

(E) there is no subsisting Concessionaire Event of Default.

(F) the Concessionaire shall be paid the Construction Payments in Rupees. [However, if, in the Financial Proposal, the Selected Bidder specified any percentage of the Bid Project Cost which it would want to receive in a foreign currency during the Construction Period, then the Construction Payments corresponding to such percentage of the Bid Project Cost shall be paid to the Concessionaire in the relevant foreign currency. For the purpose of payment in a foreign currency, the exchange rate shall be [1].] It is clarified that the aggregate Construction Payments due to the Concessionaire shall not exceed [45% (forty five per cent)] of the Bid
Project Cost, as quoted by the Selected Bidder in Rupees and adjusted for inflation as per Clause 17.1.4(c), on account of a percentage of the Bid Project Cost being paid to the Concessionaire in foreign currencies.

17.1.5. Bonus on early completion

In the event that the Concessionaire shall achieve COD on or more than 30 (thirty) days prior to the Scheduled Completion Date, the Authority shall pay to the Concessionaire a bonus equal to [0.5% (zero point five per cent)] of [60% (sixty per cent)] of the Bid Project Cost for the first [30 (thirty)] days by which COD shall precede the Scheduled Completion Date and thereafter the said bonus shall be calculated on the pro-rata basis for each day preceding the said [30 (thirty)] days period. The bonus shall be due and payable to the Concessionaire along with the 1st (first) Annuity Payment.

17.1.6. Payments during Operation Period

(a) The Parties acknowledge and agree that the Authority has paid [45% (forty five)] of the Bid Project Cost as payments during Construction Period pursuant to Clause 17.1.4 of this Agreement. The balance Bid Project Cost of remaining [55% (fifty five per cent)] (the “Capex Annuity”), the interest on the reducing balance of [55% (fifty five per cent)] of the Bid Project Cost, the O&M Charges and the Power Charges (the “O&M Payments”), shall be due and payable in Rupees during the next [20 (twenty)] years in equal [monthly/quarterly] payments in accordance with this Article 17.1.6.

(b) The 1st (first) installment of Annuity Payments shall be due and payable within 15 (fifteen) days of the [30th (thirtieth)/90th (ninetieth)] day of COD and the remaining installments shall be due and payable within 15 (fifteen) days of completion of each of the successive [months/quarters] (the “Annuity Payment Date”). For the avoidance of doubt, the last Annuity Payment Date would be adjusted to in such a way that it falls at the end of the Operations Period.

(c) On and from the COD and during the O&M Period, the State Government or the Authority shall deposit the O&M Payments for each Project Facility in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuity (along with interest), the O&M Charges and the estimated Power Charges for the next [2 (two)] years for the Project Facility.

(d) Adjustment in O&M Charges

(i) The O&M Charges shall be adjusted during the O&M Period to reflect the variation in the O&M Price Index occurring after the Reference Index Date immediately preceding the Bid Due Date.

(ii) All Invoices to be submitted by the Concessionaire to the Authority for the [monthly/quarterly] O&M Charges shall be the product of the applicable O&M Charges for the relevant [month/quarter] and the Price Index Multiple applicable on the date of the Invoice.

(e) Capex Annuity

20 Applicable for Projects funded through foreign sources
(i) The Capex Annuity shall be payable in [*] equal [monthly/quarterly] installments during the O&M Period.

(ii) Interest shall be payable on the reducing balance of 60% (sixty per cent) of the Bid Project Cost for the Project Facilities, at the rate of the SBI MCLR plus 3% (three per cent) per annum. Such interest shall be due and payable [monthly/quarterly] along with each installment of the Capex Annuity. The Parties agree that such interest shall be calculated on the basis of the number of days for which the relevant rate of the SBI MCLR was applicable during the period of calculation.

By way of illustration, assuming that the balance Bid Project Cost to be paid to the Concessionaire on the date of payment of the 1st (first) Capex Annuity installment is INR 50,00,00,000 (Rupees fifty crores), the applicable SBI MCLR for the first 50 (fifty) days is 8% and thereafter it is revised to 7.5% and remains unchanged till the date of payment of the 2nd (second) Capex Annuity, the interest would be calculated as \( ((50\times 11\% \times 50)/365) + ((50\times 10.5\% \times 40)/365) \). For the avoidance of doubt, the interest shall be calculated on simple interest basis and the interest shall not be compounded for the purpose of payment.

(f) O&M Charges

(i) The Authority shall pay to the Concessionaire, every [month/quarter] the amount required by the Concessionaire to operate and maintain the Project Facilities, excluding the Power Charges, during the O&M Period (the “O&M Charges”).

(ii) The O&M Charges shall be made for every ton of Solid Waste collected in the Project Area, transported to the Processing Facility/decentralized units by the Concessionaire and processed at the Processing Facility/decentralized units during the Post-COD period. The O&M charges will include, *inter-alia*, Primary Collection operation cost including manpower, cost of fuel, etc., Secondary Collection operation cost including manpower, cost of fuel, etc., depreciation on costs of bins, carts, vehicles and trucks and Waste Processing cost including manpower, electricity, fuel and other consumables.

(iii) The O&M Charges for the first [month/quarter] after COD will be calculated on the basis of the O&M Charges quoted by the Selected Bidder in the Financial Proposal for the first month from the COD, which amount shall be adjusted for the Price Index Multiple applicable on the Reference Index Date preceding the date of the first Invoice for the O&M Payments.

(iv) For each subsequent [month/quarter] of the O&M Period, the O&M Charges will be adjusted for the Price Index Multiple applicable on the Reference Index Date preceding the date of the relevant Invoice for the O&M Payments.
(i) The Power Charges for the Facilities shall initially be borne by the Concessionaire, which shall be reimbursed by the State Government or the Authority to the Concessionaire, subject to a cap of the Power Charges based on the Guaranteed Energy Consumption.

(ii) The Power Charges for any given [month/quarter] of the O&M Period will be calculated as follows:

(A) For the units of energy consumed from the grid (as evidenced by a copy of the bill issued by the distribution licensee), the Power Charges will be calculated by multiplying the number of units consumed in such [month/quarter] (subject to the Guaranteed Energy Consumption for the energy consumed by the relevant Project Facility) with the Power Unit Rate.

If the Concessionaire procures power from outside [Name of State of the Project], then, the Power Unit Rate will be the prevalent power unit rate in [Name of State of the Project] or the tariff at which the Concessionaire procures power from outside [Name of State of the Project], whichever is lower.

(B) If there is any interruption in the supply of power from the grid, and the Concessionaire uses backup power supply from the DG Sets, then,

(I) the Concessionaire's Representative and the Authority shall jointly take readings from the meters installed at the DG Sets to determine the number of units of energy consumed from the DG Sets for O&M of the Project Facilities;

(II) the number of units of energy consumed from the DG Sets (determined as per (I) above) shall be adjusted such that the aggregate of the total number of units consumed from the grid and the total number of units consumed from the DG Sets shall not exceed the Guaranteed Energy Consumption for the Project Facilities (the “Adjusted DG Set Units”);

(III) the quantity of diesel consumed to generate the Adjusted DG Set Units in the relevant [month/quarter] shall be calculated by the Authority based on the rated specific fuel consumption of the DG Sets specified by the manufacturers of the DG Sets; and

(IV) the Power Charges for the Adjusted DG Set Units will be calculated by multiplying the quantity of diesel consumed (determined as per (III) above) with the Fuel Price.

(C) For each Project Facility, the Concessionaire shall be liable to pay liquidated damages to the Authority for any units of energy consumed beyond the Guaranteed Energy Consumption (whether from the grid or...
from the DG Sets) for such Project Facilities (the “Power Consumption Liquidated Damages”), which will be calculated as follows:

(I) For excess power consumption up to 5% (five per cent) of the Guaranteed Energy Consumption of the Project Facility:

Power Consumption Liquidated Damages: \( \text{(Number of power units consumed in the relevant [month/quarter] – Guaranteed Energy Consumption for such [month/quarter])} \times [\text{Power Unit Rate}] \times 0.25 \)

(II) For excess power consumption between 5% (five per cent) and 10% (ten per cent) of the Guaranteed Energy Consumption of the Project Facility:

Power Consumption Liquidated Damages: \( \text{(Number of power units consumed in the relevant [month/quarter] – Guaranteed Energy Consumption for such [month/quarter])} \times [\text{Power Unit Rate}] \times 0.5 \)

(III) For excess power consumption above 10% (ten per cent) of the Guaranteed Energy Consumption of the Project Facility:

Power Consumption Liquidated Damages: \( \text{(Number of power units consumed in the relevant [month/quarter] – Guaranteed Energy Consumption for such [month/quarter])} \times [\text{Power Unit Rate}] \)

(D) The Power Consumption Liquidated Damages payable by the Concessionaire in any [month/quarter] of the O&M Period will be deducted from the O&M Charges for the Project Facilities payable to the Concessionaire for such [month/quarter]. If the Power Consumption Liquidated Damages for a [month/quarter] exceed the O&M Charges for the Project Facilities for such [month/quarter], then the excess amounts shall, at the discretion of the Authority, either be adjusted against the O&M Charges for the Project Facilities for the subsequent [month/quarter] or recovered from the O&M Security.

(h) The O&M Payments shall be paid by the State Government or the Authority to the Concessionaire on a [monthly/quarterly] basis. For each of the Project Facilities, the Concessionaire shall submit an Invoice to the Authority for each [month/quarter] on or before the 7th (seventh) day of the [month/first month of the following quarter], which should set out: (i) the Capex Annuity due to the Concessionaire in such [month/quarter], along with interest; (ii) the O&M Charges due to the Concessionaire in such [month/quarter]; and (iii) the Power Charges incurred by the Concessionaire during such [month/quarter] for power drawn from the grid or the DG Sets, subject to the cap of the Power Charges based on the Guaranteed Energy Consumption for the Project Facilities. Any Invoice raised by the Concessionaire for O&M Payments shall be accompanied with a copy of the: (A) KPI adherence report for [the month/each month of the relevant quarter], duly certified by the Project Engineer; (B) copy of the bill(s) issued by the state distribution utility for the Power Charges, and if relevant, copy of the joint meter reading for consumption of power from the DG Sets; and (C) daily weights sheets of
the electronic weighbridge installed at the entrance of the Sanitary Land Fill/Processing Facilities Site/decentralized units as prescribed in Schedule 16, duly verified and approved by the Project Engineer.

If the Invoice is not accompanied with the supporting documents specified at (A), (B) and (C) above, the Authority shall not be required to process such Invoice.

(i) Within 10 (ten) days of receipt of an Invoice from the Concessionaire pursuant to Clause 9.4(h) above, the Authority shall verify and certify the amounts due and payable to the Concessionaire, and either:

(i) approve the Invoice and issue a Payment Certificate to the Escrow Bank with a copy to the State Government and the Concessionaire, conveying its approval for the release of the amount specified in the Invoice, less any necessary deductions or adjustments in accordance with this Agreement and/or Applicable Laws (including any statutory dues); or

(ii) issue a notice to the Concessionaire disputing the Invoice and directing the Concessionaire to issue a revised Invoice, after rectifying the errors or discrepancies identified by the Authority.

The Concessionaire shall submit a revised Invoice to the Authority after rectifying the errors or discrepancies identified by the Authority and this process will be repeated until the Authority approves the Invoice and issues a certificate to the Escrow Bank, with a copy to the State Government and the Concessionaire, conveying its approval for release of the amount specified in the Invoice.

(j) Any dispute between the Parties in relation to a disputed Invoice will be settled in accordance with Article 26.

(k) If, within 10 (ten) days from the date of receipt of an Invoice, the Authority does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by the Authority, and the Concessionaire may issue instructions to the Escrow Bank with a copy to the Authority and the State Government, to release the amounts specified in the Invoice, upon the expiry of the 10 (ten) day period.

(l) Immediately upon receipt of a Payment Certificate in accordance with Clause 9.4(i)(i) or upon receipt of instructions from the Concessionaire in accordance with Clause 9.4(l), the Escrow Bank shall release the amount specified in the Payment Certificate or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice, in accordance with the Escrow Agreement.

(m) Notwithstanding anything to the contrary in this Agreement, the Authority shall have no obligation to issue a Payment Certificate unless:

(i) the O&M Securities remain valid and in effect;

(ii) the insurances to be obtained by the Concessionaire in accordance with Article 27
are valid and in effect;

(iii) the Concessionaire Applicable Permits for O&M of the Project Facilities are in full force and effect, unless the withdrawal or cancellation of any Applicable Permit is not attributable to the Concessionaire’s failure to comply with Applicable Laws;

(iv) the Concessionaire has complied with the ESHS Documents in undertaking the O&M of the Facilities; and

(v) there is no subsisting Concessionaire Event of Default.

(n) The O&M Payments shall be varied each year in the month of April (FY) in proportion to change in Consumer Price Index, issued by Ministry of Statistics and Program Implementation, Government of India.

17.2. Escrow Account

(a) Prior to the Compliance Date, the Concessionaire, the State Government, the Authority and the Escrow Bank shall enter into the Escrow Agreement and the State Government shall open the Escrow Account with the Escrow Bank in accordance with the Escrow Agreement, which shall be operational until the expiry of the Concession Period. The Escrow Agreement shall set out the terms of appointment of the Escrow Bank, the State Government’s and Authority’s obligation to deposit the Construction Payments and the O&M Payments in accordance with this agreement with the Escrow Bank and terms of withdrawal of amounts from the Escrow Account.

(b) Minimum Escrow Balance

At all times, to maintain the minimum balance in the Escrow Account (the “Minimum Escrow Balance”):

(i) the State Government shall deposit an amount equivalent to the first [2 (two)] Payment Milestones prior to the Compliance Date. From the Compliance Date and during the Construction Period, the State Government and the Authority shall ensure that the Escrow Account is funded with an amount equivalent to the next [2 (two)] Payment Milestones; and

(ii) on and from the COD until Termination Date, the State Government or the Authority shall deposit the O&M Payments in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuity (along with interest), the O&M Charges and the estimated Power Charges for the next [3 (three)] O&M Payments for Project Facilities.

If at any time during the Construction Period or the O&M Period, the balance in the Escrow Account falls below the Minimum Escrow Balance, the State Government or the Authority shall promptly, and in any event, no later than 90 (ninety) days, fund the
Escrow Account such that the Minimum Escrow Balance is maintained. A failure to maintain the Minimum Escrow Balance for 90 (ninety) days would be treated as an Authority Event of Default or State Government Event of Default and the consequences set out in Article 23 would follow.

It is clarified that any interest earned on the amounts deposited by the State Government or the Authority in the Escrow Account will be counted towards the Minimum Escrow Balance.

(c) The Concessionaire shall be entitled to withdraw amounts from the Escrow Account in accordance with the provisions of this Agreement and the Escrow Agreement.

17.3. Taxes and Royalties

(a) The Construction Payments and the O&M Payments are inclusive of all Taxes.

(b) the Authority may deduct from the Construction Payments, the O&M Payments and any other amounts due to the Concessionaire, any income tax or withholding tax that is required to be deducted at source.

(c) The Concessionaire shall be responsible for payment of all applicable Taxes, including all procedural compliances related to the payment of Taxes pursuant to this Agreement, and shall be solely responsible for any proceedings initiated by any Government Authority, in respect of any non-payment or short-payment of Taxes.

(d) The Concessionaire shall be responsible for payment of all applicable royalties on any fine and coarse aggregate, core sand, fine sand, grit and any other minerals extracted and/or used by the Concessionaire or any Sub-Contractor during the Construction Period and furnish proof of payment of such royalties to the Authority along with the Invoices for the Construction Payments.

(e) Upon a request from the Concessionaire, the State Government and the Authority will provide all relevant certificates and information to enable the Concessionaire to obtain any Tax exemptions available in relation to the Project. It is clarified that the Authority shall not be responsible in any manner for ensuring that any applicable Tax exemptions are available to the Concessionaire.

(f) The Concessionaire shall indemnify the State Government and the Authority from and against any cost or liability that may arise due to the Concessionaire's failure to pay all applicable Taxes, in connection with the Project.

(g) Any Taxes payable in relation to the Sites shall be borne by the Authority.

17.4. Default Interest

Upon any Party's failure to make a payment due and payable by it on the due date for such payment, the defaulting Party shall be liable to pay default interest on all such outstanding amounts at the prevailing SBI MCLR + 3% (three per cent) per annum or part thereof. This is
without prejudice to any Party’s right to terminate this Agreement in accordance with Article 23 or any other right or remedy available to it under this Agreement or Applicable Laws.

17.5. Disputed Amounts

(a) The Parties shall, within [10 (ten)] days of receiving the amount due and payable to it, shall notify the other Party of the disputed amounts along with details thereof (the “Disputed Amounts”). Within [7 (seven)] days of receiving such notice, the defending Party shall present any information or evidence as may be reasonably required for determining that such Disputed Amounts are not payable. The Parties may, if necessary, meet a representative of the other Party for resolving the dispute and in the event that the dispute is not resolved the Dispute Resolution Procedure in accordance with Article 26 shall apply.

(b) If any amount is payable by either Party upon determination of a dispute regarding any Disputed Amount such amount shall be deemed to be payable on the date when it first became due and interest for the period of delay shall be due and payable at the rate specified in Article 17.8.

17.6. Set-off

(a) The Concessionaire shall not be entitled to retain or set-off any amount due to the State Government or the Authority by it, but the State Government or the Authority may retain or set-off any amount owed to it by the Concessionaire under this Agreement which has fallen due and payable against any amount due to the Concessionaire under this Agreement.

(b) The State Government or the Authority shall notify the Concessionaire at the time it exercises its right to set-off and shall provide the Concessionaire its reasons for exercising such right to set-off.

17.7. [Power Tariff21]

Payment shall be made by [Name of the State] State Electricity Board (SEB) or any other power utility company of Government of [Name of the State] on a tariff approved by [Name of the State] State Electricity Regulatory Commission (SERC) or revised tariff from time to time, for the number of units generated and made available at by the Waste to Energy Plant as per the Power Purchase Agreement (the “PPA”) signed between Concessionaire and SEB.

---

21Should the Authority and Concessionaire choose to opt for Power Purchase Agreement, the payment mechanism under the PPA may be developed separately.
ARTICLE 18
KEY PERFORMANCE INDICATORS

18.1. Key Performance Indicators

Without prejudice to the obligations specified in this Agreement, the Concessionaire shall develop, operate and maintain the Project Facilities, machinery, and vehicles such that it achieves the performance indicators comprising Availability, Reliability, Operation, Punctuality, Frequency, Safety, upkeep and conformity with ISO certification, as specified in this Article, Good Industry Practice and Applicable Laws (the “Key Performance Indicators”).

18.1.1. Bio-Remediation of Legacy Waste

(a) Availability

The Concessionaire shall ensure that the Availability of the machinery and facilities for Bio-remediation of Legacy Waste on every day during the Period of Bio-Remediation of Legacy Waste shall be [100% (one hundred per cent)] (the “Guaranteed Availability”).

(b) Operation

(i) The Concessionaire shall at all times procure that, save and except any determined damage caused by theft, arson or vandalism:

(A) there are adequate arrangements for machinery and facilities for Bio-Remediation of Legacy Waste as per Specifications and Standards;

(B) all machinery, equipment and facilities are operational, function efficiently, and their availability is no less than [98% (ninety eight per cent)] in a month;

(C) the machinery and facilities at the Legacy Waste dumpsite are maintained in accordance with Maintenance Requirements;

(D) clearance of the Legacy Waste dumpsite for reclamation of land is on-schedule as per the Reclamation Plan;

(e) Punctuality and duration of work

(i) The Concessionaire agrees that the Punctuality as to the duration of work at the Legacy Waste dumpsite shall be measured on a monthly basis in terms of the percentage of days with minimum [8 (eight)] hours of operation to the total number of working days (“Duration Punctuality”).

(ii) The Concessionaire agrees that the Duration Punctuality shall be equal to or more than [80% (eighty percent)] respectively.
(i) The Parties agree that the Safety of operation of the work of Bio-Remediation shall be measured in terms of inverse of number of accidents per [1,00,000 MT (One Lakh Metric Tonnes)] (the “General Safety”) and the number of fatalities per [10,00,000 MT (Ten Lakh Metric Tonnes)] (the “Severe Safety”), respectively. The General Safety and Severe Safety shall be calculated in terms of total quantum of Legacy Waste cleared divided by number of accidents multiplied by [1,00,000 (One Lakh)] and total quantum of Legacy Waste cleared divided by number of fatalities multiplied by [10,00,000 (Ten Lakh)], respectively.

(ii) The Concessionaire agrees that the General Safety and the Severe Safety, as the case may be, determined in accordance with Article 18.1.1(d)(i) shall be equal to or more than [1 (one)].

18.1.2. Collection and Transportation

(a) Availability

The Concessionaire shall ensure that the Availability of the collection and transportation vehicles on every day during the O&M Period shall be 100% (one hundred per cent) (the “Guaranteed Availability”).

(b) Collection Coverage

Household level coverage of solid waste management services through door-to-door collection of domestic waste (the “Collection Coverage”) shall be the percentage of households and establishments that are covered by a daily doorstep collection system, measured on a monthly basis. The Collection Coverage shall be no less than [95% (ninety five per cent)] in a month.

(c) Reliability

(i) The Parties agree that the average reliability of the collection and transportation vehicles shall be measured on a monthly basis in terms of the number of Breakdowns per [100 (one hundred)] kilometres travelled each by all collection vehicles and all transportation vehicles, separately (the “Reliability”). For this purpose, Breakdown shall mean mechanical failure of a vehicle that prevents it from being operational or impedes the operation so much that it is impossible or dangerous to operate.

(ii) The Reliability hereunder shall be equal to the quotient of the cumulative distance travelled by all collection vehicles and all transportation vehicles, separately, divided by the aggregate number of Breakdown of all such collection vehicles and all such transportation vehicles multiplied by [100 (one hundred)].
(iii) The Concessionaire agrees that the Reliability for the collection vehicles and transportation vehicles each in accordance with Article 18.1.2(d) shall be equal to or more than [1 (one)].

(iv) The Reliability requirement shall be separately achieved for collection vehicles and the transportation vehicles.

(d) Operation

(i) The Concessionaire shall at all times procure that, save and except any determined damage caused by theft, arson or vandalism:
   (A) there are adequate arrangements for collection and transportation of household waste in segregated form as per Specifications and Standards;
   (B) the collection and transportation vehicles are maintained in accordance with Maintenance Requirements;
   (C) the collection and transportation vehicles are operational, clean, and hygienic;
   (D) the Waste Collection Information Systems in the Project Area function efficiently;
   (E) the Waste collection and transportation vehicles and machinery and facilities for bio-remediation of legacy waste and processing of fresh waste function efficiently, and their availability is no less than [98% (ninety eight per cent)] in a month.

(e) Punctuality

(i) Punctuality shall be measured on a monthly basis in terms of the percentage of on-time start of trips of the collection vehicles to the total number of trips operated on a daily basis (“Start Punctuality”). The total number of trips starting/arriving late during the month will be recorded and subtracted from the number of trips operated to arrive at the on-time trips operated figures separately in each case.

(ii) The Concessionaire agrees that the Punctuality for arrival at the respective destination shall be measured on a monthly basis in terms of the percentage of trips with on-time arrival at destination to the total number of trips operated on a daily basis (“Arrival Punctuality”).

(iii) The Parties agree that the Concessionaire may exercise a relaxation equivalent to [5 (five)] minutes, for start of the schedule of the collection vehicles, and [10% (ten percent)] of the subsequent scheduled trip time (subject to a maximum of [15 (fifteen) minutes]) for start of subsequent schedules and arrival of trips.

(iv) Subject to the provisions of Article 18.1.2(f)(i), the Concessionaire agrees that the Start Punctuality determined in accordance with Article 18.1.2(f)(i) shall be

---

22 Waste Collection Information System shall mean and include (but not limited to) the timings of collection of waste from different localities for purpose of information of Users/households.
equal to or more than [90% (ninety percent)] and the Arrival Punctuality shall be equal to or more than [80% (eighty percent)] respectively.

(f) Frequency of collection vehicles

(i) The frequency of operation of collection vehicles shall be measured on a monthly basis in terms of percentage of the cumulative trips travelled by all collection vehicles to the aggregate number of scheduled trips ("Trip Frequency") and a percentage of the cumulative kilometres of collection vehicles operated to the aggregate scheduled kilometres of collection vehicles ("Collection Vehicles Kms Frequency"), respectively.

(ii) The Concessionaire agrees that the Trip Frequency and the Collection Vehicles Kms Frequency, as the case may be, determined in accordance with Article 18.1.2(g) shall be equal to or more than [94% (ninety four percent)].

(iii) The collection vehicles shall be operated continuously such that the first collection vehicle in each direction shall depart no later than [0800 hours] and the last collection vehicle shall reach the secondary waste site or processing facility not later than [1300 hours] at the frequency specified in the Deployment Plan of collection vehicles and this Agreement; provided that on [Sunday/ any one day of the week] the collection services may not operate.

(iv) The collection vehicles in each direction shall be operated such that the [each household] of the Project Area is covered once a day for [6 (six)] days of the week within the time range allotted to each household as per the Waste collection information system of the Project Area;

(v) The average duration of stops at the designated points as per the Deployment Plan shall not be more than [15 (fifteen)] minutes each, save and except Breakdown of the vehicle or event of Force Majeure.

(g) Safety of Operations

(i) The Parties agree that the Safety of collection vehicles shall be measured in terms of inverse of number of accidents per [1,000 Kms (One Thousand kilometres)] (the “General Safety”) and the number of fatalities per [10,000 Kms (Ten Thousand kilometres)] (the “Severe Safety”), respectively. The General Safety and Severe Safety shall be calculated in terms of cumulative Collection Vehicles Kms operated divided by number of accidents multiplied by [1,000 (One Thousand)] and cumulative Collection Vehicles Kms operated divided by number of fatalities multiplied by [10,000 (Ten Thousand)], respectively.

(ii) The Concessionaire agrees that the General Safety and the Severe Safety, as the case may be, determined in accordance with Article 18.1.2(h) shall be equal to or more than [1 (one)].
18.1.3. Facilities at Project Facilities (SLF Site and decentralized units)

(a) Availability

The Concessionaire shall ensure that the Availability of the Project Facilities at the SLF Site and decentralized units on every day during the Post-COD period shall be [100% (one hundred per cent)] (the “Guaranteed Availability”).

(b) Operation

(i) The Concessionaire shall at all times procure that, save and except any determined damage caused by theft, arson or vandalism:

(A) there are adequate arrangements of Project Facilities as per Specifications and Standards;

(B) all machinery, equipment and facilities are operational, function efficiently, and their availability is no less than [98% (ninety eight per cent)] in a month;

(C) the Project Facilities are maintained in accordance with Maintenance Requirements;

(c) Punctuality and duration of work

(i) The Concessionaire agrees that the Punctuality as to the duration of work of the Project Facilities shall be measured on a monthly basis in terms of the percentage of days with minimum [8 (eight)] hours of operation to the total number of working days (“Duration Punctuality”).

(ii) The Parties agree that the Concessionaire may exercise a relaxation equivalent to [2 (two)] hours, for start of the schedule of the Bio-Remediation work, for reasons attributable to rains, Force Majeure, [or any special circumstance].

(iii) The Concessionaire agrees that the Duration Punctuality shall be equal to or more than [80% (eighty percent)] respectively.

(d) Safety of Operations

(i) The Parties agree that the Safety of operation of the Project Facilities shall be measured in terms of inverse of number of accidents per [1,00,000 MT (One Lakh Metric Tonnes)] (the “General Safety”) and the number of fatalities per [10,00,000 MT (Ten Lakh Metric Tonnes)] (the “Severe Safety”), respectively. The General Safety and Severe Safety shall be calculated in terms of total quantum of Legacy Waste cleared divided by number of accidents multiplied by [1,00,000 (One Lakh)] and total quantum of Legacy Waste cleared divided by number of fatalities multiplied by [10,00,000 (Ten Lakh)], respectively.

(ii) The Concessionaire agrees that the General Safety and the Severe Safety, as the case may be, determined in accordance with Article 18.1.1(d)(i) shall be equal to or more than [1 (one)].
18.1.4. Miscellaneous

(a) **Extent of recovery of waste collected**

The quantum of waste collected, which is either recycled or processed shall be expressed in terms of percentage of waste collected (the “**Extent of Recovery**”). The Extent of Recovery shall be annually increased by the Concessionaire up to [95% (ninety five per cent)] or above, with the minimum recovery not being less than [70% (seventy per cent)] during any year of operation. All rights and interest in the [residual inert waste, recyclables, fertilizers etc.]. shall vest with the Concessionaire at all times during the O&M Period, unless transferred by the Concessionaire to a third party buyer/off-taker in accordance with this Agreement.

(b) **Efficiency in redressal of customer complaint**

The total number of Project related complaints redressed within 24 (twenty four) hours of the receipt of complaint, as a percentage of the total number of Project related complaints received in the given time period (the “**Efficiency in Redressal of Customer Complaint**”) shall be increased by the Concessionaire annually up to 100% (one hundred per cent), with the efficiency not being less than 50% (fifty per cent) during any year of operation.

(c) **Quantum of inert/residual waste undisposed**

The Concessionaire shall make reasonable endeavours to ensure sale of most of the recovered waste products, materials, etc., so as to limit the quantum of waste which remains undisposed to maximum of [30% (seven per cent)] in a [year]. The quantum of undisposed waste shall be calculated as the difference of total quantum of waste collected and the waste recycled/processed and/or the recycled/processed waste which could not sell.

By way of illustration, assuming that the total quantum of waste collected by the Concessionaire in a year is 1000 (one thousand) tons, the Concessionaire, in compliance of Article 8.1.4 (a), would have recycle/process at least 700 (seven hundred) tons. The remaining 300 (three hundred) tons would constitute of the undisposed waste. If 100 (one hundred) tons out of the 700 (seven hundred) tons of processed waste are not sold by the Concessionaire, the 100 (one hundred) tons would also constitute of undisposed waste. Hence, the total quantum of undisposed waste for the year would be equal to 400 (four hundred) tons which exceeds the limit of 30% (thirty per cent) on disposed waste. Hence, the Concessionaire may be liable to pay Performance Liquidated Damages.

(d) **Certification**

(i) The Concessionaire shall, prior to 1st (first) Anniversary of the COD, achieve and thereafter maintain throughout the Concession Period, [ISO standards] certification or a substitute thereof for the Project Facilities including Collection vehicles and Transportation vehicles, and shall provide certified copies thereof to the Authority, with a copy to the State Government, forthwith.
(ii) In the event of default in obtaining the certification specified in Article 18.1.4(c), the Concessionaire shall, within [15 (fifteen)] days thereof, submit to the Authority, with a copy to the State Government, an action plan that sets out the actions proposed to be taken by the Concessionaire for rectifying its deficiencies and obtaining such certification for the Project Facilities.

(iii) If the period of default in obtaining the ISO certification under this Article shall exceed a continuous period of [15 (fifteen)] months, the Concessionaire shall pay Damages to the Authority in an amount equal to [5% (five per cent)] of the Performance Security.

(e) Monthly Report

The Concessionaire shall, no later than [7 (seven)] days after the end of each month, furnish to the Authority, with a copy to the State Government, a report stating the KPI achievement of the Project Facility as measured on a daily basis. The Concessionaire shall promptly give such other relevant information as may be required by the Authority/State Government.

18.2. Availability of Project Facilities

18.2.1. The 'Availability' of each Project Facilities will be determined as a ratio of the number of hours in a day during which such Project Facility was available to carry out operations up to its design capacity, to the total number of hours in a day, and the term 'Available' shall be construed accordingly.

18.2.2. In computing the Availability of each Project Facilities, the Concessionaire agrees that the Project Facilities will be deemed to be Available at all times, other than during the period of:

(a) an Unscheduled Outage affecting such Project Facility;
(b) a Power Outage affecting such Project Facility;
(c) suspension of the O&M services for such Project Facility, for reasons attributable to the Concessionaire;
(d) an Emergency affecting such Project Facility, attributable to the Concessionaire, during which the Project Facility will be deemed to be not Available.

18.2.3. Notwithstanding anything to the contrary contained in this Agreement, during the period of a Forced Unavailability or a Force Majeure, the Project Facility affected by such Forced Unavailability or a Force Majeure will be deemed to be Available.

18.2.4. If the Availability for a Project Facility on any given day is less than the Guaranteed Availability, the Authority shall issue a notice to the Concessionaire requiring the Concessionaire to cure the default causing the reduction in Availability in [3 (three)] days. Any failure to cure the default and achieve the Guaranteed Availability within [3 (three)] days of receipt of the notice from the Authority shall constitute a Concessionaire Event of Default. The Authority may claim Availability Liquidated Damages would be available till
the default is cured or the Agreement is terminated.

18.3. Damages for failure to achieve Key Performance Indicators

18.3.1. Availability Liquidated Damages

(a) If the Availability on any given day in a [month/quarter] is less than the Guaranteed Availability then the Concessionaire shall pay the liquidated damages (the “Availability Liquidated Damages”) equal to [0.1\% (zero point one per cent)] of the O&M Security or Performance Security (in case of Availability Liquidity Damages for Bio-Remediation of Legacy Waste) for each such day.

(b) The aggregate Availability Liquidated Damages payable by the Concessionaire in any [month/quarter] of the O&M Period will be deducted from the O&M Payments due to the Concessionaire for such [month/quarter]. If the Availability Liquidated Damages for a [month/quarter] exceed the O&M Payments for such [month/quarter], then the excess amounts shall, at the discretion of the Authority or the State Government, either be adjusted against the O&M Payments for the subsequent [month/quarter] or recovered from the O&M Securities.

18.3.2. Performance Liquidated Damages

(a) If the compliance of KPIs (other than Availability of Project Facilities) on any given day(s) in a [month/quarter] is less than the benchmarks then the Concessionaire shall pay the liquidated damages (the “Performance Liquidated Damages”) equal to [0.1\% (zero point one per cent)] of the O&M Security for each such day.

(i) Based on the KPI Adherence Report, if the Project Facility(ies) does not comply with the KPIs, then the process set out below shall follow:

(A) In the first instance of non-compliance (the “First Breach”), the Authority shall issue a notice to the Concessionaire on the first day of such non-compliance (the “First Breach Notice”) requiring the Concessionaire to cure the First Breach within [20 (twenty)] days from the date of the First Breach Notice. If the First Breach is cured within [2 (two)] days of the First Breach Notice, then the Concessionaire shall not be liable to pay any Performance Liquidated Damages. If, however, the First Breach continues beyond [2 (two)] days of the First Breach Notice, then, the Concessionaire shall be liable to pay the Performance Liquidated Damages as pre-decided by the Parties, from the [3rd (third)] day of the First Breach.

(B) If: (I) the First Breach continues for [20 (twenty)] days from the date of the First Breach Notice; or (II) another instance of non-compliance occurs within [6 (six)] months of the First Breach, then such breach shall constitute the Second Breach. Upon occurrence of the Second Breach, the Authority shall issue a notice to the Concessionaire on the first day of the Second Breach (the “Second Breach Notice”) requiring the
Concessionaire to cure the Second Breach within [20 (twenty)] days from the date of the Second Breach Notice. If the Second Breach continues beyond [2 (two)] days of the Second Breach Notice, then, the Concessionaire shall be liable to pay twice the amount of the Performance Liquidated Damages, as pre-decided by the Parties, from the [1st(first)] day of the Second Breach. In case of (I) above, it is clarified that the Concessionaire will be liable to pay Performance Liquidated Damages at the rate specified for the First Breach, for the first [2 (two)] days of a continuing breach from the date of the Second Breach Notice and twice the specified Performance Liquidated Damages from the [3rd(third)] day of a continuing Second Breach.

(C) If: (I) the Second Breach continues for [20 (twenty)] days from the date of the Second Breach Notice; or (II) another instance of non-compliance occurs within [6 (six)] months of the Second Breach, then such breach shall constitute the Third Breach. Upon occurrence of the Third Breach, the Authority shall issue a notice to the Concessionaire on the first day of the Third Breach (the “Third Breach Notice”) requiring the Concessionaire to cure the Third Breach within [20 (twenty)] days from the date of the Third Breach Notice. If the Third Breach continues beyond [2 (two)] days of the Third Breach Notice, then: (X) the Concessionaire shall be liable to pay thrice the amount of the Performance Liquidated Damages applicable to the First Breach, from the [1st(first)] day of the Third Breach; and (Y) the Capex Annuity for the relevant [month(s)/quarter(s)] will be reduced by an amount equal to the Capex Annuity for the relevant [quarter/90 (ninety)] days for each day that the Third Breach continues beyond the [1st(first)] day of the Third Breach. In case of (I) above, it is clarified that the Concessionaire will be liable to pay twice the Performance Liquidated Damages specified applicable to the First Breach, for the first [2 (two)] days of a continuing breach from the date of the Third Breach Notice and thrice the specified Performance Liquidated Damages from the [3rd(third)] day of the Third Breach, in addition to the reduction in the Capex Annuity.

(D) If: (I) the Third Breach is not cured within [20 (twenty)] days from the Third Breach Notice; or (II) a failure to comply with the KPIs results in occurrence of a Third Breach more than 3 (three) times in a continuous [12 (twelve)] month period, it will be treated as a Concessionaire Event of Default and the consequences set out at Article 23 shall apply.

(E) The Parties acknowledge that the Performance Liquidated Damages (including any escalation contemplated in this Article 18.3.2) are a genuine pre-estimation of and reasonable compensation for the environmental damage that may be caused by the Concessionaire's continuing failure to comply with the KPIs, and not as penalty. The payment of Performance Liquidated Damages will not absolve the Concessionaire from any other liability under Applicable Law, for causing any environmental pollution or health hazard due to its failure to
comply with the Discharge Standards and/or Applicable Law.23

(b) The Performance Liquidated Damages payable by the Concessionaire in any [month/quarter] of the O&M Period will be deducted from the O&M Payments due to the Concessionaire for such [month/quarter]. If the Performance Liquidated Damages for a [month/quarter] exceed the O&M Payments for such [month/quarter], then the excess amounts shall, at the discretion of the Authority or the State Government, either be adjusted against the O&M Payments for the subsequent [month/quarter] or recovered from the O&M Security.

(c) Within [7 (seven)] days from the end of each month, the Concessionaire shall be required to provide the monthly progress report for each of the Project Facilities (prepared in accordance with Article 15.7.2(c)(v)) on compliance of such Project Facilities with the KPIs and the reasons for such failure, if any. The Project Engineer shall be required to certify each such monthly report before it is provided to the Authority and the State Government. Such certified report on compliance with KPIs shall be referred to as the KPI Adherence Report and shall form the basis for O&M Payments being made to the Concessionaire during the O&M Period.

18.3.3. Notwithstanding anything to the contrary contained herein, in the event in any [month/quarter] the aggregate of Availability Liquidated Damages and Performance Liquidated Damages levied by the Authority on account of non-performance exceeds Rs.[•] (Rupees [•]), then the same shall be construed as Concessionaire Event of Default, which shall make this Agreement liable for termination.

18.4. Incentive for exceeding to achieve Key Performance Indicators

The Concessionaire shall ensure and procure compliance of each of the Key Performance Indicators specified in this Article and for repeated increase in performance during a [month/quarter], as may be determined by the Authority for reasons to be recorded in writing based on report of the Project Engineer [and inspections by the Authority], it shall pay incentive equal to [0.05% (zero point zero five per cent)] of the O&M Security for achievement in any such KPI.

23The Parties may also mutually decide penalty for individual instances of non-compliance. An indicative list of penalties has been provided in Article 18.3.3 as an option.
ARTICLE 19
ESCROW ACCOUNT

19.1 Escrow Account

19.1.1 The State Government shall, prior to the Compliance Date, open and establish an Escrow Account with a Bank (the “Escrow Bank”) in accordance with the terms and conditions of this Agreement and the Escrow Agreement;

19.1.2 The nature and scope of the Escrow Account as fully described in the Agreement to be entered into amongst the Concessionaire, the Authority, the State Government, the Escrow Bank and the Senior Lenders (if any) through the Lenders’ Representative, shall be substantially in the form set forth in Schedule 17 (the “Escrow Agreement”)

19.2 Deposits into Escrow Account

The Concessionaire shall deposit or cause to be deposited the following inflows and receipts into the Escrow Account:

(a) all funds constituting the financial package disbursed by Lenders in terms of the Financing Agreements;

(b) proceeds of any rentals, deposits, capital receipts or insurance claims; and;

(c) All payments by the Authority and the State Government, after deduction of any outstanding payments.

The Authority and the State Government shall at all times and in any month of the Concession Period, ensure that in the Reserve Sub-Account (“Reserve Fund”) under the Escrow Account, an amount equivalent to next [90 (ninety) days payable to Concessionaire, in accordance with terms hereof, is deposited and maintained. The Parties agree that so long as the Concessionaire performs its obligations hereunder and the Authority does not notify the Escrow Bank in respect of any non-performance or breach of obligation by Concessionaire directing Escrow Bank to stop any appropriation from Reserve Fund; in case of any delay by the Authority/State Government in payment of due and undisputed amount to Concessionaire subject to and in accordance with terms hereof; the Concessionaire shall be entitled to tap the Reserve Fund to withdraw the amount due, which would be deposited and applied as per the application order agreed herein. In case of such tapping, the Authority and the State Government shall forthwith top up and maintain the required reserve in the Reserve Fund.

19.3 Withdrawals during Concession Period

19.3.1 The Concessionaire shall, at the time of opening the Escrow Account, give irrevocable instructions by way of an Escrow Agreement, to the Escrow Bank instructing, inter-alia, that deposits in the Escrow Account shall be appropriated in the following order every month, or at shorter intervals as necessary, and if not due in a month then appropriated
proportionately in such month and retained in the Escrow Account and paid out there from in the month when due:
(a) All taxes due and payable by the Concessionaire for and in respect of the Project;
(b) All payments relating to construction of the Project, subject to and in accordance with the conditions, if any, set forth in the Financing Agreements;
(c) O&M Expenses, subject to the ceiling, if any, set forth in the Financing Agreements;
(d) O&M Expenses and other costs and expenses incurred by the Authority/State Government in accordance with the provisions of this Agreement, and certified by the Authority as due and payable to it;
(e) Any amounts due and payable to the Authority/State Government;
(f) Monthly proportionate provision of Debt Service due in a Financial Year;
(g) All payments and Damages certified by the Authority/State Government as due and payable to it by the Concessionaire;
(h) Monthly proportionate provision of Debt Service payments due in a Financial Year in respect of Subordinated Debt;
(i) Any reserve requirements set forth in the Financing Agreements; and
(j) Balance, if any, in accordance with the instructions of the Concessionaire.

19.3.2 The Concessionaire shall not in any manner modify the order of payment specified in Article 19.3.1 above, except with the prior written approval of the Authority/State Government.

19.3.3 The Authority/State Government shall have the right, and the Concessionaire hereby expressly grants to the Authority/State Government the right, to recover the costs and Damages directly from the Escrow Account, and for that purpose, the Concessionaire hereby agrees to give irrevocable instructions to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the Authority/State Government. Any demand from the Authority/State Government stating that a specified amount is payable shall be final, binding and conclusive on the Concessionaire and Escrow Bank and Escrow Bank shall pay and Concessionaire shall cause the Escrow Bank to pay such amount without any demur, delay, cavil or protest on receiving a demand for such costs and Damages.

19.4 Withdrawals upon Termination

19.4.1 Notwithstanding anything to the contrary contained in this Agreement, all amounts standing to the credit of the Escrow Account shall, upon Termination, be appropriated in the following order:
(a) All taxes due and payable by the Concessionaire for and in respect of the Project;
(b) Percentage of Debt Due excluding Subordinated Debt if required to be as per the terms of this Agreement;
(c) Outstanding payments due to the Authority/State Government;
(d) All payments and Damages certified by the Authority State Government as due and payable to it by the Concessionaire;
(e) Retention and payments relating to the liability for defects and deficiencies
(f) Outstanding Debt Service including the balance of Debt Due;
(g) Outstanding Subordinated Debt;
(h) Incurred or accrued O&M Expenses;
(i) Any other payments required to be made under this Agreement; and
(j) Balance, if any, in accordance with the instructions of the Concessionaire.
Provided that no appropriations shall be made under Sub-Article (j) of this Article 19.4.1 until a vesting certificate has been issued by the Authority/State Government.

19.4.2 The provisions of this Article 19 and the instructions contained in the Escrow Agreement shall remain in full force and effect until the obligations set forth in Article 19.4.1 have been fully discharged.
ARTICLE 20
FORCE MAJEURE

20.1 Force Majeure Events

20.1.1. A Force Majeure Event means any act, event or circumstance or a combination of acts, events or circumstances or the consequence(s) thereof occurring after the date of this Agreement, which is/are:

(a) beyond the reasonable control of the Affected Party;
(b) such that the Affected Party is unable to overcome or prevent despite exercise of due care and diligence;
(c) which does/do not result from the negligence of such Affected Party or the failure of such Affected Party to perform its obligations hereunder; and
(d) such that it/they has/have a Material Adverse Effect.

20.1.2. A Force Majeure Event means the following events and circumstances to the extent that they satisfy the conditions set out in Article 20.1.1:

(a) Non-Political Force Majeure Events

   (i) acts of God including storm, tempest, cyclone, hurricane, tsunami, flood, whirlwind, lightning, earthquake, washout, landslide, soil erosion, volcanic eruption, or extreme adverse weather or environmental conditions or actions of the elements;

   (ii) fire or explosion caused by reasons not attributable to the Concessionaire or any Concessionaire Related Parties;

   (iii) chemical or radioactive contamination or ionising radiation;

   (iv) epidemic, plague or quarantine;

   (v) the discovery of geological conditions, toxic contamination or archaeological remains on the Site that could not reasonably have been expected to be discovered through a site inspection; and

   (vi) accidents of navigation, air crash, shipwreck, train wreck or other similar failures of transportation of equipment and/or material necessary for construction or O&M of the Facilities.

Non-Political Force Majeure Event shall not include the following conditions, except to the extent resulting from a Non-Political Force Majeure Event:

(A) heavy rainfall;

(B) unavailability, late delivery or changes in cost of plant, machinery,
equipment, materials or spare parts required for undertaking the Project;

(C) a delay in the performance of any Subcontractor;

(D) non-performance resulting from normal wear and tear; or

(E) non-performance caused by the non-performing Party's (I) negligent or intentional acts, errors or omissions, (II) failure to comply with the Applicable Laws or Applicable Permits, or (III) breach of, or default under, this Agreement, as the case may be.

(b) Indirect Political Force Majeure Events

(A) hostilities (whether declared as war or not), riot, civil disturbance, revolution, rebellion, insurrection, act of terrorism, in each case involving the GoI or the Government of [Name of the State]24 or occurring in [State of Location];

(B) invasion, armed conflict, coup d'etat, act of foreign enemy, blockade, embargo, revolution, insurgency, nuclear blast/explosion, politically motivated sabotage, religious strife or civil commotion, in each case involving the GoI or the Government of [Name of the State] or occurring in [State of Location];

(C) strikes or boycotts (including non-political strikes other than those involving the Concessionaire, Sub-Contractors or their respective employees/representatives, or attributable to any act or omission of any of them and the indirect political strikes such as industry-wide or state-wide strikes), lockout, or other industrial disputes which are not directly attributable to the actions of the Affected Party;

(D) any orders issued by the relevant Government Authority, which require the Concessionaire to suspend the construction or O&M of the Facilities provided that, such orders are not attributable to the Concessionaire's breach or violation of any Applicable Laws or Applicable Permits; and

(E) delay or failure by relevant Government Authorities in renewing or granting any Applicable Permit, despite the Concessionaire having applied for such Applicable Permit expeditiously and complied with the requirements of Applicable Laws in making such application or the unlawful revocation of any Applicable Permit.

(c) Direct Political Force Majeure Events

(A) occurrence of a Fundamental Change in Law in accordance with Article 22;

24Name of the State Government.
(B) compulsory acquisition in national interest or expropriation of the Site; and

(C) any order, notification or judgment issued or passed by any Government Authority/ Court of Law/ Tribunal which restricts the Concessionaire from constructing or operating the Facilities as contemplated in this Agreement on the Site, unless such restriction is, in any manner, attributable to the Concessionaire.

(d) Without prejudice to the provisions above,

(i) any act, event or circumstance which primarily affects any of the Concessionaire Related Parties associated with the Project shall constitute a Force Majeure Event if and to the extent that it is of a kind or character that, if it had directly affected the Concessionaire, it would have come within the definition of Force Majeure Event under this Article 20.1; and

(ii) any act, event or circumstance which primarily affects any of the State Government Related Parties or the Authority Related Parties shall constitute a Force Majeure Event if and to the extent that it is of a kind or character that, if it had directly affected the State Government or the Authority, it would have come within the definition of Force Majeure Event under this Article 20.1.

(e) If the Parties are unable to agree in good faith on the occurrence or existence of a Force Majeure Event, such dispute shall be finally settled in accordance with the dispute resolution procedure set out in Article 26, provided however that the burden of proof as to the occurrence or existence of such Force Majeure Event shall be upon the Affected Party.

20.2 Notice of Force Majeure Events

20.2.1. The Affected Party shall give notice to the other Party in writing of the occurrence of any Force Majeure Event (the “FM Notice”), as soon as the same arises or as soon as reasonably practicable and in any event within 3 (three) days after the Affected Party knew of its occurrence, the adverse effect it has or is likely to have on the performance of its obligations under this Agreement, the actions being taken and an estimate of the time period required to overcome the Force Majeure Event and/or its nature and effects (if it is possible to estimate the same).

20.2.2. If, following the issue of the FM Notice, the Affected Party receives or becomes aware of any further information relating to the Force Majeure Event, it shall submit such further information to the other Party as soon as reasonably practicable.

20.2.3. Any party claiming to have been affected by a Force Majeure Event shall not be entitled to any relief unless it has complied with all the provisions of this Article 20.2.
20.3 **Excuse of Performance**

20.3.1. If the Affected Party is rendered wholly or partially unable to perform its obligations under this Agreement because of a Force Majeure Event, it shall be excused from performance of such of its obligations to the extent it is unable to perform on account of such Force Majeure Event; provided that:

(a) the suspension of performance shall be of no greater scope and of no longer duration than is reasonably required by the Force Majeure Event;

(b) the Affected Party shall make all reasonable efforts to mitigate or limit damage to the other Party arising out of or as a result of the existence or occurrence of such Force Majeure Event and to cure the same with due diligence; and

(c) when the Affected Party is able to resume performance of its obligations under this Agreement, it shall give to the other Party notice to that effect and shall promptly resume performance of its obligations hereunder.

If a Force Majeure Event affects only one Project Facility, and not the other Project Facilities, then the Affected Party shall only be excused from the performance of its obligations in relation to the affected Project Facilities.

20.4 **No Liability for Other Losses**

Save and except as expressly provided in this Agreement, no Party shall be liable in any manner whatsoever to the other Parties in respect of any loss relating to or arising out of the occurrence or existence of any Force Majeure Event or the exercise by it of any right pursuant to this Article 20.

20.5 **Resumption of Performance**

The Affected Party shall in consultation with the other Parties, make all reasonable efforts to limit or mitigate the effects of a Force Majeure Event on the performance of its obligations under this Agreement. The Affected Party shall also make efforts to resume performance of its obligations under this Agreement as soon as possible and upon resumption, shall notify the other Parties of the same in writing. The other Parties shall afford all reasonable assistance to the Affected Party in this regard.

20.6 **Allocation of costs during a Force Majeure Event**

20.6.1. Upon occurrence of a Force Majeure Event prior to the COD, the Parties shall bear their respective Costs and no Party shall be required to pay any Costs to the other Parties.

---

25 The Parties may mutually agree to engage an independent expert to evaluate the occurrence and effect, etc., of the Force Majeure Event.
20.6.2. Upon occurrence of a Force Majeure Event after the COD, the costs incurred and attributable to such event and directly relating to the Project Facilities (the “Force Majeure Costs”) shall be allocated and paid as follows:

(a) upon occurrence of a Non-Political Event, the Parties shall bear their respective Force Majeure Costs and neither Party shall be required to pay to the other Party any costs thereof;
(b) upon occurrence of an Indirect Political Event, all Force Majeure Costs attributable to such Indirect Political Event, and not exceeding the Insurance Cover for such Indirect Political Event, shall be borne by the Concessionaire, and to the extent Force Majeure Costs exceed such Insurance Cover, one half of such excess amount shall be reimbursed by the Authority to the Concessionaire; and
(c) upon occurrence of a Political Event, all Force Majeure Costs attributable to such Political Event shall be reimbursed by the Authority to the Concessionaire.

Provided that upon occurrence of a Force Majeure Event post the COD, the Concessionaire shall be entitled to continue receiving the Capex Annuity (along with interest) and the O&M Charges during the subsistence of the Force Majeure Event.

(a) For avoidance of doubt, Force Majeure Costs may include interest payments on debt, O&M Charges, any increase in the cost of development, construction and operation and maintenance of the Project Facilities on account of inflation and all other costs directly attributable to the Force Majeure Event, but shall not include loss of Revenue, or debt repayment obligations, and for determining such costs, information contained in the Financial Package may be relied upon to the extent that such information is relevant.

(b) Save and except as expressly provided in this Article 20, neither Party shall be liable in any manner whatsoever to the other Party in respect of any loss, damage, cost, expense, claims, demands and proceedings relating to or arising out of occurrence or existence of any Force Majeure Event or exercise of any right pursuant hereto.

20.7 Termination due to Force Majeure Event

20.7.1. Termination due to a Non-Political Force Majeure Event

If within a continuous period of [365 (three hundred and sixty five)] days, a Non-Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of a Non-Political Force Majeure Event or any extended period agreed in pursuance of Article 20.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

Notwithstanding anything contained in this Article 20.7:

(a) if the Project Facilities are affected by a Total Casualty, then the Concessionaire may terminate this Agreement without having to wait for the expiry of the period of [180 (one hundred and eighty)] days stipulated for a Non-Political Force Majeure Event;
(b) if the Project Facilities are affected by a Minor Casualty, then the Concessionaire shall
be required to repair and restore the Project Facilities to the same condition as previously existed and the Concessionaire shall not be entitled to terminate this Agreement on the grounds of a continuing Non-Political Force Majeure Event.

20.7.2. **Termination due to an Indirect Political Force Majeure Event**

If within a continuous period of [365 (three hundred and sixty five)] days, an Indirect Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of an Indirect Political Force Majeure Event or any extended period agreed in pursuance of Article 20.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

20.7.3. **Termination due to a Direct Political Force Majeure Event**

(a) If within a continuous period of [365 (three hundred and sixty five)] days, an Direct Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of a Direct Political Force Majeure Event or any extended period agreed in pursuance of Article 20.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

(b) All the other consequences of termination that are set out at Article 23 shall apply in case of termination of this Agreement due to a Force Majeure Event.
ARTICLE 21
SUSPENSION OF CONCESSIONAIRE’S RIGHTS

21.1 Suspension upon Concessionaire Default

Upon occurrence of a Concessionaire Event of Default, the Authority/State Government shall be entitled, without prejudice to its other rights and remedies under this Agreement including its rights of Termination hereunder, to (i) suspend all rights of the Concessionaire under this Agreement including the Concessionaire's right to receive Payments under Article 19, and other revenues pursuant hereto, and (ii) exercise such rights itself and perform the obligations hereunder or authorize any other person to exercise or perform the same on its behalf during such suspension (the “Suspension”). Suspension hereunder shall be effective forthwith upon issue of notice by the Authority/State Government to the Concessionaire and may extend up to a period not exceeding 180 (one hundred and eighty) days from the date of issue of such notice; provided that upon written request from the Concessionaire and the Lender’s Representative, the Authority/State Government shall extend the aforesaid period of 180 (one hundred and eighty) days by a further period not exceeding [90 (ninety)] days.

21.2 Suspension by the Concessionaire

21.2.1. Suspension of construction or O&M of the Project Facilities

(a) At any time during the Concession Period, the Concessionaire may suspend, whether partially or wholly, the construction or O&M of any Project Facility, in case of an Emergency.

(b) The Concessionaire acknowledges that suspension of the construction of any Project Facility during the Construction Period pursuant to Article 21.2.1(a) shall not entitle the Concessionaire to an extension of time, if such event is attributable to the Concessionaire.

(c) In case of suspension of the performance of the O&M services of any Project Facility pursuant to Article 21.2.1(a) for reasons attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, but not the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Article 21.2.1(a).

(d) In case of suspension of the performance of the O&M services pursuant to Article 21.2.1(a) for reasons not attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, and the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Clause Article 21.2.1(a).

(e) Upon the occurrence of an Emergency, the Concessionaire shall as soon as reasonably possible, and in no event later than [3 (three)] days after such occurrence, notify the Authority, with a copy to the State Government, of such occurrence.

(f) If, upon notification, the Authority/State Government does not concur with the
Concessionaire on the nature of such occurrence, then the Concessionaire shall be required to immediately re-commence the construction or O&M of the Project Facility, as the case may be. Upon re-commencement of the construction or O&M services, the Concessionaire may initiate a Dispute regarding its claim for the occurrence of such an event or circumstance, and such Dispute shall be finally settled in accordance with the dispute resolution procedure set out in Article 26, provided however that the burden of proof as to the occurrence or existence of such an event shall be upon the Concessionaire.

21.2.2. Mitigation, Resumption and Termination

(a) The Concessionaire shall make best endeavors to:

(i) mitigate the effects (including incremental costs and delays) of the events or circumstances resulting in suspension pursuant to Article 21.2.1(a) above. Notwithstanding anything to the contrary contained in this Agreement, if the Authority/State Government, in its sole assessment, is not satisfied with the steps being taken by the Concessionaire to mitigate the effects of the Emergency, the Authority/State Government shall have the right to step-in to this Agreement and undertake necessary measures to mitigate the effect of the Emergency at the cost and risk of the Concessionaire; and

(ii) resume the construction or O&M services of the Project Facility within 24 (twenty four) hours of the ceasing of any of the events or circumstances resulting in suspension pursuant to Article 21.2.1(a) or such longer period as may be approved by the Authority/State Government and notify the Authority/State Government of the resumption of the works or services.

(b) During the period of Suspension, the Authority shall, on behalf of the Concessionaire, collect all fee and revenues under and in accordance with this Agreement and deposit the same in the Escrow Account. The Authority/State Government shall be entitled to make withdrawals from the Escrow Account for meeting the costs incurred by it for discharging the Concessionaire’s obligations;

(c) During the period of Suspension hereunder, all rights and liabilities vested in the Concessionaire in accordance with the provisions of this Agreement shall continue to vest therein and all things done or actions taken, including expenditure incurred by the Authority/State Government for discharging the obligations of the Concessionaire under and in accordance with this Agreement and the Project Agreement, shall be deemed to have been done or taken for and on behalf of the Concessionaire and the Concessionaire undertakes to indemnify the Authority for all costs incurred during such period.

(d) Without prejudice to Clause 21.2.2(a):

(i) if suspension of the construction or O&M of a Project Facility pursuant to Article 21.2.1(a) continues for a period of [60 (sixty)] days, and such event is attributable to the Concessionaire, then such suspension shall amount to a Concessionaire
Event of Default in accordance with Article 23; and

(ii) if suspension of the construction or O&M of a Project Facility pursuant to Article 21.2.1(a) continues for a period of [60 (sixty)] days, and such event is not attributable to the Concessionaire, then such event will be treated as a Force Majeure Event and the consequences set out in Article 20 shall apply.

21.3 Suspension by the Authority or the State Government

21.3.1 Suspension of construction and/or O&M of the Facilities

(a) At any time during the Concession Period, the Authority/State Government may suspend, whether partially or wholly, the construction or O&M of a Project Facility, in any of the following events or circumstances:

(i) upon the occurrence of an Emergency; or

(ii) if the Concessionaire fails to comply with Applicable Laws, Applicable Permits, the ESHS Documents, the O&M Manual or otherwise fails to perform its obligations in accordance with this Agreement (including the Technical Specifications).

(b) The Concessionaire acknowledges that suspension of the construction of the Project Facilities during the Construction Period pursuant to Article 21.3.1(a) shall not entitle the Concessionaire to an extension of time if such event is attributable to the Concessionaire.

(c) In case of suspension of the performance of the O&M services pursuant to Article 21.3.1(a) for reasons attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, less the Liquidated Damages payable by the Concessionaire for failure to operate the Project Facilities pursuant to Article 21.3.1(a). The Concessionaire shall not be entitled to the O&M Charges for the period during which it suspends the performance of the O&M services pursuant to Article 21.3.1(a).

(d) In case of suspension of the performance of the O&M services pursuant to Article 21.3.1(a) for reasons not attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, and the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Article 21.3.1(a).

21.3.2 Mitigation, Resumption and Termination

(a) The Concessionaire shall make best endeavors to:

(i) mitigate the effects (including incremental costs and delays) of the events or circumstances resulting in suspension pursuant to Article 21.3.1 above. Notwithstanding anything to the contrary contained in this Agreement, if the
Authority/State Government, in its sole assessment, is not satisfied with the steps being taken by the Concessionaire to mitigate the effects of the Emergency, the Authority/State Government shall have the right to step-in to this Agreement and undertake necessary measures to mitigate the effect of the Emergency at the cost (as determined by the Project Engineer) and risk of the Concessionaire; and

(ii) resume the construction or O&M services of the relevant Project Facility within 24 (twenty four) hours of the ceasing of any of the events or circumstances resulting in suspension pursuant to Article 21.3.1 or such longer period as may be agreed between the Parties, and notify the Authority/State Government of the resumption of the works or services.

(b) Without prejudice to Article 21.3.2(a):

(i) if suspension of the construction or O&M of the relevant Project Facility pursuant to Article 21.3.2(a)(i) and the Emergency is attributable to the Concessionaire, or a such suspension continues for a period of 60 (sixty) days, and such suspension is attributable to the Concessionaire then such suspension shall amount to a Concessionaire Event of Default in accordance with Article 23; and

(ii) if suspension of the construction or O&M of the relevant Facility pursuant to Article 21.3.2(a) continues for a period of 60 (sixty) days, and such suspension is not attributable to the Concessionaire, then such suspension will be treated as a Force Majeure Event and the consequences set out in Article 20 shall apply.

21.4 Revocation of Suspension

21.4.1 In the event that the Authority/State Government shall have rectified or removed the cause of Suspension within a period not exceeding 90 (ninety) days from the date of Suspension, it shall have the option to revoke the Suspension and restore the rights of the Concessionaire under this Agreement. For the avoidance of doubt, the Parties expressly agree that the Authority/State Government may, in its discretion, revoke the Suspension at any time, whether or not the cause of Suspension has been rectified or removed hereunder.

21.4.2 Upon the Concessionaire having cured the Event of Default within a period not exceeding 90 (ninety) days from the date of Suspension, the Authority/State Government shall revoke the Suspension forthwith and restore all rights of the Concessionaire under this Agreement.

21.5 Substitution of Concessionaire

At any time during the period of Suspension, the Lenders' Representative, on behalf of Senior Lenders, shall be entitled to substitute the Concessionaire under and in accordance with the Substitution Agreement, and upon receipt of notice there under from the Lender's Representative, the Authority/State Government shall withhold Termination for a period not exceeding [180 (one hundred and eighty)] days from the date of Suspension, and any extension thereof due to Concessionaire default, for enabling the Lenders’ Representative to exercise its rights of substitution on behalf of Senior Lenders.

21.6 Termination
21.6.1 At any time during the period of Suspension under this Article 21, the Concessionaire may by notice require the Authority/State Government to revoke the Suspension and issue a Termination Notice. Subject to the rights of the Lenders' Representative to undertake substitution in accordance with the provisions of this Agreement, the Authority State Government shall, within [15 (fifteen)] days of receipt of such notice, terminate this Agreement under and in accordance with Article 21.

21.6.2 Notwithstanding anything to the contrary contained in this Agreement, in the event that Suspension is not revoked within [180 (one hundred and eighty)] days from the date of Suspension hereunder or within the extended period, if any, the Concession Agreement shall, upon expiry of aforesaid period, be deemed to have been terminated by mutual agreement of the Parties and all provisions of this Agreement shall apply, mutatis mutandis, to such Termination as if a Termination Notice had been issued by the Authority State Government upon occurrence of a Concessionaire Default.
ARTICLE 22
CHANGE IN LAW

22.1 Change in Law

The Concessionaire may claim the benefit of and/or relief for a Change in Law event subject to and in accordance with this Article 22.

22.2 Consequences of Change in Law

22.2.1. The Concessionaire shall not be allowed any relief and/or compensation for any Change in Law which is not a: (i) Qualifying Change in Law; or (ii) Fundamental Change in Law.

22.2.2. If a Qualifying Change in Law occurs, then the Concessionaire shall notify the State Government and the Authority of such Qualifying Change in Law along with details of:

(a) any necessary change in the Construction Plan, the O&M Manual or the Technical Specifications on the basis of which construction works and O&M services are required to be undertaken for the Facilities;

(b) any changes that are required to the terms of this Agreement to deal with such Qualifying Change in Law;

(c) any extension of the Scheduled Payment Milestone Completion Date or the Scheduled Construction Completion Date, to account for the delay, if any, resulting from the Qualifying Change in Law; and/or

(d) any increase in Costs that will result from the Qualifying Change in Law.

22.2.3. As soon as practicable and in any event, within 30 (thirty) days from the receipt of any notice from the Concessionaire under Article 22.2.2 above, the Parties shall agree on the consequences of the Qualifying Change in Law, as specified in the notice, and any way in which the Concessionaire can mitigate the effect of the Qualifying Change in Law, including:

(a) providing evidence that the Concessionaire has used reasonable endeavors (including, where practicable, the use of competitive quotes) to minimise any increase in Costs or oblige the Sub-Contractors to minimise any increase in Costs;

(b) providing evidence as to how the Qualifying Change in Law has affected prices of materials used for construction or O&M of Project facilities; and

(c) demonstrating to the State Government and the Authority that the Qualifying Change in Law is the direct cause of the increase in Costs or delay and the estimated increase in Costs, or extension of time could not reasonably be expected to be mitigated or recovered by the Concessionaire.

22.2.4. If the Parties fail to agree on the consequences of the Qualifying Change in Law within 30 (thirty) days from the receipt of any notice from the Concessionaire under Article
22.2.2 above, the dispute will be finally settled in accordance with the dispute resolution procedure set out in Article 26.

22.2.5. If the Concessionaire has complied with Article 22.2.3 above and the Parties mutually agree or it is determined in accordance with Article 22.2.4 above, that the Concessionaire is required to incur additional Costs due to a Qualifying Change in Law, then:

(a) the Concessionaire shall be required to bear all Costs resulting from any one or more Qualifying Change in Law events, up to an aggregate amount equivalent to 0.5% (zero point five per cent) of the total Bid Project Cost (the “Threshold Limit”); and

(b) for any additional Costs resulting from the Qualifying Change in Law, which is in excess of the Threshold Limit, the Concessionaire shall be entitled to be compensated for such additional Costs, in excess of the Threshold Limit, by way of,

(i) a lump-sum payment of an amount equivalent to the additional Costs incurred by the Concessionaire, over and above the Threshold Limit; or

(ii) an appropriate adjustment in the O&M Charges.

(c) If the Concessionaire has complied with Article 22.2.3 above and the Parties mutually agree or it is determined in accordance with Article 26 that the Concessionaire will suffer any delay as a result of the occurrence of a Qualifying Change in Law, then the Concessionaire shall be entitled to an extension of time as mutually decided by the Authority, State Government and Concessionaire.

(d) In case of a dispute with respect to the quantum of relief (whether extension of time or compensation) that the Concessionaire shall be entitled to under this Article 22.2 shall be as agreed by the Parties or as determined in accordance with Article 26, provided always that:

(i) the Concessionaire shall bear any increased Cost to the extent of the Threshold Limit; and

(ii) the Concessionaire shall only be entitled to relief that is reasonable for such Qualifying Change in Law.

(e) Notwithstanding anything to the contrary in this Agreement, the Concessionaire shall not be entitled to any schedule relief and/or compensation or adjustment in the Bid Project Cost or the O&M Charges due to a Qualifying Change in Law, if such Qualifying Change in Law becomes applicable as a result of a delay in the execution of the Project, which is not attributable to a Delay Event.

(f) If a Fundamental Change in Law occurs, then,

(i) the affected Party may notify the other Parties of the effects of such Fundamental Change in Law on the validity and enforceability of this Concession Agreement or on the rights of the Concessionaire under this Agreement; and
(ii) any Party may propose amendments to the Concession Agreement, which would make the Concession Agreement compliant with Applicable Laws, while enabling the Parties to achieve their commercial objectives.

If the Parties are unable to agree on necessary amendments to the terms of this Agreement within 30 days of receipt of a notice from the affected Party or the Fundamental Change in Law event is such that it cannot be mitigated with amendments to the terms of this Agreement, the Fundamental Change in Law event shall be treated as a Direct Political Force Majeure Event in accordance with Article 20.

22.3 Increase in costs

22.3.1. Change in Law shall mean the occurrence or coming into force of any of the following, after the Compliance Date:
(a) The enactment of any new Indian law including laws related to environment, emission standards, etc.;
(b) The repeal, modification or re-enactment of any Applicable Law;
(c) A change in the interpretation or application of any Indian law by a court of record;
Provided that Change in Law shall not include:
(a) Coming into effect, after the Compliance Date, of any provision or statute which is already in place as of the Compliance Date,
(b) Any new law or any change in the existing law under the active consideration of or in the contemplation of any government as of the Compliance Date which is a matter of public knowledge (including inter-alia, by-laws, directions, orders, regulations to be issued under the SWM Rules);
(c) Any change in the rates of the Taxes which have a direct effect on the Project.

22.3.2. Subject to Change in Law resulting in Material Adverse Effect and subject to the Concessionaire taking necessary measures to mitigate the impact or likely impact of Change in Law on the Project, if as a result of Change in Law, the Concessionaire suffers an increase in costs or reduction in net after-tax return or other financial burden (the “Additional Cost”), the aggregate financial effect of which exceeds Rs. [*] (Rupees [*]) in any Financial Year, the Concessionaire may so notify the Project Engineer/ Authority/ State Government and notify with the information as required under Article 22.3.3 below and propose amendments to this Agreement so as to place the Concessionaire in the same financial position as it would have enjoyed had there been no such Change in Law resulting in increased costs, reduction in return or other financial burden as aforesaid. The said remedial measures would be discussed and consequences arising there from shall be dealt with as per terms of Article 22.3.4 below.

22.3.3. Upon occurrence of a Change in Law, the Concessionaire shall promptly, notify the Project Engineer/Authority/ State Government of the following:
(a) The nature and the impact of Change in Law on the Project;
(b) the estimate of the Additional Cost likely to be incurred by the Concessionaire on
account of Change in Law;

(c) The measures, which the Concessionaire has taken or proposes to take to mitigate the impact of Change in Law, including in particular, minimising the Additional Cost;

(d) The relief sought by the Concessionaire.

22.3.4. Upon notice by the Concessionaire, the Parties shall meet, as soon as reasonably practicable but no later than 30 (thirty) days from the date of notice, and either agree on amendments to this Agreement or on any other mutually agreed arrangement.

Provided that if no agreement is reached in respect of aforesaid remedial measure to cure the adverse effect of Change in Law within 90 (ninety) days of the aforesaid notice, the Concessionaire may by notice require the Authority/State Government to pay an amount equivalent to 50% (fifty per cent) of Additional Cost as determined/ certified by the Authority/State Government based on the facts and circumstances and verification of information submitted by the Concessionaire. For the avoidance of doubt, it is agreed that this Article 22 shall be restricted to changes in law directly affecting the Concessionaire’s costs of performing its obligations under this Agreement.
ARTICLE 23
EVENTS OF DEFAULT AND TERMINATION

23.1 Events of Default

Event of Default shall mean either Concessionaire Event of Default or the Authority Event of Default or State Government Event of Default or all three as the context may admit or require.

23.2 Concessionaire Event of Default

23.2.1. In addition to any events specified elsewhere in this Agreement, events arising out of any acts or omissions of the Concessionaire and which have not occurred solely as a consequence of an Authority Event of Default, a State Government Event of Default, a Qualifying Change in Law, a Fundamental Change in Law or any other Force Majeure Event, and where the Concessionaire has failed to remedy the defects within any specified time period (to the extent any time period is provided), any of the following events shall constitute an Event of Default by the Concessionaire (the “Concessionaire Event of Default”):

(a) failure of the Concessionaire to complete the construction of a Project Facility by the expiry of the Grace Period;

(b) failure of the Concessionaire to pay the Delay Liquidated Damages within the timelines specified in this Agreement;

(c) failure of the Concessionaire to achieve successful completion of Trial Operations of Project Facilities;

(d) failure of the Concessionaire to remedy any reduction in Availability within [3 (three)] days of receipt of a notice from the Authority in accordance with Article 18;

(e) failure of the Concessionaire to build and/or operate the Project in compliance with the KPIs and Technical Specifications;

(f) for any Project Facility, failure of the Concessionaire to achieve the KPIs for [2 (two)] consecutive days, [32 (thirty two)] times in a continuous [12 (twelve)] month period;

(g) suspension of the construction or O&M of a Project Facility pursuant to Article 21 (to the extent such Emergency is attributable to the Concessionaire) for a continuous period of 60 (sixty) days;

(h) a breach by the Concessionaire of its obligations under this Agreement which has a Material Adverse Effect on the ability of the Concessionaire to construct and/or operate and maintain the Project Facilities and such breach, if capable of being remedied, is not remedied within [30 (thirty)] days of issuance of written notice from Authority specifying such breach and requiring the Concessionaire to remedy the same;

(i) any representation made or warranties given by the Concessionaire under this Agreement being found to be false or misleading in any material respect;
(j) failure of the Concessionaire to submit and maintain a valid Performance Securities and O&M Securities in accordance with Article 9;

(k) failure of the Concessionaire to maintain a valid Mobilization Advance Guarantee in accordance with Article 9;

(l) breach by the Concessionaire of its obligations set forth in this Agreement;

(m) failure of the Concessionaire to obtain, renew and maintain any Concessionaire Applicable Permits;

(n) failure of the Concessionaire to comply with any Applicable Law (including specifically the EPA);

(o) failure of the Concessionaire to obtain and maintain insurance cover in accordance with Article 27;

(p) failure of the Concessionaire or the Sub-Contractors to comply with the ESHS Documents in accordance with Article 14;

(q) the breach of the Concessionaire's obligations under or the occurrence of an Event of Default or analogous event under the Financing Agreements or the Escrow Agreement, or termination of the Financing Agreements, or the Escrow Agreement (for reasons attributable to the Concessionaire).

(r) abandonment of the Project by the Concessionaire;

(s) the Concessionaire has unlawfully repudiated this Agreement or has otherwise expressed an intention not to be bound by this Agreement;

(t) a resolution for insolvency of the Concessionaire is passed, or any petition for insolvency of the Concessionaire is initiated before a court (including tribunal) of competent jurisdiction in accordance with the provisions of Insolvency and Bankruptcy Code, 2016 and such application has not been withdrawn within 14 (fourteen) days of the date thereof;

(u) if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Project;

(v) a resolution for winding up of the Concessionaire is passed, or any petition for winding up of the Concessionaire is admitted by a court (including tribunal) of competent jurisdiction in accordance with the provisions of Insolvency and Bankruptcy Code, 2016 or Companies Act, 1956/ Companies Act, 2013 and a liquidator or receiver is appointed and such order has not been set aside within 90 (ninety) days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are
transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under this Agreement and the agreements in relation thereto; and provided that:

(i) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under this Agreement and the agreements in relation thereto; and

(ii) the amalgamated or reconstructed entity has the financial standing to perform its obligations under this Agreement and the agreements in relation thereto and has a credit worthiness at least as good as that of the Concessionaire as at the Effective Date.

23.3 Authority Event of Default and State Government Event of Default

23.3.1. Any of the following events shall constitute an event of default by the Authority (the “Authority Event of Default”), when not caused by a Concessionaire Event of Default or Force Majeure Event:

(a) Authority has failed to make any payments due to the Concessionaire and more than 90 (ninety) days have elapsed since such default;

(b) Authority or the Department or the Project Engineer is in Material Breach of any of its obligations under this Agreement and have failed to cure such breach within 30 (thirty) days of receipt of notice thereof issued by the Concessionaire;

(c) Authority has unlawfully repudiated this Agreement or otherwise expressed its intention not to be bound by this Agreement;

(d) Authority has unreasonably withheld or delayed grant of any approval or permission within its respective jurisdictions and such delay and withholding is not attributable to Concessionaire or Force Majeure which the Concessionaire is obliged to seek under this Agreement, and thereby caused or likely to cause Material Adverse Effect;

(e) Any representations made or warranties given by the Authority under this Agreement have been found to be false or misleading.

23.3.2. A State Government Event of Default means any of the following events, unless such an event has occurred as a consequence of a Concessionaire Event of Default, or a Force Majeure Event and where the State Government has failed to remedy the defects within any specified time period (to the extent any time period is provided):

(a) a failure by the State Government to pay any undisputed amounts due and payable for 90 (ninety) consecutive days, notwithstanding service of a formal written demand by the Concessionaire;

(b) a failure by the State Government or the Authority to maintain the Minimum Escrow Balance for a period of 90 (ninety) days;
(c) any representation made or warranties given by the State Government under this Agreement being found to be false or misleading in any material respect.

23.4 Termination due to Event of Default

23.4.1 Termination for Concessionaire Event of Default

(a) Without prejudice to any other right or remedy which the Authority may have in respect thereof under this Agreement, upon the occurrence of a Concessionaire Event of Default, the Authority shall, be entitled to terminate this Agreement in the manner as set out under Article 23.4.1(b) and Article 23.4.1(c).

(b) Provided however that upon the occurrence of a Concessionaire Event of Default as specified under Article 23.2, the Authority may terminate this Agreement by issue of Termination Notice in the manner set out under Article 23.4.3 after giving the Concessionaire an opportunity of hearing.

(c) If the Authority decides to terminate this Agreement pursuant to preceding Article 23.4.1(a), it shall in the first instance issue Preliminary Notice to the Concessionaire. Within 30 (thirty) days of receipt of the Preliminary Notice, the Concessionaire shall submit to the Authority in sufficient detail, the manner in which it proposes to cure the underlying Event of Default (the “Concessionaire’s Proposal to Rectify”).

(d) In case of non-submission of the Concessionaire’s Proposal to Rectify within the said period of 30 (thirty) days, the State Government and the Authority shall be entitled to terminate this Agreement by issuing Termination Notice, and the Performance Security of the Concessionaire shall get forfeited.

(e) If the Concessionaire’s Proposal to rectify is submitted within the period stipulated therefor, the Concessionaire shall have further period of 30 (thirty) days to remedy/cure the underlying Event of Default. If, however the Concessionaire fails to remedy/cure the underlying event of default within such further period allowed, the State Government and the Authority shall be entitled to terminate this Agreement, by issue of Termination Notice and the Performance Security of the Concessionaire shall get forfeited.

23.4.2 Termination for Authority Event of Default or State Government Event of Default

(a) Without prejudice to any other right or remedy which the Concessionaire may have in respect thereof under this Agreement, upon the occurrence of the Authority Event of Default or State Government Event of Default, the Concessionaire shall be entitled to terminate this Agreement by issuing Termination Notice;

(b) If the Concessionaire decides to terminate this Agreement pursuant to preceding Article 23.4.2(a) it shall in the first instance issue Preliminary Notice to the Authority or the State Government, as the case may be. Within 30 (thirty) days of receipt of Preliminary Notice, the Authority or the State Government, as the case may be, shall forward to the Concessionaire its proposal to remedy/cure the underlying Event of Default (the
"Authority/State Government Proposal to Rectify"). In case of non-submission of Proposal to rectify by the Authority or the State Government, as the case may be, within the period stipulated therefor, Concessionaire shall be entitled to terminate this Agreement by issuing Termination Notice;

(c) If Authority/State Government Proposal to Rectify is forwarded to the Concessionaire within the period stipulated therefor, the Authority or the State Government, as the case may be, shall have further period of 30 (thirty) days to remedy/ cure the underlying Event of Default. If, however, the Authority or the State Government, as the case may be, fails to remedy/ cure the underlying Event of Default within such further period allowed, the Concessionaire shall be entitled to terminate this Agreement by issuing Termination Notice.

23.4.3 Termination Notice

If a Party has become entitled to do so decide to terminate this Agreement pursuant to the preceding sub Article 23.4.1 or 23.4.2, it shall issue Termination Notice setting out:

(a) in sufficient detail the underlying Event of Default;

(b) the Termination Date which shall be a date occurring not earlier than 60 (sixty) days from the date of Termination Notice;

(c) the estimated Termination Payment including the details of computation thereof; and,

(d) any other relevant information.

23.4.4 Obligation of Parties

Following issue of Termination Notice by either Party, the Parties shall promptly take all such steps as may be necessary or required to ensure that;

(a) until Termination is final the Parties shall, to the fullest extent possible, discharge their respective obligations so as to maintain the continued operation of the Project;

(b) the Termination Payment, if any, payable by the Authority/State Government in accordance with the Article 23.4.5 is paid to the Concessionaire within 30 (thirty) days of the Termination Date; and

(c) the Project is handed over to the Authority/State Government by the Concessionaire on the Termination Date free from any Encumbrance along with any payment that may be due by the Concessionaire to the Authority or the State Government.

23.4.5 Termination Payment for Authority Event of Default or State Government Event of Default

Upon Termination of this Agreement on account of Authority Event of Default or State Government Event of Default, the Concessionaire shall be entitled to receive back the Performance Security and also receive an amount equal to Debt Due and 110% (one hundred
and ten per cent) of the Adjusted Equity as Termination Payment.

**23.4.6 Withdrawal of Termination Notice**

Notwithstanding anything inconsistent contained in this Agreement, if the Party who has been served with the Termination Notice cures the underlying Event of Default to the satisfaction of the other Party at any time before the Termination occurs, the Termination Notice shall be withdrawn by the Party which had issued the same. Provided that the Party in breach shall compensate the other Party for any direct costs/consequences occasioned by the Event of Default which caused the issue of Termination Notice.

**23.4.7 Termination Payment for Concessionaire Event of Default**

(a) Upon Termination of this Agreement on account of Concessionaire Event of Default before COD, no Termination Payment shall be made to the Concessionaire and the State Government or the Authority shall be entitled to forfeit the Performance Security of the Concessionaire;

(b) Upon Termination of this Agreement on account of Concessionaire Event of Default after COD, the State Government or the Authority shall be entitled to forfeit the Performance Security of the Concessionaire and pay Termination Payment to the Concessionaire as specified below:

An amount equal to 90% (ninety per cent) of Debt Due less Insurance cover; provided that, if any, insurance claims forming part of the Insurance cover are not admitted and paid, then 80% (eighty per cent) of such unpaid claims shall be included in the computation of Debt Due.

**23.4.8 Upon termination of this Agreement**

(a) The Concessionaire shall cease all work in relation to construction of the Project Facilities.

(b) The Concessionaire shall cease all work in relation to O&M of the Project Facilities.

(c) The Concessionaire shall take all necessary steps to safeguard and protect the Project Facilities (at whatever stage of completion or operation) and all other equipment, materials and goods on the Sites.

(d) The Concessionaire shall hand over the Sites and the immovable assets, to Authority or its nominee, to the extent applicable, as per Articles 23.4.9, 23.4.10, and 23.4.11.

(e) In case of termination of this Agreement due to an Authority Event of Default or State Government Event of Default, the Authority shall return the Performance Securities, the O&M Securities and the Mobilization Advance Guarantees, if not already returned to the Concessionaire, after adjusting any outstanding payments owed by the Concessionaire, within 30 (thirty) days from the Transfer Date.
The Concessionaire agrees that on the service of a Termination Notice or 180 (one hundred and eighty) days prior to the expiry of the Concession Period by efflux of time, it shall conduct or cause to be conducted by the Project Engineer/ Authority / State Government, a survey (the “Condition Survey”) and inspection of the Project to ascertain the condition thereof, verify compliance with the Concessionaire’s obligations under this Agreement and to prepare an inventory of the assets comprised in the Project;

If, as a result of the Condition Survey, the Authority/State Government, and the Project Engineer shall observe/notice that the Project or any part thereof is not in the condition required thereof under this Agreement (except normal wear and tear) the Concessionaire shall, at its cost and expenses, take all necessary steps to put the same in the requisite conditions well before the Termination Date.

23.4.9 Transfer of the Sites and the Project Facilities

Upon the expiry or early termination of this Agreement, the Concessionaire shall hand over the Sites, the immovable assets such as Processing Facility, Material Recovery Facility, decentralized units, etc., to the Authority any other entity nominated by the Authority in accordance with this Article 23 on a date mutually decided by the Authority and the Concessionaire (the “Transfer Date”).

23.4.10 Inspection of the Sites and the Project Facilities

(a) No later than 30 (thirty) days from the end of the 19th(nineteenth) year of the O&M Period or 30 (thirty) days from the date of termination of the Agreement, as the case may be, the Authority/State Government shall or shall cause the Project Engineer to carry out a condition survey of the Sites and the Project Facilities to assess whether they have been maintained by the Concessionaire in accordance with its obligations under this Agreement, and are in working condition in line with the design life of the Project Facilities.

(b) Authority/State Government shall notify the Concessionaire at least 7 (seven) days prior to the date on which it wishes to carry out the survey of the Sites and the Project Facilities.

(c) If the survey carried out by the Authority/State Government or the Project Engineer shows that the Concessionaire has not or is not complying with its obligations under this Agreement, then the Authority/State Government shall notify the Concessionaire of the rectification and/or maintenance work which is required to ensure that the condition of the Sites and the Project Facilities is restored to the Hand-back Conditions.

(d) The Concessionaire shall carry out such rectification and/or maintenance work to achieve the Hand-back Conditions within 30 (thirty) days from the receipt of a notice from the Authority/State Government in accordance with Article 23.4.10(c) above, at its own cost and risk. Upon completion of the rectification and/or maintenance work, the Concessionaire shall request the Authority State Government to carry out a final survey and inspection of the Sites and the Project Facilities. The Authority shall carry
out the final survey within 7 (seven) days of receipt of a notice from the Concessionaire pursuant to this Article 23.4.10(d). [At the discretion of the Authority/State Government, the Concessionaire may be allowed extension of the period of [15 (fifteen)] days to rectify the defects notified by the Authority/State Government or Project Engineer if and to the extent that the Project Facilities cannot be used for the purposes for which they are intended after handing over by reason of a defect or damage attributable to the Concessionaire.]

(e) If the Authority/State Governments satisfied with the results of the final survey, then the Authority shall notify the Concessionaire within 7 (seven) days of carrying out the final survey that the Sites and the Project Facilities, comply with the Hand-back Conditions. If the Authority/State Governments not satisfied with the results of the final survey, then the Authority shall or shall cause the Project Engineer to estimate the cost of restoring the Sites and the Project Facilities to the Hand-back Conditions and recover such cost from the Concessionaire.

23.4.11 Hand-back Requirements

On the expiry or early termination of this Agreement, the Concessionaire shall, at its own cost:

(a) hand over to the Authority or any entity nominated by the Authority, the Sites and the Project Facilities;

(b) to the extent that such rights and interests are not already vested in the Authority, transfer all its rights and interest in the immovable assets comprising in the Project Facilities and execute such deeds and documents as may be necessary for this purpose and complete all related legal or other formalities;

(c) hand over all records and documents relating to the Sites and the Project Facilities including as-built records, Designs and Drawings, online monitoring and metering data, operating logs, manuals, reports, plans and records;

(d) transfer to the Authority or its nominee (free of cost) the license to use the Proposed Technology and other know-how relating to the Project Facilities;

(e) transfer or cause to be transferred to the Authority or its nominee any sub-contract that the Authority or its nominee has chosen to take over and terminate all other sub-contracts;

(f) transfer to the Authority or its nominee all Concessionaire Applicable Permits which the Authority or its nominee may require, and which can be legally transferred;

(g) remove from the Sites all employees and workmen, and movable assets, equipment and materials that are not required to be taken over by the Authority or its nominee; and

(h) cooperate with and assist the Authority with the Project post the handing over.
23.4.12 Consequences of termination due to a Force Majeure Event

In case of termination of the Agreement due to a Force Majeure Event, the following consequences shall apply:

(a) the Concessionaire shall hand over the Sites and the immovable assets, to Authority on an "as is where is" basis and to the extent relevant;

(b) Authority shall be required to return the Mobilization Advance Guarantees, Performance Securities or the O&M Securities, as the case may be, after adjusting any outstanding payments owed by the Concessionaire, to the Concessionaire within 30 (thirty) days from the Transfer Date; and

(c) in case of termination due to an Indirect Political Force Majeure Event or a Direct Political Force Majeure Event, Authority shall (or shall require the Project Engineer) to assess the Cost of the construction work undertaken by the Concessionaire in relation to the Project Facilities as on the date of the Termination Notice and based on such assessment, pay the Termination Compensation in accordance with Article 24.

23.5 Rights of Authority on Termination

23.5.1 Upon Termination of this Agreement for any reason whatsoever, Authority shall upon making the Termination Payment, if any, to the Concessionaire, have the power and authority to:

(a) enter upon and take possession and control of the Sites, constructed Project Facilities and the immovable assets, forthwith;

(b) prohibit the Concessionaire and any person claiming through or under the Concessionaire from entering upon/ dealing with the Project including Project Facilities and the immovable assets;

23.5.2 Notwithstanding anything contained in this Agreement, Authority shall not, as consequence of Termination or otherwise, have any obligation whatsoever including but not limited to obligations as to compensation for loss of employment, continuance or regularization of employment, absorption or re-employment on any ground, in relation to any person in the employment of or engaged by the Concessionaire in connection with the Project, and the handover of the Project Facilities by the Concessionaire to the Authority shall be free from any such obligation/ fee/ penalties/taxes.

23.5.3 Termination Payment shall become due and payable to the Concessionaire within 15 (fifteen) days of a demand being made by the Concessionaire to the Authority/State Government with the necessary particulars, and in the event of any delay, the Authority/State Government shall pay interest at a rate equal to 3% (three per cent) above the State Bank of India Base Rate on the amount of Termination Payment remaining unpaid; provided that such delay shall not exceed 90 (ninety) days. For the avoidance of doubt, it is expressly agreed that the Termination Payments shall become due and payable by the Authority/State Government upon actual or constructive handover of the Sites, Project...
Facilities and immovable assets by the Concessionaire to the Authority clear from all encumbrances, charges and liens whatsoever, unless expressly agreed by the Parties otherwise.

23.5.4 The Concessionaire expressly agrees that Termination Payment under this Article 23 shall constitute a full and final settlement of all claims of the Concessionaire on account of Termination of this Agreement for any reason whatsoever and that the Concessionaire or any shareholder thereof shall not have any further right or claim under any law, treaty, convention, contract or otherwise.

23.5.5 The Authority, the State Government, and the Concessionaire hereby unconditionally acknowledge and agree that, without prejudice to their any other right or remedy, the Authority or the State Government shall be entitled to pay the Termination Payment [to the extent required] to the Lenders’ Representative for procuring discharge/release of the any charge/hypothecation created by Concessionaire on the movable assets for securing payment of Debt Due; and for this purpose the Lender is entitled to receive from the Authority/State Government, without any further reference to or consent of the Concessionaire, the Debt Due upon Termination of the Concession Agreement. For realisation of the Debt Due as aforesaid, the Lenders’ Representative shall be entitled to make its claim from the Escrow Account in accordance with the provisions of the Concession Agreement and the Escrow Agreement; and Concessionaire hereby irrevocably agree that such payment by the Authority/State Government shall be full and final settlement of proportionate claim of Termination Payment to the Concessionaire under this Agreement.

23.6 Accrued Rights and liabilities of Parties

(a) Notwithstanding anything to the contrary contained in this Agreement, Termination pursuant to any of the provisions of this Agreement shall be without prejudice to accrued rights of either Party including its right to claim and recover money as damages and other rights and remedies which it may have in law or contract. All accrued rights and obligations of either Party under this Agreement, including without limitation those relating to the Termination Payment, shall survive the Termination but only to the extent such survival is necessary for giving effect to such rights and obligations.

(b) Nothing in Article 23 shall prevent or restrict a Party to seek injunctive relief or a decree of specific performance or other discretionary remedies of the court.
ARTICLE 24
TERMINATION COMPENSATION

24.1 Termination Compensation for Termination post the Compliance Date but prior to the Construction Completion Date

24.1.1. For an Authority Event of Default or State Government Event of Default

If the Agreement is terminated prior to the Construction Completion Date for an Authority Event of Default or State Government Event of Default shall be liable to pay to the Concessionaire the aggregate of:

(a) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by Authority as on the date of the Termination Notice;

(b) Debt Due;

(c) Equity infused in the Concessionaire as on the date of Termination Notice along with interest on the Equity at the rate of the prevailing SBI MCLR + 3% (three per cent);

LESS

(a) any unadjusted Mobilization Advance (and interest if any);

(b) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

24.1.2. For a Concessionaire Event of Default (in accordance with Schedule 18)

If the Agreement is terminated prior to the Construction Completion Date for a Concessionaire Event of Default, the Authority or the State Government shall pay to the Concessionaire, the aggregate of:

(a) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by Authority as on the date of the Termination Notice;

(b) 85% (eighty five per cent) of Debt Due;

LESS

(a) any unadjusted Mobilization Advance (and interest if any);

(b) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).
24.2 Termination Compensation for Termination post the Construction Completion Date but prior to the COD

24.2.1. For an Authority Event of Default or State Government Event of Default

If the Agreement is terminated post the Construction Completion Date but prior to the COD for an Authority Event of Default or State Government Event of Default, the Authority or the State Government shall be liable to pay to the Concessionaire the aggregate of:

(a) Construction Payments, if not already paid as on the date of the Termination Notice;
(b) Debt Due;
(c) Equity infused in the Concessionaire as on the date of Termination Notice along with interest on the Equity at the rate of the prevailing SBI MCLR + 3% (three per cent);

LESS

(a) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

24.2.2. For a Concessionaire Event of Default (in accordance with Schedule 18)

If the Agreement is terminated post the Construction Completion Date but prior to the COD for a Concessionaire Event of Default, the Authority or the State Government shall pay to the Concessionaire, the aggregate of:

(a) Construction Payments, if not already paid as on the date of the Termination Notice;
(b) 85% (eighty five per cent) of Debt Due;

LESS

(a) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

24.3 Termination Compensation for Termination post the COD

24.3.1. For an Authority Event of Default or State Government Event of Default

If the Agreement is terminated post the COD for an Authority Event of Default or State Government Event of Default, the Authority or the State Government shall be liable to pay to the Concessionaire the aggregate of:

(a) Construction Payments that remain outstanding on the date of the Termination Notice;
(b) O&M Payments due to the Concessionaire as on the date of the Termination Notice;
(c) Capex Annuity for the unexpired portion of the O&M Period;

**LESS**

(a) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

24.3.2. For a Concessionaire Event of Default (in accordance with Schedule 18)

If the Agreement is terminated post the COD for a Concessionaire Event of Default, the Authority or the State Government shall pay to the Concessionaire, the aggregate of:

(a) Construction Payments that remain outstanding on the date of the Termination Notice;

(b) O&M Payments due to the Concessionaire as on the date of the Termination Notice;

(c) Such percentage of Capex Annuity payments for Post-COD facilities for the unexpired portion of the O&M period;

**LESS**

(a) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

**24.4 Termination Compensation for Termination due to a Force Majeure Event**

24.4.1. Non-Political Force Majeure Event and Indirect Political Force Majeure

(a) If the Agreement is terminated due to an Indirect Political Force Majeure Event or Non-Political Force Majeure Event, prior to the COD:

(i) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by Authority as on the date of the Termination Notice under Article 20;

(ii) Debt Due;

**LESS**

(i) any insurance proceeds received and retained by the Concessionaire

(b) If the Agreement is terminated due to an Indirect Political Force Majeure Event or Non-Political Force Majeure Event, post the COD, Authority or the State Government shall be liable to pay to the Concessionaire:

(i) Construction Payments that remain outstanding on the date of the Termination Notice in case of facilities under Article 20;
(ii) O&M Payments due to the Concessionaire as on the date of the notice of termination under Article 20;

(iii) Debt Due;

**LESS**

(i) any insurance proceeds received and retained by the Concessionaire.

(c) Direct Political Force Majeure

(i) If the Agreement is terminated due to a Direct Political Force Majeure Event, prior to the COD, Authority or the State Government shall be liable to pay to the Concessionaire:

(A) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by Authority as on the date of the notice of termination under Article 20;

(B) Debt Due;

(C) Equity infused in the Concessionaire as on the date of the notice of termination under Article 20 along with interest on the Equity at the rate of the prevailing SBI MCLR + 3% (three per cent);

**LESS**

(D) any unadjusted Mobilization Advance (and interest if any);

(E) any insurance proceeds received and retained by the Concessionaire; and

(F) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

(ii) If the Agreement is terminated due to a Direct Political Force Majeure Event post the COD, the Authority or the State Government shall be liable to pay to the Concessionaire:

(A) Construction Payments that remain outstanding on the date of the notice of termination under Article 20;

(B) O&M Payments due to the Concessionaire as on the date of the notice of termination under Article 20;

(C) Capex Annuity for the unexpired portion of the O&M Period;

**LESS**

(D) any insurance proceeds received and retained by the Concessionaire; and
(A) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

24.5 All Termination Compensation required to be paid by the State Government or the Authority to the Concessionaire shall be paid within 60 (sixty) days of transfer of the Sites and the Project Facilities in accordance with Article 23.

24.6 Limitations on Termination Compensation

(a) Termination Compensation, due and payable under this Agreement shall be limited to the Debt Due and Adjusted Equity, as the case may be, which form part of the Bid Project Cost, in accordance with the provisions of this Agreement. For avoidance of doubt, it is agreed that within a period of [60 (sixty)] days from COD, the Concessionaire shall notify to the Authority (with a copy to the State Government), the Bid Project Cost and its disaggregation between Debt Due and Equity, and only the amounts so conveyed shall form the basis of computing Termination Compensation, and it is further agreed that in the event such disaggregation is not notified to the Authority, the Equity and Debt Due shall be arrived at by adopting the proportion between debt and equity as specified in the Financing Agreements. The Parties also agree that, notwithstanding anything contained in this Agreement, for the purposes of computing Termination Compensation, the Debt Due shall at no time exceed [50% (fifty per cent)] of the Bid Project Cost.

(b) The amount payable in respect of any Debt Due expressed in foreign currency shall be computed at the Reference Exchange Rate for conversion into the relevant foreign currency as on the date of Termination Compensation. Provided, however, that the provisions of this Article 24.6 (b) shall not apply if the Concessionaire does not notify the particulars of any foreign currency loans within [60 (sixty)] days of the date of conversion of such foreign currency loans into Indian currency. Provided further that all borrowings in foreign currency shall be restricted to the financing of the Bid Project Cost and any borrowings in excess thereof shall not qualify for computation of Termination Compensation.

24.7 Full and Final Settlement

Notwithstanding anything to the contrary elsewhere in this Agreement, any Termination Compensation determined pursuant to this Article 24 shall, once paid, be in full and final settlement of any claim, demand and/or proceedings of the Concessionaire against the Authority or the State Government, in relation to Termination of this Agreement and the Concessionaire shall be excluded from all other rights and remedies in respect of such Termination.

24.8 The provisions of this Article 24 shall survive the Termination of this Agreement.
ARTICLE 25

SUBSTITUTION OF THE CONCESSIONAIRE

25.1 Substitution by Lenders’ Representative

In the event of Concessionaire’s default, Authority shall, if there be any Lenders, send copy of the Termination Notice to the Lenders’ Representative to inform and grant 15 (fifteen) days to the Lenders’ Representative, for making representation on behalf of the Lenders stating the intention to substitute the Concessionaire. In case Authority receives representation on behalf of the Lenders, within the aforesaid period, the Authority shall withhold the termination for period not exceeding 180 (one hundred and eighty) days, for enabling the Lenders’ Representative to exercise the Lenders’ right of substitution in accordance with the Substitution Agreement, and substitute the Concessionaire with Nominated Company.

25.2 Substitution by the Authority

In the event that no company is nominated by the Lender’s Representative to act as the Nominated Company, Authority may either substitute the Concessionaire with its own Nominated Company in accordance with the Substitution Agreement, or terminate the Agreement.

25.3 Substitution Process

While carrying out substitution, the Lender’s Representative or the Authority, as the case may be, shall invite competitive bids from the prospective parties for acting as the Nominated Company and substituting the Concessionaire. Such Nominated Company shall have to agree to bear all the liabilities of the Concessionaire in terms of this Agreement and Financing Agreement.

25.4 Consequences of Substitution

Authority shall grant, to the Nominated Company, the right to develop, design, finance, construct, operate and maintain the Project (including entering into Sub-Contracts) together with all other rights of the Concessionaire under this Agreement, subject to fulfillment of the Concessionaire’s entire obligation under this Agreement by such Nominated Company, for the remainder of the term of this Agreement. Such rights shall be granted by the Authority through the novation of the Agreement, if applicable, in favour of the Nominated Company.

The Authority shall also execute new Substitution Agreement with the Nominated Company and the Lenders, if there be any. All Sub-Contracts and agreements in respect of the Project including Financing Agreements and all Sub-Contracts executed by the Concessionaire shall stand transferred and novated in favour of the Nominated Company. Further all rights of the Concessionaire on the Sites and Project Assets in terms of the Agreement shall stand transferred and novated in favour of the Nominated Company. All approvals/ clearances of the Authority received by the Concessionaire shall stand transferred and novated in favour of the Nominated Company. The Concessionaire shall get replaced by the Nominated Company for all purposes related to the Project.
ARTICLE 26
DISPUTE RESOLUTION

26.1. Amicable Resolution

26.1.1. Save where expressly stated to the contrary in this Agreement, any dispute, difference or controversy of whatever nature between the Parties, howsoever arising under, out of or in relation to this Agreement, including those arising with regard to acts, decision or opinion of the Authority State Government (the "Dispute") and so notified in writing by either Party, shall in the first instance be attempted to be resolved amicably by the representatives of the Parties in accordance with the procedures set forth in Article 26.1.2 below.

26.1.2. In the event of a Dispute, either Party may require such Dispute to be referred to the competent authority, the State Government, the Authority (or the Person holding charge) and the Chief Executive Officer of the Concessionaire for the time being, for amicable settlement. Upon such reference, the representatives of the Parties shall within 15 (fifteen) days of service of a written notice from one Party to the other Party(ies) (the “Dispute Notice”) hold a meeting (the “Dispute Meeting”) in an effort to resolve the Dispute in good faith. In the absence of any agreement to the contrary, the Dispute Meeting shall be held at the office of the Authority/State Government in [Location] and the Dispute may be mutually settled between the parties.

26.1.3. The Parties agree to use their best efforts for resolving all Disputes arising under or in respect of this Agreement promptly, equitably and in good faith, and further agree to provide each other with reasonable access during normal business hours to all non-privileged records, information and data pertaining to any Dispute.

26.1.4. If the Dispute is not amicably settled within 15 (fifteen) days of the Dispute Meeting, either Party may refer the Dispute to conciliation or arbitration in accordance with the provisions of Article 26.2 and 26.3 below.

26.2. Conciliation

In the event of any Dispute between the Parties, either Party may call upon the Project Engineer, as the case may be, to mediate and assist the Parties in arriving at an amicable settlement thereof. Failing mediation by the Project Engineer or without the intervention of the Project Engineer, as the case may be, either Party may require such Dispute to be referred to the State Government, the Principal Secretary to the Authority and the Chairman of the Board of Directors of the Concessionaire for amicable settlement, and upon such reference, the said persons shall meet no later than [7 (seven)] days from the date of reference to discuss and attempt to amicably resolve the Dispute. If such meeting does not take place within the [7 (seven)] day period or the Dispute is not amicably settled within [15 (fifteen)] days of the meeting or the Dispute is not resolved as evidenced by the signing of written terms of settlement within [30 (thirty)] days of the notice in writing referred to in Article 26.1.1 or such longer period as may be mutually agreed by the Parties, either Party may refer the Dispute to arbitration in accordance with the provisions of Article 26.3.
26.3. Arbitration

26.2.1. Procedure

Subject to the provisions of Sub-Claususes 26.1 and 26.2, any Dispute which is not resolved amicably shall be finally settled by reference to arbitration. Such arbitration shall be held in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi, or such other rules as may be mutually agreed by the parties, and shall be subject to the provisions of the Arbitration and Conciliation Act, 1996. The expenses of arbitration shall be borne equally by both the Parties.

26.2.2. Arbitration Panel

There shall be a panel of three arbitrators, of whom each Party shall appoint one, and the third arbitrator shall be appointed by the two arbitrators so selected, and in the event of disagreement between the two arbitrators, the appointment shall be made in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi.

26.2.3. Place of Arbitration

The place of arbitration shall ordinarily be [Location] but by agreement of the Parties, the arbitration hearings, if required, may be held elsewhere.

26.2.4. Language

The request for arbitration, the answer to the request, the terms of reference, any written submissions, any orders and awards shall be in English and, if oral hearings take place, English shall be the language to be used in the hearings. Any party using other than English as language shall supply the other party an authorized transcript of true translation of its submissions into English at its costs and expenses.

26.2.5. Enforcement of Award

(a) The arbitrators shall make a reasoned award (the “Award”). Any Award made in any arbitration held pursuant to this Article 26 shall be final and binding on the Parties as from the date it is made, and the Concessionaire and the Authority/State Government agree and undertake to carry out such Award without delay subject to the rights of the aggrieved parties to secure relief from any higher forum.

(b) The Concessionaire and the Authority State Government agree that an Award may be enforced against the Concessionaire and/or the Authority/State Government, as the case may be, and their respective assets wherever situated.

(c) This Agreement and the rights and obligations of the Parties shall remain in full force and effect, pending the Award in any arbitration proceedings hereunder.

26.4. Performance during Dispute

Pending the submission of and/or decision on a Dispute and until the arbitral Award is published, the Parties shall continue to perform their respective obligations under this
Agreement without prejudice to a final adjustment in accordance with such Award.

26.5. **Adjudication by Regulatory Authority or Commission**

In the event of constitution of a statutory regulatory authority or commission with powers to adjudicate upon Disputes between the Concessionaire and the Authority/State Government, all Disputes arising after such constitution shall, instead of reference to arbitration under Article 26.3, be adjudicated upon by such regulatory authority or commission in accordance with the Applicable Law and all references to Dispute Resolution Procedure shall be construed accordingly. For the avoidance of doubt, the Parties hereto agree that the adjudication hereunder shall not be final and binding until an appeal against such adjudication has been decided by an appellate tribunal or High Court, as the case may be, or no such appeal has been preferred within the time specified in the Applicable Law.
ARTICLE 27
INSURANCE

27.1. Insurance Cover

27.1.1. The Concessionaire shall, at its cost and expense, purchase and maintain effective from the Compliance Date and during the Concession Period such insurance policies for such maximum sums as are necessary and customary under Financing Documents and Applicable Laws, and/or in accordance with Good Industry Practice (or may in the future become available) on commercially reasonable terms and reasonably required to be maintained consistent with projects and facilities of the size and type of the Project, including but not limited to the following:

(a) Builders’/Sub-Contractors’ all risk insurance;
(b) Erection insurance and/or break down insurance;
(c) Public liability insurance applicable for the Concession Period, Termination and post-Termination period;
(d) Statutory insurances such as workmen’s compensation insurance or any other insurance required by the Applicable Laws;
(e) Comprehensive Third Party liability insurance including injury or death to Persons who may enter the Sites;
(f) Insurance policies related to any of the Concessionaire’s obligations hereunder;
(g) Any other insurance that may be considered necessary by the Authority/State Government/Lenders of the Concessionaire, if any, to protect the Concessionaire, its employees and its assets (against loss, damage or destruction at replacement value) or otherwise, including all Force Majeure Events that are insurable and not otherwise covered in items (a) to(f).

27.2. Insurance Companies and Costs

27.2.1. The Concessionaire shall insure all insurable Project Assets comprised in the Project;

27.2.2. All insurance policies supplied by the Concessionaire shall include a waiver of any right of subrogation of the insurers there under against, inter-alia, the State Government, the Authority, and its assigns, subsidiaries, affiliates, employees, insurers and underwriters and of any right of the insurers of any set-off or counterclaim or any other deduction, whether by attachment or otherwise, in respect of any liability of any such person insured under any such policy.

27.2.3. The Concessionaire hereby further releases, assigns and waives any and all rights of recovery against, inter-alia, the State Government, the Authority, and its affiliates, subsidiaries, employees, successors, assigns, insurers and underwriters, which the Concessionaire may otherwise have or acquire in or from or in any way connected with any
loss covered by policies of insurance maintained or required to be maintained by the Concessionaire pursuant to this Agreement (other than Third Party liability insurance policies) or because of deductible articles in or inadequacy of limits of any such policies of insurance, unless otherwise mentioned in this Agreement.

27.3. Evidence of Insurance Cover

The Concessionaire shall, from time to time, provide to the State Government and the Authority copies of all insurance policies (or appropriate endorsements, certifications or other satisfactory evidence of insurance) obtained by the Concessionaire in accordance with this Agreement.

27.4. Application of Insurance Proceeds

All moneys received under insurance policies shall be promptly applied by the Concessionaire towards repair or renovation or restoration or substitution or replacement of the Project or any part thereof, which may have been damaged or destroyed. The Concessionaire shall carry out such repair or renovation or restoration or substitution or replacement to the extent possible in such manner that the Project or any part thereof, shall, after such repair or renovation or restoration or substitution or replacement be as far as possible in the same condition as they were before such damage or destruction, normal wear and tear expected.

27.5. Validity of the Insurance Cover

The Concessionaire shall pay the premium payable on such insurance policies so as to keep the policies in force and valid throughout the Concession Period and furnish copies of the same to the State Government and the Authority. Each insurance policy shall provide that the same shall not be cancelled or terminated unless 10 (ten) days’ clear notice of cancellation is provided to the State Government and the Authority in writing. If at any time the Concessionaire fails to purchase and maintain in full force and effect any and all of the insurances required under this Agreement, the State Government or the Authority may at its option purchase and maintain such insurance and all sums incurred by the State Government or the Authority in this behalf shall be reimbursed by the Concessionaire forthwith on demand, failing which the same shall be recovered by the State Government or the Authority by exercising right of set-off or otherwise from the Performance Security.
ARTICLE 28
VARIATION

28.1 State Government, Authority and the Concessionaire may, at any time during the Concession Period, propose a Variation to the Scope of Work, Technical Specifications, and/or the Designs and Drawings.

28.2 State Government/Authority Proposed Variation

28.2.1. State Government/Authority may propose a Variation in the Scope of Work, Technical Specifications or the approved Designs and Drawings. Provided that, State Government/Authority shall not propose a Variation, which: (i) is not technically feasible; or (ii) is not in compliance with any Applicable Law or Applicable Permit.

28.2.2. Within 15 (fifteen) days of receipt of a request for Variation from State Government/Authority, the Concessionaire shall submit a proposal to State Government/Authority(with a copy to the Project Engineer) setting out in sufficient detail the implications of the proposed Variation, including any implications on the Construction Plan, the Scheduled Milestone Completion Date, the Scheduled Construction Completion Date and Scope of Work and additional Costs incurred in undertaking the Variation or any reduction in Costs resulting from the Variation. It is clarified that the additional Costs incurred in undertaking the Variation or any reduction in Costs resulting from the Variation will be determined on the basis of State Government/Authority’s schedule of rates for similar works.

28.2.3. Notwithstanding anything to the contrary in this Article 28.2, the Concessionaire shall have the right to reject a Variation proposed by State Government/Authority if, in the Concessionaire’s view, the proposed variation will result in: (i) the Concessionaire incurring additional Costs, of more than 25% (twenty five per cent) of the Bid Project Cost; (ii) reduction in the Bid Project Cost by more than 25% (twenty five per cent); or (iii) a delay of more than 120 (one hundred and twenty) days in a Scheduled Milestone Completion Date or the Scheduled Construction Completion Date.

28.2.4. Based on its review of the proposal submitted by the Concessionaire, State Government/Authority may, at its sole discretion: (i) accept the proposal and the corresponding adjustment to the Construction Plan and/or the additional Costs or reduction in the Bid Project Cost for undertaking the Variation; (ii) provide its comments on the proposal seeking amendments and/or justification for the implications put forth by the Concessionaire; or (iii) reject the proposal submitted by the Concessionaire and withdraw the proposed Variation, within 15 (fifteen) days from the date of receipt of the Concessionaire’s proposal under Sub-Clause 28.2(b) above.

28.2.5. To the extent State Government/Authority seeks amendments and/or justification in the proposal submitted by the Concessionaire, the Concessionaire shall incorporate or address, in writing, State Government/Authority's comments and submit a revised proposal.

28.2.6. On approval of the proposal or the revised proposal, as the case may be, State Government/Authority shall issue a Variation Order and Concessionaire shall proceed with the Variation in accordance with the Variation Order.
28.2.7. If the Parties are unable to agree on the implications of a Variation proposed by State Government/Authority, which in State Government/Authority’s view is necessary or desirable for the Project, State Government/Authority shall have the right to require the Concessionaire to carry out the proposed variation at the cost determined in accordance with State Government/Authority’s schedule of rates for similar works. Where State Government/Authority’s schedule of rates do not provide schedule of rates for similar works, then the cost of the works covered by the proposed Variation will be determined by State Government/Authority, in consultation with the Project Engineer. Any dispute on the terms of the Variation will be resolved in accordance with Article 26.

28.2.8. On implementation of a Variation Order, the Concessionaire shall be entitled to the agreed adjustment to the Construction Plan, Scheduled Milestone Completion Date, Scheduled Construction Completion Date and/or payment of additional amounts, if any, set out in the Variation Order.

28.3 Concessionaire Proposed Variation

28.3.1. The Concessionaire may propose a Variation if it considers such Variation necessary or desirable to improve the efficiency, quality, reliability, durability, maintainability or safety of the Project Facilities.

28.3.2. To propose a Variation, the Concessionaire shall submit a proposal to Authority (with a copy to the Project Engineer and the State Government), with a statement setting out:

(a) the need for a Variation;
(b) the additional work required; and
(c) adjustment to the Compliance Date, Construction Plan, Scheduled Milestone Completion Date and Scheduled Construction Completion Date;

28.3.3. Based on its review of the proposal submitted by the Concessionaire, if State Government/Authority is of the view that the proposed Variation is justified, then it will determine the cost of the proposed Variation using State Government/Authority’s schedule of rates for similar works and where State Government/Authority’s schedule of rates do not provide schedule of rates for similar works, then the cost of the works covered by the proposed Variation will be determined by State Government/Authority, in consultation with the Project Engineer. Thereafter, State Government/Authority shall notify the Concessionaire of the additional cost determined by State Government/Authority for the proposed Variation and any other comments that State Government/Authority may have on the implications of the proposed Variation. To the extent State Government/Authority seeks amendments and/or justification in the proposal submitted by the Concessionaire, the Concessionaire shall incorporate or address, in writing, State Government/Authority’s comments.

28.3.4. On the Concessionaire’s acceptance of the costs determined by State Government/Authority for the proposed Variation and any other amendments sought by State Government/Authority to the Concessionaire’s proposal, State Government/Authority shall issue a Variation Order and Concessionaire shall proceed with the Variation in accordance with the Variation Order.
28.3.5. On implementation of a Variation Order, the Concessionaire shall be entitled to the agreed adjustment in the Construction Plan and/or additional costs, as set out in the Variation Order.

28.4 Notwithstanding anything to the contrary in this Article 28, the Concessionaire shall be bound to implement any Variation that is necessitated by a Change in Law and any consequent adjustment in the Construction Plan and additional Costs shall be determined in accordance with Article 22.

28.5 Notwithstanding the above, a Variation made necessary due to any act, omission or default of the Concessionaire or any Sub-Contractor in the performance of the Concessionaire’s obligations under this Agreement shall not entitle the Concessionaire to any adjustment in the Construction Plan or any other compensation or relief.

28.6 No Variation shall invalidate this Agreement.
ARTICLE 29
INTELLECTUAL PROPERTY AND CONFIDENTIALITY

29.1 Proprietary Material

29.1.1. The property in all designs, drawings, processes, methods, details, plans, concepts, technology, specifications, schedules, programs, reports, calculations, documents and other works relating to the Project, including intellectual property rights therein or thereto, whether registered or not, which have been or are hereafter written, originated, made or generated by the Concessionaire or any of its employees, Sub-Contractors, consultants or agents in connection with this Agreement or the design, development, construction, operation and maintenance of the Project/Project Facilities/Project Assets, shall be and remain at all times the property of the Concessionaire, vest exclusively in the Concessionaire and ensure to the exclusive benefit of the Concessionaire (the “Proprietary Material”).

29.1.2. The Concessionaire, as beneficial owner, hereby grants to the Authority a perpetual non-exclusive license to use such Proprietary Material in connection with the Project, irrevocably and free of cost. Such license shall carry the right to use the Proprietary Material for all purposes connected with the Project; however, it shall not be transferable to a Third Party. Such license shall automatically get extended to the Authority for Project purpose only, and not for Third Party use or transfer, upon the Termination of this Agreement or the discharge by the Concessionaire of its duties hereunder.

29.2 Confidentiality

29.2.1. The Project Engineer/Authority/State Government shall not at any time divulge or disclose or suffer or permit its servants or agents to divulge or disclose, transfer, communicate to any Person or use in any manner for any purpose unconnected with the Project any Proprietary Material or other information, material, documents, records or data, concerning the Project, the Concessionaire and the Project Engineer, the State Government, the Authority (including any information concerning the contents of this Agreement) except of its directors, officials, employees, Sub-Contractors, consultants, agents or representatives on a need to know basis or as may be required by any law, rule, regulation or any judicial process.

29.2.2. The Authority/State Government shall use such Proprietary Material and information only for the purposes of this Agreement or as otherwise expressly permitted by the Concessionaire in writing.

29.2.3. The Concessionaire shall ensure that all its directors, employees, Sub-Contractors, consultants, agents or representatives execute, deliver and comply with customary confidentiality and non-disclosure agreements reasonably required by the Authority/State Government, have been duly approved by the Authority/State Government, with respect to the Project.

29.2.4. The aforesaid provisions shall not apply to the following information:-

(i) Obtained from a Third Party who is free to divulge the same and which was not obtained under any obligation of confidentiality; or
(ii) Already in the public domain otherwise than by breach of this Agreement;

(iii) Disclosed due to a court order or under any Act of GoI/Government of [Name of the State] or required by Applicable Laws.

29.3 Survival

The Concessionaire and the Authority accept and confirm that the provisions of this Article 29 shall survive the Termination of this Agreement.
ARTICLE 30
ACCOUNTS AND AUDIT

301 The Concessionaire shall maintain full accounts of all revenues derived/collected by it from and on account of use of the Project and of O&M expenses and other costs paid out of the Escrow Account and shall provide to the Authority and the State Government copies of the said accounts duly audited and certified by the Concessionaire’s Statutory Auditors within 120 (one hundred twenty) days of the close of each Financial Year to which they pertain, during the subsistence of this Agreement. Such audited accounts shall form the basis of various payments by either Party under this Agreement. The Concessionaire shall also furnish, within one week of its publication, certified copies of the audited accounts and annual report published by the Company under the Applicable Laws.

302 The Concessionaire shall appoint and have during the subsistence of this Agreement as its Statutory Auditors (the “Statutory Auditors”) a firm of Chartered Accountants duly licensed to practice in India out of the mutually agreed list of [10 (ten)] independent and reputable firms of Chartered Accountants in India (the “List of Chartered Accountants”). The criteria for preparing the List of Chartered Accountants are set forth in Schedule 19. Subject to a 30 (thirty) days’ notice to Authority and the State Government and the replacement Statutory Auditors being appointed from the List of Chartered Accountants, the Concessionaire may terminate the appointment of any Statutory Auditor appointed in accordance with this Article. The fees and expenses of the Statutory Auditors shall be borne by the Concessionaire.

303 On or before the 15th (fifteenth) day of April each year, the Concessionaire shall provide for the preceding Financial Year a statement duly audited by its Statutory Auditors giving summarized information, the revenues derived from the Project and such other information as the Authority and the State Government may reasonably require.

304 Notwithstanding anything to the contrary contained in this Agreement, the Authority and the State Government shall have the right but not the obligation to appoint at its cost another firm of Chartered Accountants from the List of Chartered Accountants (the “Additional Auditor”) to audit and verify all those matters, expense, costs, realisations and things which the Statutory Auditors of the Concessionaire, are required to do, undertake or certify pursuant to this Agreement.

305 In the event of there being any difference between the finding of the Additional Auditor, and the certification provided by the Statutory Auditors of the Concessionaire, such Auditors shall meet to resolve such differences and if they are unable to resolve the same such disputed certification shall be resolved by recourse to the Dispute resolution procedure.
ARTICLE 31
MISCELLANEOUS

31.1 Assignment and Charges

31.1.1. The Concessionaire shall not assign in favor of any person this Agreement or the rights, benefits and obligations hereunder save and except with prior consent of the Authority and the State Government.

31.1.2. Restraint set forth in Article 31.1.1 shall not apply to:

(a) liens/encumbrances arising by operation of law (or by an agreement evidencing the same) in the ordinary course of business of the Concessionaire;

(b) mortgage/pledge/hypothecation of movable assets/goods purchased by Concessionaire, revenue and receivables received by Concessionaire (excluding Insurance proceeds) in favor of the Lenders for the Project.

Provided, no charge/mortgage/lien/hypothecation or encumbrance of any kind whatsoever can be created or construed as allowed to be created over the Project Assets including the Sites, assets and equipment provided by the Authority for the Project.

Provided further that irrespective of security hereinabove permitted, Concessionaire is irrevocably obligated to procure release of such security and hand over to the Authority, upon Termination of this Agreement, their respective Project Assets free of all Encumbrances whatsoever.

31.1.3. The Concessionaire shall not create nor permit to subsist any further Encumbrance over the Sites.

31.2 Interest and Right of Set-Off

Any sum which becomes payable under any of the provisions of this Agreement by one Party to the other Party shall, if the same is not paid within the time allowed for payment thereof, shall be deemed to be a debt owed by the Party responsible for payment thereof to the Party entitled to receive the same. Such sum shall until payment thereof carry interest at prevailing PLR of State Bank of India per annum from the due date for payment thereof until the same is paid to or otherwise realized by the Party entitled to the same. Without prejudice to any other right or remedy that may be available under this Agreement or otherwise under law, the Party entitled to receive such amount shall also have the right of set-off.

Provided the stipulation regarding interest for delayed payments contained in this Article 31.2 shall neither be deemed nor construed to authorize any delay in payment of any amount due by a Party nor be deemed or construed to be a waiver of the underlying breach of payment obligations.

31.3 Governing Law and Jurisdiction

This Agreement shall be governed by the laws of India. The Courts in the State of [Name of the State] shall have jurisdiction over all matters arising out of or relating to this Agreement.
31.4 Waiver

Waiver by either Party of any default by the other Party in the observance and performance of any provision of or obligations under this Agreement:

(a) shall not operate or be construed as a waiver of any other or subsequent default hereof or of other provisions or obligations under this Agreement;

(b) shall not be effective unless it is in writing and executed by a duly authorized representative of such Party; and

(c) shall not affect the validity or enforceability of this Agreement in any manner.

Neither the failure by either Party to insist on any occasion upon the performance of the terms, conditions and provisions of this Agreement or any obligation hereunder nor time or other indulgence granted by a Party to the other Party shall be treated or deemed as waiver/breach of any terms, conditions or provisions of this Agreement.

31.5 Survival

(a) Termination of this Agreement shall not relieve the Concessionaire or the Authority/State Government of any obligations already incurred hereunder which expressly or by implication survives Termination hereof, and except as otherwise provided in any provision of this Agreement expressly limiting the liability of any Party, shall not relieve any Party of any obligations or liabilities for loss or damage to the other Party arising out of or caused by acts or omissions of such Party prior to the effectiveness of such Termination or arising out of such Termination.

(b) Termination shall:

(i) not relieve the Concessionaire or the Authority/State Government, as the case may be, of any obligations hereunder which expressly or by implication survive Termination hereof; and

(ii) except as otherwise provided in any provision of this Agreement expressly limiting the liability of either Party, not relieve either Party of any obligations or liabilities for loss or damage to the other Party arising out of, or caused by, acts or omissions of such Party prior to the effectiveness of such Termination or arising out of such Termination.

All obligations surviving Termination shall only survive for a period of [3 (three) years] following the date of such Termination.

31.6 Amendments

This Agreement and the Schedules together constitute a complete and exclusive understanding of the terms of the Agreement between the Parties on the subject hereof and no amendment or modification hereto shall be valid and effective unless agreed to by all the Parties hereto and evidenced in writing.
31.7 Notices

Unless otherwise stated, notices to be given under this Agreement including but not limited to a notice of waiver of any term, breach of any term of this Agreement and termination of this Agreement, shall be in writing and shall be given by hand delivery, recognized international courier, mail, telex or facsimile transmission and delivered or transmitted to the Parties at their respective addresses as specified below or such address, email address, telex number, or facsimile number as may be duly notified by the respective Parties from time to time, and shall be deemed to have been made or delivered:

(a) in the case of any communication made by letter, when delivered by hand, by recognized international courier or by mail (registered, return receipt requested) at that address, and

(b) in the case of any communication made by telex or facsimile, when transmitted properly addressed to such telex number or facsimile number.

31.8 Severability

If for any reason whatsoever any provision of this Agreement is or becomes invalid, illegal or unenforceable or is declared by any court of competent jurisdiction or any other instrumentality to be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions shall not be affected in any manner, and the Parties shall negotiate in good faith with a view to agreeing upon one or more provisions which may be substituted for such invalid, unenforceable or illegal provisions, as nearly as is practicable. Provided failure to agree upon any such provisions shall not be subject to Dispute Resolution under this Agreement or otherwise.

31.9 No Partnership

Nothing contained in this Agreement shall be construed or interpreted to create an association, joint venture or partnership between the Parties. Neither Party shall have any authority to bind the other in any manner whatsoever.

31.10 Language

All notices required to be given under this Agreement and all communications, documentation and proceedings which are in any way relevant to this Agreement shall be in writing and in English language and true translation into English language if other than English is used at the costs and expenses of the Party sending such communication, notice, documentation and proceedings.

31.11 Counterparts

This Agreement may be executed in [6 (six)] counterparts, each of which when executed and delivered shall constitute an original of this Agreement but shall together constitute one and only the Agreement.
31.12 Liability for Review

Except to the extent expressly provided in this Agreement:

(a) no review, comment, certification, verification or approval by the Authority or State Government, of any Project Agreement, design, detailed engineering, or document, accounts, invoice, etc., submitted by the Concessionaire nor any observation, testing, certification, validation or inspection of the construction, operation or maintenance of the Project nor the failure to review, approve, comment, observe, test or inspect hereunder shall relieve or absolve the Concessionaire from its obligations, duties and liabilities under this Agreement, the Applicable Laws and Applicable Approvals; and

(b) the State Government, the Authority, their advisors or shall not be liable to the Concessionaire by reason of any review, comment, approval observation, testing, certification, verification, validation or inspection referred in Sub-Clause (a) above.

31.13 Unforeseen Event

Any event or condition that has not been explicitly covered under the provisions of this Agreement shall be resolved after discussion and mutual agreement between the Parties.

31.14 Liability and Indemnification

(a) The Concessionaire shall indemnify, defend and hold harmless (the “Indemnifying Party”) the Authority and the State Government (the “Indemnified Parties”) during the Concession Period from and against all liabilities, damages, losses, expenses, claims, suits, proceedings, judgments, settlements, actions, costs of any nature whatsoever, whether directly or indirectly arising, for personal injury, for damage to or loss of any property and any Third Party liability, including reasonable attorneys’ fees, actually incurred or suffered by the Indemnified Parties, arising out of or in any way connected with (i) any breach, negligence, default, omission, violation, infringement etc., as the case may be, by the Indemnifying Party or Persons claiming through or under it or due to such Party’s representations and warranties herein; covenants, agreements or obligations contained herein or the terms and conditions hereof; any intellectual property right of any Person; (ii) failure of the Indemnifying Party or Persons claiming through or under it to comply with Applicable Laws or the Applicable Permits or to pay taxes or make contractual or other payments due and payable to any Person; (iii) the employment, sickness, injury or death of any Person employed directly or indirectly by the Indemnifying Party or Persons claiming through or under it to comply with Applicable Laws or the Applicable Permits or to pay taxes or make contractual or other payments due and payable to any Person; (iv) the employment, sickness, injury or death of any Person employed directly or indirectly by the Indemnifying Party or Persons claiming through or under it; (v) as provided elsewhere herein.

(b) The Concessionaire shall be responsible for executing, performing its obligations hereunder in accordance with the provisions of this Agreement at its risk and consequence and shall be responsible for any liability whatsoever arising under, in connection with or in relation to the discharge of obligations hereunder by the Concessionaire or Persons claiming through or under it and shall indemnify, keep indemnified and hold the Authority and the State Government and its advisors harmless in this behalf.
(c) The Authority and the State Government shall not be liable to the Concessionaire for any indirect, consequential, incidental, punitive or exemplary damages, loss of profit, consequential financial or economic loss or any disruption in the flow of Solid Waste into the Project for any reason whatsoever.

(d) The Concessionaire shall keep the Authority and the State Government indemnified during the Concession Period against any claims, damages, liabilities, costs, penalties etc. (i) from or by any Government Authority, including the CPCB or the SPCB, and Third Parties for damages to the environment or any acts, omissions, defaults or negligence of the Concessionaire that damages the environment; and (ii) resulting from accidents at work, occupational diseases and contingencies that may arise at or around the Sites or in the employment of labor and personnel at the Project. The Concessionaire shall remain liable for its acts or omissions in implementing the Project in accordance with the Technical Specifications and the Applicable Laws even after the Termination of this Agreement by efflux of time or otherwise.

(e) Except as expressly provided in this Agreement, the Concessionaire shall carry out and perform its rights and obligations under this Agreement and the Project Agreements at its own cost and risk. It shall be fully responsible for and shall bear the financial risks in relation to the Project and all its rights and obligations under or pursuant to this Agreement and the Project Agreements till the Termination Date.

(f) The provisions of this Article 31.15 shall survive the Termination of this Agreement.

31.15 Liability for review of Documents and Drawings

Except to the extent expressly provided in this Agreement:

(a) no review, comment or approval by the Authority or the State Government or the Independent Expert of any Project Agreement, Document or Drawing submitted by the Concessionaire nor any observation or inspection of the construction, operation or maintenance of the Project nor the failure to review, approve, comment, observe or inspect hereunder shall relieve or absolve the Concessionaire from its obligations, duties and liabilities under this Agreement, the Applicable Laws and Applicable Permits; and

(b) the Authority and the State Government shall not be liable to the Concessionaire by reason of any review, comment, approval, observation or inspection referred to in Sub-Article (a) above.

31.16 Reservation of Rights

No forbearance, indulgence, relaxation or inaction by the Concessionaire at any time to require performance of any of the provisions of this Agreement shall in any way affect, diminish or prejudice the right of the Authority or the State Government to require performance of that provision, and no delay in exercising or omitting to exercise any right, power or remedy accruing to the Authority or the State Government upon any default or
otherwise under this Agreement shall impair any such right, power or remedy or shall be construed to be a waiver thereof or any acquiescence in such default, nor shall the action or inaction of the Authority or the State Government in respect of any default or any acquiescence by it in any default, affect or impair any right, power or remedy of the Authority or the State Government in respect of any other default.

31.17 Third Parties

This Agreement and all rights hereunder are intended for the sole benefit of the Parties and, to the extent expressly provided, for the benefit of the Authority Related Parties, the State Government Related Parties, the Concessionaire Related Parties and the Lenders, and shall not imply or create any rights on the part of, or obligations to, any other Person.

31.18 Entire Agreement

This Agreement and the Schedules together constitute a complete and exclusive statement of the terms of the agreement between the Parties on the subject hereof, and no amendment or modification hereto shall be valid and effective unless such modification or amendment is agreed to in writing by the Parties and duly executed by persons especially empowered in this behalf by the respective Parties. All prior written or oral understandings, offers or other communications of every kind pertaining to this Agreement are abrogated and withdrawn. For the avoidance of doubt, the Parties hereto agree that any obligations of the Concessionaire arising from the RFP, shall be deemed to form part of this Agreement and treated as such.
ARTICLE 32
DEFINITIONS

In this Agreement, the following words and expressions shall, unless repugnant to the context or meaning thereof, have the meaning hereinafter respectively assigned to them:

1. “Access Road” means a motorable approach road required to be built (if any) for providing access to the Site(s) to the Concessionaire;

2. “Additional Cost” means the additional capital expenditure and/or the additional operating costs or both as the case may be, which the Concessionaire is required to incur, post the Compliance Date, on account of Change in Law;

3. “Additional Performance Security” means the performance security that must be submitted by the Selected Bidder to the Authority, together with the Performance Security and ESHS Performance Security to secure the obligations of the Concessionaire/Bidder in accordance with the requirements of this Agreement;

4. “Adjoining Property” means any land and/or property adjoining or adjacent or any part of the Site, including all conduits, roads, footpaths, walls, fences, buildings and other erections, structures and other apparatus on, under or within such land and/or property.

5. “Adjusted DG Set Units” has the meaning ascribed to it in Article 17.1.6(g)(B)(II).

6. “Adjusted Equity” means the Equity funded in Indian Rupees and adjusted on the first day of the current month (the “Reference Date”), in the manner set forth below, to reflect the change in its value on account of depreciation and variations in Wholesale Price Index (WPI) applicable to ‘All Commodities’ announced by Government of India, and for any Reference Date occurring:

   (a) on or before Commercial Operation Date (COD), the Adjusted Equity shall be a sum equal to the Equity funded in Indian Rupees and expended on the Project, revised to the extent of one half of the variation in WPI occurring between the first day of the month of Compliance Date and the Reference Date;

   (b) from Commercial Operation Date (COD) and until the 5th (fifth) anniversary thereof, an amount equal to the Adjusted Equity as on COD shall be deemed to be the base (the “Base Adjusted Equity”) and the Adjusted Equity hereunder shall be a sum equal to the Base Adjusted Equity, revised at the commencement of each month following COD to the extent of variation in WPI occurring between COD and the Reference Date;

   (c) after the 5th (fifth) anniversary of COD, the Adjusted Equity hereunder shall be a sum equal to the Base Adjusted Equity, reduced by 0.33% (zero point three three percent) thereof at the commencement of each month following the 5th (fifth) anniversary of COD and the amount so arrived at shall be revised to the extent of variation in WPI occurring between COD and the Reference Date;

   (d) For the avoidance of doubt, the Adjusted Equity shall, in the event of Concession Period, be computed as on the Reference Date immediately preceding the Concession
Period Date; provided that no reduction in the Base Adjusted Equity shall be made for a period equal to the duration, if any, for which the Concession Period is extended, but the revision on account of WPI shall continue to be made;

7. “Affected Party” means the Party claiming to be affected by a Force Majeure Event in accordance with Article 20;

8. “Agreement” or “Concession Agreement” means this agreement executed between the State Government, the Authority and the Concessionaire including its Schedules and annexures and includes any amendments made thereto in accordance with the provisions hereof;

9. “Applicable Law” means all laws, acts, ordinances, rules, regulations notifications and guidelines in force and effect, including *inter-alia* the Environment Protection Act, 1986, Solid Waste Management Rules, 2016, the Construction and Demolition Waste Management Rules, 2016, the Plastic Waste Management Rules, 2016, the E-Waste Management Rules, 2016, the Hazardous Waste Management Rules, 2016, Guidelines for Disposal of Legacy Waste, 2019 by CPCB and CPHEEO Manual on Municipal Solid Waste Management, 2016, National Building Code, ISO standards and BIS standards, and shall also include judgments, decrees, injunctions, writs or orders of any court of record as may be in force and effect as of the date hereof and shall include any amendment or re-enactment thereof from time to time, having jurisdiction over any Party, this Agreement, the Project, the Project Agreements and each document, instrument and agreement delivered hereunder or in connection herewith;

10. “Applicable Permits” means all the authorizations, licenses, clearances, permits, no-objections, sanctions and consents as required under Applicable Laws, at its respective cost, to be procured by the Concessionaire in connection with the implementation of the Project;

11. “Article” means an article of this Agreement.

12. “Associate” means, in relation to the Concessionaire, [the Selected Bidder or a member of the Selected Bidder], a person who controls, or is controlled by, or is under the common control of the same person who controls the concessionaire, the selected bidder or member of the selected bidder, as the case may be.

13. “Authority Event of Default” shall have the meaning assigned thereto in Article 23;

14. “Authority’s Representative” means any officer nominated by the Authority, from time to time, to act on its behalf and liaise with the Concessionaire and the State Government for the purposes of this Agreement and notified as such in writing to the Concessionaire and the State Government.

15. “Availability” means the availability of the Project Facilities to collect, transport process and dispose Solid Waste and bio-remediate legacy waste, as determined in accordance with Articles 18.1.1(a), 18.1.2(a) and 18.1.3(a).

16. “Availability Liquidated Damages” means the liquidated damages payable by the Concessionaire to the Authority for failure to achieve the Guaranteed Availability, in
accordance with Article 18.2.1.

18. “C&T” or “Collection and Transportation” refers to primary and secondary collection and transportation of Solid Waste from the Project Area to the Processing Facility/ Sanitary Landfill;

19. “Change in Law” shall have the meaning assigned thereto in Article 22;

20. “Clause” means a clause of this Concession Agreement.

21. “Compliance Date” means the later of the date by which the Condition Precedent of the Parties under Article 4 are achieved or waived;

22. “Compliance Period” shall have the meaning assigned thereto in Article 4.2.1;

23. “Concession” shall have the meaning as assigned thereto in Article 3.1.1;

24. “Concessionaire Event of Default” shall have the meaning assigned thereto in Article 23;

25. “Conditions Precedent” means conditions to be satisfied before commencement of the Project as specified in Article 4;

26. “Commercial Operations Date” or “COD” means the date when the Concessionaire begins commercial operations of the Processing Facility pursuant to issuance of Completion Certificate by the Authority;

27. “Commencement Date” shall have the meaning as assigned to it in Article 5.1;

28. “Completion Certificate(s)” shall refer to the Certificate to be issued by the Authority/Project Engineer as set out in Schedule 15, upon successful commissioning and functioning of the Processing Facility;

29. “Concessionaire’s Representative” means the Person nominated by the Concessionaire, from time to time, to act on its behalf and liaise with the State Government and the Authority for the purposes of this Agreement and notified as such in writing to the State Government and the Authority.

30. “Conditions Precedent” means collectively, the obligations of the Concessionaire that are set out at Article 4, the obligations of the State Government and the Authority that are set out at Article 6 and 'Condition Precedent' means any one of these.

31. “Construction & Demolition (C&D) Debris” or “Debris” means solid waste resulting from construction, re-modelling, repair, renovation or demolition of Structures or from land clearing activities. “Structures” for the purposes of this definition means buildings of all types (both residential and non-residential), utilities, infrastructure facilities and any other type of man-made structure. “Debris” includes, but is not limited to bricks, concrete rubble
and other masonry materials, soil, rock, wood (including painted, treated and coated wood and wood products), land clearing debris, wall coverings, plaster, drywall, plumbing fixtures, roofing, waterproofing material and other roof coverings, asphalt pavement, glass, plastics, paper, gypsum boards, electrical wiring and components containing no hazardous materials, pipes, steel, aluminium and other non-hazardous metals used in construction of structures;

32. “Construction Payment” means the payments to be made to the Concessionaire during the Construction Period, upon satisfactory completion of the Payment Milestones, which shall, in aggregate, be equivalent to 45% of the Bid Project Cost, as adjusted from time to time to reflect the variation in the Construction Price Index.

33. “Construction Price Index” shall comprise: (a) 70% of WPI; and (b) 30% of CPI(IW), which constituents may be substituted by such alternative index or indices as the Parties may mutually agree;

34. “Contractor” or “Sub-Contractor” means any Person with whom the Concessionaire has entered into/may enter into any material contract in relation to the Project;

35. “Cost” means all documented expenditure reasonably incurred by the Concessionaire, whether on or off the Site, including overhead and similar charges, but does not include profit.

36. “CPCB” means the Central Pollution Control Board of the Government of India;

37. “CPI (IW)” means the Consumer Price Index for Industrial Workers published by the Labour Bureau, GoI and shall include any index which substitutes the CPI(IW), and any reference to CPI(IW) shall, unless the context otherwise requires, be construed as a reference to the CPI(IW) published on the last date of the preceding quarter;

38. “Daily Weight Sheet” shall have the meaning assigned thereto in Schedule 16;

39. “Dead Remains” means the dead bodies, carcasses, bones or skeletal remains of animals, rodents and other living beings (other than plants);

40. “Debt Due” means the aggregate of the following sums expressed in Indian Rupees outstanding on the Termination Date:

   (a) the principal amount of the debt provided by Lenders under the Financing Agreements for financing the Bid Project Cost (the “principal”) but excluding any part of the principal that had fallen due for repayment 6 (six) months prior to the Termination Date;

   (b) all accrued interest, financing fees and charges payable under the Financing Agreements on, or in respect of, the debt referred to in Sub-Article (a) above until the Termination Date but excluding (i) any interest, fees or charges that had fallen due 3 (three) months prior to the Termination Date, (ii) any penal interest or charges payable under the Financing Agreements to any Lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to Authority Default or State Government Default; and
(c) any Subordinated Debt which is included in the Financial Package disbursed by lenders for financing the Bid Project Cost; provided that if all or any part of the Debt Due is convertible into equity at the option of Lenders and/or the Concessionaire, it shall for the purposes of this Agreement be deemed to be Debt Due even after such conversion and the principal shall be dealt with as if such conversion had not been undertaken. For the Purposes of this Agreement, the term “Subordinated Debt” shall mean the debt provided by lenders or the Concessionaire’s shareholders for meeting the Bid Project Cost and shall be subordinate to the financial assistance provided by Senior Lenders.

41. “Debt Service” means the sum of all payments on account of principal, interest, financing fees and charges due and payable in a Financial Year to the Lenders under the Financing Agreements;

42. “Design and Drawings” means: (a) the Basic Engineering Designs; (b) the Screening Report and (c) the detailed 'good for construction' designs and drawings, technical information, plans, samples, patterns, models and specifications for the works required for achieving the first Payment Milestone.

43. “Designated Bins” means the collection bins placed by the Concessionaire at locations recommended by the Concessionaire and approved by the Authority for receiving the Primary Collection & Transportation of Solid Waste within the Project Area;

44. “Disposal” means the final and safe disposal of post processed residual solid waste and inert street sweepings and silt from surface drains on land as specified in Schedule I of the SWM Rules 2016 to prevent contamination of groundwater, surface water, ambient air, and attraction of animals and birds;

45. “Dispute” shall have the meaning assigned thereto in Article 26hereof;

46. “Dispute Resolution Procedure” means the procedure for resolution of disputes as set forth in Article 26;

47. “Dumpsite” means a land utilised by Authority for disposal of solid waste without following the principles of sanitary land filling;

48. “EIA” means the Environment Impact Assessment for the Project;

49. “Emergency” means conditions or situation that is likely to endanger the safety of the individuals on or about the Project or which poses an immediate threat of material damage to the Project;

50. “Encumbrances” means any encumbrance such as mortgage, charge, pledge, lien, hypothecation, security interest or other obligations and shall also include physical encumbrances, including encroachments on the Site;

51. “Engineered Sanitary Landfill Site” or “Sanitary Landfill Site” or “Sanitary Landfill” or “SLF” means the Sanitary Landfill Site to be developed, constructed and operated by
the Concessionaire at the allocated site in conformance with the terms of this Agreement for disposal of residual inert matter and rejected waste; and the site where the concessionaire conducts a final and safe disposal of residual inert matter, residual solid waste and inert waste, which is designed with protective measures against pollution of ground water, surface water and fugitive air dust, wind-blown litter, bad odour, fire hazard, animal menace, bird menace, pests or rodents, green-house gas emissions, persistent organic pollutants slope instability and erosion in accordance with the terms of this Agreement;

52. “Equity” means the sum expressed in Indian Rupees representing the paid up equity share capital of the Concessionaire for meeting the equity component of the Total Project Cost, and for the purposes of this Agreement shall include convertible instruments which has converted into equity share capital of the Company;

53. “Event of Default” shall have the meaning assigned thereto in Article 23;

54. “Escrow Account” means the interest-bearing account opened by State Government with the Escrow Bank in accordance with the Escrow Agreement, which shall be operational until the expiry of the Concession Period.

55. “Escrow Bank” means the Scheduled Bank with which State Government opens the Escrow Account, pursuant to the Escrow Agreement;

56. “Escrow Agreement” means the agreement to be executed among the State Government, the Authority, the Concessionaire, and the Escrow Bank in relation to the opening and operations of the Escrow Account, in the form set out at Schedule 17;

57. “Excluded Waste” means waste material of the nature that the Project is not designed or authorised to receive, manage, process and dispose which includes (i) Hazardous Waste, (ii) Bio-Medical Waste (iii) Dead Remains, (iv) E-Waste and (v) construction and demolition waste;

58. “Execution Date” means the date of signing of the Concession Agreement;

59. “Event of Default” means the State Government Event of Default, Authority Event of Default or a Concessionaire Event of Default, as the context may require.

60. “Facility” means any establishment wherein the solid waste management processes namely segregation, recovery, storage, collection, recycling, processing, treatment, or safe disposal are carried out

61. “Financing Agreements” or “Financing Documents” means collectively the agreements entered into for providing the debt financing for the implementation of the Project and shall include the security documents creating the relevant security (such as mortgages or charges or liens) on the Project or any part thereof in line with this Agreement, for securing the debt provided for funding the Bid Project Cost;

62. “Financial Assistance” means all funded and non-funded financial assistance, including loans, advances and guarantees or any re-financing that the Concessionaire may avail of for
the Project from the Lenders;

63. “Financial Close” means, the date on which the Financing Documents become effective, the conditions precedent under the Financing Documents for disbursements are fulfilled and the Concessionaire has access to the Financial Assistance;

64. “Financial Default” means occurrence of breach of the terms and conditions of the Financing Agreements or continuous default in Debt service by the Concessionaire for period of 3 (three) months;

65. “Financial Model” means the financial model adopted by Senior Lenders, setting forth the capital and operating costs of the Project and revenues there from on the basis of which financial viability of the Project has been determined by the Senior Lenders, and includes a description of the assumptions and parameters used for making calculations and projections therein;

66. “Financial Package” means the financing package indicating the total capital cost of the Project and the means of financing thereof, as set forth in the Financial Model and approved by the Senior Lenders, and includes Equity, all Financial Assistance specified in the Financing Agreements, Subordinated Debt, if any;

67. “Financial Year” shall mean a year commencing on 1st April of a calendar year and ending on 31st March of the immediately succeeding calendar year;

68. “Force Majeure” or “Force Majeure Event” means an act, event, condition or occurrence as specified in Article 20;

69. “Fundamental Change in Law” means any Change in Law that:
   (a) renders unenforceable, illegal, invalid or void any material right or material obligation of the Concessionaire under this Agreement; or
   (b) renders a material part of this Agreement invalid, illegal or unenforceable; or
   (c) results in the Concessionaire being deprived of the whole or a substantial part of the benefit of this Agreement.

70. “GoI” means the Government of India;

71. “Good Industry Practice” means the exercise of that degree of skill, diligence, prudence and foresight in compliance with the undertakings and obligations under this Agreement which would reasonably and ordinarily be expected of a skilled and an experienced person engaged in the implementation, operation and maintenance or supervision or monitoring thereof or any of them or facilities similar to the Project Facilities;

72. “Government Agency” means GoI, Government of [Name of the State], PLBs, the Authority or any Governmental Department, Commission, Board, Body, Bureau, Agency, Authority, Instrumentality, Court or Other Judicial or Administrative body, Central, State, or local, having Jurisdiction over the Concessionaire, the Site/Project or any portion thereof, or the performance of all or any of the services or obligations of the Concessionaire under or pursuant to this Agreement;
73. “Grace Period” shall mean as defined in Article 14.11.5;

74. “Guaranteed Energy Consumption” means the maximum number of units of power (in kWh) per ton quoted by the Selected Bidder in the Financial Proposal, which it expects to consume during the O&M Period [(other than any units expected to be generated and consumed from the Power Plant)], to operate and maintain the Project, at varying volumes and compositions of solid waste. The Guaranteed Energy Consumption for any quarter during the O&M Period will be determined on the basis of the number of units of power (in kWh) per ton quoted by the Selected Bidder in the Financial Proposal for the average volume and composition of waste processed and disposed at the Site(s) in such quarter (such average to be calculated in accordance with the KPI Adherence Report).

75. “Hand-back Conditions” mean the condition in which the Site, the Facilities, and the Power Plant, if any, shall be handed back to the Authority or any entity nominated by the Authority on expiry or early termination of this Agreement, which is consistent with the due performance of the Concessionaire's obligations under this Agreement.

76. “Hand-back Requirement” means the obligations of the Concessionaire in relation to transfer of the Facilities upon expiry or early termination of the Project, as set out in Article 23.4.11;

77. “Hazardous Waste” shall have the meaning as defined under the Hazardous Wastes Management Rules, 2016 and as amended thereto;

78. “ICT Infrastructure” shall mean all Information & Communication Technology Infrastructure, equipment and systems (including software, hardware, firmware, networks and websites) including but not limited to sensors, geographical positioning systems, cameras, electronic weigh bridges and associated software, to facilitate the functioning of the project on day to day basis;

79. “Intellectual Property Rights” means patents, copyrights, database rights, design rights, trade-marks, service marks, trade names, domain names, rights in reputation, rights in undisclosed or confidential information (such as know-how, trade secrets and inventions, whether patentable or not), and other rights of a like nature (whether registered or unregistered) and all applications for such rights as may exist anywhere in the world;

80. “Invoice” means an invoice for payment of: (a) the Construction Payments during the Construction Period; or (b) the Capex Annuity (along with interest), the O&M Charges and the Power Charges during the O&M Period, submitted by the Concessionaire to the Authority (with a copy to the State Government) in accordance with Article 17;

81. “KPI Adherence Report” shall have the meaning ascribed to it under Article 18.3.2(c);

82. “KPI” means the key performance indicators set out in Article 18, which the Project must achieve during the Construction Period and the O&M Period.

83. “Legacy Waste” shall have the meaning as provided under the CPCB Guidelines for Disposal of Legacy Waste, 2019;
84. “Lenders” or “Senior Lenders” means any person, financial institutions, banks, funds and trustees for bond holders or debenture holders, who have provided loans for financing the Bid Project Cost as evidenced in Financing Documents;

85. “Letter of Award” or “LOA” means the letter no. [•] dated [•], issued by the Authority to the Selected Bidder for developing the Project in terms of this Agreement;

86. “Liquidated Damages” means the Delay Liquidated Damages, the Availability Liquidated Damages, the Performance Liquidated Damages and the Power Consumption Liquidated Damages.

87. “MNRE” means Ministry of New & Renewable Energy, GoI;

88. “Material Adverse Effect” means a material adverse effect of any act or event on the ability of any Party to perform any of its obligations under and in accordance with the provisions of this Agreement and which act or event causes a material financial burden or loss to any or all Party(ies);

89. “Material Breach” means a breach by any Party of any of its obligations under this Agreement which has or is likely to have a Material Adverse Effect on the Project and which such Party shall have failed to cure;

90. “Material Recovery Facility” means a facility where non-compostable solid waste can be temporarily stored by the Authority or any other entity mentioned in Rule 2 of the SWM Rules 2016 or any person or agency authorised by any of them to facilitate segregation, sorting and recovery of recyclables from various components of waste by authorised informal sector of waste pickers, informal recyclers or any other work force engaged by the Authority or entity mentioned in Rule 2 of the SWM Rules 2016 for the purpose before the waste is delivered or taken up for its processing or disposal;

91. “Minor Casualty” means any fire or other casualty that results in physical damage to the Project Facilities to the extent that the total cost (as estimated by the Project Engineer) of repairing and/or replacing the damaged portion of the Project Facilities as the case may be, to the same condition as previously existed would not exceed the amount of [INR 25, 00,000 (Rupees twenty five lakhs)].

92. “Nominated Company” means the entity that is selected either by the Lenders or by the Authority/State Government for substituting the Concessionaire, upon occurrence of Concessionaire’s Event of Default, in terms of the provisions of the Agreement and the Substitution Agreement;

93. “Operational Plan” means a comprehensive plan with location of Designated Bins, their pickup schedule, vehicle planning & scheduling for Secondary Collection and Transportation of Solid Waste in the Project Area, as prepared by the Concessionaire and approved by the Authority and the State Government;
95. “O&M” means operation and maintenance;

96. “O&M Charges” means the amount required by the Concessionaire per quarter to operate and maintain the Project, excluding the Power Charges, during the O&M Period. The O&M charges for the first quarter after the COD will be determined on the basis of the O&M charges quoted by the Selected Bidder (in the Financial Proposal) for the first month from the COD, which amount shall then be adjusted to reflect the variation in the O&M Price Index.

97. “O&M Expenses” means the expenses incurred in the operation and maintenance of the Project and includes all matters connected with or incidental to such operation and maintenance, provision of services and facilities in accordance with the provisions of this Agreement. For the avoidance of doubt, fees and expenses payable to the Escrow Bank shall form part of the O&M Expenses.

98. “O&M Manual” means the manual, required to be prepared by the Concessionaire and approved by the Authority and the State Government for the operation and maintenance of the Project in accordance with Article 15.

99. “O&M Payments” means, collectively the: (a) Capex Annuity; (b) interest on the reducing balance of [55% (fifty five per cent)] of the completion cost; (c) O&M Charges; and (d) Power Charges (subject to the cap of the Power Charges based on the Project Guaranteed Energy Consumption), to be paid by the Authority and the State Government to the Concessionaire during the O&M Period, in accordance with this Agreement.

100. “O&M Period” means the period commencing from the COD and ending on the Termination Date, during which the Concessionaire is required to operate and maintain the Project.

101. “O&M Price Index” shall comprise: (a) 70% of CPI(IW); and (b) 30% of WPI, which constituents may be substituted by such alternative index or indices as the Parties may mutually agree;

102. “O&M Security” has the meaning ascribed to it in Article 9;

103. “Organic Waste” means such type of Solid Waste that can be degraded by micro-organisms, but shall not include excluded wastes;

104. {“Participating Local Bodies” or “PLBs” means the under mentioned local bodies:
(a) Municipal Corporation of *** (“PLB1”)
(b) Municipal Council of *** (“PLB2”)
(c) *** Gram Panchayat (“PLB 3”)}

105. “Payment Milestone” means the milestones listed in Article 14 for release of the Construction Payments to the Concessionaire, and ‘Payment Milestone’ shall mean any one of them, as the context may require;

106. “P&D” or “Processing & Disposal” refers to Processing & Disposal of Solid Waste collected from the Project Area, as is more clearly defined in SWM Rules, 2016;
107. “Performance Security” means the guarantee for performance of its obligations as per terms of this Agreement, to be furnished by the Successful Bidder (or the Concessionaire), in accordance with Article 9 in the format given at Schedule 6;

108. “Person” means (unless otherwise specified or required by the context), any individual, company, corporation, partnership, joint venture, trust, society, unincorporated organization, government or government body or any other legal entity;

109. “Post-COD Period” means the period starting on and from the COD and ending on the Termination Date;

110. “Power Charges” means the cost of the power consumed by the Concessionaire to operate and maintain the Project during the O&M Period, which will be calculated on the basis of the prevailing Power Unit Rate, the Fuel Price, to the extent applicable and such other applicable charges as per the guidelines of the relevant Government Authorities.

111. “Power Outage” means any interruption in the supply of electricity from the grid or any Diesel-Generators (DG) Sets maintained by the Concessionaire at the Sites, which disrupts the continuous operation of the Project.

112. “Power Unit Rate” means the cost per unit of power drawn from the grid (through the relevant distribution licensee for the Sites), which will be the prevailing tariff per unit of power charged by the relevant distribution licensee in the relevant month during the O&M Period.

113. "Pre-COD Period" means the period commencing from the Execution Date and extending up to the COD;

114. “Preliminary Notice” means the notice of intended Concession Period by the Party entitled to terminate this Agreement to the other Party setting out, inter alia, the underlying Event of Default;

115. “Price Index “means, for the Construction Payments, the Construction Price Index, and for the O&M Payments, the O&M Price Index.

116. “Price Index Multiple” means, the variation multiple in the Price Index occurring between the Reference Index Date preceding the Proposal Due Date and the Reference Index Date preceding the date of the Invoice, which is calculated by dividing the Price Index on the Reference Index Date preceding the date of the Invoice by the Price Index on the Reference Index Date preceding the Proposal Due Date.

For the avoidance of doubt and by way of illustration, if (a) the Price Index on the Reference Index Date preceding the Proposal Due Date, say 30 May, 2018, is 200; (b) the Invoice is submitted on 15 April, 2020; and (c) the Price Index as on 31 March, 2020 is 210, then the Price Index Multiple for determination of the amount due in respect of such Invoice shall be 1.05.

117. “Primary Collection and Transportation “means the door to door collection, collection
from public spaces, street cleaning and delivering to the to the Designated Bins at the designated collection points;

118. “Processing” means any scientific process by which segregated solid waste is handled for the purpose of reuse, recycling or transformation into new products

119. “Processing Facility” means the facility created by the Concessionaire for processing of the Solid Waste, prior to its final disposal at engineered Sanitary Landfill Site, and also includes a [refuse-derived fuel (RDF), bio-methanation, incineration] or any other approved technology for waste processing or any combination thereof;

120. “Project” shall mean the collection, transportation, processing and disposal of Solid Waste from Waste Generators in the Project Area and reclamation of land through Bio-Remediation of Legacy Waste at Municipal Dumpsite and discharging the Scope of Services more specifically set out in Schedule 1;

121. “Project Agreements” means any material contracts or agreements entered into by the Concessionaire after the date of this Agreement relating to the construction, operation and maintenance of the Project;

122. “Project Area” means the area presently under boundaries of the Authority or any extension thereof during the Concession Period;

123. “Project Assets” means all physical and other assets relating to and forming part of the Project including (a) rights over the Sites and Secondary Collection Points in the form of or license rights, Right of Way or otherwise; (b) tangible assets such as civil works and equipment including but not limited to foundations, buildings, complaint redressal centre, Processing Facility, electrical systems, communication systems, transport vehicles, Designated Bins, ICT Infrastructure and administrative office; (c) Project Facilities situated on the Sites and Secondary Collection Points; (d) all rights of the Concessionaire under the Project Agreements; (e) financial assets, such as receivables, security deposits etc.; (f) insurance proceeds; and (g) Applicable Permits and authorizations relating to or in respect of the Project;

124. "Project Facilities" means all the amenities and facilities required as basic and support infrastructure for implementation of the Project including construction/renovation, operation and maintenance of facilities for Bio-Remediation of Legacy Waste and the integrated solid waste management system such as infrastructure, collection and transportation vehicles, ICT infrastructure, machinery and equipment procured, inherited, installed and operated and all other Project related physical assets;

125. “Project Engineer” means the unit set up by the State Government and the Authority as specified in Article 13 to monitor and supervise the activities of the Concessionaire;

126. “Proposed Technology” means the proven technology(ies) proposed to be used by the Concessionaire to develop the Project and Project Facilities, as specified by the Concessionaire in its Designs and Drawings.
127. “Proprietary Material” shall be as defined in Article 29.1;

128. “Qualifying Change in Law” means any Change in Law, which:
   (a) is directly applicable to the Project;
   (b) impacts the Cost or time for undertaking the Project; and
   (c) which was not reasonably foreseeable by the Concessionaire as on the Bid Due Date.

129. “Reference Index Date” means, in respect of the specified month, that last day of the preceding month with reference to which the Price Index or CPI (IW), as the case may be, is revised.

130. “Related Parties”:
   “Concessionaire Related Parties” means any of the following:
   (a) the Selected Bidder or Associates of the Selected Bidder;
   (b) an officer, servant, employee or agent of the Concessionaire acting in that capacity;
   (c) any Subcontractor engaged by the Concessionaire and their directors, officers, servants, employees or agents acting in that capacity; or
   (d) any Person acting on behalf of the Concessionaire.

   “Authority Related Parties” means any of the following:
   (a) an officer, servant, employee or agent of the Authority, acting in that capacity;
   (b) any contractor or subcontractor of the Authority and their directors, officers, servants, employees or agents, acting in that capacity; or
   (c) any Person acting on behalf of the Authority.
   For the avoidance of doubt, 'Authority Related Parties' does not include the Concessionaire or the State Government.

   “State Government Related Parties” means any of the following:
   (a) an officer, servant, employee or agent of the State Government, acting in that capacity;
   (b) any contractor or subcontractor of the State Government and their directors, officers, servants, employees or agents, acting in that capacity; or
   (c) any Person acting on behalf of the State Government.
   For the avoidance of doubt, 'the State Government Related Parties' does not include the Concessionaire or the Authority.

131. “Residual Inert Matter” means the inert matter left for final disposal in engineered Sanitary Landfill Site after processing of the Solid Waste by one or more of the relevant Project;

132. “Residual Solid Waste” means and includes the waste and rejects from the Solid Waste which are not suitable for recycling or further processing;

133. “Right of Way” means the constructive possession of the Sites, together with all way leaves, easements, unrestricted access and other rights of way, howsoever described, necessary for construction, operation and maintenance of the Project, in accordance with this Agreement;

134. “Schedules” means any of the annexure, appendices, supplements or documents annexed to this Agreement and as amended from time to time;
135. “Sanitary Land Fill” or “SLF” means the site/s where the Concessionaire conducts a final and safe disposal of residual inert matter, residual solid waste and inert waste, which is designed with protective measures against pollution of ground water, surface water and fugitive air dust, wind-blown litter, bad odour, fire hazard, animal menace, bird menace, pests or rodents, greenhouse gas emissions, persistent organic pollutants slope instability and erosion in accordance with the terms of this Agreement;

136. “Scheduled Construction Completion Date” means the date which is 24 (twenty four) months from the Execution Date, by which the Concessionaire is required to complete bio-remediation of legacy waste on the designated dumpsites and the construction of the Project Facilities.

137. “Scheduled Maintenance” means a planned maintenance of the Project that:
(a) has been scheduled and allowed by the Authority in accordance with the Scheduled Maintenance Programme; and
(b) is for inspection, testing, preventive and corrective maintenance, repairs, replacement or improvement of such Facilities, as the case may be;

138. Scheduled Maintenance Programme means, for each year of the O&M Period, the schedule for undertaking preventive and corrective maintenance of the Project, as prepared by the Concessionaire and approved by the Authority in accordance with Article 15;

139. Scheduled Payment Milestone Completion Date means the scheduled date of completion of the construction work corresponding to the relevant Payment Milestone.

140. “Screening Report” means the environmental and social design safeguards screening report prepared by the Concessionaire and submitted to the Authority for its review as part of the Designs and Drawings;

141. “SEB” means [Name of the State] State Electricity Board;

142. “Secondary Collection and Transportation” means the transportation of Solid Waste from the secondary collection points and Designated Bins in the Project Area to the Processing Project Facility/ Sanitary Landfill, by the Concessionaire;

143. “Secondary Collection Points” means Designated Bins and other collection points, areas of any land, constructed space allocated by the Authority, if any, in consultation with the Concessionaire to temporarily store the Solid Waste collected;

144. “Selected Bidder” or “Successful Bidder” means the Entity selected by the Authority through a competitive bidding process for implementing and managing the Project;

145. “SERC” means [Name of the State] State Electricity Regulatory Commission;

146. “Site” means the identified land parcel, in respect of which the Concessionaire shall be granted License in accordance with terms hereof, for undertaking development/construction
of Processing Facilities, Sanitary Landfill sites;

147. “Solid Waste” means and includes solid or semi-solid domestic waste, sanitary waste, commercial waste, institutional waste, catering and market waste and other non-residential wastes, street sweepings, silt removed or collected from the surface drains, horticulture waste, agriculture and dairy waste, treated bio-medical waste excluding industrial waste, bio-medical waste and e-waste, battery waste, radioactive waste generated in the area under the local authorities and other entities mentioned under Rule 2 of the SWM Rules 2016;

148. “SPCB” means State Pollution Control Board particularly [Name of the State] State Pollution Control Board;

149. “State Government Representative” means any officer nominated by the State Government, from time to time, to act on its behalf and liaise with the Concessionaire and the Authority for the purposes of this Agreement and notified as such in writing to the Concessionaire and the Authority;

150. “Subordinated Debt” the aggregate of the following sums expressed in Indian Rupees or in the currency of debt, as the case may be, outstanding as on the Transfer Date:

(a) the principal amount of debt provided by lenders or the Concessionaire’s shareholders for meeting the Bid Project Cost and subordinated to the financial assistance provided by the Senior Lenders; and

(b) all accrued interest on the debt referred to in sub-clause (a) above but restricted to the lesser of actual interest rate and a rate equal to [5% (five per cent)] above the bank rate in case of loans denominated in Indian Rupees and lesser of the actual interest rate and [6 (six) month] LIBOR (London Inter-Bank Offer Rate) plus [2% (two per cent)] in case of loans denominated in foreign currency, but does not include any interest that had fallen due 1 (one) year prior to the Transfer Date;

provided that if all or any part of the Subordinated Debt is convertible into Equity at the option of the lenders and/or the Concessionaire’s shareholders, it shall for the purposes of this Agreement be deemed to be Subordinated Debt even after such conversion and the principal thereof shall be dealt with as if such conversion had not been undertaken;

151. “Substitution Agreement” is an agreement that may be executed between the Concessionaire, the State Government, the Authority and the Lenders in the form set out in Schedule 9, pursuant to which, in case of Default by the Concessionaire including any Financial Default, Lenders (through its nominee) shall be allowed to take charge of the Concessionaire’s roles and responsibilities under this Agreement;

152. “Supplementary Fuel” means any fuel that can be used as a supplement to the Solid Waste to enrich RDF / fuel during commissioning / start of activities. Use of supplementary fuel would be permissible as per MNRE guidelines;

153. “SWM Rules” means the Solid Waste Management Rules, 2016 framed by the Government of India under the Environment (Protection) Act, 1986 (Act 29 of 1986) and
154. “Taxes” means all taxes, levies, imposts, cesses, duties and other forms of taxation, including (but without limitation) income tax, sales tax, goods and service tax, value added tax, service tax, octroi, entry tax, corporation profits tax, advance corporation tax, capital gains tax, residential and property tax, customs and other import and export duties, excise duties, stamp duty or capital duty, and any interest, surcharge, penalty or fine in connection therewith which may be payable by the Concessionaire or the sub-contractors and the term Tax shall be construed accordingly;

155. “Technology Performance Security” has the meaning ascribed to it in Article 9.11;

156. “Termination” shall mean the expiry or termination of this Agreement and the Concession hereunder;

157. “Termination Compensation” means the compensation payable by the State Government and the Authority upon termination of this Agreement, in accordance with Article 24;

158. “Termination Date” means the date specified in the Termination Notice as the date on which the Concession Agreement expires or terminates earlier;

159. “Termination Notice” means the notice of Termination by any of the Parties to the other Party, in accordance with the applicable provisions of this Agreement;

160. “Termination Payments” means the payments payable pursuant to Articles 20 and 23 of this Agreement;

161. “Third Party” means any Person other than the Parties to this Agreement;

162. “Tests” means the tests to be carried out by the Concessionaire at its cost, in the presence of Project Engineer as may be required for getting Statutory clearances / Approval or asked by Project Engineer in respect of the Processing Project Facility and SLF to ensure that the same confirms to the requirements as per Good Industry Practice and Applicable Law or Applicable Permits;

163. “Total Casualty” means any fire or other casualty that results in physical damage to the Project Facilities, to the extent that the total cost of repairing, replacing or restoring the damaged portion of the Project Facilities (as determined by the Project Engineer), to the same condition as existed previously, would be more than 25% (twenty five per cent) of the total replacement cost of the Facilities.

164. “Transfer Date” shall be as defined in Article 23.4.9;

165. “Transportation” means conveyance of solid waste, either treated, partly treated or untreated from a location to another location in an environmentally sound manner through specially designed and covered transport system so as to prevent the foul odour, littering and unsightly conditions;
166. **“Trial Operations”** means the operation of the Project Facilities on a trial basis for a period of 3 (three) months from the Construction Completion Date or such longer period as may be determined;

167. **“Trial Operations Completion Certificate”** means the certificate issued by the Authority to the Concessionaire upon successful completion of the Trial Operations;

168. **“Unscheduled Outage”** means an interruption of or a reduction in the Availability of any Facilities that is not the result of a Forced Unavailability.

169. **“Vacant Possession”** means delivery of possession of the Site free from all Encumbrances to the Authority and the grant of all rights and all other rights appurtenant thereto within the scope of this Agreement;

170. **“Variation”** means any alteration in the Scope of Work, technical specifications or the Designs and Drawings, as instructed by the Authority or the State Government or proposed by the Concessionaire, in accordance with Article 28;

171. **“Variation Order”** means an order issued by the Authority or the State Government certifying its approval of a proposed Variation and recording the terms and condition on which the proposed Variation is required to be implemented;

172. **“Waste Generators”** means all residential, commercial, institutional and industrial establishments generating Solid Waste and located within the Project Area;

173. **“Waste to Energy”** means all activities, processes and technologies of converting Solid Waste into Electricity for commercial use;

174. **“Wilful Misconduct”** means an intentional or reckless breach or disregard by a Party of any of its obligations under this Agreement.

175. **“WPI”** means the Wholesale Price Index for all commodities as published by the Ministry of Commerce and Industry, GOI and shall include any index which substitutes the WPI, and any reference to WPI shall, unless the context otherwise requires, be construed as a reference to the WPI published for the period ending with the preceding month.
In witness whereof the Parties\textsuperscript{26} hereto have signed this Agreement on this \underline{\underline{\text{__________}}} day of \underline{\underline{______}} 20\textsuperscript{**}.

SCHEDULES
SCOPE OF SERVICES

(See Article 2)

1. Bio-Remediation of Legacy Waste and reclamation of land

1.1 Role of Concessionaire

(a) The Concessionaire will be given earmarked land area for reclamation through Bio-Remediation of Legacy Waste and there will be a separate area for dumping of fresh waste.

(b) The Concessionaire should conduct a drone survey at its own cost. Initial and final contour level survey for determination of volume of waste has also to be done by the Concessionaire at its own cost.\(^{27}\)

(c) Excavate the existing mixed dumped garbage and sieve the waste through mechanical sieving machines/any other equipment at the cost of the Concessionaire.

(d) The Concessionaire shall deploy sufficient machinery, manpower and required resources to execute the Project scope within the Project duration.

(e) Construction of temporary shed, platform and creation of facilities for handling, separating, segregating, storing and quantifying of the excavated MSW and Processing material

(f) Construction/Provision of temporary site office, water, power, sanitation facilities to workers as per statutory standards.

(g) The Concessionaire shall take necessary steps and processes to minimize environmental pollution while carrying out Bio-Remediation/reclamation of Legacy Waste at the Dumpsite(s). The Concessionaire shall take all reasonable steps to ensure to undertake required efforts to mitigate the impact of odor and dust. Also, ensure treatment of leachate from legacy waste prior to its disposal. The Concessionaire shall mitigate menace caused by flies, rodents and bird and fire hazards in and around the Dumpsite(s) during the period of reclamation.

(h) The Bioremediation activity should be carried out in accordance with Guidelines for Disposal of Legacy Waste (Old Municipal Solid Waste), 2019 and other Applicable Laws.

(i) Excavate and segregate MSW into as many kinds and categories as possible. Maximize the separation of recyclables viz. glass, metal etc. from the Dumpsite(s). Maximize the separation of waste into useful components such as compost, soil conditioner, recyclables, raw RDF, filler material (Soil, C&D) and un-useful material from the Dumpsite(s).

(j) Baling, packing, stacking, storing and sale of non-recyclable fraction of high calorific as raw material to RDF producer/user or sale to waste to energy or co-Processing in cement plants or to thermal power plants.

(k) Set up an eco-friendly Processing system in order to reduce the impact of the dumping site on the adjacent areas.

(l) Set a soil baseline (in accordance with IS: 2720) and ground water baseline (in accordance with IS: 10500) so that the same will be available to evaluate post Bio-Remediation of Legacy Waste quality of reclaimed land.

---

\(^{27}\) The Authority shall provide this data pre-bid but the Concessionaire may choose to conduct an additional survey as per its requirement.
(m) Monitor ground water quality (in accordance with CPCB norms), work zone air quality and ambient air quality monitoring (as per the standards laid down in MSW Rules 2000, MSW Rules 2016 and CPHEEO Municipal Solid Waste Management Manual) within the Dumpsites from National Accreditation Board for Testing and Calibration Laboratories (NABL) accredited laboratories/agencies and submit the report on quarterly basis. The Concessionaire shall make reasonable endeavours to ensure that the pre Bio-Remediation and post Bio-Remediation of Legacy quality of groundwater and work zone air shall not deteriorate due to reasons attributable to the Concessionaire.28

(n) Carry out leachate management of existing leachate (if any) at the Dumpsite in accordance to the Applicable Laws, particularly the standards of treated leachate laid down in the MSW Rules 2016.29

(o) The record of weighment of processed waste sold to recyclers and also the rejects shall be maintained after measuring their weight in computerized weigh-bridge. All recyclables going out of the Dumpsite boundary and rejects stored separately have to be weighed and record to be maintained by the Contractor.

(p) Provide on-site storage facility for various fractions of processed waste and proper channelization further for sale or reuse to industry/vendors.

(q) Ensure arrangement for water and power supply at site. Adequate power back-up shall be ensured for smooth operation of Processing plant, lighting of work area and water requirements.

(r) The Concessionaire shall take all Applicable Permits and approvals in sequence and comply with the CPCB and SPCB norms therein from time to time.

(s) The Concessionaire shall make reasonable endeavors to maximize the utilization of the waste from the Dumpsite(s) and for this purpose shall ensure that maximum waste is utilized / reused by the Concessionaire, so as to produce products/outputs such as soil enricher/compost, recyclables, RDF and products from construction and demolition waste.

(t) Selling, diverting for recycling, marketing and recycling the excavated materials within 15 (fifteen days) of segregation, without any accumulation in the storage facility at the Project site will be the responsibility of the Concessionaire.

(u) While reclaiming and excavating MSW from the present open Dumpsite(s)s(s) following aspects must be handled carefully:
(i) Exposure to hazardous material, leachate, gases, odor, etc.
(ii) Contaminated wastes that maybe uncovered during reclamation operations require special handling and disposal requirements
(iii) Precautions must be taken while excavating as it releases gases like methane, sulphur dioxide and other gases which causes explosion and fire

(v) The Concessionaire shall explore the possibility of minimizing the disposal of Processing rejects and maximize the usage of such Processing rejects including but not limited to making of curb side blocks, filling of low-lying areas, construction of roads etc.

(w) The Concessionaire shall ensure that there should be no un-useable fraction of solid waste/rejects of total legacy waste quantity present in the Dumpsite handed over to the

---

28 The Authority may choose to design a KPI on Concessionaire matching the MSW rules standards for groundwater quality and air quality.
29 The Authority may depending on the peculiar circumstances of the Dumpsite determine the KPI for leachate treatment.
Concessionaire.

(x) Concessionaire shall be responsible for Disposal of the recovered material from the legacy waste to the identified vendors without stocking them at site.

(y) Concessionaire shall ensure that the Dumpsite will be cleared to the ground level. For the purposes of this clause, ground level shall be determined based on the level of the Access Roads to the Dumpsite. If any waste is found below the ground level, the Authority and Concessionaire may mutually arrive at the decision to undertake bio-remediation of legacy waste found below the ground level.30

(z) Concessionaire shall be responsible for development and maintenance of infrastructure, facilities and amenities for sieving the excavated garbage and storing the segregated materials, etc. at their own risk and cost. Provide adequate number of Processing machines for achieving its daily target of handling at least [•] Metric Tons of legacy waste per day.

(aa) The Project and other Projects facilities shall be designed in such capacity that the entire waste at the Dumpsite(s) to be bio-remediated, taken out and processed within the period of [24 months] from the Compliance Date.

(bb) Provide weighbridge to measure the quantity of waste subjected to Bio-Remediation at Dumpsite(s) and rejects going out of the Dumpsite(s) as approved by the Authority. The Concessionaire shall ensure that the weighbridge is installed from the start date of Bio-Remediation activity. The weighing system shall be fully online electronic, automatic system equipped with the latest technology along with backup server facility. Data of weighing system shall be maintained properly for the entire Concession Period with backup server facility and shall be provided as & when required by the Authority/Project Engineer.

(cc) Deploy the necessary manpower, materials, equipment, tools to the site. The Concessionaire shall be responsible for construction of plants, sheds, support facilities for handling, separating, segregating and storing for the operation of the plant.

(dd) Provide security arrangements for the planned Project Site, machineries, equipment, etc., at the cost of the Concessionaire.

(ee) Legacy C&D waste if found during excavation, sorting/segregation and final disposal of such legacy C&D Waste shall be the sole responsibility of the Concessionaire. The Concessionaire shall be free to explore alternate uses for C&D waste as per the C&D Waste Rules, 2016. Further, if the said C&D Waste is found to be lying around the Dumpsite(s) or found to be not properly disposed of, the Concessionaire shall be liable to be penalized for the same in accordance with the terms of the Concession Agreement.

(ff) Hazardous waste such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive waste, if found, during excavation, sorting or segregation shall be handled as per the Hazardous and Other Wastes (Management and Trans-boundary Movement) Rules, 2016.

(gg) The revenue or the income from the sale of the segregated Useful Material such as reusable and recyclable, Compost, soil conditioner, raw RDF, C&D, Soil or any other by-product materials shall go to the Concessionaire account.

(hh) The Concessionaire shall use a portion of the reclaimed land area for development of Processing facilities and Sanitary Land Filling at Dumpsite(s).

30The scope of work of the Agreement may be amended accordingly. The Authority shall clearly mention the level of clearance of legacy waste (ground level or below ground level) it desires in the RFP/RFQ documents.
(ii) Carrying out the entire Project work in accordance with the detailed plan of action and schedule proposed by Concessionaire and approved by the Authority.

(jj) Ensure use of only covered body vehicles for the transportation of materials at the cost of the Concessionaire

(kk) Providing security arrangement for the Project Sites, machineries, equipment etc. at its own cost

(ll) The Concessionaire shall ensure that the Authority is provided with adequate information of any event or any other matter affecting the Project Facilities to enable them to control/minimize any adverse consequences.

(mm) The frequency and formats for the reports to be submitted shall be finalized in consultation with the Authority and form part of the O&M Plan and Operations Protocol.

(nn) The following data should be included in the progress reports submitted by the Concessionaire:

(i) Daily excavated waste quantity with extent of area reclaimed.
(ii) Quantity of waste segregated in each day.
(iii) Quantity of waste taken out in each day including RDF, recyclable material, bio-soil, C&D and residual solid waste etc. as far as category wise.
(iv) Leachate generation and management reports
(v) Inert and Product Quality test reports as and when made.

1.2 Conditions for Weigh Bridge:

(a) It shall be fully online electronic with real time monitoring systems, automatic system equipped with the latest technology along with backup server facility. Data of weighing system shall be maintained properly for the entire Concession Period with backup server facility and shall be provided as & when required by the Authority/Project Engineer.

(b) It shall be operated in CCTV surveillance with data storage of entire Concession Period. For CCTV surveillance High Definition IP based cameras in adequate numbers shall be provided by the Concessionaire.

(c) CCTV Recordings of operation of weighing system shall be provided as and when required by the Authority/Project Engineer.

2. Sanitary Land Filling Site

2.1 Role of Concessionaire

(a) The Concessionaire shall Design, Construct and Operate Project Facility of Sanitary Land Filling (SLF) including Processing facility, Material Recovery Facility, etc., of Designed Capacity at the Site provided by the Authority. The Site for SLF to be finalized by the Authority and handed over to the Concessionaire within [1 (one)] month from Execution Date. The Sanitary Landfill shall be setup in accordance with the requirement of SWM Rules, 2016 and CPHEEO Manual.
(b) The Concessionaire shall install a weighbridge from the start date of disposal activity of appropriate capacity. The weighing system shall be fully online electronic, automatic system equipped with the latest technology along with backup server facility. Data of weighing system shall be maintained properly for the entire Concession Period with backup server facility and shall be provided as & when required by the Authority/Project Engineer.

(c) Concessionaire to ensure by weighment that inert/residual Processing waste from Processing Facilities to the Sanitary Landfill should not be disposed more than 20% of the total incoming waste at Processing facility and as per SWM Rules 2016.

(d) SLF shall comprise compacted earth bunds with impermeable liner systems comprising compacted clay liners, or geo-membranes, or geosynthetic clay liners. The landfill cells will incorporate leachate collection systems comprising gravel and geotextile filter layers and pipe collection and transfer systems.

(e) The Concessionaire shall also set up a leachate treatment facility at the landfill site involving any suitable technology to meet the standards as per regulatory norms.

(f) Shall be responsible for all the health, security, environment and safety aspects of the Project at all times during the Concession Period.

(g) Ensure arrangement for water and power supply at site at its own cost.

(h) Transportation of inert/residual Processing waste to the Sanitary Landfill is to be done by the Concessionaire from each Site/Collection Point.

(i) Ensure that the Project Facilities remain free from all encroachments and take all steps necessary to remove encroachments, if any.

(j) Pay all Taxes, duties and outgoings, including utility charges relating to the Project Facilities.

(k) The Concessionaire shall provide fencing along the perimeter of the Site and arrange adequate lighting system for easy operations in the working area as well as to the access ways.

(l) Provide fire protection measures and safety equipment for all workers at the site. Entrance into the Site from outside the Site shall be restricted to one point. However, several emergency exits may be provided.

(m) Adequate measures to avoid trespassing shall be taken by the Concessionaire. Ensure adequate power back-up for smooth operation of the machinery and equipment installed.

(n) All the necessary regulatory approvals (including Environmental clearance, consent to establish and operate from SPCB, etc.) shall be taken prior to the commencement of
SLF construction and operations.

(o) The Concessionaire shall provide access to the Municipalities to dispose of desilting and road sweeping waste in the SLF.

(p) The Concessionaire shall carry out scientific closure of the Dumpsite(s) after the concession period before handing over the Site.

2.2 Conditions for Weigh Bridge

(a) It shall be fully online electronic with real time monitoring systems, automatic system equipped with the latest technology along with backup server facility. Data of weighing system shall be maintained properly for the entire Concession Period with backup server facility and shall be provided as & when required by the Authority/ Project Engineer.

(b) It shall be operated in CCTV surveillance with data storage of entire Concession Period. For CCTV surveillance High Definition IP based cameras in adequate numbers shall be provided by the Concessionaire.

(c) CCTV Recordings of operation of weighing system shall be provided as and when required by the Authority/ Project Engineer.

2.3 Role of the Authority

(a) Provide land for SLF within [1 (one)] month to the Concessionaire from the Execution Date.

(b) the Authority shall approve the Implementation Plan submitted by the Concessionaire within a period of 21 days from the date of submission. The Authority shall, where appropriate, coordinate/assist Concessionaire in securing Applicable Permits.

(c) To appoint Project Engineer (Project Engineer) to monitor, supervise, and review Concessionaire’s progress against the submitted timelines and also verify and approve the Concessionaire’s monthly/running bills. The Project Engineer shall also approve the weighbridge proposed by the Concessionaire.

(d) The Authority shall make timely payments.

(e) the Authority shall meet and defray any cost or penalty levied upon the Concessionaire pursuant to any judgment or order of any court of competent jurisdiction or statutory authority, in connection with any damages resulting from legacy waste, which is not directly attributable to Concessionaire’s non-observance/non-performance of its Bio-Remediation or any other obligation hereunder.

(f) [Assist the participating Municipalities to allocate Secondary Collection Points in consultation with the Concessionaire within 90 (ninety) days from the Execution Date.]

(g) Sign, Operate and maintain an escrow account with the Concessionaire to ensure a
2.4 **Role of Participating Municipalities**

(a) Handover the Dumpsite(s) for Bio-remediation of Legacy Waste at the Dumpsite(s) within 30 (thirty) days from the signing of agreement. There will be no lease of land to the Concessionaire nor is he permitted to raise money mortgaging the land. Concessionaire can use the land for the purpose of this Project only till Concession Period or termination of contract whichever is earlier;

(b) Identify, earmark / allocate secondary collection points in consultation with the Concessionaire within 90 (Ninety) days from the signing of agreement;

(c) Handover the existing infrastructure of Secondary Collection and Transportation, Processing & Disposal assets, deployed and used at Site, on as is where is basis to the Concessionaire, within 30 (thirty) days of the date of signing of Concession Agreement;

(d) Facilitate in a timely manner all such approvals, permissions and authorizations which Concessionaire may require or is obliged to seek from them under this Agreement, in connection with implementation of the Project and the performance of its obligations;

(e) Ensure a separate waste collection stream from bulk waste generators, vegetable and flower markets for the purpose of collecting segregated Organic Waste.

(f) Assist in getting connection for water and electricity connection at each of the Site(s).

(g) Shall ensure source segregation of MSW.

(h) Shall ensure regular primary collection of waste from households i.e. on daily basis.

(i) Shall assure a minimum waste input of desirable quantity for the Processing facility i.e. minimum \( x\% \) (x per cent) of proposed Processing facility capacity at Secondary Collection Points for Collection and Transportation to Processing facility on daily basis;

(j) Ensure a separate waste collection stream from bulk waste generators, vegetable and flower markets for the purpose of collecting segregated Organic Waste by the Concessionaire which is to be collected directly by Concessionaire from secondary collection points and transported to the nearest decentralized unit set-up for this purpose.

(k) The Concessionaire shall submit monthly reports to Municipalities and Project Engineer regarding progress of the Project. Municipalities shall validate the data provided by the Concessionaire in monthly progress reports after seeking comments of the Project Engineer;

(l) observe and comply with all obligations set forth in this Agreement, and any other Agreement to be executed with the Concessionaire;

(m) Have right over assets and technology in case of Concession Period or expiration of
Concession Period, whichever is earlier;

(n) Assurance to Concessionaire that any of its officers, employees or workmen shall not, at any time, during the Concession Period interfere with or obstruct in the functioning, running and the overall management of the Project and in any matter in relation to or connected therewith;

(o) Spot inspection of Secondary Collection Points shall be conducted by participating Municipalities for monitoring.]

3. Setting-up of Processing Facilities

3.1. Role of Concessionaire

(a) The Concessionaire shall be obligated to set up at its cost and expense, a Processing Facility at the earmarked Site and discharge obligations set out in Schedule 1 for Processing of Solid Waste prior to its final disposal at engineered Sanitary Landfill Site, as per the Construction Plan submitted by the Concessionaire. The Implementation Schedule shall be submitted in MS Word format.

(b) [The Processing Facility also includes a setting up a Waste to Energy Plant having capacity as provided in Concession Agreement]. The Concessionaire shall have the Processing Facility fully set up and obtain an Completion Certificate from the Authority/ Project Engineer for the newly installed Project Facility within a period no later than [12 (twelve) months] from the Scheduled Construction Completion Date. The Concessionaire shall also be obligated to promptly rectify and remedy any defects or deficiencies that are pointed by the Project Engineer and furnish a report in respect thereof to the Project Engineer.

(c) In the event the Concessionaire is unable to achieve COD within the said time period, the Concessionaire shall be granted an additional period of [•] days without levy of any damages. In case of any further delay to achieve COD, Liquidated Damages at the rate of [0.1% (zero point one percent)] of the Performance Security per day of delay beyond [•] days from Scheduled Construction Completion Date shall be levied by the Authority on the Concessionaire, subject to a maximum of [90 (ninety)] days beyond which it shall tantamount to Concessionaire Event of Default. Provided however, if the delay to achieve COD is due to any Force Majeure event or due to delay on part of the Authority/ Project Engineer in issuing Completion Certificate, no such Liquidated Damages shall be levied.

4. Primary collection of waste from the point of generation

4.1. Role of Concessionaire

(a) The Concessionaire shall undertake daily collection (door to door) of Solid Waste generated within the Project Area commencing latest by COD.

(b) Transportation of street sweeping waste from the designated points in consultation with
the Authority.

(c) The Concessionaire shall collect Solid Waste at pre-informed timings. The timings are to be planned after consultation with the Authority.

(d) The Concessionaire shall provide the Authority with a route plan and timings of visit/time table as decided between the Authority and the Concessionaire by [31st March and 30th September], every year, for the duration of Concession Period.

(e) The Concessionaire shall arrange for all vehicles, devices, community bins at its own cost to collect all Solid Waste generated in the Project Area.

(f) The Solid Waste shall be collected using containerized motorized vehicles (such as auto tippers) or containerized tricycles, handcarts, community bins or any other device which is suitable for collection of waste without necessitating deposition of waste on the ground and multiple handling of waste.

(g) The containers shall be colour-coded as per the SWM Rules.

(h) All such vehicles, devices, community bins shall display a logo of the Authority/Project Engineer of at least 12 inches by 12 inches size (font size of 6-9 inches) size.

(i) The selected private entity shall preferably segregate the waste at source by educating and creating awareness among customers and by providing different collection containers for biodegradable and non-biodegradable wastes.

(j) The Concessionaire shall ensure that the collection bins, vehicles and devices are cleaned on a daily basis using disinfectants.

(k) The Concessionaire must put a system in place which indicates that the bins are picked up on being full to their capacity.

(l) The Project Engineer/ the Authority reserves right to conduct random checks

5. Secondary Storage of Waste

5.1. Role of Concessionaire

(a) The Concessionaire shall endeavor to create no secondary storage facility and its vehicle planning & scheduling shall be developed in such a manner that primary waste collected is transferred directly in vehicles with no storage facility. However, the Authority may provide existing land(s) or structure(s) for Secondary Collection Points (including land for Processing facility/transfer point, if any) free of cost within 30 (thirty) days of signing of Concession Agreement. The land or structure provided shall only be used for the purposes of the Project.

(b) Dedicated mobile transfer stations/ dumper placers/ container bins of at least 2 (two)
cubic meters capacity or any such equipment which is suitable for storage of waste (the “Equipment for secondary storage”) may be positioned by the Concessionaire at such Secondary Collection Points to receive Solid Waste from the vehicles and devices engaged in the primary collection of waste.

(c) Equipment for secondary storage shall be designed for at least twice the designed capacity (as per the CPHEEO manual specifications). Waste density to be assumed as [500 kg/cum]. The bins should be designed in line with the transportation system so as to avoid any manual handling of waste.

(d) The Concessionaire shall provide equipment for secondary storage at its own cost.

(e) All equipment for secondary storage shall be covered and colour coded as per SWM Rules. All equipment for secondary storage shall be marked with the Authority/Project Engineer of at least 12 inches by 12 inches (font size of 6-9 inches) size. The Concessionaire shall display any other form of advertisement on the equipment for secondary storage only after prior approval of the Project Engineer. For any other advisories that would be under taken, the Concessionaire shall abide by the Applicable Laws.

(f) The land for setup of Processing facility, upon request of the Concessionaire, may be provided, if available, by the Project Engineer/ the Authority in accordance with license agreement within 30 (thirty) days of signing of the Concession Agreement. The Processing facility shall be constructed by the Concessionaire at its own cost. The Concessionaire shall construct the Processing facility within a period of six months from the date of handing over the vacant land by the Authority/ Project Engineer to the Concessionaire.

(g) The Processing facility shall be designed for all weather operations. The Processing facility shall be operated under cover, so that dust, litter and noise could be effectively controlled. The Processing facility shall be cleaned daily and the floors washed.

(h) The walls of the Processing facility shall be whitewashed every six months for the duration of Concession Period. And all the vehicles/ equipment shall be re-painted every six months.

(i) The Processing facility shall be equipped with internal roads, ramp and platforms at different levels. These shall be concrete built with a capacity to withstand the load of moving machineries/vehicles.

(j) The Concessionaire shall erect at least one (1) signboard with details (capacity, contact details and warnings) about the transfer station in [Local Language(s)] and English of a size not less than 2 ft. by 4 ft. each, adjacent to the main entrance to in a manner that it
is ordinarily visible to any person using such entrance.

(k) The workers involved in Solid Waste handling shall be provided with gloves, masks, uniforms, aprons and other safety gear.

(l) The Concessionaire shall make provisions to restrict entry of stray animals into the transfer stations, e.g. animal catchers, etc.

(m) The Processing facility shall display a logo of the Authority/Project Engineer of at least 12 inches by 12 inches each (font size of 6-9 inches) size on the outside of all of its walls. Additionally, all the outer walls of the transfer station shall also be painted with this advisory about solid waste management. The Concessionaire shall display any other form of advertisement on the Processing facilities only after prior approval of the Project Engineer. For any other advisories that would be undertaken, the Concessionaire shall abide by the Applicable Laws.

(n) The Concessionaire shall have right to advertise on Processing Project Facility, transfer station, transportation vehicles and Sanitary Landfill. This will be an additional source of revenue for the Concessionaire.

6. Secondary Transportation of Waste to the Processing Facility(ies)

6.1. Role of Concessionaire

(a) The Concessionaire shall transport Solid Waste from Secondary Collection Points to the Processing Project Facility on a daily basis.

(b) The Concessionaire shall deploy closed vehicles such as tipper trucks, compactors etc. to transport the Solid Waste generated in the Project Area to the Processing Facility at its own cost.

(c) The vehicles deployed shall be roadworthy conforming to approval from the State Transport Authority.

(d) The Concessionaire shall comply with all Applicable Laws, including all rules and regulation prescribed in the regard, from time to time by any other statutory and Competent Authorities concerned, regarding fuel used or pollution control standards or any other norm.

(e) The Concessionaire shall at periodic intervals check their adequateness and their conformity with the manufacturer’s specification for their maintenance and replacement.

(f) The Authority/Project Engineer reserves right to conduct random checks.

(g) The Concessionaire shall provide automatic position identification systems using
Global Positioning System (GPS) technology, which shall ensure automatic tracking and recording of vehicle identification and movement in all vehicles and provide a live GPS feed to the Project Engineer/Authority.

(h) The Concessionaire shall display the Authority/Project Engineer (and social message given by Project Engineer) of at least 12 inches by 12 inches size (font size of 6-9 inches) on the transportation vehicles and shall display any other form of advertisement on the transportation vehicles. For any other advisories that would be undertaken, the Concessionaire shall abide by the Applicable Laws.

(i) The drivers appointed/engaged by the Concessionaire shall have a valid driving license as desired for the specific vehicle.

(j) All vehicles shall have High Security Registration Plate and be equipped with electronic toll collection tag.

(k) All penalties, levies and fines levied in relation to the activities/operations of the Concessionaire under the Project, shall be borne by the Concessionaire only without any liability of the Authority.

7. Processing & Disposal of Solid Waste

7.1. Role of Concessionaire

(a) The Concessionaire shall setup Processing Project Facility & Sanitary Landfill on the designated lands provided by the Authority. The land provided shall only be used for the purposes of the Project.

(b) The Concessionaire shall take all Applicable Permits in sequence and comply with the provisions therein from time to time.

(c) The Concessionaire shall design, construct, operate and maintain all the Project Assets and Project Facilities including Processing Facility & SLF in compliance with all applicable laws at its own cost.

(d) For the Processing Project Facility, use …………….. technology for RDF/thermal/biological Processing (as mentioned in Technical Proposal) for the in line with the Applicable Laws including but not limited to CPCB. The Sanitary Landfill shall be setup in accordance with the requirement of SWM Rules.

(e) The Concessionaire shall at its cost and expense procure all machinery and equipment for Processing Project Facility and Sanitary Landfill. The Concessionaire shall comply with proprietary rights, licenses, agreements and permissions for materials, methods, processes and systems used or incorporated in the Project.

(f) The Processing Facility shall achieve COD within a period of [24 (twenty four)] months from the date of signing of this Agreement. The Concessionaire shall submit monthly progress reports during the above period to Project Engineer.
(g) The Concessionaire shall operate and maintain the Processing Project Facility in accordance with the Applicable Laws.

(h) The Concessionaire shall ensure that the inert/Processing rejects generated from the Processing Facility should achieve total elimination of landfill but in any circumstances not in excess of 10% (ten per cent) of input waste quantity. The Concessionaire will all time ensure the daily capping of SLF as per Solid Waste Management Rules, 2016. The Concessionaire will also ensure treatment and discharge of leachate generated from Processing Project Facility in accordance with the CPCB standards.

(i) All non-biodegradable waste viz. plastic, metal, glass, electronics & other items are to be segregated and sold to re-processors/ recyclers/ Govt. authorized agencies or recycled/ reprocessed through recycling/ re-processing facilities directly or indirectly within the allotted site and appropriate/retain the whole of the sale proceeds. Other wastes such as rubber, tyres, upholstery, bags, etc., may be sold to cement or other factories as energy source. The resources recovery shall be carried out at the cost and risk of the Concessionaire. It shall also be ensured that no part of construction & demolition waste is dumped in the landfill of the plant.

(j) All penalties, levies due to any non-compliance will be borne by the Concessionaire.

(k) The Concessionaire shall retain revenue generated through products produced out of such Processing. The Concessionaire shall also retain revenue generated through carbon credits.

(l) The Concessionaire shall maintain daily records of quantum of incoming, processed waste, rejects, products and product quality in the formats approved by the Project Engineer. The monthly report shall be submitted by the Concessionaire to the Project Engineer. The monthly report may be subject to verification by Project Engineer.

(m) The Concessionaire shall arrange for all facilities and equipment for weighing - minimum 2 (two) electronic weighbridges with CCTV cameras, platforms etc. The Concessionaire shall also store at least past 2 months of such video feed and make it available for inspection at the request of the Authority.

(n) The flue gas vented to atmosphere shall be required to be treated adequately by scrubbing, neutralization and filtering so that the pollutants are dust levels are well within the acceptance level as statutory requirements.

(o) The Concessionaire shall develop the surrounding of the plant with greenhouse concept having plants, lawns, gardens etc. as model spot for educating students/ public on environmental protection and best environment practices.

(p) The Concessionaire shall erect at least (1) signboard with details (capacity, contact details and signage) about the SLF in [Local Language(s)] and English of a size not less than 2ft. by 4ft. each, adjacent to the main entrance in a manner that is ordinarily visible to any person using such entrance.
(q) The Concessionaire shall at all times comply with the statutory norms of CPCB/SPCB for pollution control.

(r) The Concessionaire will place a board at the entrance of the Processing facility displaying emission and discharge parameters of air & water.

(s) The Concessionaire shall display layout at the entrance and indicate warning signs in the SLF.

(t) The workers involved in Solid Waste handling shall be provided with gloves, masks, uniforms, aprons and other Personal Protective Equipment (PPE).

8. Setup Complaint Redressal Centre

8.1. Role of Concessionaire

(a) The Concessionaire shall setup at least 1 (one) Complaint Redressal Centre which shall be functional by the Commencement Date such that it allows for (a) easy monitoring of operations of the Project and (b) establishment of standard protocol to address customer complaints.

(b) The Complaint Redressal Centre shall be capable to registering complaints by the way of written communication, telephonically or personal visits by the consumers. The Complaint Redressal Centre shall be supported in English and [local language(s)].

(c) The Complaint Redressal Centre shall have at least 3 (three) operational dedicated phone lines for receiving customer calls / complaints.

(d) The telephone numbers of the Complaint Redressal Centre shall be clearly reflected on all secondary storage equipment and transportation vehicles. These numbers shall be mentioned in English and [local language(s)].

(e) The “Complaint Redressal Centre” shall be kept operational by the Concessionaire from 6 am to 10 pm, 7 (seven) days a week. Concessionaire shall maintain a digital record of all complaints received containing identification number, customer name, service address, phone number, date and time of initial call, date and time of any follow-up calls and type of complaint. Complaints shall be verified and shall be redressed within 24 hours of their receipt.

(f) The Concessionaire shall also develop a website and a mobile application for filing complaints by any of aggrieved citizens/tourists.

(g) The aggrieved residents for registering of their complaints may also contact the offices of the Authority who shall immediately forward such complaints to the Complaint Redressal Centre. The Authority shall designate one of their officers not below the rank of Junior Engineer as the Nodal Officer to receive such complaints. The Concessionaire shall be bound to take action on the complaint so forwarded on an immediate basis and
send status report to such Nodal Officer within 24 (twenty four) hours of having redressed the complaint specifying the action taken. In the event, the Concessionaire fails to take action or send status report within the aforesaid time period, it shall be liable to pay Liquidated Damages in accordance with Article 18 of the Agreement.

9. **Organize and manage Information, Education & Communication (IEC)activities**

9.1. **Role of Concessionaire**

(a) The Concessionaire shall undertake the IEC activities or alternatively may hire agency having proven credentials in IEC activities. The agency hired by the Concessionaire may be an NGO, Society or Body Corporate. The Concessionaire shall impart Project specific training to the hired agency prior to deployment.

(b) IEC activities shall be aimed at creating awareness among the community, and prepare residents for upcoming Project, inform about SWM Rules, source segregation, health and environment impacts, roles of ULB and Concessionaire in the Project, etc. through website, mass media communication strategies such as newspapers releases, hoardings, glow sign boards, radio, TV, street plays, awareness campaigns at schools etc. At least 1 (one) advertisement in 1 (one) newspaper of at least 3 by 3 inches shall be released by the Concessionaire every 3 (three) months. Concessionaire can also distribute the pamphlets with list do’s and don’ts as an awareness media.

(c) The Concessionaire shall organize training programs for residents to motivate the community towards waste management for ensuring the sustainability of a system at least once in 3 (three) months for first year of operations and thereafter at the interval of six months for balance concession period.

(d) The Concessionaire shall submit an annual program of the IEC activities planned for each year (on a monthly basis) to the Project Engineer within the first month of each calendar year clearly notifying the components & expenditure under each head of expense.

(e) All staff uniform and vehicles involved in the Project shall have advisory messages about solid waste management.
1. **Concessionaire Applicable Permits**

The State Government and the Concessionaire shall proactively assist the Authority in obtaining all the required permits.

---

31 List of Applicable Permits which may be required to be obtained by the State Government, if any, to be added in this Schedule.
1. **Project Facilities**

1.1. The Project Facilities shall conform to the Specifications and Standards as specified in this Schedule and in this Agreement.

1.2. The Specifications and Standards applicable to the design and construction of the Processing facilities, Material Recovery Facilities at the Sanitary Land Filling site and the decentralized units for Processing of Organic Waste shall conform with the National Building Code of India, relevant specifications and standards specified by the Bureau of Indian Standards (BIS), International Organization for Standardization (ISO), other Applicable Laws and Good Industry Practice.

1.3. In the absence of any specific provision in this Agreement, the following standards shall apply in order of priority:

(i) National Building Code
(ii) Bureau of Indian Standards (BIS)
(iii) International guidelines
(iv) Any other specifications/standards/codes proposed by the Concessionaire and reviewed by the Project Engineer.

The latest version of the specified codes and standards which were notified published at least [60 (sixty)] days prior to the Bid Date in respect of this Agreement shall apply.
SCHEDULE 4
MAINTENANCE REQUIREMENTS
(See Article 5.1)

1. Maintenance Requirements

1.1. The Concessionaire shall, at all times, operate and maintain the Project in accordance with the provisions of the Agreement, Applicable Laws, Applicable Permits and Good Industry Practice. In particular, the Concessionaire shall, at all times during the Operation & Maintenance Period, conform to the Maintenance Requirements set forth in this Schedule.

1.2. The Concessionaire shall repair or rectify any defect or deficiency set forth in Clause 2 of this Schedule within the time limit specified therein and any failure in this behalf shall constitute a breach of the Agreement.

2. Repair/rectification of defects and deficiencies

2.1. The obligations of the Concessionaire in respect of Maintenance Requirements shall include repair and rectification of the defects and deficiencies in the Project within the time limit set forth in Annex-I of this Schedule.

2.2. The Concessionaire shall at all times maintain an adequate inventory of spares and consumables to meet the Maintenance Requirements.

3. Other defects and deficiencies

3.1. In respect of any defect or deficiency not specified in Annex-I of this Schedule, the Concessionaire shall undertake repair or rectification in accordance with Good Industry Practice and within the time limit specified by the Project Engineer.

3.2. In respect of any defect or deficiency not specified in Annex-I of this Schedule, the Project Engineer may, in conformity with Good Industry Practice, specify the permissible limit of deviation or deterioration with reference to the Specifications and Standards, and any deviation or deterioration beyond the permissible limit shall be repaired or rectified by the Concessionaire in accordance with Good Industry Practice and within the time limit specified by the Project Engineer.

4. Extension of time limit

Notwithstanding anything to the contrary specified in this Schedule, if the nature and extent of any defect or deficiency justifies more time for its repair or rectification than the time specified herein, the Concessionaire shall be entitled to additional time in conformity with Good Industry Practice. Such additional time shall be determined by the Project Engineer and conveyed to the Concessionaire and the Authority and the State Government with reasons thereof.

5. Emergency repairs/restoration

Notwithstanding anything to the contrary contained in this Schedule, if any defect, deficiency
or deterioration in the Project poses a hazard to safety or risk of damage to property, the Concessionaire shall promptly take all reasonable measures for eliminating or minimising such danger.

6. **Inspection by the Concessionaire**

The Concessionaire shall, through its engineer, undertake a periodic (at least weekly) visual inspection of the Project and maintain a record thereof in a register. Such record shall be kept in safe custody of the Concessionaire and shall be open to inspection by the Authority and the State Government and the Project Engineer at any time during office hours.
Annex-I
(Schedule)

The Concessionaire shall repair and rectify the defects and deficiencies specified in this Annex-I to Schedule within the time limit set forth herein:

32 The list is indicative
SCHEDULE 5
SAFETY REQUIREMENTS
(See Article 5.1)

1. Guiding principles

1.1. Safety Requirements aim at reduction in injuries, loss of life and damage to property resulting from accidents on or about the Project, irrespective of the person(s) at fault.

1.2. Safety Requirements apply to all phases of construction, development, operation and maintenance with emphasis on identification of factors associated with accidents, consideration of the same, and implementation of appropriate remedial measures.

1.3. Safety Requirements include measures associated with safe movement, safety management, safety equipment, fire safety, enforcement and emergency response, with particular reference to the Safety Guidelines specified in Annex-l of this Schedule.

2. Obligations of the Concessionaire

The Concessionaire shall abide by the following:
(a) Applicable Laws and Applicable Permits;
(b) provisions of this Agreement;
(c) relevant Standards/Guidelines contained in nationally accepted codes; and
(d) Good Industry Practice.

3. Safety measures during Operation and Maintenance Period

3.1. The Concessionaire shall develop, implement and administer a safety programme for the Project Facilities, which shall include correction of safety violations and deficiencies, and all other actions necessary to provide a safe environment in accordance with this Agreement.

3.2. The Concessionaire shall keep a copy of every FIR recorded by the Police with respect to any accident occurring on or about the Project. In addition, the Concessionaire shall also collect data for all cases of accidents not recorded by the Police. The information so collected shall be summarised and submitted to the Authority and the State Government at the conclusion of every [month/quarter].

3.3. The Concessionaire shall submit to the Authority and the State Government before the [31st (thirty first) March] of each year, an annual report (in 3 (three) copies) containing, without limitation, a detailed listing and analysis of all accidents of the preceding Financial Year and the measures taken by the Concessionaire pursuant to the provisions of Clause 3.1 of this Schedule for averting or minimising such accidents in future.

4. Costs and expenses

Costs and expenses incurred in connection with the Safety Requirements set forth herein, including the provisions of Clause 2 of this Schedule, shall be borne by the Concessionaire in accordance with the provisions of Article 5.1.
Annex - I
(Schedule-5)
Safety Guidelines

1. System integrity

In the design of the Project Facilities, particular care shall be taken to minimise the likely incidence of failure.

2. Safety management

A safety programme shall be prepared by the Concessionaire once every year to bring out clearly the system of management of checks and maintenance tolerances for various elements comprising the Project and compliance thereof. The programme shall also bring out the nature and extent of staff training and awareness in dealing with such checks and tolerances. [2 (two)] copies of the programme shall be sent to the Project Engineer within [15 (fifteen)] days of the close of every year.

3. Emergency

A set of emergency procedures shall be formulated to deal with different emergency situations and the operations staff shall be trained to respond appropriately during emergency through periodic simulated exercises as laid down in a manual for management of disasters (the “Disaster Management Manual”) to be prepared and published by the Concessionaire prior to [Project COD]. The Concessionaire shall provide 5 (five) copies each of the Disaster Management Manual to the Authority and the State Government and the Project Engineer no later than [30 (thirty)] days prior to Project COD.

4. Fire safety

4.1. To prevent fire in the Project, the Concessionaire shall use fire resistant materials in the construction thereof and shall avoid use of materials which are to some extent flammable, or which emit smoke and harmful gases when burning.

4.2. To deal with incidents of fire, the Concessionaire shall provide a hydrant based fire-fighting system in conformity with the Good Industry Practices.

5. Surveillance and Safety Manual

The Concessionaire shall, no later than [60 (sixty)] days prior to [Project COD], evolve and adopt a manual for surveillance and safety of the Project, in accordance with Good Industry Practice, and shall comply therewith in respect of the security and safety of the Project, including its gate control, sanitation, fire prevention, environment protection.

6. Watch and Ward

The Concessionaire shall, at its own expense and in accordance with Good Industry Practice, provide and maintain all lighting, fencing, watch and ward arrangements for the safety of the Project and all persons affected by it.
SCHEDULE 6
PERFORMANCE SECURITY OR BANK GUARANTEE
[on appropriate stamp paper]
(See Article 9.1)

The [Secretary], [Name of the State] Department of [Urban Development] and the [Municipal Commissioner of Authority]

Address:

WHEREAS:

A. ………………….. (the “Concessionaire”), the [Municipal Corporation/Cluster] (the “Authority”) and the State Department of [Urban Development] (the “State Government”) have entered into a Concession Agreement dated …………….. (the “Agreement”) whereby the State Government and the Authority have agreed to the Concessionaire undertaking the development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste at municipal dumpsite(s) on hybrid annuity basis at [Location], in the State of [Name of the State]” (the “Project”) subject to and in accordance with the provisions of the Concession Agreement.

B. The Agreement requires the Concessionaire to furnish a Performance Security to the State Government and the Authority {of a sum of Rs. [*] (Rupees _______)} (the “Guarantee Amount”) as security for due and faithful performance of its obligations, under and in accordance with the Agreement, during the Construction Period (as defined in the Agreement).

C. We, ……..through our Branch at …………………. (the “Bank”) have agreed to furnish this Bank Guarantee by way of Performance Security.

NOW, THEREFORE, the Bank hereby, unequivocal, unconditionally and irrevocably, guarantees and affirms as follows:

1. The Bank hereby unequivocal, unconditionally and irrevocably guarantees the due and faithful performance of the Concessionaire’s obligations during the [Construction Period], under and in accordance with the Agreement, and agrees and undertakes to pay to the State Government and/or the Authority, upon its mere first written demand, and without any demur, reservation, recourse, contest or protest, and without any reference to the Concessionaire, such sum or sums up to an aggregate sum of the Guarantee Amount as the State Government and/or the Authority shall claim, without the State Government or the Authority being required to prove or to show grounds or reasons for its demand and/or for the sum specified therein.

2. A letter from the State Government or the Authority, under the hand of an officer not below the rank of [Secretary, Department of Urban Development/Municipal Commissioner], that the Concessionaire has committed default in the due and faithful performance of all or any of its
obligations under and in accordance with the Agreement shall be conclusive, final and binding on the Bank. The Bank further agrees that the State Government and the Authority shall be the judges as to whether the Concessionaire is in default in due and faithful performance of its obligations during the [Construction] Period under the Agreement and its decision that the Concessionaire is in default shall be final, and binding on the Bank, notwithstanding any differences between the State Government or the Authority and the Concessionaire, or any dispute between them pending before any court, tribunal, arbitrators or any other authority or body, or by the discharge of the Concessionaire for any reason whatsoever.

3. In order to give effect to this Guarantee, the State Government and the Authority shall be entitled to act as if the Bank were the principal debtor and any change in the constitution of the Concessionaire and/or the Bank, whether by their absorption with any other body or corporation or otherwise, shall not in any way or manner affect the liability or obligation of the Bank under this Guarantee.

4. It shall not be necessary, and the Bank hereby waives any necessity, for the State Government or the Authority to proceed against the Concessionaire before presenting to the Bank its demand under this Guarantee.

5. The State Government and the Authority shall have the liberty, without affecting in any manner the liability of the Bank under this Guarantee, to vary at any time, the terms and conditions of the Agreement or to extend the time or period for the compliance with, fulfillment and/or performance of all or any of the obligations of the Concessionaire contained in the Agreement or to postpone for any time, and from time to time, any of the rights and powers exercisable by the State Government and the Authority against the Concessionaire, and either to enforce or forbear from enforcing any of the terms and conditions contained in the Agreement and/or the securities available to the State Government and the Authority, and the Bank shall not be released from its liability and obligation under these presents by any exercise by the State Government or the Authority of the liberty with reference to the matters aforesaid or by reason of time being given to the Concessionaire or any other forbearance, indulgence, act or omission on the part of the State Government or the Authority or of any other matter or thing whatsoever which under any law relating to sureties and guarantors would but for this provision have the effect of releasing the Bank from its liability and obligation under this Guarantee and the Bank hereby waives all of its rights under any such law.

6. This Guarantee is in addition to and not in substitution of any other guarantee or security now or which may hereafter be held by the State Government and/or the Authority in respect of or relating to the Agreement or for the fulfillment, compliance and/or performance of all or any of the obligations of the Concessionaire under the Agreement.

7. Notwithstanding anything contained hereinbefore, the liability of the Bank under this Guarantee is restricted to the Guarantee Amount and this Guarantee will remain in force until the expiry of the construction period or compliance of the conditions specified in paragraph 8 below and unless a demand or claim in writing is made by the State Government or the Authority on the Bank under this Guarantee, no later than 6 (six) months from the date of
expiry of this Guarantee, all rights of the State Government and the Authority under this Guarantee shall be forfeited and the Bank shall be relieved from its liabilities hereunder.

8. The Performance Security shall cease to be in force and effect when the Concessionaire shall have expended on Project construction an aggregate sum not less than 100% (one hundred per cent) of the Bid Project Cost which is deemed to be Rs. [•] (Rupees [•]) for the purposes of this Guarantee, and provided the Concessionaire is not in breach of this Agreement. Upon request made by the Concessionaire for release of the Performance Security along with the particulars required hereunder, duly certified by a statutory auditor of the Concessionaire, the State Government and/or the Authority shall release the Performance Security forthwith.

9. The Bank undertakes not to revoke this Guarantee during its currency, except with the previous express consent of the State Government or the Authority in writing, and declares and warrants that it has the power to issue this Guarantee and the undersigned has full powers to do so on behalf of the Bank.

10. Any notice by way of request, demand or otherwise hereunder may be sent by post addressed to the Bank at its above referred Branch, which shall be deemed to have been duly authorised to receive such notice and to effect payment thereof forthwith, and if sent by post it shall be deemed to have been given at the time when it ought to have been delivered in due course of post and in proving such notice, when given by post, it shall be sufficient to prove that the envelope containing the notice was posted and a certificate signed by an officer of the State Government or the Authority that the envelope was so posted shall be conclusive.

11. This Guarantee shall come into force with immediate effect and shall remain in force and effect until the expiry of the construction period or until it is released earlier by the State Government and/or the Authority pursuant to the provisions of the Agreement.

Signed and sealed this ……….day of ……….., 20………. at ……….

SIGNED, SEALED AND DELIVERED
For and on behalf of the BANK by:

(Signature)
(Name) (Designation) (Code Number)
(Address)

NOTES:

(i) The bank guarantee should contain the name, designation and code number of the officer(s) signing the guarantee.

(ii) The address, telephone number and other details of the Head Office of the Bank as well as of issuing Branch should be mentioned on the covering letter of issuing Branch.
SCHEDULE 7
FORMAT OF THE MOBILIZATION ADVANCE GUARANTEE

[on appropriate stamp paper]

(See Article 9.10)

Guarantee No. : [●]
Amount of Guarantee : [●]

This Mobilization Advance Guarantee is executed on this [*] day of [*] at [*]

BY

[*] with its registered office at [*] and a branch office at [*] (hereinafter referred to as the “Bank”, which expression shall unless repugnant to the context thereof, be deemed to include its successors-in-interest and permitted assigns)

IN FAVOUR OF

(1) The State Department of [Urban Development] of [Name of the State] represented by [*], and having its offices at [*] (hereinafter referred to as the “State Government” which expression shall, unless repugnant to the context or meaning thereof, include its administrators, successors and assigns);

AND

(2) The Authority, a statutory body constituted under the [Act under which the Authority is established] with its registered office at [*] (hereinafter referred to as the “Authority”, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

WHEREAS

A. [Name of the Concessionaire] with its registered office at [insert address], hereinafter referred to as the "Concessionaire", which expression shall unless repugnant to the context thereof, be deemed to include its successors-in-interest and permitted assigns) has executed a concession agreement dated [insert date] with the State Government and the Authority ("Concession Agreement") in relation to design, construction, operation and maintenance of integrated solid waste management system and reclamation of land through bio-remediation at [Location] by the Concessionaire.

B. In terms of Article 9.10 of the Concession Agreement, the Concessionaire is required to furnish a Mobilization Advance Guarantee to the State Government and the Authority in the form of an unconditional, irrevocable and on demand bank guarantee for securing the Mobilization Advance made to the Concessionaire in accordance with the Concession Agreement ("Mobilization Advance Guarantee") for INR [insert amount equal to 110% (one hundred and ten per cent) of the Mobilization Advance] (Rupees [*]) ("Guaranteed Amount").

C. At the request of the Concessionaire and for sufficient consideration, the Bank has agreed to issue this guarantee in favor of the State Government and the Authority.

NOW THEREFORE THIS DEED WITNESSETH AS FOLLOWS:

1. Capitalised terms used herein but not defined shall have the meaning ascribed to them in the Concession Agreement.

2. The Bank shall upon a written demand from the State Government or the Authority informing the Bank of the Concessionaire's failure to fulfill its obligations under the
Concession Agreement, pay to the State Government or the Authority, within 5 (five) days of receipt of such written demand from the State Government or the Authority, without further proof or conditions and without contest, recourse, demur or protest and without any enquiry to the State Government or the Authority or the Concessionaire, forthwith and in full amount, without any deductions or set off or counter claims whatsoever, the sum claimed by the State Government or the Authority in such demand not exceeding an amount equivalent to the Guaranteed Amount. The Bank will pay the amount specified in the demand notwithstanding any direction to the contrary given or any dispute raised by the Concessionaire or any other person.

The Bank agrees that this Mobilization Advance Guarantee does not limit the number of claims that may be made by the State Government or the Authority against the Bank provided that such claims taken together shall not exceed the Guaranteed Amount.

Any payment made hereunder shall be made free and clear of and without deduction for, or on account of, any present or future taxes, deductions or withholdings of any nature whatsoever and by whomsoever imposed, and where any withholding on a payment is required by any Applicable Law, the Bank shall comply with such withholding obligations and shall pay such additional amount in respect of such payment such that the State Government or the Authority receives the full amount due hereunder as if no such withholding had occurred.

3. This Mobilization Advance Guarantee shall be a continuing guarantee during its currency and shall remain in force and effect until 21 (twenty one) months from the Compliance Date or until the entire Mobilization Advance has been adjusted against the Construction Payments in accordance with the Concession Agreement, whichever is later, upon which the obligations of the Bank under this Mobilization Advance Guarantee shall stand discharged.

4. The obligations of the Bank herein are absolute and unconditional, irrespective of the value, genuineness, validity, regularity or enforceability of the Concession Agreement or the insolvency, bankruptcy, reorganisation, dissolution or liquidation of the Concessionaire or any change in ownership of the Concessionaire or any purported assignment by the Concessionaire or any other circumstance whatsoever which might otherwise constitute a discharge or defence of a guarantor or a surety.

Further, this Mobilization Advance Guarantee is in no way conditional upon any requirement that the State Government or the Authority first attempts to procure the Guaranteed Amount from the Concessionaire or any other person, or resort to any other means of obtaining payment of the Guaranteed Amount.

5. The Bank hereby agrees that its liability under this Mobilization Advance Guarantee shall not be discharged by virtue of any agreement between the Concessionaire, the State Government and the Authority, whether with or without the Bank's knowledge, or by reason of the State Government or the Authority showing any indulgence or forbearance to the Concessionaire.

6. The Bank's obligations under this Mobilization Advance Guarantee for the Guaranteed Amount is primary, independent and absolute and not by way of surety only.

7. The obligations of the Bank under this Mobilization Advance Guarantee shall not be affected by any act, omission, matter or thing which, but for this provision, would prejudice or diminish the Guaranteed Amount in whole or in part, including (whether or not known to it or the State Government or the Authority):

(a) any time or waiver granted to, or composition with, the Concessionaire or any other
person;

(b) any incapacity or lack of powers, authority or legal personality of or dissolutions or change in the status of the Concessionaire or any other person;

(c) any variation of the Concession Agreement so that references to the Concession Agreement in this Mobilization Advance Guarantee shall include each variation;

(d) any unenforceability, illegality or invalidity of any obligation of any person under the Concession Agreement or any unenforceability, illegality or invalidity of the obligations of the Bank under this Mobilization Advance Guarantee or the unenforceability, illegality or invalidity of the obligations of any person under any other document or guarantee, to the extent that each obligation under this Mobilization Advance Guarantee shall remain in full force as a separate, continuing and primary obligation, and its obligations be construed accordingly, as if there were no unenforceability, illegality or invalidity;

(e) any extension, waiver, or amendment whatsoever which may release a guarantor or the Bank (other than performance or indefeasible payment of a Guaranteed Amount); or

(f) any part performance of the Concession Agreement by the Concessionaire or by any failure by the State Government or the Authority to timely pay or any failure by the State Government or the Authority to timely perform any of its obligations under the Concession Agreement.

8. So long as any sum remains due from the Concessionaire to the State Government or the Authority, the Bank shall not exercise any right of subrogation or any other rights of a guarantor or enforce any guarantee or other right or claim against the Concessionaire (whether in respect of its liability under this Mobilization Advance Guarantee or otherwise) or claim in the insolvency or liquidation of the Concessionaire or any such other person in competition with the State Government or the Authority. If the Bank receives any payment or benefit in breach of this Clause 8, it shall hold the same in trust for the State Government and the Authority.

9. The Bank represents, warrants and undertakes to the Authority that:

(a) it has the power to execute, deliver and perform the terms and provisions of this Mobilization Advance Guarantee and has taken all necessary action(s) to authorize the execution, delivery and performance by it of this Mobilization Advance Guarantee;

(b) the Bank has duly executed and delivered this Mobilization Advance Guarantee, and this Mobilization Advance Guarantee constitutes its legal, valid and binding obligation enforceable in accordance with its terms except as the enforceability thereof may be limited by applicable bankruptcy, insolvency, moratorium or other similar laws affecting the enforcement of creditors’ rights generally and by general equitable principles;

(c) neither the execution, delivery or performance by the Bank of this Mobilization Advance Guarantee, nor compliance by it with the terms and provisions hereof will: (i) contravene any material provision of any law, statute, rule or regulations or any order, writ, injunction or decree of any court or governmental instrumentality; (ii) conflict or be inconsistent with or result in any breach of any of the material terms, covenants, conditions or provisions of, or constitute a default under any agreement,
contract or instrument to which the Bank is a party or by which it or any of its property or assets is bound; or (iii) violate any provision of the Bank's constituent documents;

(d) no order, consent, approval, license, authorization or validation of, or filing, recording or registration with (except as have been obtained or made prior to the date hereof), or exemption by, any governmental or public body or authority, or any subdivision thereof, is required to authorize, or is required in connection with: (i) the execution, delivery and performance of this Mobilization Advance Guarantee; or (ii) the legality, validity, binding effect or enforceability of this Mobilization Advance Guarantee; and

(e) this Mobilization Advance Guarantee will be enforceable when presented for payment to a Scheduled Commercial Bank (as defined by the Reserve Bank of India Act, 1934) at [Location].

10. This Mobilization Advance Guarantee is a continuing one and all liabilities to which it applies or may apply under the terms hereof shall be conclusively presumed to have been created in reliance hereon. No failure or delay on the part of the State Government or the Authority in exercising any right, power or privilege hereunder and no course of dealing between the State Government, the Authority and the Bank, or the Concessionaire, shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

11. If any one or more of the provisions contained in this Mobilization Advance Guarantee are or become invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the Bank shall enter into good faith negotiations with the State Government and the Authority to replace the invalid, illegal or unenforceable provision.

12. The Bank hereby agrees to execute and deliver all such instruments and take all such actions as may be necessary to make effective fully the purposes of this Mobilization Advance Guarantee.

13. This Mobilization Advance Guarantee may be executed in one or more duplicate counterparts, and when executed and delivered by the Bank and the State Government and the Authority shall constitute a single binding agreement.

14. Any demand, notice, request or other communication to be given or made under this Mobilization Advance Guarantee shall be deemed to have been duly given or served:

(a) Upon, the State Government, [Address of the State Government], marked for the attention of the [Officer-in-Charge];

(b) Upon, the Authority, [Address of the Authority], marked for the attention of the [Officer-in-Charge];

(c) Upon a Scheduled Commercial Bank (as defined by the Reserve Bank of India Act, 1934), at [Location], India.

15. The Bank:

(a) acknowledges that the Lenders will review this Mobilization Advance Guarantee and may require changes thereto as a condition of granting any Financial Assistance and/or providing political risk insurance; and

(b) shall consider any such requirements in good faith.
16. This Mobilization Advance Guarantee shall be governed by, and construed in accordance with, the laws of India. The Bank irrevocably agrees that any legal action, suit or proceeding arising out of or relating to this Mobilization Advance Guarantee may be brought in the courts in [State of Location].

17. The State Government and the Authority may assign or transfer all or any part of its interest herein together with the Concession Agreement to any other person with prior consent of to the Bank. The Bank may not assign or transfer any of its rights or obligations under this Mobilization Advance Guarantee.

IN WITNESS WHEREOF the Bank has set its hands hereunto on the day, month and year first hereinabove written.

Signed and delivered by [insert name of Bank] Bank by hand
SCHEDULE 8
THE SITES
(See Article 10)

Sites of the Project Facilities shall include the land, [buildings and structures].

[Note: Through suitable drawings and description in words, the land comprising the Project Sites shall each be specified briefly but precisely. In the event there are any buildings or structures on the Project Site, the same shall be marked in the drawings and briefly described in words.]

An inventory of each Site including the land, buildings, structures, road works, trees and any other immovable property on, or attached to, the Site shall be prepared jointly by the Authority Representative and the Concessionaire.

Additional land required for ancillary buildings, extension/ addition to the Project Facilities or for construction of works due to change of Scope of Work shall be provided by the Authority in accordance with the Article 14.6.1(r) of this Agreement. Upon provision, such land shall form part of the Site and vest in the Authority.
THIS SUBSTITUTION AGREEMENT is entered into on this the …………..day of …………..
20….

AMONGST

1. The State Department of [Urban Development] of [Name of the State] represented by [•], and having its offices at [•] (hereinafter referred to as the “State Government” which expression shall, unless repugnant to the context or meaning thereof, include its administrators, successors and assigns);

2. The Municipal Corporation of [**], incorporated under the [Act under which Authority has been established], represented by its Municipal Commissioner/Managing Director and having its principal offices at ***, India (hereinafter referred to as the “Authority” which expression shall unless repugnant to the context or meaning thereof include its administrators, successors and assigns);

3. …………………LIMITED, a company incorporated under the provisions of the Companies Act, 2013 and having its registered office at …………….., (hereinafter referred to as the “Concessionaire” which expression shall unless repugnant to the context or meaning thereof include its successors and permitted assigns and substitutes);

4. …………………..(name and particulars of Lenders’ Representative) and having its registered office at ……………….., acting for and on behalf of the Senior Lenders……………. (name) as their duly authorised agent with regard to matters arising out of or in relation to this Agreement (hereinafter referred to as the “Lenders’ Representative”, which expression shall unless repugnant to the context or meaning thereof include its successors and substitutes);

WHEREAS:

(A) The State Government and the Authority has entered into a Concession Agreement dated ……………….. with the Concessionaire (the “Concession Agreement”) for development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste on hybrid annuity basis at ………….., in the State of [Name of the State], and a copy of which is annexed hereto and marked as Annex-A to form part of this Agreement.

(B) Senior Lenders have agreed to finance the Project in accordance with the terms and conditions set forth in the Financing Agreements.

(C) Senior Lenders have requested the State Government and the Authority to enter into this Substitution Agreement for securing their interests through assignment, transfer and substitution of the Concession to a Nominated Company in accordance with the provisions of this Agreement and the Concession Agreement.
In order to enable implementation of the Project including its financing, construction, operation and maintenance, the Authority has agreed and undertaken to transfer and assign the Concession to a Nominated Company in accordance with the terms and conditions set forth in this Agreement and the Concession Agreement.

NOW, THEREFORE, in consideration of the foregoing and the respective covenants and agreements set forth in this Agreement, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the Parties agree as follows:

1. DEFINITIONS AND INTERPRETATION

1.1 Definitions

In this Substitution Agreement, the following words and expressions shall, unless repugnant to the context or meaning thereof, have the meaning hereinafter respectively assigned to them:

“Agreement” means this Substitution Agreement and any amendment thereto made in accordance with the provisions contained in this Agreement;

“Financial Default” means occurrence of a material breach of the terms and conditions of the Financing Agreements or a continuous default in Debt Service by the Concessionaire for a minimum period of 3 (three) months;

“Lenders’ Representative” means the person referred to as the Lender’s Representative in the foregoing Recitals;

“Nominated Company” means a company, incorporated under the provisions of the Companies Act, 2013, selected by the Lenders’ Representative, on behalf of Senior Lenders, and proposed to the State Government and the Authority for assignment/transfer of the Concession as provided in this Agreement;

“Notice of Financial Default” shall have the meaning ascribed thereto in Clause 3.2.1; and

“Parties” means the parties to this Agreement collectively and “Party” shall mean any of the Parties to this Agreement individually.

1.2 Interpretation

1.2.1 References to Lenders’ Representative shall, unless repugnant to the context or meaning thereof, mean references to the Lenders’ Representative, acting for and on behalf of Senior Lenders.

1.2.2 References to Clauses are, unless stated otherwise, references to Clauses of this Agreement.

1.2.3 The words and expressions beginning with capital letters and defined in this Agreement shall have the meaning ascribed thereto herein, and the words and expressions used in this Agreement and not defined herein but defined in the Concession Agreement shall, unless repugnant to the
context, have the meaning ascribed thereto in the Concession Agreement.

1.2.4 The rules of interpretation stated in Clauses 1.2, 1.3 and 1.4 of the Concession Agreement shall apply, *mutatis mutandis*, to this Agreement.

2. **ASSIGNMENT**

2.1 **Assignment of rights and title**

The Concessionaire hereby agrees to assign the rights, title and interest in the Concession to, and in favour of, the Lenders’ Representative pursuant to and in accordance with the provisions of this Agreement and the Concession Agreement by way of security in respect of financing by the Senior Lenders under the Financing Agreements.

3. **SUBSTITUTION OF THE CONCESSIONAIRE**

3.1 **Rights of substitution**

3.1.1 Pursuant to the rights, title and interest assigned under Clause 2.1, the Lenders’ Representative shall be entitled to substitute the Concessionaire by a Nominated Company under and in accordance with the provisions of this Agreement and the Concession Agreement.

3.1.2 The State Government and the Authority hereby agrees to substitute the Concessionaire by endorsement on the Concession Agreement in favour of the Nominated Company selected by the Lenders’ Representative in accordance with this Agreement. (For the avoidance of doubt, the Senior Lenders or the Lenders’ Representative shall not be entitled to operate and maintain the Project at __________________ as Concessionaire either individually or collectively).

3.2 **Substitution upon occurrence of Financial Default**

3.2.1 Upon occurrence of a Financial Default, the Lenders’ Representative may issue a notice to the Concessionaire (the “Notice of Financial Default”) along with particulars thereof, and send a copy to the State Government and the Authority for its information and record. A Notice of Financial Default under this Clause 3 shall be conclusive evidence of such Financial Default and it shall be final and binding upon the Concessionaire for the purposes of this Agreement.

3.2.2 Upon issue of a Notice of Financial Default hereunder, the Lenders’ Representative may, without prejudice to any of its rights or remedies under this Agreement or the Financing Agreements, substitute the Concessionaire by a Nominated Company in accordance with the provisions of this Agreement.

3.2.3 At any time after the Lenders’ Representative has issued a Notice of Financial Default, it may by notice require the State Government and the Authority to suspend all the rights of the Concessionaire and undertake the operation and maintenance of the facility in accordance with the provisions of the Concession Agreement, and upon receipt of such notice, the State Government or the Authority shall undertake Suspension under and in accordance with the provisions of the Concession Agreement. The aforesaid Suspension shall be revoked upon
3.3 Substitution upon occurrence of Concessionaire Default

3.3.1 Upon occurrence of a Concessionaire Default, the State Government or the Authority shall by a notice inform the Lenders’ Representative of its intention to issue a Concession Period Notice and grant 15 (fifteen) days time to the Lenders’ Representative to make a representation, stating the intention to substitute the Concessionaire by a Nominated Company.

3.3.2 In the event that the Lenders’ Representative makes a representation to the State Government or the Authority within the period of 15 (fifteen) days specified in Clause 3.3.1, stating that it intends to substitute the Concessionaire by a Nominated Company, the Lenders’ Representative shall be entitled to undertake and complete the substitution of the Concessionaire by a Nominated Company in accordance with the provisions of this Agreement within a period of 180 (one hundred and eighty) days from the date of such representation, the State Government or the Authority shall extend the aforesaid period of 180 (one hundred and eighty) days by a period not exceeding 90 (ninety) days.

3.4 Procedure for substitution

3.4.1 The State Government, the Authority and the Concessionaire hereby agree that on or after the date of Notice of Financial Default or the date of representation to the State Government and the Authority under Clause 3.3.2, as the case may be, the Lenders’ Representative may, without prejudice to any of the other rights or remedies of the Senior Lenders, invite, negotiate and procure offers, either by private negotiations or public auction or tenders for the take over and transfer of the facilities including the Concession to the Nominated Company upon such Nominated Company’s assumption of the liabilities and obligations of the Concessionaire towards the State Government and the Authority under the Concession Agreement and towards the Senior Lenders under the Financing Agreements.

3.4.2 To be eligible for substitution in place of the Concessionaire, the Nominated Company shall be required to fulfill the eligibility criteria that were laid down by the State Government and the Authority for short listing the bidders for award of the Concession.

3.4.3 Upon selection of a Nominated Company, the Lenders’ Representative shall request the State
Government and the Authority to:

(a) accede to transfer to the Nominated Company the right to construct, operate and maintain the Project facilities in accordance with the provisions of the Concession Agreement;

(b) endorse and transfer the Concession to the Nominated Company, on the same terms and conditions, for the residual Concession Period; and

(c) enter into a Substitution Agreement with the Lenders’ Representative and the Nominated Company on the same terms as are contained in this Agreement.

3.4.4 If the State Government or the Authority has any objection to the transfer of Concession in favour of the Nominated Company in accordance with this Agreement, it shall within 15 (fifteen) days from the date of proposal made by the Lenders’ Representative, give a reasoned order after hearing the Lenders’ Representative. If no such objection is raised by the State Government or the Authority, the Nominated Company shall be deemed to have been accepted. The State Government or the Authority thereupon shall transfer and endorse the Concession within 15 (fifteen) days of its acceptance/deemed acceptance of the Nominated Company; Provided that in the event of such objection by the State Government or the Authority, the Lenders’ Representative may propose another Nominated Company whereupon the procedure set forth in this Clause 3.4 shall be followed for substitution of such Nominated Company in place of the Concessionaire.

3.5 Selection to be binding

The decision of the Lenders’ Representative, the State Government and the Authority in selection of the Nominated Company shall be final and binding on the Concessionaire. The Concessionaire irrevocably agrees and waives any right to challenge the actions of the Lenders’ Representative or the Senior Lenders or the State Government or the Authority taken pursuant to this Agreement including the transfer/assignment of the Concession in favour of the Nominated Company. The Concessionaire agrees and confirms that it shall not have any right to seek revaluation of assets of the Project or the Concessionaire’s shares. It is hereby acknowledged by the Parties that the rights of the Lenders’ Representative are irrevocable and shall not be contested in any proceedings before any court or the State Government or the Authority and the Concessionaire shall have no right or remedy to prevent, obstruct or restrain the State Government or the Authority or the Lenders’ Representative from effecting or causing the transfer by substitution and endorsement of the Concession as requested by the Lenders’ Representative.

4. PROJECT AGREEMENTS

4.1 Substitution of Nominated Company in Project Agreements

The Concessionaire shall ensure and procure that each Project Agreement contains provisions that entitle the Nominated Company to step into such Project Agreement, in its consent, in place and substitution of the Concessionaire in the event of such Nominated Company’s assumption of the liabilities and obligations of the Concessionaire under the Concession Agreement.

5. TERMINATION OF CONCESSION AGREEMENT
5.1 Concession Period upon occurrence of Financial Default

At any time after issue of a Notice of Financial Default, the Lenders’ Representative may by a notice in writing require the State Government or the Authority to terminate the Concession Agreement forthwith, and upon receipt of such notice, the State Government or the Authority shall undertake Concession Period under and in accordance with the Agreement.

5.2 Concession Period when no Nominated Company is selected

In the event that no Nominated Company acceptable to the State Government and the Authority is selected and recommended by the Lenders’ Representative within the period of 180 (one hundred and eighty) days or any extension thereof as set forth in Clause 3.3.2, the State Government or the Authority may terminate the Concession Agreement forthwith in accordance with the provisions thereof.

5.3 Realisation of Debt Due

The State Government, the Authority and the Concessionaire hereby acknowledge and agree that, without prejudice to their any other right or remedy, the Lenders’ Representative is entitled to receive from the Concessionaire, without any further reference to or consent of the Concessionaire, the Debt Due upon Concession Period of the Concession Agreement. For realisation of the Debt Due, the Lenders’ Representative shall be entitled to make its claim from the Escrow Account in accordance with the provisions of the Concession Agreement and the Escrow Agreement.

6. DURATION OF THE AGREEMENT

6.1 Duration of the Agreement

This Agreement shall come into force from the date hereof and shall expire at the earliest to occur of the following events:

(a) Concession Period of the Agreement; or

(b) no sum remains to be advanced, or is outstanding to the Senior Lenders, under the Financing Agreements.

7. INDEMNITY

7.1 General indemnity

7.1.1 The Concessionaire will indemnify, defend and hold the State Government, the Authority and the Lenders’ Representative harmless against any and all proceedings, actions and third party claims for any loss, damage, cost and expense of whatever kind and nature arising out of any breach by the Concessionaire of any of its obligations under this Agreement or on account of failure of the Concessionaire to comply with Applicable Laws and Applicable Permits.

7.1.2 The State Government and the Authority will indemnify, defend and hold the Concessionaire
harmless against any and all proceedings, actions and third party claims for any loss, damage, cost and expense arising out of failure of the State Government or the Authority to fulfill any of its obligations under this Agreement, materially and adversely affecting the performance of the Concessionaire’s obligations under the Concession Agreement or this Agreement, other than any loss, damage, cost and expense, arising out of acts done in discharge of their lawful functions by the State Government or the Authority, its officers, servants and agents.

7.1.3 The Lenders’ Representative will indemnify, defend and hold the Concessionaire harmless against any and all proceedings, actions and third party claims for any loss, damage, cost and expense arising out of failure of the Lenders’ Representative to fulfill its obligations under this Agreement, materially and adversely affecting the performance of the Concessionaire’s obligations under the Concession Agreement, other than any loss, damage, cost and expense, arising out of acts done in discharge of their lawful functions by the Lenders’ Representative, its officers, servants and agents.

7.2 Notice and contest of claims

In the event that any Party hereto receives a claim from a third party in respect of which it is entitled to the benefit of an indemnity under Clause 7.1 or in respect of which it is entitled to reimbursement (the “Indemnified Party”), it shall notify the other Party responsible for indemnifying such claim hereunder (the “Indemnifying Party”) within 15 (fifteen) days of receipt of the claim and shall not settle or pay the claim without the prior approval of the Indemnifying Party, such approval not to be unreasonably withheld or delayed. In the event that the Indemnifying Party wishes to contest or dispute the claim, it may conduct the proceedings in the name of the Indemnified Party and shall bear all costs involved in contesting the same. The Indemnified Party shall provide all cooperation and assistance in contesting any claim and shall sign all such writings and documents as the Indemnifying Party may reasonably require.

8. DISPUTERESOLUTION

8.1 Dispute resolution

8.1.1 Any dispute, difference or claim arising out of or in connection with this Agreement which is not resolved amicably shall be decided by reference to arbitration to a Board of Arbitrators comprising one nominee each of the State Government, the Authority, the Concessionaire and the Lenders’ Representative. Such arbitration shall be held in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi (the “Rules”) or such other rules as may be mutually agreed by the Parties, and shall be subject to provisions of the Arbitration and Conciliation Act, 1996.

8.1.2 The Arbitrators shall issue a reasoned award and such award shall be final and binding on the Parties. The venue of arbitration shall be [*] and the language of arbitration shall be English.

9. MISCELLANEOUS PROVISIONS

9.1 Governing law and jurisdiction
This Agreement shall be construed and interpreted in accordance with and governed by the laws of India, and the Courts at [Name of the State of the Project] shall have jurisdiction over all matters arising out of or relating to this Agreement.

9.2 Waiver of immunity

The State Government and the Authority unconditionally and irrevocably:

(a) agrees that the execution, delivery and performance by it of this Agreement constitute commercial acts done and performed for commercial purpose;

(b) agrees that, should any proceedings be brought against it or its assets, property or revenues in any jurisdiction in relation to this Agreement or any transaction contemplated by this Agreement, no immunity from such proceedings shall be claimed by or on behalf of the State Government or the Authority with respect to its assets;

(c) waives any right of immunity which it or its assets, property or revenues now has, may acquire in the future or which may be attributed to it in any jurisdiction; and

(d) consents generally in respect of the enforcement of any judgment or award against it in any such proceedings to the giving of any relief or the issue of any process in any jurisdiction in connection with such proceedings (including the making, enforcement or execution against it or in respect of any assets, property or revenues whatsoever irrespective of their use or intended use of any order or judgment that may be made or given in connection therewith).

9.3 Priority of agreements

In the event of any conflict between the Concession Agreement and this Agreement, the provisions contained in the Concession Agreement shall prevail over this Agreement.

9.4 Alteration of terms

All additions, amendments, modifications and variations to this Agreement shall be effectual and binding only if in writing and signed by the duly authorised representatives of the Parties.

9.5 Waiver

9.5.1 Waiver by any Party of a default by another Party in the observance and performance of any provision of or obligations under this Agreement:

(a) shall not operate or be construed as a waiver of any other or subsequent default hereof or of other provisions of or obligations under this Agreement;

(b) shall not be effective unless it is in writing and executed by a duly authorised representative of the Party; and

(c) shall not affect the validity or enforceability of this Agreement in any manner.
9.5.2 Neither the failure by either Party to insist on any occasion upon the performance of the terms, conditions and provisions of this Agreement or any obligation there under nor time or other indulgence granted by a Party to another Party shall be treated or deemed as waiver of such breach or acceptance of any variation or the relinquishment of any such right hereunder.

9.6 No third party beneficiaries

This Agreement is solely for the benefit of the Parties and no other person or entity shall have any rights hereunder.

9.7 Survival

9.7.1 Concession Period of this Agreement:

(a) shall not relieve the Parties of any obligations hereunder which expressly or by implication survive termination hereof; and

(b) except as otherwise provided in any provision of this Agreement expressly limiting the liability of either Party, shall not relieve either Party of any obligations or liabilities for loss or damage to the other Party arising out of or caused by acts or omissions of such Party prior to the effectiveness of such termination or arising out of such termination.

9.7.2 All obligations surviving the cancellation, expiration or termination of this Agreement shall only survive for a period of 3 (three) years following the date of such termination or expiry of this Agreement.

9.8 Severability

If for any reason whatever any provision of this Agreement is or becomes invalid, illegal or unenforceable or is declared by any court of competent jurisdiction or any other instrumentality to be invalid, illegal or unenforceable, the validity, legality or enforceability of the remaining provisions shall not be affected in any manner, and the Parties will negotiate in good faith with a view to agreeing to one or more provisions which may be substituted for such invalid, unenforceable or illegal provisions, as nearly as is practicable to such invalid, illegal or unenforceable provision. Failure to agree upon any such provisions shall not be subject to dispute resolution under Clause 8 of this Agreement or otherwise.

9.9 Successors and assigns

This Agreement shall be binding on and shall inure to the benefit of the Parties and their respective successors and permitted assigns.

9.10 Notices

All notices or other communications to be given or made under this Agreement shall be in writing, shall either be delivered personally or sent by courier or registered post with an additional copy to be
sent by facsimile or e-mail. The address for service of each Party, its facsimile number and e-mail address are set out under its name on the signing pages hereto. A notice shall be effective upon actual receipt thereof, save that where it is received after 5.30 (five thirty) p.m. on any day, or on a day that is a public holiday, the notice shall be deemed to be received on the first working day following the date of actual receipt. Without prejudice to the foregoing, a Party giving or making a notice or communication by facsimile or e-mail shall promptly deliver a copy thereof personally, or send it by courier or registered post to the addressee of such notice or communication. It is hereby agreed and acknowledged that any Party may by notice change the address to which such notices and communications to it are to be delivered or mailed. Such change shall be effective when all the Parties have notice of it.

9.11 Language

All notices, certificates, correspondence and proceedings under or in connection with this Agreement shall be in English.

9.12 Authorised representatives

Each of the Parties shall by notice in writing designate their respective authorised representatives through whom only all communications shall be made. A Party hereto shall be entitled to remove and/or substitute or make fresh appointment of such authorised representative by similar notice.

9.13 Original Document

This Agreement may be executed in three counterparts, each of which when executed and delivered shall constitute an original of this Agreement.
IN WITNESS WHEREOF THE PARTIES HAVE EXECUTED AND DELIVERED THIS AGREEMENT AS OF THE DATE FIRST ABOVE WRITTEN.

THE COMMON SEAL OF CONCESSIONAIRE has been affixed pursuant to the resolution passed by the Board of Directors of the Concessionaire at its meeting held on the ……… day of 20……. hereunto affixed in the presence of……….., Director, who has signed these presents in token thereof and …………, Company Secretary / Authorised Officer who has countersigned the same in token thereof$^5$

SCHEDULE 10
SCOPE OF WORK OF PROJECT ENGINEER
(See Article 13)

1. The Project Engineer shall assist the State Government and the Authority in supervising the construction, development, operation and maintenance of the Project Facilities and shall work closely with the State Government and the Authority to monitor compliance with the KPIs. The detailed scope of work of the Project Engineer, to be read in conjunction with the provisions of the Concession Agreement, is outlined below:

1.1. The Project Engineer shall review the Designs and Drawings to be provided by the Concessionaire. These will include, inter-alia, the site layout plan, process design, drawings, structural calculations, mechanical, electrical and instrumentation works, quality plans, implementation schedules, and the environment, health & safety plans for all Project Facilities. On the basis of its review, the Project Engineer shall provide its recommendations to the State Government and the Authority.

1.2. During relevant Construction Periods, the Project Engineer shall inspect the relevant Project Facilities at least once a month and prepare an inspection report, setting out the progress of the construction of the relevant Project Facilities, defects or deficiencies, if any, and status of compliance with the Construction Plan, Technical Specifications and Designs and Drawings and the Guaranteed Interim Availability.

1.3. The Project Engineer shall be responsible to monitor the implementation of the approved environment, health & safety plan by the Concessionaire. The Project Engineer shall also verify the material safety data sheets of hazardous chemicals, if any.

1.4. The Project Engineer shall review the construction progress of the Project as per the Project Milestones proposed by the Concessionaire and provide necessary recommendations to the State Government and the Authority for the purpose of issuance of Project Milestone Certificates.

1.5. At the end of the Construction Period for different Project Facilities, the Project Engineer shall review the relevant Project Facilities and provide necessary recommendations to the State Government and the Authority with regards to the issuance of the respective Construction Completion Certificates to the Concessionaire to certify completion of construction of such Project Facilities, and the satisfaction of all other conditions required to be fulfilled by the Concessionaire.

1.6. The Project Engineer shall monitor the Trial Operations of different Project Facilities during their respective Trial Periods and provide necessary recommendations to the State Government and the Authority for the purpose of the issuance of the respective COD Certificates to the Concessionaire. The review shall be based on the Trial Operations Procedures outlined in the Concession Agreement and include the following:
   (a) Verify quality of installations, operation of equipment and workmanship;
   (b) [Verify the Standards/quality of the By-Products;]
   (c) [Verify the consumption of electricity and generation of power, if any, vis-à-vis the Guaranteed Energy Consumption.]
1.7. The Project Engineer shall review the O&M Manual and the Scheduled Maintenance Program submitted by the Concessionaire and provide its recommendations to the State Government and the Authority.

1.8. During the O&M Period, the Project Engineer shall inspect all the Project Facilities at least once a month and prepare an inspection report, setting out the defects or deficiencies, if any, and status of compliance with the relevant KPIs and Standards.

1.9. The Project Engineer shall inspect laboratories where tests are conducted on samples to ensure conformance and compliance with laboratory procedures and requirements.

1.10. The Project Engineer shall review the reports generated from the Online Monitoring Systems of different Project Facilities to assess adherence to their relevant KPIs and submit the monthly KPI Adherence Reports to the State Government and the Authority.

1.11. The Project Engineer shall assist the State Government and the Authority in estimating the interim Availability Liquidated Damages and Delay Liquidated Damages, as applicable.

1.12. The Project Engineer shall assist Authority in estimating the Liquidated Damages, as applicable.

1.13. During the Concession Period, and as requested by the State Government or the Authority, the Project Engineer shall provide its opinion and assessment on the implications of the events related to Emergency, Change in Law, Force Majeure, Fundamental Change in Law, Minor Casualty, Total Casualty, Variation and Unforeseen Site Conditions.

1.14. The Project Engineer shall participate in the survey to determine the Hand-back Conditions as per the Hand-back Requirements. It shall review the survey report of the Hand-back Conditions submitted by the Concessionaire and provide its recommendations to the State Government and the Authority on the compliance with the Hand-back Requirements.
SCHEDULE 11
DRAWINGS
(See Article 14)

Drawings

In compliance with the obligations set forth in Article 14 of this Agreement, the Concessionaire shall furnish to the Authority/Project Engineer, free of cost, all Drawings listed below:

[Note: The Authority shall list and describe in this Schedule all the Drawings that the Concessionaire is required to furnish under Article 14.]

Additional Drawings

If the Authority/Project Engineer determines that for discharging its duties and functions under this Agreement, it requires any drawings other than those listed hereinabove, it may by notice require the Concessionaire to furnish such drawings forthwith. Upon receiving a requisition to this effect, the Concessionaire shall promptly prepare and furnish such drawings to the Authority/Project Engineer as if such drawings formed part of this Schedule 11.
SCHEDULE 12
CONSTRUCTION COMPLETION SCHEDULE
(See Article 14)

1. Construction Completion Schedule

During Construction Period, the Concessionaire shall comply with the requirements set forth in this Schedule for each of the Project milestones and Scheduled Construction Completion Date (the “Project Completion Schedule”). Within [15 (fifteen)] days of the date of each Project Milestone, the Concessionaire shall notify the Authority of such compliance along with necessary particulars thereof.

2. Project Milestone-I

Project Milestone-I shall occur on the date falling on the [60th (sixtieth) day] from the Executed Date (the “Project Milestone-I”). Prior to the occurrence of Project Milestone-I, the Concessionaire shall have commenced [soil testing, groundwater testing of Municipal Dumpsite(s)], development of Project Facilities and incurred an expenditure of not less than [5% (five per cent)] of the Bid Project Cost.

2. Project Milestone-II

Project Milestone-II shall occur on the date falling on the [120th (one hundred and twentieth) day] from the Executed Date (the Project Milestone-II). Prior to the occurrence of Project Milestone-II, the Concessionaire shall have commenced construction of the Project Facilities and expended not less than [30% (thirty per cent)] of the Bid Project Cost set forth in the Bid Project Cost and conveyed to the Authority/Project Engineer, the nature and extent of physical progress comprising such expenditure so as to enable the Authority/Project Engineer to determine that the physical progress is reasonably commensurate with the expenditure incurred.

3. Scheduled Construction Completion Date

The Scheduled Completion Date shall occur on the [4th (fourth) anniversary of the Executed Date]. On or before the Scheduled Construction Completion Date, the Concessionaire shall have completed the Project Facilities in accordance with this Agreement.

4. Extension of period

Upon extension of any or all of the aforesaid Project Milestones or the Scheduled Construction Completion Date, as the case may be, under and in accordance with the provisions of this Agreement, the Project Completion Schedule shall be deemed to have been amended accordingly.
1. **Link to the Environment and Social Management Framework (ESMF) to be followed for Projects**

Environmental and Social Management Framework of Project: 
http://---

2. **Requirements for preparation of ESHS Management Strategies and Implementation Plans (ESHS-MSIP)**

The Concessionaire shall submit comprehensive and concise Environmental, Social, Health and Safety Management Strategies and Implementation Plans (ESHS-MSIP). These strategies and plans shall describe in detail the actions, materials, equipment, management processes etc. that will be implemented by the Concessionaire, and its subcontractors.

In developing these strategies and plans, the Concessionaire shall have regard to the ESHS provisions of the Concession Agreement including those as may be more fully described in the following:

a. Works Requirements described in Concession Agreement;

b. Environmental and Social Impact Assessment (ESIA);

c. Environmental and Social Management Plan (ESMP);

d. Consent Conditions (regulatory authority conditions attached to any permits or approvals for the project).

---

**Metrics for Progress Reports**

*The following Metrics should be used for regular reporting:*

a. *environmental incidents or non-compliances with Concession Agreement requirements, including contamination, pollution or damage to ground or water supplies;*

b. *health and safety incidents, accidents, injuries and all fatalities that require treatment;*

c. *interactions with regulators: identify agency, dates, subjects, outcomes (report the negative if none);*

d. *status of all permits and agreements:*

i. *work permits: number required, number received, actions taken for those not received;*

ii. *status of permits and consents:***
- list areas/facilities with permits required (quarries, asphalt & batch plants), dates of application, dates issued (actions to follow up if not issued), dates submitted to resident engineer (or equivalent), status of area (waiting for permits, working, abandoned without reclamation, decommissioning plan being implemented, etc.);
- list areas with landowner agreements required (borrow and spoil areas, camp sites), dates of agreements, dates submitted to resident engineer (or equivalent);
- identify major activities undertaken in each area this month and highlights of environmental and social protection (land clearing, boundary marking, topsoil salvage, traffic management, decommissioning planning, decommissioning implementation);
- for quarries: status of relocation and compensation (completed, or details of monthly activities and current status).

e. health and safety supervision:
   i. safety officer: number days worked, number of full inspections & partial inspections, reports to construction/project management;
   ii. number of workers, work hours, metric of PPE use (percentage of workers with full personal protection equipment (PPE), partial, etc.), worker violations observed (by type of violation, PPE or otherwise), warnings given, repeat warnings given, follow-up actions taken (if any);

f. worker accommodations:
   iii. number of expats housed in accommodations, number of locals;
   iv. date of last inspection, and highlights of inspection including status of accommodations’ compliance with national and local law and good practice, including sanitation, space, etc.;
   v. actions taken to recommend/require improved conditions, or to improve conditions.

g. HIV/AIDS: provider of health services, information and/or training, location of clinic, number of non-safety disease or illness treatments and diagnoses (no names to be provided);

h. gender (for expats and locals separately): number of female workers, percentage of workforce, gender issues raised and dealt with (cross-reference grievances or other sections as needed);

i. training:
   vi. number of new workers, number receiving induction training, dates of induction training;
   vii. number and dates of toolbox talks, number of workers receiving Occupational Health and Safety (OHS), environmental and social training;
viii. number and dates of HIV/AIDS sensitization training, no. workers receiving training (this month and in the past); same questions for gender sensitization, flaglady/flagman training.

j. environmental and social supervision:

ix. environmentalist: days worked, areas inspected and numbers of inspections of each part of the Facilities created, highlights of activities/findings (including violations of environmental and/or social best practices, actions taken), reports to environmental and/or social specialist/construction/site management;

x. sociologist: days worked, number of partial and full site inspections of each part of the Facilities created, highlights of activities (including violations of environmental and/or social requirements observed, actions taken), reports to environmental and/or social specialist/construction/site management; and

xi. community liaison person(s): days worked (hours community center open), number of people met, highlights of activities (issues raised, etc.), reports to environmental and/or social specialist/construction/site management.

k. Grievances: list this month’s and unresolved past grievances by date received, complainant, how received, to whom referred to for action, resolution and date (if completed), data resolution reported to complainant, any required follow-up (Cross-reference other sections as needed):

xii. Worker grievances;

xiii. Community grievances

l. Traffic and vehicles/equipment:

xiv. traffic accidents involving project vehicles & equipment: provide date, location, damage, cause, follow-up;

xv. accidents involving non-project vehicles or property (also reported under immediate metrics): provide date, location, damage, cause, follow-up;

xvi. overall condition of vehicles/equipment (subjective judgment by environmentalist); non-routine repairs and maintenance needed to improve safety and/or environmental performance (to control smoke, etc.).

m. Environmental mitigations and issues (what has been done):

xvii. dust: number of working bowsers, number of waterings/day, number of complaints, warnings given by environmentalist, actions taken to resolve; highlights of quarry dust
control (covers, sprays, operational status); % of rock/muram/spoil lorries with covers, actions taken for uncovered vehicles;

xviii. erosion control: controls implemented by location, status of water crossings, environmentalist inspections and results, actions taken to resolve issues, emergency repairs needed to control erosion/sedimentation;

xix. quarries, borrow areas, spoil areas, asphalt plants, batch plants: identify major activities undertaken this month at each, and highlights of environmental and social protection: land clearing, boundary marking, topsoil salvage, traffic management, decommissioning planning, decommissioning implementation;

xx. blasting: number of blasts (and locations), status of implementation of blasting plan (including notices, evacuations, etc.), incidents of off-site damage or complaints (cross-reference other sections as needed);

xxi. spill cleanups, if any: material spilled, location, amount, actions taken, material disposal (report all spills that result in water or soil contamination);

xxii. waste management: types and quantities generated and managed, including amount taken off-site (and by whom) or reused/recycled/disposed on-site;

xxiii. details of tree plantings and other mitigations required undertaken this month;

xxiv. details of water and swamp protection mitigations required undertaken this month.

n. compliance:

xxv. compliance status for conditions of all relevant consents/permits, for the Work, including quarries, etc.): statement of compliance or listing of issues and actions taken (or to be taken) to reach compliance;

xxvi. compliance status of ESMP/ESIP requirements: statement of compliance or listing of issues and actions taken (or to be taken) to reach compliance

xxvii. other unresolved issues from previous months related to environmental and social: continued violations, continued failure of equipment, continued lack of vehicle covers, spills not dealt with, continued compensation or blasting issues, etc. Cross-reference other sections as needed.

3. Requirements for the preparation of the Code of Conduct

The Concessionaire shall submit the Code of Conduct that will apply to the Concessionaire’s employees and subcontractors. The Code of Conduct shall ensure compliance with the ESHS provisions of the Concession Agreement, including those as may be more fully described in the following:
a. Works Requirements described in Concession Agreement;

b. Environmental and Social Impact Assessment (ESIA);

c. Environmental Management Plan (EMP);

d. Consent Conditions (regulatory authority conditions attached to any permits or approvals for the project).

**Minimum Requirements for the Code of Conduct**

A minimum requirement for the Code of Conduct should be set out, taking into consideration the issues, impacts, and mitigation measures identified in:

- project reports e.g. ESIA/ESMP
- consent/permit conditions
- required standards including World Bank Group EHS Guidelines and Performance Standards
- national legal and/or regulatory requirements and standards (where these represent higher standards than the WBG EHS Guidelines and PS)
- relevant standards e.g. Workers’ Accommodation: Process and Standards (Indian Standards, and in the absence of such Indian Standards those of IFC and EBRD)
- relevant sector standards e.g. workers accommodation
- grievances redress mechanisms.

The types of issues identified could include risks associated with: labor influx, spread of communicable diseases, sexual harassment, gender based violence, illicit behavior and crime, and maintaining a safe environment etc.

A satisfactory code of conduct will contain obligations on all project staff (including sub-contractors and day workers) that are suitable to address the following issues, as a minimum.

Compliance with applicable laws, rules, and regulations of the jurisdiction

1. Compliance with applicable health and safety requirements (including wearing prescribed personal protective equipment, preventing avoidable accidents and a duty to report conditions or practices that pose a safety hazard or threaten the environment)

2. The use of illegal substances

3. Non-Discrimination (for example on the basis of family status, ethnicity, race, gender, religion, language, marital status, birth, age, disability, or political conviction)

4. Interactions with community members (for example to convey an attitude of respect and non-discrimination)
5. Sexual harassment (for example to prohibit use of language or behavior, in particular towards women or children, that is inappropriate, harassing, abusive, sexually provocative, demeaning or culturally inappropriate)

6. Violence or exploitation (for example the prohibition of the exchange of money, employment, goods, or services for sex, including sexual favors or other forms of humiliating, degrading or exploitative behavior)

7. Protection of children (including prohibitions against abuse, defilement, or otherwise unacceptable behavior with children, limiting interactions with children, and ensuring their safety in project areas)

8. Sanitation requirements (for example, to ensure workers use specified sanitary facilities provided by their employer and not open areas)

9. Avoidance of conflicts of interest (such that benefits, Concession Agreement, or employment, or any sort of preferential treatment or favors, are not provided to any person with whom there is a financial, family, or personal connection)

10. Respecting reasonable work instructions (including regarding environmental and social norms)

11. Protection and proper use of property (for example, to prohibit theft, carelessness or waste)

12. Duty to report violations of this Code

13. Non retaliation against workers who report violations of the Code, if that report is made in good faith.

The Code of Conduct should be written in plain language and signed by each worker to indicate that they have:

- received a copy of the code;
- had the code explained to them;
- acknowledged that adherence to this Code of Conduct is a condition of employment; and
- understood that violations of the Code can result in serious consequences, up to and including dismissal, or referral to legal authorities.

4. Guidelines for staffing of a Core team of 3 people for implementation of the Concessionaire's ESHS obligations

* He/she should have worked as a sole expert for Urban Infrastructure projects. Experience in environment / safety / Social Risk Assessment, resettlement and rehabilitation and Management plans related to similar project would be preferred.

5. **Minimum Requirements and Guidelines for the preparation of the Screening Report**

The extent of assessment required to identify and mitigate the impacts largely depends upon the complexities of project activities. The scrutiny and screening will be based on a detailed Environment and Social Screening exercise, summarized in the following Format:

<table>
<thead>
<tr>
<th>Environment and Social information format for screening</th>

SCHEDULE 14

TESTS

(See Article 14)

1. Schedule for Tests

1.1. The Concessionaire shall, no later than [30 (thirty)] days prior to the likely completion of the Construction Period, notify the Authority/Project Engineer of its intent to subject the Project Facilities to Tests, and no later than [7 (seven)] days prior to the actual date of Tests, furnish to the Authority/Project Engineer detailed inventory and particulars of all works and equipment forming part of the Project Facilities.

1.2. The Concessionaire shall notify the Authority/Project Engineer of its readiness to subject the Project Facilities to Tests at any time after [7 (seven)] days from the date of such notice, and upon receipt of such notice, the Authority/Project Engineer shall, in consultation with the Concessionaire, determine the date and time for each Test and notify the same to the Authority who may designate its representative to witness the Tests. The Authority/Project Engineer shall thereupon conduct, or cause to be conducted, any of the following Tests in accordance with Article 14 and this Schedule.

2. Tests

2.1. In pursuance of the provisions of Article 14.12.2 of this Agreement, the Authority/Project Engineer shall conduct, or cause to be conducted, the Tests specified in this Paragraph 2.

2.2. Visual and Physical Test

The Authority/Project Engineer shall conduct a visual and physical check of the Project Facilities, to determine that all works and equipment forming part thereof conform to the provisions of this Agreement.

2.3. Trial run

The Authority/Project Engineer shall require the Concessionaire to carry out or cause to be carried out a trial run of all equipment, facilities and systems to determine that the Project Facilities are in conformity with the provisions of this Agreement.

2.4. Tests for equipment

The Authority/Project Engineer shall conduct or cause to be conducted Tests, in accordance with Good Industry Practice, for determining the compliance of all systems and equipment comprising the Project Facilities.

1.5. Environmental audit:

The Authority/Project Engineer shall carry out a check to determine conformity of the Project with the environmental requirements set forth in Applicable Laws and Applicable Permits.

1.6. Safety review:
The Authority/Project Engineer shall carry out a safety audit of the Project to determine its compliance with the provisions of this Schedule and this Agreement.

3. **Agency for Conducting Tests**

All Tests set forth in this Schedule shall be conducted by the Authority/Project Engineer or such other agency or person as it may specify in consultation with the Authority.

4. **Inspection by the Authority/Project Engineer**

Upon successful completion of Tests, the Project Engineer shall submit an Inspection Report in accordance with the provisions of Article 14.
SCHEDULE 15
FORMAT FOR [MILESTONE] COMPLETION CERTIFICATE
(See Article 14)

To whom it may concern

In consideration of the requirements of conditions of the Agreement and the Concessionaire’s application for a Completion Certificate, the Authority hereby grants the Completion Certificate.

This Completion Certificate is issued on the understanding that the conditions of the Agreement have been met except for minor outstanding work that does not affect the use and safety of the [Reclaimed Land/Project Facilities] and their intended use as certified by Authority through its letter dated [*].

Completion Certificate does not relieve the Concessionaire of any requirements or obligations within the Agreement.

SCHEDULE 17
ESCROW AGREEMENT
(See Article 19)

THIS ESCROW AGREEMENT is entered into on this the……day of …………………… 20…. 

AMONGST

(3) The State Department of [Urban Development] of [Name of the State] represented by [•], and having its offices at [•] (hereinafter referred to as the “State Government” which expression shall, unless repugnant to the context or meaning thereof, include its administrators, successors and assigns); 

AND

(4) The [Name of the Authority], incorporated under the [Name of the Act under which incorporated], represented by its [Municipal Commissioner] and having its principal offices at ***, India (hereinafter referred to as the “Authority” which expression shall unless repugnant to the context or meaning thereof include its administrators, successors and assigns); 

AND

(5) [Name of the Concessionaire], a company organized, incorporated, registered and existing under the Companies Act, with its registered office at [•] acting through [•], [Name of the authorised signatory and his/her designation] duly authorized by resolution dated [Date of the Board Resolution] (hereinafter referred to as the “Concessionaire”, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns) 

AND

(4) [Name of Escrow Bank], a bank duly constituted in accordance with Applicable Laws and carrying on the business of banking in India as a Scheduled Commercial Bank, with its registered office at [•] and acting for the purposes of this Escrow Agreement through its branch office at [•] (hereinafter referred to as the “Escrow Bank”, which expression shall unless repugnant to the context or meaning thereof includes its successors and permitted assigns).

The Authority, the Concessionaire and the Escrow Bank are collectively referred to as Parties and individually as Party.

WHEREAS:

A. The State Government and the Authority, have decided to undertake the development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste on a PPP basis, through a hybrid annuity model.
B. For this purpose, the State Government and the Authority have entered into a Concession Agreement dated ………………..with the Concessionaire (the “Concession Agreement”) for development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste on hybrid annuity basis at _________, in the State of [Name of the State], and a copy of which is annexed hereto and marked as Annex-A to form part of this Agreement.

C. In consideration of the Concessionaire designing, engineering, part-financing, procuring, constructing, installing, commissioning, operating and maintaining the Project on the Site(s) for the Concession Period, the State Government and the Authority is required to pay the Concessionaire: (i) during the Construction Period, the Construction Payments upon satisfactory completion of works corresponding to Payment Milestones; and (ii) during the O&M Period, O&M Payments comprising the Capex Annuity (along with interest), the O&M Charges and the Power Charges for the Project Facilities at actuals (subject to a cap based on the Guaranteed Energy Consumption).

D. As per the provisions of the Concession Agreement, the Authority, the State Government, the Concessionaire are required to enter into an escrow agreement with an escrow bank and is required to open an escrow account with such escrow bank and maintain the Minimum Escrow Balance for the payment of the Construction Payments and the O&M Payments.

E. The escrow account shall be funded by the State Government and the Authority in accordance with the terms of this Escrow Agreement and such account shall serve to secure the State Government and the Authority payment obligations towards the Concessionaire under the Concession Agreement.

F. The Escrow Bank is willing to serve as an escrow bank in accordance with the terms and conditions of this Escrow Agreement.

NOW, THEREFORE, the Parties hereto agree as follows:

1. DEFINITIONS AND INTERPRETATION

1.1. Capitalized terms used but not defined in this Escrow Agreement shall have the meaning given to them in the Concession Agreement.

1.2. In this Escrow Agreement, unless the context otherwise requires:

(a) Any reference to a statutory provision shall include such provision as modified or re-enacted or consolidated from time to time.

(b) The words importing the singular shall mean the plural and vice-versa; and words importing the masculine shall include the feminine and neuter and vice-versa.

(c) Headings in this Escrow Agreement are for convenience of reference only.

(d) The references to the word ‘include’ or ‘including’ or to the phrase ‘in particular’, shall be construed without limitation.
250

(e) References to any date or time of day are to Indian Standard Time; any reference to day shall mean a reference to a calendar day; any reference to a month shall mean a reference to a calendar month, any reference to a year shall mean a reference to a calendar year.

(f) The references to any agreement or deed or other instrument shall be construed as a reference to such agreement, deed, or other instrument as may be amended, varied, supplemented or novated, from time to time.

(g) Whenever provision is made for the giving or issuing of any notice, endorsement, consent, approval, permission, certificate or determination by any person, such notice, etc., shall be reasonably given, shall not be unreasonably withheld or delayed and shall be in writing. Where any notice, consent or approval is to be given by either of the Parties, the notice, consent or approval shall be given on their behalf only by any authorized persons.

(h) The words written and in writing include a facsimile transmission and any means of reproducing works in a tangible and permanently visible form.

(i) The provisions of the clauses of this Escrow Agreement shall be interpreted in such a manner that will ensure that there is no inconsistency in interpretation between the intent expressed in the clauses.

(j) In the event of any ambiguities or discrepancies between two clauses of this Escrow Agreement, the provisions of the specific clause relevant to the issue under consideration shall prevail over those in other clauses.

(k) The rule of construction, if any, that an agreement should be interpreted against the Party responsible for the drafting and preparation thereof shall not apply to this Escrow Agreement.

2. ESCROW ACCOUNT

2.1. Appointment

(a) The State Government, the Authority and the Concessionaire hereby appoint the Escrow Bank to serve as the escrow bank for the purposes of this Escrow Agreement and the Escrow Bank hereby accepts this appointment.

(b) The State Government and the Authority hereby settle in trust with the Escrow Bank a sum of INR 1,000 (Rupees one thousand). The Escrow Bank has accepted the above amount of INR 1,000 (Rupees one thousand) in trust declared and, subject to the terms and conditions in this Escrow Agreement, agreed to act as trustee for the benefit of the Concessionaire and the Authority.

(c) The Escrow Bank shall hold and safeguard the Escrow Account and any monies held therein, during the term of this Escrow Agreement and shall treat the amount in the Escrow Account as monies deposited by the State Government and the Authority with the Escrow Bank in trust in accordance with the provisions of this Escrow Agreement.
In performing its functions and duties under this Escrow Agreement, the Escrow Bank shall act as an agent of the Authority and the Concessionaire.

2.2. Escrow Account

(a) The State Government has established a bank account in the name of [●] (name of account and account number), with [●] (name of the bank), which shall be an interest bearing, no lien account, denominated in Indian Rupees for the benefit of the Concessionaire (the “Escrow Account”).

(b) The Escrow Bank shall provide details of the Escrow Account in writing to the Concessionaire and the Authority, including the date of opening of the Escrow Account.

(c) The Parties agree and acknowledge that:

(i) the Escrow Account shall be opened pursuant to, and specifically for the purposes of, this Escrow Agreement and shall be used and operated only for the purposes and in the manner provided in this Escrow Agreement and for no other use or purposes and in no other manner;

(ii) the Escrow Bank shall maintain the Escrow Account in accordance with the terms of this Escrow Agreement and its usual practices and applicable regulations;

(iii) the Escrow Bank and the Concessionaire, after consultation with the State Government and the Authority shall agree on the detailed mandates, terms and conditions and operating procedures for the Escrow Account but in the event of any inconsistency between this Escrow Agreement and such mandates, terms and conditions or procedures in this Escrow Agreement shall prevail; and

(iv) no instruction shall be given to the Escrow Bank which is not contemplated by or which is contrary to or inconsistent with this Escrow Agreement. In the event any such inconsistent or contrary instruction is given, the same shall be null and void and the Escrow Bank shall not be obliged to act upon, and shall ignore, such instructions and continue to comply with the provisions of this Escrow Agreement.

2.3. Deposits into Escrow Account

(a) Minimum Escrow Balance

At all times, to maintain the minimum balance in the Escrow Account (the “Minimum Escrow Balance”):

(i) State Government or the Authority shall deposit in the Escrow Account an amount equivalent to the first [2 (two)] Payment Milestones prior to the Compliance Date. From the Compliance Date and during the Construction Period,
the State Government and the Authority shall ensure that the Escrow Account is funded with an amount equivalent to the next [2 (two)] Payment Milestones until the Project Facilities COD; and

(ii) on and from the COD and during the O&M Period, the State Government or the Authority shall deposit the O&M Payments in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuities (along with interest), and the amount equivalent to next [3 (three)] O&M Payments for the Project Facilities, in accordance with Article 19.2(c) of the Agreement,

(b) The State Government and the Authority shall ensure that the minimum balance in the Escrow Account at all times during the Concession Period is not less than the Minimum Escrow Balance.

If at any time during the Construction Period or the O&M Period, the balance in the Escrow Account falls below the Minimum Escrow Balance, the State Government or the Authority shall promptly, and in any event, no later than 90 (ninety) days, fund the Escrow Account such that the Minimum Escrow Balance is maintained.

The Parties agree that a failure to maintain the Minimum Escrow Balance for 90 (ninety) days would be treated as an Authority Event of Default or State Government Event of Default and in such case, the consequences set out in the Concession Agreement shall apply.

(c) It is clarified that any interest earned on the amounts deposited by Authority in the Escrow Account will be counted towards the Minimum Escrow Balance.

2.4. Withdrawals from Escrow Account during the Construction Period

(a) Upon successful completion and verification of a Payment Milestone as per the Concession Agreement, the Authority is required to approve the Invoice raised by the Concessionaire within 10 (ten) days of receipt of the Invoice and issue a Payment Certificate to the Escrow Bank. The Payment Certificate shall convey the Authority's approval for the release of the amount specified in the Invoice for the relevant Payment Milestone, less any necessary deductions or adjustments in accordance with the Concession Agreement and/or Applicable Laws (including for payments to be made by the Concessionaire under applicable labour laws).

(b) If, within 10 (ten) days from the date of receipt of an Invoice, the Authority does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by the Authority, and the Concessionaire may issue instructions to the Escrow Bank (with a copy to the Authority) to release the amounts specified in the Invoice, upon the expiry of the 10 (ten) day period. Any such instruction issued by the Concessionaire to the Escrow Bank shall be accompanied with the Invoice raised by the Concessionaire for the relevant Payment Milestone.

(c) Immediately upon receipt of a Payment Certificate from the Authority in accordance with clause 2.4(a) above or upon receipt of instructions from the Concessionaire in
accordance with clause 2.4(b), the Escrow Bank shall release the amount specified in
the Payment Certificate or if no Payment Certificate has been issued, then the amount
specified in the relevant Invoice to the bank account of the Concessionaire mentioned
below:
Bank:
Account number: BIC (SWIFT):
Address of Bank:
[Insert bank account details]

The Concessionaire may change the above bank account details by giving a 5 (five)
day prior written notice to the Escrow Bank, the State Government and the Authority.

(d) Upon any termination of the Concession Agreement during the Construction Period of
the Project Facilities, the State Government or the Authority shall issue instructions to
the Escrow Bank requesting it to release and transfer any amounts due and payable to
the Concessionaire, including termination payments, if any, as certified by the Authority
and the State Government in a statement and any remaining amounts standing to the
credit of the Escrow Account shall be transferred to the following account of the
Authority/State Government:
Bank:
Account number: BIC (SWIFT):
Address of Bank:
[Insert bank account details]

The State Government and the Authority may change the above bank account details
by giving 5 (five) day prior written notice to the all the Parties to this Escrow
Agreement.

2.5. Withdrawals from Escrow Account during the O&M Period

(a) For O&M Payments in each [month/quarter], the Authority is required to approve the
Invoice raised by the Concessionaire within 10 (ten) days of receipt of the Invoice and
issue a Payment Certificate to the Escrow Bank. The Payment Certificate shall convey
the Authority’s approval for the release of the amount specified in the Invoice, less any
necessary deductions or adjustments in accordance with the Concession Agreement
and/or Applicable Laws (including for payments to be made by the Concessionaire
under applicable labour laws).

(b) If, within 10 (ten) days from the date of receipt of an Invoice, the Authority does not
dispute an Invoice, then the Invoice shall be deemed to have been accepted by the
Authority, and the Concessionaire may issue instructions to the Escrow Bank (with a
copy to the Authority to release the amounts specified in the Invoice, upon the expiry
of the 10 (ten) day period. Any such instruction issued by the Concessionaire to the
Escrow Bank shall be accompanied with the Invoice raised by the Concessionaire.

(c) Immediately upon receipt of a Payment Certificate from the Authority in accordance
with clause 2.5(a) above or upon receipt of instructions from the Concessionaire in
accordance with clause 2.5(b), the Escrow Bank shall release the amount specified in the Payment Certificate, or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice to the bank account of the Concessionaire mentioned below:

Bank:
Account number:
BIC (SWIFT):
Address of Bank:

[Insert bank account details]

The Concessionaire may change the above bank account details by giving a 5 (five) day prior written notice to the Escrow Bank, the State Government and the Authority.

(d) Upon any termination of the Concession Agreement during the O&M Period, Authority shall issue instructions to the Escrow Bank requesting it to release and transfer any amounts due and payable to the Concessionaire, including termination payments, if any, as certified by Authority in a statement and any remaining amounts standing to the credit of the Escrow Account shall be transferred to the following account of Authority:

Bank:
Account number:
BIC (SWIFT):
Address of Bank:

[Insert bank account details]

The State Government and the Authority may change the above bank account details by giving 5 (five) day prior written notice to the all the Parties to this Escrow Agreement.

2.6. The State Government and the Authority shall have the right, and the Concessionaire hereby expressly grants to the State Government and the Authority the right, to recover the costs and Damages directly from the Escrow Account, and for that purpose, the Concessionaire hereby agrees to give irrevocable instructions to the Escrow Bank to make payment from the Escrow Account in accordance with the instructions of the State Government or the Authority. Any demand from the State Government or the Authority stating that a specified amount is payable shall be final, binding and conclusive on the Concessionaire and Escrow Bank and Escrow Bank shall pay and Concessionaire shall cause the Escrow Bank to pay such amount without any demur, delay, cavil or protest on receiving a demand for such costs and Damages.

2.7. Identification and Separation

The Escrow Bank shall clearly identify in its records the Escrow Account as an escrow account and shall keep the funds standing to the credit of the Escrow Account separated and segregated from the Escrow Bank’s own funds or funds of any of its other customers or third parties.

2.8. Fees

The State Government shall pay [Rs. [*] per annum] as fees to the Escrow Bank for the
establishment and management of the Escrow Account. The State Government shall pay such fees to the Escrow Bank within 10 (ten) days of receipt of an invoice from the Escrow Bank.

2.9. Escrow Account Statements

The Escrow Bank shall provide monthly statements regarding the Escrow Account to the State Government, the Authority and the Concessionaire.

3. ESCROW AMOUNT

3.1. Promptly upon the State Government or the Authority transferring any amount to the Escrow Account, the Escrow Bank shall send a notice to the Concessionaire, the State Government and the Authority notice informing them of the transfer.

3.2. The Escrow Bank shall hold all amounts in the Escrow for the benefit of both the Concessionaire, the State Government and the Authority. Subject to clause 2.4(d) and clause 2.5(d) of this Escrow Agreement, the Escrow Bank shall not release any amount in the Escrow Account to any person other than the Concessionaire.

3.3. The Escrow Bank shall not apply any right of set-off against the amount in the Escrow Account, grant any lien over such amount, or apply any fee or deduction in relation to such amount.

4. RIGHTS, DUTIES AND OBLIGATIONS OF THE ESCROW BANK

4.1. The Escrow Bank

(a) may, in the absence of bad faith, fraud, willful default or gross negligence on its part, rely as to any matters of fact which might reasonably be expected to be within the knowledge of the State Government and the Authority, as the case may be, upon a certificate signed by or on behalf of the State Government and the Authority, as the case may be;

(b) may, in the absence of bad faith, fraud, willful default or gross negligence on its part, rely upon the authenticity of any communication or documents believed by it to be authentic;

(c) shall, within 5 (five) days after receipt, deliver a copy to the State Government and the Authority of any notice or document received by the Escrow Bank from the Concessionaire or any other Person hereunder or in connection herewith;

(d) shall, within 5 (five) days after receipt, deliver a copy to the Concessionaire of any notice or document received by the Escrow Bank from the State Government or the Authority in connection herewith; and

(e) shall maintain all records of deposits and withdrawals from the Escrow Account for the term of this Escrow Agreement.

4.2. The duties of the Escrow Bank are only as herein specifically provided, and are purely administrative in nature. The Escrow Bank shall neither be liable for, nor chargeable with knowledge of, the terms and conditions of any other agreement, instrument or document in
connection herewith, including, without limitation, the Concession Agreement, and shall be required to act in respect of the amounts in the Escrow Account only as provided in this Escrow Agreement. This Escrow Agreement sets out all the obligations of the Escrow Bank with respect to any and all matters pertinent to the Escrow Account contemplated hereunder and no additional obligations of the Escrow Bank shall be implied from the terms of any other agreement. The Escrow Bank shall incur no liability in connection with the discharge of its obligations under this Escrow Agreement or in connection therewith, except such liability as may arise from the Escrow Bank's negligence, willful misconduct or otherwise from any breach of this Escrow Agreement. Such liability, however, shall not exceed the amount in the Escrow Account at the date of the said breach by the Escrow Bank.

4.3. The Escrow Bank shall not be required to perform any act which will violate any Applicable Laws.

4.4. In the event of any bankruptcy proceedings or enforcement proceedings against any of the Parties pursuant to Applicable Laws, the Escrow Bank shall, notwithstanding the provisions of this Escrow Agreement, act and perform in accordance with Applicable Laws.

5. ESCROW AGREEMENT DEFAULTS

5.1. The following events shall constitute an event of default by the Concessionaire (an Escrow Default), unless such event of default has occurred as a result of any act or omission of the State Government or the Authority:

(a) in case the Concessionaire diverts funds drawn from the Escrow Account for a project/activity/usage other than the Project, and fails to cure such breach by not depositing an equal amount in the Escrow Account within 5 (five) days; or

(b) in the case of any other breach, by failing to remedy the breach within 5 (five) days to the satisfaction of the State Government and the Authority.

5.2. The Parties agree that an Escrow Default in terms of this Escrow Agreement shall be treated as a Concessionaire Event of Default under the Concession Agreement, and the consequences of an Escrow Default shall be dealt with in accordance with the Concession Agreement.

5.3. Upon the occurrence of an Escrow Default, the Concessionaire agrees that the State Government and the Authority shall have the right to direct the Escrow Bank to suspend withdrawals from the Escrow Account until further notice from the State Government or the Authority.

6. MISCELLANEOUS

6.1. Representations and Warranties

Each Party represents and warrants that:
(a) it has the authority to enter into this Escrow Agreement;

(b) this Escrow Agreement constitutes a legally valid and binding obligation, enforceable against it in accordance with its terms;

(c) its entry into and/or performance under this Escrow Agreement will not be in breach of any express or implied terms of any contract with or other obligation to any third party; and

(d) it is solvent and able to perform all of its obligations under this Escrow Agreement.

6.2. Notices

Any notice or other communication to be given or made under this Escrow Agreement to the Parties shall be in writing. Except as otherwise provided in this Escrow Agreement, such notice, request or other communication shall be delivered by registered mail or facsimile to the Party(ies) at the following addresses:

[State Department of Urban Development]:

[Escrow Bank]:

6.3. Entire Agreement

This Escrow Agreement and the Concession Agreement constitutes the entire agreement and understanding between the Parties with respect to its subject matter (i.e., escrow arrangement), and replaces and supersedes all prior agreements, arrangements, undertakings or statements regarding such subject matter.

6.4. Amendments

No variation of or amendment to this Escrow Agreement shall be effective unless made in writing and executed by all the Parties hereto.

6.5. Harmonious Construction

For the purpose of giving full and proper effect to this Escrow Agreement, the Concession Agreement and this Escrow Agreement shall be read together and construed harmoniously. The terms of the Concession Agreement shall prevail in the event of any inconsistencies with this Escrow Agreement.

6.6. Assignment

Neither this Escrow Agreement nor any of the rights or obligations hereunder may be assigned by a Party without the prior written consent of the other Parties, provided that the Concessionaire shall be entitled, to the extent permitted by Applicable Law and as may be required under any Financing Documents entered into by the Concessionaire, to assign or create liens over its rights and interests under or pursuant to this Escrow Agreement.

6.7. Severability

Whenever possible, each provision of this Escrow Agreement shall be interpreted in such a way as to be effective and valid under Applicable Law, but if any provision of this Escrow Agreement is unenforceable or invalid under Applicable Law, such provision shall be ineffective only to the extent of such unenforceability or invalidity, and the remaining provisions of this Escrow Agreement shall continue to be binding and in full force and effect.

6.8. Confidentiality

The Parties, their employees, representatives and agents shall keep the provisions of this Escrow Agreement strictly confidential and, except as may be required by Applicable Laws, shall make no disclosure thereof to any Person, except the Parties' respective legal counsels and professional advisers, without the prior written consent of the other Parties.
6.9. Termination

This Escrow Agreement shall be automatically terminated upon the expiry of the Concession Period or termination of the Concession Agreement and after disbursement of all amounts due and payable to the Concessionaire under the Concession Agreement, including Termination Compensation, if any, and any remaining amounts to the State Government or the Authority in accordance with clause 2.4(d) and clause 2.5(d) of this Escrow Agreement.

6.10. Dispute Resolution Mechanism

(a) If any dispute arises out of or in connection with this Escrow Agreement, this dispute shall not affect the Parties' duty to continue the performance of all of their undisputed obligations.

(b) If any dispute arises, a Party shall give notice to the other Parties of the same, whereupon the Parties shall meet promptly and in good faith to attempt to reach an amicable settlement.

(c) All disputes not settled amicably pursuant to (b) above shall be heard by the competent courts of [State of Project].

6.11. Governing Law

This Escrow Agreement shall be governed by and construed in accordance with the laws of India.

IN WITNESS WHEREOF THE PARTIES HAVE EXECUTED AND DELIVERED THIS AGREEMENT AS OF THE DATE FIRST ABOVE WRITTEN.

THE COMMON SEAL OF THE CONCESSIONAIRE has been affixed pursuant to the resolution passed by the Board of Directors of the Concessionaire at its meeting held on the ……… day of 20…… hereunto affixed in the presence of………, Director, who has signed these presents in token thereof and ………., Company Secretary / Authorised Officer who has countersigned the same in token thereof:

SIGNED, SEALED AND DELIVERED
For and on behalf of STATE GOVERNMENT by the State Government Representative:

DISCLAIMER

The information contained in this Request for Proposals document ("RFPs") or subsequently provided to Applicants, whether verbally or in documentary or any other form by or on behalf of the State Government and the Authority or any of their employees or advisers, is provided to Applicants on the terms and conditions set out in this RFP and such other terms and conditions subject to which such information is provided.

This RFP is not an agreement and is neither an offer nor invitation by the State Government and the Authority to the prospective Applicants or any other person. The purpose of this RFP is to provide interested parties with information that may be useful to them in the formulation of their Proposals pursuant to this RFP. This RFP includes statements, which reflect various assumptions and assessments arrived at by the State Government and the Authority in relation to the Project. Such assumptions, assessments and statements do not purport to contain all the information that each Applicant may require. This RFP may not be appropriate for all persons, and it is not possible for the State Government and the Authority, their employees or advisers to consider the objectives, technical expertise and particular needs of each party who reads or uses this RFP. The assumptions, assessments, statements and information contained in this RFP, may not be complete, accurate, adequate or correct. Each Applicant should, therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments and information contained in this RFP and obtain independent advice from appropriate sources.

Information provided in this RFP to the Applicants is on a wide range of matters, some of which depends upon interpretation of law. The information given is not an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative statement of law. The State Government and the Authority accept no responsibility for the accuracy or otherwise for any interpretation or opinion on the law expressed herein.

The State Government and the Authority, their employees and advisers make no representation or warranty and shall have no liability to any person including any Applicant under any law, statute, rules or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this RFP or otherwise, including the accuracy, adequacy, correctness, reliability or completeness of the RFP and any assessment, assumption, statement or information contained therein or deemed to form part of this RFP or arising in any way in this Selection Process.

The State Government and the Authority also accept no liability of any nature whether resulting from negligence or otherwise, howsoever caused, arising from reliance of any Applicant upon the statements contained in this RFP.
The State Government and the Authority may in their absolute discretion, but without being under any obligation to do so, update, amend or supplement the information, assessment or assumption contained in this RFP.

The issue of this RFP does not imply that the State Government and the Authority are bound to select an Applicant or to appoint the Selected Bidder, as the case may be, for the Project and the State Government and the Authority reserve the right to reject all or any of the Proposals without assigning any reasons whatsoever.

The Applicant shall bear all its costs associated with or relating to the preparation and submission of its Proposal including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by the State Government or the Authority or any other costs incurred in connection with or relating to its Proposal. All such costs and expenses will remain with the Applicant and the State Government or the Authority shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by an Applicant in preparation or submission of the Proposal, regardless of the conduct or outcome of the Selection Process.

Invitation for Proposals
1. INTRODUCTION

1.1. Background

1.1.1. The State Department of [Urban Development] of [Name of the State] acting through **** and represented by *** (the “State Government”) and the [Municipal Corporation of ***/Cluster of ***] acting through **** and represented by *** (the “Authority”) are engaged in the development of integrated solid waste management projects and bio-remediation of legacy waste and as part of this endeavour, the State Government and the Authority have decided to undertake development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste (the “Project”) by seeking private sector participation on Public Private Partnership (“PPP”) mode by inviting Proposals for the Project within the [jurisdiction of the Authority] (the “Project Area”) and on the site(s) identified by the Authority for the implementation of the Project (the “Site(s)”) on Hybrid Annuity Model (the “HAM”) through PPP on Design, Build, Finance, Operate and Transfer (the “DBFOT”) basis. The indicative cost of the Project is [Rs. **** Cr. (Rupees **** C fate)].

1.1.2. The Project may be awarded on DBFOT basis to a private entity (the “Concessionaire”) selected through a competitive bidding process. The Project would be implemented in accordance with the terms and conditions stated in the concession agreement to be entered into between the State Government and the Authority and the Concessionaire (the “Concession Agreement”).

1.1.3. In pursuance of the above, the Authority has decided to carry out the process for selection of a Concessionaire for implementation of the Project in accordance with the Concession Agreement.

1.2. Request for Proposals

The State Government and the Authority invite proposals (the “Proposals”) for implementation of the Project in conformity with the Concession Agreement. The State Government and the Authority intend to select the Concessionaire through an open competitive bidding process in accordance with the procedure set out herein.

1.3. Due diligence by Applicants

Applicants are encouraged to inform themselves fully about the assignment and the local conditions before submitting the Proposal by paying a visit to the Authority and the Project Site(s), sending

---

1 In case the Project is to be developed for a cluster of municipalities, one representative Municipality to be the Authority. The Municipal Corporation may also enter into inter-LSGI (Local Self Government Institution) agreements and represent other Participating Local Bodies (PLBs) as the Authority in a cluster-based approach.
written queries to the Authority, and attending a Pre-Proposal Conference on the date and time specified in Clause 1.10.

1.4. Obtaining RFP Document

RFP document can be downloaded from the Official Website and the [Name of the State of the Project] Public Procurement Portal [URL of the Public Procurement Portal] from [insert date].

1.5. Validity of the Proposal

The Proposal shall be valid for a period of not less than 90 (ninety) days from the Proposal Due Date (the “PDD”).

1.6. Brief description of the Selection Process

The State Government and the Authority have adopted a single-stage two envelope selection process (collectively the “Selection Process”) for evaluating the Proposals comprising technical and financial bids to be submitted in two separate sealed envelopes. In the first stage, a technical evaluation will be carried out as specified in Clause 3.1. Based on this technical evaluation, a list of short-listed applicants shall be prepared as specified in Clause 3.2. In the second stage, a financial evaluation will be carried out as specified in Clause 3.3. Proposals will finally be ranked according to their combined technical and financial scores as specified in Clause 3.4. The first ranked Applicant shall be selected for negotiation (the “Selected Bidder”) while the second ranked Applicant will be kept in reserve.

1.7. Currency conversion rate and payment

1.7.1. For the purposes of technical evaluation of Applicants, the conversion rate of the currencies shall be the State Bank of India Telegraphic Transfer Buy rates published by the State Bank of India prevalent on the Proposal Due Date, and the amount so derived in US$ shall be converted into INR at the aforesaid rate.

1.7.2. All payments to the selected Concessionaire shall be made in INR in accordance with the provisions of this RFP. The Concessionaire may convert INR into any foreign currency as per applicable laws and the exchange risk, if any, shall be borne by the Concessionaire.

1.8. Schedule of Selection Process

The State Government and the Authority would endeavour to adhere to the following schedule:
<table>
<thead>
<tr>
<th>Event Description</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Last date for receiving queries/clarifications</td>
<td></td>
</tr>
<tr>
<td>2. Pre-Proposal Conference</td>

<td>Within 7 days of LOA</td>
</tr>
<tr>
<td>8. Validity of Proposals</td>
<td>90 days of PDD</td>
</tr>
</tbody>
</table>

**1.9. Pre-Proposal visit to the Site and inspection of data**

Prospective Applicants may visit the Site(s) and review the available data at any time prior to PDD. For this purpose, they will provide at least [two] days’ notice to the nodal officer specified below:

*****

*****

Phone: *****

Mobile: *****

Email: *****

[However, for the convenience of the Applicants, a pre-Proposal visit to the Site(s) has been arranged on *****, at *** hrs. The Applicants who desire to avail this facility may visit ***** on the date and time mentioned above.]
1.10. Pre-Proposal Conference

The date, time and venue of Pre-Proposal Conference shall be:

Date: *****

Time: ** hours

Venue: *****

1.11. Communications

1.11.1. All communications relating to the submission of Proposal should be addressed to:

*****

Address: *****

Phone: *****

Email: *****

1.11.2. The Official Website of the Authority is:

http://www.

Note: Please open the page ‘*****’ and then page ‘*****’ to access all the posted and uploaded documents related to this RFP.

This RFP is also available at the [Name of the State] Public Procurement Portal – “*****” under the RFP titled “*****”
2. INSTRUCTIONS TO APPLICANTS

A. GENERAL

2.1. Scope of Proposal

2.1.1. Detailed description of the objectives, scope of services, deliverables and other requirements relating to this Project are specified in this RFP. For determining the eligibility of Applicants for their technical-qualification hereunder, the following shall apply:

(a) The term applicant (the “Applicant”) means a single entity or a group of entities (the “Joint Venture”/ “Consortium”), as the case may be, coming together to implement the Project. However, no Applicant applying individually or as a member of a Joint Venture/Consortium, as the case may be, can be a member of another Joint Venture/Consortium. The term Applicant used herein would apply to both a single entity and a Joint Venture/Consortium.

(b) An Applicant should either be a company within the meaning of Companies Act, 2013 or duly incorporated under the relevant laws of its country of origin, or a registered partnership firm under Indian Partnership Act, 1932, or a limited liability partnership under Limited Liability Partnership Act, 2008, or a partnership firm registered under the relevant laws of its country of origin, or any combination of them with a formal intent to enter into a Joint Bidding Agreement or under an existing agreement to form a Joint Venture/Consortium. A Joint Venture/Consortium shall be eligible for consideration subject to the conditions set out in this RFP.

2.1.2. Applicants are advised that the selection of Concessionaire shall be on the basis of an evaluation by the State Government and the Authority through the Selection Process specified in this RFP. Applicants shall be deemed to have understood and agreed that no explanation or justification for any aspect of the Selection Process will be given and that the State Government’s and the Authority’s decisions are without any right of appeal whatsoever.

2.1.3. The manner in which the Proposal is required to be submitted, evaluated and accepted is explained in this RFP. The Applicant shall submit its Proposal in the form and manner specified in this Part-2 of the RFP. The technical proposal shall be submitted in the form at Appendix-I and the financial proposal shall be submitted in the form at Appendix-II. Upon selection, the Applicant shall be required to enter into the Concession Agreement with the State Government and the Authority in the form at Schedule-I.
2.1.4. **Key Personnel**

The Applicant shall offer and make available all key personnel meeting the requirements and for discharging the responsibilities specified below (the “**Key Personnel**”).

<table>
<thead>
<tr>
<th>Key Personnel</th>
<th>Responsibilities</th>

2.2. **Conditions of Eligibility of Applicants**

2.2.1. Applicants must read carefully the minimum conditions of eligibility (the “**Conditions of Eligibility**”) provided herein. Proposals of only those Applicants who satisfy the Conditions of Eligibility will be considered for evaluation.

2.2.2. To be eligible for evaluation of its Proposal, the Applicant shall fulfil the following:

(A) **Technical Capacity:** The Applicant shall have, over the past [10 (ten) years] preceding the PDD, undertaken a minimum of [5 (five)] Eligible Assignments as specified in Clause 3.1.4.

(B) **Financial Capacity:** The Applicant shall have the Financial Capacity as specified in Clause 3.1.5.

(C) **Availability of Key Personnel:** The Applicant shall offer and make available all Key Personnel meeting the requirements specified in sub-clause (D) below. The said Key Personnel will continue to be available during the Concession Period as agreed under the Concession Agreement. In the event of any such Key Personnel leaving the Applicant selected under this RFP during the Concession Period, he/she shall be replaced by a person with equivalent qualification and experience.

---

2 The key personnel, their number and responsibilities are subject to modification.
(D) **Conditions of Eligibility for Key Personnel:** Each of the Key Personnel must fulfill the Conditions of Eligibility specified below:

<table>

2.2.3. The Applicant shall enclose with its Proposal, certificate(s) from its statutory auditors stating its Financial Capacity. In case the Applicant is a Joint Venture/Consortium, the Proposal must be accompanied with the details of each Member and Associate of the Joint Venture/Consortium whose Financial Capacity is considered for evaluation as provided in Clause 3.1.5. In the event that the Applicant does not have a statutory auditor, it shall provide the requisite certificate(s) from the firm of chartered accountants that ordinarily audits the annual accounts of the Applicant.

2.2.4. The Applicant should submit a power of attorney as per the format at Form-4 of Appendix-I.

2.2.5. Any entity which has been barred by the Central Government, any State Government, a statutory authority or a public sector undertaking, as the case may be, from participating in any project and the bar subsists as on the date of Proposal, would not be eligible to submit a Proposal either by itself or through its associate.

2.2.6. An Applicant or its associate should have, during the last three years, neither failed to perform on any agreement, as evidenced by imposition of a penalty by an arbitral or judicial authority or a judicial

---

3 The conditions of eligibility of key personnel are subject to modification.

4 No separate annual financial statements should be submitted.
pronouncement or arbitration award against the Applicant or its associate, nor been expelled from any project or agreement nor have had any agreement terminated for breach by such Applicant or its associate.

2.2.7. While submitting a Proposal, the Applicant should attach clearly marked and referenced continuation sheets in the event that the space provided in the specified forms in the Appendices is insufficient. Alternatively, Applicants may format the specified forms making due provision for incorporation of the requested information.

2.3. **Conflict of Interest**

2.3.1. An Applicant shall not have a conflict of interest that may affect the Selection Process or the Project (the “Conflict of Interest”). Any Applicant found to have a Conflict of Interest shall be disqualified. In the event of disqualification, the Authority or the State Government shall forfeit and appropriate the Bid Security as mutually agreed genuine pre-estimated compensation and damages payable to the Authority or the State Government for, *inter alia*, the time, cost and effort of the Authority and the State Government including consideration of such Applicant’s Proposal, without prejudice to any other right or remedy that may be available to the Authority and the State Government hereunder or otherwise.

2.3.2. The State Government and the Authority require that the Concessionaire provides professional, objective, and impartial advice and at all times hold the State Government’s and the Authority’s interests paramount, avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The Concessionaire shall not accept or engage in any assignment that would be in conflict with its prior or current obligations to other clients, or that may place it in a position of not being able to carry out the assignment in the best interests of the State Government and the Authority.

2.3.3. Some guiding principles for identifying and addressing Conflicts of Interest have been illustrated in the Guidance Note at Schedule-3. Without limiting the generality of the above, an Applicant shall be deemed to have a Conflict of Interest affecting the Selection Process, if:

(a) the Applicant, its Joint Venture/Consortium member (the “Member”) or Associate (or any constituent thereof) and any other Applicant, its consortium member or Associate (or any constituent thereof) have common controlling shareholders or other ownership interest; provided that this disqualification shall not apply in cases where the direct or indirect shareholding or ownership interest of an Applicant, its Member or Associate (or any shareholder thereof having a shareholding of more than 5% (five per cent) of the paid up and subscribed share capital of such Applicant, Member or Associate, as the case may be) in the other Applicant, its consortium
member or Associate is less than 5% (five per cent) of the subscribed and paid up equity share capital thereof; provided further that this disqualification shall not apply to any ownership by a bank, insurance company, pension fund or a public financial institution referred to in sub-section (72) of section 2 of the Companies Act, 2013. For the purposes of this Clause 2.3.3(a), indirect shareholding held through one or more intermediate persons shall be computed as follows: (aa) where any intermediary is controlled by a person through management control or otherwise, the entire shareholding held by such controlled intermediary in any other person (the “Subject Person”) shall be taken into account for computing the shareholding of such controlling person in the Subject Person; and (bb) subject always to sub-clause (aa) above, where a person does not exercise control over an intermediary, which has shareholding in the Subject Person, the computation of indirect shareholding of such person in the Subject Person shall be undertaken on a proportionate basis; provided, however, that no such shareholding shall be reckoned under this sub-clause (bb) if the shareholding of such person in the intermediary is less than 26% (twenty six per cent) of the subscribed and paid up equity shareholding of such intermediary; or

(b) a constituent of such Applicant is also a constituent of another Applicant; or

(c) such Applicant or its Associate receives or has received any direct or indirect subsidy or grant from any other Applicant or its Associate; or

(d) such Applicant has the same legal representative for purposes of this Proposal as any other Applicant;

(e) or such Applicant has a relationship with another Applicant, directly or through common third parties, that puts them in a position to have access to each other’s information about, or to influence the Proposal of either or each of the other Applicant; or

(f) there is a conflict among this and other ongoing Projects of the Applicant (including its personnel of the proposed team) and any subsidiaries or entities controlled by such Applicant or having common controlling shareholders. The duties of the Concessionaire will depend on the circumstances of each case. During the implementation of this Project, the Concessionaire shall not take up any Project that by its nature will result in conflict with the present Project; or

(g) the Applicant, its Member or Associate (or any constituent thereof) for the Project, its contractor(s) or sub-contractor(s) (or any constituent thereof) have common controlling shareholders or other ownership interest; provided that this disqualification shall not apply in cases where the direct or indirect shareholding or ownership interest of an Applicant, its Member or Associate (or any shareholder thereof having a shareholding of more than 5% (five per cent) of the paid up and subscribed share capital of such Applicant, Member or Associate, as the case may be,) in the Applicant, or its contractor(s) or sub-contractor(s) is less than 5% (five per cent) of the paid up and subscribed share capital of such Concessionaire or its contractor(s) or sub-contractor(s); provided further that this disqualification shall not apply to ownership by a bank, insurance company, pension fund or a Public Financial Institution referred to in sub-section (72)
of section 2 of the Companies Act, 2013. For the purposes of this sub-clause (h), indirect shareholding shall be computed in accordance with the provisions of sub-clause (a) above.

For purposes of this RFP, Associate means, in relation to the Applicant, a person who controls, is controlled by, or is under the common control with such Applicant (the “Associate”). As used in this definition, the expression “control” means, with respect to a person which is a company or corporation, the ownership, directly or indirectly, of more than 50% (fifty per cent) of the voting shares of such person, and with respect to a person which is not a company or corporation, the power to direct the management and policies of such person by operation of law or by contract. For the avoidance of doubt, an entity affiliated with the Concessionaire shall include a partner in the Concessionaire’s firm or a person who holds more than 5% (five per cent) of the subscribed and paid up share capital of the Concessionaire, as the case may be, and any Associate thereof.

2.4. **Number of Proposals**

No Applicant or its Associate shall submit more than one Proposal for the Project. An Applicant applying individually or as an Associate shall not be entitled to submit another application either individually or as a member of any Joint Venture/Consortium, as the case may be.

2.5. **Cost of Proposal**

The Applicants shall be responsible for all of the costs associated with the preparation of their Proposals and their participation in the Selection Process including subsequent negotiation, visits to the Authority, Site(s) etc. The State Government or the Authority will not be responsible or in any way liable for such costs, regardless of the conduct or outcome of the Selection Process.

2.6. **Site(s) visit and verification of information**

Applicants are encouraged to submit their respective Proposals after visiting the Site(s) and ascertaining for themselves the Site(s) conditions, traffic, location, surroundings, climate, access to the Site(s), availability of drawings and other data with the State Government and the Authority, Applicable Laws and regulations or any other matter considered relevant by them. [Visits shall be organised for the benefit of prospective Applicants on dates, time and venue as specified in Clause 1.9.]

2.7. **Acknowledgement by Applicant**

2.7.1. It shall be deemed that by submitting the Proposal, the Applicant has:

(a) made a complete and careful examination of the RFP;
(b) received all relevant information requested from the State Government and the Authority;

(c) acknowledged and accepted the risk of inadequacy, error or mistake in the information provided in the RFP or furnished by or on behalf of the State Government or the Authority or relating to any of the matters referred to in Clause 2.6 above;

(d) satisfied itself about all matters, things and information, including matters referred to in Clause 2.6 herein above, necessary and required for submitting an informed Proposal and performance of all of its obligations thereunder;

(e) acknowledged that it does not have a Conflict of Interest; and

(f) agreed to be bound by the undertaking provided by it under and in terms hereof.

2.7.2. The State Government or the Authority shall not be liable for any omission, mistake or error on the part of the Applicant in respect of any of the above or on account of any matter or thing arising out of or concerning or relating to RFP or the Selection Process, including any error or mistake therein or in any information or data given by the State Government or the Authority.

2.8. Right to reject any or all Proposals

2.8.1. Notwithstanding anything contained in this RFP, the State Government and the Authority reserve the right to accept or reject any Proposal and to annul the Selection Process and reject all Proposals, at any time without any liability or any obligation for such acceptance, rejection or annulment, and without assigning any reasons thereof.

2.8.2. Without prejudice to the generality of Clause 2.8.1, the State Government and the Authority reserve the right to reject any Proposal if:

(a) at any time, a material misrepresentation is made or discovered, or

(b) the Applicant does not provide, within the time specified by the State Government and the Authority, the supplemental information sought by the State Government and the Authority for evaluation of the Proposal.

Misrepresentation/ improper response by the Applicant may lead to the disqualification of the Applicant. If the Applicant is a Joint Venture/Consortium, then the entire Joint Venture/Consortium may be disqualified / rejected. If such disqualification / rejection occurs after the Proposals have been opened and the highest ranking Applicant gets disqualified / rejected, then the State Government and the Authority reserve the right to consider the next best Applicant, or take any other measure as may
be deemed fit in the discretion of the State Government and the Authority, including annulment of the Selection Process.

### 2.10. Submission of queries by the Applicants

2.10.1. Applicants requiring any clarification on the RFP may send their queries to the State Government and the Authority in writing via e-mail before the date mentioned in the Schedule of Selection Process at Clause 1.8, under the e-mail subject:

“Queries concerning RFP for ............ [Name of the Project and RFP No.]”

The State Government and the Authority shall endeavour to respond to the queries within the period specified therein but not later than 7 (seven) days prior to the Proposal Due Date. The responses will be sent by e-mail. The State Government and the Authority will post the reply to all such queries on the Official Website of the Authority as provided in Clause 1.11.2 and copies thereof will also be
circulated to all Applicants who have sent the queries to the RFP document without identifying the source of queries.

2.10.2. For the purposes of determining the cut-off time for submission of queries and Proposals, the central server time displayed on the clock on the [Name of the State] Public Procurement Portal will be followed by the Applicants, the State Government and the Authority.

2.10.3. The State Government and the Authority reserve the right not to respond to any questions or provide any clarifications, in its sole discretion, and nothing in this Clause 2.10 shall be construed as obliging the State Government or the Authority to respond to any question or to provide any clarification.

2.11. Amendment of RFP

2.11.1. At any time prior to the deadline for submission of Proposal, the State Government and the Authority may, for any reason, whether at their own initiative or in response to clarifications requested by an Applicant, modify the RFP document by the issuance of Addendum/ Amendment and posting it on the Official Website of the Authority and by conveying the same to the prospective Applicants (who have sent queries in respect of the RFP document) by e-mail.

2.11.2. The amendments will also be posted on the Official Website of the Authority along with the revised RFP containing the amendments and will be binding on all Applicants.

2.11.3. In order to afford the Applicants a reasonable time for taking an amendment into account, or for any other reason, the State Government and the Authority may, at their discretion, extend the Proposal Due Date.

C. PREPARATION AND SUBMISSION OF PROPOSAL

2.12. Language

The Proposal with all accompanying documents (the “Documents”) and all communications in relation to or concerning the Selection Process shall be in English language and strictly on the forms provided in this RFP. No supporting document or printed literature shall be submitted with the Proposal unless specifically asked for and in case any of these Documents is in another language, it must be accompanied by an accurate translation of the relevant passages in English, in which case, for all purposes of interpretation of the Proposal, the translation in English shall prevail.

While extending the Proposal Due Date on account of an addendum, the Authority shall have due regard for the time required by Applicants to address the amendments specified therein. In the case of significant amendments, at least 15 (fifteen) days shall be provided between the date of amendment and the Proposal Due Date, and in the case of minor amendments, at least 7 (seven) days shall be provided.
2.13. Format and signing of Proposal

2.13.1. The Applicant shall provide all the information sought under this RFP. The State Government and the Authority would evaluate only those Proposals that are received in the specified forms and complete in all respects.

2.13.2. The Proposal shall be typed and all supporting documents (submitted online or in hard-copy) shall be signed by the authorised representative (the “Authorised Representative”) of the Applicant who shall initial each page, in blue ink. For the purposes of this RFP, the Authorised Representative shall be:

(a) a partner, in case of a partnership firm and/or a limited liability partnership; or
(b) a duly authorised person holding the Power of Attorney, in case of a limited company or a corporation; or
(c) the authorised representative of the Joint Venture/Consortium.

A copy of the Power of Attorney certified under the hands of a partner or director of the Applicant and notarised by a notary public in the form specified in Appendix-I (Form-4) shall be annexed to the Proposal.

2.13.3. Applicants should note the Proposal Due Date, as specified in Clause 1.8, for submission of Proposals. Except as specifically provided in this RFP, no supplementary material will be entertained by the State Government or the Authority, and that evaluation will be carried out only on the basis of Documents received by the closing time of Proposal Due Date as specified in Clause 2.17.1. Applicants will ordinarily not be asked to provide additional material information or documents subsequent to the date of submission, and unsolicited material if submitted will be summarily rejected. For the avoidance of doubt, the State Government and the Authority reserve the right to seek clarifications under and in accordance with the provisions of Clause 2.24.

2.14. Technical Proposal

2.14.1. Applicants shall submit the technical proposal in the formats at Appendix-I (the “Technical Proposal”).

2.14.2. While submitting the Technical Proposal, the Applicant shall, in particular, ensure that:

(a) The Bid Security is provided;
(b) All forms are submitted in the prescribed formats and signed by the prescribed signatories;
(c) Power of Attorney, if applicable, is executed as per Applicable Laws;
(d) CVs of all Professional Personnel have been included;
(e) Key Personnel have been proposed only if they meet the Conditions of Eligibility laid down at Clause 2.2.2 (D) of the RFP;
(f) No alternative proposal for any Key Personnel is being made and only one CV for each position has been furnished;
(g) The CVs have been recently signed and dated in blue ink by the respective Personnel and countersigned by the Applicant. Unsigned / countersigned CVs shall be rejected;
(h) The CVs shall contain an undertaking from the respective Key Personnel about his/her availability for the duration specified in the RFP;
(i) Professional Personnel proposed have good working knowledge of English language;
(j) Key Personnel would be available for the entire Concession Period;
(k) No Key Personnel should have attained the age of 75 (seventy five) years at the time of submitting the proposal; and
(l) The proposal is responsive in terms of Clause 2.2.3.

2.14.3. Failure to comply with the requirements spelt out in this Clause 2.14 shall make the Proposal liable to be rejected.

2.14.4. If an individual Key Personnel makes a false averment regarding his qualification, experience or other particulars, or his commitment regarding availability for the Project is not fulfilled at any stage after signing of the Concession Agreement, he shall be liable to be debarred for any future assignment of the State Government and the Authority for a period of 5 (five) years. The award of the Project to the Applicant may also be liable to cancellation in such an event.

2.14.5. The Technical Proposal shall not include any financial information relating to the Financial Proposal.

2.14.6. The proposed team shall be composed of experts and specialists (the “Professional Personnel”) in their respective areas of expertise and managerial/support staff (the “Support Personnel”) such that the Concessionaire should be able to complete the Project within the specified time schedule. The Key Personnel specified in Clause 2.1.4 shall be included in the proposed team of Professional Personnel. Other competent and experienced Professional Personnel in the relevant areas of expertise must be added as required for successful completion of this Project. The CV of each such Professional Personnel, if any, should also be submitted in the format at Form-12 of Appendix-I.

2.14.7. The State Government and the Authority reserve the right to verify all statements, information and documents, submitted by the Applicant in response to the RFP. Any such verification or the lack of such verification by the State Government or the Authority to undertake such verification shall not relieve the Applicant of its obligations or liabilities hereunder nor will it affect any rights of the State Government or the Authority thereunder.
2.14.8. In case it is found during the evaluation or at any time before signing of the Concession Agreement or after its execution and during the period of subsistence thereof, that one or more of the eligibility conditions have not been met by the Applicant or the Applicant has made material misrepresentation or has given any materially incorrect or false information, the Applicant shall be disqualified forthwith if not yet appointed as the Concessionaire either by issue of the Letter of Award or entering into of the Concession Agreement, and if the Selected Bidder has already been issued the Letter of Award or has entered into the Concession Agreement, as the case may be, the same shall, notwithstanding anything to the contrary contained therein or in this RFP, be liable to be terminated, by a communication in writing by the State Government and the Authority without the State Government or the Authority being liable in any manner whatsoever to the Applicant or Concessionaire, as the case may be.

In such an event, the State Government and the Authority shall forfeit and appropriate the Bid Security as mutually agreed pre-estimated compensation and damages payable to the State Government and/or the Authority for, inter alia, time, cost and effort of the State Government and the Authority, without prejudice to any other right or remedy that may be available to the State Government and the Authority.

2.15. Financial Proposal

2.15.1. Applicants shall submit the financial proposal in the formats at Appendix-II (the “Financial Proposal”) clearly indicating the details of the cost of the Project in both figures and words, in Indian Rupees, and signed by the Applicant’s Authorised Representative. In the event of any difference between figures and words, the amount indicated in words shall prevail. In the event of a difference between the arithmetic total and the total shown in the Financial Proposal, the lower of the two shall prevail.

(a) The Financial Proposal submitted by the Applicant shall comprise the Financial Proposal provided in Appendix – II of this RFP.

(b) The Applicants shall quote in the Bid Price Sheet, for the Project, the: (a) capital cost (including all Taxes); (b) O&M Charges for the first month after COD (including all Taxes); (c) Guaranteed Energy Consumption for the O&M Period; and (d) land requirement. Based on these components quoted by an Applicant, the Bid Price will be calculated by the system using the formula set out in the Bid Price Sheet.

(c) The Applicant shall quote only one figure for any of the components of the Bid Price after all discounts the Applicant wishes to offer on any or all of the components of the Bid Price.

(d) If the Applicant: (a) quotes more than one figure for any of the components of the Bid Price; (b) offers a discount on any or all of the components of the Bid Price; then the Financial Proposal of such Applicant will be deemed to be non-responsive.
2.15.2. While submitting the Financial Proposal, the Applicant shall ensure the following:

(a) All the costs associated with the assignment shall be included in the Financial Proposal. These shall normally cover remuneration for all the Personnel (Expatriate and Resident, in the field, office, etc.), accommodation, air fare, equipment, printing of documents, surveys, geo-technical investigations, etc. The total amount indicated in the Financial Proposal shall be without any condition attached or subject to any assumption, and shall be final and binding. In case any assumption or condition is indicated in the Financial Proposal, it shall be considered non-responsive and liable to be rejected.

(b) The Financial Proposal shall take into account all expenses and tax liabilities. For the avoidance of doubt, it is clarified that all taxes shall be deemed to be included in the costs shown under different items of the Financial Proposal. Further, all payments shall be subject to deduction of taxes at source as per Applicable Laws.

(c) Costs (including break down of costs) shall be expressed in INR.

In case the annual accounts for the last financial year are not audited and therefore the Applicant cannot make it available, the Applicant shall give an undertaking to this effect, certified by the Statutory Auditor/ Chartered Accountant. In such a case, the Applicant shall provide the audited annual reports for the financial year preceding the latest financial year for which the audited annual report is not being provided.

2.15.3. Applicants may like to ascertain availability of excise/custom duty exemption benefits available in India to the contracts financed under loans/credits obtained under external assistance. They are solely responsible for obtaining such benefits which they have considered in their Proposal and in case of failure to receive such benefits for reasons whatsoever, the State Government and the Authority will not compensate the Applicant. The Applicant shall furnish along with his Proposal a declaration to this effect in the Declaration Format provided in Form-4 of Appendix-II of this RFP.

2.15.4. Where the Applicant has quoted taking into account such benefits, it must give all information required for issue of certificates in terms of the Government of India Central Excise Notification and Customs Notification as stipulated in Form-4 of Appendix-II of this RFP. In case the Applicant has not provided the required information or has indicated to be furnished later on in the Declaration Format, the same shall be construed that the goods/equipment for which certificate is required is Nil.

2.15.5. To the extent the State Government and the Authority determine the quantities indicated therein are reasonable keeping in view the proposed methodology and work plan, the certificates will be issued, and no subsequent changes will be permitted. The certificate will be issued within [60 (sixty)] days of signing of the Concession Agreement for material, equipment and machinery.
2.15.6. If the Applicant has considered the customs/excise duty exemption for materials/construction equipment to be bought for the work, the Applicant shall confirm and certify that the State Government and the Authority will not be required to undertake any responsibilities of the Schemes of Government of India or the said exemptions being available during the contract execution, except issuing the required certificate.

2.15.7. The Proposals which do not conform to the above provisions or any condition by the Applicant which makes the Proposal subject to availability of customs duty/Tax exemption for materials/construction equipment or compensation on withdrawal of any variations to the said exemptions will be treated as non-responsive and rejected.

2.15.8. Any delay in procurement of the construction equipment /machinery/goods as a result of the above shall not be entertained as a reason for granting any extension of time.

2.16. Submission of Proposal

2.16.1. E-Tendering Process

(a) The Selection Process will be conducted by way of e-tendering. In order to participate in the Selection Process, an Applicant must procure a digital signature certificate (class II or III) and register on the [Name of the State] Public Procurement Portal using its digital signature. A digital signature certificate may be procured from a registered certifying authority as stipulated by Controller of Certifying Authorities, Government of India.

(b) In case of a Consortium, the Applicant must register with the [Name of the State] Public Procurement Portal in the name of the Authorized Representative as provided in Clause 2.13.2, using the digital signature certificate issued in the name of the authorized signatory of the Authorized Representative.

(c) The Applicants are encouraged to visit the e-Procurement Portal to acquaint themselves with the process of submitting their Proposals online.

(d) The Applicants shall upload the soft copy/scanned copy of the completed Proposal on or before the specified time on the Proposal Due Date on the [Name of the State] Public Procurement Portal. Proposals submitted by any other means including by post, fax, telex, telegram or e-mail shall not be entertained.

(e) Proposal shall contain an index of submissions. Each page of the submission shall be initialled by the Authorized Representative of the Applicant as per the terms of the RFP. In case the Proposal is submitted on the document downloaded from the Official Website, the Applicant shall be responsible for its accuracy and correctness as per the version uploaded by the State Government and the Authority and shall ensure that there are no changes caused in the content.
of the downloaded document. In case of any discrepancy between the downloaded or photocopied version of the RFP and the original RFP issued by the State Government and the Authority, the latter shall prevail. In case of any discrepancy between the RFP documents uploaded on the [Name of the State] Public Procurement Portal and the Official Website of the Authority, the former shall prevail.

(f) While uploading the Proposal on the [Name of the State] Public Procurement Portal, the Applicant must ensure that files containing the Proposal and scanned copies of the Bid Security are uploaded separately under the relevant heads in a PDF format. The Applicant shall be required to fill all mandatory forms and fields indicated in the [Name of the State] Public Procurement Portal at the time of uploading its Proposal.

(g) Upon submitting the Technical Proposals and the Financial Proposals on the [Name of the State] Public Procurement Portal, the Applicants must affix their digital signature to the Technical Proposal and the Financial Proposal.

(h) The Applicants should ensure the legibility of the documents uploaded to the [Name of the State] Public Procurement Portal.

(i) The Applicant shall upload the Proposal sufficiently before the specified time on the Proposal Due Date to avoid any technical issues or malfunction in the network caused by heavy traffic of Applicants on the Proposal Due Date. The State Government and the Authority will not be responsible for any failure, malfunction or breakdown of the electronic system of the [Name of the State] Public Procurement Portal during the uploading process.

(j) The Applicant should check the system generated summary of its Proposal submission to confirm successful uploading of its Proposal.

(k) All Proposals uploaded to the [Name of the State] Public Procurement Portal will be encrypted and the encrypted Proposals can only be opened by the authorised representatives of the State Government and the Authority at or after the specified time for opening of the Proposals.

(l) Each Applicant shall also submit a hard copy of the original Bid Security, Power of Attorney, Joint Bidding Agreement, Sub-contractor Undertaking (if applicable) to the Authority, before the Proposal Due Date.

(m) It is clarified that the Applicant will not be required to submit a hard copy of its Financial Proposal, and if a hard copy of the Financial Proposal is submitted, then the Proposal submitted by such Applicant shall be rejected as being non-responsive.

(n) The Applicant will contain no alterations, omissions or additions, unless such alterations, omissions or additions are signed by the authorized signatory of the Applicant/Lead Member. Any interlineations, erasures, or overwriting will be valid only if they are signed by the
authorized signatory of the Applicant/Lead Member.

(o) The hard copy of the Bid Security, Power of Attorney, Joint Bidding Agreement, Sub-contractor Undertaking (if applicable), etc. will be duly sealed in an envelope, which will be super-scribed as:

“PPP PROJECT FOR DEVELOPMENT AND OPERATION OF INTEGRATED SOLID WASTE MANAGEMENT AND RECLAMATION OF LAND THROUGH BIO-REMEDIATION OF LEGACY WASTE TECHNICAL PROPOSAL

DO NOT OPEN BEFORE SPECIFIED TIME FOR OPENING OF PROPOSALS”

(p) The sealed envelope containing the Bid Security, Power of Attorney, Joint Bidding Agreement, etc., will clearly indicate the name, address and contact details of the Applicant. If the envelope is not sealed, marked and submitted as instructed in Clause 2.16.1, The State Government or the Authority assumes no responsibility for the misplacement or premature opening of the contents of the envelope and consequent losses, if any, suffered by the Applicant.

(q) The hard copy of the Bid Security, Power of Attorney, Joint Bidding Agreement, etc. will either be hand delivered or sent by registered post acknowledgement due or courier to the address provided in Clause 1.11.

(r) The State Government or the Authority will not be responsible for any delays, loss or non-receipt of Proposals.

2.16.2. The Technical Proposal shall contain:

(a) Application in the prescribed format provided in Appendix-I and supporting Documents;
(b) Bid Security as specified in Clause 2.20.1;
(c) Incorporation certificate of the company / proof of company registration document / memorandum of association;
(d) Copy of Agreement and letter of award/work order of the client for which technical capacity is claimed;
(e) Certificate(s) (completion or currently operating, as the case may be) from its concerned client(s) in support of “the Technical Capacity” clearly stating the capacity of project (or quantity processed till date in case of currently running project) including performance of the Applicant for the work completed during the contract period of the project in respect of the projects whose experience is claimed:
   (i) Performance certificate should be issued from the concerned client(s) (certificate issued by the commissioner or equivalent officer) shall only be considered; and
   (ii) In case a particular work/contract has been jointly executed by the Applicant (as part of a Joint Venture/Consortium), it should further support its claim for the share in work done for that particular work/contract.
2.16.3. The Financial Proposal shall contain the financial proposal in the prescribed format (Forms 1, 2 & 3 of Appendix-II). It shall be supplemented with:

(a) Certificate(s) specifying the net worth of the Applicant at the close of the preceding financial year from the PDD and specifying the methodology adopted for calculating such net worth.
(b) Copy of the latest GST Return filed/Copy of PAN Card. Not applicable for foreign Applicant.
(c) GSTIN number; not applicable for foreign Applicant.

For the purposes of this RFP, ‘Net Worth’ shall mean:

(i) **In case of a company:** the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation; and

(ii) **In case of any other entity/body corporate:** the aggregate value of the paid-up capital and reserves of such entity, after deducting the aggregate value of the intangible assets.

2.16.4. The Proposal shall be made in the Forms specified in this RFP. Any attachment to such Forms must be provided on separate sheets of paper and only information that is directly relevant should be provided. This may include photocopies of the relevant pages of printed documents. No separate documents like printed annual statements, company brochures, copy of contracts, etc., will be entertained.

2.16.5. The rates quoted shall be firm throughout the period of performance of the Project up to discharge of all obligations of the Concessionaire under the Concession Agreement.

2.16.6. Copy of Technical Proposal including original Bid Security, Power of Attorney, Joint Bidding Agreement and other documents that cannot be submitted online, should be put in separate sealed envelopes and the sealed envelopes together with the documents listed in Technical Proposal shall be sealed in another cover and delivered to the address provided in Clause 1.11 before the date and time provided in Clauses 1.18 and 2.17.

2.16.7. Additional information for submission of Proposal by Joint Venture/Consortium:

(a) There is no ceiling on the number of members of Joint Venture/Consortium;

(b) Proposal should contain the information required for each Member of the Joint Venture/Consortium:
(i) “Members of the Joint Venture/ Consortium shall nominate one member as the lead member (the “Lead Member”), who shall have [majority or 51%] equity stake/voting rights in the Joint Venture/ Consortium. The nomination of the Lead Member shall be supported by a Power of Attorney, as per the format set forth in Form-IV of Appendix-I, signed by all the other members of the Joint Venture/Consortium. The Members of the Joint Venture/Consortium shall cumulatively/ collectively fulfill all the Conditions of Eligibility;

(ii) In the event, the Joint Venture/Consortium has been declared as the Selected Bidder and issued Letter of Award, all Members of the Joint Venture/Consortium shall sign the Concession Agreement with the State Government and the Authority. In this regard, it is clarified that all the Members of the Joint Venture/Consortium shall be jointly and severally liable towards the State Government and the Authority to execute the Project during the Concession Period and irrespective of the failure of any particular Member of the Joint Venture/Consortium, the State Government and the Authority shall be entitled to call upon the Lead Member or other Member(s) of the Joint Venture/Consortium to discharge the obligations of the Joint Venture/Consortium;

(iii) The Proposal should include a brief description of the roles and responsibilities of each Member of the Joint Venture/Consortium, particularly with reference to financial and technical obligations under the Concession Agreement; and

(iv) Members of the Joint Venture/Consortium shall enter into a binding Joint Bidding Agreement (the “Joint Bidding Agreement”) for the purpose of submitting the Proposal. The Joint Bidding Agreement shall (as provided in Form - 9 of Appendix-I), inter alia:

a. in case the Joint Venture/Consortium is declared as the Selected Bidder, ensure that its shareholding/ownership equity commitments are clearly set out, and state that the Joint Venture/Consortium shall act through the Lead Member in accordance with this RFP, and subsequently carry out all the responsibilities as Concessionaire in terms of the Concession Agreement;

b. clearly outline the proposed roles and responsibilities of each Member at each stage;

c. commit the minimum equity shares to be held by each Member in the special purpose vehicle; and include a statement to the effect that all Members of the Joint Venture/Consortium shall during the Concession Period, subject to the provisions of the Concession Agreement, be liable jointly and severally for all obligations of the Concessionaire in relation to the Project.

(c) Except as provided under the bidding documents including the RFP, there shall not be any amendment to the Joint Bidding Agreement without the prior written consent of the State
Government and the Authority.

(d) Joint Bidding Agreement should be submitted along with the Proposal. The Joint Bidding Agreement entered into between the members of the Joint Venture/Consortium should be specific to the Project and should fulfill the above requirements, failing which the Proposal shall be considered non-responsive.

(e) No change in the composition of the Joint Venture/Consortium will allowed subsequent to the submission of the Proposal during the Selection Process.

(f) By submitting the Proposal, the Applicant shall be deemed to have acknowledged and agreed that in the event of a change in control or management of a Member or an Associate whose Technical Capacity and/or Financial Capacity was taken into consideration for the purposes of technical qualification under and in accordance with the RFP which adversely impacts the Project, the Applicant shall inform the State Government and the Authority forthwith along with all relevant particulars about the same and the State Government and the Authority may, at their discretion, disqualify the Applicant or withdraw the Letter of Award from the Selected Bidder, as the case may be. In such an event, notwithstanding anything to the contrary contained in the Concession Agreement, the State Government and the Authority shall forfeit and appropriate the Bid Security or Performance Security, as the case may be, as compensation and damages payable to the State Government or the Authority for, inter alia, time, cost and effort of the State Government and the Authority, without prejudice to any other right or remedy that may be available to the State Government or the Authority hereunder or otherwise.

2.17. Proposal Due Date

2.17.1. Proposal should be uploaded on the [Name of the State of the Project] Public Procurement Portal on or before **** hrs on the Proposal Due Date specified in Clause 1.8 through “online bidder enrolment” on the said portal, and submission against the RFP titled “****” and in the manner and form as detailed in this RFP.

2.17.2. For the purposes of determining the cut-off time for submission of Proposals, the central server time displayed on the clock on the [Name of the State] Public Procurement Portal will be followed by the Applicants, the State Government and the Authority.

2.17.3. The State Government and the Authority may, at their discretion, extend the Proposal Due Date by issuing an Addendum in accordance with Clause 2.11 uniformly for all Applicants.
2.18. **Late Proposals**

Proposals received by the State Government and the Authority after the specified time on Proposal Due Date shall not be eligible for consideration and shall be summarily rejected.

2.19. **Modification/substitution/withdrawal of Proposals**

2.19.1. There shall be no alterations, omissions, additions, or any other amendments made to the Proposal once submitted, except to the extent provided in Clause 2.11.

2.19.2. Any alteration/modification in the Proposal or additional information or material supplied subsequent to the Proposal Due Date, unless the same has been expressly sought for by the State Government or the Authority, shall be disregarded.

2.20. **Bid Security**

2.20.1. The Applicant shall furnish as part of its Proposal, a bid security of [Rs. *** (Rupees ***)]⁴ through online payment mode as provided on the Official Website of the Authority (the “Bid Security”), or in the form of Bank Guarantee, returnable not later than 30 (thirty) days from PDD except in case of the two highest ranked Applicants as required in Clause 2.25.1. In the event that the first ranked Applicant commences the assignment as required in Clause 2.30, the second ranked Applicant, who has been kept in reserve, shall be returned its Bid Security forthwith, but in no case not later than 120 (one hundred and twenty) days from PDD. The Selected Bidder’s Bid Security shall be returned, upon the Applicant signing the Concession Agreement in accordance with the provisions thereof.

2.20.2. Any Proposal not accompanied by the Bid Security shall be rejected by the State Government and the Authority as non-responsive.

2.20.3. The State Government or the Authority shall not be liable to pay any interest on the Bid Security and the same shall be interest free.

2.20.4. The Applicant, by submitting its Application pursuant to this RFP, shall be deemed to have acknowledged that without prejudice to the State Government’s or the Authority’s any other right or remedy hereunder or in law or otherwise, the Bid Security shall be forfeited and appropriated by the State Government and the Authority as the mutually agreed pre-estimated compensation and damage payable to the State Government and/or the Authority for, *inter alia*, the time, cost and effort of the State Government and the Authority in regard to the RFP including the consideration and evaluation of the Proposal under the following conditions:

---

⁴ May be fixed @ Rs. 25,000 (twenty five thousand) for every Rs. 100 (one hundred) crore of the indicative cost of the Project, subject to a minimum of Rs. 25,000 (twenty five thousand) and a maximum of Rs. 2,00,000 (two Lakh).
(a) If an Applicant submits a non-responsive Proposal;

(b) If an Applicant engages in any of the Prohibited Practices specified in Section 4 of this RFP;

(c) If an Applicant withdraws its Proposal during the period of its validity as specified in this RFP and as extended by the Applicant from time to time;

(d) In the case of the Selected Bidder, if the Applicant fails to reconfirm its commitments during negotiations as required vide Clause 2.25.1;

(e) In the case of a Selected Bidder, if the Applicant fails to sign the Concession Agreement or commence the assignment as specified in Clauses 2.29 and 2.30 respectively; or

(f) If the Applicant is found to have a Conflict of Interest as specified in Clause 2.3.

2.21.1. The Applicant, by submitting its Application pursuant to this RFP, shall be deemed to have acknowledged that without prejudice to the State Government’s or the Authority’s any other right or remedy hereunder or in law or otherwise, its Performance Security, ESHS Performance Security or O&M Security shall be forfeited and appropriated by the State Government or the Authority as the mutually agreed pre-estimated compensation and damages payable to the State Government or the Authority for, inter alia, the time, cost and effort of the State Government and the Authority in regard to the RFP, including the consideration and evaluation of the Proposal, under the following conditions:

(a) If an Applicant engages in any of the Prohibited Practices specified in Clause 4.1 of this RFP;

(b) If the Applicant is found to have a Conflict of Interest as specified in Clause 2.3; and

(c) If the Selected Bidder commits a breach of the Concession Agreement.

2.21.2. An amount as specified in the Article 9 of the Concession Agreement shall be deemed to be the Performance Security, ESHS Performance Security and O&M Security for the purposes of this Clause 2.21, which may be forfeited and appropriated in accordance with the provisions of the Concession Agreement.
D. EVALUATION PROCESS

2.22. Evaluation of Proposals

2.22.1. The State Government and the Authority shall open the Proposals at *** hours on the Proposal Due Date, at the place specified in Clause 1.11.1 and in the presence of the Applicants who choose to attend. The Technical Proposals shall be opened first.

2.22.2. Prior to evaluation of Proposals, the State Government and the Authority will determine whether each Proposal is responsive to the requirements of the RFP. The State Government and the Authority may, at their discretion, reject any Proposal that is not responsive hereunder. A Proposal shall be considered responsive only if:

(a) the Technical Proposal is received in the form specified at Appendix-I;

(b) it is received by the Proposal Due Date including any extension thereof pursuant to Clause 2.17;

(c) it is accompanied by the Bid Security as specified in Clause 2.20.1.

(d) it is signed by the Authorised Representative of the Applicant as stipulated in Clauses 2.13;

(e) it is accompanied by the Power of Attorney as specified in Clause 2.2.4;

(f) it contains all the information (complete in all respects) as requested in the RFP;

(g) it does not contain any condition or qualification; and

(h) it is not non-responsive in terms hereof.

2.22.3. The State Government and the Authority reserve the right to reject any Proposal which is non-responsive and no request for alteration, modification, substitution or withdrawal shall be entertained by the State Government or the Authority in respect of such Proposals.

2.22.4. The State Government and the Authority shall subsequently examine and evaluate Proposals in accordance with the Selection Process specified at Clause 1.6 and the criteria set out in Section 3 of this RFP.

2.22.5. After the technical evaluation, the State Government and the Authority shall prepare a list of pre-qualified and shortlisted Applicants in terms of Clause 3.2 for opening of their Financial Proposals. A date, time and venue will be notified to all Applicants for announcing the result of evaluation and opening of Financial Proposals. Before opening of the Financial Proposals, the list of pre-qualified
and shortlisted Applicants along with their Technical Score will be read out. The opening of Financial Proposals shall be done in presence of respective representatives of Applicants who choose to be present. The financial evaluation and final ranking of the Proposals shall be carried out in terms of Clauses 3.3 and 3.4.

2.22.6. Any information contained in the Proposal shall not in any way be construed as binding on the State Government or the Authority, their agents, successors or assigns, but shall be binding against the Applicant if the Project is subsequently awarded to it.

2.23. **Confidentiality**

Information relating to the examination, clarification, evaluation, and recommendation for the selection of Applicants shall not be disclosed to any person who is not officially concerned with the process or is not a retained professional adviser advising the State Government and the Authority in relation to matters arising out of, or concerning the Selection Process. The State Government and the Authority shall treat all information, submitted as part of the Proposal, in confidence and shall require all those who have access to such material to treat the same in confidence. The State Government and the Authority may not divulge any such information unless it is directed to do so by any statutory entity that has the power under law to require its disclosure or is to enforce or assert any right or privilege of the statutory entity and/or the State Government or the Authority or as may be required by law or in connection with any legal process.

2.24. **Clarifications sought by the State Government or the Authority**

2.24.1. To facilitate evaluation of Proposals, the State Government and the Authority may, at their discretion, seek clarifications from any Applicant regarding its Proposal. Such clarification(s) shall be provided within the time specified by the State Government and the Authority for this purpose. Any request for clarification(s) and all clarification(s) in response thereto shall be in writing.

2.24.2. If an Applicant does not provide clarifications sought under Clause 2.24.1 above within the specified time, its Proposal shall be liable to be rejected. In case the Proposal is not rejected, the State Government and the Authority may proceed to evaluate the Proposal by construing the particulars requiring clarification to the best of its understanding, and the Applicant shall be barred from subsequently questioning such interpretation of the State Government and the Authority.

E. **APPOINTMENT OF CONCESSIONAIRE**

2.25. **Negotiations**

2.25.1. The Selected Bidder may, if necessary, be invited for negotiations. The negotiations shall generally not be for reducing the price of the Proposal, but will be for re-confirming the obligations of the
Applicant under this RFP. Issues such as deployment of Key Personnel, understanding of the RFP, proposed methodology, technology and work plan shall be discussed during negotiations. A Key Personnel who did not score [60% (sixty per cent)] marks as required under Clause 3.1.2 shall be replaced by the Applicant with a better candidate to the satisfaction of the State Government and the Authority. In case the Selected Bidder fails to reconfirm its commitment, the State Government and the Authority reserve the right to designate the next ranked Applicant as the Selected Bidder and invite it for negotiations.

2.25.2. The State Government and the Authority will examine the CVs of all other Professional Personnel and those not found suitable shall be replaced by the Applicant to the satisfaction of the State Government and the Authority.

2.26. **Substitution of Key Personnel**

2.26.1. The State Government and the Authority will not normally consider any request of the Selected Bidder for substitution of Key Personnel as the ranking of the Applicant is based on the evaluation of Key Personnel and any change therein may upset the ranking. Substitution will, however, be permitted if the Key Personnel is not available for reasons of any incapacity or due to health, subject to equally or better qualified and experienced personnel being provided to the satisfaction of the State Government and the Authority.

2.26.2. The State Government and the Authority expect all the Key Personnel to be available during implementation of the Agreement. The State Government and the Authority will not consider substitution of Key Personnel except for reasons of any incapacity or due to health. Such substitution shall ordinarily be limited to one Key Personnel subject to equally or better qualified and experienced personnel being provided to the satisfaction of the State Government and the Authority. As a condition to such substitution, a sum equal to 20% (twenty per cent) of the remuneration specified for the original Key Personnel shall be deducted from the payments due to the Applicant. In the case of a second substitution hereunder, such deduction shall be 50% (fifty per cent) of the remuneration specified for the original Key Personnel. Any further substitution may lead to disqualification of the Applicant or termination of the Agreement.

2.26.3. Substitution of the Team Leader will not normally be considered and may lead to disqualification of the Applicant or termination of the Agreement.

2.27. **Indemnity**

The Applicant shall, subject to the provisions of the Agreement, indemnify the State Government and/or the Authority for an amount not exceeding 3 (three) times the value of the Agreement for any direct loss or damage that is caused due to any deficiency in services.
2.28.  Award of Project

2.28.1.  After selection, a Letter of Award (the “LOA”) shall be issued, in duplicate, by the State Government and the Authority to the Selected Bidder:

(a) declaring it as the Selected Bidder;
(b) accepting its Technical and Financial Proposal;
(c) requesting it to sign and return, as acknowledgement, a copy of the LOA within 7 (seven) days of receipt of the LOA;
(d) requesting it to submit the Performance Securities and O&M Security in accordance with Clause 2.21; and
(e) requesting it to incorporate the Special Purpose Vehicle, which will act as the Concessionaire.

2.28.2.  If the Selected Bidder fails to return a duly signed copy of the LOA to the State Government and the Authority within 7 (seven) days of receipt of the LOA, then the State Government and the Authority may, unless they consent to an extension, without prejudice to any of its rights under the RFP or law, disqualify the Selected Bidder, revoke the LOA, and forfeit the Bid Security. If the State Government and the Authority elect to disqualify such Selected Bidder and revoke the LOA, then the procedure set out in Clause 2.29.6 shall follow.

2.28.3.  After notification of award in accordance with Clause 2.28.1, the State Government and the Authority may also notify all other Applicants of the results of the Selection Process, and shall publish on the Official Website of the Authority and the [Name of the State] Public Procurement Portal, results of the Selection Process and the following information:

(i) name of each Applicant who submitted a Proposal;
(ii) results of evaluation of Technical Proposals;
(iii) names of Applicants whose Technical Proposals were rejected and the reasons for their rejection;
(iv) Bid Prices as read out at opening of Financial Proposals;
(v) name and evaluated Bid Prices of each Financial Proposal that was evaluated;
(vi) names of Applicants whose Financial Proposals were rejected and the reasons for their rejection; and
(vii) name of the Selected Bidder, the Bid Price it offered, and summary scope of the contract awarded.
30.4 The Authority shall promptly respond in writing to any unsuccessful Applicant who, after notification of award in accordance with Clause 2.28, requests in writing the grounds on which its Proposal was not selected.

2.29. Execution of the Concession Agreement

2.29.1. After acknowledgement of the LOA as aforesaid by the Selected Bidder, the Special Purpose Vehicle incorporated by the Selected Bidder shall execute the Concession Agreement within the period prescribed in Clause 1.8.

2.29.2. If the Special Purpose Vehicle fails to execute the Concession Agreement on or before the date specified in Clause 1.8, the State Government and the Authority may, unless they consent to an extension, without prejudice to any of their rights under the RFP or law, disqualify the Selected Bidder, revoke the LOA and forfeit the Bid Security. If State Government and the Authority elect to disqualify such Selected Bidder and revoke the LOA, then the procedure set out in Clause 2.29.6 shall follow.

2.29.3. The Selected Bidder shall not be entitled to seek any deviation in the Concession Agreement except the amendments to reflect facts or to correct minor errors.

2.29.4. If the Selected Bidder seeks to materially negotiate or seeks any material deviations from the final execution draft of the Concession Agreement, the State Government and the Authority may elect to disqualify the Selected Bidder and revoke the LOA issued to the Selected Bidder. If the State Government and the Authority elect to disqualify such Selected Bidder and revoke the LOA, then the procedure set out in Clause 2.29.6 shall follow.

2.29.5. If the State Government and the Authority elect to disqualify such Selected Bidder and revoke the LOA, the State Government and the Authority will not be liable in any manner whatsoever to the Selected Bidder. Additionally, the State Government and the Authority will have the right to forfeit and appropriate the Bid Security or, as the case may be, appropriate an equivalent amount from the Performance Security if the Concession Agreement has been executed, as a mutually agreed genuine pre-estimate of the loss suffered by the State Government and the Authority for, amongst others, the State Government's and the Authority’s time, cost and efforts in conducting the Selection Process. Such forfeiture will be without prejudice to any other right or remedy that the State Government and the Authority may have under the RFP, the Concession Agreement or Applicable Laws.

2.29.6. If the State Government and the Authority elect to disqualify such Selected Bidder and revoke the LOA the State Government and the Authority reserve the right to:

(a) select the next highest ranking Applicant as the Selected Bidder for the Project; or

(b) take any such measure as may be deemed fit in the discretion of State Government and the Authority, including inviting fresh Financial Proposals from the technically qualified Applicants or annulling the entire Selection Process.
2.30. **Commencement of Project**

The Applicant shall commence the implementation of the Project at the Site(s) within [7 (seven)] days of the execution date of the Concession Agreement, or such other date as may be mutually agreed. If the Applicant fails to either sign the Concession Agreement as specified in Clause 2.29 or commence the Project as specified herein, the State Government and the Authority may invite the second ranked Applicant for negotiations. In such an event, the Bid Security of the first ranked Applicant shall be forfeited and appropriated in accordance with the provisions of Clause 2.20.4.

2.31. **Proprietary data**

Subject to the provisions of Clause 2.23, all documents and other information provided by the State Government and the Authority or submitted by an Applicant to the State Government and the Authority shall remain or become the property of the State Government and the Authority. Applicants and the Applicant, as the case may be, are to treat all information as strictly confidential. The State Government or the Authority will not return any Proposal or any information related thereto. All information collected, analysed, processed or in whatever manner provided by the Applicant to the State Government and the Authority in relation to the Project shall be the property of the State Government and the Authority.
3. CRITERIA FOR EVALUATION

3.1. Evaluation of Technical Proposals

3.1.1. In the first stage, the Technical Proposal will be evaluated on the basis of Applicant’s experience, its understanding of scope of work and scope of services as set out in the Concession Agreement, proposed methodology, technology and work plan, and the experience of Key Personnel. Only those Applicants whose Technical Proposals get a score of [60 (sixty) marks] or more out of 100 (one hundred) shall qualify for further consideration, and shall be ranked from highest to the lowest on the basis of their technical score ($S_T$).

3.1.2. Each Key Personnel must score a minimum of [60% (sixty per cent)] marks except as provided herein. A Proposal shall be rejected if the Team Leader scores less than [60% (sixty per cent)] marks or any two of the remaining Key Personnel score less than [60% (sixty per cent)] marks. In case the Selected Bidder has one Key Personnel, other than the Team Leader, who scores less than [60% (sixty per cent)] marks, he would have to be replaced during negotiations, with a better candidate who, in the opinion of the State Government and the Authority, would score [60% (sixty per cent)] or above.

3.1.3. The scoring criteria to be used for evaluation shall be as follows:5

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Maximum Marks</th>
<th>Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. [Relevant Experience of the Applicant]</td>
<td>[40]</td>
<td>[30% of the maximum marks shall be awarded for the number of Eligible Assignments undertaken by the Applicant. The remaining 70% shall be awarded for: (i) the comparative size and quality of Eligible Assignments; (ii) other relevant assignments or similar work; and (iii) overall experience of the Applicant.]</td>
</tr>
<tr>
<td>2. [Proposed Methodology, Technology and Work Plan]</td>
<td>[30]</td>
<td>[Evaluation will be based on the quality of submissions.]</td>
</tr>
<tr>
<td>3. [Relevant Experience of the Key Personnel]6</td>
<td>[30]</td>
<td>[30% of the maximum marks for each Key Personnel shall be awarded for the number of Eligible Assignments the respective Key Personnel has worked on. The remaining 70% shall be awarded for: (i) the comparative size and quality of Eligible Assignments; and (ii) other relevant assignments or similar work.]</td>
</tr>
<tr>
<td>3(a) Team Leader</td>
<td></td>
<td></td>
</tr>
<tr>
<td>3(b) Safety Expert</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

5 The scoring criteria is subject to modification.

6 The Key Personnel and their respective maximum marks may be suitably modified to address project-specific requirements.
3.1.4. Eligible Assignments

For the purposes of determining Conditions of Eligibility and for evaluating the Proposals under this RFP, the following projects shall be deemed as eligible assignments (the “Eligible Assignments”):

(a) [Setting up of Sanitary Land filling (SLF) facility, construction of waste processing facility and material recovery facility in India or abroad of the capacity of *** Tonnes Per Day (TPD) in the period of past ten years from the PDD];

(b) [Operations in collection, transportation, processing and disposal of municipal solid waste of ** TPD capacity for three years or more in India or abroad in the period of past ten years from the PDD];

(c) [One project of 40% of the total estimated capacity for Bio-remediation/reclamion i.e. ** lakh cubic metres of legacy waste OR Two projects of 30% of the total estimated capacity for Bio-remediation/reclamion i.e. ** lakh cubic metres of legacy waste in the period of past ten years from the PDD].

[Provided that where the Key Personnel is claiming credit for an Eligible Assignment, she/he should have completed the relevant assignment prior to PDD.]
3.1.5. Financial Capacity

To demonstrate its financial capacity to undertake the Project (Financial Capacity), the Applicant must meet each of the financial qualification criteria specified in this Clause 3.1.5.

(a) Net worth

(i) In each of the Financial Years [Mention the 5 Financial Years preceding the Proposal Due Date], the Applicant's Net Worth (as per the audited annual financial statements) shall be at least INR [25% to 33% of the Bid Project Cost].

(ii) If the Applicant is a Consortium, then the Net Worth, as required in Clause 3.1.5 (a)(i) above shall be demonstrated cumulatively, i.e., the Consortium as a whole should meet the requirement. Provided further that if the Applicant is subsequently declared the Selected Bidder for the Project, then any Member of the Consortium whose Net Worth was assessed for the purposes of demonstrating that the Consortium has the Financial Capacity to undertake the Project, shall hold at least 26% (twenty six per cent) shareholding in the paid up and subscribed equity of the concessionaire/SPV until expiry of 3 (three) years from COD.

(iii) An Applicant or a Member of a Consortium may rely on the Net Worth of its Associate(s) for demonstrating its Financial Capacity. In such a case, the Applicant or a Member of a Consortium shall submit an undertaking from the Associate(s) stating that the necessary proportionate equity for the project will be provided for successful implementation of the project. In addition to this, during Financial Closure, necessary board resolution from the Associate(s) has to be submitted to the extent of equity contribution.

(b) The Applicant (and in case of a Consortium, any Member) and its Associate(s) (in case the Net Worth of the Associate is being claimed) is not affected by and has not been affected by any of the following events, conditions or circumstances in the [5 (five)] Financial Years immediately preceding the Proposal Due Date, as certified by the statutory auditor of the Applicant (and in case of a Consortium, the statutory auditor of a Member) and its Associate(s) (if applicable):

(i) the Applicant (and the Associate(s), if applicable) having been categorized as a wilful defaulter in accordance with Applicable Laws or laws of the country of its incorporation;

(ii) the Applicant (and the Associate(s), if applicable) being subject to proceedings for declaration of or being declared bankrupt, being wound up, or having its affairs administered or conducted by any court, administrator, receiver; or
(iii) the Applicant (and the Associate(s), if applicable) having been declared by a court or other competent authority as being unable to pay its debts, or having made any composition or arrangements with creditors or having had the repayment of its debts suspended.

(c) The Applicant (and in case of a Consortium, any Member) and its Associate(s) (if applicable) has not been convicted or otherwise being found responsible (or having any of its directors, partners, trustees, officers or managers convicted or being found responsible) by any court, tribunal, regulatory, public or other competent authority for a breach of any laws or regulations which:

(i) related to any act of fraud or dishonesty for which a fine, penalty, damages, compensation or other payment was levied against the Applicant (and the Associate(s), if applicable) or any of its directors, partners, trustees, officers or managers; or

(ii) resulted in the permanent or temporary suspension of the rights of the Applicant (and the Associate(s), if applicable) to provide any service or carry on any type of business or operations.

3.2. Short-listing of Applicants

The Applicants scoring equal to or above [60 (sixty)] points after the evaluation of the Technical Proposals, will be pre-qualified and short-listed for financial evaluation. However, if the number of such pre-qualified Applicants is less than two, the State Government and the Authority may, at their discretion, pre-qualify the Applicant(s) whose technical score is less than [60 (sixty)] points even if such Applicant(s) do(es) not qualify in terms of Clause 3.1.2.

3.3. Evaluation of Financial Proposal

3.3.1. In the second stage, the financial evaluation will be carried out as per this Clause 3.3. Each Financial Proposal will be assigned a financial score ($F_F$).

(a) Financial Proposals, which are responsive, shall be evaluated for the quoted Bid Price as under (on the basis of net present value):

(i) Capital cost including all taxes & GST;

(ii) O&M prices for the Project 20 years = O&M Charges including all taxes & GST for first month after COD) * 240
(iii) Cost of energy consumption for the Project during 20 years of O&M Period =
[Average Guaranteed Energy Consumption per tonne * Base Energy Tariff Rate *
design capacity of Project Facilities * Number of days of the O&M period]

For the purpose of this calculation of energy cost:

[Average Guaranteed Energy Consumption per tonne = Average of different
Guaranteed Energy Consumption figures in KWh quoted in Bid Price Sheet for
processing and recycling various kinds of solid waste];

Base Energy Tariff Rate = INR [Rate]/KWh; and

Number of days of the O&M period = 7300

(iv) Cost of land required for the Project = land requirement in metre square (sq.m.) as
quoted by the Applicant (including land requirement for decentralized units) * land
price per sq.m. determined as per the circle rate

For the purpose of evaluation, land price = INR [Price] per sq.m.

Total Evaluated Bid Price = (i) + (ii) + (iii) + (iv)

(b) The State Government and the Authority shall compare the Total Evaluated Bid Price of all
responsive Financial Proposals to determine the lowest Financial Proposal.

3.3.2. The State Government and the Authority will determine whether the Financial Proposals are
complete, unqualified and unconditional. Omissions, if any, in costing any item shall not entitle the
Applicant to be compensated and the liability to fulfill its obligations as per the Concession
Agreement within the Bid Price shall be that of the Applicant. The lowest Financial Proposal (FM)
will be given a financial score ($F$) of 100 points. The financial scores of other proposals will be
computed as follows:

$$S_F = 100 \times \frac{F_M}{F}$$

($F$ = amount of Financial Proposal)

3.4. Combined and final evaluation

3.4.1. Proposals will finally be ranked according to their combined technical ($S_T$) and financial ($S_F$) scores
as follows:

$$S = S_T \times T_w + S_F \times F_w$$
Where $S$ is the combined score, and $T_w$ and $F_w$ are weights assigned to Technical Proposal and Financial Proposal, which shall be [0.70 and 0.30] respectively.

3.4.2. The Selected Bidder shall be the first ranked Applicant (having the highest combined score). The second ranked Applicant shall be kept in reserve and may be invited for negotiations in case the first ranked Applicant withdraws, or fails to comply with the requirements specified in Clauses 2.25, 2.29 and 2.30, as the case may be.
4. FRAUD AND CORRUPT PRACTICES

4.1. The Applicants and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Selection Process. Notwithstanding anything to the contrary contained in this RFP, the State Government and the Authority shall reject a Proposal without being liable in any manner whatsoever to the Applicant, if it determines that the Applicant has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the “Prohibited Practices”) in the Selection Process. In such an event, the State Government or the Authority shall, without prejudice to its any other rights or remedies, forfeit and appropriate the Bid Security or Performance Security, as the case may be, as mutually agreed genuine pre-estimated compensation and damages payable to the State Government and/or the Authority for, inter alia, time, cost and effort of the State Government and the Authority, in regard to the RFP, including consideration and evaluation of such Applicant’s Proposal.

4.2. Without prejudice to the rights of the State Government and the Authority under Clause 4.1 hereinabove and the rights and remedies which the State Government and the Authority may have under the LOA or the Agreement, if an Applicant or Applicant, as the case may be, is found by the State Government or the Authority to have directly or indirectly or through an agent, engaged or indulged in any corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice during the Selection Process, or after the issue of the LOA or the execution of the Agreement, such Applicant or Applicant shall not be eligible to participate in any tender or RFP issued by the State Government and the Authority during a period of 2 (two) years from the date such Applicant or Applicant, as the case may be, is found by the State Government or the Authority to have directly or through an agent, engaged or indulged in any corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice, as the case may be.

4.3. For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

(a) “corrupt practice” means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Selection Process (for avoidance of doubt, offering of employment to or employing or engaging in any manner whatsoever, directly or indirectly, any official of the State Government or the Authority who is or has been associated in any manner, directly or indirectly with the Selection Process or the LOA or has dealt with matters concerning the Agreement or arising therefrom, before or after the execution thereof, at any time prior to the expiry of one year from the date such official resigns or retires from or otherwise ceases to be in the service of the State Government or the Authority, as the case may be, shall be deemed to constitute influencing the actions of a person connected with the Selection Process); or (ii) save as provided herein, engaging in any manner
whatsoever, whether during the Selection Process or after the issue of the LOA or after the execution of the Agreement, as the case may be, any person in respect of any matter relating to the Project or the LOA or the Agreement, who at any time has been or is a legal, financial or technical consultant/adviser of the State Government or the Authority in relation to any matter concerning the Project;

(b) “fraudulent practice” means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Selection Process;

(c) “coercive practice” means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person’s participation or action in the Selection Process;

(d) “undesirable practice” means (i) establishing contact with any person connected with or employed or engaged by the State Government or the Authority with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Selection Process; or (ii) having a Conflict of Interest; and

(e) “restrictive practice” means forming a cartel or arriving at any understanding or arrangement among Applicants with the objective of restricting or manipulating a full and fair competition in the Selection Process.
5. **PRE-PROPOSAL CONFERENCE**

5.1. Pre-Proposal Conference of the Applicants shall be convened at the designated date, time and place. A maximum of two representatives of each Applicant shall be allowed to participate on production of an authority letter from the Applicant.

5.2. During the course of Pre-Proposal Conference, the Applicants will be free to seek clarifications and make suggestions for consideration of the State Government and the Authority. The State Government and the Authority shall endeavour to provide clarifications and such further information as it may, in its sole discretion, consider appropriate for facilitating a fair, transparent and competitive Selection Process.
6. MISCELLANEOUS

6.1. The Selection Process shall be governed by, and construed in accordance with, the laws of India and the Courts in the [Name of the State of the Project] shall have exclusive jurisdiction over all disputes arising under, pursuant to and/or in connection with the Selection Process.

6.2. The State Government and the Authority, at their discretion and without incurring any obligation or liability, reserves the right, at any time, to:
   (a) suspend and/or cancel the Selection Process and/or amend and/or supplement the Selection Process or modify the dates or other terms and conditions relating thereto;
   (b) consult with any Applicant in order to receive clarification or further information;
   (c) retain any information and/or evidence submitted to the State Government or the Authority by, on behalf of and/or in relation to any Applicant; and/or
   (d) independently verify, disqualify, reject and/or accept any and all submissions or other information and/or evidence submitted by or on behalf of any Applicant.

6.3. It shall be deemed that by submitting the Proposal, the Applicant agrees and releases the State Government and the Authority, their employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and/or performance of any obligations hereunder, pursuant hereto and/or in connection herewith and waives any and all rights and/or claims it may have in this respect, whether actual or contingent, whether present or future.

6.4. All documents and other information supplied by the State Government or the Authority or submitted by an Applicant shall remain or become, as the case may be, the property of the State Government and the Authority. The State Government and the Authority will not return any submissions made hereunder. Applicants are required to treat all such documents and information as strictly confidential.

6.5. The State Government and the Authority reserve the right to make inquiries with any of the clients listed by the Applicants in their previous experience record.

................................
................................
................................

Subject: Appointment of Concessionaire for development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste

Dear Madam/Sir,

With reference to your RFP Document dated ………….., I/we, having examined all relevant documents and understood their contents, hereby submit our Proposal for selection as Concessionaire for the development and operation of integrated solid waste management system and reclamation of land through bio-remediation of legacy waste (the “Project”). The proposal is unconditional and unqualified.

2. All information provided in the Proposal and in the Appendices is true and correct and all documents accompanying such Proposal are true copies of their respective originals.

3. This statement is made for the express purpose of appointment as the Concessionaire for the aforesaid Project.

4. I/We shall make available to the State Government and the Authority any additional information it may deem necessary or require for supplementing or authenticating the Proposal.

5. I/We acknowledge the right of the State Government and the Authority to reject our application without assigning any reason or otherwise and hereby waive our right to challenge the same on any account whatsoever.

6. I/We certify that in the last five years, we or any of our Associates have neither failed to perform on any contract, as evidenced by imposition of a penalty by an arbitral or judicial authority or a judicial pronouncement or arbitration award against the Applicant, nor been expelled from any project or contract by any public authority nor have had any contract terminated by any public authority for breach on our part.

7. I/We declare that:
(a) I/We have examined and have no reservations to the RFP Documents, including any Addendum issued by the State Government and the Authority;

(b) I/We do not have any conflict of interest in accordance with Clause 2.3 of the RFP Document;

(c) I/We have not directly or indirectly or through an agent engaged or indulged in any corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice, as defined in Clause 4.3 of the RFP document, in respect of any tender or request for proposal issued by or any agreement entered into with the State Government and the Authority or any other public sector enterprise or any government, Central or State; and

(d) I/We hereby certify that we have taken steps to ensure that in conformity with the provisions of Section 4 of the RFP, no person acting for us or on our behalf will engage in any corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice.

8. I/We understand that you may cancel the Selection Process at any time and that you are neither bound to accept any Proposal that you may receive nor to select the Concessionaire, without incurring any liability to the Applicants in accordance with Clause 2.8 of the RFP document.

9. I/We declare that we/any member of the Joint Venture/Consortium, are/is not a Member of any other Joint Venture/Consortium applying for selection as a Concessionaire.

10. I/We certify that in regard to matters other than security and integrity of the country, we or any of our Associates have not been convicted by a Court of Law or indicted or adverse orders passed by a regulatory authority which would cast a doubt on our ability to undertake the Project or which relates to a grave offence that outrages the moral sense of the community.

11. I/We further certify that in regard to matters relating to security and integrity of the country, we have not been charge-sheeted by any agency of the Government or convicted by a Court of Law for any offence committed by us or by any of our Associates.

12. I/We further certify that no investigation by a regulatory authority is pending either against us or against our Associates or against our CEO or any of our Directors/Managers/employees.\(^5\)

13. I/We hereby irrevocably waive any right or remedy which we may have at any stage at law or howsoever otherwise arising to challenge or question any decision taken by the State Government and the Authority [and/or the Government of India] in connection with the selection of Concessionaire or in connection with the Selection Process itself in respect of the above mentioned Project.

---

\(^5\) In case the Applicant is unable to provide the certification specified in Paragraph 12, it may precede the Paragraph by the words viz. “Except as specified in Schedule ………….. hereto”. The exceptions to the certification or any disclosures relating thereto may be clearly stated in a Schedule to be attached to the Application. The Authority will consider the contents of such Schedule and determine whether or not the exceptions/disclosures are material to the suitability of the Applicant for pre-qualification hereunder.
14. The Bid Security of Rs. .................. (Rupees ........................................) has been submitted through online mode of payment as provided in the RFP document.

15. I/We agree and understand that the proposal is subject to the provisions of the RFP document. In no case, shall I/we have any claim or right of whatsoever nature if the Project is not awarded to me/us or our proposal is not opened or rejected.

16. I/We agree to keep this offer valid for 90 (ninety) days from the Proposal Due Date specified in the RFP.

17. A Power of Attorney in favour of the authorised signatory to sign and submit this Proposal and documents is attached herewith in Form-4 of Appendix-I.

18. In the event of my/our firm/ Joint Venture/Consortium being selected as the Concessionaire, I/we agree to enter into the Concession Agreement in accordance with the Schedule-I of the RFP. We agree not to seek any changes in the aforesaid form and agree to abide by the same.

19. I/We have studied RFP and all other documents carefully and also surveyed the Site(s). We understand that except to the extent as expressly set forth in the Concession Agreement, we shall have no claim, right or title arising out of any documents or information provided to us by the State Government or the Authority or in respect of any matter arising out of or concerning or relating to the Selection Process including the award of Project.

20. The Financial Proposal is being submitted separately. This Technical Proposal read with the Financial Proposal shall constitute the Application which shall be binding on us.

21. I/We agree and undertake to abide by all the terms and conditions of the RFP Document. In witness thereof, I/we submit this Proposal under and in accordance with the terms of the RFP Document.

Yours faithfully,

(Signature, name and designation of the authorised signatory)

(Name and seal of the Applicant / Lead Member)

Form-7

Proposed Methodology, Technology and Work Plan

The proposed methodology, technology and work plan shall be described as follows:

1. Understanding of terms and conditions of the Concession Agreement (not more than two pages)

The Applicant shall clearly state its understanding of the terms and conditions of the Concession Agreement and also highlight its important aspects.

2. Methodology and Work Plan (not more than three pages)

The Applicant will submit its methodology for carrying out the Project, outlining its approach toward achieving the key performance indicators laid down in the Concession Agreement. The Applicant will submit a brief write up on its proposed team and organisation of personnel explaining how different areas of expertise needed for the Project have been fully covered by its Proposal. In case the Applicant is a Joint Venture/Consortium, it should specify how the expertise of each Member is proposed to be utilised for the Project. The Applicant should specify the sequence and locations of important activities, and provide a quality assurance plan for carrying out the Project.

3. Proposed Technology (detailed note)

The Applicant will submit its proposed technology for carrying out the Project, including the details of technology/combination of technologies proposed for processing of waste, sources of technologies and technology tie-up. Details regarding bio-remediation of legacy waste to be provides in accordance with sub-clause 5 of this Form-7 of Appendix –I.

4. Other details to be included in the Technical Proposal (detailed notes)

(a) Equipment, vehicles/e-vehicles, storage bins, etc., requirement for primary and secondary collection and transportation of segregated waste along with plan for 100% segregated transportation of waste into organic/inorganic components.

(b) Area requirement for processing and sanitary landfill facility

(c) Key assumptions in development of processing facility and basis of proposed capacity.

(d) Key assumptions in development of sanitary landfill facility and basis of designed capacity, area requirement.
(e) Processing products along with their quantity (Ton/day, etc.)
(f) Market tie-up for sale of processing products
(g) Project plan including schedule for equipment replacements and capacity additions at regular intervals.
(h) Organization and staffing/manpower details (collection, transportation, processing, & disposal)
(i) Environment management plan
(j) Assessment of risk and mitigation plan
(k) Key approvals and clearances
(l) Total investment proposed and funding / financing plan, project financial aspects – capital cost, operation and maintenance cost, revenues, etc.
(m) Project timelines

Applicants would be required to submit information on key assumptions for the Project (the “Key Assumptions”) based on their estimates of various parameters pertaining to the Project. Key Assumptions must include (but not limited to) information on the following:

(a) Project cost estimates
(b) Details of preliminary expenses
(c) Base construction cost
(d) Contingencies
(e) Details of pre-operative expenses
(f) Operation & Maintenance cost
(g) Processing product quantities in [Ton/days or Mega Watts] and estimated revenues

5. Proposed approach, methodology, technology, work plan for bio-remediation of legacy waste and reclamation of land of the dumpsite (detailed note)

1. Previous experiences of the proposed technology/methodology/business model and issues faced therein
2. Project understanding – understanding of the project with respect to the project area and scope
3. Detailed description of the proposed technology or methodology with process flow chart for Project operations.
4. Method proposed for processing of legacy waste and utilization plan for components recovered:
   • Organic fraction
   • Combustible fraction
• Inert fraction
• Recyclables
• Hazardous waste

5. Procurement plan, manpower deployment plan and installation & commissioning plan to achieve COD (the procurement plan shall include the details of Project asset to be deployed including asset type, capacity, specifications and manufacturer. the manpower deployment plan shall include details on type of manpower (skilled/unskilled/driver), number of manpower and the source. The Applicant shall provide procurement and deployment schedule in gantt chart inclusive of replacement of Project assets during the entire Concession Period. The Applicant shall also detail out the installation & commissioning schedule in proper format.

6. Detailed Implementation Plan of the dumpsite along with a Programme Evaluation Review Technique (PERT) chart

7. Proposed solution for management of leachate and landfill gas

8. Disaster management plan

9. Detailed description of the proposed business model – SWOT analysis, industry analysis, market demand analysis, sales strategy and marketing plan, financial plan

10. Space required for processing equipment

11. Estimated time to be taken for complete remediation

12. Percentage of land reclaimable

13. Activities that can be taken up on remediated land and technical feasibility

14. Identified risks – technical, operational and environmental

Note: All of the above details should be provided as elaborately as feasible and supported with engineering drawings (if applicable), manpower requirement, fuel, power requirement and explanation of time required for recovery and utilization of components. Based on the above work requirement, the Applicant will provide details of plant, machinery and equipment proposed to be deployed in the works and their status (new or old). The Applicant shall also provide a list of key personnel proposed to be deployed for the work with their curriculum vitae.

Note 2: The Applicant may be invited to make a presentation on approach, methodology, proposed technologies and project plan to judge their understanding of the Project.

Note 3: Marks will be deducted for writing lengthy and out of context responses.
APPENDIX-I

Form-8

Proforma of Bank Guarantee for Bid Security
[(to be executed on Rs. 100/- non judicial stamp paper)]

[Bank’s Name and Address of Issuing Branch or Office]

Beneficiary: [State Department of Urban Development], having its registered office at …………… AND
[Name of the Authority], having its registered office at …………………..

Account No.:

Bank name, branch and IFSC Code : 

B.G. No. 

Dated: [*]

1. We have been informed that [*] [insert name of the Applicant] (hereinafter called the “Applicant”)
   intends to submits its Proposal (hereinafter called the “Proposal”) for Selection of Concessionaire
   for Selection of Concessionaire for Development and Operation of Integrated Solid Waste
   Management System and Reclamation of Land through Bio-Remediation of Legacy Waste,
   under Request for Proposal bearing RFP Reference No. [*] dated [*] (hereinafter called the “RFP”).

2. Furthermore, we understand that, according to your conditions, the Proposal must be supported by a
   Bid Security.

3. At the request of the Applicant, we, [*] [insert name of the Bank], having our branch at ........
   hereby irrevocably undertake to pay you any sum or sums not exceeding in total an amount of Rs.
   *** (Rupees *** only) upon receipt by us of your first demand in writing accompanied by a written
   statement stating that the Applicant is in breach of its obligation(s) under the terms and conditions
   of the RFP, without any demur, reservation, recourse, contest or protest and without reference to the
   Applicant, which may include the following :-

   (a) If the Applicant withdraws its Proposal during the validity period of the Proposal;

   (b) if a Applicant submits a non-responsive Proposal as per the RFP;

   (c) if a Applicant has a conflict of interest as specified in the RFP

   (d) If the Applicant engages in a corrupt, fraudulent, coercive, collusive or restrictive practice as
       specified in Section 4 of the RFP;
(e) If the Applicant upon being declared as the Selected Bidder fails to:
   (i) to sign and return the duplicate copy of Letter of Award;
   (ii) to sign the Concession Agreement;
   (iii) furnish a Performance Security in within the period prescribed in the Concession Agreement;

(f) If the Selected Bidder, having signed the Concession Agreement, commits any breach thereof prior to furnishing the Performance Security.

(g) If the Applicant is otherwise in breach of the terms of the RFP.

4. Any such written demand made by the State Government or the Authority stating that the Applicant is in default of the due and faithful fulfillment and compliance with the terms and conditions contained in the RFP shall be final, conclusive and binding on the Bank.

5. This guarantee will expire: (a) if the Applicant is the Selected Bidder, upon receipt of the Performance Security by you, and (b) if the Applicant is not the Selected Bidder, (i) return of the Bank Guarantee by you as per the terms of the RFP, or (ii) upon expiry of 120 days from the date hereof.

6. This Guarantee will not be discharged due to the change in the constitution of the Bank or the Applicant.

7. This Guarantee will neither be cancelled nor revoked by the Bank without the written authorization of the State Government and the Authority.

8. Consequently, any demand for payment under this Guarantee must be received by us at the office on or before that date.

Signed and Delivered by _____________ Bank

By the hand of Mr./Ms. [•], its [•] and authorized official.

(Signature of the Authorized Signatory) (Official Seal)
APPENDIX-I

Form-9

Format for Joint Bidding Agreement
(See Clause 2.16.8.(b)(iv))

(To be executed on Stamp paper of appropriate value)

THIS JOINT BIDDING AGREEMENT is entered into on this the ………… day of ………………….. 20…

AMONGST

1. …………. Limited, a company/partnership/LLP/proprietorship incorporated/registered under [***] and having its registered office at …………. (hereinafter referred to as the “First Part” which expression shall, unless repugnant to the context include its successors and permitted assigns)

AND

2. …………. Limited, a company/partnership/LLP/proprietorship incorporated/registered under [***] and having its registered office at …………. (hereinafter referred to as the “Second Part” which expression shall, unless repugnant to the context include its successors and permitted assigns)

AND

3. …………. Limited, a company/partnership/LLP/proprietorship incorporated/registered under [***] and having its registered office at ………………. (hereinafter referred to as the “Third Part” which expression shall, unless repugnant to the context include its successors and permitted assigns)

The above-mentioned parties of the FIRST, SECOND and THIRD PART are collectively referred to as the “Parties” and each is individually referred to as a “Party”.

WHEREAS,

(A) [Name of the State Department of Urban Development], having its principal office at …………. 
including its administrators, successors and assigns) and the [Name of the Authority], having its principal office at ……… including its administrators, successors and assigns) have invited Proposals (the “Proposals”) by its Request for Proposal No. ………… dated ………… (the “RFP”) for Selection of Concessionaire for Development and Operation of Integrated Solid Waste Management System and Reclamation of Land through Bio-Remediation of Legacy Waste (the “Project”) through public private partnership.

(B) The Parties are interested in jointly bidding for the Project as members of a Joint Venture/Consortium and in accordance with the terms and conditions of the RFP document and other bid documents in respect of the Project, and

(C) It is a necessary condition under the RFP document that the members of the Joint Venture/Consortium shall enter into a Joint Bidding Agreement and furnish a copy thereof with the Proposal.

NOW IT IS HEREBY AGREED as follows:

1. Definitions and Interpretations

In this Agreement, the capitalized terms shall, unless the context otherwise requires, have the meaning ascribed thereto under the RFP.

2. Joint Venture/Consortium

The Parties do hereby irrevocably constitute a joint venture/consortium (the “Joint Venture/Consortium”) for the purposes of jointly participating in the Selection Process for the Project.

The Parties hereby undertake to participate in the Selection Process only through this Joint Venture/Consortium and not individually and/ or through any other Joint Venture/Consortium constituted for this Project, either directly or indirectly or through any of their Associates.

3. Covenants

The Parties hereby undertake that in the event the Joint Venture/Consortium is declared the Selected Bidder and awarded the Project, it shall incorporate a special purpose vehicle (the “SPV”) under the Indian Companies Act, 2013 for entering into a Concession Agreement with the State Government and the
Authority for performing all its obligations as the Concessionaire in terms of the Concession Agreement for the Project.

4. Role of the Parties
The Parties hereby undertake to perform the roles and responsibilities as described below:

(a) Party of the First Part shall be the Lead Member of the Joint Venture/Consortium (the shareholding of the Lead Member should be [at least 51% or majority shareholder]) and shall have the Power of Attorney from all Parties for conducting all business for and on behalf of the Joint Venture/Consortium during the duration of the Project;

(b) Party of the Second Part shall be responsible for [insert role]

(c) Party of the Third Part shall be responsible for [insert role]

5. Joint and Several Liability
The Parties do hereby undertake to be jointly and severally responsible for all obligations and liabilities relating to the Project and in accordance with the terms of the RFP and the Concession Agreement, till the expiry of the Concession Agreement.

6. Shareholding in the SPV
The Parties agree that the proportion of shareholding among the Parties in the SPV shall be as follows:

First Party:

Second Party:

Third Party:

The Parties shall ensure that the Parties shall: (i) collectively hold at least 51% (fifty one percent) shareholding in the paid up and subscribed equity of the concessionaire/SPV until expiry of 3 (three) years from COD; and (ii) each of the Parties whose Technical Capacity and Financial Capacity was taken into consideration shall each hold 26% (twenty six percent) shareholding in the paid up and subscribed equity of the concessionaire/SPV until expiry of 3 years from COD.
The Parties undertake that they shall comply with all equity lock-in requirements set forth in the Concession Agreement.

7. **Representation of the Parties**

Each Party represents to the other Parties as of the date of this Agreement that:

(a) Such Party is duly organized, validly existing and in good standing under the laws of its incorporation and has all requisite power and authority to enter into this Agreement;

(b) The execution, delivery and performance by such Party of this Agreement has been authorized by all necessary and appropriate corporate or governmental action and a copy of the extract of the charter documents and board resolution/ power of attorney in favor of the person executing this Agreement for the delegation of power and authority to execute this Agreement on behalf of the Joint Venture/Consortium Member is annexed to this Agreement, and will not, to the best of its knowledge:

(i) require any consent or approval not already obtained;

(ii) violate any Applicable Law presently in effect and having applicability to it;

(iii) violate the memorandum and articles of association, by-laws or other applicable organizational documents thereof;

(iv) violate any clearance, permit, concession, grant, license or other governmental authorization, approval, judgement, order or decree or any mortgage agreement, indenture or any other instrument to which such Party is a party or by which such Party or any of its properties or assets are bound or that is otherwise applicable to such Party; or

(v) create or impose any liens, mortgages, pledges, claims, security interests, charges or encumbrances or obligations to create a lien, charge, pledge, security interest, encumbrances or mortgage in or on the property of such Party, except for encumbrances that would not, individually or in the aggregate, have a material adverse effect on the financial condition or prospects or business of such Party so as to prevent such Party from fulfilling its obligations under this Agreement;

(c) this Agreement is the legal and binding obligation of such Party, enforceable in accordance with its
terms against it; and

(d) there is no litigation pending or, to the best of such Party's knowledge, threatened to which it or any of its Associates is a party that presently affects, or which would have a material adverse effect on the financial condition or prospects or business of such Party in the fulfillment of its obligations under this Agreement.

8. Termination

This Agreement shall be effective from the date hereof and shall continue in full force and effect until the completion of the Project is achieved under and in accordance with the Concession Agreement. However, in case the Joint Venture/Consortium is either not pre-qualified for the Project or does not get selected for award of the Project, the Agreement will stand terminated in case the Applicant is not pre-qualified or upon return of the Bid Security by the State Government and the Authority to the Applicant, as the case may be.

9. Miscellaneous

This Joint Bidding Agreement shall be governed by laws of India. The Parties acknowledge and accept that this Agreement shall not be amended by the Parties without the prior written consent of the State Government and the Authority.

IN WITNESS WHEREOF THE PARTIES ABOVE NAMED HAVE EXECUTED AND DELIVERED THIS AGREEMENT AS OF THE DATE FIRST ABOVE WRITTEN.

To,

Dear Sir/Madam,

This has reference to the Proposal being submitted by ____________________________ (mention the name of the Applicant/ Lead Member of the Joint Venture/Consortium), as single entity/ Lead Member of the Joint Venture/Consortium comprising __________ (mention name(s) of the Members) in respect of Selection of Concessionaire for Development and Operation of Integrated Solid Waste Management System and Reclamation of Land through Bio-Remediation of Legacy Waste in response to the Request for Proposal (the “RFP”) issued by the State Government and the Authority dated [*].

We hereby confirm the following:

1. We _______ (name of the Applicant/ Member furnishing the Letter of Declaration), have examined in detail and have understood and satisfied ourselves regarding the contents including in respect of the following:

   - For the purpose of all subsequent communications with the State Government and the Authority the Applicant shall be represented by _______ (mention name of the authorized representative of the Applicant/ Lead Member);

   - "The Joint Bidding Agreement has been signed between/among (names of the
Members), as members of the Joint Venture/Consortium; and the Proposal is being submitted on behalf of the Joint Venture/Consortium (name of the Lead Member).}{\textsuperscript{8}}

2. We have satisfied ourselves regarding our role as (here give a brief description of the role) in the Project as specified in the Proposal. If the Applicant/Joint Venture/Consortium is awarded the Project, we shall perform our role as outlined in the Proposal to the best of our abilities. We have examined the Proposal in detail and the commitments made in the same. We agree and undertake to abide by the Proposal and the commitments made therein.

3. We authorize ____________ (name of the authorized representative of the Applicant/Lead Member), as the Lead Member and authorize the same to perform all tasks including, but not limited to providing information, responding to enquiries, entering into contractual commitments etc. on behalf of the Joint Venture/Consortium, in respect of this Project.

4. {We understand that, no change in the membership in the Joint Venture/Consortium, in the role and form of responsibility of any Member shall be permitted after submission of the Proposal. If any change in the membership of the Joint Venture/Consortium is desired, it would need to be communicated to the State Government and the Authority in writing for its approval. The State Government and the Authority would reserve the right to reject such requests for a change of Joint Venture/Consortium structure, if in its opinion; it would adversely affect the same.}{\textsuperscript{9}}

For and on behalf of:

[Signature]

(Authorised Representative and Signatory)

Name of the Person:

Designation:

\textsuperscript{8} Applicable only in case of a Joint Venture/Consortium

\textsuperscript{9} Applicable only in case of a Joint Venture/Consortium
APPENDIX-II

Form-4

Declaration regarding customs/excise duty exemption for materials to be purchased for use in developing the Project

(Applicant’s Name and Address)

To:

--------------------------------------  

Dear Sir:

1. We confirm that we are solely responsible for obtaining customs/excise duty waivers which we have considered in our Proposal and in case of failure to receive such waivers for reasons whatsoever, the Owner will not compensate us.

2. We are furnishing below the information required by the State Government and the Authority for issue of the necessary certificates in terms of the Government of India Central Excise Notification No. *** along with all subsequent amendments including the amendment dated *** and Customs Notification No. ***.

3. The goods, equipment and materials for which certificates are required are as under:

<table>
<thead>
<tr>
<th>Items</th>
<th>Make/ Brand Name/Class</th>
<th>Capacity [where applicable]</th>
<th>Quantity</th>
<th>Value</th>
<th>State whether it will be procured locally or imported [if so from which country]</th>
<th>Remarks regarding justification for the quantity and their usage in development of the Project</th>
</tr>
</thead>
<tbody>
<tr>
<td>Goods</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>[b]</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

4. We agree that no modification to the above list is permitted after Proposals are opened.
5. We agree that the certificate will be issued only to the extent considered reasonable by the State Government and the Authority for the work, based on the Proposal submitted by us, the proposed methodology, technology and work plan furnished along with the Proposal.

6. We confirm that the above goods will be exclusively used for the construction of the above work. We are aware that exemption will be issued to only goods/material/equipment which form part of the work on permanent basis but not for the goods/material/equipment which are used by the us for execution of project and after completion of the project, the goods remain with the us being owner of such goods for further deployment in other projects.

DISCLAIMER

The information contained in this Request for Proposal document (the “RFP”) or subsequently provided to Bidder(s), whether verbally or in documentary or any other form by or on behalf of the Employer or any of their employees or advisors, is provided to Bidder(s) on the terms and conditions set out in this RFP and such other terms and conditions subject to which such information is provided.

This RFP is not an agreement and is neither an offer nor invitation by the Employer to the prospective Bidders or any other person. The purpose of this RFP is to provide interested entities with information that may be useful to them in preparing their bids (the “Bid”) including all the necessary submissions and the financial offers pursuant to this RFP. This RFP includes statements, which reflect various assumptions and assessments arrived at by the Employer in relation to the Project. Such assumptions, assessments and statements do not purport to contain all the information that each Bidder may require. This RFP may not be appropriate for all persons, and it is not possible for the Employer, its employees or advisors to consider the investment objectives, financial situation and particular needs of each party who reads or uses this RFP. The assumptions, assessments, statements and information contained in this RFP may not be complete, accurate, adequate or correct. Each Bidder should, therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments, statements and information contained in this RFP and obtain independent advice from appropriate sources.

Information provided in this RFP to the Bidder(s) is on a wide range of matters, some of which depends upon interpretation of law. The information given is not an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative statement of law. The Employer accepts no responsibility for the accuracy or otherwise for any interpretation or opinion on law expressed herein.

The Employer, its employees and advisors make no representation or warranty and shall have no liability to any person, including any Bidder under any law, statute, rules or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this RFP or otherwise, including the accuracy, adequacy, correctness, completeness or reliability of the RFP and any assessment, assumption, statement or information contained therein or deemed to form part of this RFP or arising in any way during the Bidding Process.
The Employer also accepts no liability of any nature whether resulting from negligence or otherwise howsoever caused arising from reliance of any Bidder upon the statements contained in this RFP.

The Employer may in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information, assessment or assumptions contained in this RFP.

The issue of this RFP does not imply that the Employer is bound to select a Bidder or to appoint the Selected Bidder for the Project and the Employer reserves the right to reject all or any of the Bidders or Bids without assigning any reason whatsoever.

The Bidder shall bear all its costs associated with or relating to the preparation and submission of its Bid including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by the Employer or any other costs incurred in connection with or relating to its Bid. All such costs and expenses will remain with the Bidder and the Employer shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by a Bidder in preparation or submission of the Bid, regardless of the conduct or outcome of the Bidding Process.
General Conditions of Contract

A. General
## 1. GENERAL PROVISIONS

### 1.1 DEFINITIONS

In the Conditions of Contract ("these Conditions"), which include Special Conditions of Contract, Parts A and B, and these General Conditions, the following words and expressions shall have the meanings stated. Words indicating persons or parties include corporations and other legal entities, except where the context requires otherwise.

#### 1.1.1 THE CONTRACT

1.1.1.1 “Bill of Quantities” mean the documents so named (if any) which are comprised in the Schedules.

1.1.1.2 “Contract” mean the Contract Agreement, the Letter of Award, the “Work Order”, “Letter of Bid” these Conditions, the Specification, the Drawings, the Schedules, and the further documents (if any) which are listed in the Contract Agreement or in the Letter of Award between the Employer and the Contractor.

1.1.1.3 “Contract Agreement” means the contract agreement referred to in Sub-Clause 1.6 [Contract Agreement].

1.1.1.4 “Contract Data” means the pages completed by the employer entitled contract data which constitutes Part-A of the Special Conditions of the Contract.

1.1.1.5 “Drawings” mean the drawings of the Works, as included in the Contract, and any additional and modified drawings issued by (or on behalf of) the Employer in accordance with the Contract.

1.1.1.6 “Key Dates” mean the sheet titled “key dates” released along with the RFP giving important dates pertaining to Contract like Bid opening and closing date, Pre Bid meeting date, submission date etc.
1.1.1.7 “Letter of Award” means the letter of formal acceptance, signed by the Employer, indicating formal acceptance of the Most Advantageous Bid and intention of entering into contract with the successful bidder.

1.1.1.8 “Letter of Bid” means the document entitled letter of bid, which was completed by the Contractor and includes the signed offer to the Employer for the Works.

1.1.1.9 “Letter of Acceptance” means the letter of formal acceptance, signed by the bidder after the receipt of Letter of Award confirming their acceptance.

1.1.1.10 “Tender” means the Letter of Bid and all other documents which the Contractor submitted with the Letter of Bid, as included in the Contract.

1.1.1.11 “Schedules” means the document(s) entitled schedules, completed by the Contractor and submitted with the Letter of Bid, as included in the Contract. Such document may include the Bill of Quantities, data, lists, and schedules of rates and/or prices.

1.1.1.12 “Specification” means the document entitled specification, as included in the Contract, and any additions and modifications to the specification in accordance with the Contract. Such document specifies the Works.

1.1.1.13 “Work Order” means the letter of formal award of work, signed by the Employer given after the signing of the Contract Agreement by both Parties.

1.1.2.1 The “Adjudicator” is the person appointed jointly by the Employer and the Implementing Agency to resolve
disputes in the first instance, as provided for in GCC 20.2 [Appointment of Adjudicator] hereunder.

1.1.2.2 “Contractor” means the person(s) named as contractor in the Letter of Bid accepted by the Employer and the legal successors in title to this person(s).

1.1.2.3 “Contractor’s Personnel” means the Contractor’s Representative and all personnel whom the Contractor utilises on Site, who may include the staff, labour and other employees of the Contractor and of each Subcontractor; and any other personnel assisting the Contractor in the execution of the Works.

Contractor’s Personnel includes key Personnel as named in “Contract Data.

1.1.2.4 “Contractor’s Representative” means the person named by the Contractor in the Contract or appointed from time to time by the Contractor under Sub-Clause 4.3 [Contractor’s Representative], who acts on behalf of the Contractor.

1.1.2.5 “Employer” means the person named as employer in the Contract Data and the legal successors in title to this person.

1.1.2.6 “Employer’s Personnel” means the Engineer, the assistants referred to in Sub-Clause 3.2 [Delegation by the Engineer] and all other staff, labour and other employees of the Engineer and of the Employer; and any other personnel notified to the Contractor, by the Employer or the Engineer, as Employer’s Personnel.

1.1.2.7 “Engineer” means the person appointed by the Employer to act as the Engineer for the purposes of the Contract and named in the Contract Data, or other person appointed from time to time by the Employer.
1.1.2.8 "GoAP" means Government of Andhra Pradesh.

1.1.2.9 "Subcontractor" means any person named in the Contract as a subcontractor, or any person appointed as a subcontractor, for a part of the Works; and the legal successors in title to each of these persons.

1.1.2.10 "Party" means the Employer or the Contractor, as the context requires.

1.1.2.11 "PMC" means Project Management Consultant as appointed by the Employer to oversee policy, design, implementation of the works as the case may be.

**1.1.3 DATES, TESTS, PERIODS AND COMPLETION**

1.1.3.1 "Base Date" means the date 14 days prior to the latest date for submission of the Tender.

1.1.3.2 "Commencement Date" means the date notified under Sub-Clause 8.1 [Commencement of Works].

1.1.3.3 "Completion" means the new facility/ work as defined in the Scope of work completed in accordance with the Specifications/ Scope of Work as given in Section V and the Contractor is entitled to have Completion Certificate issued from the Employer.

1.1.3.4 "Completion Certificate" means certificate issued by the Employer on successful completion of "Tests on Completion".

1.1.3.5 "Day" means a calendar day and "year" means 365 days.

1.1.3.6 "Defects Liability Period" means the period for notifying defects in the Works or a Section (as the case may be) under Sub-Clause 11.1 [Completion of...
Outstanding Work and Remediing Defects], which extends to 1 year except if otherwise stated in the Contract Data (with any extension under Sub-Clause 11.3 [Extension of Defect Liability Period]), calculated from the date on which the Works or Section is completed as certified under Sub-Clause 10.1 [Taking Over of the Works and Sections].

1.1.3.7 "Performance certificate" means the certificate issued under sub-clause 11.7 [performance certificate].

1.1.3.8 "Taking-Over Certificate" means a certificate issued under Clause 10 [Employer's Taking Over].

1.1.3.9 "Tests after Completion" means the tests (if any) which are specified in the Contract and which are carried out in accordance with the Specification after the Works or a Section (as the case may be) are taken over by the Employer.

1.1.3.10 "Time for Completion" means the time for completing the Works or a Section (as the case may be) under Sub-Clause 8.2 [Time for Completion], as stated in the Contract Data (with any extension under Sub-Clause 8.4 [Extension of Time for Completion]), calculated from the Commencement Date.

1.1.3.11 "Tests on Completion" means the tests which are specified in the Contract or agreed by both Parties or instructed as a Variation, and which are carried out under Clause 9 [Tests on Completion] before the Works or a Section (as the case may be) are taken over by the Employer.

1.1.4 MONEY AND PAYMENTS

1.1.4.1 "Accepted Contract Amount" means the amount accepted in the Letter of Acceptance for the execution and completion of the Works and the remediing of any defects.

1.1.4.2 "Contract Price" means the price defined in Sub-Clause 14.1 [The Contract Price], and includes adjustments in accordance with the Contract.

1.1.4.3 "Cost" means all expenditure reasonably incurred (or to be incurred) by the Contractor, whether on or off the
Site, including overhead and similar charges, but does not include profit.

1.1.4.4 “Final Payment Certificate” means the payment certificate issued under Sub-Clause 14.11 [Issue of Final Payment Certificate].

1.1.4.5 “Final Statement” means the statement defined in Sub-Clause 14.9 [Application for Final Payment Certificate].

1.1.4.6 "Interim Payment Certificate" means a payment certificate issued under Clause 14 [Contract Price and Payment], other than the Final Payment Certificate.

1.1.4.7 “Local Currency” means the currency of the Country.

1.1.4.8 "Payment Certificate" means a payment certificate issued under Clause 14 [Contract Price and Payment].

1.1.4.10 "Provisional Sum" means a sum (if any) which is specified in the Contract as a part of the Works or for the supply of Plant, Materials or services

1.1.4.11 "Retention Money" means the accumulated retention moneys which the Employer retains under Sub-Clause 14.3 [Application for Interim Payment Certificates] and pays under Sub-Clause 14.7 [Payment of Retention Money].

1.1.4.12 “Statement” means a statement submitted by the Contractor as part of an application, under Clause 14 [Contract Price and Payment], for a payment certificate.

1.1.5 WORKS AND GOODS

1.1.5.1 "Approval/ Approved" shall mean and include documents checked, vetted and approved by the Employer.

1.1.5.2 "BIS/ Bureau of Indian Standards" means the statutory regulatory authority responsible for fixing standards and
whenever it is referred in the contract it shall imply reference to the latest version of the standard.

1.1.5.3 "Contractor’s Equipment” means all apparatus, machinery, vehicles and other things required for the execution and completion of the Works and the remedying of any defects. However, Contractor's Equipment excludes Temporary Works, Employer’s Equipment (if any), Plant, Materials and any other things intended to form or forming part of the Permanent Works.

1.1.5.4 "Goods” means Contractor's Equipment, Materials, Plant and Temporary Works, or any of them as appropriate.

1.1.5.5 “Materials” means things of all kinds (other than Plant) intended to form or forming part of the Permanent Works, including the supply-only materials (if any) to be supplied by the Contractor under the Contract.

1.1.5.6 “Permanent Works” means the permanent works to be executed by the Contractor under the Contract.

1.1.5.7 “Plant” means the apparatus, machinery and other equipment intended to form or forming part of the Permanent Works, including vehicles purchased for the Employer and relating to the construction or operation of the Works.

1.1.5.8 “Section” means a part of the Works specified in the Contract Data as a Section (if any).

1.1.5.9 “Temporary Works” means all temporary works of every kind (other than Contractor’s Equipment) required on Site for the execution and completion of the Permanent Works and the remedying of any defects.

1.1.5.10 “Works” mean the Permanent Works and the
1.1.6 OTHER DEFINITIONS

1.1.6.1 "Contractor's Documents" means the calculations, computer programs and other software, drawings, manuals, models and other documents of a technical nature (if any) supplied by the Contractor under the Contract.

1.1.6.2 "Employer's Equipment" means the apparatus, machinery and vehicles (if any) made available by the Employer for the use of the Contractor in the execution of the Works, as stated in the Specification; but does not include Plant which has not been taken over by the Employer.

1.1.6.3 "Force Majeure" is defined in Clause 19 [Force Majeure].

1.1.6.4 "Laws" means all national (or state) legislation, statutes, ordinances and other laws, and regulations and by-laws of any legally constituted public authority.

1.1.6.5 "Notice of Dissatisfaction" means the notice given by either Party to the other under Sub-Clause 20.3 [Obtaining Adjudicator's Decision] indicating its dissatisfaction and intention to commence arbitration.

1.1.6.6 "Performance Security" means the security (or securities, if any) under Sub-Clause 4.2 [Performance Security].

1.1.6.7 "Site" means the places where the Permanent Works are to be executed, including storage and working areas, and to which Plant and Materials are to be delivered, and any other places as may be specified in the Contract as forming part of the Site.

1.1.6.8 "Unforeseeable" means not reasonably foreseeable by an experienced contractor by the Base Date.

1.1.6.9 "Variation" means any change to the Works, which is

1.2 INTERPRETATION

In the Contract, except where the context requires otherwise:
(a) words indicating one gender include all genders; (b) words indicating the singular also include the plural and words indicating the plural also include the singular;
(c) provisions including the word “agree”, “agreed” or “agreement” require the agreement to be recorded in writing;
(d) “written” or “in writing” means hand-written, type-written, printed or electronically made, and resulting in a permanent record; and
(e) the word “tender” is synonymous with “bid” and “tenderer” with “bidder” and the words “tender documents” with “bidding documents.”

The marginal words and other headings shall not be taken into consideration in the interpretation of these Conditions.

1.3 COMMUNICATIONS

Wherever these Conditions provide for the giving or issuing of approvals, certificates, consents, determinations, notices, requests and discharges, these communications shall be: (a) in writing and delivered by hand (against receipt), sent by mail or courier, or transmitted using any of the agreed systems of electronic transmission as stated in the Contract Data; and
(b) Delivered, sent or transmitted to the address for the recipient’s communications as stated in the Contract Data. However:
(i) if the recipient gives notice of another address, communications shall thereafter be delivered accordingly; and
(ii) if the recipient has not stated otherwise when requesting...
an approval or consent, it may be sent to the address from which the request was issued.

Approvals, certificates, consents and determinations shall not be unreasonably withheld or delayed. When a certificate is issued to a Party, the certifier shall send a copy to the other Party. When a notice is issued to a Party, by the other Party or the Engineer, a copy shall be sent to the Engineer or the other Party, as the case may be.

and confidential, except to the extent necessary to carry out their respective obligations under the Contract or to comply with applicable laws. Each of them shall not publish or disclose any particulars of the Works prepared by the other Party without the previous agreement of the other Party. However, the Contractor shall be permitted to disclose any publicly available information, or information otherwise required to establish his qualifications to compete for other projects.

### 1.13 COMPLIANCE WITH LAWS

The Contractor shall, in performing the Contract, comply with applicable laws. Unless otherwise stated in the Special Conditions of Contract the Contractor shall give all notices, pay all taxes, duties and fees, and obtain all permits, licenses and approvals, as required by the Laws in relation to the execution and completion of the Works and the remedying of any defects; and the Contractor shall indemnify and hold the Employer harmless against and from the consequences of any failure to do so, unless the Contractor is impeded to accomplish these actions and shows evidence of its diligence.

### 1.14 JOINT AND SEVERAL LIABILITIES

If the Contractor constitutes (under applicable laws) a joint venture, consortium or other unincorporated grouping of two or more persons:

- (a) these persons shall be deemed to be jointly and severally liable to the Employer for the performance of the Contract;
- (b) these persons shall notify the Employer of their leader who shall have authority to bind the Contractor and each of these persons; and
- (c) the Contractor shall not alter its composition or legal status without the prior consent of the Employer.

</table>
| 2.2 | **PERMITS, LICENSES OR APPROVALS**<br>The Employer shall provide, at the request of the APPROVALS Contractor, such reasonable assistance as to allow the Contractor to obtain properly any permits, licenses or approvals required by the laws of the Country:  
(i) which the Contractor is required to obtain under SubClause 1.13 [Compliance with Laws],  
(ii) for the delivery of Goods, including clearance through customs,  
The Contract price shall include all transportation charges and other expenses that may be incurred in this connection. |
| 2.3 | **EMPLOYER’S PERSONNEL**<br>The Employer shall be responsible for ensuring that the Employer's Personnel and the Employer's other contractors on the Site:  
(a) co-operate with the Contractor's efforts under Sub-Clause 4.6 [Co-operation], and  
(b) Take actions similar to those which the Contractor is required to take under sub-paragraphs (a), (b) and (c) of Sub-Clause 4.8 [Safety Procedures] and under Sub-Clause 4.18 [Protection of the Environment]. |
| 2.4 | **Employer’s Claims**<br>If the Employer considers himself to be entitled to any payment |
under any clause of these Conditions or otherwise in connection with the Contract, and/or to any extension of the Defects Liability Period, the Employer or the Engineer shall give notice and particulars to the Contractor. However, notice is not required for payments due under Sub-Clause 4.19 [Electricity, Water and Gas], under Sub-Clause 4.20 [Employer’s Equipment and Free-Issue Materials], or for other services requested by the Contractor.

The notice shall be given as soon as practicable and no longer than 28 days after the Employer became aware, or should have become aware, of the event or circumstances giving rise to the claim. A notice relating to any extension of the Defects Liability Period shall be given before the expiry of such period.

This amount may be included as a deduction in the Contract Price and Payment Certificates. The Employer shall only be entitled to set off against or make any deduction from an amount certified in a Payment Certificate, or to otherwise claim against the Contractor, in accordance with this Sub-Clause

### The Engineer

**3.1 ENGINEER’S DUTIES AND AUTHORITY**

The Employer shall appoint the Engineer who shall carry out the duties assigned to him in the Contract. The Engineer’s staff shall include suitably qualified engineers and other professionals who are competent to carry out these duties.

The Engineer shall have no authority to amend the Contract.

The Engineer may exercise the authority attributable to the

**TECHNICAL OFFICER**

**MUNICIPAL ENGINEER-2**

**MUNICIPAL ENGINEER-1**

**SUPERINTENDING ENGINEER [FAC]**

**TIRUPATI SMART CITY CORPORATION LIMITED**

Contract Agreement
Engineer as specified in or necessarily to be implied from the Contract. If the Engineer is required to obtain the approval of the Employer before exercising a specified authority, the requirements shall be as stated in the Special Conditions of Contract. The Employer shall promptly inform the Contractor of any change to the authority attributed to the Engineer.

However, whenever the Engineer exercises a specified authority for which the Employer’s approval is required, then (for the purposes of the Contract) the Employer shall be deemed to have given approval.

Except as otherwise stated in these Conditions:

(a) whenever carrying out duties or exercising authority, specified in or implied by the Contract, the Engineer shall be deemed to act for the Employer;

(b) the Engineer has no authority to relieve either Party of any duties, obligations or responsibilities under the Contract;

(c) any approval, check, certificate, consent, examination, inspection, instruction, notice, proposal, request, test, or similar act by the Engineer (including absence of disapproval) shall not relieve the Contractor from any responsibility he has under the Contract, including responsibility for errors, omissions, discrepancies and non-compliances; and

(d) Any act by the Engineer in response to a Contractor’s request except as otherwise expressly specified shall be notified in writing to the Contractor within 28 days of receipt.

The following provisions shall apply:

The Engineer shall obtain the specific approval of the Employer before taking action under the following Sub-Clausules of these Conditions:
(a) Sub-Clause 4.12: agreeing or determining an extension of time and/or additional cost.

(b) Sub-Clause 13.1: instructing a Variation,

(c) Sub-Clause 13.2: Approving a proposal for Variation submitted by the Contractor in accordance with Sub Clause 13.1

Notwithstanding the obligation, as set out above, to obtain approval, if, in the opinion of the Engineer, an emergency occurs affecting the safety of life or of the Works or of adjoining property, he may, without relieving the Contractor of any of his duties and responsibility under the Contract, instruct the Contractor to execute all such work or to do all such things as may, in the opinion of the Engineer, be necessary to abate or reduce the risk. The Contractor shall forthwith comply, despite the absence of approval of the Employer, with any such instruction of the Engineer. The Engineer shall determine an addition to the Contract Price, in respect of such instruction, in accordance with Clause 13 and shall notify the Contractor accordingly, with a copy to the Employer.

3.2 DELEGATION BY THE ENGINEER

The Engineer may from time to time assign duties and delegate authority to assistants, and may also revoke such assignment or delegation. These assistants may include a resident engineer, and/or independent inspectors appointed to inspect and/or test items of Plant and/or Materials. The assignment, delegation or revocation shall be in writing and shall not take effect until copies have been received by both Parties. However, unless otherwise agreed by both Parties, the Engineer shall not delegate the authority to determine any matter in accordance with Sub-Clause 3.5 [Determinations]. Each assistant, to whom duties have been assigned or authority has been delegated, shall only be authorized to issue instructions to the Contractor to the extent defined by the
3.3 INSTRUCTIONS OF THE ENGINEER

The Engineer may issue to the Contractor (at any time) instructions and additional or modified Drawings which may be necessary for the execution of the Works and the remedying of any defects, all in accordance with the Contract. The Contractor shall only take instructions from the Engineer, or from an assistant to whom the appropriate authority has been delegated under this Clause. If an instruction constitutes a Variation, Clause 13 [Variations and Adjustments] shall apply.

The Contractor shall comply with the instructions given by the Engineer or delegated assistant, on any matter related to the Contract. Whenever practicable, their instructions shall be given in writing.

3.4 REPLACEMENT OF THE ENGINEER

If the Employer intends to replace the Engineer, the Employer shall have the right to replace the Engineer.

3.5 DETERMINATIONS

Whenever these Conditions provide that the Engineer shall proceed in accordance with this Sub-Clause 3.5 to agree or determine any matter, the Engineer shall consult with each
Party in an Endeavour to reach agreement. If agreement is not achieved, the Engineer shall make a fair determination in accordance with the Contract, taking due regard of all relevant circumstances.

The determination arrived by the Engineer shall be final and binding unless and until revised under Clause 20 [Claims, Disputes and Arbitration].

4. The Contractor

4.1 CONTRACTOR’S GENERAL OBLIGATIONS

The Contractor shall design (to the extent specified in the Contract), execute and complete the Works in accordance with the Contract and with the Engineer’s instructions, and shall remedy any defects in the Works.

The Contractor shall provide the Plant and Contractor’s Documents specified in the Contract, and all Contractor’s Personnel, Goods, consumables and other things and services, whether of a temporary or permanent nature, required in and for this design, execution, completion and remedying of defects.

The Contractor shall be responsible for the adequacy, stability and safety of all Site operations and of all methods of construction. Except to the extent specified in the Contract, the Contractor (i) shall be responsible for all Contractor’s Documents, Temporary Works, and such design of each item of Plant and Materials as is required for the item to be in accordance with the Contract, and (ii) shall not otherwise be responsible for the design or specification of the Permanent Works.

Prior to the commencement of the Tests on Completion, the Contractor shall submit to the Engineer the “as-built” documents and, if applicable, operation and maintenance manuals in accordance with the Specification and in sufficient
4.2 **PERFORMANCE SECURITY**

The Contractor shall obtain (at his cost) a Performance Security for proper performance, in the amount stated in the Contract Data and denominated in the currency (ies) of the Contract. If an amount is not stated in the Contract Data, this Sub-Clause shall not apply.

The Contractor shall deliver the Performance Security to the Employer within 10 days after receiving the Letter of Award, and shall send a copy to the Engineer.

The Contractor shall ensure that the Performance Security is valid and enforceable until the Contractor has executed and completed the Works and remedied any defects. If the terms of the Performance Security specify its expiry date, and the Contractor has not become entitled to receive the Performance Certificate by the date 28 days prior to the expiry date, the Contractor shall extend the validity of the Performance Security until the Works have been completed and any defects have been remedied.

The Employer shall return the Performance Security to the Contractor within 21 days after receiving a copy of the Performance Certificate.

Without limitation to the provisions of the rest of this Sub-Clause, whenever the Engineer determines an addition to the Contract Price as a result of a change in cost and/or legislation, or as a result of a Variation, amounting to more than 15 percent of the portion of the Contract Price payable in a specific currency, the Contractor shall at the Engineer’s request...
promptly increase, the value of the Performance Security in that currency by an equal percentage. Penalties / Liquidated damages including for delays [if any] at the time project execution will be levied as per the prevailing latest G.O. of Govt., of Andhra Pradesh.

| 4.3 CONTRACTOR'S REPRESENTATIVE | The Contractor shall appoint the Contractor's Representative and shall give him all authority necessary to act on the Contractor's behalf under the Contract. Unless the Contractor's Representative is named in the Contract, the Contractor shall, prior to the Commencement Date, submit to the Engineer for consent the name and particulars of the person the Contractor proposes to appoint as Contractor's Representative. If consent is withheld or subsequently revoked in terms of Sub-Clause 6.9 [Contractor's Personnel], or if the appointed person fails to act as Contractor's Representative, the Contractor shall similarly submit the name and particulars of another suitable person for such appointment. The Contractor shall not, without the prior consent of the Engineer, revoke the appointment of the Contractor's Representative or appoint a replacement. The whole time of the Contractor's Representative shall be given to directing the Contractor's performance of the Contract. If the Contractor's Representative is to be temporarily absent from the Site during the execution of the Works, a suitable replacement person shall be appointed, subject to the Engineer's prior consent, and the Engineer shall be notified accordingly. The Contractor's Representative shall, on behalf of the Contractor, receive instructions under Sub-Clause 3.3 [Instructions of the Engineer]. The Contractor's Representative may delegate any powers, functions and authority to any competent person, and may at |
any time revoke the delegation. Any delegation or revocation shall not take effect until the Engineer has received prior notice signed by the Contractor's Representative, naming the person and specifying the powers, functions and authority being delegated or revoked.

### 4.4 SUBCONTRACTORS

The Contractor shall not subcontract the Works. The Contractor shall be responsible for the acts or defaults of any Subcontractor, his agents or employees, as if they were the acts or defaults of the Contractor. Unless otherwise stated in the Special Conditions of Contract:

(a) the Contractor shall not be required to obtain consent to suppliers solely of Materials, or to a subcontract for which the Subcontractor is named in the Contract;

(b) the prior consent of the Engineer shall be obtained to other proposed Subcontractors;

(c) each subcontract shall include provisions which would entitle the Employer to require the subcontract to be assigned to the Employer under Sub-Clause 4.5 [Assignment of Benefit of Subcontract] (if or when applicable) or in the event of termination under Sub-Clause 15.2 [Termination by Employer].

The Contractor shall ensure that the requirements imposed on the Contractor by Sub-Clause 1.12 [Confidential Details] apply equally to each Subcontractor.

### 4.5 ASSIGNMENT OF BENEFIT OF SUBCONTRACT

If a Subcontractor's obligations extend beyond the expiry date of the relevant construction period and the Engineer, prior to this date, instructs the Contractor to assign the benefit of such obligations to the Employer, then the Contractor shall do so.

### 4.6 CO-OPERATION

The Contractor shall, as specified in the Contract or as instructed by the Engineer, allow appropriate opportunities for carrying out work to:

---

**THE SUPPLIER / IMPLEMENTING AGENCY / CONTRACTOR**

**TECHNICAL OFFICER**

**MUNICIPAL ENGINEER-2**

**MUNICIPAL ENGINEER-1**

**SUPERINTENDING ENGINEER [FAC]**

**TIRUPATI SMART CITY CORPORATION LIMITED**

Contract Agreement
4.7 **SETTING OUT**

The Contractor shall set out the Works in relation to original points, lines and levels of reference specified in the Contract or notified by the Engineer. The Contractor shall be responsible for the correct positioning of all parts of the Works, and shall rectify any error in the positions, levels, dimensions or alignment of the Works.

4.8 **SAFETY PROCEDURES**

The Contractor shall:

(a) comply with all applicable safety regulations,

(b) take care for the safety of all persons entitled to be on the Site,

(c) use reasonable efforts to keep the Site and Works clear of unnecessary obstruction so as to avoid danger to these persons,

(d) provide fencing, lighting, guarding and watching of the Works until completion and taking over under Clause 10 [Employer's Taking Over], and

(e) provide any Temporary Works (including roadways, footways, guards and fences) which may be necessary, because of the execution of the Works, for the use and protection of the public and of owners and occupiers of adjacent land.

4.9 **QUALITY ASSURANCE**

The Contractor shall institute a quality assurance system to
demonstrate compliance with the requirements of the Contract. The system shall be in accordance with the details stated in the Contract. The Engineer shall be entitled to audit any aspect of the system.

Details of all procedures and compliance documents shall be submitted to the Engineer for information before each design and execution stage is commenced. When any document of a technical nature is issued to the Engineer, evidence of the prior approval by the Contractor himself shall be apparent on the document itself.

Compliance with the quality assurance system shall not relieve the Contractor of any of his duties, obligations or responsibilities under the Contract.

**4.10 SITE DATA**

To the extent which was practicable (taking account of cost and time), the Contractor shall be deemed to have obtained all necessary information as to risks, contingencies and other circumstances which may influence or affect the Tender or Works. To the same extent, the Contractor shall be deemed to have inspected and examined the Site, its surroundings, the above data and other available information, and to have been satisfied before submitting the Tender as to all relevant matters, including (without limitation):

(a) the form and nature of the Site, including sub-surface conditions,

(b) the hydrological and climatic conditions,

(c) the extent and nature of the work and Goods necessary for the execution and completion of the Works and the remedying of any defects,

(d) the applicable Laws of Country.
### 4.11 Sufficiency of the Accepted Contract Amount

The Contractor shall be deemed to:

(a) have satisfied himself as to the correctness and sufficiency of the Accepted Contract Amount, and

(b) have based the Accepted Contract Amount on the data, interpretations, necessary information, inspections, examinations and satisfaction as to all relevant matters referred to in Sub-Clause 4.10 [Site Data].

Unless otherwise stated in the Contract, the Accepted Contract Amount covers all the Contractor's obligations under the Contract and all things necessary for the proper execution and completion of the Works and the remedying of any defects.

---

### 4.12 Unforeseeable Physical Conditions

In this Sub-Clause, “physical conditions” means natural physical conditions and man-made and other physical obstructions and pollutants, which the Contractor encounters at the Site when executing the Works, including sub-surface and hydrological conditions but excluding climatic conditions.

If the Contractor encounters adverse physical conditions which he considers to have been Unforeseeable, the Contractor shall give notice to the Engineer as soon as practicable.

---

### 4.13 Rights of Way and Facilities

Unless otherwise specified in the Contract the Employer shall provide effective access to and possession of the Site including special and/or temporary rights-of-way which are necessary for the Works. The Contractor shall obtain, at his risk and cost, any additional rights of way or facilities outside the Site which he may require for the purposes of the Works.
| 4.14 AVOIDANCE OF INTERFERENCE | The Contractor shall not interfere unnecessarily or improperly with:

(a) the convenience of the public, or

(b) the access to and use and occupation of all roads and footpaths, irrespective of whether they are public or in the possession of the Employer or of others.

The Contractor shall indemnify and hold the Employer harmless against and from all damages, losses and expenses (including legal fees and expenses) resulting from any such unnecessary or improper interference.

| 4.15 ACCESS ROUTE | The Contractor shall be deemed to have been satisfied as to the suitability and availability of access routes to the Site at Base Date. The Contractor shall use reasonable efforts to prevent any road or bridge from being damaged by the Contractor's traffic or by the Contractor's Personnel. These efforts shall include the proper use of appropriate vehicles and routes.

Except as otherwise stated in these Conditions:

(a) the Contractor shall (as between the Parties) be responsible for any maintenance which may be required for his use of access routes;

(b) the Contractor shall provide all necessary signs or directions along access routes, and shall obtain any permission which may be required from the relevant authorities for his use of routes, signs and directions;

(c) the Employer shall not be responsible for any claims which may arise from the use or otherwise of any access route;
(d) the Employer does not guarantee the suitability or availability of particular access routes; and

(e) Costs due to non-suitability or non-availability, for the use required by the Contractor, of access routes shall be borne by the Contractor.

4.16 TRANSPORT OF GOODS

Unless otherwise stated in the Special Conditions of Contract:

(a) the Contractor shall give the Engineer not less than 21 days' notice of the date on which any Plant or a major item of other Goods will be delivered to the Site;

(b) the Contractor shall be responsible for packing, loading, transporting, receiving, unloading, storing and protecting all Goods and other things required for the Works; and

(c) the Contractor shall indemnify and hold the Employer harmless against and from all damages, losses and expenses (including legal fees and expenses) resulting from the transport of Goods, and shall negotiate and pay all claims arising from their transport.

4.17 CONTRACTOR'S EQUIPMENT & MACHINERY

The Contractor shall be responsible for all Contractor's Equipment and Machinery. When brought on to the Site, Contractor's Equipment and machinery shall be deemed to be exclusively intended for the execution of the Works. The Contractor shall not remove from the Site any major items of Contractor's Equipment and machinery without the consent of the Engineer. However, consent shall not be required for vehicles transporting Goods or Contractor's Personnel off Site.

4.18 PROTECTION OF THE ENVIRONMENT

The Contractor shall take all reasonable steps to protect the environment (both on and off the Site) and to limit damage and nuisance to people and property resulting from pollution, noise...
and other results of his operations.

4.19 ELECTRICITY AND WATER

Unless otherwise stated in Special Conditions of Contract, the Contractor shall, be responsible for the provision of all power, water and other services he may require for his construction activities and to the extent defined in the Specifications, for the tests.

4.20 EMPLOYER’S FREE-ISSUE MATERIALS

The Employer shall supply, free of charge, the “free-issue materials” (if any) in accordance with the details stated in the Specification. The Employer shall, at his risk and cost, provide these materials at the time and place specified in the Contract. The Contractor shall then visually inspect them, and shall promptly give notice to the Engineer of any shortage, defect or default in these materials.

After this visual inspection, the free-issue materials shall come under the care, custody and control of the Contractor.

4.21 PROGRESS REPORTS

Unless otherwise stated in the Special Conditions of Contract, monthly progress reports shall be prepared by the Contractor and submitted to the Engineer in six copies. The first report shall cover the period up to the end of the first calendar month following the Commencement Date. Reports shall be submitted monthly thereafter, each within 7 days after the last day of the period to which it relates.

Reporting shall continue until the Contractor has completed all work which is known to be outstanding at the completion date stated in the Taking-Over Certificate for the Works. Each report shall include:

(a) charts and detailed descriptions of progress, including each stage of design (if any), Contractor’s Documents, procurement, manufacture, delivery to Site, construction, erection and testing; and including these stages for work by
each nominated Subcontractor (as defined in Clause 5 [Nominated Subcontractors]),

(b) photographs showing the status of manufacture and of progress on the Site;

(c) the details described in Sub-Clause 6.10 [Records of Contractor's Personnel and Equipment];

(d) copies of quality assurance documents, test results and certificates of Materials;

(e) list of notices given under Sub-Clause 2.4 [Employer's Claims] and notices given under Sub-Clause 20.1 [Contractor's Claims];

(f) safety statistics, including details of any hazardous incidents and activities relating to environmental aspects and public relations; and

(g) comparisons of actual and planned progress, with details of any events or circumstances which may jeopardize the completion in accordance with the Contract, and the measures being (or to be) adopted to overcome delays.

### 4.22 SECURITY OF THE SITE

</tr>
</tbody>
</table>

The Contractor will be responsible for safety and security of all authorised persons available on site.

Unauthorized personnel shall be available on site.

### 4.23 CONTRACTOR’S OPERATIONS ON SITE

The Contractor shall confine his operations to the Site, and to any additional areas which may be obtained by the Contractor and agreed by the Engineer as additional working areas. The Contractor shall take all necessary precautions to keep Contractor's Equipment and Contractor's Personnel within the Site and these
additional areas, and to keep them off adjacent land.

During the execution of the Works, the Contractor shall keep the Site free from all unnecessary obstruction, and shall store or dispose of any Contractor's Equipment or surplus materials. The Contractor shall clear away and remove from the Site any wreckage, rubbish and Temporary Works which are no longer required.

Upon the issue of a Taking-Over Certificate, the Contractor shall clear away and remove, from that part of the Site and Works to which the Taking-Over Certificate refers, all Contractor's Equipment, surplus material, wreckage, rubbish and Temporary Works. The Contractor shall leave that part of the Site and the Works in a clean and safe condition. However, the Contractor may retain on Site, during the Project execution Period, such Goods as are required for the Contractor to fulfill obligations under the Contract.

4.24 FOSSILS

All fossils, coins, articles of value or antiquity, and structures and other remains or items of geological or archaeological interest found on the Site shall be placed under the care and authority of the Employer. The Contractor shall take reasonable precautions to prevent Contractor's Personnel or other persons from removing or damaging any of these findings.

The Contractor shall, upon discovery of any such finding, promptly give notice to the Engineer, who shall issue instructions for dealing with it.

5. NOMINATED SUBCONTRACTORS

5.1 DEFINITION OF "SUBCONTRACTOR"

In the Contract, "nominated Subcontractor" means a Subcontractor who is stated in the Contract as being a nominated Subcontractor.
### 5.2 Payments to Notified Subcontractors

Unless otherwise specifically stated in this contract, all payments will be made to the Contractor and the Contractor is liable to the Subcontractors for payments they are eligible for the work done.

If however a sub-contractor to the Contractor brings to the notice of the Engineer the failure of the Contractor to pay eligible sums due to it after receipt of corresponding payments from the Employer by the Contractor, then the Employer may (at his sole discretion) pay, direct to the notified Subcontractor, part or all of such amounts previously certified (less applicable deductions) as are due to the notified Subcontractor and for which the Contractor has failed pay subject to evidence given by the subcontractor. The Contractor shall then repay to the Employer, the amount which the notified Subcontractor was directly paid by the Employer.

### 6. Staff and Labour

#### 6.1 Engagement of Staff and Labour

Except as otherwise stated in the Specification, the Contractor shall make arrangements for the engagement of all staff and labour, local or otherwise, and for their payment, feeding, transport, and, appropriate housing.

#### 6.2 Rates of Wages and Conditions of Labour

The Contractor shall pay to labour employed by him either directly or through Sub-Contractors wages not less than fair wages as defined in the relevant Central / Local Labour Regulations or as per the provisions of the Contract Labour (Regulation and Abolition) Act 1970 and the Contract Labour Regulation and Abolition of Central Rules 1971, wherever applicable. He shall also abide by the minimum wages and other regulations applicable to the labour engaged in the Work as laid down by the concerned Central / local authorities (State, District or other local Authorities).
## 6.3 Persons in the Service of Employer

The Contractor shall not recruit, or attempt to recruit, staff and labour from amongst the Employer's Personnel.

## 6.4 Labour Laws

The Contractor shall be wholly and solely responsible for full compliance with the provisions under all labour laws and/or regulations such as Payment of Wages Act 1948, Employees Liability Act 1938, Workmen's Compensation Act 1923, Employees State Insurance Act 1948, Employees Provident Fund Act 1952, Industrial Disputes Act 1947, the Maternity Benefit Act 1961, the Contract Labour (Regulation and Abolition) Act 1970 and the Factories Act 1948 or any modifications thereof or any other law relating thereto and rules there under introduced from time to time.

The Contractor shall assume liability and shall indemnify the Employer & the Engineer from every expense, liability or payment by reason of the application of any labour law, act, rules or regulations existing or to be introduced at a future date during the term of the Contract.

In general, in respect of all labour directly or indirectly employed in the Work for the performance of Contractor’s part of the Contract, the Contractor shall comply with all the rules framed by the Government authorities concerned from time to time for Protection of the health and welfare of the workers.

The Contractor shall at his own cost obtain a valid license for himself and the Employer under the Contract Labour (R & A) Act 1970 and the Contract Labour (Regulation and Abolition) Central Rules 1971 and under any other applicable rules before the commencement of the Work and continue to have a valid licenses until the completion of the Work.
### 6.5 Working Hours

No work shall be carried out on the Site on locally recognized days of rest, or outside the normal working hours stated in the Contract Data, unless:

(a) otherwise stated in the Contract,

(b) the Engineer gives consent, or

(c) The work is unavoidable, or necessary for the protection of life or property or for the safety of the Works, in which case the Contractor shall immediately advise the Engineer.

### 6.6 Facilities for Staff and Labour

Except as otherwise stated in the Specification, the Contractor shall provide and maintain all necessary accommodation and welfare facilities for the Contractor's Personnel. The Contractor shall also provide facilities for the Employer's Personnel as stated in the Specification.

The Contractor shall not permit any of the Contractor's Personnel to maintain any temporary or permanent living quarters within the structures forming part of the Permanent Works.

### 6.7 Health and Safety

The Contractor shall at all times take all reasonable precautions to maintain the health and safety of the Contractor's Personnel. In collaboration with local health authorities, the Contractor shall ensure that medical staff, first aid facilities, sick bay and ambulance service are available at all times at the Site and at any accommodation for Contractor's and Employer's Personnel, and that suitable arrangements are made for all necessary welfare and hygiene requirements and for the prevention of epidemics.

The Contractor shall at his own expense arrange for all the safety provisions as listed in (i) Safety codes of C.P.W.D. and

The Contractor shall appoint a Safety Officer at the Site, responsible for maintaining safety and protection against accidents. This person shall be qualified for this responsibility, and shall have the authority to issue instructions and take protective measures to prevent accidents. Throughout the execution of the Works, the Contractor shall provide whatever is required by this person to exercise this responsibility and authority.

The Contractor shall send, to the Engineer, details of any accident as soon as practicable after its occurrence. The Contractor shall maintain records and make reports concerning health, safety and welfare of persons, and damage to property, as the Engineer may reasonably require.

### 6.8 CONTRACTOR’S SUPERINTENDENCE

Throughout the execution of the Works, and as long thereafter as is necessary to fulfil the Contractor’s obligations, the Contractor shall provide all necessary superintendence to plan, arrange, direct, manage, inspect and test the work.

### 6.9 CONTRACTOR’S PERSONNEL

The Contractor’s Personnel shall be appropriately qualified, skilled and experienced in their respective trades or occupations. The Engineer may require the Contractor to remove (or cause to be removed) any person employed on the Site or Works, including the Contractor’s Representative if applicable, who:

(a) persists in any misconduct or lack of care,

(b) carries out duties incompetently or negligently,

(c) fail to conform with any provisions of the

ETC. necessary to meet his obligations for making contributions toward employee benefits funds such as Employee Provident fund (EPF), Employee State Insurance Scheme (ESI) benefits, old age pension and/or any other benefits/compensation legally payable in compliance with all the statutory regulations and requirements. All records in this connection shall be properly maintained by the Contractor and produced for scrutiny by the concerned authorities and the Engineer and the Employer when called for.

7. PLANT, MATERIALS AND WORKMANSHIP

7.A DESIGNS BY THE EMPLOYER

The Contractor should carry out the work as per the designs and Good For Construction drawings given by the Employer for all elements of the project. The Employer shall provide the drawings as per the Construction programme of the Contractor.

It is the responsibility of the Contractor to collect the Good for Construction drawings from the Employer by submitting Request for Information (RFI). The Employer shall reply and share the drawings upon the receipt of RFI within 7 days from the day of raising the RFI.

7.1 MANNER OF EXECUTION

The Contractor shall carry out the manufacture of Plant, the production and manufacture of Materials, and all other execution of the Works:
(a) in the manner (if any) specified in the Contract,
(b) in a proper workmanlike and careful manner, in accordance with recognised good practice, and
(c) with properly equipped facilities and non-hazardous Materials, except as otherwise specified in the Contract.

7.2 SAMPLES

The Contractor shall submit samples of materials and relevant information to the Engineer as per Section V

### 7.3 Inspection

The Employer's Personnel shall at all reasonable times:

(a) have full access to all parts of the Site and to all places from which natural Materials are being obtained, and

(b) During production, manufacture and construction (at the Site and elsewhere), be entitled to examine, inspect, measure and test the materials and workmanship, and to check the progress of manufacture of Plant and production and manufacture of Materials.

The Contractor shall give the Employer's Personnel full opportunity to carry out these activities, including providing access, facilities, permissions and safety equipment. No such activity shall relieve the Contractor from any obligation or responsibility.

The Contractor shall give notice to the Engineer whenever any work is ready and before it is covered up, put out of sight, or packaged for storage or transport. The Engineer shall then either carry out the examination, inspection, measurement or testing without unreasonable delay, or promptly give notice to the Contractor that the Engineer does not require to do so. If the Contractor fails to give the notice, he shall, if and when required by the Engineer, uncover the work and thereafter reinstate and make good, all at the Contractor's cost.

### 7.4 Testing

This Sub-Clause shall apply to all tests specified in the Contract, other than the Tests after Completion (if any).

Except as otherwise specified in the Contract, the Contractor shall provide all apparatus, assistance, documents and other information, electricity, equipment, fuel, consumables, instruments, labour, materials, and suitably qualified and experienced staff, as are necessary to carry out the specified...
tests efficiently.

The Contractor shall promptly forward to the Engineer duly certified reports of the tests. When the specified tests have been passed, the Engineer shall endorse the Contractor's test certificate, or issue a certificate to him, to that effect.

### 7.5 REJECTION

If, as a result of an examination, inspection, measurement or testing, any Plant, Materials or workmanship is found to be defective or otherwise not in accordance with the Contract, the Engineer may reject the Plant, Materials or workmanship by giving notice to the Contractor, with reasons. The Contractor shall then promptly make good the defect and ensure that the rejected item complies with the Contract.

If the Engineer requires this Plant, Materials or workmanship to be retested, the tests shall be repeated under the same terms and conditions. If the rejection and retesting cause the Employer to incur additional costs, the Contractor shall subject to Sub- Clause 2.4 [Employer's Claims] pay these costs to the Employer.

### 7.6 REMEDIAL WORK

Notwithstanding any previous test or certification, the Engineer may instruct the Contractor to:

(a) remove from the Site and replace any Plant or Materials which is not in accordance with the Contract,

(b) remove and re-execute any other work which is not in accordance with the Contract, and

(c) Execute any work which is urgently required for the safety of the Works, whether because of an accident, unforeseeable event or otherwise.

The Contractor shall comply with the instruction within a reasonable time, which shall be the time (if any) specified in the...
instruction, or immediately if urgency is specified under sub-paragraph (c).

If the Contractor fails to comply with the instruction, the Employer shall be entitled to employ and pay other persons to carry out the work. Except to the extent
(a) that the Contractor would have been entitled to payment for the work, the Contractor shall subject to Sub-Clause 2.4 [Employer’s Claims] pay to the Employer all costs arising from this failure.

7.7 OWNERSHIP OF PLANT AND MATERIALS

The machinery engaged by the Contractor will be the Property of himself.

7.8 ROYALTIES

Unless otherwise stated in the Specification, the Contractor shall pay all royalties, rents and other payments for:

(a) natural Materials obtained from outside the Site, and

(b) The disposal of material from demolitions and excavations and of other surplus material (whether natural or man-made), except to the extent that disposal areas within the Site are specified in the Contract.

8. COMMENCEMENT, DELAYS AND SUSPENSION

8.1 COMMENCEMENT OF WORKS

The commencement of the work will be as per Special Conditions of Contract.
The Contractor shall commence the execution of the Works as soon as is reasonably practicable after the Commencement Date, and shall then proceed with the Works with due expedition and without delay.

8.2 TIME FOR COMPLETION

The Contractor shall complete the whole of the Works, and each Section (if any), within the Time for Completion for the Works or Section (as the case may be), including:

(a) achieving the passing of the Tests on Completion.
and

(b) completing all work which is stated in the Contract as being required for the Works or Section to be considered to be completed for the purposes of taking-over under Sub-Clause 10.1 [Taking Over of the Works and Sections].

The Time for completion will be as per Special Conditions of Contract.

### 8.3 PROGRAMME

The Contractor shall submit a detailed time programme to the Engineer within 28 days after receiving the notice under Sub-Clause 8.1 [Commencement of Works]. The Contractor shall also submit a revised programme whenever the previous programme is inconsistent with actual progress or with the Contractor's obligations. Each programme shall include:

(a) the order in which the Contractor intends to carry out the Works, including the anticipated timing of each stage of design (if any), Contractor's Documents, procurement, manufacture of Plant, delivery to Site, construction, erection and testing,

(b) the sequence and timing of inspections and tests specified in the Contract, and

(c) a supporting report which includes resource statement to be deployed to achieve the progress of work

The Contractor shall promptly give notice to the Engineer of specific probable future events or circumstances which may adversely affect the work, increase the Contract Price or delay the execution of the Works. The Engineer may require the Contractor to submit an estimate of the anticipated effect of the future event or circumstances, and/or a proposal under Sub-Clause 13.2 [Variation Procedure].

Page 82
To be continued
If, at any time, the Engineer gives notice to the Contractor that a programme fails (to the extent stated) to comply with the Contract or to be consistent with actual progress and the Contractor’s stated intentions, the Contractor shall submit a revised programme to the Engineer in accordance with this Sub-Clause.

### 8.4 Extension of Time for Completion

The Contractor shall be entitled subject to Sub-Clause 20.1 [Contractor’s Claims] to an extension of the Time for Completion if and to the extent that completion for the purposes of Sub-Clause 10.1 [Taking Over of the Works and Sections] is or will be delayed by any of the following causes:

(a) a Variation (unless an adjustment to the Time for Completion has been agreed under Sub-Clause 13.2 [Variation Procedure]) or other substantial change in the quantity of an item of work included in the Contract,

(b) exceptionally adverse climatic conditions,

If the Contractor considers himself to be entitled to an extension of the Time for Completion, the Contractor shall give notice to the Engineer in accordance with Sub-Clause 20.1 [Contractor’s Claims].

### 8.5 Delay Damages

If the Contractor fails to comply with Sub-Clause 8.2 [Time for Completion], the Contractor shall subject to notice under Sub-Clause 2.4 [Employer’s Claims] pay delay damages to the Employer for this default. These delay damages shall be the sum stated in the Contract Data, which shall be paid for every day which shall elapse between the relevant Time for Completion and the date stated in the Taking-Over Certificate. However, the total amount due under this Sub-Clause shall not exceed the maximum amount of delay damages (if any) stated in the Contract Data.
These delay damages shall be the only damages due from the Contractor for such default, other than in the event of termination under Sub-Clause 15.2 [Termination by Employer] prior to completion of the Works. These damages shall not relieve the Contractor from his obligation to complete the Works, or from any other duties, obligations or responsibilities which he may have under the Contract.

### 8.6 SUSPENSION OF WORK

The Engineer may at any time instruct the Contractor to suspend progress of part or all of the Works. During such suspension, the Contractor shall protect, store and secure such part or the Works against any deterioration, loss or damage.

The Engineer may also notify the cause for the suspension. If and to the extent that the cause is notified and is the responsibility of the Contractor, then Sub-Clauses 8.7 shall not apply.

### 8.7 CONSEQUENCES OF SUSPENSION

If the Contractor suffers delay and/or incurs cost from complying with the Engineer’s instructions under Sub-Clause 8.6 [Suspension of Work] and/or from resuming the work, the Contractor shall give notice to the Engineer and shall be entitled subject to Sub-Clause 20.1 [Contractor’s Claims] to an extension of time for any such delay, if completion is or will be delayed, under Sub-Clause 8.4 [Extension of Time for Completion]

After receiving this notice, the Engineer shall proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine these matters.

The Contractor shall not be entitled to an extension of time for, or to payment of the Cost incurred in, making good the consequences of the Contractor’s faulty design, workmanship.

Contract Agreement
or materials, or of the Contractor's failure to protect, store or secure in accordance with Sub-Clause 8.6 [Suspension of Work].

8.8 RESUMPTION OF WORK

After the permission or instruction to proceed is given, the Contractor and the Engineer shall jointly examine the Works and the Plant and Materials affected by the suspension. The Contractor shall make good any deterioration or defect in or loss of the Works or Plant or Materials, which has occurred during the suspension after receiving from the Engineer an instruction to this effect.

9. TESTS ON COMPLETION

9.1 CONTRACTOR'S OBLIGATIONS

The Contractor shall carry out the Tests on Completion in accordance with this Clause and Sub-Clause 7.4 [Testing], after providing the documents in accordance with sub-paragraph (d) of Sub-Clause 4.1 [Contractor's General Obligations].

The Contractor shall give to the Engineer not less than 7 days' notice of the date after which the Contractor will be ready to carry out each of the Tests on Completion. Unless otherwise agreed, Tests on Completion shall be carried out within 7 days after this date, on such day or days as the Engineer shall instruct.

In considering the results of the Tests on Completion, the Engineer shall make allowances for the effect of any use of the Works by the Employer on the performance or other characteristics of the Works. As soon as the Works, or a Section, have passed any Tests on Completion, the Contractor shall submit a certified report of the results of these Tests to the Engineer.

9.2 DELAYED TESTS

If the Tests on Completion are being unduly delayed by the Contractor, the Engineer may by notice require the Contractor to carry out the Tests within 21 days after receiving the notice. The Contractor shall carry out the Tests on such day or days...
within that period as the Contractor may fix and of which he shall give notice to the Engineer.

If the Contractor fails to carry out the Tests on Completion within the period of 21 days, the Employer's Personnel may proceed with the Tests at the risk and cost of the Contractor. The Tests on Completion shall then be deemed to have been carried out in the presence of the Contractor and the results of the Tests shall be accepted as accurate.

### 9.3 RETESTING

If the Works, or a Section, fail to pass the Tests on Completion, Sub-Clause 7.5 [Rejection] shall apply, and the Engineer or the Contractor may require the failed Tests, and Tests on Completion on any related work, to be repeated under the same terms and conditions.

### 9.4 FAILURE TO PASS TESTS ON COMPLETION

If the Works, or a Section, fail to pass the Tests on Completion repeated under Sub-Clause 9.3 [Retesting], the Engineer shall be entitled to:

(a) order further repetition of Tests on Completion under Sub-Clause 9.3;

(b) if the failure deprives the Employer of substantially the whole benefit of the Works or Section, reject the Works or Section (as the case may be), in which event the Employer shall have the same remedies as are provided in sub-paragraph (c) of Sub-Clause 11.4 [Failure to Remedy Defects].

### 10. EMPLOYER’S TAKING OVER

#### 10.1 TAKING OVER OF THE WORKS AND SECTIONS

Except as stated in Sub-Clause 9.4 [Failure to Pass Tests on Completion], the Works shall be taken over by the Employer when (i) the Works have been completed in accordance with the Contract, including the matters described in Sub-Clause 8.2 [Time for Completion] and except as allowed...
in sub-paragraph (a) below, and (ii) a Taking-Over Certificate for the Works has been issued, or is deemed to have been issued in accordance with this Sub-Clause.

The Contractor may apply by notice to the Engineer for a Taking-Over Certificate not earlier than 14 days before the Works will, in the Contractor’s opinion, be complete and ready for taking over. If the Works are divided into Sections, the Contractor may similarly apply for a Taking-Over Certificate for each Section.

The Engineer shall, within 28 days after receiving the Contractor’s application:

(a) issue the Taking-Over Certificate to the Contractor, stating the date on which the Works or Section were completed in accordance with the Contract or

(b) reject the application, giving reasons and specifying the work required to be done by the Contractor to enable the Taking-Over Certificate to be issued. The Contractor shall then complete this work before issuing a further notice under this Sub-Clause

<table>
<thead>
<tr>

</tbody>
</table>
## 11. DEFECTS LIABILITY PERIOD

### 11.1 COMPLETION OF OUTSTANDING WORK

In order that the Works and Contractor’s Documents, and each Section, shall be in the condition required by in accordance with the Contract, including the matters described in Sub-Clause 8.2 [Time for Completion] and except as allowed in sub-paragraph (a) below, and (ii) a Taking-Over Certificate for the Works has been issued, or is deemed to have been issued in accordance with this Sub-Clause

The Contractor may apply by notice to the Engineer for a Taking-Over Certificate not earlier than 14 days before the Works will, in the Contractor's opinion, be complete and ready for taking over. If the Works are divided into Sections, the Contractor may similarly apply for a Taking-Over Certificate for each Section.

The Engineer shall, within 28 days after receiving the Contractor’s application:

(a) issue the Taking-Over Certificate to the Contractor, stating the date on which the Works or Section were completed in accordance with the Contract or

(b) reject the application, giving reasons and specifying the work required to be done by the Contractor to enable the Taking-Over Certificate to be issued. The Contractor shall then complete this work before issuing a further notice under this Sub-Clause

### 11.2 COST OF REMEDYING DEFECTS

All work referred to in sub-paragraph (b) of Sub-Clause 11.1 [Completion of Outstanding Work and Remediing Defects] shall be executed at the risk and cost of the Contractor.

### 11.3 EXTENSION OF DEFECTS LIABILITY PERIOD

The Employer shall be entitled subject to Sub-Clause 2.4 [Employer’s Claims] to an extension of the Defects Liability Period for the Works or a Section if and to the extent that the

**TIRUPATI SMART CITY CORPORATION LIMITED**

Contract Agreement

Page 88

To be continued
**11.4 Failure to Remedy Defects**

If the Contractor fails to remedy any defect or damage within a reasonable time, a date may be fixed by (or on behalf of) the Employer, on or by which the defect or damage is to be remedied. The Contractor shall be given reasonable notice of this date.

If the Contractor fails to remedy the defect or damage by this notified date and this remedial work was to be executed at the cost of the Contractor under Sub-Clause 11.2 [Cost of Remedy Defects], the Employer may (at his option):

(a) carry out the work himself or by others, in a reasonable manner and at the Contractor’s cost, but the Contractor shall have no responsibility for this work; and the Contractor shall subject to Sub-Clause 2.4 [Employer’s Claims] pay to the Employer the costs reasonably incurred by the Employer in remedying the defect or damage; or

(b) if the defect or damage deprives the Employer of substantially the whole benefit of the Works or any major part of the Works or terminates the Contract as a whole, or in respect of such major part which cannot be put to the intended use. Without prejudice to any other rights, under the Contract or otherwise, the Employer shall then be entitled to recover all sums paid for the Works or for such part (as the case may be), plus financing costs and the cost of dismantling the same, clearing the Site and returning Plant and Materials to the Contractor.

**11.5 Removal of Defective Work**

If the defect or damage cannot be remedied expeditiously on the Site and the Employer gives consent, the Contractor may...
**11.6 RIGHT OF ACCESS**

Until the Performance Certificate has been issued, the Contractor shall have such right of access to the Works as is reasonably required in order to comply with this Clause, except as may be inconsistent with the Employer's reasonable security restrictions.

**11.7 PERFORMANCE CERTIFICATE**

Performance of the Contractor's obligations shall not be considered to have been completed until the Engineer has issued the Performance Certificate to the Contractor, stating the date on which the Contractor completed his obligations under the Contract.

The Engineer shall issue the Performance Certificate within 28 days after the latest of the expiry dates of the Defects Liability Periods, or as soon thereafter as the Contractor has supplied all the Contractor's Documents and completed and tested all the Works, including remedying any defects. A copy of the Performance Certificate shall be issued to the Employer.

Only the Performance Certificate shall be deemed to constitute acceptance of the Works.

**11.8 UNFULFILLED OBLIGATIONS**

After the Performance Certificate has been issued, each Party shall remain liable for the fulfilment of any obligation which remains unperformed at that time. For the purposes of determining the nature and extent of unperformed obligations, the Contract shall be deemed to remain in force.

**11.9 CLEARANCE OF SITE**

Upon receiving the Performance Certificate, the Contractor shall remove any remaining Contractor's Equipment, surplus material, wreckage, rubbish and Temporary Works from the Site.

---

The table below contains the names and roles of the parties involved in the contract:

<table>
<thead>

<th>MUNICIPAL ENGINEER-2</th>
<th>MUNICIPAL ENGINEER-1</th>
<th>SUPERINTENDING ENGINEER [FAC]</th>
</tr>
</thead>
</table>

Contract Agreement

Page 90

To be continued
If all these items have not been removed within 28 days after receipt by the Contractor of the Performance Certificate, the Employer may sell or otherwise dispose of any remaining items. The Employer shall be entitled to be paid the costs incurred in connection with, or attributable to, such sale or disposal and restoring the Site.

Any balance of the moneys from the sale shall be paid to the Contractor. If these moneys are less than the Employer's costs, the Contractor shall pay the outstanding balance to the Employer.

12. MEASUREMENT AND EVALUATION

12.1 WORKS TO BE MEASURED

The Works shall be measured, and valued for payment, in accordance with this Clause. The Contractor shall show in each application under Sub-Clauses 14.3 [Application for Interim Payment Certificates], 14.8 [Statement on Completion] and 14.9 [Application for Final Payment Certificate] the quantities and other particulars detailing the amounts which he considers to be entitled under the Contract.

Whenever the Engineer requires any part of the Works to be measured, reasonable notice shall be given to the Contractor's Representative, who shall:

(a) promptly either attend or send another qualified representative to assist the Engineer in making the measurement, and
(b) supply any particulars requested by the Engineer. If the Contractor fails to attend or send a representative, the measurement made by (or on behalf of) the Engineer shall be accepted as accurate.

12.2 METHOD OF MEASUREMENT

To measure the under this Contract the standard method of measurement in accordance with the Standards laid down by Bureau of Indian Standards (IS: 1200) shall be followed.
However, if definite methods of measurements are stipulated in the Specifications, then the same shall supersede BIS methods and shall be followed.

12.3 EVALUATION

Except as otherwise stated in the Contract, the Engineer shall proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine the Contract Price by evaluating each item of work, applying the measurement agreed or determined in accordance with the above Sub-Clauses 12.1 and 12.2 and the appropriate rate or price for the item.

For each item of work, the appropriate rate or price for the item shall be the rate or price specified for such item in the Contract OR, if there is no such item, specified for similar work.

Any item of work included in the Bill of Quantities for which no rate or price was specified shall be considered as included in other rates and prices in the Bill of Quantities and will not be paid for separately.

However, a new rate or price shall be appropriate for an item of work if:

(a) (i) the measured quantity of the item is changed by more than 25% from the quantity of this item in the Bill of Quantities or other Schedule,

(ii) this change in quantity multiplied by such specified rate for this item exceeds 5% of the Accepted Contract Amount,

(iii) this item is not specified in the Contract as a "fixed rate item";

or

(b)(i) the work is instructed under Clause 13 [Variations and
Adjustments],
(ii) no rate or price is specified in the Contract for this item, and no specified rate or price is appropriate because the item of work is not of similar character, or is not executed under similar conditions, as any item in the Contract.

Each new rate or price shall be derived from any relevant rates or prices in the Contract, with reasonable adjustments to take account of the matters described in sub-paragraph (a) and/or (b), as applicable. If no rates or prices are relevant for the derivation of a new rate or price, it shall be derived from the reasonable Cost of executing the work, together with profit, taking account of any other relevant matters.

Until such time as an appropriate rate or price is agreed or determined, the Engineer shall determine a provisional rate or price for the purposes of Interim Payment Certificates as soon as the concerned work commences.

### 13. VARIATIONS AND ADJUSTMENTS

**13.1 RIGHT TO VARY**

Variations may be initiated by the Engineer at any time prior to issuing the Taking-Over Certificate for the Works, either by an instruction or by a request for the Contractor to submit a proposal.

The Contractor shall execute and be bound by each Variation, unless the Contractor promptly gives notice to the Engineer stating (with supporting particulars) that (i) the Contractor cannot readily obtain the Goods required for the Variation, or (ii) such Variation triggers a substantial change in the sequence or progress of the Works. Upon receiving this notice, the Engineer shall cancel, confirm or vary the instruction.
Each Variation may include:

a) changes to the quantities of any item of work included in the Contract (however, such changes do not necessarily constitute a Variation),
b) changes to the quality and other characteristics of any item of work
c) changes to the levels, positions and/or dimensions of any part of the Works,
d) omission of any work unless it is to be carried out by others, any additional work, Plant, Materials or services necessary for the Permanent Works, including any associated Tests on Completion, boreholes and other testing and exploratory work, or
e) changes to the sequence or timing of the execution of the Works.
f) The Contractor shall not make any alteration and/or modification of the Permanent Works, unless and until the Engineer instructs or approves a Variation.
g) The Engineer-in-Charge shall have power (i) to make any alterations in, omissions from, additions to or substitutions for, instructions that may appear to him to be necessary during the progress of the work, (ii) to omit part of the works in case of non-availability of a portion of the site or for any other reasons and the contractor shall be bound to carry out the works in accordance with any instructions given to him in writing signed by the Engineer-in-Charge and such alterations, omissions, additions, or substitutions shall form part of the contract as if originally provided therein and any altered, additions or substituted works which the contractor may be directed to do in the manner specified above as part of the work, shall be carried out by the contractor on the same conditions in all respects including price on which he agreed to do the main work.

13.2 VARIATION PROCEDURE

If the Engineer requests a proposal, prior to instructing a Variation, the Contractor shall respond in writing as soon as practicable, either by giving reasons why he cannot comply (if
this is the case) or by submitting:

(a) a description of the proposed work to be performed and a programme for its execution,

(b) the Contractor’s proposal for any necessary modifications to the programme according to Sub-Clause 8.3 [Programme] and to the Time for Completion, and

(c) the Contractor’s proposal for evaluation of the Variation.

The Engineer shall, as soon as practicable after receiving such proposal respond with approval, disapproval or comments. The Contractor shall not delay any work whilst awaiting a response.

Each instruction to execute a Variation, with any requirements for the recording of Costs, shall be issued by the Engineer to the Contractor, who shall acknowledge receipt.

Each Variation shall be evaluated in accordance with Clause 12 [Measurement and Evaluation], unless the Engineer instructs or approves otherwise in accordance with this Clause.

accordance with the Contract;

(b) the Contractor shall pay all statutory taxes, duties and fees required to be paid by him under the Contract, and the Contract Price shall not be adjusted for any of these costs;

(c) any quantities which may be set out in the Bill of Quantities or other Schedule are estimated quantities and are not to be taken as the actual and correct quantities:

(i) of the Works which the Contractor is required to execute, or

(ii) for the purposes of Clause 12 [Measurement and Evaluation]; and

(d) the Contractor shall submit to the Engineer, within 28 days after the Commencement Date, a proposed breakdown of each lump sum price in the Schedules. The Engineer may take account of the breakdown when preparing Payment Certificates, but shall not be bound by it.

### 14.2 MOBILIZATION ADVANCE

The Employer shall make a mobilization advance to the contractor if requested by the Contractor, at an interest rate specified in Contract Data of Special Conditions of Contract towards mobilization and cash flow support, when the Contractor submits a guarantee in accordance with this Sub-Clause. The total advance payment, the number and timing of installments (if more than one), and the applicable currencies and proportions, shall be as stated in the Contract Data.

Unless and until the Employer receives this guarantee, or if the total Mobilization Advance is not stated in the Contract Data, this Sub-Clause shall not apply.
Unless stated otherwise in the Contract Data, the Mobilization Advance payment shall be repaid through percentage deductions from the interim payments determined by the Engineer in accordance with Sub-Clauses 14.6 [Issue of Interim Payment Certificates]

<table>

</table>
| The Contractor shall submit a Statement in 3 (three) copies to the Engineer after the end of each month, in a form approved by the Engineer, showing in detail the amounts to which the Contractor considers himself to be entitled, together with supporting documents which shall include the report on the progress during this month in accordance with Sub-Clause 4.21 [Progress Reports]. The Statement shall include the following items in the sequence listed:

(a) the estimated contract value of the Works executed and the Contractor's Documents produced up to the end of the month (including Variations but excluding items described in sub-paragraphs (b) to (g) below);

(b) any amount to be deducted for advance payment, retention, calculated by applying the percentage of retention stated in the Contract Data to the total of the above amounts, until the amount so retained by the Employer reaches the limit of Retention Money (if any) stated in the Contract Data;

(c) any other additions or deductions which may have become due under the Contract or otherwise, including those under Clause 20 [Claims, Disputes and Arbitration]; and

(d) the deduction of amounts certified in all previous Payment Certificates.

the instalments in which the Contract Price will be paid, then unless otherwise stated in this schedule:

(a) the instalments quoted in this schedule of payments shall be the estimated contract values for the purposes of sub-
paragraph (a) of Sub- Clause 14.3 [Application for Interim Payment Certificates]; and

(b) if these instalments are not defined by reference to the actual progress achieved in executing the Works, and if actual progress is found to be less than that on which this schedule of payments was based, then the Engineer may proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine revised instalments, which shall take account of the extent to which progress is less than that on which the instalments were Previously based.

14.5 ISSUE OF INTERIM PAYMENT CERTIFICATES

No amount will be certified or paid until the Employer has received and approved the Performance Security. Thereafter, the Engineer shall, within 28 days after receiving a Statement and supporting documents, deliver to the Employer and to the Contractor an Interim Payment Certificate which shall state the amount which the Engineer fairly determines to be due, with all supporting particulars for any reduction or withholding made by the Engineer on the Statement if any.

The Engineer may in any Payment Certificate make any correction or modification that should properly be made to any previous Payment Certificate. A Payment Certificate shall not be deemed to indicate the Engineer’s acceptance, approval, consent or satisfaction.

14.6 PAYMENT

The Employer shall pay to the Contractor:

(a) the amount certified in each Interim Payment Certificate within 30 days after the Engineer receives the Statement. 
and supporting documents and the payment based on the input quantity of waste processed from the Dumpyard.

(b) the amount certified in the Final Payment Certificate within 45 days after the Employer receives this Payment Certificate

done in accordance with the Contract, and if the Engineer disagrees with or cannot verify any part of the draft final statement, the Contractor shall submit such further information as the Engineer may reasonably require within 28 days from receipt of said draft and shall make such changes in the draft as may be agreed between them. The Contractor shall then prepare and submit to the Engineer the final statement as agreed. This agreed statement is referred to in these Conditions as the “Final Statement”.

14.10 DISCHARGE

When submitting the Final Statement, the Contractor shall submit a discharge which confirms that the total of the Final Statement represents full and final settlement of all moneys due to the Contractor under or in connection with the Contract.

14.11 ISSUE OF FINAL PAYMENT CERTIFICATE

Within 28 days after receiving the Final Statement and discharge in accordance with Sub-Clause 14.9 [Application for Final Payment Certificate] and Sub-Clause 14.10 [Discharge], the Engineer shall deliver, to the Employer and to the Contractor, the Final Payment Certificate which shall state:

(a) the amount which he fairly determines is finally due, and

(b) after giving credit to the Employer for all amounts previously paid by the Employer and for all sums to which the Employer is entitled, the balance (if any) due from the Employer to the Contractor or from the Contractor to the Employer, as the case may be.

If the Contractor has not applied for a Final Payment Certificate in accordance with Sub-Clause 14.9 [Application for Final Payment Certificate] and Sub-Clause 14.10 [Discharge], the Engineer shall request the Contractor to do so. ### 15. TERMINATION BY EMPLOYER

#### 15.1 NOTICE TO CORRECT

If the Contractor fails to carry out any obligation under the Contract, the Engineer may by notice require the Contractor to make good the failure and to remedy it within a specified reasonable time.

#### 15.2 TERMINATION BY EMPLOYER

The Employer shall be entitled to terminate the Contract if the Contractor:

(a) fails to comply with Sub-Clause 4.2 [Performance Security] or with a notice under Sub-Clause 15.1 [Notice to Correct],

(b) abandons the Works or otherwise plainly demonstrates the intention not to continue performance of his obligations under the Contract,

(c) subcontracts the whole of the Works or assigns the Contract without the required agreement,

(d) becomes bankrupt or insolvent, goes into liquidation, has a receiving or administration order made against him, compounds with his creditors, or carries on business under a receiver, trustee or manager for the benefit of his creditors,

(e) gives or offers to give (directly or indirectly) to any person any bribe, gift, gratuity, commission or other thing of value, as an inducement or reward:

(i) for doing or forbearing to do any action in relation to the Contract, or

(ii) for showing or forbearing to show favour or disfavour to
any person in relation to the Contract.

In any of these events or circumstances, the Employer may, upon giving 14 days’ notice to the Contractor, terminate the Contract and expel the Contractor from the Site. However, in the case of sub-paragraph (e), the Employer may by notice terminate the Contract immediately.

The Employer’s election to terminate the Contract shall not prejudice any other rights of the Employer, under the Contract or otherwise.

The Contractor shall then leave the Site and deliver any required Goods, all Contractor’s Documents, and other design documents made by or for him, to the Engineer.

Notwithstanding anything stated here in above, the employer may terminate this agreement for conveyance. The termination shall take effect 30(Thirty) days from the date of notice.

| 15.3 VALUATION AT DATE OF TERMINATION | As soon as practicable after a notice of termination under Sub-Clause 15.2 [Termination by Employer] has taken effect, the Engineer shall proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine the value of the Works, Goods and Contractor’s Documents, and any other sums due to the Contractor for work executed in accordance with the Contract |
| 15.4 PAYMENT AFTER TERMINATION | After a notice of termination under Sub-Clause 15.2 [Termination by Employer] has taken effect, the Employer may:

(a) proceed in accordance with Sub-Clause 2.4 [Employer’s Claims], |
(b) withhold further payments to the Contractor until the costs
of execution, completion and remedying of any defects, damages
for delay in completion
(if any), and all other costs incurred by the
Employer, have been established, and/or

(c) recover from the Contractor any losses and damages
incurred by the Employer and any extra costs of completing the
Works, after allowing for any sum due to the Contractor under
Sub-Clause
15.3 [Valuation at Date of Termination]. After recovering any
such losses, damages and extra costs, the Employer shall pay
any balance to the Contractor.

16. SUSPENSION AND TERMINATION BY CONTRACTOR

| 16.1 CONTRACTOR’S ENTITLEMENT TO SUSPEND WORK | If the Engineer fails to certify in accordance with Sub-
Entitlement to Suspend Work Clause 14.5 [Issue of
Interim Payment Certificates] or Sub-Clause 14.6 [Payment],
the Contractor may, after giving not less than 21 days’ notice to
the Employer, suspend work (or reduce the rate of work) unless
and until the Contractor has received the Payment Certificate,
reasonable evidence or payment, as the case may be and as
described in the notice.

If the Contractor subsequently receives such Payment
Certificate, evidence or payment (as described in the relevant
Sub-Clause and in the above notice) before giving a notice of
termination, the Contractor shall resume normal working as
soon as is reasonably practicable.

| 16.2 TERMINATION BY CONTRACTOR | The Contractor shall be entitled to terminate the
Contract if:
a. the Engineer fails, within 30 days after receiving a
Statement and supporting documents, to issue the relevant
Payment Certificate,

b. the Contractor does not receive the amount due under an Interim Payment Certificate within 42 days after the expiry of the time stated in Sub-Clause 14.6 [Payment] within which payment is to be made (except for deductions in accordance with Sub-Clause 2.4 [Employer's Claims]),

c. the Employer substantially fails to perform his obligations under the Contract in such manner as to materially and adversely affect the economic balance of the Contract and/or the ability of the Contractor to perform the Contract,

d. the Employer fails to comply with Sub-Clause 1.6 [Contract Agreement] or Sub-Clause 1.7 [Assignment]

In any of these events or circumstances, the contractor may upon giving 14 days notice to the Employer terminate the Contract

### 16.4 Payment on Termination

After a notice of termination under Sub-Clause 16.2 [Termination by Contractor] has taken effect, the Employer shall promptly:

(a) return the Performance Security to the Contractor,

(b) pay the Contractor in accordance with Sub-Clause 19.6 [Optional Termination, Payment and Release], and

(c) pay to the Contractor the amount of any loss or damage sustained by the Contractor as a result of this termination.

### 17. Risk and Responsibility

**17.1 Indemnities**

The Contractor shall indemnify and hold harmless the Employer, the Employer’s Personnel, and their respective agents, against and from all claims, damages, losses and expenses (including legal fees and expenses) in respect of:

(a) bodily injury, sickness, disease or death, of any person whatsoever arising out of or in the course of or by reason of the Contractor’s design (if any), the execution and completion of the Works and the remedying of any defects, unless attributable to any negligence, wilful act or breach of the Contract by the Employer, the Employer’s Personnel, or any of their respective agents, and

(b) damage to or loss of any property, real or personal (other than the Works), to the extent that such damage or loss arises out of or in the course of or by reason of the Contractor’s design (if any), the execution and completion of the Works and the remedying of any defects, unless and to the extent that any such damage or loss is attributable to any negligence, wilful...
### 17.2 CONTRACTOR'S CARE OF THE WORKS

The Contractor shall take full responsibility for the care of the Works and Goods from the Commencement Date until the Taking-Over Certificate is issued (or is deemed to be issued under Sub-Clause 10.1 [Taking Over of the Works and Sections]) for the Works, when responsibility for the care of the Works shall pass to the Employer.

If any loss or damage happens to the Works, Goods or Contractor's Documents during the period when the Contractor is responsible for their care, from any cause not listed in Sub-Clause 17.3 [Employer's Risks], the Contractor shall rectify the loss or damage at the Contractor's risk and cost, so that the Works, Goods and Contractor's Documents conform with the Contract.

The Contractor shall be liable for any loss or damage caused by any actions performed by the Contractor after a Taking-Over Certificate has been issued. The Contractor shall also be liable for any loss or damage which occurs after a Taking-Over Certificate has been issued and which arose from a previous event for which the Contractor was liable.

### 17.3 EMPLOYER'S RISKS

The risks referred to in Sub-Clause 17.4 [Consequences of Employer's Risks] below, insofar as they directly affect the execution of the Works in the Country, are:

(a) war, hostilities (whether war be declared or not), invasion, act of foreign enemies,

(b) rebellion, terrorism, sabotage by persons other than the Contractor's Personnel, revolution, insurrection, military or
### 17.4 Consequences of Employer's Risks

If and to the extent that any of the risks listed in Sub-Clause 17.3 above results in loss or damage to the Works, Goods or Contractor's Documents, the Contractor shall promptly give notice to the Engineer and shall rectify this loss or damage to the extent required by the Engineer.

If the Contractor suffers delay and/or incurs Cost from rectifying this loss or damage, the Contractor shall give a further notice to the Engineer and shall be entitled subject to Sub-Clause 20.1 [Contractor's Claims] to:

(a) an extension of time for any such delay, if completion is or will be delayed, under Sub-Clause 8.4 [Extension of Time for Completion], and

(b) payment of any such Cost, which shall be included in the Contract Price. In the case of sub-paragraphs (f) and (g) of Sub-Clause 17.3 [Employer's Risks], Cost plus profit shall be payable.

After receiving this further notice, the Engineer shall proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine these matters.

### 17.5 Intellectual and Industrial Property Rights

In this Sub-Clause, “infringement” means an infringement (or alleged infringement) of any patent, registered design, copyright, trade mark, trade name, trade secret or other
implementing agency /
contractor

contract agreement

intellectual or industrial property right relating to the Works;
and “claim” means a claim (or proceedings pursuing a claim)
alleging an infringement.

The Contractor shall indemnify and hold the Employer harmless
against and from any other claim which arises out of or in
relation to (i) the manufacture, use, sale or import of any
goods or (ii) any design for which the
Contractor is responsible.

If a Party is entitled to be indemnified under this Sub-Clause, the
indemnifying Party may (at its cost) conduct negotiations for the
settlement of the claim, and any litigation or arbitration which
may arise from it. The other Party shall, at the request and cost
of the indemnifying Party, assist in contesting the claim. This
other Party (and its Personnel) shall not make any admission
which might be prejudicial to the indemnifying Party, unless the
indemnifying Party failed to take over the conduct of any
negotiations, litigation or arbitration upon being requested
to do so by such other Party.

17.6 USE OF EMPLOYER’S,
ACCOMMODATION/FACILITIES

The Contractor shall take full responsibility for the care
of the Employer provided accommodation and facilities, if any,
as detailed in the Specification, from the respective dates of
hand-over to the Contractor until cessation of occupation
(where hand-over or cessation of occupation may take place
after the date stated in the Taking-Over Certificate for the
Works).

If any loss or damage happens to any of the above items while
the Contractor is responsible for their care arising from any
cause whatsoever other than those for which the Employer is
liable, the Contractor shall, at his own cost, rectify the loss or
damage to the satisfaction of the Engineer.

Before the commencement of the work, the Contractor shall take and maintain insurances under this Sub-Clause: The Insurance

(a) shall be in the joint names of the Parties, who shall be jointly entitled to receive payments from the insurers, payments being held or allocated to the Party actually bearing the costs of rectifying the loss or damage,

(b) shall cover all loss and damage from any cause not listed in Sub-Clause 17.3 [Employer's Risks],

(c) shall also cover, to the extent specifically required in the bidding documents of the Contract, loss or damage to a part of the Works which is attributable to the use or occupation by the Employer of another part of the Works, and loss or damage from the risks listed in sub-paragraphs (c), (g) and (h) of Sub-Clause 17.3 [Employer’s Risks], excluding (in each case) risks which are not insurable at commercially reasonable terms.

The Contractor should take Contractor’s All Risk Insurance and Extensions on first loss basis: Policy to inter alias cover the following:

- Contract works for entire Contract Value plus cost of Owner supplied material valid for the completion period and any extension thereof.

- Earthquake, Civil commotion, riots, war and other disturbances.

- Debris removal.

- Extended Maintenance Cover till completion of Defects Liability Period and any extension thereof.

18.4 FAILURE TO INSURE

If the Contractor failsto comply with the terms of Sub-clause 18, the Engineer may effect and / or keep current (but without obligation to do so) the insurance at the cost and expense of the Contractor and at two times the expenses incurred, deduct the expenses from any moneys that may be or become payable to the Contractor or may use his option, refuse payment of any certificate to the Contractor until the Contractor complies with this condition.

19. FORCE MAJEURE
### 19.1 Definition of Force Majeure

In this Clause, “Force Majeure” means an exceptional event or circumstance:

(a) which is beyond a Party's control,

(b) which such Party could not reasonably have provided against before entering into the Contract,

(c) which, having arisen, such Party could not reasonably have avoided or overcome, and

(d) which is not substantially attributable to the other Party.

Force Majeure may include, but is not limited to, exceptional events or circumstances of the kind listed below, so long as conditions (a) to (d) above are satisfied:

(i) war, hostilities (whether war be declared or not), invasion, act of foreign enemies,

(ii) rebellion, terrorism, sabotage by persons other than the Contractor’s Personnel, revolution, insurrection, military or usurped power, or civil war,

(iii) riot, commotion, disorder, strike or lockout by persons other than the Contractor’s Personnel,

(iv) munitions of war, explosive materials, ionising radiation or contamination by radio-activity, except as may be attributable to the Contractor’s use of such munitions, explosives, radiation or radio-activity, and

(v) natural catastrophes such as earthquake, hurricane, typhoon or volcanic activity

### 19.2 Notice of Force Majeure

If a Party is or will be prevented from performing its substantial obligations under the Contract by Force Majeure, then it shall give notice to the other Party of the event or circumstances constituting the Force Majeure and shall specify the obligations, the performance of which is or will be prevented. The notice shall be given within 14 days after the Party became aware, or should have become aware, of the relevant event or circumstance constituting Force Majeure.

The Party shall, having given notice, be excused performance of its obligations for so long as such Force Majeure prevents it from performing them.
Notwithstanding any other provision of this Clause, Force Majeure shall not apply to obligations of either Party to make payments to the other Party under the Contract.

<table>
<thead>
<tr>
<th>19.3 DUTY TO MINIMIZE DELAY</th>

</tr>
</thead>
<tbody>
<tr>
<td>19.4 CONSEQUENCES OF FORCE MAJEURE</td>
<td>If the Contractor is prevented from performing his substantial obligations under the Contract by Force Majeure of which notice has been given under Sub-Clause 19.2 [Notice of Force Majeure], and suffers delay and/or incurs cost by reason of such Force Majeure, the Contractor shall be entitled subject to Sub-Clause 20.1 [Contractor's Claims] to:</td>
</tr>
<tr>
<td></td>
<td>(a) an extension of time for any such delay, if completion is or will be delayed, under Sub-Clause 8.4 [Extension of Time for Completion], and</td>
</tr>
<tr>
<td></td>
<td>(b) if the event or circumstance is of the kind described in sub-paragraphs (i) to (iv) of Sub-Clause 19.1 [Definition of Force Majeure] and, in sub-paragraphs (ii) to (iv), occurs in the Country, payment of any such cost, including the costs of rectifying or replacing the Works and/or Goods damaged or destroyed by Force Majeure, to the extent they are not indemnified through the insurance policy referred to in Sub-Clause 18.1 [Insurance for Works and Contractor’s Equipment]. After receiving this notice, the Engineer shall proceed in accordance with Sub-Clause 3.5 [Determinations] to agree or determine these matters</td>
</tr>
<tr>
<td>19.5 FORCE MAJEURE AFFECTING SUBCONTRACTOR</td>
<td>If any Subcontractor is entitled under any contract or agreement relating to the Works to relief from force majeure on terms additional to or broader than those specified in this Clause, such additional or broader force majeure events or circumstances shall not excuse the Contractor’s non-performance or entitle him to relief under this Clause</td>
</tr>
<tr>
<td>19.6 OPTIONAL TERMINATION, PAYMENT AND RELEASE</td>
<td>If the execution of substantially all the Works in progress is prevented for a continuous period of 84 days by reason of Force Majeure of which notice has been given under Sub-Clause 19.2 [Notice of Force Majeure], or for multiple periods which total more</td>
</tr>
</tbody>
</table>
than 140 days due to the same notified Force Majeure, then either Party may give to the other Party a notice of termination of the Contract. In this event, the termination shall take effect 7 days after the notice is given, and the Contractor shall proceed in accordance with Sub-Clause 16.3 [Cessation of Work and Removal of Contractor’s Equipment].

Upon such termination, the Engineer shall determine the value of the work done and issue a Payment Certificate which shall include:

(a) the amounts payable for any work carried out for which a price is stated in the Contract;

(b) the Cost of Plant and Materials ordered for the Works which have been delivered to the Contractor, or of which the Contractor is liable to accept delivery: this Plant and Materials shall become the property of (and be at the risk of) the Employer when paid for by the Employer, and the Contractor shall place the same at the Employer’s disposal;

(c) other Cost or liabilities which in the circumstances were reasonably and necessarily incurred by the Contractor in the expectation of completing the Works.

### 19.7 RELEASE FROM PERFORMANCE

Notwithstanding any other provision of this Clause, if any event or circumstance outside the control of the Parties (including, but not limited to, Force Majeure) arises which makes it impossible or unlawful for either or both Parties to fulfil its or their contractual obligations or which, under the law governing the Contract, entitles the Parties to be released from further performance of the Contract, then upon notice by either Party to the other Party of such event or circumstance

(a) the Parties shall be discharged from further performance, without prejudice to the rights of either Party in respect of any previous breach of the Contract, and

(b) the sum payable by the Employer to the Contractor shall be the same as would have been payable under Sub-Clause 19.6 [Optional Termination, Payment and Release] if the Contract had been terminated under Sub-Clause 19.6.

### 20. CLAIMS, DISPUTES AND ARBITRATION
## 20.1 CONTRACTOR'S CLAIMS

If the Contractor considers himself to be entitled to any extension of the Time for Completion under any Clause of these Conditions or otherwise in connection with the Contract, the Contractor shall give notice to the Engineer, describing the event or circumstance giving rise to the claim. The notice shall be given as soon as practicable, and not later than 28 days after the Contractor became aware, or should have become aware, of the event or circumstance.

If the Contractor fails to give notice of a claim within such period of 28 days, the Time for Completion shall not be extended.

The Contractor shall also submit any other notices which are required by the Contract, and supporting particulars for the extension all as relevant to such event or circumstance.

The Contractor shall keep such contemporary records as may be necessary to substantiate any claim, either on the Site or at another location acceptable to the Engineer. Without admitting the Employer's liability, the Engineer may, after receiving any notice under this Sub-Clause, monitor the record-keeping and/or instruct the Contractor to keep further contemporary records. The Contractor shall permit the Engineer to inspect all these records, and shall (if instructed) submit copies to the Engineer.

## 20.2 APPOINTMENT OF THE ADJUDICATOR

The Adjudicator shall be appointed jointly by the Employer and the Contractor, at the time of the Employer’s issuance of the Letter of Acceptance. If, in the Letter of Acceptance, the Employer does not agree on the appointment of the Adjudicator, the Employer will request the Appointing Authority designated in the SCC, to appoint the Adjudicator within 14 days of receipt of such request.

Should the Adjudicator resign or die, or should the Employer and the Contractor agree that the Adjudicator is not functioning in accordance with the provisions of the...
20.4 VOID

Any dispute between the Parties arising out of or in connection with the Contract not settled amicably in accordance with Sub-Clause 20.5 above and in respect of which the Adjudicator's decision (if any) has not become

20.5 ARBITRATION

Any dispute between the Parties arising out of or in connection with the Contract not settled amicably in accordance with Sub-Clause 20.5 above and in respect of which the Adjudicator's decision (if any) has not become
final and binding shall be finally settled by arbitration. Arbitration shall be conducted in accordance with The Arbitration and Conciliation Act, 1996. The place of arbitration shall be Tirupati as specified in the Contract Data; and the arbitration shall be conducted in the language for communications defined in Sub-Clause 1.4 [Law and Language].

The arbitrators shall have full power to open up, review and revise any certificate, determination, instruction, opinion or valuation of the Engineer, and any decision of the Adjudicator relevant to the dispute. Nothing shall disqualify representatives of the Parties and the Engineer from being called as a witness and giving evidence before the arbitrators on any matter whatsoever relevant to the dispute.

20.6 VOID

20.7 VOID
## Particular Conditions of Contract

Except where otherwise specified, all PCC should be filled in by the Employer prior to issuance of the Bidding Documents. Schedules and reports to be provided by the Employer should be annexed.

1. GO. Ms. No. 94, Irrigation and CAD (PW-COD) Department, dated: July 01st, 2003 and its amendments.
2. GO. RT. No. 1474 MA&UD (A1) Department, dated: December 12th, 2007 and as per Memo No. 1708/E.IN.C/P.H/Mobilisation/2008-09, Dated: 06 – 2008 of Engineer-In-Chief (PH), Hyderabad.

The contractors are permitted to avail the facility of Mobilisation Advance of 10% towards Labour and Material Mobilisation against an 100% Unconditional and irrecoverable Bank Guarantee acceptable to the Department, to facilitate the agencies in procurement of materials to achieve better progress of works. **The interest rate will be +2% of prevailing PLR of Banks**

A form of Bank Guarantee acceptable to MD, TSCCL.

The advance mobilization loan shall be used by the contractor exclusively for labour and material mobilization expenditures, in connections with the works.

Should the contractor misappropriate any portion of the advance loan, it shall become due to the employer/ employer’s representative and payable immediately in one lump by the contractor and no further loan will be considered thereafter.

The above advance shall bear an interest of prevailing SBI PLR + 2% per annum. The interest on the amounts paid as advance is chargeable from the date the amount is paid. However, if completion is delayed by circumstances beyond control of the contractor for which an extension has been granted by the MD, TSCCL the interest charges on such advances shall be waived for
the period of extension.

In case of contractor not maintaining the progress of works as agreed programme the interest of mobilisation advance shall be levied at prevailing SBI PLR + 4% per annum for the period in which the progress is not maintained. In case the progress is made good as per the programme the rate of interest shall be at prevailing SBI PLR + 2% per annum.

The value of Bank Guarantee for the advance payment given to the contractor can be progressively reduced by the amount repaid by the contractor as certified by the Managing Director, TSSCL.

Recovery of Mobilisation Advance paid against it aforesaid, shall be recovered by TSSCL from each monthly running bill payment due to contractor on pro-rata basis at rate of 6 to 8 installments.

Retention Money at 7.5% will be deducted from each monthly bills generated by the contractor.

18.2 Minimum amount of third party insurance

As per the prevailing rules of AP Govt.

20.2 The Adjudicator shall be

The Adjudicator proposed by the Employer is:

The experts from the reputed nearby Engineering college in and around Tirupati.

The hourly fee for this proposed Adjudicator shall be: Rs 1000/-.

The biographical data of the proposed Adjudicator is as follows: Engineering professional, with more than 20 years' experience with post graduate degree in Environmental Engineering.

Part B - Specific Provisions

There are no specific provisions of contract pertaining to the work for which the bid is called for.

A. Work Requirements

1. SCOPE OF WORK – GENERAL

1.1 Sorting & Segregation

a. The Contractor after agreement should prepare and submit detailed project report covering a comprehensive Bio-mining & Reclamation Plan. This would also include a plan for reducing the inert should be treated properly as per MSW Rules 2016.

b. The Contractor shall take necessary steps and processes that would bring in control of odour and leachate in the region.

c. The Contractor shall set up sorting system flexible enough and convenient for segregation of dumped material.

d. The Contractor should maximize the separation of recyclables viz. glass, metal etc. as well other components for generation of RDF from the dump site.

e. The responsibility of the Contractor includes providing adequate number of sorting machines for achieving the daily target as per the capacity quoted in the bid.

f. The Contractor will be required to provide at site storage facility for various wastes processed.

g. The bidder shall handover any domestic hazardous waste, biomedical, C & D waste if found during excavation, sorting / segregation. He shall handover the waste to nearest biomedical, C & D facility, waste management facility. The Sanitary Inspector should make necessary arrangements to transport the same to the concerned.

h. The bidder shall handover any valuable items like gold, diamonds and all precious metals other than iron scrap material to TSCCL

1.2 RECOVERY OF CITY COMPOST

a. The Contractor should target to separate the compost from the biodegradable component of the solid waste at the dump site.

b. The Contractor should ensure total stabilization of the waste dump so that it releases...
no offensive odours and generates no leachates, so as to have the reclaimed land fit for any other purpose including construction after the settling period as approved scientifically.

c. The Contractor should take precaution of minimizing flies, rodents and bird menace and fire hazards.

d. The Contractor should as in above section deal with pre-process output such as RDF, while recyclables be sold to appropriate vendors. The pre-process and post composting process rejects shall be handled as per SWM Rules, 2016. The bidder should explore the possibility of minimizing the quantum of inert with alternatives. The accumulated inert/rejects should not sent for any other applications/uses.

e. The plastic material segregated from the compost shall be handled as per Solid Waste Management rules-2016.

f. After the removal of clump, the site shall be reclaimed to its natural ground level.

g. The transportation and storage of the inert material and the compost material shall entirely be under the scope of the bidder under this project.

1.2.1 Site Development & Facilities

a. The TMC shall assist successful bidder in getting the access to the dumpsite with a license to the Contractor to implement the project “Remediation of Ramapuram Dumpsite through Bio-mining process” system.

b. The Contractor should carry out necessary geotechnical surveys for considering the hydrological and flooding potential at sites, in order to mitigate any effect on the activities during bio-mining in terms of leachate transport.

c. The site which shall be utilised for Machinery and material under Bio-Mining process shall be fenced or hedged and provided with proper gate to monitor incoming vehicles or other modes of transportation.

d. Contractor should provide weighbridge to measure quantity of various components of waste at dumpsite is processed in terms of sorting and segregated
materials, RDF, compost material, and inerts going out of the site.

e. The Contractor shall also provide fire protection measures and safety equipment.

f. The Contractor shall provide utilities such as drinking water facilities and sanitary facilities (preferably washing/bathing facilities for workers) and lighting arrangements for easy operations during night hours shall be provided and safety provisions including health inspections of workers at site shall be carried out.

g. In order to prevent environmental impacts of the activities the Contractor as per the SWM Rules 2016 adopt guidelines for development of land fill as per Schedule-I of the Rules.

h. Contractor shall set a soil and ground water baseline so that the same will be available to evaluate post Bio-mining and bioremediation/reclamation of the site.

i. Contractor shall monitor ground water quality, work zone air quality and ambient air quality monitoring within the site from authorized laboratories/agencies and submit the report on monthly basis.

j. The Contractor shall monitor and measure noise levels at the site and interface of the facility with plant boundary and surrounding area.

1.2.2 Operation & maintenance of infrastructure and equipment for 18 months

The Contractor shall be responsible for construction, operation of site, maintenance of transportation trucks, mechanical lifting arrangements to transfer the by products into trucks, parking facilities, weighbridge, CCTV, hook loaders, on Design Build Operate (DBO) basis. The Contractor should maintain the facility and machinery in order to operate for the Contract period.

1.2.3 Awareness & Extension activities

a. The Contractor shall undertake a mass awareness/sensitization programme, in surrounding residential/villages area, so as to ensuring the local people are aware and taken into confidence of the bio-reclamation activities.
b. The Contractor shall create a sustained system of information, education and communication for Bio-Mining & reclamation through collaborations with expert institutions and civil societies and also disseminate through their own website.

c. The Contractor shall device appropriate measures in consultation with expert institutions for Bio-Mining & reclamation and for sale of recycle products in the best possible manner.

d. The Contractor can keep a track of the progress of its activities and establish a database and update on a regular basis in-order to optimize its activities.

e. The Contractor can coordinate with the TMC for successful engagement of this Contract.

f. The Contractor will involve community participation and discuss with the citizen community in order to ensure a free flow of information.

1.3 COMPLETION & EXIT

At the end of the Contract period, the Contractor will leave the site along with all his equipment’s and facilities used and handover the clean area and capped area of inert's without claiming any compensation of whatever nature.

Note:

The Bidder shall consider the conveyance from the dumping site to the location shown by the TSCCL authorities which is around 10 Kms.

The land will be allotted by TSCCL / TMC for the Remediation process on lease basis after discussion with successful bidder (Reference:- G.O Ms. No:-56, dt:-05-02-2011).
B. Specification

In preparing the Technical Offer, Bidders are advised to review the RFP in full including the Project Information Memorandum and Draft Contract Agreement.

Bidders are requested to undertake required reconnaissance studies and field level studies required by the Bidder to ensure that their Technical Proposal addresses the issues and meets the requirements of the project as outlined in the RFP. Bidders are open to carry out independent studies to confirm the validity of the information provided in the RFP.

The Bidder shall submit a Technical Proposal setting out the approach to the Project. The Technical Proposal shall comply with the Construction Requirements and O&M Requirements as set out in Schedules of the Draft Contract Agreement. The design and approach for implementing the Project shall also be in compliance with the Applicable Law, including the MSW Rules.

The Technical Proposal shall set out the following components:

a) Methodology Statement
b) Concept design for development of Project Facilities
c) PERT/CPM Chart
d) Resource Utilization Statement
e) Area Allocation Statement
f) Operations & Maintenance Scheme
g) Project Schedule
h) Environment, Health & Safety Policy and Practice

a) Methodology Statement

The Bidder shall provide a methodology statement, which broadly sets out the approach to the Project. The methodology statement shall include the Bidder's appreciation of the Project, the sequencing of activities to be performed, the facilities to be provided, design standards and basis for calculations of capital and operating costs. The methodology statement should clearly demonstrate the compliance of the approach to be adopted by the Bidder for the implementation of the Project to the minimum specifications set out in the Draft Contract Agreement.
b) **Process Flow Chart and Material Balance Statement**

The Bidder shall provide a process flow chart and a material balance statement setting out the activities and the outputs at each stage. The Bidder should indicate supporting calculations and assumptions, if any.

c) **Resource Utilization Statement**

A statement indicating the procurement, deployment and utilization of the resources shall be provided. The statement shall include proposed organizational structure, employee deployment, equipment procurement and utilization, contracting activities, utilization of office and other facilities.

d) **Area Allocation Statement**

The Bidder shall set out the area utilization plan for the Project Site and Project Facilities including the sorting, segregation, composting, any other facilities and common areas etc.

e) **Operations and Maintenance Scheme**

The Bidder shall separately set out the operations and maintenance scheme for Project Site and Project Facilities. The maintenance (regular & emergency) schedules should also be indicated over the Contract Period.

f) **Time Schedule**

The Bidder shall indicate an activity schedule over the Contract period including the construction activities and O&M activities.

g) **Environment, Health & Safety Policy and Practice**

The Bidder shall indicate the environment, health and safety policy and practices, which are proposed to be adopted during the Contract Period. The aspects relating to employee and worker safety, control mechanisms of litter, pest, odor, fire, surface runoffs etc. needs to be elaborated.

The broad format for Technical Proposal is outlined below:
Annexure – I (A)

The Technical Plan shall comprise:

1. Proposed Strategy
   b. Detailed Methodology and/or Mechanism giving the entire O&M procedures and also the implementation plan for Bio-mining, reclamation, bioremediation of soil and terrain after activity.
   c. Calculations and methodology for operations in two (one /or two shifts) with respect to Bio-mining, reclamation, bioremediation of soil and terrain after activity.
   d. Proposed plan for communicating with the staff of service provider.
   e. Service provider shall be required to submit a chart setting out the process flow for the activities envisaged.

2. Timelines and frequency for carrying out and completion of various activities

<table>
<thead>
<tr>

</table>

3. Infrastructure (tools, equipment and vehicles) to be provided for execution of the Project

THE SUPPLIER / IMPLEMENTING AGENCY/ CONTRACTOR

Contract Agreement
4. Equipment Mobilization and Deployment Plan
   a. Schedule for procuring, installing, deploying equipment including machines, for segregation, transportation of by-products waste etc,
   b. The above Schedule shall also be submitted in a Bar Chart and PERT – CPM network format.

5. Information, Education, and Communication (IEC) Awareness campaigns to be initiated
   a. Number of campaigns envisaged; and b. Mode of implementing campaigns

6. Mechanism for Grievance Redressal and/or Customer Service

7. Manpower Deployment for the project
   a. Calculation of manpower requirements.
   b. Details of proposed manpower and organization chart.

*Describing role and activities performed
8. Mechanism for addressing any emergency situation
9. Suggestions on improvements and additions to project components

Bidders are requested to outline suggestions on improvements and additions to project components outlined in the RFP

10. Innovative measures proposed

Bidders are requested to outline any additional improvements to project components outlined in the RFP in order to rationalize costs without affecting service levels.
Annexure – I (B)

Bio-mining and dumpsite reclamation:

Bidders are requested to prepare a detailed step wise work plan for and should include the following.

1. Detailed Design & Specifications of Project Facilities:
   
a. Design of proposed sorting/segregating capacity, RDF and compost recovery capacity with detail calculations; and
   
b. Table giving list of machinery and equipment along with detailed calculation, specification, catalogues, make and model, proposed quantity to be provided at site.

2. Bio-mining & reclamation:
   
a. The Bidder shall provide a detailed schedule consistent with the prescribed Contract period as specified in the Bid documents. The Bidder shall indicate the milestones and would describe when the various milestones of the Project will be achieved. This Construction Schedule shall form part of the Contract Agreement; and
   
b. The Bidder shall also indicate the pre-conditions for achieving the milestones indicated in the Bio-Mining and reclamation schedule and significant conditions or events, which may delay achieving a milestone. The schedule shall also indicate identification and acquisition of major Clearances. The above schedule shall also be submitted in a BarChart and PERT – CPM network format; and
   
c. Table giving list of all other civil works and facilities to be provided; and
   
d. Detailed design, specifications and drawings of various civil and mechanical installations proposed in the Project Facilities; and
   
e. Detailed design, specifications and drawings of various utilities proposed viz. Control room, Workshop facility etc.
3. Manpower and Equipment Mobilization & Deployment Plan vis-à-vis the above construction schedule. This should include:
   
a. Calculation of manpower requirement, and
   
b. Details of proposed manpower and organization chart for Authorized person of company, and
   
c. Details of equipment mobilization and deployment plan.
   
The above plans should adhere to the overall timeframes for completion of construction and timeframe for Project Commissioning outlined in the Bid documents.

A. Operation & Maintenance

As part of the O&M Plan, Bidders should detail the specific activities that they intend to carry with respect to Operations and Maintenance to ensure that the service level obligations are met as set out in the draft Contract agreement are maintained. Specifically, the O&M Plan should cover

   a. Asset Management Plan;

   b. Maintenance Plan/Schedule – regular and preventive of plant, equipment and vehicle;

   c. Organizational Plan during maintenance;

   d. Cost management covering power and consumables;

   e. Stakeholder management, communication and grievance redressal;

   f. Overall Project Quality Assurance; and

   g. The Bidder must describe in detail how it proposes to meet the safety requirements and environmental standards.

Note:
1. All above events shall be held at “Tirupati Municipal Corporation / TUDA Office, Tirupati”
2. In the event of the date specified above being declared as a state holiday the due date shall be the next following working day.
3. Request to all the aspirant Bidders to submit their bids through online on AP e-procurement web portal: [https://tender.apeprocurement.gov.in](https://tender.apeprocurement.gov.in) on or before the time as specified in Sl. No.: 04
4. Sealed Bids [Sl. No.: 05 - Hard Copies submission] received after due date and time will be rejected.
1.0 PROJECT DETAILS

1.1 BACKGROUND

With the India Smart Cities Challenge, the Government of India has taken the first step towards realizing its vision of building 100 smart cities across the nation. As part of the India Smart Cities Challenge under Ministry of Urban Development, Government of India, Tirupati is one of the cities that was selected in Round 2 and was ranked 4th amongst a nation-wide competition between 67 cities.

Under Indian Smart Cities Mission, the projects focus is on retrofitting a selected area within the city known as Area-Based Development (ABD). Additionally projects at PAN City level has also been taken up. The projects focus is multi-sectoral. The emphasis is on creating livable cities, Holistic development of the selected area such that it catalyzes the development of other areas and sets an example for other cities.

Tirupati is now working on an implementation plan to convert the Smart City Proposal (SCP) ideas into reality, beginning with retrofitting of the ABD that will catalyse future scalability to entire city and projects at PAN City. Tirupati Smart City ABD area is known as "Tirupati Town Center (TTC)"

Tirupati is known as the spiritual center of Andhra Pradesh with about daily 75,000 pilgrims visit Tirumala for darshan of Lord Venkateshwara, besides other historical temples, and is referred to as the "Spiritual Capital of Andhra Pradesh". It was named the "Best Heritage City" for the year 2012-13 by Ministry of Tourism. Tirupati has strong cultural heritage and is a melting pot of various festivals, is considered the Medical Hub of Andhra Pradesh and is home to numerous hospitals.

Tirupati city is located in Chittoor district in the state of Andhra Pradesh. The Municipal Corporation Tirupati (MCT) spread is around 27.44Sq Km and includes 50 Wards. According to 2011 census, the City's population is around 3.74,260. TTC (ABD) area is around 3.01 sq Km with a population of around 1,12,000. The TTC area covers around 11% of MCT area and includes 30% of City's population.

The Smart City Plan for Tirupati revolves around the vision of creating - "A 21st century pilgrimage city that promotes Arts, Innovation & Sustainable Growth".

Contract Agreement | | | | |
### Municipal Corporation Tirupati

Tirupathi Municipal Corporation is the 1st largest ULB in the Chittoor district. It is located 420 Km from Capital city and 71 Km from District Headquarters. It was established as 3rd grade Municipality in the year 01/04/1886 and upgraded as Municipal Corporation with w.e.f. 02/03/2007.

It is spread over an area of 27.44 Sq.Kms. With a population of 3,74,260 (2011 census). MCT is also the headquarters of Tirupati (urban) mandal, and of the Tirupati revenue division. It is the 9th most populous city in Andhra Pradesh and seventh most urban agglomerated city in the state, with a population of 459,985.

### The Project

1. **1.1 About the Tirupati Smart City Corporation Limited (TSCCL)**

   A Special Purpose Vehicle (SPV) was incorporated with the name “Tirupati Smart City Corporation Limited” (TSCCL) on 28th November 2016, to implement the projects proposed under the SCP.

1. **1.2 Name of Work**

   “SOLID WASTE MANAGEMENT PROJECT – REMEDIATION OF EXISTING MSW DUMPSITE AT RAMAPURAM THROUGH BIO-MINING PROCESS UNDER IMPLEMENTATION OF THE SMART CITY MISSION IN TIRUPATI”

1. **1.3 The Project:**

   The Tirupati Smart City Corporation Limited (“TSCCL”) intends to enter into a “DESIGN-BUILD- OPERATE” (DBO) system contract with a Private Service Provider to implement the project on “Remediation of Ramapuram Dumpsite through Bio-mining process” (herein after referred as Project). The project would involve Design, Construction, Operation and Maintenance of the Bio-mining and Reclamation of existing solid waste dumpsite in the said process in a scientific manner at Ramapuram dumpsite in TMC area. The duration of the Contract will be for 18 Months. TSCCL is inviting proposals from the interested parties as per the laid down norms in this Request for Proposal (RFP).

   The MSW is not processed and dumped at the compost yard in Ramachandrapuram. TSCCL proposes to excavate the compacted MSW by using suitable mechanical sieving, separating machines or any other equipment, retrieving compostable material, recyclable material by

segregating, sorting, storing and selling. The work envisages economically viable and environmentally sustainable method in 25.26 acres, TSCCL intends to reclaim at-least 90% of the total dumpsite area.

TSCCL is committed for finding a sustainable solution for reclaiming the dumpsite, so as to enable generation of reusable and recoverable material as well as cleaning the site and further use the land parcel for development activities.

The land will be allotted by TSCCL / TMC for the Remediation process on lease basis after discussion with successful bidder (Reference:- G.O Ms. No:-56, dt:-05-02-2011).
1.4 Salient Features

Salient details of the said dumpsite are as below:
- Location of Dumping yard site: Ramapuram
- Period from dumping was done: since 2005
- Size of land: 25.26 acres
- Estimated amount of waste already collected at dumpsite: 1.5 to 2.0 Lakh MT
- Current remediation efforts (Bio-Mining, Sanitary Land filling)

1.5 RFP Format

The intent of this RFP is to invite bids from the Bidders for “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” for the Authority.

The Request for Proposal (RFP) consists of three volumes viz.
1. **RFP Volume 1: Instruction to Bidders**
   Volume 1 details the instructions with respect to the bid process management, technical evaluation framework and the technical & financial forms.

2. **RFP Volume 2: Scope of work including Functional & Technical Specifications**
   Volume 2 of the RFP provides information regarding the Project Implementation Plan, business requirements/applications to be covered and corresponding process related documentation, scope of work for the selected bidder and functional requirements.

3. **RFP Volume 3: Conditions of Contract and Contract Forms**
   Volume 3 contains the contractual, legal terms & conditions applicable for the proposed engagement.
Instruction to Bidders
1.1. **Fact sheet**
This RFP is meant for the exclusive purpose of submitting the e-bid in accordance with the terms and conditions specified herein and this RFP shall not be transferred, reproduced or otherwise used for purposes other than that for which it is specifically issued.

Interpretations:

1. Words comprising the singular shall include the plural and vice versa.
2. A reference to any gender includes the other gender.
3. An applicable law shall be constructed as reference to such applicable law including its amendments or re-enactments from time to time.
4. A reference to any agreement is a reference to that agreement and all annexes, attachments, exhibits, schedules, appendices and the like incorporated therein, as the same may be amended, modified, supplemented, waived, varied, added to, substituted, replaced, renewed or extended, from time to time, in accordance with the terms thereof.
5. The terms "include" and "including" shall be deemed to be followed by the words "without limitation", whether or not so followed.
6. Any date or period set forth in this RFP shall be such date or period as may be extended pursuant to the terms of this RFP; A time of day shall save as otherwise provided in any agreement or document be constructed as a reference to Indian Standard Time.
7. Any reference to a person shall include such persons successors and assignees.
8. Different parts of this contract are to be taken as mutually explanatory and supplementary to each other and if there is any differentiation between or among the parts of this contract, they shall be interpreted in a harmonious manner so as to give effect to each part.
9. A reference to a "writing" or "written" includes printing, typing, lithography, scanned and other means of reproducing words in a visible form.
10. The terms "hereof", "herein", "hereto", "hereunder" or similar expressions used in this RFP mean and refer to this RFP and not to any particular Article.
11. In case of any inconsistency between the terms mentioned in the RFP and the literary term, the meaning best construed in furtherance of the objectives of this RFP shall prevail.
12. Where there is a discrepancy between amount in figures and in words, the latter shall prevail.
13. The table of contents and any headings or sub headings in the contract has been inserted for case of reference only & shall not affect the interpretation of this agreement.
2. **Instruction to Bidders**

**Preamble:**

This Volume of the Bidding Documents provides the information necessary for bidders to prepare responsive bids, in accordance with the requirements of the TSCCL. It also provides information on bid submission, opening and on contract award.

Further in all matters arising out of the provisions of Volume of I, II and III of the Bidding Documents, the laws of the Union of India shall be the governing laws and courts of Tirupati shall have exclusive jurisdiction.

2.1 **Background:**

a) The Tirupati Smart City Corporation Limited (the “Authority / Client / Employer / TSCCL”) is engaged in the implementation of the Smart City Mission projects in Tirupati and as part of this endeavor, the Authority has decided to undertake to procurement and service requirement for **“Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati”** (The “Project”) and has, therefore, decided to carry out the bidding process for selection of an entity as the bidder to whom the Project may be awarded.

b) The selected Bidder (the “Contractor/ Implementing Agency”) shall be responsible for, procurement and operation of the Project under and in accordance with the provisions (the “Contract”) to be entered into between the Implementing Agency and the Authority in the form provided by the Authority as part of the Bidding Documents pursuant hereto. The Implementing Agency shall also be responsible for the maintenance of the project during the Defect Liability Period, which is expected to be as per clause 2.1.c).

c) The “Contract” shall mean and include the general conditions, specification, schedules, drawings, form of Bid, covering letter, schedule of prices, or the final general conditions, any special conditions applying to the particular contract specification and drawings and the agreement to be entered into [A formal agreement shall be entered into between the bidder and the Authority for the proper fulfilment of the contract] of these general conditions, all of which must be accepted under the signatures and stamp of the bidder in order to construe the same within the meaning of Contract.
The Agreement sets forth the detailed terms and conditions for award of the project to the Implementing Agency, including the scope of the Implementing Agency's services and obligations.

The statements and explanations contained in this RFP are intended to provide a better understanding to the Bidders about the subject matter of this RFP and should not be construed or interpreted as limiting in any way or manner the scope of services and obligations of the Implementing Agency set forth in the Agreement or the Authority's rights to amend, alter, change, supplement or clarify the scope of work, the work to be awarded pursuant to this RFP or the terms thereof or herein contained. Consequently, any omissions, conflicts or contradictions in the Bidding Documents including this RFP are to be noted, interpreted and applied appropriately to give effect to this intent, and no claims on that account shall be entertained by the Authority.

The Authority shall receive BIDs pursuant to this RFP in accordance with the terms set forth in this RFP and other documents to be provided by the Authority pursuant to this RFP (collectively the "Bidding Documents"), and all BIDs shall be prepared and submitted in accordance with such terms on or before the BID due date specified in Important Dates / Fact Sheet for submission of BIDs (the “BID Due Date”).

“Plant Work or Works” shall mean and include plant and materials to be provided and work to be done by the bidder under the contract.

Tech “Specification” shall mean the specification annexed to these general conditions and the schedules there to (if any).

“Tests on completion” shall mean such tests as prescribed by the requirements of specification and performance & operation of the plant to be made by the bidder before the plant is taken over by the authority.

“Taking over” shall mean taking over of the plant by the authority after completion of “tests on completion” and completion of 72 hours/three days of continuous trouble-free operation of the plant without any outages/ breakdowns attributable to the implementing Agency.

“Commercial use “shall mean that use of the work, which the contract contemplates or of

which it is to be commercially capable.

1) “Month” shall mean calendar month.

m) “Writing” shall include any manuscript, typewritten or printed statement, under or over signature or seal as the case may be.

n) Words importing persons shall include firms, companies, Department, and other bodies whether incorporated or not.

o) Words importing the singular only shall also include the plural and vice versa where the context requires.

p) “Governmental Approval” means any approval, consent franchise, permit certificate, resolution, concession, license or authorization issued by or on behalf of any applicable Governmental Authority for the purpose of setting up of the project and/or for sale and purchase of the project pursuant to the agreement.

q) “Governmental Authority” means any central, state, regional, district town city, or municipal government, whether domestic or foreign, or any development agency, bureau or other administrative, regulatory or judicial body of any such government.

2.2 Brief description of Bidding Process

a) The Authority has adopted a single stage two part system (referred to as the “Bidding Process”) for selection of the Bidder for award of the Project. Under this process, the bid shall be invited under two parts. Eligibility and qualification of the Bidder will be first examined based on the details submitted under first part (Technical Bid) with respect to eligibility and qualifications criteria prescribed in this RFP. (The “Bidder”, which expression shall, unless repugnant to the context, include the members of the Consortium). The Financial Bid under the second part shall be opened of only those Bidders whose Technical Bids are responsive to eligibility and qualifications requirements as per this RFP.

b) Interested bidders are being called upon to submit their BID in accordance with the terms specified in this Bidding Document. The Bid shall be valid for a period of 180 days from the date specified in Important Dates / Fact Sheet for submission of BIDs (the “Bid Due Date”).
c) The complete Bidding Documents including the draft Agreement and other annexures / schedules for the Project is enclosed for the Bidders. Subject to the aforesaid documents and any addenda issued subsequent to this RFP Document, will be deemed to form part of the Bidding Documents.

d) Bidders are advised to examine the Project in greater detail, and to carry out, at their cost, such studies as may be required for submitting their respective BIDs for award of the contract including implementation of the Project.

e) Other details of the process to be followed under this bidding process and the terms thereof are spelt out in this RFP.

2.3 General

i. While every effort has been made to provide comprehensive and accurate background information, requirements and envisaged proposal(s) specifications, Bidders must form their own conclusions about the proposal(s) needed to meet the Authority’s requirements. Bidders and recipients of this RFP may wish to consult their own legal advisers in relation to this RFP.

ii. All information supplied by Bidders as part of their bids in response to this RFP, may be treated as contractually binding on the Bidders, on successful award of the assignment by the Authority on the basis of this RFP.

iii. No commitment of any kind, contractual or otherwise shall exist unless and until a formal written contract has been executed by or on behalf of Authority. Any notification of preferred bidder status by Authority shall not give rise to any enforceable rights by the Bidder. Authority may cancel this public procurement at any time prior to a formal written contract being executed by or on behalf of Authority.

iv. Bids shall be received by the Authority on the e-Procurement portal www.tender.apeprocurement.gov.in before the time and date specified in the schedule of the RFP notice. In the event of the specified date for the submission of Bid offers being declared a public holiday by the Government of Andhra Pradesh, the offers will be received up to the appointed time on the next working day. The Authority may, at its discretion, extend this deadline for submission of offers by issuing corrigendum and uploading the same on e-Procurement portal.

v. Telex, cable or facsimile offers will be rejected.

vi. Source of Fund: The TSCCL are empowered with grant of funds from Govt. of India and Government of Andhra Pradesh to be utilized for execution of this Project. All eligible payments
under the contract(s) for the package for which this Invitation for Bids is issued shall be made by the TSCCL.

2.4 Eligible Bidders

Please refer 3.5 Clause of Pre-Qualification Criteria for Eligible Bidders.

2.5 Compliant Bids / Completeness of Response

a. Bidders are advised to study all instructions, forms, terms, requirements and other information in the RFP documents carefully. Submission of the bid shall be deemed to have been done after careful study and examination of the RFP document with full understanding of its implications.

b. Failure to comply with the requirements of this paragraph may render the bid non-compliant and the Bid may be rejected. Bidders must:
   i. Include all documentation specified in this RFP, in the bid.
   ii. Follow the format of this RFP while developing the bid and respond to each element in the order as set out in this RFP.
   iii. Comply with all requirements as set out within this RFP.

2.6 Bidder to Inform

The Bidder shall be deemed to have carefully examined the Terms & Conditions, Scope, Specifications, and Schedules of this RFP. If bidder has any doubts / clarifications as to the meaning of any portion of the Conditions or the specifications they shall, before the last date for Submission of Pre-Bid Queries, set forth the particulars thereof and submit them to Authority in writing in order that such doubt may be removed or clarifications are provided.

2.7 Bid Preparation and Presentation costs

The Bidder shall bear all costs associated with the preparation and submission of its bid, including visits for the purpose of clarification of the bid, if so desired / any Presentation as may be required in accordance with the conditions of this RFP and the authority shall in no case be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

2.8 Pre-bid Clarification

Bidders Queries

Any clarification regarding the RFP document and any other item related to this project can be
submitted to Authority as per the submission mode and timelines mentioned in the Fact Sheet. The pre-bid queries should be submitted in excel sheet format, along with name and details of the organization submitting the queries.

Authority shall not be responsible for ensuring that the bidders’ queries have been received by them. Any requests for clarifications post the indicated date and time shall not be entertained by Authority.

Bidders must submit their queries as per the format mentioned in Section 5 - Annexure I
Queries should be submitted at <<email ID>> with cc to <<email ID>> within the date and timelines as specified in the Fact Sheet

Bidders are advised to share the Pre-Bid queries in two formats, one is in excel sheet (in *.xls Format) and as well as another in signed and scanned copy of the file (in *.pdf format) and format as per in Section 5 - Annexure I

Responses to Pre-Bid Queries and Issue of Corrigendum

Authority will not organize pre-bid meeting.

Authority will respond to any request for clarification or modification of the bidding documents. Authority shall formally respond to the pre-bid queries. No further clarifications shall be entertained after the date and time of submission of queries.

Authority shall endeavor to provide timely response to all queries. However, Authority makes no representation or warranty as to the completeness or accuracy of any response made in good faith. Authority does not undertake to answer all the queries that have been posed by the bidders.

Any modifications of the RFP Documents, which may become necessary as a result of the Pre-Bid queries, shall be made by Authority exclusively through a corrigendum. Any such corrigendum shall be deemed to be incorporated into this RFP. However, in case of any such amendment, the bid submission date may be extended at the discretion of Authority.
Any corrigendum/notification issued by Authority, subsequent to issue of RFP, shall only be available / hosted on the website URL mentioned in the fact sheet. Any such corrigendum shall be deemed to be incorporated into this RFP.

2.9 Bid Processing Fee / Bid Document Fee and Transaction Fee

RFP can be downloaded from the website URL mentioned in the fact sheet.

Bid Processing Fee / Bid Document Fee as mentioned in the FACT Sheet shall be paid via Demand Draft in favour of the “Managing Director, Tirupati Smart City Corporation Limited”, Payable at Tirupati. The Bid Processing Fee / Bid document fee is mandatory and non-refundable.

Without the payments of Bid document fee the bids will be taken as incomplete and non-responsive and shall not be considered.

Transaction Fee (As per G.O. Ms. No. 4, dated 17-02-2015 IT&C Dept.): It is mandatory for all the participating bidders to pay electronically the transaction fee to M/s Vupadi Technologies through "Payment Gateway Service on E-Procurement platform". The Electronic Payment Gateway accepts all Master and Visa cards issued by any bank and Direct Debit facility / Net Banking of ICICI Bank, HDFC to facilitate the transaction. As prevalent Government GST Norms + Bank Charges for Credit Card Transaction Amount payable to M/s. Vupadi Technologies (Vupadi) shall be applicable.

Corpus fund charges towards 'e' procurement services at 0.0345% of estimated contract value with a cap of Rs.10,000/- for all works with estimated contract value up to Rs.50.00 Crores and Rs. 25,000/- for works with estimated contract value above Rs. 50.00 Crores from successful bidder payable in the shape of DD drawn in favour of Managing Director, APTS, Hyderabad at the time of concluding agreement.

2.10 Bid Security/Earnest Money Deposit (EMD)

Bid Security/EMD as mentioned in the FACT Sheet shall be through a Bank Guarantee from a nationalized bank in India. No exemption for submitting the Bid Security / EMD will be given to any agency. Bid security/EMD in any other form will not be entertained.

For Unsuccessful bidders: The bid security of all unsuccessful bidders would be refunded without
interest by Authority on finalization of the bid in all respects by the successful bidder.

For Successful bidders: The bid security, for the amount mentioned above, of successful bidder would be returned without interest upon submission of Performance Bank Guarantee / Performance Security by the successful bidder. The successful bidder should however pay the PBG / Performance Security at 5% on Bid Contract Value / EMD whichever is higher at the time of signing the agreement in the shape of Bank Guarantee from a nationalised Bank or unconditional in the form given in the RFP document from any Nationalised Bank.

In case bid is submitted without the bid security then Authority reserves the right to reject the bid without providing opportunity for any further correspondence to the bidder concerned.

The E.M.D /PBG/ Performance Security given in the form of bank guarantee on a nationalized shall be valid for the duration of contract period plus defect liability period and in case any valid extension of contract period is granted, the validity of BG shall also be extended for the corresponding period. The bank guarantee on nationalized bank furnished by the bidder towards additional security amount shall be valid till the work is completed in all respects.

The Bid Security/ EMD shall be forfeited and appropriated by the authority as mutually agreed genuine pre-estimated compensation and damages payable to Authority for the time, cost and efforts of the authority, without prejudice to any other right or remedy that may be available to the authority under the RFP or in law under the following conditions:

a. If a bidder withdraws or modifies its bid during the period of bid validity or any extension agreed by the bidder thereof;

b. If a bidder is disqualified in accordance with clause 2.2;

c. If the bidder tries to influence the evaluation process or engages in corrupt, fraudulent, coercive or undesirable practice or restrictive practice;

d. If the bidder is declared as the successful bidder and it

- Withdraws its proposal during negotiations. However, failure to arrive at a consensus between authority and the successful bidder shall not be construed as withdrawal of proposal by successful bidder;
- Fails to sign and return, as acknowledgement, the duplicate copy of the letter of award;
- Fails to submit the performance bank guarantee / Performance Security and/or sign the contract in accordance with this RFP;
- Fails to fulfil any other condition precedent to the execution of the contract, as
specified in the letter of award;

- Fails to execute the contract.

2.11 **Bid Validity Period**

The EMD submitted along with the bid will remain valid for validity period mentioned in the Fact Sheet.

In exceptional circumstances, prior to expiry of the bid validity period, the authority may request that the bidders to extend the period of validity for a specified additional period at Bidder’s cost. The request and the responses to the request shall be made in writing. If validity of their Bids is extended the Earnest Money Deposit (EMD) shall also be extended for a corresponding-period. A bidder may refuse the request without risking forfeiting the EMD, but in this case, the bidder will be out of the competition for the award. Bidder agreeing to the request will not be required or permitted to modify its bid, but will be required to ensure that the bid remains secured for a correspondingly longer period.

On completion of the validity period, unless the Bidder withdraws his/her/their bid in writing, it will be deemed to be valid until such time that the Bidder formally (in writing) withdraws bid.

2.12 **Contents of Bid**

The hard copy bids should be submitted in separate envelopes which in turn shall be packed in a separate envelope and sealed as “Request for Proposal for selection of “**Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati**” and not to be opened except in the presence of Bid Evaluation Committee.

The four sets of documents (each enveloped separately and packed in a master envelope are required to be submitted for evaluation. The Sets will comprise of:

**e.** **Documents Establishing the Conformity of the Goods to the Bidding Document**  
- To establish the conformity of the Goods and Related Services to the Bidding Document, the Bidder shall furnish as part of its Technical Proposal the documentary evidences  
- The documentary evidence may be in the form of literature, drawings or data, and shall consist of a detailed description of the essential technical and performance characteristics of the Goods and Related Services, demonstrating substantial responsiveness of the Goods and Related Services to those requirements  
- Standards for workmanship, process, material, and equipment, as well as references to brand names or catalogue numbers specified by Bidder in the Schedule of Supply, are intended to be descriptive only and not restrictive
f. **The Technical Proposal shall contain the following:**
   - Technical Proposal Submission Sheet;
   - Written confirmation authorizing the signatory of the Bid.
   - Documentary evidence establishing the Bidder’s eligibility to bid as per clause 3.6.
   - Documentary evidence that the Goods and Related Services conform to the Bidding Document;
   - Information in Appendix’s of Technical proposal Submission Sheet
   - Documentary evidence establishing the Bidder’s qualifications to perform the contract.
   - Manufacturers authorization if applicable
   - Any other document required as per the Bid Data Sheet and Tender

g. Each bid must be typed or written in indelible ink and an authorized representative of the bidder shall sign the bid and physically initial and stamp all pages of the bid. The authorization shall be by way if a written power of attorney executed in the format attached as Annexure -8. The name and position held by the person signing of the proposal must be typed or printed below.

h. All the pages of the bid must be sequentially numbered. The bid documents must contain in the beginning of the document, a list of contents with page numbers. Any deficiency in the documentation may result in the rejection of the Bid.

i. The original bid shall be prepared in indelible ink. It shall contain no interlineations or overwriting, except as necessary to correct errors made by the Bidder itself. Any such corrections must be initialed by the person (or persons - Power of Attorney) who sign(s) the bids.

j. Failure to submit the bid before the submission deadline specified in the Fact Sheet / Important Dates would cause a bid to be disqualified.

k. The physical submission of the bid has to be accompanied by soft copy [Non-Writable CD/DVD].

l. The Bidder shall submit the Technical Proposal and the Price Proposal online using the appropriate Submission Sheets furnished in Bidding Forms. These forms must be completed without any alterations to their format, and no substitutes shall be accepted. All blank spaces shall be filled in with the information requested.

m. Interested bidders shall submit completed RFP in sealed envelope along with soft copy, DD of Bid Processing Fee, Bid security / EMD and super-scribed the project title with all supporting documents like – Design Intent in brief identifying suitable technology, qualifications, Profile of Organization, financial strength (certified financial statements as per RFP) and expertise to undertake the project. The bidders must furnish the details on the technology adopted and success elsewhere. The bidder shall also submit a conceptual
financial model for the project with proper justifications and proofs along with financial statements to demonstrate the bidder's capability of carrying out such project either individually or jointly in consortium with others. All the documents duly signed by the authorized signatory of the bidder, must be delivered to the undersigned through Speed Post / Courier service / by person so as to reach the office of Managing Director, TSCCL at the address, not later than last date of bid submission date and it shall be the responsibility of the bidder to send it on time. Authority will not take any responsibility for any delay or non-receipt.

n. Authority will not accept delivery of bid by fax or e-mail.
o. This RFP's enclosed formats / Annexures/ Documents, no document should be left unfilled; otherwise the RFP filing will not be valid and the incomplete RFP response will not be considered for any evaluation. All the pages of the documents should be signed by the authorised signatory of the lead Bidder and the scanned copies of the documents should be uploaded in the e-procurement portal.
p. A prospective bidder requiring any clarification on RFP documents may contact the RFP Inviting officer at the address indicated in the NIT. The RFP inviting officer will also respond to any request for clarification, received through post /e-mail.

q. The bidders who are desirous of participating in e-procurement shall submit their technical bids, financial bids etc., in the standard proscribed in the RFP documents displayed at e-market place.
r. The bidders should upload the scanned copies of all the relevant certificates, documents etc., in the e-market place in support of their technical bids. The bidders shall sign on all the statements, documents, certificates, uploaded by him, owning responsibility for their correctness / authenticity.
s. Even while execution of the work, if found that the bidder had produced false / fake certificates in the bidding process for his selection, he will be black listed and the contract will be terminated.
t. All duties, taxes, and other levies payable by the contractor as per State / Central Government rules, shall be included in the RFP percentage quoted by the bidder, however keeping in view the maximum reimbursable amounts specified in Financial Bid.
u. The documents shall be prepared and scanned in different files (in *.pdf or *.jpeg format) and uploaded during the online submission of Bid.
v. The Bidder must also upload certificates stating that the information furnished by him is genuine and he must also give self-declaration regarding value of ongoing works. The documents are to be uploaded in *.zip format only.
w. The authority will not hold any risk and responsibility for the loss in transit during uploading of the scanned document, for the invisibility of the scanned document online, and any other problem(s) encountered by the bidders while submitting his bids online.

x. Related certificates, documents etc., duly self-attested are to be scanned and uploaded on to the e-procurement platform at www.apeprocurement.gov.in in support of items mentioned in clause.

y. Any other condition regarding receipt of bidders in conventional method appearing in RFP document may be treated as Non-applicable.

z. Any incorrectness / deviation noticed in the soft copies will be viewed seriously and apart from cancelling the RFP duly forfeiting the EMD, criminal action will be initiated including suspension of business.

aa. If any discrepancy found between the online submission and the physical submission, the bid submitted online shall prevail and be considered as final.

bb. Both physical and online bid submission are mandatory, if anyone is not submitted, the bid shall be considered as non-responsive bid.

c. The Bidders shall be responsible for all of the costs associated with the preparation of their Bids and their participation in the Bidding Process. The Authority will not be responsible or in any way liable for such costs, regardless of the conduct or outcome of the Bidding Process.

dd. Bidder shall quote for full quantity against all items. Part bids are liable for rejection. Therefore, the bidder is advised to study all terms and conditions of the RFP including technical specifications for submitting complete and comprehensive bid.

e. Failure to comply with any of the terms and conditions or instructions of the offer with insufficient particulars which are likely to render fair comparison of tender as a whole impossible may lead to rejection even if otherwise it is a competitive offer/ Bid.

ff. Local Conditions: It will be imperative on each Bidder to fully inform himself of all local conditions and factors which may have any effect on the execution of the works covered under these documents and specifications. The Authority will not entertain any request for clarifications from the Bidders, regarding such local conditions. It must be understood and agreed that such factors have properly been investigated and considered while submitting the proposals. No claim for financial adjustment to the contract awarded under these specifications and documents will be entertained by the authority neither any change in the time schedule of the contract nor any financial adjustment arising thereof which are based on the lack of such clear information, its effect on the cost of the works to the Bidder shall be permitted by the authority.
gg. The three envelopes shall be placed in an outer envelope, which shall be sealed. Each of the three envelopes shall clearly bear the following identification:

**Request for Proposal [RFP]** for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” and shall clearly indicate the name and address of the Bidder. In addition, the Bid Due Date should be indicated on the right hand top corner of each of the envelopes.

Each of the envelopes shall be addressed to:

ATTN. TO: The Managing Director,
Tirupati Smart City Corporation Limited,
c/o. Tirupati Municipal Corporation, Tilak Road, Tirupati – 517501,
Chittoor District, Andhra Pradesh, India E-mail: tscctlr@gmail.com

If the envelopes are not sealed and marked as instructed above, the Authority assumes no responsibility for the misplacement or premature opening of the contents of the Bid submitted and consequent losses, if any, suffered by the Bidder.

hh. Bids submitted by fax, telex, telegram or e-mail shall not be entertained and shall be rejected

ii. **Note to the bidder for e-tendering:**

In participation in e-tendering of Authority, it is mandatory for prospective bidder to get registered on website [www.apeprocurement.gov.in](http://www.apeprocurement.gov.in). Thus, it is advised to all prospective bidders to get registration by making online registration fees. It is mandatory that the bidder is required to sign their bids online using Digital Signature Certificates, so the same should be obtained the same at the earliest if not obtained already.

For further information regarding issue of Digital Signature Certificate, the bidder may visit website [www.apeprocurement.go.in](http://www.apeprocurement.gov.in) it is to be noted that it may take up to 0 to 10 working days for issue of Digital Signature Certificate. Authority shall not be responsible for any delay in issue of Digital Signature Certificate.

If bidder is bidding first time for e-tendering, then it is obligatory on the part of bidder to fulfill all formalities such as registration, obtaining Digital Signature Certificate etc., well in advance. Bidder must positively complete online e-tendering procedure at [www.apeprocurement.go.in](http://www.apeprocurement.gov.in)

For any type clarifications bidder can visit [www.apeprocurement.go.in](http://www.apeprocurement.gov.in) and for helpdesk [http://www.apeprocurement.gov.in/helpdesk.html](http://www.apeprocurement.gov.in/helpdesk.html)
The Supplier / Implementing Agency / Contractor

jj. Bidder may contact the officials at TSSCL to get any other information about the equipment’s and vehicles required.

kk. One RFP per Bidder:  
Each bidder shall submit only one RFP for the work. A bidder who submits more than one RFP will cause dis-qualification of all the RFPs submitted by the Bidder. A Bidder bidding individually or as a member of a Consortium shall not be entitled to submit another bid either individually or as a member of any Consortium, as the case may be.

## 2.14 Language

The bid should be prepared and submitted by the bidders in English language only. If any submitted supporting documents (like notices, certificates, correspondences, proceedings, etc.) are in any language other than English, translation of the same in English language is to be provided (duly attested) by the Bidders. For purposes of interpretation of the documents, the English translation shall govern. Such translated documents shall be notarized and in case of any incorrectness of the translation, the bidder will be penalized. The bidders shall bear all costs of translation to the governing language and all risks of the accuracy of such translation.
2.15 Authentication of Bids

An authorized representative (or representatives - Power of Attorney) of the Bidder shall initial all pages of the Pre-Qualification, Technical and Financial Bids. Bid should be accompanied by an authorization in the name of the signatory (or signatories) of the Bid. The authorization shall be in the form of a written power of attorney accompanying the Bid or in any other form demonstrating that the representative has been duly authorized to sign.

2.16 Amendment of Request for Proposal

At any time prior to the due date for submission of bid, Authority may, for any reason, whether at its own initiative or in response to a clarification requested by prospective bidder(s), modify the RFP document by amendments. Such amendments shall be uploaded on the e-procurement portal website, through corrigendum and shall form an integral part of RFP document. The relevant clauses of the RFP document shall be treated as amended accordingly.

It shall be the responsibility of the prospective bidder[s] to check the Authority’s website from time to time for any amendment in the RFP document. In case of failure to get the amendments, if any, Authority shall not be responsible.

In order to allow prospective bidders a reasonable time to take the amendment into account in preparing their bids, Authority, at its discretion, may extend the deadline for submission of bids. Such extensions shall be uploaded on website of the Authority.

Verbal clarifications and information given by the authority or any other person for or on its behalf shall not in any way or manner be binding on the authority.

2.17 Bid Price and quotation submission

Financial Bid shall be as per the format provided in Section 8. Bidders shall give the required details of all applicable taxes, duties, other levies and charges etc. in respect of direct transaction between Authority and the Bidder. The financial bid must be uploaded on e-procurement only and should not be printed or submitted with Prequalification / Technical Bid.

Bidders shall quote for the entire scope of contract on a “overall responsibility” basis such that the total bid price covers Bidder’s all obligations mentioned in or to be reasonably inferred from the bidding documents.
Prices quoted by the Bidder shall remain firm during the entire contract period and not subject to variation on any account.

The Bidder shall submit, as part of the Price Proposal, the Price Schedules for Goods and Related Services, equipments according to their origin as appropriate, using the forms furnished online.

The bidders shall quote in their proposals a firm lump sum price as per schedules provided for the entire scope of "Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati".

The prices quoted by the Bidder shall be fixed.

Any conditional bid with any deviations from the terms and conditions of RFP shall be disqualified.

The prices quoted by the Bidder in the Price Proposal Submission Sheet and in the Price Schedules shall conform to the requirements specified below.

- The price of the goods quoted should be on the basis of delivery to site on for destination basis [at Tirupati] including all customs duties and taxes, Entry tax, GST, transportation, packaging, transit insurance, service tax, sales and other taxes already paid or payable on the components and raw material used in the manufacture or assembly of goods quoted. The price quoted should be inclusive of all FOR Tirupati.
- The prices quoted shall be lump sum and on for destination basis inclusive of all taxes and duties. For the purpose of clarity, applicable taxes as on the date of submission of bid shall be quoted.
- A bid submitted with an adjustable price quotation shall be treated as non-responsive and rejected.

Note:

*Rate per Unit / Unit Price inclusive of following:

- All priced quotations should be in Indian Rupees only.
• Unit Price at Destination or Delivery point at Tirupati, Chittoor District, Andhra Pradesh, India.
• The price for inland transportation, insurance and other local costs incidental to delivery of the goods to their final destination (i.e., at Tirupati).
• The unit prices quoted shall be with comprehensive warranty.
• The Bidder shall quote for Estimate Schedule (along with basic price, GST and other charges such as installation and onsite comprehensive warranty maintenance service charges, if any) and Comprehensive Warranty in the specified places for all the materials, equipments & machineries having Technical Specifications mentioned in this bid document.
• The price of equipments & machineries (Ex-works, Ex-factory, Ex-showroom, Ex-warehouse or off-the-shelf, as applicable), including all duties and sales and other taxes (Inclusive of GST).
• On components and raw material used in the manufacture or assembly.
• On the previously imported equipment / machineries of foreign origin quoted ex-showroom, ex-warehouse, or off-the-shelf.
• Any Indian duties, sales and other taxes which will be payable on the goods if this Contract is awarded;
• Unit price including all customs duties and taxes, Entry tax, GST, transportation, packaging, transit insurance, service tax, sales and other taxes already paid or payable on the components and raw material used in the manufacture or assembly of goods quoted.
• The prices quoted shall be lump sum and on for destination basis inclusive of all taxes and duties. For the purpose of clarity, applicable taxes as on the date of submission of bid shall be quoted.
• The bidder should quote his firm prices valid for the duration and completion of the contract i.e. “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” under Implementation of the Smart City Mission in Tirupati. No enhancement of prices for what so ever reason will be allowed once the offer is accepted.
2.18 Insurance

Testing and commissioning insurance is the responsibility of the bidder. Any loss or damage to the equipment for whatever reasons shall be to the account of the bidder. The bidder shall promptly make good the loss or damage by way of replacement and/or repair of the portion of the equipment damaged or lost, incidental to manufacture or acquisition, transportation, storage and delivery, irrespective of settlement of claims with the insurance underwriters. There shall be no extra cost to the authority on account of such replacement/repair of losses or damages for whatever reasons. All costs on account of insurance liabilities covered under the contract will be to the Bidder’s account and principal of the insurance will be to the authority.

2.19 Deviations and Exclusions

Bids shall be submitted strictly in accordance with the requirements and terms & conditions of the RFP. The Bidder shall submit a No Deviation Certificate as per the format mentioned in Section 6.5. The bids with deviation(s) are liable for rejection.

2.20 Total Responsibility

Bidder should issue a statement undertaking total responsibility for the defect free operation of the proposal as per the format mentioned in Section 6.6.

2.21 Late Bids

RFP must be submitted not later than the date and time specified in RFP. In the event of the specified date/time for the submission of bids declared as holiday, the bids will be received on the next working day.

Late submission will not be entertained and will not be permitted by the e-Procurement Portal.

The bids submitted by telex/fax/e-mail etc. shall not be considered. No correspondence will be entertained on this matter.

Authorities shall does not be responsible for delay in submission of any online submission related or website related issues and date of submission cannot be extended for such reasons.

Authority reserves the right to modify and amend any of the above-stipulated condition/criterion.
2.22 **Right to Terminate the Process**

Authority may terminate the RFP process at any time and without assigning any reason. Authority makes no commitments, express or implied, that this process will result in a business transaction with anyone. This RFP does not constitute an offer by Authority.

2.23 **Non-Conforming bids**

A bid may be construed as a non-conforming bids and ineligible for consideration:

a. If it does not comply with the requirements of this RFP.

b. If a bid does not follow the format requested in this RFP or does not appear to address the particular requirements of the scope.

2.24 **Acceptance / Rejection of Bids**

a. Authority reserves the right to reject in full or part, any or all bids without assigning any reason thereof. Authority reserves the right to assess the Bidder’s capabilities and capacity. The decision of Authority shall be final and binding.

b. Bid should be free of over writing. All erasures, correction or addition must be clearly written both in words and figures and attested.

In the event of any assumptions, presumptions, key points of discussion, recommendation or any points of similar nature submitted along with the Bid, Authority reserves the right to reject the Bid and forfeit the EMD.

The authority reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to contract award, without thereby incurring any liability to bidders. In case of annulment, all bids submitted and specifically, bid securities shall be promptly returned to the bidders.

The Authority reserves the right to verify all statements, information and documents submitted by the bidder in response to the RFP. Any such verification or lack of such verification by the authority shall not relieve the bidder of its obligations or liabilities hereunder nor will it affect any rights of the authority thereunder.

If there is any discrepancy in the financial bid, it will be dealt as per the following:

a. Activities and items described in the Technical Proposal but not priced in the Financial proposal shall be assumed to be included in the prices of other activities or items and no
corrections will be mad to the Financial Proposal / Bid.

b. If, in the price structure quoted for the required goods / services / works, there is discrepancy between the unit price and total price (which is obtained by multiplying the unit price by the quantity), the unit price shall prevail and the total price corrected accordingly.

c. If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected.

d. If there is a discrepancy between words and figures, the amount in words shall prevail.

e. If there is such discrepancy in an offer, the same shall be conveyed to the bidder with target date up to which the bidder has to send his acceptance on the above lines and if the bidder does not agree to the decision of Authority, the bid is liable to be disqualified.

2.25 Confidentiality

From the time the bids are opened to the time of the contract is awarded, the bidder should not contact the client on any matter related to its qualification documents, Technical Bid and/or Financial Bid. Information relating to the evaluation of proposals and award recommendations shall not be disclosed to the bidders who submitted the bids or to any other party not officially involved with the bid process, until the publication of the contract award.

Any attempt by a bidder or anyone on behalf of the bidder to influence improperly the client in the evaluation of the bids or award of the contract may result in the disqualification of its bid.

All the material/information shared with the Bidder during the course of this procurement process as well as the subsequent resulting engagement following this process with the successful bidder, shall be treated as confidential and should not be disclosed in any manner to any unauthorized person under any circumstances. The employees of the successful Lead bidder and Consortium members who are proposed to be deployed on the project need to furnish a Non-Disclosure Agreement (NDA) as per Annexure 6 in section 11.

2.26 Disqualification

The bid is liable to be disqualified in the following cases or in case bidder fails to meet the bidding requirements as indicated in this RFP:

a. During validity of the bid, or its extended period, if any, the bidder changes its quoted prices.
b. The bidder’s bid is conditional and has deviations from the terms and conditions of RFP.
c. Bid is received in incomplete form.
d. Bid is not accompanied by all the requisite documents.
e. Information submitted in technical bid is found to be misrepresented, incorrect or false, accidentally, unwittingly or otherwise, at any time during the processing of the contract (no matter at what stage) or during the tenure of the contract including the extension period if any.
f. Financial bid is enclosed with the same document as technical bid.
g. Bidder tries to influence the bid evaluation process by unlawful / corrupt / fraudulent means at any point of time during the bid process.
h. In case any one party submits multiple bids or if common interests are found in two or more bidders, the bidders are likely to be disqualified, unless additional bids / bidders are withdrawn upon notice immediately.
i. If any of the Lead Bidder is also partner in any other bid, then all the affected bids shall be disqualified.
j. Bids without EMD / Bid Security and as well as Bid Documentation / Bid Processing Fee will be disqualified.

2.27 Fraud and Corrupt Practices

TSSCL requires compliance with the Indian Penal Code 1860 and Prevention of Corruption Act 1988. TSCCL defines for the purposes of this provision the terms set forth below as follows:

a. The Bidders and their respective officers, employees, agents and advisers shall observe the highest standard of ethics during the Selection Process. Notwithstanding anything to the contrary contained in this RFP, Authority shall reject a Bid without being liable in any manner whatsoever to the Bidder, if it determines that the Bidder has, directly or indirectly or through an agent, engaged in corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice (collectively the “Prohibited Practices”) in the Selection Process. In such an event, Authority shall, without prejudice to its any other rights or remedies, forfeit and appropriate the EMD or PBG, as the case may be, as mutually agreed genuine pre-estimated compensation and damages payable to Authority for, inter alia, time, cost and effort of Authority, in regard to the RFP, including consideration and evaluation of such Bidder’s Bid.
Without prejudice to the rights of Authority under Clause above and the rights and remedies which Authority may have under the LOA or the Agreement, if a Bidder is found by Authority to have directly or indirectly or through an agent, engaged or indulged in any corrupt practice, fraudulent practice, coercive practice, undesirable practice or restrictive practice during the Selection Process, or after the issue of the LOA or the execution of the Agreement, such Bidder shall not be eligible to participate in any tender or RFP issued by Authority during a period of 3 years from the date such Bidder is found by Authority to have directly or through an agent, engaged or indulged in any Prohibited Practices.

b. For the purposes of this Section, the following terms shall have the meaning hereinafter respectively assigned to them:

i. “corrupt practice” means (i) the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of any person connected with the Selection Process (for avoidance of doubt, offering of employment to or employing or engaging in any manner whatsoever, directly or indirectly, any official of Authority who is or has been associated in any manner, directly or indirectly with the Selection Process or the LOA or has dealt with matters concerning the Agreement or arising there from, before or after the execution thereof, at any time prior to the expiry of one year from the date such official resigns or retires from or otherwise ceases to be in the service of Authority, shall be deemed to constitute influencing the actions of a person connected with the Selection Process); or (ii) save as provided herein, engaging in any manner whatsoever, whether during the Selection Process or after the issue of the LOA or after the execution of the Agreement, as the case may be, any person in respect of any matter relating to the Project or the Award or the Agreement, who at any time has been or is a legal, financial or technical consultant /adviser of Authority in relation to any matter concerning the Project;

ii. “fraudulent practice” means a misrepresentation or omission of facts or disclosure of incomplete facts, in order to influence the Selection Process or the execution of contract;

iii. “Collusive practices” means a scheme or arrangement between two or more bidders, with or without the knowledge of the Borrowers, designed to influence the action of any party in a procurement process or the execution of a contract.

iv. “coercive practice” means impairing or harming or threatening to impair or harm, directly or indirectly, any persons or property to influence any person’s participation or action in the Selection Process;
v. “undesirable practice” means (i) establishing contact with any person connected with or employed or engaged by Authority with the objective of canvassing, lobbying or in any manner influencing or attempting to influence the Selection Process; or (ii) having a Conflict of Interest; and

vi. “restrictive practice” means forming a cartel or arriving at any understanding or arrangement among Bidders with the objective of restricting or manipulating a full and fair competition in the Selection Process.

Will reject a proposal for award if it determines that the bidder recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive, or coercive practices in competing for the Contract;

Will sanction a party or its successor, including declaring ineligible, either indefinitely or for stated period of time to participate in TSCCL Bidding / Tender activities if it at any time determines that the firm has, directly or through an agent, engaged in corrupt, fraudulent, collusive, or coercive practices in competing for, or in executing, an TSCCL contract.

2.28 Conflict of Interest

a. A bidder shall not have a conflict of interest that may affect the Selection Process or the proposal delivery (the “Conflict of Interest”). Any Bidder found to have a Conflict of Interest shall be disqualified. In the event of disqualification, Authority shall forfeit and appropriate the EMD, if available, as mutually agreed genuine pre-estimated compensation and damages payable to Authority for, inter alia, the time, cost and effort of Authority including consideration of such Bidder's Bid, without prejudice to any other right or remedy that may be available to Authority hereunder or otherwise.

b. Authority requires that the bidder provides proposals which at all times hold Authority’s interests paramount, avoid conflicts with other assignments or its own interests, and act without any consideration for future work. The bidder shall not accept or engage in any assignment that would be in conflict with its prior or current obligations to other clients, or that may place it in a position of not being able to carry out the assignment in the best interests of Authority.

c. Conflicting Activities: Conflict between consulting activities and procurement of goods, works or non-consulting services: A bidder that has been engaged by the client to provide goods, works,
or non-consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a Bidder hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for preparation or implementation.

d. Conflicting Relationships: Relationship with the client’s staff: A bidder (including its Directors, stakeholders or Management) that has a close business or family relationship with a professional staff of the client who are directly or indirectly involved in any part of
  • The preparation of the RFP for the assignment
  • The Technical Specifications of the goods, works or services may not be awarded a contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the client throughout the selection process and the execution of the contract.

2.29 Sub-Contracting

The bidder would not be allowed to sub-contract work, except for the following:
  • Structure, Civil and Architectural works
  • Cabling and fixtures work and all civil work during implementation.

Sub-contracting shall be allowed only with prior written approval of Authority. However, even if the work is sub-contracted, the sole responsibility of the work shall lie with the lead bidder. The lead bidder shall be held responsible for any delay / error / non-compliance etc. of its sub-contracted vendor. The details of the sub-contracting agreements (if any) between both the parties would be required to be submitted to Authority.

A list of all sub-Contractors that the bidder proposes to sub-contract the works mentioned above shall be set out as per format provided in Section 16 along with an undertaking as specified in Section 19 [Annexure -11].

2.30 Right to vary quantity by Authority

a. At the time of contract, the quantity of goods, works or services originally specified in the bidding documents may be increased or decreased. It shall be without any change in the unit prices or other terms and conditions of the Bid and the bidding documents.

b. If the authority does not procure any subject matter of procurement or procures less than the
quantity specified in the bidding documents due to change in circumstances, the bidder shall not be entitled for any claim or compensation except otherwise provided in the bidding document.

c. Repeat orders for extra items or additional quantities may be placed, if it is provided in the bidding document, on the rates and conditions given in the contract if the original order was given after inviting open competitive bids. Delivery or completion period may also be proportionally increased.

2.31 Withdrawal, Substitution, and Modification of Bids

a. No bid may be withdrawn, substituted or modified in the interval between the bid submission deadline and the expiration of the bid validity period specified by the bidder in the bid submission form, or any extension thereof agreed to by the bidder. Withdrawal of the bid during this interval may result in the forfeiture of the EMD / Bid Security.

b. Any alteration / modification in the application or additional information supplied subsequent to the bid submission date, unless the same has been expressly sought for by the client, shall be disregarded.

c. Bids withdrawn shall not be opened and processed further.

d. Alternative bid shall not be permitted.

2.32 Site Visit

a) The Bidder may wish to visit and examine the site or sites and obtain for itself, at its own responsibility and risk, all information that may be necessary for preparing the bid and entering into the Contract. The costs of visiting the site or sites shall be at the Bidder's own expense.

b) Bidders are encouraged to submit their respective bids after visiting the project site and ascertaining for themselves the site conditions, traffic, location, surroundings, climate, availability of power, water and other utilities for construction, access to site, handling and storage of materials, weather data, applicable laws and regulations and any other matter considered relevant by them.

c) The Bidder and any of its personnel or agents will be granted permission by the Employer to enter upon its premises and lands for the purpose (upon a written request from bidder) of such visit, but only upon the express condition that the Bidder, its personnel, and agents will release and indemnify the Employer and its personnel and agents from and against all liability in respect thereof, and will be responsible for death or personal injury, loss of or damage to property, and any other loss, damage, costs, and expenses incurred as a result of the inspection.

d) A site visit conducted by the authority shall be organized on the written request of the bidder.
The bidder shall intimate the Employer for site visit through Electronic mail tsccltirupati@gmail.com at least three (03) days in advance.

e) Failure of a Bidder to make a site visit will not be a cause for its disqualification.
f) No site visits shall be arranged or scheduled after the deadline for the submission of the Bids and prior to the award of Contract.

2.33 Acknowledgement by Bidder
a. It shall be deemed that by submitting the bid, the bidder has:
   i. Made a complete and careful examination of the RFP.
   ii. Received all relevant information requested from the authority.
   iii. Accepted the risk of inadequacy, error or mistake in the information provided in the RFP or furnished by or on behalf of the authority relating to any of the matters referred to clause 2.30 above; and
   iv. Agreed to be bound by the undertakings provided by it under and in terms hereof.

b. The Authority shall not be liable for any omission, mistake or error in respect of any of the above or on account of any matter or thing arising out of concerning or relating to the bidding process, including any error or mistake therein or in any information or data given by the authority.

2.34 Proprietary Data
All documents and other information supplied by the authority or submitted by bidder to the authority shall remain or become the property of the authority. Bidders are to treat all information as strictly confidential and shall not use it for any purpose other than for preparation and submission of their bid. The authority will not return any bid or any information provided along therewith.

2.35 Contacts during Bid Evaluation
Bids shall be deemed to be under consideration immediately after they are opened and until such time the authority makes official intimation of award / rejection to the bidders. While the bids are under consideration, bidders and / or their representatives or other interested parties are advised to refrain, save and except as required under the bidding documents, from contacting by any means, the authority and / or their employees / representatives on matters related to the bids under consideration.
2.36 **Maintenance Tools and Tackles**

The proposal shall include all special tools and tackles required for the operation and maintenance of the equipment in each equipment package.

The Bidder shall indicate all the above items in the proposal sheets in the form of a schedule giving there in the description and the quantity of each item. The item wise Price to be quoted by the Bidder shall be furnished in the format, which will be delivered with the first shipment of the main equipment.

2.37 **Drawings, Data and Literature to be furnished**

The Bidder shall include in his offer the following:

- Undertaking to furnish details of special precautions and instructions to be followed and check list for erection, testing and commissioning of the plant.

- Undertaking to furnish all required drawings, documentations for assembly, erection, testing and commissioning of the plant. Instructions regarding storage, handling, precautions etc., and checklists at various stages, till the plant is installed.

- Time schedule for design, manufacture, testing, shipment, installation and commissioning is to be enclosed.

2.38 **Governing Law and Jurisdiction**

The contract and the transaction contemplated therein shall be governed by and construed in accordance with the laws of India.

The contract and the transactions contemplated therein shall be subject to the exclusive jurisdiction of the competent courts in Tirupati, Andhra Pradesh, India.

If any disputes arises between the parties hereto during the subsistence or thereafter, in connection with the validity, interpretation, implementation or alleged material breach of any provision of the agreement or regarding a question, including the questions as to whether the
termination of contract Agreement by one party hereto has been legitimate, both parties hereto shall endeavor to settle such dispute amicably. The attempt to bring about an amicable settlement is considered to have failed as soon as one of the parties hereto, after reasonable attempts gives 15 days’ notice thereof to the other party in writing.

The place of arbitration shall be Tirupati, Andhra Pradesh, India.

The arbitration proceeding shall be governed by the Arbitration and Conciliation Act of 1996 as amended from time to time.

The Proceeding of arbitration shall be in English Language.
3. **Selection Process for Bidder**

3.1 **Opening of Bids**

Bids are invited from the prospective bidders for the capacity specified in this section.

The Bids shall be opened by Authority in presence of those Bidders or their representatives who may be present at the time of opening.

The representatives of the bidders should be advised to carry the identity card or a letter of authority from the bidder firms to identify that they are bonafide representatives of the bidder firm, for attending the opening of bid.

There will be bid-opening as follows,

1. Set 1 – RFP Processing Fee & Bid Security / EMD
2. Set 2 – Pre-qualification Bid
3. Set 3 – Technical Bid

The date and time for opening of Technical & Financial bid would be as mentioned in the Fact Sheet.

The Technical Bids of only those bidders who clears the Pre-qualification stage shall be opened.

The Financial Bids of only those bidders will be opened who score equal to or more than 70% in Technical Evaluation.

3.2 **Preliminary Examination of Bids**

Authority shall examine the bids to determine whether they are complete, whether the documents have been properly signed and whether the bids are generally in order. Any bids found to be nonresponsive for any reason or not meeting any criteria specified in the RFP, shall be rejected by Authority and shall not be included for further consideration.

Authority shall examine the Technical Proposal to confirm that all documents and technical documentation requested have been uploaded on online portal, and to determine the completeness of each document submitted.
Initial Bid scrutiny shall be held and bids will be treated as non-responsive, if bids are:

a. Not submitted in format as specified in the RFP document
b. Received without the Letter of Authorization (Power of Attorney)
c. Transaction Fee
d. Bid documentation / Bid Processing Fee.
e. Earnest Money Deposit (EMD) / Bid Security.
g. Found with suppression of details
h. With incomplete information, subjective, conditional offers and partial offers submitted
i. Submitted without the documents requested
j. Non-compliant to any of the clauses mentioned in the RFP
k. Manufacturer’s Authorization, if applicable.
l. With lesser validity period

**Examination of Terms and Conditions; Technical Evaluation of Bids**

Authority shall examine the Bids to confirm that all terms and conditions specified in Bid Document have been accepted by the Bidder without any material deviation or reservation. Authority shall evaluate the technical aspects of the Bid submitted in accordance to confirm that all requirements specified in Schedule of Supply of the Bidding Document have been met without any material deviation or reservation.

If, after the examination of the terms and conditions and the technical evaluation, authority determines that the Technical Proposal is not substantially responsive it shall reject the Bid.

### 3.3 Evaluation Process

Authority shall constitute a Bid Evaluation Committee to evaluate the responses of the bidders. The Bid Evaluation Committee shall evaluate the responses to the RFP and all supporting documents/documentary evidence. Inability to submit requisite supporting documents/documentary evidence by bidders may lead to rejection of their bids.
The decision of the Bid Evaluation Committee in the evaluation of bids shall be final. No correspondence will be entertained outside the process of evaluation with the Committee. The Bid Evaluation Committee may ask for meetings or presentation with the Bidders to seek clarifications or conformations on their bids.

Only those Bidders who meet the eligibility criteria specified shall qualify for evaluation under this Section 3. Bids of firms/consortia who do not meet these criteria shall be rejected.

The Bidder’s competence and capability is proposed to be established by the following parameters

a) After the bidder qualifies in the Pre-Qualification, they will be considered for Technical Evaluation and only those bidders will be qualify for financial bid who score equal to or more than 70 marks out of 100 in Technical Evaluation as per clause 3.6.

b) The bidders who qualify in the Pre-Qualification will be required to apprise before the RFP evaluation Committee and make a presentation (max. 20 slides) on the scheduled date and time.

c) The presentation will be awarded marks out of 100 (hundred) marks and will prorated in overall marks mentioned clause 3.6. Technical presentation by the responsive bidder on Operation and Maintenance will be presented in the presence of Committee constituted by TSCCL and the marking for the presentation will be given by the committee members. The marks awarded by the committee members will be final.

d) The decision of the RFP Evaluation Committee in the evaluation of bids shall be final. No correspondence will be entertained outside the process of evaluation with the Committee. The RFP Evaluation Committee may ask for meetings or presentation with the Bidders to seek clarifications or conformations on their bids.

e) The RFP Evaluation Committee reserves the right to reject any or all bids without assigning any reason. Each of the responses shall be evaluated as per the criteria and requirements specified in this RFP. The steps for evaluation are as follows :-

<table>

Page 226
To be continued
3.4.1 Stage 1: Pre-Qualification

a. The Bidder should be either a body incorporated in India under the Companies Act, 1956.
b. A copy of certificate of incorporation shall be furnished along with the bid in support of above.
c. Authority shall validate "RFP Document fee & Bid Security/Earnest Money Deposit (EMD)".
   If the contents are as per requirements, Authority shall open the "Pre-Qualification Bid". Each of
   the Pre-Qualification condition mentioned in Section 3.5 is MANDATORY. In case, the Bidder
does not meet any one of the conditions, the bidder shall be disqualified.
d. Technical and Financial bids for those bidders who don’t pre-qualify will not be opened.
   Financial bid will be opened for those bidders, who qualify in the technical evaluation. Bid
   Security amount shall be returned for those who don’t qualify the financial evaluation stage and
   after PBG is submitted by successful bidder.

3.4.2 Stage 2: Technical Evaluation

a. "Technical bid" will be evaluated only for the bidders who succeed in Stage 1.
b. Authority will review the technical bids of the short-listed bidders for responsiveness. If the
   technical proposal is found
   • Not to be complete in all respects; or
   • Not duly signed by the authorized signatory of the bidder on all pages; or
   • Not to be in prescribed format and interlineations in between the formats/lines in the
     prescribed formats; or
   • To contain alternation, conditions, deviations or omissions.
   then such technical bids shall be deemed to be substantially non-responsive and liable to be
   disqualified at Authority’s discretion.

c. The bidders’ technical proposal in the bid document shall be evaluated as per the requirements
   specified in the RFP and technical evaluation framework as mentioned in Section 3.6.
d. Bidders need to submit detailed – “Presentation of the Project” [If required]. Bidders who
   qualify the PQ stage shall be called for presentation.
3.4.3 Responsiveness of Technical Proposal

1. Authority's determination of the responsiveness of a Technical Proposal is to be based on the contents of the Technical Proposal itself.

2. A substantially responsive Technical Proposal is one that conforms to all the terms, conditions, and specifications of the Bidding Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:
   a. Affects in any substantial way the scope, quality, or performance of the Goods and Related Services specified in the Contract; or
   b. Limits in any substantial way, inconsistent with the Bidding Document, Authority's rights or the Bidder's obligations under the Contract; or
   c. If rectified would unfairly affect the competitive position of other Bidders presenting substantially responsive Technical Proposals.
   d. If a Technical Proposal is not substantially responsive to the Bidding Document, it shall be rejected by authority and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.

3.4.4 Stage 3: Financial Evaluation

The financial bids for the technically qualified bidders will be notified and shall then be opened on the notified date and time and reviewed to determine whether the financial bids are substantially responsive. Bids that are not substantially responsive are liable to be disqualified at Authority's discretion.

a. Financial bids shall be uploaded on e-procurement portal only.

b. Financial bids that are not as per the format provided in Section 8 (Annexure 4) shall be liable for rejection.

c. The bid price shall include all taxes and levies and shall be in Indian Rupees.

d. Financial Bids of only top bidders who have obtained 70% (Seventy percentage) or above marks in the technical bid evaluation process will be opened.

e. Financial score only for the Supply and installation and Operation & Maintenance cost bid will be calculated.

f. The lowest financial proposal should be given a financial score of 100 points. The financial scores of other proposals should be determined proportionately.

g. The lowest Financial Proposal (FM) will be given a financial score (SF) of 100 points. The
financial scores of other proposals will be computed as follows:

\[ SF = 100 \times \frac{FM}{F} \] (F = amount of Financial Proposal)

h. Proposals will finally be ranked according to their combined technical (ST) and financial (SF) scores as follows:

\[ S = ST \times Tw + SF \times FW \]

Where S is the combined score, and Tw and Fw are weights assigned to Technical Proposal and Financial Proposal that shall be 0.80 and 0.20 respectively.

i. The work will be awarded to the first ranked bidder (H-1, having the highest combined score). The second ranked bidder (H-2) shall be kept in reserve and may be invited for negotiation in case the first ranked bidder withdraws, or fails to comply the requirements specified in this document.

j. The Financial Bids will be opened, in the presence of Bidders’ representatives who choose to attend the Financial Bid opening on date and time to be communicated to all the technically qualified Bidders. The Bidder’s representatives who are present shall sign a register evidencing their attendance.

k. TSCCL reserves the right to reject all/any part of the tender without assigning any reason whatsoever and decision of the Managing Director, TSCCL in this regards shall be final and binding. The Managing Director, TSCCL is not bound to disclose the details of the evaluation process in terms of methodology, evaluation criteria and scores.

3.4.5 Correction of Arithmetical Errors

Provided that the bid is substantially responsive, the authority shall correct arithmetical errors on the following basis:

1. Only for admeasurement contracts, if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of the Employer there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected.

2. If there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
3. If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to this clause as stated above.

4. Bidders shall be requested to accept correction of arithmetical errors. Failure to accept the correction in accordance with RFP shall result in the rejection of the Bid.

### 3.5 Pre-Qualification Criteria

The Technical Evaluation Committee will review the PQ to determine whether the bids are substantially responsive. Bids that are not substantially responsive are liable to be disqualified at Authority's discretion.

</table>
| 1.      | Company Registration Certificate       | • Certificate of Incorporation / Registration under companies Act, 1956/2013 or any suitable Act abroad or as amended.  
          |                                        | • Consortium agreement clearly stating the roles and responsibilities of each member  
          |                                        | • Attested by Company Secretary / Authorised Signatory if applicable   | PQ_1 |

a. The Bidder may be a single entity (the "**Sole Bidder**") or a group of entities (the "**Consortium**"), coming together to implement the Project. **Consortiums of maximum two members are allowed for this project.** However, no Bidder applying individually or as a member of a Consortium, as the case may be, can be member of another Bidder. The term **Bidder** used herein would apply to both a single entity and a Consortium.
b. Bidder may be a natural person private entity, or any combination of them with a formal intent to enter into a Consortium or under an existing agreement to form a Consortium. A Consortium shall be eligible for consideration subject to the conditions set out in the below Sub Clause b.i of 3.5 Pre-Qualification Criteria.

i. The Bidder including individual or any of its Consortium should, in the last 3 (three) years, have neither failed to perform on any contract, as evidenced by imposition of a penalty by an arbitral or judicial TSCCL / TMC or a judicial pronouncement or arbitration award against the Bidder including individual or any of its Consortium Member, as the case may be, nor has been expelled from any project or contract by any public entity nor have had any contract terminated by any public entity for breach by such Bidder including individual or any of its Consortium Member.

c. A Bidder shall not have a conflict of interest (the “Conflict of Interest”) that affects the Bidding Process. Any Bidder found to have a Conflict of Interest shall be disqualified and liable for forfeiture of the BID Security or Performance Security as the case may be. A Bidder shall be deemed to have a Conflict of Interest affecting the Bidding Process, if:

i. the Bidder, its Consortium Member (or any constituent thereof) and any other Bidder, its Member or any Member of its Consortium thereof (or any constituent thereof) have common controlling shareholders or other ownership interest; provided that this disqualification shall not apply in cases where the direct or indirect shareholding of a Bidder, or its Consortium Member thereof (or any shareholder thereof having a shareholding of more than 5% (five percent) of the paid up and subscribed share capital of such Bidder, or its Consortium Member, as the case may be), in the other Bidder, its Consortium Member is less than 5% (five percent) of the subscribed and paid up equity share capital thereof; provided further that this disqualification shall not apply to any ownership by a bank, insurance company, pension fund or a public financial institution referred to in section 4A of the Companies Act 1956. For the
purposes of this Clause b above, indirect shareholding held through one or more intermediate persons shall be computed as follows:

- (aa) where any intermediary is controlled by a person through management control or otherwise, the entire shareholding held by such controlled intermediary in any other person (the “Subject Person”) shall be taken into account for computing the shareholding of such controlling person in the Subject Person; and

- (bb) subject always to sub-clause (aa) above, where a person does not exercise control over an intermediary, which has shareholding in the Subject Person, the computation of indirect shareholding of such person in the Subject Person shall be undertaken on a proportionate basis; provided, however, that no such shareholding shall be reckoned under this sub-clause (bb) if the shareholding of such person in the intermediary is less than 26% of the subscribed and paid up equity shareholding of such intermediary; or

ii. a constituent of such Bidder is also a constituent of another Bidder; or

iii. such Bidder, or any of its Consortium Member thereof receives or has received any direct or indirect subsidy, grant, concessional loan or subordinated debt from any other Bidder, or any of its Consortium Member thereof or has provided any such subsidy, grant, concessional loan or subordinated debt to any other Bidder, its Member or any of its Consortium Member thereof; or

iv. such Bidder has the same legal representative for purposes of this Application as any other Bidder; or

v. such Bidder, or any of its Consortium Member thereof has a relationship with another Bidder, or any of its Consortium Member thereof, directly or through common third party/parties, that puts either or both of them in a position to have access to each other’s information about,
or to influence the Application of either or each other; or

vi. Such Bidder or any of its Consortium Member thereof has participated as a consultant to the TSCCL in the preparation of any documents, design or technical specifications of the Project.

d. A Bidder shall be liable for disqualification and forfeiture of BID Security, if any legal, financial or technical adviser of the TSCCL in relation to the Project is engaged by the Bidder, its Member or any Associate thereof, as the case may be, in any manner for matters related to or incidental to such Project during the Bidding Process or subsequent to the (i) issue of the LOA or (ii) execution of the Agreement. In the event any such adviser is engaged by the selected Bidder or Contractor, as the case may be, after issue of the LOA or execution of the Agreement for matters related or incidental to the project, then notwithstanding anything to the contrary contained herein or in the LOA or the Agreement and without prejudice to any other right or remedy or the TSCCL, including the forfeiture and appropriation of the BID Security or Performance Security, as the case may be, which the TSCCL may have there under or otherwise, the LOA or the Agreement, as the case may be, shall be liable to be terminated without the TSCCL being liable in any manner whatsoever to the Selected Bidder or Contractor for the same. For the avoidance or doubt, this disqualification shall not apply where such adviser was engaged by the Bidder, its Member or Associate in the past but its assignment expired or was terminated 6 (six) months prior to the date of issue of this RFP. Nor will this disqualification apply where such adviser is engaged after a period of 3 (three) years from the date of commercial operation of the Project.

# In case of consortium, the list of participants needs to be declared. Consortium members cannot be changed during the project period.

If any of bidders/members of one consortium becomes members of the other consortium, both the consortiums will be disqualified.

The Bidder is to submit audited statements of accounts for the last three (3) years, along with its bid. The Bidder has to submit accounts and certified balance sheet certified by a registered chartered accountant supported by copies of tax returns or the last three (3) years, along with its bid. In the event that the Authority in the Bidder’s audited statement notes consistent losses or the risk of insolvency, the Bidder may be disqualified. Where necessary Authority will make enquiries with the Bidder’s Bankers.

1. Bidder has repair and service facilities in India and shall provide an undertaking that successful bidder shall either develop its own facility or authorize service center at Tirupati for day to day maintenance of equipment’s.
2. Should assure the ready availability in India of the spare parts of the proposed equipment

Technical bids along with the compliance sheet of technical specifications and with necessary documents should be filled in all respects and each paper should be signed by the authorized representative, scanned and uploaded in e-procurement portal.

International Experience to be counted while evaluating the Bids. International experience of the Bidder or any Consortium Member in the matter of design, construction and O&M of Bio mining, reclamation, bioremediation and landscaping, forward sale of various bi products count only if the company registered in India has rendered services abroad for the purpose of evaluation of Bids

**Approach & Methodology:**

Technical Bid shall consist of following:

The bidder has to give comprehensive plan, Proposed solution, detailed project schedule, team structure, manpower positioning, implementation methodology, training details [if required], management of the project, etc., in technical bid and shall give an undertaking that the proposed system shall be installed, commissioned, implemented and complete in all respects adhering to the requirements of this RFP. All the annexures also should be submitted as prescribed.

**Note:**

*On Failure of submission of these above mentioned documents the bidder will be disqualified*

**Notes:**

- The Evaluation Committee will review the bids of the short-listed bidders to determine whether the bids are substantially responsive. Bids that are not substantially responsive are liable to be disqualified at Authority’s discretion.
- **Clarification of Bids:** To assist in the examination, evaluation, comparison and post-
qualification of the Bids, Authority may, at its discretion, ask any Bidder for a clarification of its Bid. Any clarification submitted by a Bidder that is not in response to a request by authority shall not be considered. Authority's request for clarification and the response shall be in writing. No change in the prices or substance of the Bid shall be sought, offered, or permitted.

- Any bid failing to meet all of the above eligibility criteria shall be disqualified and will not be considered for technical evaluation.
- No relaxation will be given to any of the qualification criteria.
- Bidder should produce the documentary evidence for all the above. (Pre-qualification eligibility from the client / Government Agencies).
- In case the annual accounts for the latest financial year are not audited and therefore the Bidder cannot make it available, the Bidder shall give an undertaking to this effect from their directors and the statutory auditor shall certify the same. In such a case, the Bidder shall provide the Audited Annual Reports for 02 (Two) years preceding the year or from the date of incorporation if less than 2 years for which the Audited Annual Report is not being provided.
- Even though the bidders meet the above qualifying criteria, they are subject to be disqualified / debarred / suspended / blacklisted if they have:

  - Furnished false / fabricated particulars in the forms, statements and / annexures submitted in proof of the qualification requirements and/or
  - Not turned up for entering into agreement, when called upon.
  - Made misleading or false representations in the forms, statements and attachments in proof of the qualification requirements; and/or
  - Record of poor performance such as abandoning the works, not properly completing the contract, inordinate delays in completion, litigation history, or financial failures etc., and/or
  - Participated in the previous bidding for the same work and had quoted unreasonable bid prices (Too high or too low) and could not furnish rational justification to the Employer.
  - Even while execution of the work, if found that the work as awarded to the contractor based on false / fake certificate of experience, the contractor will be blacklisted and work will be taken over invoking clause 61 of PS to APSS.

### 3.6 Technical Evaluation Framework

The Technical Evaluation Committee will review the technical bids of the short-listed bidders to determine whether the technical bids are substantially responsive. Bids that are not substantially responsive are liable to be disqualified at Authority's discretion. Each Technical
Bid will be assigned a Technical Score out of a maximum of 100 points. Only the bidders who get Technical Score of more than or equal to 70% in Technical Evaluation will qualify for Commercial Evaluation stage. Weightages methodology for evaluation of Technical bids is given below:

<table>

</tbody>
</table>

All bids will be evaluated on the Technical bid and the presentation on the bid.

1. Presentation by the Bidders on its entire project management and plan.
2. The bidder should submit the availability of machinery, equipment, vehicles etc.
3. The approach and methodology and monitoring mechanism suggested by the Bidder.
4. Commercial bids will be opened only for the bids that are technically qualified and evaluated by technical evaluation committee.
4. **Award of Contract**

4.1 **Notification of Award**

Authority will notify the successful Bidder in writing by e-mail followed by courier. To be confirmed by the Bidder in writing by email followed by courier.

4.2 **Signing of Contract**

After the notification of award, Authority will issue Letter of Acceptance (LOA). Accordingly, a contract shall be signed between successful bidder and Authority or the agency designated by Authority. As an acceptance of the LOA, the Bidder shall sign and return back a duplicate copy of the LOA to Authority or the agency designated by the Authority. The bidder shall return the duplicate copy along with a Performance Bank Guarantee / Performance Security within 28 working days from the date of issuance of LOA.

On receipt of the Performance Bank Guarantee / Performance Security, Authority or the agency designated by Authority shall enter into a contract with the successful bidder.

4.3 **Performance Bank Guarantee (PBG) / Performance Security:**

Within twenty eight (28) working days from the date of issuance of LOA, the successful Bidder shall at his own expense submit unconditional and irrevocable Performance Bank Guarantee (PBG) / Performance Security to the Authority. The PBG shall be from a Nationalized Bank in the format prescribed in Section 9 - Annexure 5 (a), payable on demand, for the due performance and fulfillment of the contract by the bidder.

This Performance Bank Guarantee / Performance Security shall be for an amount equivalent to 5% of total contract value. PBG shall be invoked by Authority, in the event the Bidder:

a. fails to meet the overall penalty condition as mentioned in RFP Volume II or any changes agreed between the parties,

b. fails to perform the responsibilities and obligations as set out in the RFP to the complete satisfaction of Authority,

c. Misrepresents facts / information submitted to Authority.

The performance bank guarantee / Performance Security shall be valid till satisfactory
completion of Post Implementation Support. The performance bank guarantee / Performance Security may be discharged / returned by Authority upon being satisfied that there has been due performance of the obligations of the bidder under the contract. However, no interest shall be payable on the performance bank guarantee / Performance Security.

In the event of the Bidder being unable to perform the contract for whatever reason(s), Authority shall have the right to invoke the PBG. Notwithstanding and without prejudice to any rights whatsoever of Authority under the contract in the matter, the proceeds of the PBG shall be payable to Authority as compensation for any loss resulting from the bidder’s failure to perform/comply its obligations under the contract. Authority shall notify the bidder in writing of the exercise of its right to receive such compensation within 40 days, indicating the contractual obligation(s) for which the bidder is in default. Authority shall also be entitled to make recoveries from the bidder’s bills, performance bank guarantee / Performance Security, or from any other amount due to him, an equivalent value of any payment made to him due to inadvertence, error, collusion, misconstruction or misstatement.

In case the project is delayed beyond the project schedule as mentioned in RFP Vol 2, the performance bank guarantee / Performance Security shall be accordingly extended by the Bidder till completion of scope of work as mentioned in RFP Volume II.

This Performance Bank Guarantee / Performance Security shall be valid till (90) days beyond the expiry of the contract period of the project.

On satisfactory performance and completion of the order in all respects and duly certified to this effect by the Project Coordinator, Contract Completion Certificate shall be issued and the PBG would be returned to the Bidder.

4.4 Warranty & Maintenance

a. Bidder shall also provide complete maintenance support for all the proposed integrated solution as outlined in this RFP for a period of project duration [as stated in the Fact Sheet], as per the requirements provided in this RFP and all the acceptance tests are successfully concluded to the satisfaction of the client.
b. During the warranty period, the bidder shall warrant that the goods supplied under the contract are new, unused of the most recent version/models and incorporate all recent improvements in design and materials unless provided otherwise in the contract. The bidder further warrants that the goods supplied under this contract shall have no defects arising from design, materials or workmanship.

c. Client or designated representatives of the bidder shall promptly notify successful bidder in writing of any claims arising under this warranty. Upon receipt of such notice, the bidder shall within the warranty period and with all reasonable speed, repair or replace the defective systems, without costs to client and within time specified and acceptable to client.

d. If the successful bidder, having been notified, fails to remedy the defect(s) within the period specified in the contract, client may proceed to take such reasonable remedial action as may be necessary, at the successful bidder's risk and expense and without prejudice to any other rights, which client may have against the bidder under the contract.

e. During the comprehensive warranty period, the successful bidder shall provide all product(s) and documentation updates, patches/fixes, and version upgrades within 15 days of their availability and should carryout installation and make operational the same at no additional cost to client.

f. The successful bidder hereby warrants that;
   - The implemented integrated solution / Project represents a complete, integrated solution/Project meeting all the requirements as outlined in the RFP and further amendments if any and provides the functionality and performance, as per the terms and conditions specified in the contract.
   - The proposed integrated solution/ Project shall achieve parameters delineated in the technical specification/ requirement.
   - The successful bidder shall be responsible for warranty services from licensers of products included in the systems.
   - The successful bidder undertakes to ensure the maintenance of the acceptance criterion/standards in respect of the systems/project during the warranty period.
   - Failure to agree with the Terms & Conditions of the RFP
   - Failure of the successful bidder to agree with the Terms & Conditions of the RFP
shall constitute sufficient grounds for the annulment of the award, in which event Authority may award the contract to the next best value bidder or call for new bids. In such a case, Authority shall invoke the PBG and / or forfeit the EMD.

4.5 Miscellaneous

1. The Bidding Process shall be governed by, and construed in accordance with, the laws of India and the Courts in Tirupati shall have exclusive jurisdiction over all disputes arising under, pursuant to and / or in connection with the Bidding Process.

2. The Authority, in its sole discretion and without incurring any obligation or liability, reserves the right, at any time, to:
   (a) suspend and / or cancel the Bidding Process and / or amend and / or supplement the Bidding Process or modify the dates or other terms and conditions relating thereto;
   (b) consult with any Bidder in order to receive clarification or further information;
   (c) qualify or not to qualify any Bidder and / or to consult with any Bidder in order to receive clarification or further information;
   (d) retain any information and / or evidence submitted to the Authority by, on behalf of, and / or in relation to any Bidder; and / or
   (e) independently verify, disqualify, reject and / or accept any and all submissions or other information and / or evidence submitted by or on behalf of any Bidder.

3. It shall be deemed that by submitting the Bid, the Bidder agrees and releases the Authority, its employees, agents and advisers, irrevocably, unconditionally, fully and finally from any and all liability for claims, losses, damages, costs, expenses or liabilities in any way related to or arising from the exercise of any rights and / or performance of any obligations hereunder, pursuant hereto and / or in connection with the Bidding Process and waives, to the fullest extent permitted by applicable laws, any and all rights and / or claims it may have in this respect, whether actual or contingent, whether present or in future.

4. Obtaining the required statutory licenses like Consent to Establish and Consent to operate approvals from the statutory authorities (if required / directed by Client).

5. Authority may, at its discretion reserves the right to extend the RFP submission date and amending for which the RFP is invited.

6. Authority reserves the right to accept / reject any or all RFP(s) / Proposals and to annul the process without assigning any reason thereto.

7. Authority reserves the right to define the requirements and issue another RFP /
Tenders as may be deemed necessary.

8. The Authority reserves the right to verify the particulars furnished by the bidders independently and also reserves the right to reject any proposal without assigning any reason therefor in the interests of effective implementation of the project.

9. After uploading the technical/financial bid, the original DDs/BG are to be submitted by the bidder to the concerned MD, TSCCL so as to reach before opening of the pre-qualification bid. Failure to furnish DDs/BG, entail rejection of the bid and forfeiture of the EMD. Similarly if any of the certificates, documents etc. furnished by the bidder are found to be false/fabricated/bogus, the bidder will be black listed and the EMD forfeited.

10. The Authority may extend the dates for issue and receipt of RFP by issuing an amendment in which case all rights and obligations of the Managing Director, Tirupati Smart City Corporation Limited.

5. **Annexure- 1**

Annexure 1 – Template for Pre-Bid Queries

Specify sources of finance to meet the cash flow requirements on works currently in progress and for future contract commitments.
**Instructions:**

1. The Bidder/Member (in case of a Consortium) shall attach copies of the balance sheets, financial statements and Annual Reports for the last financial year preceding the Bid Due Date. The financial statements shall:
   (a) reflect the financial situation of the Bidder or Consortium Member;
   (b) be audited by a statutory auditor;
   (c) be complete, including all notes to the financial statements; and
   (d) correspond to accounting periods already completed and audited (no statements for partial periods shall be requested or accepted).

2. Net Worth shall mean (Subscribed and Paid-up Equity + Reserves) less (Revaluation reserves + miscellaneous expenditure not written off + reserves not available for distribution to equity shareholders).

3. Financial Year will be the latest completed financial year, preceding the bidding. In case the Bid Due Date falls within 3 (three) months of the close of the latest financial year.

5. The Bidder shall provide an Auditor’s Certificate specifying the Net Worth of the Bidder and also specifying the methodology adopted for calculating such Net Worth.

**Turnover* of the bidder’s company in last three financial years**

7.2 Technical Bid Covering Letter

Dated: DD/MM/YYYY

To
The Managing Director,
Tirupati Smart City Corporation Limited,
C/o Tirupati Municipal Corporation,
Tilak Road, Tirupati – 517501, Chittoor District,
Andhra Pradesh, India

Ref: RFP No. <<……>> dated << …..>>

Dear Sir,

I (in case of single bidder) or We, <<name of the undersigned Bidder and consortium members>>, having read and examined in detail all the bidding documents in respect of Request for Proposal [RFP] for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” do hereby propose to provide our services as specified in the bid submitted by us.

It is hereby confirmed that I / We are entitled to act on behalf of our company / corporation / firm / organization and empowered to sign this document as well as such other documents, which may be required in this connection.

We declare that all the services shall be performed strictly in accordance with the RFP documents.

We confirm that the information contained in this response or any part thereof, including its exhibits, and other documents and instruments delivered or to be delivered to Authority, is true, accurate, verifiable and complete. This response includes all information necessary to ensure that the statements therein do not in whole or in part mislead the department in its evaluation process. We also confirm that we shall not attract conflict of interest in principle.
We hereby declare that in case the contract is awarded to us, we shall submit the contract Performance bank guarantee / Performance Security in the form prescribed at Annexure 5 (a) of Section 9 of the RFP Volume I.

We hereby declare that our bid is made in good faith, without collusion or fraud and the information contained in the bid is true and correct to the best of our knowledge and belief.

We understand that our bid is binding on us and that you are not bound to accept a Bid you receive. This bid is valid for 180 (One Hundred and Eighty) days after opening of technical bid. We shall extend the validity of the bid if required by Authority.

Thanking you,
Yours sincerely,

(Signature of the Lead Bidder)

7.6 Conduct and Anti-Collusion Certificate

(To be notarized on Non-Judicial Stamp Paper of Rs.100)

I / We hereby certify and confirm that in the preparation and submission of our Bid for Request for Proposal [RFP] for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” against the RFP issued by Authority, that

I / We undertake that, in competing for the contract, I / we will strictly observe the laws against fraud and corruption in force in India namely Prevention of Corruption Act 1988.

I / We declare that our organization or our partners in the Consortium have never been blacklisted by any department / units of Government of India or State Governments or Union Territories in India for any of the reasons of committing serious misconducts or have been charged with committing criminal action(s), or dissatisfaction with the performance of our services, or violation of any terms and conditions of the Agreement. In case if such misconducts are found to have been committed by us with documentary evidences, our contract can be summarily cancelled with the forfeiture of the security and performance guarantees we have executed with the Authority.

I / We hereby certify and confirm that in the preparation and submission of our Bid, I / we have not acted in concert or in collusion with any other Bidder or other person(s) and also not done any act, deed or thing which is or could be regarded as anti-competitive.

I / We further confirm that I / We have not offered nor will offer any illegal gratification in cash or kind to any person or agency in connection with the Bid.

I / We further acknowledge that on any later date, if it was found that I / We indulged in any of the corrupt activities mentioned in Prevention of Corruption Act 1988, the Authority has the right to take necessary legal action.

8. Annexure 4 – Formats for Submission of the Financial Bid

A. Preamble

1. The Price Schedule shall be prepared in compliance with the Instructions to Bidders, General and Particular Conditions of Contract for “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati”

2. A rate or price shall be entered against each item in the Priced schedule. The cost of Items against which the Bidder/Service Provider has failed to enter a rate or price shall be deemed to be covered by other rates and prices entered in the Price Schedule and that component work shall be executed free of cost.

3. The whole cost of complying with the provisions of the Contract shall be included in the Items provided in the Priced Schedule, and where no Items are provided, the cost shall be deemed to be distributed among the rates and prices entered for the related Items of Work.

Financial Bid

The Bidder has to provide the financial bid in the formats as given here. Bidders shall give the required details of all applicable taxes, duties, other levies and charges etc. in respect of direct transaction between Authority and the Bidder. The financial bid must be uploaded on e-procurement only and should not be printed or submitted with Prequalification / Technical Bid.

Bidders shall quote for the entire scope of contract on a “overall responsibility” basis such that the total bid price covers Bidder’s all obligations mentioned in or to be reasonably inferred from the bidding documents.

Prices quoted by the Bidder shall remain firm during the entire contract period and not subject to variation on any account.

The bidders shall quote in their proposals a firm lump sum price as per schedules provided for the entire scope of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati”

The prices quoted shall be lump sum and on for destination basis inclusive of all taxes and
duties. For the purpose of clarity, applicable taxes as on the date of submission of bid shall be quoted.

a) **All priced quotations should be in Indian Rupees only.** – Bidders are requested to quote the price in figures and as well as in the words in the same box / place.

b) The bidder should quote his lowest firm prices valid for the duration and completion of the contract. No enhancement of prices for whatever reason will be allowed once the offer is accepted. Quotation should carry the name of the manufacturers for the plant offered.

The prices quoted by the Bidder shall be fixed.

A bid submitted with an adjustable price quotation shall be treated as non-responsive and rejected.

Any conditional bid with any deviations from the terms and conditions of RFP shall be disqualified.

The prices quoted by the Bidder in the Price Proposal Submission Sheet and in the Price Schedules shall conform to the requirements specified below.

- The price of the goods quoted should be on the basis of delivery to site on for destination basis [at Tirupati] including all customs duties and taxes, Entry tax, GST, transportation, packaging, transit insurance, service tax, sales and other taxes already paid or payable on the components and raw material used in the manufacture or assembly of goods quoted. The price quoted should be inclusive of all FOR Tirupati.
- The prices quoted shall be lump sum and on for destination basis inclusive of all taxes and duties. For the purpose of clarity, applicable taxes as on the date of submission of bid shall be quoted.
- A bid submitted with an adjustable price quotation shall be treated as non-responsive and rejected.

**Note:**

*Rate per Unit / Unit Price inclusive of following:

- All priced quotations should be in Indian Rupees only.
- Unit Price at Destination or Delivery point at Tirupati, Chittoor District, Andhra Pradesh, India.
- The price for inland transportation, insurance and other local costs incidental to delivery of the goods to their final destination (i.e., at Tirupati).
- The unit prices quoted shall be with comprehensive warranty.
- The Bidders shall quote for Estimate Schedule (along with basic price, GST and other charges such as installation and onsite comprehensive warranty maintenance service charges, if any) and Comprehensive Warranty in the specified places for all the materials, equipments & machineries having Technical Specifications mentioned in this bid document.
- The price of equipments & machineries (Ex-works, Ex-factory, Ex-showroom, Ex-warehouse or off-the-shelf, as applicable), including all duties and sales and other taxes (Inclusive of GST).
- On components and raw material used in the manufacture or assembly.
- On the previously imported equipment / machineries of foreign origin quoted ex-showroom, ex-warehouse, or off-the-shelf.
- Any Indian duties, sales and other taxes which will be payable on the goods if this Contract is awarded;
- Unit price including all applicable taxes/customs duties/levies such as taxes, Entry tax, GST, Excise duty, Works Contract Tax, Octroi, Cess, transportation, packaging, transit insurance, service tax, sales and any other taxes and duties that are applicable for such contracts in the State of Andhra Pradesh as on the date of Opening of bid shall be considered and even already paid or payable on the components and raw material used in the manufacture or assembly of goods quoted.
- The prices quoted shall be lump sum and on for destination basis inclusive of all taxes and duties. For the purpose of clarity, applicable taxes as on the date of submission of bid shall be quoted.
- The bidder should quote his firm prices valid for the duration and completion of the contract of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” No enhancement of prices for what so ever reason will be allowed once the offer is accepted.
- The bidder is supposed to quote the rate for remediation of garbage through Bio-Mining process on DOB System per tonne
- The rate quoted shall inclusive of the conveyance from the dumping site to the location shown by the TSCCL authorities which is around 10 Kms.
• The land will be allotted by TMC for the Remediation process on lease basis after discussion with successful bidder (Reference:- G.O Ms. No:-56, dt:-05-02-2011).

**General**

1. The Schedules do not generally give a full description of the equipment to be supplied and the services to be performed under each item. Bidders shall be deemed to have read the Technical Specifications and other sections of the bidding documents and reviewed the Drawings to ascertain the full scope of the requirements included in each item prior to filling in the rates and prices. The entered rates and prices shall be deemed to include for the full scope as aforesaid, including overheads and profit.

2. If bidders are unclear or uncertain as to the scope of any item, they shall seek clarification in accordance with the Instructions to Bidders in the bidding documents prior to submitting their bid.

**Pricing**

3. Prices shall be filled in indelible ink, and any alterations necessary due to errors, etc., shall be initialled by the Bidder.

As specified in the Conditions of Contract, prices shall be fixed and firm for the duration of the Contract.

4. Bid prices shall be quoted in the manner indicated and in the currencies specified in the Instructions to Bidders in the bidding documents.

For each item, bidders shall complete each appropriate column in the respective Schedules, giving the price breakdown as indicated in the Schedules.

Prices given in the Schedules against each item shall be for the scope covered by that item as detailed in the Technical Specifications, Drawings or elsewhere in the bidding documents.

5. Where there are errors between the total of the amounts given under the column for the price breakdown and the amount given under the Total Price, the former shall prevail and the latter will be corrected accordingly.

Where there are discrepancies between amounts stated in figures and amounts stated in words, the amounts stated in words shall prevail.
6. Payments will be made to the Contractor in the currency or currencies indicated under each respective item.

7. Items left blank will be deemed to have been included in other items. The TOTAL for each Schedule and the TOTAL of the Grand Summary shall be deemed to be the total price for executing the Facilities and sections thereof in complete accordance with the Contract, whether or not each individual item has been priced.

8. When requested by the Employer for the purposes of making payments or part payments, valuing variations or evaluating claims, or for such other purposes as the Employer may reasonably require, the Contractor shall provide the Employer with a breakdown of any composite or lump sum items included in the Schedules.

11. Annexure 6 – Non-Disclosure Agreement

WHEREAS, we the undersigned Bidder,____________________, having our principal place of business or registered office at___ are desirous of bidding for RFP No. <<>> dated <<DD-MM-2018>> Request for Proposal [RFP] for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” (hereinafter called the said 'RFP')to the “Tirupati Smart City Corporation Limited”, hereinafter referred to as ‘Authority’

And,

WHEREAS, the Bidder is aware and confirms that the Authority's business or operations, information, application or software, hardware, business data, architecture schematics, designs, storage media and other information or documents made available by the Authority in the RFP documents during the bidding process and thereafter, or otherwise (confidential information for short) is privileged and strictly confidential and or proprietary to the Authority,

NOW THEREFORE, in consideration of disclosure of confidential information, and in order to ensure the Authority's grant to the Bidder of specific access to Authority's confidential information, property, information systems, network, databases and other data, the Bidder agrees to all of the following conditions.

It is hereby agreed as under:

1. The confidential information to be disclosed by the Authority under this Agreement (“Confidential Information”) shall include without limitation, any and all information in written, representational, electronic, verbal or other form relating directly or indirectly to processes, methodologies, algorithms, risk matrices, thresholds, parameters, reports, deliverables, work products, specifications, architecture, project information, security or zoning strategies & policies, related computer programs, systems, trend analysis, risk plans, strategies and information communicated or obtained through meetings, documents, correspondence or inspection of tangible items, facilities or inspection at any site to which access is permitted by the Authority.

2. Confidential Information does not include information which:
a. the Bidder knew or had in its possession, prior to disclosure, without limitation on its confidentiality;
b. information in the public domain as a matter of law;
c. is obtained by the Bidder from a third party without any obligation of confidentiality;
d. the Bidder is required to disclose by order of a competent court or regulatory authority;
e. is released from confidentiality with the written consent of the Authority.

The Bidder shall have the burden of proving hereinafore are applicable to the information in the possession of the Bidder.

3. The Bidder agrees to hold in trust any Confidential Information received by the Bidder, as part of the Bid process or otherwise, and the Bidder shall maintain strict confidentiality in respect of such Confidential Information, and in no event a degree of confidentiality less than the Bidder uses to protect its own confidential and proprietary information. The Bidder also agrees:

a. to maintain and use the Confidential Information only for the purposes of bidding for this RFP and thereafter only as expressly permitted herein;
b. to only make copies as specifically authorized by the prior written consent of the Authority and with the same confidentiality or proprietary notices as may be printed or displayed on the original;
c. to restrict access and disclosure of Confidential Information to their employees, agents, consortium members and representatives strictly on a "need to know" basis, to maintain confidentiality of the Confidential Information disclosed to them in accordance with this clause; and
d. To treat Confidential Information as confidential unless and until Authority expressly notifies the Bidder of release of its obligations in relation to the said Confidential Information.

4. Notwithstanding the foregoing, the Bidder acknowledges that the nature of activities to be performed as part of the Bid process or thereafter may require the Bidder's personnel to be present on premises of the Authority or may require the Bidder's personnel to have access to software, hardware, computer networks, databases, documents and storage media of the Authority while on or off premises of the Authority. It is understood that it would be impractical for the Authority to monitor all information made available to the Bidder's personnel under such circumstances and to provide notice to the Bidder of the confidentiality of all such information.
Therefore, the Bidder shall disclose or allow access to the Confidential Information only to those personnel of the Bidder who need to know it for the proper performance of their duties in relation to this project, and then only to the extent reasonably necessary. The Bidder will take appropriate steps to ensure that all personnel to whom access to the Confidential Information is given are aware of the Bidder's confidentiality obligation. Further, the Bidder shall procure that all personnel of the Bidder are bound by confidentiality obligation in relation to all proprietary and Confidential Information received by them which is no less onerous than the confidentiality obligation under this agreement.

5. The Bidder shall establish and maintain appropriate security measures to provide for the safe custody of the Confidential Information and to prevent unauthorized access to it.

6. The Bidder agrees that upon termination or expiry of this Agreement or at any time during its currency, at the request of the Authority, the Bidder shall promptly deliver to the Authority the Confidential Information and copies thereof in its possession or under its direct or indirect control, and shall destroy all memoranda, notes and other writings prepared by the Bidder or its Affiliates or directors, officers, employees or advisors based on the Confidential Information and promptly certify such destruction.

7. Confidential Information shall at all times remain the sole and exclusive property of the Authority. Upon completion of the Bid process and/or termination of the contract or at any time during its currency, at the request of the Authority, the Bidder shall promptly deliver to the Authority the Confidential Information and copies thereof in its possession or under its direct or indirect control, and shall destroy all memoranda, notes and other writings prepared by the Bidder or its Affiliates or directors, officers, employees or advisors based on the Confidential Information within a period of sixty days from the date of receipt of notice, or destroyed, if incapable of return. The destruction shall be witnessed and so recorded, in writing, by an authorized representative of the Authority. Without prejudice to the above the Bidder shall promptly certify to the Authority, due and complete destruction and return. Nothing contained herein shall in any manner impair rights of the Authority in respect of the Confidential Information.
8. In the event that the Bidder hereto becomes legally compelled to disclose any Confidential Information, the Bidder shall give sufficient notice and render best effort assistance to the Authority to enable the Authority to prevent or minimize to the extent possible, such disclosure. Bidder shall not disclose to a third party any Confidential Information or the contents of this RFP without the prior written consent of the Authority. The obligations of this Clause shall be satisfied by handling Confidential Information with the same degree of care, which the Bidder applies to its own similar Confidential Information but in no event less than reasonable care.

DRAFT MEMORANDUM OF UNDERSTANDING EXECUTED BY MEMBERS OF THE CONSORTIUM

[On Non-judicial stamp paper of Indian Rupees 100 duly attested by notary public]

This Memorandum of Understanding (MoU) entered into this day of [Date] [Month] 2018 at [Place] among ___(hereinafter referred to as "_") and having office at [Address], India, as Party of the First Part and ________(hereinafter referred as "_") and having office at [Address], as Party of the Second Part and ________(hereinafter referred as "). and having office at [Address], as Party of the Third Part.

The parties are individually referred to as Party and collectively as Parties.

WHEREAS Tirupati Smart City Corporation Limited has issued a Request for Proposal dated [Date] (RFP) from the Applicants interested in Request for Proposal [RFP] for selection of "Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati" for Authority:

AND WHEREAS the Parties have had discussions for formation of a Consortium for bidding for the said Project and have reached an understanding on the following points with respect to the Parties’ rights and obligations towards each other and their working relationship.

AS MUTUAL UNDERSTANDING OF THE PARTIES, IT IS HEREBY AGREED AND DECLARED AS FOLLOWS:

i. The purpose of this Agreement is to define the principles of collaboration among the Parties to: Submit a response jointly to Bid for the Request for Proposal [RFP] for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati” as a Consortium.

   a. Sign Contract in case of award.
   b. Provide and perform the supplies and services which would be ordered by the Authority pursuant to the Contract.
This Agreement shall not be construed as establishing or giving effect to any legal entity such as, but not limited to, a company, a partnership, etc. It shall relate solely towards the Authority for Request for Proposal [RFP] for selection of “Solid Waste Management Project – Remediation of Existing MSW Dumpsite at Ramapuram through Bio-Mining Process under Implementation of the Smart City Mission in Tirupati”

ii. for and related execution works to be performed pursuant to the Contract and shall not extend to any other activities

iii. The Parties shall be jointly and severally responsible and bound towards the Authority for the performance of the works in accordance with the terms and conditions of the BID document, and Contract.

iv. -----------------------------(Name of Party) shall act as Lead Partner of the Consortium. As such, it shall act as the coordinator of the Party’s combined activities and shall carry out the following functions:
   a. To ensure the technical, financial and administrative co-ordination of the work package
   b. To lead the contract negotiations of the work package with the Authority.
   c. The Lead partner is authorized to receive instructions and incur liabilities for and on behalf of all Parties.
   d. In case of an award, act as channel of communication between the Authority and the Parties to execute the Contract

v. That the Parties shall carry out all responsibilities as Developer in terms of the Project Agreement.

vi. That the broad roles and the responsibilities of each Party at each stage of the Bidding shall be as below:

   Party A: ____________________________ Party B: ___ Party C: ______

vii. That the Parties affirm that they shall implement the Project in good faith and shall take all necessary steps to see the Project through expeditiously.
viii. That this MoU shall be governed in accordance with the laws of India and courts in Andhra Pradesh shall have exclusive jurisdiction to adjudicate disputes arising from the terms herein.

In witness whereof the Parties affirm that the information provided is accurate and true and have caused this MoU duly executed on the date and year above mentioned.

The Mode of execution of the power of attorney should be in accordance with the procedure, if any laid down by the applicable law and the charter documents of the executant(s) and when it is so required the same should be under common seal of the executant affixed in accordance with the required procedure Further, the person whose signatures are to be prescribed on the Power of Attorney shall be duly authorized by the executant(s) in the regard.

c. The person authorized under this Power of Attorney, in the case of the bidding Company / Lead Member being a public company or a private company which is a subsidiary of a public company, in terms of the Companies Act 1956, with a paid up share capital of more than Rupees of Five Crores, should be the Managing Director / whole time director / manager appointed under section 269 of the Companies Act, 1956. In all cases the person authorized should be a director duly authorized by a board of resolution duly passed by the company.

d. Also, wherever required, the executant(s) should submit for verification the extract of the chartered documents and documents such as a Board Resolution / Power of Attorney, in favour of the person executing the power of Attorney for delegation of power hereunder on behalf of the executant(s).

e. For a Power of Attorney executed and issued overseas, the document will also have to be legalized by the Indian Embassy and notarized in the jurisdiction where the Power of Attorney is being issued.
15 Annexure 10 – Manufactures / Producers Authorization Form

Dated: DD/MM/YYYY

To
The Managing Director,
Tirupati Smart City Corporation Limited,
C/o Tirupati Municipal Corporation,
Tilak Road, Tirupati – 517501, Chittoor District,
Andhra Pradesh, India

Subject: Manufacturer’s Authorization Form

Ref.: RFP No.<----------------------------->, Dated: <<--/--/--->>

Dear Sir,

We (Insert complete name of manufacturer) who are established and reputable manufacturers of _______________________________
[List of Goods] having factories or product development centers at the locations__________________________ or as per list attached, do hereby authorize. _________________________________[Name and Address of the Bidder] to submit a bid in relation to the Invitation for Bids indicated above, the purpose of which is to provide the following Goods, manufactured by us (insert name of goods) and to negotiate and conclude the contract with you against RFP No._____________, dated: _______________ for the above goods manufactured or developed by us.

We hereby extend our full guarantee and warranty for the goods supplied by the bidder and or maintenance or support services for the products against this invitation for bid by ___________[Name of the Bidder] as per requirements and for the duration of contract as specified in this RFP.

We have repair and service facilities in India and we shall either develop our own facility or authorize a service center at Tirupati for day to day maintenance of equipments.

Products or technology quoted are neither end-of-sale nor end-of-life as on the date of installation and commissioning and are not end-of-support till the successful completion of O&M period of the project.

We have not have been blacklisted by any state / Central Government Department or Central/State PSU’s.

We have not filed for bankruptcy and should be profitable for at least last 2 consecutive financial years.
Thanking you,
Yours faithfully,

........................................................................................................................................

19  Annexure 11 – Undertaking from Sub-Contractor

[on the letterhead of the subcontractor firm]

Letter No.: _____________________________  Date:

To

Managing Director,
Tirupati Smart City Corporation Limited (TSCCL),
Tirupati Municipal Corporation, 13-29-M9-1-00, Tilak Road, East Tirupati,
Chittoor District, Andhra Pradesh. Pin Code : 517501

Sub : Consent of association with ______________________________ as sub-contractor for the referred RFP.

Dear Sir,

1. I, the undersigned, confirm my agreement to associate with M/s.…………………………………………….. (hereinafter referred to as “lead bidder”) as the “Sub-Contractor” to submit the proposal and work for the above-captioned project.

2. I authorize the lead bidder to include my company's experience and expertise in the above referenced project proposal and/or forward my profile to the Authority for the proposal and represent me on all contractual aspects of this proposal.

3. I confirm my interest and availability to work on the projects awarded, should the lead bidder be successful in the RFP.

4. I confirm that to the best of my belief and knowledge, I have not been blacklisted by any government / Semi-government body or donor agency.

Yours sincerely,

………………………………………………………………………………

Authorised Signatory of the subcontractor.

(Officer 1) Municipal Commissioner
(Officer 2) Municipal Engineer
Explanatory Note

Sl. 7 Various options where segregated waste like RDF, Bio soils, C & D waste and other fractions may be utilised in nearby area may be indicated.

Sl. 8 Approximate cost may be estimated based of scope of work proposed to be given to contractor like whether only equipments are proposed on rent or purchase and O & M or on processing fee basis.

Additional points

Sl. 1 characterisation of waste , if any, done may be given

Sl. 2 Suggested models of reclamation of Dumpsites

**Model 1:** (Recommended to be anchored by state govt. for a cluster of smaller ULBs)
- State purchases necessary equipments and machinery with annual O&M contract with supplier.
- The machine will be supplied to any ULB who in turn will engage another agency for providing requisite labours.
- Segregated material will be taken care by the ULB

**Model 2:** (Suitable for Individual medium and large ULBs)
- ULB hires necessary equipments and machinery on rent basis while its maintenance lies with supplier.
- Separate Agency is engaged with ULBs to provide labour/support.
- Segregated material to be taken care by the

**Model 3:** (Suitable for Large ULBs)
- ULB engages agency to carry out remediation on per tonne processing fee basis and most of the activity is undertaken by agency.
- Segregated material to be taken care by the agency with support of ULB

</table>
Template on Management of Dumpsites

1. Background information
   a) Name of ULB & City, Name of Municipal Commissioner, postal address, phone, email, mobile
   b) Population of city – as per census 2011, present and projected for next 25 years
   c) How many open dumpsites are in the city? (Provide details called for in 1c and 1d for each of the dumpsites)
   d) Details of location like area in hectare, elevation w.r.t.o. mean sea level, bounded on all four sides by ………… to a distance of xx m, google map showing the dumped waste in the open environment.
   e) Is the dumpsite bounded by a compound wall or is it accessible to animals.
   f) Does the city have any location(s) earmarked for dumpsites in future? If yes provide details.
   g) Is there any scientific landfilling or only open dumping is being carried out at site(s)?
   h) If open dumping is carried out, is there any plan for closure of the site?
   i) Is any part of the open dump partially capped?
   j) Has there been an instance of major fire at the open dump? How many times in a year? How many were reported in the last one year?
   k) Has the open dumpsite area been ever flooded? How many times and its impact?
   l) What is the average height and area of the open dumped waste? If there is more than one, provide information for each.
   m) Has there been a contour survey been carried out of the waste lying at site? If yes provide the details of the latest survey.
   n) Has any characterisation of the waste in the open dump site been carried out? If yes provide the details.
   o) Have there been any dumping of Bio-medical waste at the dumpsite? If yes provide details.
   p) Has there been any dumping of Hazardous waste at the site? If yes provide details.
   q) Does the city have a carcass processing/disposal plant? Are the carcass of animals been brought to open dump site for burial? If yes provide the details.
r) Is there a MSW processing plant in the city? – Give details – process, capacity, operational condition etc

s) Does the city have a C & D waste processing facility? If yes provide the details.

2. **Information on Open dump sites (name of dumpsite)**
   *(In case there are more than one dumpsite, provide information for each)*

   a) Period since when open dumping is being done,

   b) Is it located close to area of environmental importance such as designated nature reserve, ASI sites, etc

   c) Location, latitude & longitude, distance from river/nala/canal, distance from highway

   d) Topographic surveys.

   e) Present land use of the surrounding areas

   f) Villages / towns / cities around the dumpsite, there distance from dumpsite and their population

   g) Details of existing conditions on and surrounding the dumpsite.

   - Property boundaries,
   - Topography and Slopes,
   - Flora and Fauna details,
   - Wetlands,
   - Utilities,
   - Roads,
   - Permanent or semi-permanent structures,
   - Earthquake zone

   h) Hydro-geological information of the dump site

   - Soils (depth, texture, structure, bulk density, porosity, permeability, moisture, if available)
   - Bedrock (depth, type, presence of fractures, location of surface outcrops, if available)
   - Groundwater (average depth, seasonal fluctuations, hydraulic gradient and direction of flow, rate of flow, quality, uses etc. depending upon availability)

   i) Compilation of climatological data

   - Average annual Precipitation for the past 50 years or as available in metrological records
   - Highest rainfall in a day over the last 50 years or as available in metrological records
• No. of rainy days per year
• Temperature (Monthly avg. temperature round the year)
• Evaporation (Monthly avg. temperature round the year)
• Wind direction and velocity(all round the year)- provide wind rose

j) Waste Characterisation
• Quantity of waste dumped at site
• Characteristics of the dumped waste

k) Photographic record
• Provide a photographic record of the dumped waste

3. Environment Management & Regulatory Compliance

In line with the Solid Waste Management (SWM) Rules, 2016 as documented in Section 4.1 and revised SWM Manual (2016), sanitary landfills minimise the harmful impact of solid waste on the environment through the use of the following mechanisms:

• The storm water drainage system
• Non-permeable lining system at the base and walls of waste disposal area.
• Provisions for management of leachates including its collection and treatment shall be made. Arrangement shall be made to prevent leachate runoff from landfill area entering any drain, stream, river, lake or pond
• Methodology for water quality monitoring
• Methodology for ambient air quality monitoring
• Methodology for Green cover/plantation
• Methodology for control of other problems due to rodents, pests, fire, bird menace, slope failure, erosion, etc.
• Landscape- As per the SWM Rules, 2016 Schedule I (g), there is a defined criteria for plantation at the landfill site which needs to be adhered to.

4. Remediation and Closure Plan Options

4.1 Dumpsite Closure:
The dumpsite closure is recommended when:

a) “Not in my Backyard” issue significantly prevails. The city has expanded around the dumpsite and pose serious concerns on the health and wellbeing of public.

b) Alternate site for dumping/scientific disposal of landfill is available with the city.

c) The dumpsite cannot accommodate more waste

d) Landfill mining and remediation options cannot be exercised
The proposed scientific closure plan for [Name of Dumpsite] should have following components:

i. Whether any DPR / feasibility study has been prepared for Bio-mining/ capping/ remediation

ii. Whether partially capped

iii. Approval from the concerned State Pollution Control Board (SPCB)/committee

iv. Slope reformation and waste levelling

v. Closure cover

vi. Landfill gas collection & management system

vii. Leachate collection & management system

viii. Surface runoff management system

ix. Fire control measure

x. Prevention of illegal dumping - measures to check

xi. Other infrastructure (periphery road, administrative building, boundary wall landscaping, electrical works etc.)

xii. Resettlement / Action plan

xiii. The revised manual on municipal solid waste management by the Ministry of Urban Development (2016) shall be referred to for guidance.

4.2 Post Closure Maintenance

After scientific closer of the dumpsite, post closure activities are undertaken to ensure that the closed/ capped facility remain in proper condition and adhere to environmental regulations. Post-closure care activities consist of monitoring and maintaining the waste containment systems, any gas extraction system and observing groundwater. Determination of the end use of a dumpsite site is an essential part of the plan for dumpsite closure and post-closure maintenance. The post-closure care of landfill site shall be conducted for at least fifteen years and long term monitoring or care plan shall consist of the following:

- plan for vegetative stabilisation of the final dumpsite cover
- plan for management of surface water runoff with an effective drainage system,
- plan for periodical inspection and maintenance of dumpsite cover
- (settlements) and facilities,
- plan for quantity and quality of leachate monitoring in the dumpsite,
- plan for quantity and quality of dumpsite gas monitoring,
- plan for groundwater quality (up gradient and down gradient) check, and
- plan for surface water quality check at the periphery of dumpsite and at receiving water bodies.
4.3 **Landfill Mining**

Landfill mining and reclamation (LFMR) is a process whereby solid wastes which have previously been landfilled are excavated and processed. The function of landfill mining is to reduce the amount of landfill mass encapsulated within the closed landfill and/or temporarily remove hazardous material to allow protective measures to be taken before the landfill mass is replaced. In the process, mining recovers valuable recyclable materials, a combustible fraction, soil, and landfill space. The aeration of the landfill soil is a secondary benefit regarding the landfill's future use. The combustible fraction is useful for the generation of power. The overall appearance of the landfill mining procedure is a sequence of processing machines laid out in a functional conveyor system. The operating principle is to excavate, sieve and sort the landfill material. Some old dumpsites may require aeration to diffuse any harmful gases entrenched in the dumped mass. This would reduce risk of exposure for the manpower operating on the project. The steps for LFMR are explained below:

4.3.1 **Preliminary Excavation**
- The number of pits and/or trenches to be dug;
- Equipment and material handling procedure;
- Labour requirements and their safety;
- Creation of a work zone with clearly marked boundaries; and
- Necessary analytical testing, measurements and data collection.
- Proper time to begin extracting material from the landfill, taking into consideration the odour that will be produced (please see above for requirement of aeration)
- Methodology that should be adopted to conduct feasibility studies
- Methodology in taking representative samples
- Development of methods of analysis of the mined samples
- Materials that can be recovered through mining of dump sites/landfills
- Expected quantity of the various recovered materials
- Variation of degradation with time, wastes and space
- Environmental and health risks of landfill rehabilitation works
- Enhancement of waste stabilization and integration of landfill design and operation

4.3.2 **Slope Stability**

4.3.3 **Access Road**

4.3.4 **Leachate Accumulation**

4.3.5 **Dumpsite Fire Control**

4.3.6 **Scavenging Control**

4.3.7 **Mechanical Equipments**
- Functions related to soil (excavation, handling, spreading and compaction);
- Functions related to wastes (spreading and compaction)
- Support functions (maintenance of on-site haul roads, water clearance and drainage ditches and removal of trapped trucks from the landfill working area)
4.3.8 **Waste Disposal Plan**
- Size and location of the first and subsequent sequence of areas to be filled with waste after the site has been rehabilitated, leading ultimately to the completion of the site and its final landform. Each waste emplacement area will have a unique reference number indicated on a scale drawing of the site.
- Method of waste emplacement and soil covering to be used.
- Structure, roles and responsibilities of the management and manual staff at the site.
- Procedures for record keeping related to incoming vehicles, waste types and estimated quantities.
- Procedures for record keeping related to on-site mechanical equipment, other routine maintenance and accident and defects reporting.
- Traffic control at the site.
- Fire prevention and smoking rules.
- Maintenance and repair water drainage ditches.
- Instructions for dealing with prohibited wastes that arrive at the site reception.

4.3.9 **Staff Requirement**
- A site manager with sufficient delegated authority to manage daily site activities and access to physical and financial resources to overcome day-to-day operational problems.
- A gatekeeper/office clerk.
- Security guards.
- Traffic marshal(s) for directing trucks to discharge waste at the working part of the disposal site.
- Mechanical equipment drivers (minimum of two).
- Manual labourers (minimum of ten).
- Maintenance mechanic(s) if it is intended to establish a maintenance facility at the disposal site.

4.4 **Dumpsite Management using Windrows (Nagpur Model)**

This method of dumpsite management is suitable for ULBs where treatment of waste is not happening and all waste is dumped at the dumpsite. The old waste dumped on the dumpsite along with the fresh waste is managed together. The procedure is stated as under:

- At the old dumpsite, windrows are made by piling biodegradable waste in long rows.
- It leads to the bio-stabilisation of Bio-degradable waste. Normal Windrow operations are practiced for this windrow.
- Bio-culture is sprayed to accelerate organic decomposition and to control foul smell. It controls flies and treat leachate at no extra cost.
- Windrow size is reduced significantly by action of microbes and stabilization of organics.
- Cost effective solution for dumpsite management.
- Longer life of dumpsite facility.
4.5 Dumpsite Reduction by using Recovered material for Construction of Roads Embankment (CRRI Model)

This method prominently helps in volume reduction by utilization of segregated dry inert from landfill mining into Construction of Roads Embankment. The procedure is stated below:

- Manual/mechanical segregation of the landfill mining material is done
- The dry inert material which is generally 65-75% of the mined material can be used in roads embankment construction, which saves natural resources
- Use of segregated plastic material in road construction
5 DPR Preparation Format

The following section in italics shall form part of the DPR for dumpsite closure

5.1 Concept Plan and Drawing (layout and elevation)
5.2 Slope Reformation and Waste Levelling
5.3 Provide detailed plan for slope reformation/ waste levelling plan:
   • Side Slope
   • Landfill operational until xxxx
   • Waste receipt rate:
     o Municipal Solid Waste (MSW) (TPD)
     o C&D waste (TPD)
   • Earthwork in cut and filling back and compaction for slope reformation (cum)
   • Base Elevation (m)
   • Maximum Elevation (m)
   • Capacity of the landfill for future waste (cum)
   • Surface Area (3-D) (sqm)

5.4 Proposed Closure cover Layer as per SWM Rules, 2016
   • Top Soil
   • LFG Collection Layer
   • Drainage Layer
   • Impervious Layer

5.5 Landfill Gas (LFG) Management System
   • LFG extraction wells
   • A network of header and feeder pipes,
   • Condensate control system,
   • Centrifugal Blowers for gas pumping

5.6 LFG Flaring/Power Production Systems
5.7 Leachate Management System
5.8 Water (tertiary treated sewage) availability details for carrying out O & M of the capped dumpsite.
5.9 Resettlement / action plan

5.10 If there are informal settlers (scavengers/waste pickers) at the disposal site, they should be relocated and an alternative livelihood provided for them. If there is an operating Materials Recovery Facility (MRF), these people can be formally hired since they are efficient in waste segregation.

Introduction

The Detailed Project Report (DPR) is an essential building block for the Jawaharlal Nehru National Urban Renewal Mission (JNNURM) in creating infrastructure and enabling sustainable quality service delivery. The DPR is to be prepared carefully and with sufficient details to ensure appraisal, approval, and subsequent project implementation in a timely and efficient manner.

This document provides a reference format for preparing DPRs/Project Reports across sectors. The major sections covered are as follows:

1. Sector background context & broad project rationale
2. Project definition, concept and scope
3. Project cost
4. Project institution framework
5. Project financial structuring
6. Project phasing
7. Project O&M framework and planning
8. Project financial viability/sustainability
9. Project benefits assessments

The key issues needing to be addressed and other relevant details are outlined separately for each section

General notes for use of this toolkit

i. This document provides a general reference framework for DPR preparation; additional relevant details are to be incorporated as per the requirements of the ULB city planners/ entity preparing the project report.

ii. The headings (the numbered section headings and sub-headings) for the DPR are to be as per this document. Any additional headings may be incorporated as per requirement.

iii. The Detailed Project Report is to be accompanied by a separate Executive Summary

iv. Within 30 days of clearance by the CSMC, the ULB/parastatal may arrange to digitize (create a soft copy of) the entire project report including drawings and forward the same to the Ministry of Urban Development (MoUD)

v. Further feedback and suggestions for improving the “DPR Preparation Toolkit” are welcome and may be suggested to the MoUD
1. Sector Background Context & Broad Project Rationale

Key issue for the section:
Have the relevant aspects of the sector (e.g., Water supply sector, transportation sector etc) been adequately profiled and the context of the proposed project adequately explained?

The DPR needs to provide information covering the following areas:

1.1 Existing status of the physical infrastructure (brief description)

1.2 Base line information in terms of user coverage & access (by different user categories/segments including urban poor)

1.3 List of various projects proposed for the sector in the City Development Plan (CDP) and confirmation /explanation of how this project is aligned with stated CDP priorities

1.4 List of other capital expenditure projects supported by other schemes for the sector (sanctioned projects that have yet to commence as well as ongoing projects)

1.5 Existing tariff and cost recovery methods and extent of cost recovery
   - Past five year trends
   - Existing per unit cost; existing per unit service delivery price (in absolute terms and also on per capita basis)
   *(The basis, assumptions and method of calculations in regard to the above are also to be provided)*

1.6 Existing areas of private sector/community participation in the sector for design, construction, project management, and/or O&M services (including billing & collection)

1.7 Any other qualitative information (e.g., list of key issues that are of importance to this sector and project; importance of the project to the sector, extent to which the project would address key issues/problems of the sector etc.)
2. Project Definition, Concept and Scope

Key issue:
Has the project concept been defined in a complete manner and its components/modules clearly delineated?

The proposed project needs to be clearly demarcated in terms of all its constituent sub-components. (Several project DPRs specify only the “to-be-constructed” infrastructure component which does not represent the complete project) The project concept comprises several sub-components /elements including:

2.1 Land
- Total quantum of land required and being provided for the project
- Confirmation that the required land is owned /already purchased by the ULB/parastatal; land title is to be clear and unencumbered.

2.2 Physical infrastructure components
(Please refer Annexure-1 for sector specific reference components)

The physical infrastructure of each project/DPR can be considered in terms of specific components. (component 1, component 2, component 3, …etc) These would be unique for each project and would also vary across sectors. For reference purposes, a wide range of sector specific project components have been provided in Annexure.1. The design, detailed engineering and drawings as applicable for the components are to be included in this section. These project components can also serve as a reference for “packaging of contracts” either individually, in parts, or through combinations.

2.3 Environmental compliance/protection measures/improvement measures
- Environment impact assessment
- Environment management plan

2.4 Rehabilitation and Resettlement

2.5 Specialised procured services for design, independent supervision, and quality assurance

2.6 Other information
- Details of surveys and investigations required to be carried out (site, customer, etc)
- Assessment of requirements related to utilities shifting
- List of clearances and agencies from which these are to be obtained

1 Such demarcation additionally serves to facilitate planning of (a) phasing and (b) costing
2 Land cost is not funded by JNNURM ACA Grants (except for North-Eastern states & designated hilly states: Uttarakhand, J&K, HP)
3 Rehabilitation and resettlement are not funded by JNNURM Additional Central Assistance (ACA) grants; ULB/state governments have to make their own arrangements.
• Disaster related risk assessment and broad countermeasures (including earthquake/other natural disaster resistant design of structures)

3. Project Cost

Key issue
Have all the relevant project costs been accounted for in addition to costs of physical infrastructure construction works?

The project (construction) cost should cover distinct elements, including but not limited to the specific components listed below:

3.1 Land acquisition/site development (Land acquisition is not covered by JNNURM ACA Grant-- except for North-Eastern and designated hilly states. In all other cases, land acquisition is to be completed prior to application for JNNURM support).

3.2 Physical infrastructure component-wise cost (should correspond to section 2.2)

3.3 Environmental compliance cost

3.4 Rehabilitation & resettlement cost (to be borne by ULB/parastatal/state government)

3.5 Cost of surveys & investigations

3.6 Cost of shifting utilities

3.7 Cost of consultancy services: (a) Design (b) Supervision (c) Quality Assurance

3.8 Other statutory compliance costs if applicable

3.9 Finance/interest cost during construction

3.10 Contingency

3.11 Any other

For all cost elements, assumptions (rates, methods of calculations etc) are to be clearly given either in the main text or as an attached appendix of the DPR.

Note:
(1) All cost heads are to be provided for in the DPR; if an element is not applicable, “0” may be put against it when entering actual figures. O&M costs are covered in a separate section; this section covers only capital cost.
(2) If survey cost are included in design cost (ie 3.7), this may be clearly specified to avoid double counting
(3) The project, for implementation purposes, can be broken into contract packages for tendering. This perspective of cost is being covered separately in the section on Project Institutional framework
4. Project Institution Framework (for construction)

**Key issue**
Have the institutional arrangements for project construction implementation been clearly specified?

The DPR needs to clearly specify the institutional arrangement details, including the information requested below:

4.1 **Roles of different institutions involved in the construction phase of the project**

(i) A Roles/responsibility matrix could be a convenient option to present this information.

(ii) The relationship between ULB on the one hand and parastatal or state government agencies on the other are to be made explicit. Innovative approaches to provide for improved coordination and/or working arrangements can be highlighted.

4.2 **Manner of undertaking construction works**

…ie whether construction works are envisaged to be undertaken:

(i) in-house through one of the Govt. agencies/parastatals’ own staff OR

(ii) by being tendered out under the supervision/management of the ULB/parastatal OR

(iii) through a separately established legal entity/project implementation company such as an SPV (Special Purpose Vehicle)

4.3 **Involvement of the construction entity in the subsequent O&M activities**

…..ie whether the contracted entity undertaking construction works are also to be retained and involved in (any aspect of the subsequent) O&M phase

4.4 **Areas of involvement of the private sector in the construction phase**

(tick mark as appropriate):

| i  | Project Feasibility Study |
| ii | Project Engineering Design |
| iii | Specialized Surveys |
| iv | Construction Works |
| v  | Supervision Consultants |
| vi | Quality Assurance Consultants |
| vii | Any Other Please Specify (Eg: Equipment Lease) |

Additional information regarding the above can be provided. (in brief) if required.

---

4. In case any of these activities are provided by govt. agencies (including autonomous agencies) specify their names and include the results as a part of section 4.1.
4.5 Construction “Packages” for works construction

Brief description of strategy for the overall works programme including information on indicative packages for tendering as per the following format:

<table>
<thead>
<tr>
<th>List: tender packages</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Package No.</td>
<td>Package Description</td>
</tr>
<tr>
<td>1</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td></td>
</tr>
<tr>
<td>3</td>
<td></td>
</tr>
<tr>
<td>4</td>
<td></td>
</tr>
<tr>
<td>...n</td>
<td></td>
</tr>
<tr>
<td>Total:</td>
<td></td>
</tr>
</tbody>
</table>

Within 30 days of DPR approval by CSMC, a more detailed format is required to be submitted covering break down by tender packages, contract type, and corresponding estimates for cost, tendering time frame, and package-wise completion schedules (Please refer Annexure-2 for the project implementation planning format)

If possible, the complete information as per Annexure-2 may be presented in the DPR itself prior CSMC approval; this approach would expedite time towards project implementation.
5. Project Financial Structuring

Key issue
Have the sources of financial contribution of the ULB and state’s share been clearly identified?
To what extent is there a comfort level that these sources have been tied up and would be available for the project?

The project financial structuring examines the sources and composition of funding for the project. For this section, the DPR needs to provide:

5.1 Overall Financial Structuring of the project

In this regard, the DPR should include information as per the table given below:

<table>
<thead>
<tr>
<th>(1)</th>
<th>(2)</th>
<th>(3) Project contribution source</th>
<th>(4) Amount (Rs. Lakh)</th>
<th>(5) % share by specific source</th>
<th>(6) % share by govt, entity</th>
<th>(7) Remarks on when and how state and ULB shares would be arranged</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
<td>Central Govt</td>
<td></td>
<td></td>
<td></td>
<td>Not applicable</td>
</tr>
<tr>
<td>2</td>
<td></td>
<td>State Govt</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3</td>
<td></td>
<td>Loan taken by state govt towards its share in project</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4</td>
<td></td>
<td>ULB/Parastatal</td>
<td>Devolved funds</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>5</td>
<td></td>
<td>Own surplus resource</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>6</td>
<td></td>
<td>Debt/Term Loan taken from State govt</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>7</td>
<td></td>
<td>Debt/Term Loan taken from bank/FI</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>8</td>
<td></td>
<td>Debt: from accessing capital market</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>9</td>
<td></td>
<td>Private equity/other resource financing</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Note:
(1) in case of SPV/separate project legal entity, equity share of each contributing entity including govt entities need to be specified
(3) Term loans and other private funding commitments: are required to be supported by sanction letter/agreement/in- principle letter of support containing the terms (for example: loan/debt should include details such as moratorium grace, interest rate, payment schedule of principal and interest etc).
(4) Column no. 6 refers to percentage distribution as per JNNURM guidelines as applicable for the city
(5) State Government’s contribution commitment: are required to be supported by approval for sanction in the annual plan/state cabinet approval/ in principle letter of support from the state finance ministry
(6) Within 30 days of CSMC approval, a quarterly forecast of when state and ULB contributions will be received in the project bank account is to be specified and forwarded to MoUD in the format as provided in Annexure-3.
Project financial structuring can involve a combination of equity, grant, debt and finance from private participation (and in some cases, contribution from user communities)

5.2 Review of options for

- Institutional debt and/or
- Private sector participation.

The ULB, should ideally review the scope and options for possible debt and/or private sector financing while preparing the DPR. To provide a perspective in this regard, a brief overview of debt and private sector finance is given below:

The Debt Component

Supporting the capital cost of the project entirely by Grant and ULB internal sources (surplus) might not necessarily reflect the best manner of financing urban infrastructure projects. A debt component would-

(a) provide gearing and hence support a larger number/scale of infrastructure projects by the ULB and
(b) provide (an additional) project appraisal by the funding agency and hence contributes to risk reduction and improved project structuring
(c) contribute to project management discipline for the ULB, specially in the context of O&M management, user charge levy etc.

The Debt Component\(^5\) can be from:

(a) general bank finance: however banks are unlikely to accord long tenure finance (these could typically be around eight years at a stretch)
(b) specially issued municipal bonds
(c) term loan from financial intermediary such as HUDCO, LIC, IL&FS, IDFC, SBI Caps ICICI bank; state level financial institutions (including those specific to development of urban infrastructure) etc

The ideal debt component is dependent upon a number of factors including the nature and sector of the project, project cash-flows as well as the financial condition of the municipality and financial management practices of the municipality. However, several projects might be able to support at least a small debt component (such as 5-10% of the total project cost) and take advantage of the stated benefits.

Private Participation in financing construction of infrastructure project

Private sector can be involved in financing (as well as managing the) construction of the infrastructure project and it can contribute towards the ULB or state share of finance This could be through -

(a) a separate legal entity created specifically for this purpose (SPV)
(b) a direct BOT/BOOT arrangement and its variant models with or without an SPV arrangement.

\(^5\) institutional debt—ie loans other than from the central or state government
(c) a simple *management contract or lease based contract*

All variants involve payment to the private entity to enable them cost recovery of construction (and also for O&M). This could be in the form of:

(a) Private party being allowed direct recovery of user charges for a specified long term duration (say, for illustrative purposes only, 15-25 years)

(b) Private party being paid a fixed annuity (or on a fixed rate per unit quantity for service delivery undertaken) for its services over the specified term duration. The ULB can directly recover user charges or retain the option of contracting out billing and collection to a different private entity.

Linking construction with a long term O&M performance contract could provide the advantage of operational cost efficiency as well as accountability (including quality) for creating the original infrastructure asset.

**All the models of private entity involvement envisages ULB/parastatal monitoring/supervision of outcomes.** Hence the ULB/parastatal continues to be actively involved in these activities though its role is modified.

Private sector financing and/or debt financing helps the ULB to leverage the grant support funds provided by JNNURM. **The true spirit of JNNURM (in the project perspective) is to use funds to catalyse additional funds and ensure their efficient management.** The ULB will need to examine various options for **project structuring in this regard on a case to case basis**. Project proposals are hence no longer a simplistic case of detailing technical parameters supplemented by cost estimations based on an administratively defined schedule of rates.

*In summary, for the section concerning project financial structuring, the DPR needs to provide:*

5.1 Information as per the given tabular format

5.2 Confirmation that project planners have examined the scope and options for institutional debt (financing at the very least a small component of the total project cost) and/or private sector participation. Brief analysis and conclusions in this regard may be presented.
6. Project Phasing

**Key issue**
Has the project been adequately planned in terms of scheduling and phasing (including pre-construction commencement activities) and covering all relevant modules and components? Have all these activities been adequately thought through?

Planned schedules (as a part of the DPR) need to be prepared for the following types of activities (other activity heads can be included as per requirement of the city planners/project preparation team)

### 6.1 Schedule for tendering/selection for procurement of services:

(i) *Construction contractors*
   Can be given in indicative terms in the DPR. This has to be firmed up and given in more specific detail within 30 days of CSMC approval—as per the package-wise contract implementation template\(^6\) (*Refer Annexure 2*)

(ii) *Consultants / firms for supervision and quality assurance*

(iii) *Consultants/firms for any other specialized activities* that has to be carried out to fine-tune DPR/ undertake CSMC directed inclusions based on in-principle project approvals (e.g: additional surveys, design activities etc. as applicable)

### 6.2 Schedule for bringing in State level and ULB level contributions to the project
Can be given in indicative terms in the DPR. This has to be firmed up and given in more specific detail within 30 days of CSMC approval as per template provided in *Annexure 3*

### 6.3 Schedule for obtaining all clearances (along with list of major clearances)

### 6.4 Schedule for shifting utilities

### 6.5 Project infrastructure component-wise implementation
For each of the component given in section 2.2 (Component1, Component2, Component 3.....Component n)

The implementation schedules/work plan can be presented in a simple bar chart\(^7\) on a quarterly basis, as shown below:

<table>
<thead>
<tr>
<th>S. No</th>
<th>Item</th>
<th>Q1</th>
<th>Q2</th>
<th>Q3</th>
<th>Q4</th>
<th>Q5</th>
<th>Q6</th>
<th>Q7</th>
<th>Q8</th>
<th>Q9</th>
<th>Q10*</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

\(^*\) *Additional Quarters to be introduced as per requirement*

\(^6\) Already referred to in section 4.5

\(^7\) Also referred to GANTT chart
Note:
(1) In case the project is to be commissioned (in parts) even before the complete project is constructed, then this can be made explicit in the phasing plan along with clarifying explanations.
(2) Contractor phasing as per Annexure-2: As already stated, this is to be provided within 30 days of CSMC approval of DPR. If possible, the complete information as per Annexure-3 may be presented in the DPR itself prior CSMC approval; this approach would expedite time towards project implementation.
(3) State and ULB fund contribution (reference Annexure-3): same as the above; The “in-principle” and other such documentary support provided at DPR stage would have to be converted into confirmed arrangements within 30 days.

6.6 For projects having a capital cost value of Rs. 25 crores plus, presentation of a PERT and CPM diagrams are required in addition to the Gantt charts.

The PERT chart provides a further detailed break down of activity tasks and milestones and the inter-relationship between tasks. The PERT and CPM would be useful for the ULBs/parastatal both for project planning and subsequently for project management.

8 These interlinkages could be defined in several ways such as: SS: Start to Start; SF: Start to Finish; FS: Finish to Start; & FF: Finish to Finish
7. Project O&M planning

Key issue
Has the Project Report assessed the requirements and planned for long term O&M sustainability?

Long term project sustainability requires that long term O&M is planned in terms of
(a) Institution framework including billing & collection (organization & operations) strategy and
(b) Tariff and user-cost recovery (financial) strategy

7.1 Institution framework (organization & operations) strategy

The DPR is to incorporate/include information relating to the following five areas:

(i) The institution to be engaged in the O&M of the created infrastructure asset/enhanced infrastructure assets.

(ii) Brief outline of the existing method of billing & collection (including user/customer-segment wise differentiated strategy, if any)

(iii) Select performance metrics in regard to billing & collections (for the most recent completed financial year, and if possible, for the current quarter of the ongoing financial year)

- the billing/billable ratio (in terms of physical and financial units separately)
- cost of billing & collection (in absolute terms; as percent of total cost; and details of the cost break up)
- any other, if possible
  (The basis, assumptions and method of calculations in regard to the above are also to be provided)

(iv) Brief description/analysis of the key issues and obstacles in regard to O&M (including billing/collection issues) and proposed countermeasures to overcome them for the sector in general and for the project in particular

(v) The scope for private entity/community /NGO to be involved in defined aspects of O&M for any specific/all components of the infrastructure asset.

- Private entity/community entity/NGO can participate through a variety of models for performance based O&M (even without participating in the infrastructure construction; in this context, contract periods can be of shorter duration since capital cost has not been borne by the private entities and to prevent service delivery complacency on the part of the contracted entities)

---

9 In case project is of augmenting/partial revamping nature.
10 Smaller period than the case when the private entity also finances capital asset construction
• The ULB can aim to promote competitiveness among an empanelled group of such entities and distribute geographical regions (eg identified ward areas) among a limited number of selected private/community based/NGO entities. This would enable comparisons of performance.

(vi) The DPR should explicitly define the requirements of manpower, energy, spares and consumables etc. for O&M on an annual basis giving details of existing usage, norms and proposed additional requirements.

7.2 Tariff and user cost recovery

In regard to tariff and user cost recovery, the DPR is to provide:

(i) The tariff (revenue) model for each customer/user group for the sector (including underlying assumptions) and forecast growth of customer/user groups over the next 20 years.

(ii) Unit cost of service and unit price (existing year and forecast for next 20 years)

(iii) Outline plan to restructure tariff system to any or all categories of user groups to comply with MoA requirement (institution of full cost recovery user charges) In this regard, cross-subsidization requirements/strategy if applicable are to be explicitly specified and addressed.

(The basis, assumptions and method of calculations in regard to the above are also to be provided)

---

11 Citizens’/user segment feedback could be an important source of feedback for O&M activity specially service delivery.

12 Codes, guidelines of respective nodal technical appraising agencies shall be referred for the respective sectors.
8. Project Financial Viability & Sustainability

Key issue
Has the financial viability assessment taken into consideration both capital cost & O&M sustainability?
Has it additionally taken into consideration the ULB financial situation?

The project viability assessment will be based on a combination of multiple perspectives as given below:

8.1 Overall project perspectives:
The DPR is to provide financial analysis for (Net Present Value) NPV and (Internal Rate of Return) IRR defined in the following two ways:

(i) NPV & IRR (overall): examines overall project viability, including finance cost and asset replacement cost
(ii) NPV & IRR (O&M): examines only O&M viability

The complete supporting project cash flow projections along with underlying assumptions have to be presented. (A reference project cash flow template is provided in Annexure-4).

The Project financial assessment should explicitly state the cost of capital considered and calculation method to arrive at the same.

8.2 ULB level perspectives and financial situation assessment
The DPR is to provide the following information:

(i) ULB cash flow:

This includes a complete cash flow covering the last 5 years on an actual basis and projections for the next 20 years. The underlying assumptions for the projections also need to be mentioned (a reference format for ULB Cashflow is given in Annexure 5)

An assessment of the annual impact of the project on the ULB’s finances (i.e. revenue receipts, revenue expenditure, capital receipts and capital expenditure) for the Mission Period is to be provided showing the impact being high/medium/low (more than 20%; between 20% and 5%; less than 5% respectively). The base year to be considered for this exercise is the last completed financial year. A format for providing the impact is given below:

---

13 The ULB cash flow format has also been separately circulated to all cities as a part of updating/standardizing their Financial Operating Plans (FoP). The FoP can be taken as the reference document and duly updated, if required.
Detailed Project Report: Preparation Toolkit

</tr>
</tbody>
</table>

Base Year: _______ (last completed financial year)

(ii) Debt situation assessment

This includes

- Debt schedules and terms for all debt taken (to be provided in Appendices to the DPR. (Refer Annexure 6 of this document)
- Debt service coverage ratio (DSCR)
- Debt-equity ratio for the project and the ULB

(iii) Other financial information:

- Has the ULB been credit rated? If yes: provide the name of the rating agency, type of rating and existing rating details.
- In case of Special Purpose Vehicle (SPV) or Joint Venture (JV) as a separate legal project implementation entity, the Profit & Loss (P&L) Statement and Balance Sheet forecasts for the next 20 years shall be provided. In this context, the given project cash-flow template (as per Annexure 4) may be used as the initial reference format on which appropriate modifications can be made.

Note:

(1) The requirements for financial information under section 8.2 and elsewhere are applicable to parastatals (as well as to ULBs). The given formats may be appropriately modified for the organization entity context.
9. Project Benefits Assessment (Social Cost-Benefit Assessment)

The DPR is to provide the following:

9.1  **A list of benefits from societal perspective** (both social and economic) supported by:
   (i) Explanation or description in qualitative terms
   (ii) Quantification of these benefits to the extent possible (or wherever possible) along with underlying assumptions

Benefits are to be focused on project outcomes (in the context of the project outlays made) and specially on their impact on citizens/user segments covering elements such as:

- access
- supply continuity
- time savings
- coverage
- safety
- environment improvement
- service quality
- cost savings
- employment
- improved efficiency
- improved efficiency
- improved quality of life, etc.

The above are illustrative only with type of benefits being specific to a project/sector/region, etc.

9.2  **A list of “negative externalities”** (ie adverse impacts) from a societal perspective (both social and economic) supported by:

   (i) Explanation or description in qualitative terms
   (ii) Quantification of these negative/adverse impacts to the extent possible (or wherever possible) along with underlying assumptions

Examples of negative/adverse impacts include:

- pollution; environmental distortions
- reduced green cover
- reduced access to any specific user segments
- supply interruptions (especially during project construction phases) etc
- displacement of inhabitants
- disruption in livelihood/reduced employment/labour redundancy
- possible haphazard development around/adjacent project site areas (eg resulting in slums)

The listing or identification of adverse impacts facilitates planning for possible countermeasures and also recognizes possible trade-offs in taking up the project

Note for (9.1) and (9.2)
(1) The Project Benefit/“dis-benefit” assessments should be carried out for the project life or at least consider a 20 year time frame
(2) For convenience, the following format may be considered (this is optional and is given for reference)
The societal benefits and “disbenefits” (adverse impacts) streams should be projected for the time period specified (entire project life cycle or for a minimum of 20 years; it should not be restricted to the construction period or for the Mission period only).

(3) Benefits and adverse impacts identified must be specific and not generic/general statements. Examples:
- if certain specific wards are benefiting from increased access, they should be identified
- if some specific sections of slum area or some specific slums are benefitting, these should be specifically identified.

(4) Both direct and indirect societal impacts and assessments are to be considered (for benefits/adverse impacts). This constitutes the “with project scenario” which has to be compared to the prior status or “without project scenario”.

(4) Impact on the poor (including poor households & settlements) may be specifically highlighted/documented.

9.3 Economic Internal Rate of Return (EIRR) (for projects above Rs. 100 crores or otherwise designated as considerably complex by the State Level Nodal Agency)

For projects above Rs 100 crores (or otherwise designated as considerably complex by the State Level Nodal Agency), structured estimation of the Economic Internal Rate of Return (EIRR) would be prescribed as a part of the Social Cost-Benefit Assessment. The EIRR would incorporate monetization of the identified (quantifiable) social benefits and adverse impacts and additionally provide for social perspective corrections to the costs and benefits considered for financial viability assessments. For projects where the EIRR is found to be less attractive or is a borderline case, and at the same time the project planners deem that there are substantial benefits which are intangible, then the project EIRR analysis is to be supported by detailed descriptive statements and assessments on such benefits.

For projects of less than Rs. 100 crore cost, the Benefits Assessment are to be as per 9.1 and 9.2 given above; with EIRR being optional.
Annexures

1. Sector specific infrastructure components (illustrative)
   1.1 Water supply
   1.2 Sewerage
   1.3 Solid waste management
   1.4 Preservation of water bodies
   1.5 Drainage
   1.6 Roads and Transport
   1.7 Urban public transport
   1.8 Urban renewal and heritage conservation

Scheduling related information to be provided either within DPR or at latest within 30 days of DPR approval by CSMC

2. Project implementation planning: package-wise contracting
3. Project financial contribution planning

4. Project cashflow template

ULB/Parastatal Financial information
5. ULB cashflow template
6. Debt and Loan schedules
Annexure 1: Sector specific infrastructure components

Indicative components and subcomponents for infrastructure sectors are mentioned below, which will serve as guidelines for preparation of detailed project report and for tendering/packaging of projects as an individual component or in combination. Each component shall include all associated works for completion of the Component works.

1.1 Water Supply

Note:

1. The DPR for Roads and Transport project shall in general be in line with the National Urban Transport Policy and shall refer to the MORTH guidelines and IRC codes as applicable.
2. Detailed engineering design of project component shall include but not be limited to:
   - General drainage conditions, HFL, water level
   - Traffic analysis, traffic growth, desire line based on O-D survey, traffic flow diagrams.
   - Evaluation of alternative proposals/structural solutions
Detailed Project Report: Preparation Toolkit

- Characteristics of existing facility and integration with new facility supported with maps
- Design life
- Planning and design criteria considering overall scenario
- Layout plan, GAD and detail drawings.
- Cost estimate-assumptions, basis of adoption of rates supported with rate analysis
- Source of construction material

Note – "Empanelment done on the basis of bid received and self-certification of documents the empaneled organizations are liable to be removed from the list if facts given and documentation are found to be incorrect at any stage".

Transaction Advisors (TAs) in Category A can bid for projects under category B but not vice-versa. In special circumstances where sufficient no. of bids from category A Transaction Advisors are not received, then category B Transaction Advisors may be asked to bid with the approval of competent authority.

(Scope of work Annexed)

(V.K.Chaurasia)
Advisor (I/C), PHEE
Annexure

SCOPE OF WORK

The scope of work to be performed by qualified Agencies will but is not limited to, the following tasks:

1. Provide technical, commercial, financial and legal services in support of PPP project preparation and transactions, which shall include but not limited to:
   (i) prepare bidding documents and draft contracts after reviewing the Detailed project Report prepared by the state
   (ii) Carry out Value for Money (VfM) analysis and assess PPP options,
   (iii) Conduct financial analysis and modeling, and project structuring;
   (iv) Carry out the bidding process until signing of the contract with the prospective private sector proponent or concessionaire
   (v) Provide advisory services until the commissioning of the project or as & when required, etc. Project review, development and implementation activities of various projects shall be carried out in Municipal Solid Waste Management.

2. Help structure projects to enable recovery of the investments made in such projects through innovative business and commercial practices such as levy of user charges/ fee/ toll, facilitating financial contribution under the various schemes of Government of India and exploitation of development rights/ concessions etc., as appropriate under the applicable laws.

3. Proactively market the structured projects to potential investors, both domestic and foreign, at appropriate stages.

4. Structure and market the projects in such a manner that various forms of aid, grant etc. from the Government of India, national and international institutions etc. can flow into the projects.

5. Propose institutional structures required for implementation of projects and operation & maintenance thereof with private sector financing and recommend a suitable project management agency for the purpose of ensuring that the project is structured and executed in line with the specifications as stipulated in the Detailed Feasibility and Investment Banking Report (DFIBR) and / Techno Economic Feasibility Report (TEFR) or other appropriate report.

6. Assist the state/ULB in establishing eligibility, if possible, of the projects for financial assistance of multilateral and bilateral agencies.

7. Project monitoring activities and related consultancy services during the execution/construction period of the project until commissioning of the project.

8. Training and capacity building of the Municipal staff with respect to the PPP project

9. Any other activity related to the project

4.12. Drawing to scale of the proposed components and ancillary works
4.13. Geometry of land certification by the competent authority
4.14. Selection criteria for treatment technology
4.15. Allocation of site for treatment plant, landfill, transfer station
4.16. Provision of land for next 30 years
4.17. Modular approach for MSW treatment plants / landfill
4.18. Bill of quantities and cost estimates of individual components by latest schedule of rates
4.19. Detailed drawings and cost estimates for ancillary works
4.20. Provision for DG set
4.21. Capacity calculation of DG set
4.22. Proposed PERT / CPM network showing implementation schedule
4.23. Internal Rate of Return (IRR) / Economic Rate of Return (ERR)
4.24. Traffic diversion / control management plan
4.25. Institutional and financial status of project executing agency
4.26. Mechanism for marketing of compost / RDF
4.27. Operation & maintenance cost and revenue generation for existing and proposed infrastructure
4.28. Service level benchmarking of the system
4.29. National Mission on Sustainable Habitat (NMSH) Parameters
4.30. Environmental and social problems
4.31. Action Plan for Capacity Building Programme
4.32. Public Private Partnership (PPP) involvement
4.33. Association with waste pickers
4.34. Rehabilitation and resettlement plan
4.35. Hard and soft copies of the DPR
4.36. Proposed completion period of project

5.0 Verification by the Ministry of Urban Development
CHECKLIST FOR SUBMISSION AND SCRUTINY OF DPR
(MUNICIPAL SOLID WASTE MANAGEMENT)
(to be filled in and certified by the highest city–level Officials, both technical and administrative, such as Chief Engineer/City Engineer/ Municipal Commissioner)

Instructions:

1. The DPR shall be formulated as per the Manual on Municipal Solid Waste Management published by the Ministry and as per the Department procedures.
2. DPR shall be technically sanctioned by the Competent Authority the State Govt./ULB before forwarding it to the Ministry.
3. Each and every page has to be signed at the bottom by the officials.
4. Each field has to be filled in appropriately as ‘yes’, ‘no’, ‘not required’, ‘not done’, ‘not used’ etc. No field has to be left blank. Give explanatory comments wherever ‘no’ is indicated.
5. Non-definite entries such as ‘will be done later’, ‘will be furnished later’ etc. will not be accepted.

CERTIFICATE:

This is to certify that the undersigned have read the contents of the check list fully and have responsibly made the entries true to the best of knowledge and understanding. In case the information furnished in the check list enclosed is found to be incorrect for any reason, whatsoever, the undersigned may be held liable for disciplinary action as per applicable Government rules.

Certified that

(i) The designs and drawings have been approved by the Competent Authority.
(ii) The detailed estimates and cost estimates are as per the current schedule of rate and/or rate analysis and latest pro-forma invoices (current market rates).
(iii) The DPR has been technically sanctioned by the Competent Authority in the State Govt./ULB.

CONCESSION AGREEMENT

This Concession Agreement (Agreement) is executed on this [●] day of [●] Two Thousand and [YEAR] at -----------------:

AMONGST

(1) [Executing Agency], a statutory body constituted under the [Act under which the Executing Agency is established] with its registered office at [Address of Executing Agency]. (hereinafter referred to as [Executing Agency], which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(2) [Name of the State / National Level Agency, if any], a statutory body constituted --------, with its registered office at ---------------- (hereinafter referred to as ---------, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(3) [insert name of the Concessionaire], a company organized, incorporated, registered and existing under the Companies Act, with its registered office at __________________________________________ [insert address] acting through __________________________________________, [insert name of the authorised signatory and his/her designation] duly authorized by resolution dated __________ [insert date of the Board Resolution] (hereinafter referred to as the Concessionaire, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns)

[Executing Agency], [Name of the State / National Level Agency, if any] and the Concessionaire shall collectively be referred to as the Parties and individually as a Party.

WHEREAS:

A. ------------------------------- (Brief about the genesis of the project).

B. [Executing Agency] has the power to [Powers & Authority with the Executing Agency] in state of [Name of State where the Executing Agency is established]. With a view to implement the ---------(Name of the project/scheme), [Executing Agency]in association with the [Name of the State / National Level Agency, if any], has decided to undertake integrated development, operation and maintenance of Sewage Treatment Plant(s) (the “STP”) and Faecal Sludge Treatment Plant(s) (the “FSTP”) and the collection and transportation of faecal sludge, with a proposed Design Capacity of [Capacity of STP in MLD] MLD of STP and [Capacity of FSTP in MLD] MLD of FSTP, along with other Facilities and Associated Infrastructure at [Location(s)], on a PPP basis, through a hybrid annuity model (the “HAM”).

C. For this purpose, [Executing Agency] intends to engage a concessionaire who will design, develop, part-finance, construct, operate and maintain the Facilities on the [Location(s)] Facilities Sites, and after the expiry of the Term, transfer the Facilities (the “DBFOT”) to [Executing Agency], in accordance with this Agreement (collectively the “Project”).

1 If there is a State Level/National Level intermediate agency funding the project and such an entity is part of the contract/procurement process the name of that agency can be inserted here. Otherwise all references to the National/State Level agency in the document are to be deleted.
D. The [Executing Agency] had accordingly invited proposals under its {Request for Proposals/Request for Qualifications} No. ____________________ dated [●] (the “Request for Proposals/Request for Qualification” or “RFP/RFQ”) for shortlisting of bidders for undertaking the development, operation and maintenance of the Project on DBFOT basis and had shortlisted certain bidders including inter alia, the {the selected bidder/consortium comprising .......... and .......... (collectively, the “Consortium”) with .......... as its lead member (the “Lead Member”).

E. Pursuant to the terms of the RFP, [Executing Agency] received proposals from various bidders, including a proposal submitted by the Selected Bidder on [insert date].

F. Following a process of evaluation of qualification proposals and financial proposals submitted by the bidders (including the Selected Bidder), [Executing Agency] has on [insert date] accepted the proposal submitted by the Selected Bidder for the development of the Project. Subsequently, [Executing Agency] has issued the letter of award dated [insert date] to the Selected Bidder (the “LOA”).

G. The Selected Bidder has accepted the LOA and has agreed to undertake the Project in accordance with the terms of this Agreement.

H. The Selected Bidder has incorporated a special purpose vehicle to act as the Concessionaire, to implement the Project and perform the obligations and exercise the rights of the Concessionaire, including the obligation to enter into this Agreement.

J. [Executing Agency] and [Name of the State / National Level Agency, if any] have agreed to enter into this Agreement with the Concessionaire for implementation of the Project, subject to and on the terms and conditions set out in this Agreement.

IT IS AGREED as follows:

---

2To be inserted upon issuance of the RFP/RFQ.
### ARTICLE 1
DEFINITIONS AND INTERPRETATION

#### 1.1 Definitions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acres</td>
<td>means a unit of land area equal to 43,560 sq.ft.</td>
</tr>
<tr>
<td>Additional Performance Security</td>
<td>means a performance security that must be submitted by the Selected Bidder to [Executing Agency], together with the Performance Security and ESHS Performance Security to secure the obligations of the Concessionaire/Bidder in relation to the Clause 16.5 of the RFP document.</td>
</tr>
<tr>
<td>Adjoining Property</td>
<td>means any land and/or property adjoining or adjacent or any part of the Site, including all conduits, roads, footpaths, walls, fences, buildings and other erections, structures and other apparatus on, under or within such land and/or property.</td>
</tr>
<tr>
<td>Adjusted DG Set Units</td>
<td>has the meaning ascribed to it in Clause 9.4(g)(ii)(B)(II).</td>
</tr>
<tr>
<td>Adjusted Equity</td>
<td>shall mean the Equity funded in Indian Rupees and adjusted on the first day of the current month (the “Reference Date”), in the manner set forth below, to reflect the change in its value on account of depreciation and variations in WPI, and for any Reference Date occurring:</td>
</tr>
<tr>
<td></td>
<td>(a) on or before COD of the Facilities, the Adjusted Equity shall be a sum equal to the Equity funded in Indian Rupees and expended on the Project, revised to the extent of one half of the variation in WPI occurring between the first day of the month of Effective Date and the Reference Date;</td>
</tr>
<tr>
<td></td>
<td>(b) from COD and until the [4th (fourth)] anniversary thereof, an amount equal to the Adjusted Equity as on Project COD shall be deemed to be the base (the “Base Adjusted Equity”) and the Adjusted Equity hereunder shall be a sum equal to the Base Adjusted Equity, revised at the commencement of each month following Project COD to the extent of variation in WPI occurring between COD and the Reference Date;</td>
</tr>
<tr>
<td></td>
<td>(c) anytime after the [4th (fourth)] anniversary of COD, the Adjusted Equity hereunder shall be a sum equal to the Base Adjusted Equity, reduced by [x% (x per cent)] thereof at the commencement of each month following the [4th (fourth)] anniversary of COD and the amount so arrived at shall be revised to the extent of variation in WPI occurring between COD and the Reference Date;</td>
</tr>
<tr>
<td></td>
<td>For the avoidance of doubt, the Adjusted Equity shall, in the event of Termination, be computed as on the Reference Date immediately preceding the Transfer Date; provided that no reduction in the Adjusted Equity shall be made for a period equal to the duration, if any, for which the Term is extended, but the revision on account of WPI shall continue to be made;</td>
</tr>
<tr>
<td>Affected Party</td>
<td>means the Party affected by a Force Majeure Event.</td>
</tr>
</tbody>
</table>

3 This number may be arrived at upon dividing 100 by the number of months comprising the Term rounded off to two decimal points.
| **Applicable Laws** | means the Constitution of India and all and any laws, enacted or brought into force and effect by the GoI, any State Government (including the GoI), any Government Authority or any local government having jurisdiction over the Parties, the Site or the Project, including rules, regulations and notifications made thereunder, and judgments, decrees, injunctions, writs and orders of any court of record, as may be applicable to the execution of this Agreement and the performance of the respective rights and obligations of the Parties, as may be in force and effect during the subsistence of this Agreement. For the avoidance of doubt, and without in any way limiting the generality of thefore going, Applicable Laws shall include the EPA, the EPA Rules and the [*Act under which the Executing Agency is established*] Act. |
| **Applicable Permits** | means any permissions, clearances, concessions, authorizations, consents, licenses, permits, rulings, exemptions, no objections, resolutions, filings, orders, notarizations, registrations or approvals of whatsoever nature that are required to be obtained from time to time in connection with the Project, and for generally performing the obligations contemplated by this Agreement in accordance with the Applicable Laws, as set out in Schedule 8. |
| **Appointed Date** | means the date of signing of this Agreement. |
| **Arbitration Act** | means the Arbitration and Conciliation Act, 1996, as amended from time to time. |
| **Article** | means an article of this Agreement. |
| **Associate** | means, in relation to the Concessionaire, [the Selected Bidder or a Member of the Selected Bidder], a Person who Controls, or is Controlled by, or is under the common Control of the same Person who controls the Concessionaire, the Selected Bidder or Member of the Selected Bidder, as the case may be. |
| **Associated Infrastructure** | means infrastructure facilities associated with operation of [*Location*] STP(s) and [*Location*] FSTP(s), including but not limited to Sewage pumping stations (including main pumping stations, intermediate pumping stations and any other pumping stations) and the rising mains, as described in greater details in technical specifications of each STP and FSTP in relevant Facilities Schedule, and the GPS-enabled vehicles, machinery, equipment and facilities for the entire sanitation value chain with containment, extraction, door-to-door collection, transportation, treatment, and disposal / re-use of all faecal sludge, septage and other liquid waste and their by-products and end-products, which need to be constructed and/or operated and maintained by the Concessionaire in accordance with this Agreement, and complete such infrastructure as lighting, ancillary infrastructure, other functional building such as administrative building etc., if any, for the STP(s) and FSTP(s). |
| **Availability** | means the availability of the Facilities to convey, accept and treat the Sewage, as determined in accordance with Clause 8.12(a)(i) and the term 'Available' shall be construed accordingly. |
| **Availability Liquidated Damages** | means the liquidated damages payable by the Concessionaire to the [*Executing Agency*] for failure to achieve the Guaranteed Availability, in accordance with Clause 8.12(a)(v). |
| **Basic Engineering Designs** | means the following designs and documents to be submitted by the Concessionaire and approved by the [*Executing Agency*] as a Condition Precedent: |
|  | (a) process description, process calculations,

<tr>
<td>Bid</td>
<td>means the bid consisting of the Qualification Proposal and the Financial Proposal submitted by a Bidder for qualification and award of the Project.</td>
</tr>
<tr>
<td>Bid Due Date</td>
<td>means the last date of submission of the Bids as set out in the RFP.</td>
</tr>
<tr>
<td>Bid Process</td>
<td>means the single-stage bidding process, with two sub-stages, undertaken by the [Executing Agency] to award the Project to the Selected Bidder on the terms and conditions set out in the RFP. The Bid Process commenced with the issuance of the RFP and ends on the Appointed Date.</td>
</tr>
<tr>
<td>Bid Price</td>
<td>means the price calculated for each Bidder, based on the values provided by such Bidder in the Bid Price Sheet, as a part of its Financial Proposal, to design, finance, develop, construct, rehabilitate, operate, and maintain the [Location] Facilities.</td>
</tr>
<tr>
<td>Bid Project Cost</td>
<td>means INR [<em><strong><strong><strong><strong><strong>] (Rupees [</strong></strong></strong></strong></strong></em>_______________]), being the cost of construction of the [Location] Facilities, as quoted by the Selected Bidder in its Bid, which includes the interest during construction, Taxes and all other pre-operative expenses in relation to the [Location] Facilities.</td>
</tr>
<tr>
<td>BOD</td>
<td>means biochemical oxygen demand.</td>
</tr>
<tr>
<td>Business Day</td>
<td>means any day other than Saturday, Sunday or any public holiday, on which the [Executing Agency] and the banks are open for business in [Location].</td>
</tr>
<tr>
<td>Capex Annuity</td>
<td>means the amount payable to the Concessionaire per quarter during the O&amp;M Period, towards reimbursement of [60% (sixty per cent)] of the [Location] Facilities Completion Cost.</td>
</tr>
<tr>
<td>Capital</td>
<td>means, in respect of the Concessionaire, the total capital of the Concessionaire that will be raised by the issuance of equity shares, preference shares and convertible instruments.</td>
</tr>
<tr>
<td>Change in Law</td>

</tr>
<tr>
<td>Commercial Operations Date or COD</td>
<td>means the date on which the COD Certificate is issued or deemed to be issued to the Concessionaire in accordance with Clause 7.15(a).</td>
</tr>
<tr>
<td>Companies Act</td>
<td>means the (Indian) Companies Act, 1956 or the (Indian) Companies Act, 2013, as amended from time to time, as the context may require.</td>
</tr>
<tr>
<td>Completion Cost</td>
<td>means the cost of completing the construction of the [Location] Facilities, as calculated in accordance with Clause 9.4(b).</td>
</tr>
<tr>
<td>Concessionaire</td>
<td>has the meaning ascribed to it in the array of Parties.</td>
</tr>
<tr>
<td>Concessionaire Applicable Permits</td>
<td>means the Applicable Permits which are required to be obtained and maintained by the Concessionaire to develop, operate and maintain the Facilities, as set out in Schedule 8.</td>
</tr>
<tr>
<td>Concessionaire Event of Default</td>
<td>has the meaning ascribed to it in Clause 16.1.</td>
</tr>
<tr>
<td>Concessionaire Related Parties</td>
<td>means any of the following: (a) the Selected Bidder or Associates of the Selected Bidder; (b) an officer, servant, employee or agent of the Concessionaire acting in that capacity; (c) any Subcontractor engaged by the Concessionaire and their directors, officers, servants, employees or agents acting in that capacity; or (d) any Person acting on behalf of the Concessionaire.</td>
</tr>
<tr>
<td>Concessionaire's Representative</td>
<td>means the Person nominated by the Concessionaire, from time to time, to act on its behalf and liaise with [Executing Agency] and [Name of the State / National Level Agency, if any] for the purposes of this Agreement and notified as such in writing to [Executing Agency] and [Name of the State / National Level Agency, if any].</td>
</tr>
<tr>
<td>Conditions Precedent</td>
<td>means collectively, the obligations of the Concessionaire that are set out at Clause 3.2, the obligations of [Executing Agency] that are set out at Clause 3.3 and the obligations of [Name of the State / National Level Agency, if any] that are set out at Clause 3.4, and 'Condition Precedent' means any one of these.</td>
</tr>
<tr>
<td>Confidential Information</td>
<td>means any part of this Agreement, or any information contained therein or any material provided to any Party pursuant to this Agreement, all of which information shall be deemed to be confidential, except to the extent that this Agreement otherwise requires.</td>
</tr>
<tr>
<td>Construction Completion Certificate</td>
<td>means the certificate issued by [Executing Agency] to the Concessionaire to certify completion of construction of the [Location] Facilities and the satisfaction of all other conditions required to be fulfilled by the Concessionaire in accordance with Clause 7.13(c).</td>
</tr>
<tr>
<td>Construction Completion Date</td>
<td>means the date on which the [Location] Facilities Construction Completion Certificate is issued or deemed to be issued to the Concessionaire, in accordance with Clause 7.13(c).</td>
</tr>
</tbody>
</table>
with Clause 7.13(c) (iii), and the reference to Construction Completion Date shall be construed accordingly.

Construction Payments
means, for each Facilities, the payments to be made to the Concessionaire during the Construction Period, upon satisfactory completion of the Payment Milestones, which shall, in aggregate, be equivalent to 40% of the Bid Project Cost, as adjusted from time to time to reflect the variation in the Construction Price Index.

Construction Period
has the meaning ascribed to it in Clause 7.1

Construction Plan
means the detailed construction plan for the [Location] Facilities to be prepared by the Concessionaire, which will set out the work to be performed by the Concessionaire to achieve each of the [Location] Facilities Payment Milestones, in a manner such that the Facilities are completed on or prior to the Scheduled Construction Completion Date. The Construction Plan shall be approved by [Executing Agency] in accordance with Clause 7.3.

Construction Price Index
shall comprise:
(a) 70% of WPI; and
(b) 30% of CPI(IW),
which constituents may be substituted by such alternative index or indices as the Parties may mutually agree.

Control
means, with respect to a Person:
(a) the ownership, directly or indirectly, of more than 50% of the voting shares of such Person; or
(b) the power, directly or indirectly, to direct or influence the management and policies of such Person by operation of law, contract or otherwise, and the term 'Controlled' shall be construed accordingly.

Cost
means all documented expenditure reasonably incurred by the Concessionaire, whether on or off the Site, including overhead and similar charges, but does not include profit.

CP Long-Stop Date
has the meaning ascribed to it in Clause 3.5(a)

CPI(IW)
means the Consumer Price Index for Industrial Workers published by the Labour Bureau, GoI and shall include any index which substitutes the CPI(IW), and any reference to CPI(IW) shall, unless the context otherwise requires, be construed as a reference to the CPI(IW) published on the last date of the preceding quarter.

Debt Due
means the aggregate of the following sums expressed in Rupees outstanding on the date of issuance of the Notice of Intent to Terminate:
(a) the principal amount of the debt provided by the Lenders under the Financing Documents for financing 45% of the Bid Project Cost but excluding any part of the principal that had fallen due for repayment 2 years prior to the date of the Notice of Intent to Terminate, as set out in the Financial Package;
(b) all accrued interest, financing fees and charges payable under the Financing Documents on, or in respect of, the debt referred to in (a) above until the date of the Notice of Intent to Terminate but excluding (i) any interest, fees or charges that had fallen due 1 year prior to the
date of the Notice of Intent to Terminate, (ii) any penal interest or charges payable under the Financing Documents to any Lender, and (iii) any pre-payment charges in relation to accelerated repayment of debt except where such charges have arisen due to an [Executing Agency] Event of Default or an [Name of the State / National Level Agency, if any] Event of Default; and

(c) any Subordinated Debt which is included in the Financial Package and disbursed by Lenders for financing the Bid Project Cost;

provided that if all or any part of the Debt Due is convertible into equity at the option of Lenders and/or the Concessionaire, it shall for the purposes of this Agreement be deemed to be Debt Due even after such conversion and the principal shall be dealt with as if such conversion had not been undertaken.

For the purpose of calculating Debt Due:

(i) the aggregate of the principal amounts of the debt provided by the Lenders under the Financing Documents shall, in no event, exceed 45% of the Bid Project Cost;

and

(ii) any amount of Debt Due in foreign currency as on the date of the Notice of Intent to Terminate shall be converted to Rupees at the exchange rate published on the official website of the Reserve Bank of India as at 12 noon on the relevant date.

<tr>
<td>'Discharge Point'</td>
<td>'Discharge Point' shall mean any of these.</td>
</tr>
<tr>
<td>Discharge Standards</td>
<td>means, for each [Location] Facilities, the minimum standards set out in the Technical Specifications that the Treated Effluent and Digested Sludge must comply with.</td>
</tr>
<tr>
<td>Dispute</td>
<td>has the meaning ascribed to it in Clause 21.1.</td>
</tr>
<tr>
<td>Dispute Meeting</td>
<td>has the meaning ascribed to it in Clause 21.1.</td>
</tr>
<tr>
<td>Dispute Notice</td>
<td>has the meaning ascribed to it in Clause 21.1.</td>
</tr>
<tr>
<td>Effective Date</td>
<td>means the date on which all the Conditions Precedent have been satisfied by [Executing Agency], [Name of the State / National Level Agency, if any] and the Concessionaire in accordance with this Agreement.</td>
</tr>
<tr>
<td>Emergency</td>
<td>means a condition or situation that endangers, or which in the reasonable opinion of [Executing Agency], the Project Engineer or the Concessionaire, may endanger the environment or lives or security of people at or around the Site or that poses an imminent threat of material damage to any property (including the Facilities) at or around the Site.</td>
</tr>
<tr>
<td>Encumbrance(s)</td>
<td>means mortgage, charge, pledge, lien (statutory or otherwise), assignment by way of security, hypothecation, right of set-off, trust, priority, retention of title or ownership or other security interest and any other agreement or arrangement having substantially the same effect.</td>
</tr>
<tr>
<td>EPA</td>
<td>means the Environment (Protection) Act, 1986, as amended from time to time.</td>
</tr>
<tr>
<td>EPA Rules</td>
<td>means the Environment (Protection) Rules, 1986, as amended from time to time.</td>
</tr>
<tr>
<td>Equity</td>
<td>means the sum expressed in INR, i.e. Indian National Rupee, representing the paid-up equity share capital of the Concessionaire for meeting the equity component of its financial obligations under this Agreement and the Financing Documents, which, for the purpose of this Agreement, shall include convertible instruments that shall compulsorily convert into equity share capital and any loans provided by any shareholder of the Concessionaire.</td>
</tr>
<tr>
<td>Escrow Account</td>
<td>means the interest-bearing account opened by [Name of the State / National Level Agency, if any] with the Escrow Bank in accordance with the Escrow Agreement, which shall be operational until the expiry of the Term.</td>
</tr>
<tr>
<td>Escrow Agreement</td>
<td>means the agreement to be executed among [Executing Agency], [Name of the State / National Level Agency, if any], the Concessionaire, and the Escrow Bank in relation to the opening and operations of the Escrow Account, in the form set out at Schedule 3.</td>
</tr>
<tr>
<td>Escrow Bank</td>
<td>means the Scheduled Bank with which [Name of the State / National Level Agency, if any] opens the Escrow Account, pursuant to the Escrow Agreement.</td>
</tr>
<tr>
<td>ESHS</td>
<td>means Environment, Social, Health and Safety requirements, including any requirements, which the Concessionaire is required to comply with in developing, renovating, operating and maintaining the Facilities, as set out in Schedule 9.</td>
</tr>
<tr>
<td>ESHS Documents</td>
<td>means, collectively, the Safeguard Documents and Safety Documents prepared by the Concessionaire and approved by [Executing Agency] in accordance with Clause 7.4.</td>
</tr>
<tr>

</tr>
</tbody>
</table>
| Related Parties | means any of the following:  
(a) an officer, servant, employee or agent of [Executing Agency], acting in that capacity;  
(b) any contractor or subcontractor of [Executing Agency] and their directors, officers, servants, employees or agents, acting in that capacity; or  
(c) any Person acting on behalf of [Executing Agency].  
For the avoidance of doubt, [Executing Agency] Related Parties' does not include the Concessionaire or [Name of the State / National Level Agency, if any]. |
| Representative | means any officer nominated by [Executing Agency], from time to time, to act on its behalf and liaise with the Concessionaire and [Name of the State / National Level Agency, if any] for the purposes of this Agreement and notified as such in writing to the Concessionaire and [Name of the State / National Level Agency, if any] in accordance with the Clause 7.8 (d). |
| Expiry Date | means the date occurring after the expiry of [15 (fifteen)] years from the COD. |
| Facilities | (or the [Location] Facilities) means collectively, the [Location] STP(s), the [Location] FSTP(s), the online monitoring system for STP(s), Sewage pumping station(s) and FSTP(s), the on-site testing laboratory facilities, and such other facilities associated with the [Location] STP(s) and [Location] FSTP(s), and its Associated Infrastructure, or under any schedule, required to be set up by the Concessionaire, as described in greater detail in the Scope of Work and Technical Specifications, and infrastructure facilities associated with [Location] STP(s) and [Location] FSTP(s), including but not limited to Sewage pumping stations (including main pumping stations, intermediate pumping stations and any other pumping stations), the rising mains, plant lighting, ancillary power requirement, power plant if provided or existing, other non-functional buildings such as administration building, staff quarters, common areas etc., as described in greater details in technical specifications of each STP/FSTP in relevant Facilities Schedule, which need to be constructed and/or renovated and/or operated and maintained by the Concessionaire in accordance with this Agreement. |

\[4^*Delete if not applicable\]
| **Faecal Sludge** | means raw or partially digested, in a slurry or semisolid form, the collection, storage or treatment of combinations of excreta and black water, with or without grey water. It is the solid or settled contents of pit latrines and septic tanks. The physical, chemical and biological qualities of faecal sludge are influenced by the duration of storage, temperature, soil condition, and intrusion of groundwater or surface water in septic tanks or pits, performance of septic tanks, and tank emptying technology and pattern. Faecal sludge is the solid or settled contents of pit latrines and septic tanks. Faecal Sludge comes from onsite sanitation systems. Examples of onsite technologies include pit latrines, non-sewered public ablation blocks, septic tanks, aqua privies, and dry toilets. |
| **Financial Assistance** | means all funded and non-funded financial assistance, including loans, advances and guarantees or any re-financing that the Concessionaire may avail of for the Project from the Lenders. |
| **Financial Capacity** | means the financial capacity and strength of the \([\text{Selected Bidder/Member(s)}]^{5}\) determined in accordance with the RFP. |
| **Financial Close** | means, the date on which the Financing Documents become effective, the conditions precedent under the Financing Documents for disbursements are fulfilled and the Concessionaire has access to the Financial Assistance. |
| **Financial Package** | means the financing package indicating the means of financing the Facilities, and includes all Financial Assistance specified in the Financing Documents, the Equity and the Subordinated Debt, if any. |
| **Financial Proposal** | means the financial proposal submitted by the Selected Bidder in accordance with the RFP for undertaking the Project. |
| **Financial Year** | means each 12 (twelve) month period commencing on 1 April of one calendar year and ending on 31st (thirty first) March of the next calendar year; and if different for a company, then the 12 (twelve) month period for which such company files its statutory audited accounts in the normal course of its business. |
| **Financing Documents** | means, collectively, the documents entered into or to be entered into by the Concessionaire with the Lenders, in respect of all funded and non-funded financial assistance, including loans, advances and or any refinancing that the Concessionaire may avail of for the Project from the Lenders and includes any document providing Security to the Lenders. |
| **First Breach** | has the meaning ascribed to it in Clause 8.12(b)(iii)(A). |
| **First Breach Notice** | has the meaning ascribed to it in Clause 8.12(b)(iii)(A). |
| **FM Notice** | has the meaning ascribed to it in Clause 14.2(a). |
| **Force Majeure Event** | means a Non-Political Force Majeure Event, an Indirect Political Force Majeure Event or a Direct Political Force Majeure Event, as the case may be. |
| **Forced Unavailability** | means an interruption of or a reduction in the Availability of any Facilities that is the result of: (a) a maximum capacity utilization of such Facilities, as notified by the Concessionaire to [Executing Agency] in accordance with Clause 8.9; (b) a suspension of the performance of the O&M services for such Facilities pursuant to Clause 15.1(a)(i) or Clause 15.2(a)(i), to the extent any such event is not attributable to the Concessionaire; or |

---

5 Delete Member(s) if the Selected Bidder is a single entity.
(c) a suspension of the operation of any Facilities pursuant to any order or instruction from the relevant Government Authority restricting the discharge of the Treated Effluents from such Facilities at the relevant Discharge Point; or
(d) unavailability or breakdown of the Supporting Infrastructure for such Facilities.

<td>has the meaning ascribed to it in Clause 7.12(e).</td>
</tr>
<tr>
<td>Guaranteed Availability</td>
<td>has the meaning ascribed to it in Clause 8.12(a)(i).</td>
</tr>
<tr>
<td>Guaranteed Energy Consumption</td>
<td>means the maximum number of units of power (in kWh) per MLD quoted by the Selected Bidder in the Financial Proposal, which it expects to consume during the O&amp;M Period (other than any units expected to be generated and consumed from the Power Plant), to operate and maintain the [Location] Facilities, at varying volumes and BOD of Sewage/Faecal Sludge/Septage. The Guaranteed Energy Consumption for any quarter during the O&amp;M Period will be determined</td>
</tr>
</tbody>
</table>

ªName of the State Government
on the basis of the number of units of power (in kWh) per MLD quoted by the Selected Bidder in the Financial Proposal for the average volume and BOD of Sewage and Faecal Sludge and Septage treated at the [Location] STP(s) and [Location] FSTP(s) in such quarter (such average to be calculated in accordance with the KPI Adherence Report).

**Hand-back Conditions**

mean the condition in which the Site, the Facilities, and the Power Plant, if any, shall be handed back to [Executing Agency] or any entity nominated by [Executing Agency] on expiry or early termination of this Agreement, which is consistent with the due performance of the Concessionaire's obligations under this Agreement and are described in greater detail in the Technical Specifications.

**Hand-back Requirements**

means the obligations of the Concessionaire in relation to transfer of the Facilities upon expiry or early termination of the Project, as set out in Clause 19.3.

**Indirect Political Force Majeure Events**

has the meaning ascribed to it in Clause 14.1(b)(ii).

**Influent Standards**

means the permissible standards and characteristics for the incoming Sewage for each STP, and incoming Faecal Sludge/Septage for each FSTP, set out in the Technical Specifications.

**Inlet Point**

means the point mutually agreed to between [Executing Agency] and the Concessionaire at the [Location] STP and [Location] FSTP where: (a) the Sewage sample or Faecal Sludge/Septage sample, as the case may be, shall be drawn to test compliance with the Influent Standards; and (b) meters shall be installed for the purpose of determining the volume and concentration of the Sewage/Faecal Sludge/Septage, as the case may be, delivered at the [Location] Facilities.

**Intellectual Property Rights**

means patents, copyrights, database rights, design rights, trade marks, trade names, domain names, rights in reputation, rights in undisclosed or confidential information (such as know-how, trade secrets and inventions, whether patentable or not), and other rights of a like nature (whether registered or unregistered) and all applications for such rights as may exist anywhere in the world.

**Invoice**

means an invoice for payment of: (a) the Construction Payments during the Construction Period; or (b) the Capex Annuity (along with interest), the O&M Charges and the Power Charges during the O&M Period, submitted by the Concessionaire to [Executing Agency] (with a copy to [Name of the State / National Level Agency, if any]) in accordance with Article 9.

**KPI Adherence Report**

has the meaning ascribed to it in Clause 8.12(b)(vi).

**KPIs**

means the key performance indicators set out in Schedule 10, which the Facilities must achieve during the O&M Period.

**Lead Member**

[means the Member nominated by the Members of the Selected Bidder to act as the lead member in accordance with the RFP.]^{7}

**Lenders**

includes banks, financial institutions, funds and agents or trustees of debenture

---

^{7} To be deleted if the Selected Bidder is not a Consortium.

</table>
| Mo----                                    | means the Ministry of -------

8 To be deleted if the Selected Bidder is not a Consortium.
9 To be deleted if not applicable.
of a:

(a)  **Company**, means
   (i) subscribed and paid up equity share capital; and
   (ii) reserves

   **LESS**
   (iii) revaluation reserves;
   (iv) miscellaneous expenditure not written off;
   (v) reserves not available for distribution to equity shareholders; and
   (vi) aggregate value of accumulated losses.

(b)  **trust or society**, means the sum of available corpus and reserves;

(c)  **partnership firm**, means the sum of the partners' capital account and undistributed profits;

(d)  **limited liability partnership**, means the sum of partners' capital account and undistributed profits as per the 'Statement of Account' prepared as per Limited Liability Partnership Rules, 2009;

(e)  **sole proprietorship**, means the value of all assets minus liabilities of the proprietorship but does not include the personal assets or liabilities of the sole proprietor; and

(f)  **individual**, means the sum of the value of all unencumbered assets owned by the individual minus the sum of the value of all liabilities of the individual.

### [Name of the State / National Level Agency, if any]

has the meaning ascribed to it in array of Parties.

### [Name of the State / National Level Agency, if any] Event of Default

has the meaning ascribed to it in Clause 16.4.

### [Name of the State / National Level Agency, if any] Related Parties

means any of the following:

(a) an officer, servant, employee or agent of [Name of the State / National Level Agency, if any], acting in that capacity;

(b) any contractor or subcontractor of [Name of the State / National Level Agency, if any] and their directors, officers, servants, employees or agents, acting in that capacity; or

(c) any Person acting on behalf of [Name of the State / National Level Agency, if any].

For the avoidance of doubt, '[Name of the State / National Level Agency, if any] Related Parties' does not include the Concessionaire or [Executing Agency].

### [Name of the State / National Level Agency, if any]'s Representative

means any officer nominated by [Name of the State / National Level Agency, if any], from time to time, to act on its behalf and liaise with the Concessionaire and [Executing Agency] for the purposes of this Agreement and notified as such in writing to the Concessionaire and [Executing Agency] in accordance with Clause 7.9 (c).
| **Nominated FSTP Sub-Contractor**<sup>10</sup> | means a sub-contractor nominated by the Concessionaire, in accordance with Clause 4.1(a)(F)(ii) and 4.1(b)(ii) of this RFP, for construction and operation and maintenance of FSTP(s) for the Project. |
| **Nominated STP Sub-Contractor**<sup>11</sup> | means a sub-contractor nominated by the Concessionaire, in accordance with Clause 4.1(a)(F)(ii) and 4.1(b)(ii) of this RFP, for construction and operation and maintenance of STP(s) for the Project. |
| **Non-Political Force Majeure Event** | has the meaning ascribed to it in Clause 14.1(b)(i). |
| **Notice of Arbitration** | has the meaning ascribed to it in Clause 21.2.1 |
| **Notice of Intent to Terminate** | means a notice of intent to terminate issued by [Executing Agency] in case of a Concessionaire Event of Default (in accordance with Clause 16.2) or a notice of intent to terminate issued by the Concessionaire in case of a [Executing Agency] Event of Default or an [Name of the State / National Level Agency, if any] Event of Default (in accordance with Clause 16.5), stating its intention to terminate this Agreement. |
| **O&M** | means operation and maintenance. |
| **O&M Charges** | means the amount required by the Concessionaire per quarter to operate and maintain the [Location] Facilities, excluding the Power Charges, during the O&M Period. The O&M charges for the first quarter after the COD will be determined on the basis of the O&M charges quoted by the Selected Bidder (in the Financial Proposal) for the first month from the COD, which amount shall then be adjusted to reflect the variation in the O&M Price Index. |
| **O&M Manual** | means the manual, required to be prepared by the Concessionaire and approved by [Executing Agency] for the operation and maintenance of the Facilities in accordance with Clause 8.2. |
| **O&M Payments** | means, for each Facilities, collectively the: (a) Capex Annuity; (b) interest on the reducing balance of [60% (sixty per cent)] of the Completion Cost; (c) O&M Charges; and (d) Power Charges (subject to the cap of the Power Charges based on the [Location] Facilities Guaranteed Energy Consumption), to be paid by [Name of the State / National Level Agency, if any] to the Concessionaire during the O&M Period, in accordance with this Agreement. |
| **O&M Period** | means the period commencing from the COD and ending on the Expiry Date, during which the Concessionaire is required to operate and maintain the Facilities. |
| **O&M Price Index** | shall comprise:  
(a) 70% of CPI(IW); and  
(b) 30% of WPI,  
which constituents may be substituted by such alternative index or indices as the Parties may mutually agree. |
| **O&M Security** | has the meaning ascribed to it in Clause 5.5. |
| **Online Monitoring System** | means the monitoring system(s) to be set up by the Concessionaire as part of the Facilities for continuous monitoring of the volume, specifications and characteristics of the Sewage, Faecal Sludge/Septage and the Treated Effluent. |

<sup>10</sup>To be deleted if not applicable  
<sup>11</sup>To be deleted if not applicable
| **Outlet Point** | means the outlet of the [Location] STP and [Location] FSTP where the sample of the Treated Effluent shall be drawn periodically to test compliance with the Discharge Standards. |
| **Payment Certificate** | has the meaning ascribed to it in Clause 9.3(e)(v) for Construction Payments and Clause 9.4(k) for O&M Payments. |
| **Payment Milestones** | means the milestones listed in Clause 9.3(e) for release of the Construction Payments to the Concessionaire, and ‘Payment Milestone’ shall mean any one of them, as the context may require. |
| **Performance Liquidated Damages** | means the liquidated damages payable by the Concessionaire to [Executing Agency] for a failure to meet the Discharge Standards, in accordance with Clause 8.12(b)(iii). |
| **Performance Security** | has the meaning ascribed to it in Clause 5.1. |
| **Person** | means any individual, company, corporation, partnership, joint venture, trust, society, sole proprietor, limited liability partnership, co-operative society, government company, unincorporated organization or any other legal entity. |
| **Phase I Designs and Drawings** | means: (a) the Basic Engineering Designs; (b) the Screening Report and (c) the detailed ‘good for construction’ designs and drawings, technical information, plans, samples, patterns, models and specifications for the works required for achieving the first Payment Milestone. |
| **Phase II Designs and Drawings** | means the detailed ‘good for construction’ designs and drawings, technical information, plans, samples, patterns, models and specifications for the works required for achieving the second, third and fourth Payment Milestones. |
| **Power Charges** | means the cost of the power consumed by the Concessionaire to operate and maintain the [Location] Facilities during the O&M Period, which will be calculated on the basis of the prevailing Power Unit Rate, the Fuel Price, to the extent applicable and such other applicable charges as per the guidelines of the relevant Government Authorities. |
| **Power Consumption Liquidated Damages** | has the meaning ascribed to it in Clause 9.4(g)(ii)(C). |
| **Power Outage** | means any interruption in the supply of electricity from the grid or any Diesel-Generators (DG) Sets maintained by the Concessionaire at the Site, which disrupts the continuous operation of any Facilities. |
| **Power Plant** | means a biogas power plant or a rooftop solar plant that the Concessionaire is decides to set up at the relevant Site as part of the Project, for production of clean energy. |
| **Power Unit Rate** | means the cost per unit of power drawn from the grid (through the relevant distribution licensee for the Site), which will be the prevailing tariff per unit of power charged by the relevant distribution licensee in the relevant month during the O&M Period. |
| **PPP** | means public private partnership. |
| **Price Index** | means, for the Construction Payments, the Construction Price Index, and for the O&M Payments, the O&M Price Index. |
| **Price Index Multiple** | means, the variation multiple in the Price Index occurring between the Reference Index Date preceding the Bid Due Date and the Reference Index Date preceding |
the date of the Invoice, which is calculated by dividing the Price Index on the Reference Index Date preceding the date of the Invoice by the Price Index on the Reference Index Date preceding the Bid Due Date.

For the avoidance of doubt and by way of illustration, if (a) the Price Index on the Reference Index Date preceding the Bid Due Date, say 30 May, 2018, is 200; (b) the Invoice is submitted on 15 April, 2020; and (c) the Price Index as on 31 March, 2020 is 210, then the Price Index Multiple for determination of the amount due in respect of such Invoice shall be 1.05.

<td>means the Bidder selected by [Executing Agency] for award of the Project.</td>
</tr>
<tr>
<td><strong>Septage</strong></td>
<td>means the liquid and solid material that is pumped from a septic tank, cesspool, or such onsite treatment Facilities after it has accumulated over a period of time. Usually, septic tank retains 60% - 70% of the solids, oil, and grease that enter it. The scum accumulates on the top and the sludge settles to the bottom comprising 20% - 50% of the total septic tank volume when pumped. Offensive odour and appearance are the most prominent characteristics of Septage. It is a host of many disease-causing organisms along with the contamination of significant level of grease, grit, hair, and debris. Septage is the combination of scum, sludge, and liquid that accumulates in septic tanks. The effluent from the septic tank can be collected in a network of drains and/or sewers and treated in a treatment plant designed appropriately. The accumulating sludge at the bottom of the septic tank however, has to be also removed and treated once it has reached the designed depth or at the end of the designed desludging frequency whichever occurs earlier. Such a removal is possible only by trucks. While sucking out the sludge, the liquid in the septic tank will also be sucked out. Such a mixture is referred to as septage.</td>
</tr>
<tr>
<td><strong>Sewage</strong></td>
<td>means the sewage that is in liquid, solid or semi-solid form and brought for treatment to the Facilities.</td>
</tr>
<tr>
<td><strong>Site</strong></td>
<td>(or the [Location]Facilities Sites) means the location for the [Location] Facilities, admeasuring [Area Available for Construction of STP/FSTP Facilities] in [Location], as set out in more detail in the [Location] Project Information Memorandum provided.</td>
</tr>
<tr>
<td><strong>Sq. ft.</strong></td>
<td>means square feet.</td>

Website means the web portal of [Executing Agency], available at the url: http://---------

Wilful Misconduct means an intentional or reckless breach or disregard by a Party of any of its obligations under this Agreement.

WPI means the Wholesale Price Index for all commodities as published by the Ministry of Commerce and Industry, GOI and shall include any index which substitutes the WPI, and any reference to WPI shall, unless the context otherwise requires, be construed as a reference to the WPI published for the period ending with the preceding month.

1.2 Rules of Interpretation

In this Agreement, unless the context otherwise requires:

(a) Any reference to a statutory provision shall include such provision as modified or re-enacted or consolidated from time to time.

(b) The words importing the singular shall mean the plural and vice-versa; and words importing the masculine shall include the feminine and neuter and vice-versa.

(c) Headings in this Agreement are for convenience of reference only.

(d) The references to the word 'include' or 'including' or to the phrase 'in particular', shall be construed without limitation.

(e) References to any date or time of day are to Indian Standard Time; any reference to day shall mean a reference to a calendar day; any reference to a month shall mean a reference to a calendar month, any reference to a year shall mean a reference to a calendar year.

(f) The references to any agreement, deed or other instrument shall be construed as a reference to such agreement, deed, or other instrument as may be amended, varied, supplemented or novated, from time to time.

(g) Unless otherwise provided, any late payment charges to be calculated and payable under this Agreement shall accrue pro rata on a monthly basis and from the respective due dates as provided for in this Agreement.

(h) A requirement that a payment be made on a day which is not a Business Day shall be construed as a requirement that the payment be made on the next Business Day.

(i) Whenever provision is made for the giving or issuing of any notice, endorsement, consent, approval, permission, certificate or determination by any Person, such notice, etc., shall be reasonably given, shall not be unreasonably withheld or delayed and shall be in writing and the words 'notify', 'endorse', 'approve', 'permit', 'certify' or 'determine' shall be construed accordingly. Where any notice, consent or approval is to be given by any Party, the notice, consent or approval shall be given on their behalf only by any
authorized persons.

(j) The words written and in writing include a facsimile transmission and any means of reproducing works in a tangible and permanently visible form.

(k) The terms of the RFP form an integral part of this Agreement and will be in full force and effect as though they were expressly set out in the body of this Agreement. In the event of any discrepancy between this Agreement and the RFP, the provisions set out in this Agreement shall prevail.

(l) The provisions of the Articles, Clauses and the Schedules of this Agreement shall be interpreted in such a manner that will ensure that there is no inconsistency in interpretation between the intent expressed in the Articles, Clauses and the Schedules.

(m) In the event of any ambiguities or discrepancies within this Agreement, the following shall apply:

(i) between two Clauses of this Agreement, the provisions of the specific Clause relevant to the issue under consideration shall prevail over those in other Clauses;
(ii) between the requirements of two or more Schedules of this Agreement, the provisions of the specific Schedule relevant to the issue under consideration shall prevail over the more general; and
(iii) between the Clauses and the Schedules, unless specified otherwise, the Clauses shall prevail over the Schedules.

(n) In the event of any discrepancy between various documents issued by or provided to [Executing Agency] as a part of the Bid Process, the following order of priority shall apply:

(i) this Concession Agreement;
(ii) the Schedules to the Concession Agreement;
(iii) the Financial Proposal submitted by the Selected Bidder;
(iv) the LOA issued to the Selected Bidder;
(v) the written clarifications, if any, issued to the bidders; and
(vi) the RFP.

(o) Subject to the provisions of this Agreement, the Concessionaire shall be responsible to and indemnify, [Executing Agency] and [Name of the State / National Level Agency, if any] for the acts and omissions of the Concessionaire Related Parties as if they were the acts and omissions of the Concessionaire and [Executing Agency] and [Name of the State / National Level Agency, if any] shall be responsible to and indemnify the Concessionaire for the acts and omissions of [Executing Agency] Related Parties and the [Name of the State / National Level Agency, if any] Related Parties, respectively, as if they were the acts and omissions of [Executing Agency] or [Name of the State / National Level Agency, if any], as the case may be.

(p) Neither the giving of any approval or consent, the review, knowledge or acknowledgement of the terms of any document by or on behalf of [Executing
Agency] or [Name of the State / National Level Agency, if any], nor the failure to do so, shall, unless expressly stated in this Agreement, relieve the Concessionaire of any of its obligations under this Agreement or of any duty which it may have under this Agreement to ensure the correctness, accuracy or suitability of the matter or thing which is the subject of the approval, consent, review, knowledge or acknowledgement.

(q) The rule of construction, if any, that an agreement should be interpreted against the Party responsible for the drafting and preparation thereof shall not apply to this Agreement.

(r) The Parties acknowledge that damages for specific defaults prescribed under this Agreement (including the Delay Liquidated Damages, the Performance Liquidated Damages, the Availability Liquidated Damages, and the Power Consumption Liquidated Damages) are a genuine pre-estimate of and reasonable compensation for the loss and damage that shall be suffered by the non-defaulting Party due to failure of the defaulting Party to perform its obligations in accordance with this Agreement, and are not in the nature of a penalty.

1.3 Units of Measurement

All measurements and calculations shall be in the metric system and calculations done to 4 decimal places, with the 5th digit of 5 or above being rounded up and below being rounded down.
ARTICLE 2
SCOPE OF THE PROJECT AND GRANT OF THE CONCESSION

2.1 Scope of the Project

The scope of the Project shall be as set out in Schedule 1 and shall include:

(a) designing, part-financing, constructing and completing the Facilities by the Scheduled Construction Completion Date, in accordance with Applicable Laws, Applicable Permits, Technical Specifications, Designs and Drawings, the Construction Plan, the ESHS Documents and Good Industry Practices;

(b) operating and maintaining the Facilities in accordance with Applicable Laws, Applicable Permits, Technical Specifications, Designs and Drawings, the O&M Manual, the ESHS Documents and Good Industry Practices to ensure compliance with the KPIs;

(c) disposal/sale of by-products and treated effluent; and

(d) hand-back of the Facilities (excluding the Mobile Associated Infrastructure) upon expiry or early termination of this Agreement in accordance with the Hand-back Conditions and the Hand-back Requirements.

2.2 Grant of Concession

(a) On and from the Effective Date and subject to the terms of this Agreement, Applicable Laws and Applicable Permits, [Executing Agency] grants to the Concessionaire the exclusive right to:

(i) design, part-finance, construct and complete the Facilities; and

(ii) upon completion of construction of the Facilities, operate and maintain the Facilities during the O&M Period.

Notwithstanding anything contained herein, to the extent of applicability of Clause 7.1, the Concessionaire shall be entitled to access the Site prior to the Effective Date.

(b) The grant of the concession set out in Clause 2.2(a) shall oblige or entitle the Concessionaire, as the case may be, to the following:

(i) access to the Site from the Effective Date, for the sole purpose of implementing the Project, provided, however, to the extent of applicability of Clause 7.1, the Concessionaire shall be entitled to access the Site prior to the Effective Date;

(ii) apply for and obtain all the Concessionaire Applicable Permits and utilities required to undertake the Project;

(iii) raise funds (through both debt and equity financing) to finance [60% (sixty per
(iv) complete the construction of the Facilities on or before the Scheduled Construction Completion Date;

(v) upon completion of construction of the Facilities, undertake Trial Operations;

(vi) upon successful completion of the Trial Operations, operate and maintain the Facilities until Expiry Date;

(vii) receive, treat and process Sewage up to the Design Capacity;

(viii) store, treat, market, sell or dispose of the STP By-Products and FSTP By-Products subject to and in accordance with this Agreement;

(ix) store, treat or dispose of the Treated Effluent subject to and in accordance with this Agreement;

(x) transfer the Facilities (excluding the Mobile Associated Infrastructure) to [Executing Agency] upon the expiry of the Term or termination of this Agreement, after rectification of any defects in the Facilities, in accordance with the Hand-back Conditions and the Hand-back Requirements;

(xi) receive the Construction Payments during the Construction Period and the O&M Payments during the O&M Period, subject to compliance with the terms and performance of the obligations under this Agreement;

(xii) appoint Subcontractors, agents, advisors and consultants and enter into Subcontracts to undertake the Project, with the prior approval of [Executing Agency];

(xiii) [construct a biogas Power Plant at [Location]Facilities Sites.]¹⁵

(xiv) [construct a solar rooftop Power Plant at the [Location]Facilities Sites, at its sole option and discretion];

(xv) develop, operate and maintain faecal sludge collection and transportation system, including vehicles, contractors, human resources, complaint centre and helpline, etc.;

(xvi) collect nominal user fee as mutually decided between the Concessionaire and the [Executing Agency] for extraction/suction/clearing of septic tanks of households, offices, commercial spaces, etc., on call/complaint basis.

2.3 Description of the Facilities

¹⁵ Delete if not applicable
(a) The Facilities shall include the [Location] STP(s) and [Location] FSTP(s) along with the Associated Infrastructure, the Online Monitoring Systems, the on-site testing laboratory facilities, temporary storage facilities for the Digested Sludge and all other such facilities necessary or associated with the STP and FSTP for treatment, processing and disposal of the Sewage and Faecal Sludge/Septage, as the case may be, as described in greater detail in Schedule 1 (Scope of Work) and Schedule 12 (Technical Specifications).

(b) The Concessionaire shall operate the Facilities and treat the Sewage and the Faecal Sludge/Septage in a manner such that the KPIs are achieved, and the Treated Effluent and Digested Sludge comply with the Discharge Standards.

(c) The STP By-Products and FSTP By-Products will be bifurcated into the Screenings, the Digested Sludge and the Residual Grit. The Concessionaire will be required to dispose the STP By-Products and FSTP By-Products and silt as follows:

(i) the Residual Grit, the Screenings, and the silt will be disposed at the relevant Waste Disposal Site to be identified by [Executing Agency] within a radius of 10 km from the relevant Site, in accordance with the Technical Specifications; and

(ii) The Concessionaire shall dry the Digested Sludge at a sludge handling Facilities available at or to be provided by the Concessionaire at the relevant Site. The Concessionaire shall, subject to compliance with Applicable Laws and Applicable Permits, be free to sell the Digested Sludge, at such price and to such Persons as it may deem fit or dispose the Digested Sludge at the Waste Disposal Sites. Provided that if the Concessionaire sells the Digested Sludge to any third party, the Concessionaire shall be required to share 10% (ten per cent) of the revenues from such sale with [Executing Agency].

(d) The Concessionaire shall transfer the Treated Effluent to the Discharge Point, for discharge in to the ---------------- 16, sale to third parties or utilization for irrigation purposes. Provided that if the Concessionaire sells the Treated Effluent to any third party, the Concessionaire shall be required to share [10% (ten per cent)] of the revenues from such sale with [Executing Agency].

2.4 Use of Proposed Technology

(a) The Concessionaire shall design and develop the [Location] STP(s) and the [Location] FSTP(s) on the basis of the Proposed Technology, approved by [Executing Agency] as part of the Designs and Drawings.

(b) If the Selected Bidder is the owner of the Proposed Technology, then the Concessionaire shall enter into a technology license agreement with the Selected Bidder, under which the Selected Bidder will grant to the Concessionaire an irrevocable, perpetual, assignable, non-exclusive and royalty-free license to use the

16Name of the water body/source if any. Otherwise to be suitably modified.
Proposed Technology to develop and operate the Facilities.

(c) If the Selected Bidder does not own the Proposed Technology, then the Concessionaire shall, at its own cost, enter into a technology license agreement with the technology provider, under which the technology provider will grant to the Concessionaire an irrevocable, perpetual, assignable and royalty-free license to use the Proposed Technology. At no point will [Executing Agency] or [Name of the State / National Level Agency, if any] be obliged to make any payments to the Concessionaire towards the licensing and use of the Proposed Technology.

In the event of the Selected Bidder opting for a technology other than those mentioned in the Central Public Health and Environmental Engineering Organisation (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, in accordance with Clause 4.1(a)(F)(ix) of the RFP, the technology provider shall have submitted to [Executing Agency], prior to the Appointed Date, the Technology Performance Security of 5% (five per cent) of the Aggregate Bid Project Cost, which shall remain valid until 2 years from the COD. If the technology provider leaves the project before the completion of 2 years, the Technology Performance Security shall be liable to be forfeited by [Executing Agency]. Any modification required to make the plant operational in the absence of the technology provider, as suggested and approved by [Executing Agency], shall be undertaken by the Selected Bidder at his own risk. Any failure to meet the requirements as mentioned in the Clause shall be considered as a Concessionaire Event of Default.

(d) Upon the expiry or early termination of this Agreement, the Concessionaire shall assign the license and related rights to use the Proposed Technology for the sole purpose of operating and maintaining the [Location] STP(s) and [Location] FSTP(s) to [Executing Agency] at no additional cost to [Executing Agency].

(e) The Concessionaire shall indemnify [Executing Agency] and [Name of the State / National Level Agency, if any] for any claims, losses, damages and costs suffered by [Executing Agency] and/or [Name of the State / National Level Agency, if any] as a result of an infringement of any third party's Intellectual Property Rights caused by the operation and use of the [Location] STP(s) and the [Location] FSTP(s).
ARTICLE 3
CONDITIONS PRECEDENT, EFFECTIVENESS AND TERM

3.1 Effectiveness

(a) The day on which all of the Conditions Precedent have been satisfied in accordance with this Article 3 shall be the effective date (the “Effective Date”).

(b) Articles 2.1, 2.2, 3, 5, 6, 10, 11.1, 12, 13, 14, 21, 22 and 23 and the related Schedules, shall come into full force and effect and be binding on the Parties on and from the Appointed Date and continue until such time as this Agreement expires or is terminated in accordance with its terms. The other provisions of this Agreement shall come into full force and effect and be binding on the Parties on and from the Effective Date and continue until such time as this Agreement expires or is terminated in accordance with its terms.

3.2 Conditions Precedent to be satisfied by the Concessionaire

The Concessionaire shall satisfy the following Conditions Precedent (if not already fulfilled on the Appointed Date):

(a) submit the Phase I Designs and Drawings to [Executing Agency] for its approval in accordance with Clause 7.2;

(b) prepare the Construction Plan within 30 (thirty) days from the Appointed Date and submit the Construction Plan to [Executing Agency] for its approval in accordance with Clause 7.3;

(c) prepare the ESHS Documents within 45 (forty-five) days from the Appointed Date and submit the ESHS Documents to [Executing Agency] for its approval in accordance with Clause 7.4;

(d) obtain all Concessionaire Applicable Permits that are required for achieving Financial Close and for commencement of construction of the Facilities at its own cost and expense and if such Concessionaire Applicable Permits are subject to any conditions, then, to the extent relevant, comply with all such conditions, such that the Concessionaire Applicable Permits are and shall be kept in full force and effect for the entire Construction Period, or such longer period as may be required under Applicable Laws;

(e) execute and provide a copy to [Executing Agency] of the technology license agreement(s) executed with the Selected Bidder or the third party technology supplier for setting up the [Location] STP(s) and the [Location] FSTP(s).

(f) submit to [Executing Agency] certified true copies of all resolutions adopted by the board of directors of the Concessionaire authorising execution, delivery and performance of this Agreement, Substitution Agreement and the Escrow Agreement by the Concessionaire;
(g) execute the Substitution Agreement with [Executing Agency], [Name of the State / National Level Agency, if any] and the Lenders in the agreed form set out in Schedule 2;

(h) achieve Financial Close and submit a copy of the Financing Documents and the Financial Package to [Executing Agency], duly certified by a director of the Concessionaire;

(i) [execute a shareholders' agreement amongst the shareholders of the Concessionaire, and deliver to [Executing Agency] a certified true copy of the shareholders' agreement (attested by a director of the Concessionaire)];

[j] execute the Escrow Agreement with [Executing Agency], [Name of the State / National Level Agency, if any], and the Escrow Bank in the agreed form set out in Schedule 3;

(k) submit to [Executing Agency] certified true copies of the constitutional documents of the Concessionaire;

(l) submit to [Executing Agency] a legal opinion stating that: (i) this Agreement, the Substitution Agreement and the Escrow Agreement have been duly executed and are legally valid, binding and enforceable in accordance with their terms against the Concessionaire; and (ii) all actions, conditions and things required by Applicable Laws to be taken, fulfilled and done (including the obtaining of any necessary Concessionaire Applicable Permits and resolutions of the board of directors) in order for the Concessionaire to enter into and comply with its obligations under this Agreement, the Substitution Agreement and the Escrow Agreement have been taken, fulfilled or done;

(m) submit to [Executing Agency] a certificate, duly attestated by a director, certifying the shareholding pattern of the Concessionaire.

3.3 Conditions Precedent to be satisfied by [Executing Agency]

[Executing Agency] shall satisfy the following Conditions Precedent (if not already fulfilled on the Appointed Date):

(a) grant access to the [Location] Facilities Sites and all necessary rights of way to the [Location] Facilities Sites to the Concessionaire, free of Encumbrances and encroachments;

(b) to the extent relevant, obtain any change in land use permission from the relevant Government Authority to enable the Concessionaire to undertake the Project at the Site;

(c) subject to Clause 3.2(a), review and approve the Phase I Designs and Drawings in accordance with Clause 7.2;

17 This Condition Precedent to be deleted if the Selected Bidder is not a Consortium.
(d) subject to Clause 3.2(b), review and approve the Construction Plan in accordance with Clause 7.3;

(e) subject to Clause 3.2(c), review and approve the ESHS Documents in accordance with Clause 7.4;

(f) obtain all approvals and consents, including [Executing Agency] Applicable Permits and any approvals under Applicable Laws required for [Executing Agency] to enter into this Agreement and undertake the Project;

(g) provide access road(s) to the [Location] Facilities Sites, which are capable of being used for transportation of equipment and material to the [Location] Facilities Sites for the construction of the Facilities;

(h) provide adequate Supporting Infrastructure and facilitate the Concessionaire in obtaining utilities, such as water and electricity connections to commence construction of the [Location] Facilities;

(i) execute the Substitution Agreement with the Concessionaire, [Name of the State / National Level Agency, if any] and the Lenders in the agreed form set out in Schedule 2; and

(j) execute the Escrow Agreement with the Concessionaire, [Name of the State / National Level Agency, if any] and the Escrow Bank in the agreed form set out in Schedule 3.

3.4 Conditions Precedent to be satisfied by [Name of the State / National Level Agency, if any]\(^8\)

[Name of the State / National Level Agency, if any] shall satisfy the following Conditions Precedent (if not already fulfilled on the Appointed Date):

(a) obtain all approvals and consents that may be required for [Name of the State / National Level Agency, if any] to enter into this Agreement and undertake the Project;

(b) appoint the Project Engineer in accordance with Article 6;

(c) execute the Substitution Agreement with the Concessionaire, [Executing Agency] and the Lenders in the agreed form set out at Schedule 2; and

(d) execute the Escrow Agreement with the Concessionaire, [Executing Agency], and the Escrow Bank in the agreed form set out at Schedule 3 and open the Escrow Account with the Escrow Bank.

\(^8\)If there is no State/National level agency involved in the Project, the conditions mentioned here in shall be added to the Conditions Precedent of the Executing Agency.
### 3.5 Satisfaction of Conditions Precedent

(a) Unless otherwise specified, each Party shall satisfy or procure the satisfaction of the Conditions Precedent that it is responsible for, within 120 (one hundred and twenty) days from the Appointed Date (the “CP Long-stop Date”).

(b) If any Party fails to satisfy any Condition Precedent that it is required to fulfil by the CP Long-stop Date due to:

(i) a Force Majeure Event;

(ii) a Qualifying Change in Law;

(iii) in case of the Concessionaire, undue delay by the relevant Government Authority in granting any Concessionaire Applicable Permit, despite the Concessionaire having applied for such Concessionaire Applicable Permit within the specified timelines, on payment of the prescribed fees and having complied with the requirements of Applicable Laws in making such application; or

(iv) delay by the other Parties in fulfilling any Condition Precedent required to be satisfied by them or in performing any other obligation under this Agreement, which impacts its ability to satisfy its Conditions Precedent,

then the CP Long-stop Date shall be extended on a day-for-day basis for the period of such delay, provided that the CP Long-stop Date shall not be extended beyond the date which is 6 (six) months from the Appointed Date.

(c) Each Party shall cooperate and use its reasonable efforts to assist the other Parties in satisfying the Conditions Precedent.

(d) Upon request in writing by either Party, the other Party may grant waiver from satisfaction of any Condition Precedent and to the extent of such waiver, that Condition Precedent shall be deemed to be fulfilled for the purposes of this Article 3.

### 3.6 Consequences of failure to satisfy Conditions Precedent

(a) Subject to this Clause 3.6:

(i) If the Concessionaire fails to satisfy any of the Conditions Precedent that it is required to fulfill by the CP Long-stop Date, as may be extended in accordance with Clause 3.5(b), non-defaulting party may claim prescribed damages from the other party or may terminate this Agreement forthwith by issuing a notice to the other Parties.

(ii) If either [Executing Agency] or [Name of the State / National Level Agency, if applicable],
any\(^\d\) fails to satisfy any of the Conditions Precedent that they are required to fulfill by the CP Long-stop Date, as may be extended in accordance with Clause 3.5(b), any Party may terminate this Agreement forthwith by issuing a notice to the other Parties.

(b) If the Concessionaire has failed to satisfy any of the Conditions Precedent required to be satisfied by it other than due to the reasons set out in Clause 3.5(b) and this Agreement is terminated in accordance with this Clause 3.6, then:

(i) [Executing Agency] shall be entitled to forfeit the Performance Securities up to the extent of Bid Security as a genuine pre-estimate of and reasonable compensation for loss and damage caused to [Executing Agency] as a result of the Concessionaire's failure to satisfy any of the Conditions Precedent and the consequent termination of this Agreement;

(ii) the Concessionaire shall not be entitled to receive any payment or compensation from [Executing Agency] or [Name of the State / National Level Agency, if any] for the costs and expenses incurred by the Concessionaire in performing any of its obligations under this Agreement (including preparing any Phase I Designs and Drawings, the Construction Plan and the ESHS Documents) prior to the termination of this Agreement;

(iii) the Concessionaire shall hand over to [Executing Agency] all documents, designs, plans, data and any Confidential Information provided by [Executing Agency] or [Name of the State / National Level Agency, if any] to the Concessionaire prior to termination of this Agreement;

(iv) [Executing Agency] shall hand over to the Concessionaire the Phase I Designs and Drawings, the Construction Plan, the ESHS Documents and any other document and Confidential Information submitted by the Concessionaire to [Executing Agency] or [Name of the State / National Level Agency, if any] prior to termination of this Agreement; and

(v) if the access to any part of the Site has been granted to the Concessionaire prior to termination of this Agreement, then upon termination of this Agreement, the Concessionaire shall clear the Site and remove all debris, hazardous materials, construction materials, equipment, temporary works, work sheds, labour camps and all other temporary installations on the Site, and thereafter, the Site will be deemed to automatically vest with [Executing Agency], free from all Encumbrances.

(c) If [Executing Agency] or [Name of the State / National Level Agency, if any] has failed to satisfy any of the Conditions Precedent required to be satisfied by it or the Concessionaire has failed to satisfy any of the Conditions Precedent required to be satisfied by it due to the reasons set out in Clause 3.5(b), and this Agreement is terminated in accordance with this Clause 3.6, then:

\(^\d\)Delete if not applicable.
(i) *[Executing Agency]* shall return the Performance Security, O&M Security and the ESHS Performance Security submitted by the Concessionaire;

(ii) the Concessionaire shall hand over to *[Executing Agency]* all documents, designs, plans, data and any Confidential Information provided by *[Executing Agency]* or *[Name of the State / National Level Agency, if any]* to the Concessionaire prior to termination of this Agreement;

(iii) *[Executing Agency]* shall hand over to the Concessionaire the Phase I Designs and Drawings, the Construction Plan, the ESHS Documents and any other document and Confidential Information submitted by the Concessionaire to *[Executing Agency]* or *[Name of the State / National Level Agency, if any]* prior to termination of this Agreement; and

(iv) if the access to any part of the Site has been granted to the Concessionaire prior to termination of this Agreement, then upon termination of this Agreement, the Concessionaire shall clear the Site and remove all debris, hazardous materials, surplus construction materials, equipment, temporary works, work sheds, labour camps and all other temporary installations on the Site, and thereafter, the Site will be deemed to automatically vest with *[Executing Agency]*, free from all Encumbrances.

(d) Upon termination of this Agreement pursuant to this Clause 3.6, other than to the extent specified in this Clause 3.6, no Party shall have any liability to the other Parties in connection with this Agreement and the Concessionaire shall not be entitled to receive any termination compensation from *[Name of the State / National Level Agency, if any]* or *[Executing Agency]*.

3.7 Term

(a) Subject to early termination in accordance with Article 14 (Force Majeure) or Article 16 (Events of Default), this Agreement shall come into full force and effect on the Effective Date and remain in full force and effect until the Expiry Date (the “**Term**”).

(b) **Extension of Term**

The Authority may in its sole discretion, in the event the Concessionaire does not commit any Event of Default during the last [5 (five) years] of the Term, agree to extend the Concession after the expiry of the Term on same [or modified] terms and conditions.

Provided that any such extension shall also lead to an extension of License Agreement(s) for an equal period so as to make the License Agreement co-terminus with extended Term.]
ARTICLE 4
SITE AND ASSET OWNERSHIP

4.1 Grant of License over the Site

(a) [Executing Agency] shall grant the Concessionaire a license over the [Location]Facilities Sites along with all necessary rights of way, to enter upon, access and occupy the [Location]Facilities Sites, free of all Encumbrances in accordance with this Clause 4.1, Applicable Laws, and Applicable Permits. The license granted to the Concessionaire shall include the exclusive right to:

(i) design, construct and commission the Facilities at the Site;

(ii) operate and maintain the Facilities during the O&M Period;

(iii) install, operate, use, maintain, and remove such equipment, devices or other structures and improvements on, over, or under the Site, as may be necessary or appropriate for the operations and activities required or permitted under this Agreement;

(iv) use access roads, gates, fences and utilities at or about the Site;

(v) discharge, store, treat and manage the STP By-Products, FSTP By-Products and the Treated Effluent produced by the Facilities; and

(vi) construct, use, operate, maintain, replace and repair electric lines, telecommunication lines, water supply networks and other utilities required to undertake the Project at the Site.

(b) On and from the Effective Date and subject to the provisions of this Agreement, [Executing Agency] shall grant the Concessionaire: (i) a license over the [Location]Facilities Sites including the exclusive right to occupy and use the [Location]Facilities Sites to construct the Facilities; and (ii) all necessary rights of way to the [Location]Facilities Sites. Any charges payable for obtaining the right of way will be paid directly by [Executing Agency].

Notwithstanding anything contained herein, to the extent of applicability of Clause 7.1, the Concessionaire shall be entitled to access the Site prior to the Effective Date.

(c) [Executing Agency] shall provide the [Location]Facilities Sites to the Concessionaire free of Encumbrances and encroachments as a Condition Precedent. If the Concessionaire discovers any hazardous substances at the time of handover of the [Location]Facilities Sites by [Executing Agency], [Executing Agency] will remove such hazardous substances at its own cost and expense. The Concessionaire’s acceptance of the site(s) at the time of [Executing Agency]’s handover/giving access to the site(s) shall be deemed to be unconditional acceptance and that there were no hazardous substance or any possible form of obstruction to the project at the time of handover of site(s) and concessionaire shall be barred from raising any such issues,
whatsoever, after the handover or having access to the site(s).

(d) The Concessionaire shall not without the prior written consent or approval of [Executing Agency] use the Site for any purpose other than to undertake the Project and purposes incidental thereto, as permitted under this Agreement or as may be otherwise approved by [Executing Agency].

(e) The full ownership and title over the Site shall vest with [Executing Agency] for the entire Term.

(f) [Executing Agency] warrants that the Concessionaire shall, subject to complying with the terms and conditions of this Agreement, occupy the Site, from such time that access is granted to the Concessionaire and until the expiry of the Term or early termination of this Agreement. If the Concessionaire is obstructed by any Person claiming any right, title or interest in or over the Site or any part thereof or in the event of any enforcement action including any attachment, distraint, appointment of receiver or liquidator being initiated by any Person claiming to have a charge on the Site or any part thereof, [Executing Agency] shall, if called upon by the Concessionaire, defend such claims and proceedings.

(g) Subject to any substitution rights exercised by the Lenders, the license granted by [Executing Agency] shall automatically terminate upon termination of this Agreement or expiry of the Term.

(h) The Concessionaire hereby irrevocably appoints the [Executing Agency] (or its nominee) to be its true and lawful attorney, to execute and sign in the name of the Concessionaire a transfer or surrender of the rights granted hereunder at any time after the Term has expired or has been Terminated in terms hereof, whichever is earlier, a sufficient proof of which shall be the declaration of any duly authorised officer of the [Executing Agency], and the Concessionaire consents to it being registered for this purpose.

4.2 Ownership, Right, Title and Interest in the Facilities

(a) Without prejudice and subject to the Agreement, the ownership of the Facilities, including all improvements made therein by the Concessionaire during the Term shall at all times remain as mentioned below:

(i) That of all the immovable assets including Site and civil structures created for the Facilities shall remain with the [Executing Agency],

(ii) That of the Mobile Associated Infrastructure shall remain with the Concessionaire and in accordance with the Financing Documents and first prior charge to Senior Lenders privileges.

(b) The full ownership, rights and title to the Facilities constructed or installed by the Concessionaire pursuant to this Agreement shall vest with [Executing Agency] during the entire Term and thereafter. The Concessionaire shall have the right to enter upon the
Site, access and operate the Facilities during the Term, to exercise its rights and fulfil its obligations under this Agreement.

(c) Except as otherwise provided in this Agreement, the Concessionaire shall not:

(iii) sell or otherwise dispose or create any Security over the Facilities or any part thereof;
(iv) dispose any assets forming part of the Facilities, other than for the purposes of replacement due to normal wear and tear; or
(v) transfer, assign or novate all of its rights and obligations under this Agreement, without the prior written consent of [Executing Agency] (such consent not being unreasonably withheld or delayed).

4.3 Site Data and Verification

(a) [Executing Agency] has made available to the Concessionaire, the layout plans, load flow studies and all other relevant data, studies and reports in [Executing Agency]'s possession in connection with the Site and the Facilities.

(b) The Concessionaire shall be deemed to have obtained all necessary information as to risks, contingencies and other circumstances which may influence or affect the implementation of the Project at the Site.

(c) The Concessionaire shall also be deemed to have inspected and examined the Site and its surroundings, analysed and verified the accuracy and reliability of the studies, reports and data provided by [Executing Agency] and any other information available with respect to the Facilities and the Site and to have satisfied itself as to all the relevant matters including:

(i) the nature of the Site, including the subsurface, hydrological, climatic and general physical conditions of the Site;
(ii) the suitability of the Site for undertaking the construction and operation of the Facilities;
(iii) the condition of the utilities available till the battery limits of the Site;
(iv) the extent, nature and availability of labour, material, transport, accommodation, storage facilities and other facilities and resources necessary to undertake the Project;
(v) the nature of design, construction work and O&M services necessary for the performance of its obligations under this Agreement;
(vi) Applicable Laws and Applicable Permits required to be obtained and maintained to undertake the Project;
(vii) the risk of injury or damage to Adjoining Property and to the occupiers of such
property or any other risk;

(viii) the suitability and adequacy of any access roads to the Site and other utilities and facilities to be provided by the relevant Government Authority; and

(ix) all other matters that may affect the performance of its obligations under this Agreement.

The Concessionaire acknowledges and agrees that if any error or discrepancy is subsequently discovered in the data made available by [Executing Agency], then, such error or discrepancy shall not entitle the Concessionaire to any extension of the Scheduled Payment Milestone Completion Date, the Scheduled Construction Completion Date and/or compensation for additional costs incurred nor shall it be open to the Concessionaire to justify any default or delay on the ground of the Concessionaire having not visited or acquitted itself with the site and Site conditions in any manner whatsoever. Further, any misinterpretation of the data, studies and reports provided by [Executing Agency] shall not relieve the Concessionaire from the performance of its obligations under this Agreement on the ground that it could not reasonably be expected to have foreseen any of the matters listed in Clause 4.3(c) (i) to (ix) above, which affect or may affect the Project or the performance of any of its obligations under this Agreement.

4.4 Unforeseen Site Conditions

Without prejudice to Clause 4.3 above, if during the execution of the Project, the Concessionaire encounters any adverse physical conditions, which could not have been reasonably foreseen by acting in accordance with Good Industry Practices, the Concessionaire may seek a Variation in accordance with Clause 20.3. Upon receipt of a request for a Variation due to unforeseen Site conditions, if, in the opinion and sole discretion of [Executing Agency], such conditions could not have been reasonably foreseen by a prudent developer acting in accordance with Good Industry Practices, then [Executing Agency] shall issue a Variation Order in accordance with Article 20. Any decision of [Executing Agency] regarding the existence of any unforeseen Site conditions shall be final and binding.

4.5 Site Related Covenants

The Concessionaire agrees and undertakes that:

(a) the Concessionaire shall not transfer, alienate, assign, dispose of, sub-license or create any Security over any part of the Site or its rights and interest in the Site, other than as specifically permitted under this Agreement;

(b) the Concessionaire shall not allow any encroachment on, or unauthorized occupation of any part of the Site and in the event of any encroachment or unauthorized occupation, the Concessionaire shall immediately cause such encroachment or any unauthorized occupants to be removed from the Site. The Concessionaire shall not be entitled to any extension of time or costs incurred in removal of any encroachment or any unauthorized occupants from the Site;
(c) the grant of any rights to a Subcontractor or any other third party shall not interfere with or hinder the performance of the Concessionaire's obligations under this Agreement;

(d) the Concessionaire shall be wholly responsible for safety at and security of the Site and the Facilities;

(e) the Concessionaire shall take all necessary measures to confine its operations, personnel and equipment to the Site and not encroach on any Adjoining Property;

(f) all minerals, fossils, articles of value or antiquity, structures and other remains or things of geological or archaeological interest and other objects with historic, antique or monetary value discovered at, on or under the Site shall be dealt with in accordance with Applicable Laws and the Concessionaire shall take all necessary precautions to prevent its or its Subcontractor's personnel from removing or damaging any such article or thing. Further, immediately upon the discovery of any such article or thing of value, the Concessionaire shall inform [Executing Agency] of such discovery and carry out the instructions of [Executing Agency] in this regard;

(g) the Concessionaire shall make good any damage to any roads, footpaths, conduits, and other works on any Adjoining Property, which is caused by the Concessionaire or the Concessionaire Related Parties;

(h) the Concessionaire shall not to do or permit to be done anything which might:

   (i) cause destruction, scarring or defacing of natural surroundings in the vicinity of the Site;
   (ii) be or become a danger or nuisance or give rise to liability in tort to any owners or occupiers of the Adjoining Property or to members of the public; or
   (iii) cause any contamination or damage to any Adjoining Property,

and the Concessionaire shall, at its own expense, take all reasonable measures and precautions to avoid any such danger, nuisance, tort, damage or interference and shall make good any damage so caused.

If the construction works and/or the O&M services cannot be carried out without interfering with the rights of the owner or occupier of any Adjoining Property, the Concessionaire shall promptly and at its own cost obtain all necessary third party consents and/or the approval of any Government Authority to undertake such construction works and/or the O&M services. [Executing Agency] shall provide all assistance to the Concessionaire for procuring such approvals.

The Concessionaire shall ensure that [Executing Agency] Related Parties, the [Name of the State / National Level Agency, if any]Related Parties and the relevant Government Authorities have access to the Site and the license granted to the Concessionaire over the Site shall always be subject to:
(a) the rights of [Executing Agency], [Executing Agency]'s Representative, [Name of the State / National Level Agency, if any]'s Representative, the Project Engineer, and other [Executing Agency] Related Parties and [Name of the State / National Level Agency, if any] Related Parties to enter upon and access the Site to inspect and monitor the progress of the Project, and for the exercise of their rights and the performance of their obligations under this Agreement, provided that [Executing Agency] and/or [Name of the State / National Level Agency, if any] shall ensure that the exercise of the inspection or monitoring rights do not impede or obstruct the construction and/or operation of the Facilities in any manner whatsoever; and

(b) the rights of the Government Authorities or other utility providers to enter upon and access the Site for laying or installing telegraph lines, electric lines or for any other public purpose.

If any physical damage is caused to the Site or the Facilities as a result of such access and use of the Site by [Executing Agency], the Project Engineer, [Executing Agency] Related Parties, the [Name of the State / National Level Agency, if any] Related Parties, Government Authorities then [Executing Agency] shall bear the costs of remedying such damage and restoring the Site and the Facilities.
ARTICLE 5
PERFORMANCE SECURITIES, ESHS PERFORMANCE SECURITIES, O&M SECURITIES AND MOBILIZATION ADVANCE GUARANTEES

5.1 The Concessionaire [and/or Nominated STP/FSTP Sub-Contractor] shall have submitted to [Executing Agency], prior to the Appointed Date:

(a) an unconditional and irrevocable bank guarantee for an amount equal to INR [_________] (Rupees [________________________]), corresponding to [9% (nine per cent)] of the Bid Project Cost (the “Performance Security”);

(b) an unconditional and irrevocable bank guarantee for an amount equal to INR [_________] (Rupees [________________________]), corresponding to [1% (one per cent)] of the Bid Project Cost (the “ESHS Performance Security”);

[Provided, if the experience of the Nominated STP/FSTP Sub-Contractor has been claimed for qualification in the Project, then both the Nominated STP/FSTP Sub-Contractor and the Concessionaire shall each submit 50% (fifty per cent) of the Performance Securities as mentioned in (a) above.] 20

5.2 The Performance Security shall remain valid until 25 (twenty) months from the Effective Date or one month from the COD, whichever is later.

5.3 The Performance Security or the amount retained by [Executing Agency] as cash security under Clause 5.10 shall be returned after the expiry of 30 (thirty) days from the COD, unless this Agreement is terminated earlier, in which case the Performance Security will be returned within 30 (thirty) days from the date of termination, subject to [Executing Agency]'s right to receive any amounts from the Concessionaire under this Agreement.

5.4 The ESHS Performance Security shall be valid until the Expiry Date or Termination of the Agreement, whichever is earlier. The ESHS Security shall have an initial validity period till COD, which must thereafter be renewed on a year-on-year basis, before the expiry of the 11th (eleventh) month of the relevant year, until the expiry of the O&M Period. If any of the ESHS Security is not renewed by the expiry of the 11th (eleventh) month of the relevant year, then [Executing Agency] shall be entitled to drawdown the total amount available under the ESHS Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the ESHS Security.

5.5 As conditions precedent to the COD, within 60 (sixty) days of the Construction Completion Date, or 30 (thirty) days before COD, whichever is earlier, the Concessionaire [and Nominated STP/FSTP Sub-Contractor] shall ensure that the Nominated STP Sub-Contractor submits performance security and ESHS performance security.

20 To be deleted if not applicable. If applicable, the Concessionaire shall ensure that the Nominated STP Sub-Contractor submits performance security and ESHS performance security.

21 To be deleted if not applicable

22 To be deleted if not applicable
STP/FSTP Sub-Contractor has been claimed for qualification in the Project, then both the Nominated STP/FSTP Sub-Contractor and the Concessionaire shall each submit 50% (fifty per cent) of the O&M Securities as mentioned above.  

5.6 The Concessionaire [and Nominated STP/FSTP Sub-Contractor] shall furnish the O&M Security in the same format as provided for the Performance Security in the RFP, with necessary modifications. The Concessionaire [and/ or Nominated STP/FSTP Sub-Contractor] shall maintain the O&M Securities in full force and effect until the expiry of the O&M Period. The O&M Securities shall have an initial validity period of 1 (one) year, which must be renewed on a year-on-year basis, before the expiry of the 11th (eleventh) month of the relevant year, until the Expiry Date or Termination of the Concession Agreement, whichever is earlier.

5.7 The ESHS Performance Security shall secure the due performance of the Concessionaire's ESHS obligations during the Construction Period and the O&M Period, as set out in the approved ESHS Documents.

5.8 The Performance Security shall secure the due performance of all the Concessionaire's obligations during the Construction Period and the O&M Security shall secure the due performance of all the Concessionaire's obligations during the O&M Period.

5.9 The cost of procuring the Performance Security, the ESHS Performance Security and the O&M Security shall be borne solely by the Concessionaire.

5.10 If the Performance Security is scheduled to expire before the COD, then the Concessionaire shall arrange for an extension of the Performance Security at least 30 (thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, [Executing Agency] shall be entitled to drawdown the total amount available under the Performance Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the Performance Security, that is scheduled to expire.

5.11 If the ESHS Performance Security is scheduled to expire before the expiry of the O&M Period, the Concessionaire shall replace or arrange for an extension of the ESHS Performance Security at least 30(thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, [Executing Agency] shall be entitled to drawdown the total amount available under the ESHS Performance Security and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the ESHS Performance Security.

5.12 If any O&M Security is not renewed by the expiry of the 11th (eleventh) month of the relevant year of the O&M Period, then [Executing Agency] shall be entitled to drawdown the total amount available under the O&M Security and retain such amount as cash security until such

---

23 To be deleted if not applicable. If applicable, the Concessionaire shall ensure that the Nominated STPSub-Contractor submits O&M performance security.

24 To be deleted if not applicable. If applicable, the Concessionaire shall ensure that the Nominated STPSub-Contractor submits O&M performance security.

25 To be deleted if not applicable.
time that the Concessionaire submits an extension or replacement of the O&M Security.

5.13 *[Executing Agency]* shall be entitled to utilize such retained amount in the same manner as it would utilise the Performance Security, the ESHS Performance Security or the O&M Security, as the case may be.

(a) Upon receipt of a renewed or replacement Performance Security or within 30 (thirty) days of the COD or expiry / termination of the Agreement, *[Executing Agency]* shall return the unutilized cash security amount for the Performance Security to the Concessionaire.

(b) Upon receipt of a renewed or replacement ESHS Performance Security or within 30 (thirty) days of the expiry / termination of the Term, *[Executing Agency]* shall return the unutilized cash security amount for the ESHS Performance Security to the Concessionaire.

(c) Upon receipt of a renewed or replacement O&M Security or within 30 (thirty) days of the expiry / termination of the O&M Term, *[Executing Agency]* shall return the unutilized cash security amount for the O&M Security to the Concessionaire.

(d) The interest earned on any retained amounts on cash security shall be the property of *[Executing Agency]* and *[Executing Agency]* shall not be required to account to the Concessionaire for any such interest.

5.14 *[Executing Agency]* shall have the right to draw on the Performance Securities and claim up to the amount guaranteed upon the Concessionaire's failure to satisfy any Condition Precedent or honour any of its obligations, responsibilities or commitments during the Construction Period, or any amount due and payable by the Concessionaire to *[Executing Agency]* (including any Delay Liquidated Damages), in accordance with this Agreement.

5.15 *[Executing Agency]* shall have the right to draw on the O&M Securities and claim up to the amount guaranteed upon the Concessionaire's failure to honour any of its obligations, responsibilities or commitments during the O&M Period, or any amount due and payable by the Concessionaire to *[Executing Agency]* (including any Availability Liquidated Damages, Performance Liquidated Damages, Termination Compensation and any amounts the Concessionaire is liable to pay under Clause 19.2), in accordance with this Agreement.

5.16 Without prejudice to its right to draw on the Performance Securities or, as the case may be, the O&M Securities, *[Executing Agency]* shall have the right to draw on the ESHS Performance Securities and claim up to the amount guaranteed upon the Concessionaire's failure to honour any of its ESHS related obligations, responsibilities or commitments during the Construction Period or the O&M Period, as set out in the approved ESHS Documents, in accordance with this Agreement.

5.17 *[Executing Agency]* shall not be required to give any prior notice to the Concessionaire of its intention to make a demand under the Performance Securities, the ESHS Performance Securities or the O&M Securities, as the case may be. However, *[Executing Agency]* shall provide the Concessionaire with a copy of any demand notice issued by *[Executing Agency]*.
Agency] under the Performance Securities, the ESHS Performance Securities or the O&M Securities, simultaneously with the issuance of the demand notice to the Scheduled Bank that has issued the relevant Performance Security, ESHS Performance Security or the O&M Security.

5.18 If [Executing Agency] makes a demand under any Performance Security and/or ESHS Performance Security and/or O&M Security, in part or in full, the Concessionaire shall immediately and in no event later than 15 (fifteen) days of such demand, restore the value of such Performance Security, ESHS Performance Security or O&M Security to the amount stated in Clause 5.1 or Clause 5.5.

5.19 Within 30 (thirty) days from the COD or the termination of this Agreement, whichever is earlier, the Performance Securities or, as the case may be, the amount retained by [Executing Agency] as cash security under Clause 5.10, shall be released to the Concessionaire after the expiry of 30 (thirty) days from the COD or termination of this Agreement, subject to [Executing Agency]’s right to receive any amounts from the Concessionaire before or upon COD or termination of this Agreement.

5.20 Upon the expiry of the O&M Period or the termination of this Agreement, whichever is earlier, the O&M Securities, the ESHS Performance Securities or, as the case may be, the amount retained by [Executing Agency] as cash security under Clause 5.11 or Clause 5.12, shall be released to the Concessionaire after the expiry of 30 (thirty) days from the Expiry Date or termination of this Agreement, subject to [Executing Agency]’s right to receive any amounts from the Concessionaire before or upon such expiry or termination of this Agreement.

5.21 Mobilization Advance Guarantee

(a) Within 30 (thirty) days of the Effective Date, the Concessionaire shall submit to [Executing Agency]: (i) an unconditional and irrevocable bank guarantee for an amount equal to 110% (one hundred and ten per cent) of the Mobilization Advance for the [Location] Facilities in the form set out at Schedule 4 (the “[Location] Facilities Mobilization Advance Guarantee”); and the Mobilization Advance Guarantee shall secure the Mobilization Advance paid to the Concessionaire in accordance with Clause 9.3(d). The cost of procuring the Mobilization Advance Guarantees shall be borne solely by the Concessionaire.

(b) The Mobilization Advance Guarantee shall remain valid until the entire Mobilization Advance secured by such Mobilization Advance Guarantee has been adjusted against the Construction Payments. However, the Concessionaire may, at its discretion, progressively reduce the value of the relevant Mobilization Advance Guarantee by the amount of the Mobilization Advance adjusted against each of the 4 (four) instalments of the Construction Payments, in accordance with Clause 9.3(d). For this purpose, the Concessionaire shall be required to furnish a replacement Mobilization Advance Guarantee of the reduced amount within 15 (fifteen) days of receipt of a Payment Certificate from [Executing Agency] on successful completion of the relevant Payment Milestone. [Executing Agency] shall return the relevant existing Mobilization Advance...
Guarantee upon receipt of a replacement Mobilization Advance Guarantee from the Concessionaire.

(c) If any Mobilization Advance Guarantee is scheduled to expire before the entire Mobilization Advance has been adjusted, then the Concessionaire shall arrange for an extension of the relevant Mobilization Advance Guarantee at least 30 (thirty) days prior to such expiration. If the Concessionaire fails to procure such extension or replacement, [Executing Agency] shall be entitled to drawdown the total amount available under such Mobilization Advance Guarantee and retain such amount as cash security until such time that the Concessionaire submits an extension or replacement of the Mobilization Advance Guarantee.

(d) [Executing Agency] shall be entitled to utilize such retained amount in the same manner as it would utilize the Mobilization Advance Guarantee. Upon receipt of an extension or replacement Mobilization Advance Guarantee or on adjustment of the entire Mobilization Advance, [Executing Agency] shall return the unutilized cash security amount to the Concessionaire.

The interest earned on any retained amounts or cash security shall be the property of [Executing Agency] and [Executing Agency] shall not be required to account to the Concessionaire for any such interest.

(e) [Executing Agency] shall have the right to draw on the Mobilization Advance Guarantees in the event of the inadequate adjustment of the Mobilization Advance in accordance with Clause 9.3(d), prior to the Construction Completion Date.

(f) [Executing Agency] shall not be required to give any prior notice to the Concessionaire of its intention to make a demand under any Mobilization Advance Guarantee. However, [Executing Agency] shall provide the Concessionaire with a copy of any demand notice issued by [Executing Agency] under a Mobilization Advance Guarantee, simultaneously with the issuance of the demand notice to the Scheduled Bank that has issued the Mobilization Advance Guarantee.

5.22 Additional Performance Security

(a) In the event of the Selected Bidder having submitted Additional Performance Security in accordance with the RFP document, then such Additional Performance Security shall be in force till the end of Construction period if the Bid Project Cost is found to be unreasonable, and till the end of the Concession Period if O&M Charges are found to be unreasonable. Notwithstanding anything contained herein, the Additional Performance Security shall be liable to be forfeited either fully or partially by [Executing Agency] as it deems fit for the reasons mentioned in Clause 16.1 of the Concession agreement. The Additional Performance Security for the unreasonable Bid Project Cost shall be returned 30 (thirty) days after COD and the Additional Performance Security for O&M Charges shall be returned at the end of Concession Period.
(b) Change in Ownership in accordance with Clause 12 of the Concession Agreement shall be subject to the fulfillment of the requirements of Additional Performance Security as per the Clause 5.22(a) above, by the incoming Consortium Partner/Single Entity.

5.23 [If the Nominated STP/FSTP Sub-Contractor, nominated under the Sub-contractor Undertaking, ceases to be associated with the Concessionaire before the completion of 2 (two) years from the COD, then, with prior approval of [Executing Agency] and/or [Name of the State / National Level Agency, if any], the Concessionaire shall propose to substitute such entity with another sub-contractor who shall meet the qualification criteria set out in Clause 4.1(a)(B), 4.1(a)(F)(ii) and 4.1(b)(ii) of the RFP. Also, the substituted sub-contractor shall submit the Performance Securities and/or O&M Securities as per Clause 5.1 and 5.5 of this Concession Agreement.]²⁶

5.24 [The Concessionaire shall have submitted to [Executing Agency], prior to the Appointed Date, an unconditional and irrevocable bank guarantee to the [Executing Agency], issued by the Technology Provider, for an amount equal to INR [___________] (Rupees [___________]), corresponding to 5% (five per cent) of the Aggregate Bid Project Cost (the Technology Performance Security)]²⁷

ARTICLE 6
PROJECT ENGINEER

6.1 [Name of the State / National Level Agency, if any] or the [Executing Agency] shall appoint a third-party engineering firm with requisite technical expertise, knowledge and experience in the design, engineering and construction of STP/FSTP as the engineer for the Project (the “Project Engineer”). The Project Engineer shall assist [Executing Agency] in supervising the construction/renovation, operation and maintenance of the Facilities and shall support [Executing Agency] to monitor compliance with the KPIs during the O&M period. The detailed scope of work of the Project Engineer is set out in Schedule 6.

6.2 All fees, costs, charges and expenses payable to the Project Engineer shall be borne by [Name of the State / National Level Agency, if any] or [Executing Agency].

The Concessionaire may request [Name of the State / National Level Agency, if any] or [Executing Agency] to replace the Project Engineer if the Concessionaire believes that the Project Engineer is not performing its duties in accordance with this Agreement or is otherwise impeding the performance of the Concessionaire's obligations under this Agreement.

[Name of the State / National Level Agency, if any] or [Executing Agency] may replace the Project Engineer in any of the following circumstances:

(a) if it has reason to believe that the Project Engineer has not discharged its duties in accordance with this Article 6 and/or Schedule 6; or

(b) has received a formal complaint from the Concessionaire. In such a case [Name of the State / National Level Agency, if any] or [Executing Agency] will make necessary investigations and it is established that the Project Engineer has not discharged its duties in accordance with this Article 6 and/or Schedule 6; or

(c) if the Project Engineer submits its resignation.

6.3 In appointing any replacement of the Project Engineer, [Name of the State / National Level Agency, if any] or [Executing Agency] shall comply with this Article 6 and Schedule 6.

6.4 The Project Engineer shall be required to act independently, reasonably, fairly and expeditiously to ensure: (a) the timely completion of construction of the Facilities on or before the Scheduled Construction Completion Date and (b) compliance with the KPIs during the O&M Period.

6.5 During the Construction Period, the Project Engineer shall inspect the Facilities at least once a month and prepare an inspection report, setting out the progress of the construction of the Facilities, defects or deficiencies, if any, and status of compliance with the Construction Plan, Technical Specifications and Designs and Drawings. The Project Engineer shall send the report to [Executing Agency] and the Concessionaire within 7 (seven) days of such inspection, pursuant to which, the Concessionaire shall be required to rectify the defects or deficiencies, if any, identified by the Project Engineer.
6.6 During the O&M Period, the Project Engineer shall inspect the Facilities at least once a month and prepare an inspection report, setting out the defects or deficiencies, if any, and status of compliance with the KPIs (including specifically, the Influent Standards and the Discharge Standards). The Project Engineer shall send the report to [Executing Agency] and the Concessionaire within 7 (seven) days of such inspection, pursuant to which, the Concessionaire shall be required to rectify the defects or deficiencies, if any, identified by the Project Engineer. The Project Engineer shall also have the right to verify the results of the tests undertaken by the Concessionaire at any time during the O&M Period at the Inlet Point and the Outlet Point to determine the standard of the Sewage/Faecal Sludge/Septage, the STP By-Products, the FSTP By-Products, and the Treated Effluent.

6.7 Except as specifically provided in this Agreement, the Project Engineer shall have no authority, whether express or implied, to amend, vary or curtail any of the rights or obligations of the Parties.

6.8 The Project Engineer shall at all times during the Term have the right to enter upon and access the Site. The Concessionaire shall have the right to accompany the Project Engineer during its inspection of the Facilities.

6.9 The Project Engineer shall, at all times, have the right to attend any meetings held by the Concessionaire to review the progress of the construction or O&M of the Facilities, and to provide its comments/suggestions regarding the progress as well as the manner in which the construction works, or O&M services is being undertaken. Neither any comments/suggestions provided by the Project Engineer nor any failure to provide comments/suggestions shall be deemed to be an acceptance of the construction works or the O&M services or a waiver of the Concessionaire's obligations to implement the Project, in accordance with this Agreement, the Technical Specifications, the Designs and Drawings, the ESHS Documents, and all Applicable Laws and Applicable Permits.

6.10 The Concessionaire agrees that notwithstanding any review by the Project Engineer of any or all of the construction works or O&M services, the Concessionaire shall bear all risk, responsibility and liability for the quality, adequacy and suitability of the Facilities.
ARTICLE 7

CONSTRUCTION PERIOD

7.1 Commencement and Duration

The period for construction of the Facilities shall commence on and from the Effective Date and shall continue until the Construction Completion Date (the “Construction Period”).

Notwithstanding anything to the contrary in this Agreement, the Concessionaire shall, prior to the Effective Date, be entitled to commence:

(a) soil or geophysical investigation or testing at the Site; and

(b) appointment of Subcontractors for the construction works for the Facilities, with the prior approval of [Executing Agency].

7.2 Designs and Drawings

(a) Phase I Designs and Drawings

(i) Basic Engineering Designs

(A) The Concessionaire shall prepare the Basic Engineering Designs in accordance with the Technical Specifications, Applicable Laws and Applicable Permits. If the Concessionaire proposes to set up the Power Plant, the Concessionaire shall also submit the Basic Engineering Designs for the Power Plant. The Basic Engineering Designs shall be drawn to scale, with accurate dimensions, to minimize construction delays, disputes and cost overruns and to ensure smooth construction of the Facilities. The Facilities should be designed in a manner such that the Concessionaire can obtain consent to operate from the [State Pollution Control Board] for the operation of the Facilities. The Basic Engineering Designs should also specify the Proposed Technology for the [Location] STP(s) and [Location] FSTP(s).

(B) Within 30 (thirty) days from the Appointed Date, the Concessionaire shall submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the draft Basic Engineering Designs to [Executing Agency] for its review and approval.

(C) [Executing Agency] shall forward the Basic Engineering Designs to the Project Engineer and the Indian Institute of Technology (IIT)/ an institute with equivalent repute and credibility, for their review and comments.

(D) [Executing Agency] shall provide comments if any, on the draft Basic Engineering Designs (including any comments from IIT and the Project Engineer) to the Concessionaire or notify the Concessionaire of its approval of the draft Basic Engineering Designs within 20 (twenty) days from the date of receipt of the draft Basic Engineering Designs. [Executing Agency] may require the Concessionaire to amend or modify the draft Basic Engineering
(i) 

### Design Review and Approval

If [Executing Agency], IIT/other institute, or the Project Engineer identifies any deficiencies, inaccuracies or shortcomings in the draft Basic Engineering Designs. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Basic Engineering Designs from [Executing Agency], then the Concessionaire shall modify the draft Basic Engineering Designs to correct any such shortcomings, inaccuracies or deficiencies and/or address, in writing, [Executing Agency]'s/ IIT's (or other institute’s) the Project Engineer's comments on the draft Basic Engineering Designs and submit the revised Basic Engineering Designs to [Executing Agency] for its approval within 10 (ten) days of receipt of comments. The process set out in this Clause 7.2(a)(i) shall continue until the Basic Engineering Designs are certified by IIT/ other institute and are approved by [Executing Agency] in accordance with this Clause 7.2(a)(i)(C) and Clause 7.2(a)(i)(D).

For the avoidance of doubt, approval of Basic Engineering Designs by the [Executing Agency]/ IIT (or other institute)/ the Project Engineer shall not relieve the Concessionaire of its obligations to prepare the Basic Engineering Design in accordance with Technical Specifications, Applicable Laws and Applicable Permits.

(ii) 

#### Screening Report

(A) The Concessionaire shall prepare the Screening Report in accordance with the ESMF and as per the format set out in Schedule 8.

(B) Within 30 (thirty) days from the Appointed Date, the Concessionaire shall submit 4 hard copies and 1 soft copy of the draft Screening Report on a compact disc to the Executing Agency for its review and approval.

(C) The [Executing Agency] shall forward the draft Screening Report to the Project Engineer for its review and comments.

(D) The [Executing Agency] shall provide comments if any, on the draft Screening Report (including any comments from the Project Engineer) to the Concessionaire or notify the Concessionaire of its approval of the draft Screening Report within 20 (twenty) days from the date of receipt of the draft Screening Report. The [Executing Agency] may require the Concessionaire to amend or modify the draft Screening Report if the [Executing Agency] identifies any deficiencies, inaccuracies or shortcomings in the draft Screening Report. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Screening Report from the [Executing Agency], then the Concessionaire shall modify the draft Screening Report to correct any such shortcomings, inaccuracies or deficiencies and/or address, in writing, the [Executing Agency]'s /Bank's comments on the draft Screening Report and submit the revised Screening Report to the [Executing Agency] for its approval within 10 (ten) days of receipt of comments. The process set out in this Clause 7.2(a)(ii)(D) shall continue until the Screening Report is approved by the [Executing Agency] in accordance with this Clause 7.2(a)(ii)(D).

(iii) Within 30 (thirty) days from the approval of the Basic Engineering Designs, the
Concessionaire shall prepare the balance Phase I Designs and Drawings based on the approved Basic Engineering Designs and submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the balance Phase I Designs and Drawings to [Executing Agency] for its review and approval. The process set out in Clause 7.2(a)(i)(C) and Clause 7.2(a)(i)(D) will apply for approval of the balance Phase I Designs and Drawings.

(b) Phase II Designs and Drawings

(i) At least 2 (two) months prior to the commencement of work for the second Payment Milestone for the Facilities, the Concessionaire shall submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the Phase II Designs and Drawings for the works corresponding to the second Payment Milestone for the Facilities. The process set out in Clause 7.2(a)(i)(C) and Clause 7.2(a)(i)(D) will apply for approval of the Phase II Designs and Drawings for the works corresponding to the second Payment Milestone.

(ii) The process set out in Clause 7.2(a)(iii) above shall apply to the submission and approval of the Phase II Designs and Drawings for the work corresponding to the second Payment Milestone, and thereafter, each subsequent Payment Milestone for the Facilities.

(c) The Concessionaire shall construct the Facilities strictly in accordance with the approved Designs and Drawings. If there are any errors or deficiencies in the Technical Specifications, the Designs and Drawings shall take into account, address or rectify such errors or deficiencies. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved Designs and Drawings without the prior written approval of [Executing Agency]. The Concessionaire shall not commence construction of any part of the Facilities prior to approval of the Designs and Drawings in accordance with this Clause 7.2. If the Concessionaire undertakes any construction work for the Facilities prior to the approval of the Designs and Drawings, it shall do so at its own risk and [Executing Agency] shall have the right to reject any such construction work that does not comply with the approved Designs and Drawings.

(d) Notwithstanding any approval of the Designs and Drawings by [Executing Agency], the Concessionaire shall bear all risk, responsibility and liability for the suitability, accuracy, adequacy and practicality of the Designs and Drawings. Subject to Clause 3.5 and Clause 7.11(b), the Concessionaire shall not be entitled to any extension of time and/or costs incurred in the preparation of the Designs and Drawings and complying with the requirements of this Clause 7.2.

7.3 Construction Plan

(a) Within 30 (thirty) days from the Appointed Date, the Concessionaire shall prepare and submit to [Executing Agency] a detailed Construction Plan. The Construction Plan shall set out:

(i) The detailed plan for completing the construction of the [Location] Facilities by
the Scheduled Construction Completion Date; specific activities and extent of construction work to be performed by the Concessionaire to achieve each of the 4 (four) [Location] Facilities Payment Milestones; and (ii) the order in which the Concessionaire proposes to execute the construction of the Facilities.

(b) [Executing Agency] shall review and provide comments, if any, on the draft Construction Plan to the Concessionaire or notify the Concessionaire of its approval of the draft Construction Plan within 30 (thirty) days from the date of receipt of the draft Construction Plan from the Concessionaire. [Executing Agency] may require the Concessionaire to amend or modify the draft Construction Plan if [Executing Agency] identifies any deficiencies or shortcomings in the draft Construction Plan. If the Concessionaire receives any comments, suggestions or instructions to modify the draft Construction Plan from [Executing Agency], then the Concessionaire shall incorporate the suggestions made by [Executing Agency] and modify the draft Construction Plan to address any such comments, shortcomings or deficiencies identified by [Executing Agency]. Thereafter, the Concessionaire shall submit the revised Construction Plan to [Executing Agency] for its approval. The process set out in this Clause 7.3(b) shall continue until the Construction Plan is approved by [Executing Agency] in accordance with this Clause 7.3(b).

(c) The Concessionaire shall construct the Facilities strictly in accordance with the approved Construction Plan. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved Construction Plan without the prior written approval of [Executing Agency]. The Concessionaire shall not commence construction of any part of the Facilities prior to approval of the Construction Plan in accordance with this Clause 7.3.

(d) Notwithstanding any approval of the Construction Plan by [Executing Agency], the Concessionaire shall, subject to Clause 7.11(b), be solely liable for completing the construction of the Facilities by the Scheduled Construction Completion Date.

(e) The Concessionaire shall submit a consolidated Construction Plan for the [Location] Facilities.

7.4 ESHS Documents

(a) Within 45 (forty five) days from the Appointed Date, the Concessionaire shall prepare and submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the ESHS Documents to [Executing Agency].

(b) The ESHS Documents shall set out the Facilities Specific health, safety and environment policies, guidelines and procedures to be followed by the Concessionaire in undertaking the Project, developed in accordance with the ESMF, this Agreement (including, specifically, Schedule 9), Applicable Laws, Applicable Permits, and Good Industry Practices.
(e) The ESHS Documents shall comprise the following:

(i) Safeguard Documents

As part of the Safeguard Documents, the Concessionaire shall be required to:

(A) submit an update of the environment and social impact assessment report (the “ESIA”), which has been prepared by [Executing Agency] and shall be provided to the Concessionaire along with the RFP; and

(B) prepare the environmental management plan (the “EMP”).

Or

(C) in case of unavailability of such existing document, create ESIA and prepare the EMP

(ii) Safety Documents

As part of the Security Documents, the Concessionaire shall be required to prepare the following:

(A) environment, social, health and safety management plan (the “ESHSMP”); 
(B) environmental, social, health and safety management strategies and implementation plan (the “ESHS-MSIP”) – The ESHS-MSIP shall be prepared on the basis of the requirements set out in Schedule 9. The ESHS-MSIP shall include the following, for the purposes of managing the key ESHS risks in relation to the Project:

(I) traffic management plan to ensure safety of local communities from construction traffic;
(II) water resource protection plan to prevent contamination of drinking water;
(III) boundary marking and protection strategy for mobilization and construction to prevent offsite adverse impacts; and
(IV) strategy for obtaining Concessionaire Applicable Permits prior to the start of relevant works [such as opening a quarry or borrow pit].

(iii) Code of Conduct

The Code of Conduct shall be prepared on the basis of the requirements set out in Schedule 9. The Code of Conduct shall apply to the Concessionaire's employees and subcontractors and shall set out the ESHS obligations of the Concessionaire under the Agreement relating to risks associated with labor influx, spread of communicable diseases, sexual harassment, gender-based violence, illicit behaviour and crime, and maintaining a safe environment etc. The Code of Conduct shall also set out the manner in which the Code of Conduct will be implemented, including how it will be introduced into conditions of employment/engagement, what training will be provided, how it will be monitored and how the Concessionaire proposes to deal with any breaches.
(iv) In the ESHS, the Concessionaire shall also be required to provide details of the core team of 3 people for implementation of the Concessionaire's ESHS obligations, comprising: (A) health expert and safety specialist; (B) an environmental specialist; and (C) social specialist, who meet the minimum qualification requirements specified in Schedule 9.

(v) Within 30 (thirty) days from the appointed date, the Concessionaire shall prepare and submit 4 (four) hard copies and 1 (one) soft copy of Labour Influx and Workers Camp Management Plan to [Executing Agency] that addresses specific activities that will be undertaken to minimize the impact on the local community, including elements such as worker codes of conduct, training programs on HIV/AIDS, etc. A Workers’ Camp Management Plan addresses specific aspects of the establishment and operation of workers’ camps.

This Labor Influx and Workers’ Camp Management Plan will include:
(A) mandatory and repeated training and awareness raising for the workforce about refraining from unacceptable conduct toward local community members, specifically women;
(B) informing workers about national laws that make sexual harassment and gender-based violence a punishable offence which is prosecuted;
(C) introducing a Worker Code of Conduct as part of the employment contract, and including sanctions for non-compliance (e.g., termination), manual scavenging, engagement with local residents, child labor, nondiscrimination, harassment of coworkers including women and those belonging to SC and STs and other minority social groups,
(D) contractors adopting a policy to cooperate with law enforcement agencies in investigating complaints about gender-based violence.
(E) training programs on HIV/AIDS and other communicable diseases,
(F) workers’ Camp Management Plan addressing specific aspects of the establishment and operation of workers’ camps provided the ULB/ [Executing Agency] is unable to cater to the demand for affordable housing for this additional workforce in terms of rentals, hostels, apartments etc.; and
(G) compliant handling Mechanism at the project level.

(d) [Executing Agency] shall forward a copy of the draft ESHS Documents to the Project Engineer and [Name of the State / National Level Agency, if any] for its review and comments.

(e) [Executing Agency] shall provide comments, if any, on the draft ESHS Documents (including any comments from the Project Engineer and [Name of the State / National Level Agency, if any])28 to the Concessionaire or notify the Concessionaire of its approval of the draft ESHS Documents within 30 (thirty) days from the date of receipt of the draft ESHS Documents from the Concessionaire. [Executing Agency] may require the Concessionaire to amend or modify the draft ESHS Documents if

28To be deleted wherever it is not applicable.
or the Project Engineer or [Name of the State / National Level Agency, if any] identifies any deficiencies or shortcomings in the draft ESHS Documents. If the Concessionaire receives any comments, suggestions or instructions to modify the draft ESHS Documents from [Executing Agency], then the Concessionaire shall modify the draft ESHS Documents to address any such comments, shortcomings or deficiencies identified by [Executing Agency]. Thereafter, the Concessionaire shall submit the revised ESHS Documents to [Executing Agency] for its approval. The process set out in this Clause 7.4(e) shall continue until the ESHS Documents are approved by [Executing Agency] in accordance with this Clause 7.4(e).

(f) The Concessionaire shall ensure that its Subcontractors comply with and conform in all aspects of the ESHS Documents, approved in accordance with this Clause 7.4, in executing the Project. Any failure of the Concessionaire or the Subcontractors to comply with the ESHS Documents shall constitute a Concessionaire Event of Default. The Concessionaire shall indemnify [Executing Agency] and [Name of the State / National Level Agency, if any] against all costs, expenses, penalties and liabilities incurred/suffered by [Executing Agency] and [Name of the State / National Level Agency, if any] due to the Concessionaire's or any Subcontractor's failure to comply with the ESHS Documents in the course of execution of the Project. The Concessionaire shall not deviate from or make any subsequent modification or amendment to the approved ESHS Documents without the prior written approval of [Executing Agency].

(g) Neither any approval of the ESHS Documents by [Executing Agency], nor any failure to review and provide comments on the ESHS Documents shall excuse any failure by the Concessionaire to adopt proper and recognized safety and environment friendly practices during the execution of the Project. The Concessionaire shall bear all risk, responsibility and liability for the accuracy and adequacy of the final ESHS Documents in ensuring compliance with the ESMF, this Agreement (including specifically, Schedule 9), Applicable Laws, Applicable Permits and Good Industry Practices in the execution of the Project. The Concessionaire shall not be entitled to any extension of time and/or costs incurred in preparation of the ESHS Documents and complying with the requirements of this Clause 7.4.

7.5 Subcontracting

(a) The Concessionaire may enter into Subcontracts to perform any part of its Scope of Work during the Construction Period, with the prior intimation to the [Executing Agency].

(b) The Concessionaire shall provide a copy of each proposed Subcontract, along with details of the relevant Subcontractor, for the record to the [Executing Agency], which should set out the precise Scope of Work to be Sub-contracted to such Subcontractor and should be consistent with the terms of this Agreement.

(c) The Concessionaire shall be responsible for the supervision and monitoring of the performance of any work or services by the Subcontractor.
(d) If the Concessionaire proposes to novate or replace a Subcontract after submission of details as required under sub-clause (b) above, then such novation or replacement shall also be intimated to the [Executing Agency].

(e) The Concessionaire shall be and remain liable under this Agreement for all work and services subcontracted under this Agreement and for all acts, omissions or defaults of any Subcontractor. No default under any Subcontract shall excuse the Concessionaire from its obligations or liabilities under this Agreement. All references in this Agreement to any act, default, omission, breach or negligence of the Concessionaire shall be construed to include any such act, default, omission, breach or negligence of the Subcontractors.

(f) The Project Engineer and Authority have the right to access of information and audit the Subcontractor files with regards to the Concession Agreement.

7.6 Concessionaire's Construction Obligations

The Concessionaire shall design, finance, construct and complete the Facilities and achieve the COD in accordance with Applicable Laws, Applicable Permits, Good Industry Practice, the Technical Specifications, the ESHS Documents, the Designs and Drawings, the Construction Plan and other provisions of this Agreement.

For this purpose, during the Construction Period, the Concessionaire shall:

(a) complete the work corresponding to each Payment Milestone by the Scheduled Payment Milestone Completion Date and complete the construction of the relevant Facilities by the relevant Scheduled Construction Completion Date, in a manner that:

(i) is in compliance with the Technical Specifications, the Designs and Drawings, the Construction Plan, the ESHS Documents, Applicable Laws, Applicable Permits and Good Industry Practices. For the avoidance of doubt, if there arises any ambiguity or conflict between the Technical Specifications and any Applicable Laws, then the one setting out the more stringent requirements or specifications shall prevail;

(ii) the Facilities are fabricated, erected, installed and completed in accordance with the final Designs and Drawings;

(iii) the Facilities are free from all defects in design, materials, and workmanship;

(iv) the Facilities are safe, reliable and fit for purpose;

(v) the [Location] FSTP(s) shall be capable of treating Faecal Sludge/Septage up to their respective Design Capacity; and

(vi) the [Location] STP(s) shall be capable of treating Sewage up to their respective Design Capacity.
(b) maintain and comply with the conditions of all Applicable Permits in undertaking the construction of the Facilities;

(c) within 30 (thirty) days of the Effective Date, and in any event, prior to the commencement of any construction of the Facilities, appoint a Person with sufficient skill and expertise to act as the Concessionaire's Representative. The Concessionaire's Representative shall monitor, coordinate and supervise the completion of the Facilities, and liaise with [Executing Agency]'s Representative, [Name of the State / National Level Agency, if any]'s Representative and the Project Engineer during the Construction Period and the O&M Period. At any time during the Term, the Concessionaire may replace the Concessionaire's Representative with prior written notice to [Executing Agency] and [Name of the State / National Level Agency, if any];

(d) provide all necessary assistance to the Project Engineer, [Name of the State / National Level Agency, if any], and [Executing Agency] in undertaking inspection of the Facilities, and in performing its other obligations and duties under this Agreement;

(e) ensure that none of its employees, consultants, service providers, suppliers, or sub-contractors, who may be engaged in future, shall be engaged in corrupt, fraudulent, collusive, coercive or obstructive practice, as defined in Clause 23.18;

(f) reasonably consider and act upon the comments/suggestions made by the Project Engineer and [Executing Agency] during any meetings with the Concessionaire;

(g) rectify any defects and/or deficiencies in the Facilities, including any defects and/or deficiencies identified by the Project Engineer or [Executing Agency];

(h) take all necessary measures to maintain the safety and security of personnel, material and property at the Site and the Adjoining Properties, in accordance with the approved ESHS Documents and all Applicable Laws;

(i) ensure that all excavated materials, earthworks, waste materials and hazardous substances are stored and/or disposed in accordance with the ESHS Documents, Applicable Laws and Applicable Permits;

(j) submit monthly reports to the Project Engineer (with a copy to [Executing Agency]), no later than 10 (ten) days after the end of each month, which should set out the following:

(i) extent of progress of construction activities performed by the Concessionaire for the Facilities;

(ii) comparison of actual progress against the planned progress of construction works, reasons for delay, if any and steps taken by the Concessionaire to mitigate the delay;

(iii) details of any accident or hazardous incident at the Site and the steps taken by the Concessionaire to mitigate the consequences of such accident or hazardous
incident; and

(iv) status of rectification of defects and/or deficiencies discovered by the Project Engineer or [Executing Agency];

(k) ensure that an adequate number of suitably skilled and experienced contractors, architects, workmen and other personnel are engaged to undertake the Project. The Concessionaire shall be solely responsible for the work performed by any staff and labour engaged by it to execute the Project and for payment of all applicable labour charges, fees, cess payable under Applicable Laws (including labour welfare legislations) in connection with the skilled and unskilled manpower employed for the Project, including specifically the ‘Building and Other Construction Workers Welfare Cess Act, 1996’. The Concessionaire shall ensure that its Subcontractors provide all necessary amenities and welfare facilities for the staff and labour engaged by them at the Site and comply with all applicable labour laws. The Concessionaire shall indemnify and hold harmless [Executing Agency] and [Name of the State / National Level Agency, if any] from and against all claims, liabilities, expenses, costs and losses suffered or incurred by [Executing Agency] or [Name of the State / National Level Agency, if any] due to the Concessionaire's or any Subcontractor's failure to comply with any Applicable Laws (including labour welfare legislations);

(l) arrange for all equipment, machinery, tools and other resources required to undertake the Project and be solely responsible for such equipment, machinery, tools and resources;

(m) take all reasonable measures to ensure that the transportation of any of the Concessionaire's or the Subcontractors' personnel or equipment, to or from the Site, does not interfere with local traffic in the vicinity of the Site;

(n) maintain accurate and systematic accounts and records of goods and material utilized and other costs and expenses incurred in connection with the construction works for the Facilities, including all invoices, receipts, challans, vouchers, quotations and other records and documents with respect to the Facilities in accordance with Applicable Laws;

(o) obtain and maintain adequate insurances as per this Agreement; and

(p) prepare and keep up-to-date, "as-built" records of the execution of the construction work for the Facilities, showing the exact as-built locations, sizes and details of the works executed. The "as-built" records shall be kept on the Site and be made available to the Project Engineer and [Executing Agency] for review and verification. The Concessionaire shall provide 4 (four) hard copies and 1 (one) soft copy on a compact disc, of the complete set of "as-built" drawings for the Facilities to [Executing Agency] as a condition precedent to the issuance of the Construction Completion Certificate.

(q) The Concessionaire shall not be ordinarily entitled to additional land beyond the quoted land in the Financial Proposal for the Construction of the Project. However, under unavoidable circumstances and in the interest of the Project, [Executing Agency] based
on availability, may consider to allocate additional land for the construction of the Project upon the request of the Concessionaire and such allocation shall be subject to the payment of [150% (one hundred and fifty percent)] of the [circle rate] of the land, for each additional acres of land and part thereof. If the additional land requirement changes position of the Selected Bidder vis-à-vis the second preferred bidder, then the Concessionaire shall pay to [Executing Agency], a sum of equivalent to: (a) 150% (one hundred and fifty percent) of the [circle rate] of the land for each additional acres of land and part there of; or (b) the difference between Bid Price of second preferred bidder and the revised Bid Price of the Selected Bidder/Concessionaire; whichever is higher.

7.7 [Power Plant]

(a) The Concessionaire may construct a biogas power plant at the [Location] Facilities Sites to utilise the biogas generated from the treatment of the Sewage/Faecal Sludge/Septage at the [Location] STP(s) and the [Location] FSTP(s) to produce clean energy. The Concessionaire may also construct a rooftop solar power plant or employ any other technology at the [Location] Facilities to produce clean energy. The Concessionaire shall utilise the energy produced by the power plant to operate the relevant Facilities and sell any excess energy to third party consumers during the Term, in accordance with all Applicable Laws.

(b) [If the Concessionaire chooses to construct a power plant at the Site, the Concessionaire shall undertake such construction of power plant at the Site in accordance with all Applicable Laws and after obtaining all necessary approvals and consents to construct the power plant at the Site.]

(c) The Concessionaire shall not be entitled to any additional land, Construction Payments, or an extension of the Scheduled Construction Completion Date for construction of the power plant.

(d) The Concessionaire shall not be entitled to any additional O&M Payments for operating the power plant.

(e) In case the Concessionaire sets up a power plant [Executing Agency] and [Name of the State / National Level Agency, if any] shall not be liable to the Concessionaire in any manner whatsoever if the quality or quantity of Sewage, Faecal Sludge/Septage delivered to the [Location] STP(s) and [Location] FSTP(s) is not adequate or appropriate to produce sufficient energy to operate the power plant at the [Location] Facilities Sites.

(f) The ownership, rights and title to the power plant constructed by the Concessionaire shall vest with [Executing Agency] during the entire Term and thereafter.

(g) It shall be the Concessionaire’s obligation to obtain all required clearances and approval for purposes of setting up, operating and maintaining the power plant.

7.8 [Executing Agency]’s Rights and Obligations
During the Construction Period, [Executing Agency] shall:

(a) to the extent applicable, comply with all its obligations under Applicable Laws (including, specifically the [Act applicable in the State] Act) and [Executing Agency] Applicable Permits;

(b) make reasonable endeavors to assist the Concessionaire in obtaining the Applicable Permits from the relevant Government Authorities, provided that the Concessionaire has complied with all the requirements as per Applicable Laws for applying for such Applicable Permits;

(c) maintain the Supporting Infrastructure to enable the delivery of Sewage/Faecal Sludge/Septage at the [Location] STP(s) and [Location] FSTP(s) and disposal of the Treated Effluent from the [Location] STP(s) and [Location] FSTP(s) during the Trial Operations;

(d) within 30 (thirty) days of the Effective Date, and in any event, prior to the commencement of any construction for the Facilities, appoint a Person with sufficient skill and expertise to act as [Executing Agency]'s Representative. [Executing Agency]'s Representative shall liaise with the Concessionaire's Representative, [Name of the State / National Level Agency, if any]'s Representative and the Project Engineer during the Construction Period and the O&M Period. At any time during the Term, [Executing Agency] may replace [Executing Agency]'s Representative with prior written notice to the Concessionaire and [Name of the State / National Level Agency, if any];

(e) cause the Project Engineer to carry out timely inspection of the Facilities, and perform its other obligations and duties under this Agreement;

(f) upon progressive completion of construction works for the Facilities in accordance with the Technical Specifications, Designs and Drawings, Construction Plan and other provisions of this Agreement, as certified by the Project Engineer, issue the Milestone Completion Certificates and the Construction Completion Certificate to the Concessionaire; and

(g) ensure that the Concessionaire enjoys peaceful access to the Site and shall not assign, transfer, or otherwise dispose its rights, title, and interest in the Site or create any Encumbrance over any part of the Site, which may adversely impact the exercise of the Concessionaire's rights and duties under this Agreement.

7.9 [Name of the State / National Level Agency, if any]'s29 Rights and Obligations

During the Construction Period, [Name of the State / National Level Agency, if any] shall:

(a) comply with all its obligations under the Applicable Laws;

29If not applicable the rights & obligations mentioned under this Clause has to be merged with the rights and obligations of the Executing Agency under Clause 7.8.
(b) make the Construction Payments, on satisfactory completion of the relevant Payment Milestone, in accordance with Clause 9.3;

(c) within 30 (thirty) days of the Effective Date, and in any event, prior to the commencement of any construction for the Facilities, appoint a Person with sufficient skill and expertise to act as the [Name of the State / National Level Agency, if any]'s Representative. [Name of the State / National Level Agency, if any]'s Representative shall liaise with the Concessionaire's Representative, [Executing Agency]'s Representative and the Project Engineer during the Construction Period and the O&M Period. At any time during the Term, [Name of the State / National Level Agency, if any] may replace the [Name of the State / National Level Agency, if any] Representative with prior written notice to [Executing Agency] and the Concessionaire; and

(d) ensure that the Escrow Account is funded with the Minimum Escrow Balance.

7.10 Utilities

(a) The Concessionaire shall obtain install and maintain at its cost, all utilities necessary for undertaking the construction of the Facilities, including all temporary power and water connections, lighting facilities, telephone connections, internet connections, etc. at the Site. The Concessionaire shall bear the cost of all power, water, and other utilities consumed by it during the Construction Period, and the Concessionaire shall not be entitled to claim any reimbursement from [Executing Agency] or [Name of the State / National Level Agency, if any] in this regard.

(b) The Concessionaire shall not be entitled to any extension of time or costs to comply with its obligations in Clause 7.10(a) and Clause 7.10(b) above.

(c) [Executing Agency] shall provide any reasonable assistance required by the Concessionaire to obtain the utilities for the construction of the Facilities.

7.11 Construction Timelines

(a) The Concessionaire shall comply with the Construction Plan, the Designs and Drawings and the Technical Specifications and complete the construction of the Facilities on or before the Scheduled Construction Completion Date.

(b) Subject to Clause 7.11(c) below, the Concessionaire shall be entitled to a day-for-day extension of the relevant Scheduled Payment Milestone Completion Date or as the case may be, the Scheduled Construction Completion Date, if the completion of construction of the Facilities is delayed due to any of the following reasons (each such event, a “Delay Event”):

(i) occurrence of a Force Majeure Event, provided that the requirements of Article 14 have been complied with;

(ii) a Qualifying Change in Law;
(iii) undue delay by the relevant Government Authority in granting or renewing any 
Applicable Permit, despite the Concessionaire having applied for such grant or 
renewal expeditiously and having complied with the requirements of Applicable 
Laws in making such application;

(iv) undue delay by the relevant Government Authority in providing any utility 
connection, despite the Concessionaire having applied for such utility connection 
expeditiously and having complied with the requirements of Applicable Laws in 
making such application;

(v) any delay attributable to unforeseen site conditions in accordance with Clause 
4.4;

(vi) delay by [Executing Agency] in approval of the Phase II Designs and Drawings 
in accordance with Clause 7.2;

(vii) delay by [Executing Agency] in approval of the O&M Manual in accordance 
with Clause 8.2;

(viii) delay by [Executing Agency] in approval of the ESHS document in accordance 
with Article 7.4;

(ix) delay by [Executing Agency] in issuance of a Milestone Completion Certificate 
in accordance with Clause 7.13(a);

(x) any variation proposed by [Executing Agency] in the Technical Specifications or 
the Designs and Drawings in accordance with Article 20; or

(xi) delay caused in complying with any instructions of [Executing Agency] or the 
Project Engineer, which instructions are not attributable to any default of the 
Concessionaire.

The Concessionaire shall promptly provide [Executing Agency] (with a copy to the 
Project Engineer and [Name of the State / National Level Agency, if any]) with a 
notice upon becoming aware of any Delay Event listed at Clause 7.11(b) above. The 
notice should specify the nature of the Delay Event, the extent of delay suffered or 
likely to be suffered by the Concessionaire and mitigation measures being taken by the 
Concessionaire.

The issuance of the notice under this Clause 7.11(b), within 7 days from the date the 
Concessionaire became aware of the Delay Event, shall be a condition precedent to the 
Concessionaire's entitlement to an extension under Clause 7.11(b).

(c) Without prejudice to the Concessionaire's obligations to notify [Executing Agency] 
regarding the occurrence of a Delay Event above, the Concessionaire shall: (i) keep and 
maintain records as reasonably necessary to substantiate and establish claims for 
extensions under Clause 7.11(b); and (ii) give [Executing Agency] and the Project
Engineer access to such records and documents or provide [Executing Agency] and the Project Engineer with copies, if so requested.

(d) If the Concessionaire claims an extension of time in accordance with Clause 7.11(b) and [Executing Agency] is of the opinion that such delay was caused or materially contributed to by any concurrent or interacting cause or causes of delay not listed in Clause 7.11(b) but solely attributable to the Concessionaire, then the Concessionaire shall not be entitled to any extension of time for the concurrent period of delay.

(e) If two or more of the Delay Events listed in Clause 7.11(b) occur concurrently, then such concurrent period shall not be counted twice in determining an extension under Clause 7.11(b).

(f) Except as provided in Clause 7.11(b), the Concessionaire shall not be entitled to any extension of time for any reason whatsoever, including due to:

(i) delay caused in complying with any instructions of [Executing Agency] or the Project Engineer which are attributable to any act or omission of the Concessionaire;

(ii) failure of any Subcontractor to commence or carry out any work within the prescribed timelines;

(iii) unavailability or shortage of equipment, materials, or any other resources;

(iv) any delay in approving the drafts of the Designs and Drawings, the Construction Plan, the ESHS Documents or any other document submitted by the Concessionaire due to any deficiencies or shortcomings in such drafts of the Designs and Drawings, the Construction Plan, the ESHS Documents or other documents, as the case may be; or

(v) [Location] the construction of Power Plant at the Site

(g) Any Dispute between the Parties with respect to the occurrence, length of subsistence or consequence of any of the Delay Event shall be settled in a final and binding manner in accordance with Article 21.

7.12 Delay Liquidated Damages and Bonus

(a) Subject to Clause 7.11(b), if the Concessionaire fails to complete the work corresponding to any Payment Milestone by the relevant Scheduled Payment Milestone Completion Date or fails to complete the construction of the Facilities by the Scheduled Construction Completion Date, then [Executing Agency] shall be entitled to liquidated damages for each day of delay beyond the Scheduled Payment Milestone Completion Date, or, as the case may be, the Scheduled Construction Completion Date, at the rate of 0.1% (zero point one per cent) of the [Location] Facilities Performance Security (in case of a delay in achieving a [Location] Facilities Payment Milestone or completing the [Location] Facilities by the Scheduled Construction Completion Date) for each day
of delay up to 6 (six) months from the Scheduled Payment Milestone Completion Date, or the Scheduled Construction Completion Date as the case may be (the "Delay Liquidated Damages").

The Delay Liquidated Damages will be payable until the work for the relevant Payment Milestone is completed or, as the case may be, the construction of the Facilities is completed, as certified by [Executing Agency] in accordance with Clause 7.13.

If the Concessionaire completes the construction of the Facilities by the Scheduled Construction Completion Date, the aggregate Delay Liquidated Damages recovered by [Executing Agency] under this Clause 7.12(a) for a delay in achieving any Payment Milestone shall be refunded by [Executing Agency] to the Concessionaire, without any interest.

(b) [Executing Agency] shall be entitled to deduct the Delay Liquidated Damages from the amount payable to the Concessionaire for any Payment Milestone, and if such amounts are insufficient, [Executing Agency] shall have a right to invoke the Performance Securities to the extent of the Delay Liquidated Damages.

(c) The Parties acknowledge that the Delay Liquidated Damages are a genuine pre-estimation of and reasonable compensation for the loss that shall be suffered by [Executing Agency] as a result of the delay in the completion of the Facilities, and not as penalty.

(d) If, for any reason, the above paragraphs relating to the payment of Delay Liquidated Damages are void, invalid or otherwise inoperative so as to disentitle [Executing Agency] from claiming any Delay Liquidated Damages, then [Executing Agency] will be entitled to claim against the Concessionaire for general damages for delay in completing the works for the relevant Payment Milestone by the Scheduled Payment Milestone Completion Date, or for the delay in completing the construction of the Facilities by the Scheduled Construction Completion Date.

(e) If the Concessionaire fails to complete the works for a Payment Milestone within 6 (six) months of the Scheduled Payment Milestone Completion Date or if the Concessionaire fails to complete the construction of the Facilities within 6 (six) months from the Scheduled Construction Completion Date, other than on account of any Delay Event (the “Grace Period”), then such failure shall be deemed to be a Concessionaire Event of Default in accordance with Clause 16.1.

(f) The payment or deduction of Delay Liquidated Damages shall not relieve the Concessionaire from its obligations to complete the construction of the Facilities, or from any of its other duties, obligations or responsibilities under the Agreement. The Concessionaire shall use and continue to use its best endeavors to avoid or reduce further delay in completing the Facilities.

(g) Bonus on early completion

If the Construction Completion Date for a Facilities occurs prior to the Scheduled
Construction Completion Date, the Concessionaire shall be entitled to a bonus equal to 0.05% (zero point zero five per cent) of the relevant Performance Security for each day by which the Construction Completion Date precedes the Scheduled Construction Completion Date.

7.13 Completion of Works

(a) Completion of Payment Milestones

(i) Upon completion of the works corresponding to each Payment Milestone, as specified in the Construction Plan, the Concessionaire shall issue a notice to [Executing Agency], with a copy to the Project Engineer and [Name of the State / National Level Agency, if any], requiring [Executing Agency] to inspect (or cause the Project Engineer to inspect) the completed works covered by the relevant Payment Milestone. The purpose of such inspection shall be to determine whether the works corresponding to the relevant Payment Milestone have been completed in accordance with the requirements of Clause 7.6.

(ii) If [Executing Agency] is satisfied that the works for the relevant Payment Milestone have been completed in accordance with the requirements of Clause 7.6, then, subject to Clause 7.13(a)(v) below, [Executing Agency] shall issue a Milestone Completion Certificate to the Concessionaire for such completed Payment Milestone, with a copy to [Name of the State / National Level Agency, if any], within 7(seven) Business Days from the date of inspection of the works covered by such Payment Milestone.

(iii) If [Executing Agency] is of the view that the works for the relevant Payment Milestone do not satisfy the requirements of Clause 7.6, then [Executing Agency] shall have the right to provide any comments, suggestions and/or instruct the Concessionaire to carry out necessary modifications, to ensure that the works comply with the requirements of Clause 7.6. Upon receipt of such comments, suggestions or instructions from [Executing Agency], the Concessionaire shall make necessary modifications to the works to remedy any defects or deficiencies and re-issue a notice to [Executing Agency]. The Concessionaire shall bear all costs of remedying the defects and deficiencies in the works and shall not be entitled to any extension of time for remediing such defects or deficiencies. This process shall be repeated until [Executing Agency] is satisfied that the works for the relevant Payment Milestone have been completed in accordance with the requirements of Clause 7.6 and issues a Milestone Completion Certificate in accordance with this Clause 7.13(a).

(iv) If [Executing Agency] fails to:

(A) inspect the completed portion of the works covered by the relevant Payment Milestone, within 7 (seven) Business Days from the date of receipt of a notice from the Concessionaire under Clause 7.13(a)(i) above;

(B) provide any comments or suggestions or notify the Concessionaire of any defects or deficiencies in the completed portion of the works covered by the
relevant Payment Milestone, within 7 (seven) Business Days from the date of inspection of such completed portion of the works; or

(C) issue the Milestone Completion Certificate, within 7 (seven) Business Days from the date of inspection of the completed portion of the works covered by the relevant Payment Milestone,

then, such delay shall be treated as a Delay Event, which will entitle the Concessionaire to a day for day extension in the Scheduled Payment Milestone Completion Date or the Scheduled Construction Completion Date, as the case may be, beyond the 7 (seven) Business Days period.

(v) [Executing Agency] may exercise its rights to review and certify the completion of works for any Payment Milestone either itself or through the Project Engineer. If [Executing Agency] instructs the Project Engineer to undertake a review of the works, then the Concessionaire shall cooperate with the Project Engineer to facilitate such review and rectify any defects or deficiencies identified by the Project Engineer in the works. Provided that, in all instances, [Executing Agency] shall finally approve the works and issue the Milestone Completion Certificates.

(b) Testing and Commissioning of the Facilities

(i) Upon completion of construction of each Facilities, in accordance with the requirements set out in this Agreement, the Concessionaire shall issue a notice to [Executing Agency], with a copy to [Name of the State / National Level Agency, if any], requiring it to be present at the Site on the date specified in such notice to undertake a final inspection of the completed Facilities and conduct any tests required to ensure that the Facilities complies with the Technical Specifications, the Designs and Drawings, Applicable Laws and Applicable Permits.

(ii) Within 5 days from the date of receipt of a notice under Clause 7.13(b)(i) above, [Executing Agency] may request the Concessionaire to vary the date of the final inspection and tests and the Concessionaire shall accommodate such request, provided that, such date shall be no later than 7 (seven) days from the date specified in the notice received from the Concessionaire under Clause 7.13(b)(i) above.

(iii) The Concessionaire shall, on the date specified in the notice issued under Clause 7.13(b)(i) or on such other date as may be agreed with [Executing Agency], carry out the tests in accordance with the instructions and under the supervision of [Executing Agency], to demonstrate that the Facilities complies with the requirements of Clause 7.6.

(iv) If [Executing Agency] is not satisfied with the results of the tests or inspection, then the Concessionaire shall remedy any defects or deficiencies in the Facilities, identified by [Executing Agency] or revealed through the tests and the Facilities shall be tested again upon rectification of such defects or deficiencies. This
process shall be repeated until such time that [Executing Agency] is satisfied that the Facilities has been completed in accordance with Clause 7.6 and is safe and fit for purpose. The Concessionaire shall bear all costs of remedying the defects and deficiencies and retesting the Facilities and shall not be entitled to any extension of time for remedying such defects or deficiencies or for retesting the Facilities.

(v) If [Executing Agency] is satisfied with the results of the tests and inspection of the Facilities, [Executing Agency] shall issue the Milestone Completion Certificate in respect of the last Payment Milestone to the Concessionaire, with a copy to [Name of the State / National Level Agency, if any], within 7 (seven) days from the date of inspection and testing of the completed Facilities. The issue of the Milestone Completion Certificate for the last Payment Milestone shall certify that the Facilities has been completed in accordance with this Agreement, the Technical Specifications, the Designs and Drawings, Applicable Laws and Applicable Permits and the Facilities is safe and fit for purpose.

(vi) If [Executing Agency] fails to:

(A) inspect or witness the testing of the Facilities within 14 (fourteen) Business Days from the date of receipt of notice from the Concessionaire issued under Clause 7.13(b)(i) or such other date as may be agreed with the Concessionaire;

(B) notify the Concessionaire of any defects or deficiencies in the Facilities within 7 (seven) Business Days from the date of inspection and testing of the Facilities; or

(C) issue the Milestone Completion Certificate for the last Payment Milestone within 7 (seven) Business Days from the date of inspection and testing of the Facilities,

then, such delay shall be treated as a Delay Event, which will entitle the Concessionaire to a day for day extension in the Scheduled Payment Milestone Completion Date and the Scheduled Construction Completion Date.

(c) Issue of Construction Completion Certificate

(i) Within 7 (seven) Business Days from the date of issuance of the Milestone Completion Certificate for the last Payment Milestone, [Executing Agency] shall issue the Construction Completion Certificate for the Facilities to the Concessionaire, with a copy to [Name of the State / National Level Agency, if any], subject to the following conditions having been fulfilled by the Concessionaire:

(A) the submission of 4 (four) hard copies and 1 (one) soft copy on a compact disc of complete sets of the ‘as-built’ drawings of the Facilities;
(B) the Concessionaire having obtained all Applicable Permits necessary for commencement of the O&M services (including specifically, the consent to operate from the [State Pollution Control Board] for the operation of the Facilities);

(C) the Concessionaire having obtained adequate insurance for the O&M Period in accordance with Clause 11.2;

(D) the Concessionaire having engaged sufficient number of adequately skilled O&M personnel to perform the services during the O&M Period; and

(E) the O&M Manual having been approved by [Executing Agency]; and

(F) the Concessionaire having cleared the Site and removed all debris, hazardous materials, surplus construction materials, equipment, temporary works, work sheds, labour camps and all other temporary installations on the Site.

(ii) If [Executing Agency] fails to issue the Construction Completion Certificate for the Facilities to the Concessionaire within 7 (seven) Business Days from the date of satisfaction of the conditions set out in Clause 7.13(c)(i)(A) to (F) above and fails to notify the Concessionaire of any reasons for the failure to issue the Construction Completion Certificate for the Facilities, then, the Construction Completion Certificate for the Facilities shall be deemed to have been issued to the Concessionaire upon the expiry of the 7 (seven) Business Days period.

(iii) The date of the issuance or deemed issuance of the Construction Completion Certificate shall be the Construction Completion Date for the Facilities.

7.14 Trial Operations

(a) Subject to Clause 7.14(c) below, within [1 (one)] day of the issuance or deemed issuance of the Construction Completion Certificate for the Facilities to the Concessionaire, the Concessionaire shall commence the Trial Operations of the Facilities in accordance with the Trial Operation Procedures to determine whether the Facilities meets the KPIs on a continuous basis and is fit and ready to be placed into commercial operations for treatment and disposal of Sewage/Faecal Sludge/Septage in accordance with this Agreement.

(b) [Executing Agency] shall ensure that adequate quantity of Sewage/Faecal Sludge/Septage is delivered to the Facilities during the Trial Operations to enable the Concessionaire to demonstrate that the Facilities meets the Technical Specifications and the KPIs.

(c) If the Concessionaire fails to commence or continue the Trial Operations, due to the inadequate quantity or inferior quality of the Sewage/Faecal Sludge/Septage delivered to the relevant Facilities, then the Concessionaire shall promptly notify [Executing Agency]. If in the opinion of [Executing Agency], the quantity or quality of
Sewage/Faecal Sludge/Septage is not adequate to undertake Trial Operations, then [Executing Agency] shall extend the time period for the Trial Operations. In such case, the Scheduled COD will also be extended on a day-for-day basis, provided that the Scheduled COD shall not be extended beyond the date which is 6 (six) months from the Construction Completion Date.

(d) During the Trial Operations, [Executing Agency] shall or shall cause the Project Engineer to monitor the performance of the Facilities on a regular basis and shall have the right to test the compliance of the incoming Sewage/Faecal Sludge/Septage with the Influent Standards and test the compliance of the STP By-Products, FSTP By-Products and the Treated Effluent with the Discharge Standards every 7 (seven) days to ensure that the Facilities meets the Technical Specifications.

(e) If [Executing Agency], or, as the case may be, the Project Engineer is of the view that: (i) the Trial Operations are not being conducted in accordance with the Trial Operations Procedure; or (ii) there are any defects or deficiencies in the Facilities, [Executing Agency] shall instruct the Concessionaire to follow the Trial Operation Procedures and/or rectify the defects and deficiencies to ensure compliance with the KPIs.

It is clarified that no Availability Liquidated Damages or Performance Liquidated Damages are payable by the Concessionaire during the Trial Operations period for a failure to achieve the KPIs. However, for the Trial Operations to be successfully concluded, the Concessionaire must demonstrate that the Facilities consistently and continuously meets the KPIs during the last 20 (twenty) days of the 3 (three) months Trial Operations period, as may be extended in accordance with Clause 7.14(c) above. If the Facilities fails to achieve the KPIs on a continuous basis during the last 20 (twenty) days of the initial 3 (three) months Trial Operations period (as extended in accordance with Clause 7.14(c)), then the Trial Operations period shall be extended by another 20 days. Subject to Clause 7.14(c)(i), the Trial Operations shall continue until the Concessionaire can demonstrate that the Facilities consistently achieves the KPIs for 20 (twenty) consecutive days.

(f) If the Concessionaire has been able to consistently achieve the KPIs for 20 (twenty) consecutive days (as supported by daily reports), the Concessionaire shall issue a notice to [Executing Agency] requiring [Executing Agency] to undertake a final inspection of the Facilities. [Executing Agency] shall have the right to undertake such final inspection within 5 (five) Business Days of a notice being issued by the Concessionaire.

(g) If, upon final inspection, [Executing Agency] is satisfied that the Facilities meets the KPIs and the Technical Specifications, and are capable of safe and reliable operations, then, [Executing Agency] shall issue the Trial Operations Completion Certificate for the Facilities to the Concessionaire within 7 (seven) days of [Executing Agency] undertaking a final inspection of the Facilities pursuant to Clause 7.14(e) above.

(h) If, upon final inspection, [Executing Agency] believes that the Facilities does not comply with the KPIs and/or Technical Specifications, other than due to: (i) volume of Sewage/Faecal Sludge/Septage being inadequate to conduct the Trial Operations; or (ii) the quality or characteristics of the Sewage/Faecal Sludge/Septage being beyond the
Influent Standards, then [Executing Agency] shall reject the Facilities and terminate this Agreement. Upon termination of this Agreement, in accordance with this Clause 7.14(g), the consequences set out in Article 16 shall follow.

(i) If [Executing Agency]: (i) does not undertake a final inspection of the Facilities within 5 (five) Business Days of receipt of a notice from the Concessionaire under Clause 7.14(e); or (ii) fails to notify the Concessionaire of any defects in the Facilities within 7 (seven) days of undertaking a final inspection; or (iii) fails to issue a Trial Operations Completion Certificate within 7 (seven) Business Days from the date of the final inspection, then the Trial Operations shall be deemed to have been successfully completed for Facilities and the Trial Operations Completion Certificate will be deemed to have been issued to the Concessionaire upon the expiry of the 5 (five) Business Days period (in case of (i)) and upon the expiry of the 7 (seven) Business Days period (in case of (ii) and (iii)).

(j) If the Trial Operations are not successfully completed and/or the Concessionaire fails to issue a notice to [Executing Agency] under Clause 7.14(e) above on or prior to the Scheduled COD, as may be extended in accordance with Clause 7.14(c), for any Facilities, then such failure shall be treated as a Concessionaire Event of Default and the consequences set out at Article 16 shall follow.

(k) Notwithstanding anything contained in Clause 7.14(h), if the Concessionaire fails to successfully complete the Trial Operations for the Facilities on or prior to the Scheduled COD, as may be extended in accordance with Clause 7.14(c), due to the: (i) volume of Sewage/Faecal Sludge/Septage being inadequate to conduct the Trial Operations; or (ii) quality or characteristics of the Sewage/Faecal Sludge/Septage being beyond the Influent Standards, for any Facilities, then such failure will be treated as a [Executing Agency] Event of Default, and the consequences set out at Article 16 shall follow.

(l) The Concessionaire will not be entitled to any O&M Payments or any other payment for conducting the Trial Operations, which shall be carried out solely at the cost and risk of the Concessionaire.

7.15 Commercial Operations Date

(a) Within 7 (seven) Business Days from the date of issuance or deemed issuance of the Trial Operations Completion Certificates for the [Location] Facilities, [Executing Agency] shall issue the COD Certificate, with a copy to [Name of the State / National Level Agency, if any], subject to the following conditions having been fulfilled by the Concessionaire:

(i) the Concessionaire having received the Construction Completion Certificate
(ii) the Concessionaire having submitted to [Executing Agency] the Scheduled Maintenance Programme for the first-year post COD; and
(iii) the O&M Manual having been approved by [Executing Agency]
(iv) the Concessionaire having submitted the [Location] Facilities O&M Security to [Executing Agency].
(b) If [Executing Agency] fails to issue the COD Certificate to the Concessionaire within 7 (seven) Business Days from the date of satisfaction of the conditions set out in Clause 7.15 (a) above and fails to notify the Concessionaire of any reasons for the failure to issue the COD Certificate, then, the COD Certificate shall be deemed to have been issued to the Concessionaire upon the expiry of the 7 (seven) Business Days period.

(c) The date on which the COD Certificate is issued or deemed to have been issued to the Concessionaire shall be the Commercial Operations Date of the Facilities.
ARTICLE 8
OPERATIONS AND MAINTENANCE PERIOD

8.1 Commencement and Duration

The period for the operation and maintenance of the Facilities shall commence on and from COD and shall continue until the Expiry Date (the “O&M Period”), unless the Agreement is terminated earlier in accordance with Article 16.

8.2 O&M Manual

(a) The Concessionaire shall prepare a detailed O&M Manual for the Facilities based on the Proposed Technology and in accordance with the Technical Specifications, the ESHS Documents, Applicable Laws and Applicable Permits. The O&M Manual shall specify the operation procedures (separately for each component of the Facilities) and maintenance procedures. In case of any errors or deficiencies in the Technical Specifications, the O&M Manual shall take in account, address or rectify such errors or deficiencies. The Language of the O&M Manual shall be English.

(b) At least 30 (thirty) days prior to the Scheduled Construction Completion Date, the Concessionaire shall submit 4 (four) hard copies and 1 (one) soft copy on a compact disc of the draft O&M Manual to [Executing Agency] for its review and approval.

(c) [Executing Agency] shall review and provide comments, if any, on the draft O&M Manual to the Concessionaire or notify the Concessionaire of its approval of the draft O&M Manual within 20 (twenty) days from the date of receipt of the draft O&M Manual from the Concessionaire. [Executing Agency] may require the Concessionaire to amend or modify the draft O&M Manual if [Executing Agency] identifies any deficiencies, inaccuracies or shortcomings in the draft O&M Manual. If the Concessionaire receives any comments, suggestions or instructions to modify the draft O&M Manual from [Executing Agency], then the Concessionaire shall modify the draft O&M Manual to correct any shortcomings, inaccuracies or deficiencies identified by [Executing Agency] and/or address, in writing, [Executing Agency]'s comments on the draft O&M Manual and submit the revised O&M Manual to [Executing Agency] within 10 days of having received [Executing Agency]'s response, for its approval. The process set out in this Clause 8.2(c) shall continue until the O&M Manual is approved by [Executing Agency] in accordance with this Clause 8.2(c).

(d) The Concessionaire shall revise the O&M Manual as and when the Concessionaire thinks it necessary to do so and in such case the provisions of Clause 8.2(c) will apply as is to the approval of the revised manual.

(e) The Concessionaire shall undertake the O&M of the Facilities strictly in accordance with the approved O&M Manual. The Concessionaire shall not deviate from or make any amendment to the approved O&M Manual without the prior written approval of [Executing Agency]. The Concessionaire shall not commence operation of the Facilities prior to approval of the O&M Manual in accordance with this Clause 8.2.
(f) Notwithstanding any approval of the O&M Manual by [Executing Agency], the Concessionaire shall bear all risk, responsibility and liability for the suitability, accuracy, adequacy and practicality of the O&M Manual. The Concessionaire shall not be entitled to any extension of time and/or costs incurred in the preparation of or updating the O&M Manual and complying with the requirements of this Clause 8.2.

(g) The Concessionaire shall submit a consolidated O&M Manual for the [Location] Facilities.

8.3 Subcontracting

(a) The Concessionaire may enter into Subcontracts to perform any part of its scope of work during the O&M Period, with the prior written consent of [Executing Agency].

(b) The Concessionaire shall provide a copy of each proposed Subcontract, along with details of the relevant Subcontractor, to [Executing Agency] for its approval, which should set out the precise scope of work to be subcontracted to such Subcontractor and should be consistent with the terms of this Agreement.

(c) Within 15 (fifteen) days of receipt of a draft Subcontract under Clause 8.3(b) above, [Executing Agency] shall notify the Concessionaire of its approval or rejection (along with reasons) of the Subcontractor.

(d) The approval of any Subcontractor and the corresponding Subcontract by [Executing Agency] shall be subject to the following conditions:

   (i) the Subcontractor appointed by the Concessionaire possesses the requisite skill, expertise and capability to perform the relevant obligations of the Concessionaire during the O&M Period;

   (ii) the Subcontract is on terms consistent with this Agreement;

   (iii) the Subcontract contains provisions that provide, at [Executing Agency]'s option, for the Subcontract to be novated or assigned to [Executing Agency] or its nominee without any further consent or the approval from the Concessionaire or the Subcontractor or entitle [Executing Agency] or its nominee to step into such Subcontract, in substitution of the Concessionaire, if this Agreement is terminated due to a Concessionaire Event of Default. However, the step-in rights of [Executing Agency] shall always be subject to the substitution rights of the Lenders under this Agreement or the Substitution Agreement; and

   (iv) the Concessionaire shall be responsible for the supervision and monitoring of the performance of any work or services by the Subcontractors.

(e) If [Executing Agency] does not notify its approval or rejection of any Subcontract to the Concessionaire within 15 (fifteen) days of the receipt of the draft Subcontract, then
such Subcontract will be deemed to be approved by [Executing Agency].

(f) Within 7 (seven) days of the execution of an amendment to any approved Subcontract, the Concessionaire shall submit a copy of such amendment to [Executing Agency] for its records.

(g) If the Concessionaire proposes to novate an approved Subcontract and/or replace an approved Subcontractor, then such novation or replacement shall be with prior approval of [Executing Agency] and the process set out in this Clause 8.3 shall apply in such case.

(h) Notwithstanding the approval of any Subcontractor by [Executing Agency], the Concessionaire shall be and remain liable under this Agreement for all work and services subcontracted under this Agreement and for all acts, omissions or defaults of any Subcontractor. No default under any Subcontract shall excuse the Concessionaire from its obligations or liabilities under this Agreement. All references in this Agreement to any act, default, omission, breach or negligence of the Concessionaire shall be construed to include any such act, default, omission, breach or negligence of the Subcontractors.

8.4 Concessionaire's rights and obligations

(a) The Concessionaire shall operate and maintain the Facilities in a manner that:

(i) is in compliance with the Technical Specifications, Applicable Laws, Applicable Permits and Good Industry Practice;
(ii) results in the Facilities achieving the KPIs;
(iii) ensures that each of the [Location] STP is capable of treating Sewage up to its Design Capacity on a daily basis
(iv) ensures that each of the [Location] FSTP is capable of treating Faecal Sludge/Septage up to its Design Capacity on a daily basis
(v) ensures efficient treatment of Sewage/Faecal Sludge/Septage ensures that each of the [Location] STP and [Location] FSTP is capable of treating Sewage/Faecal Sludge/Septage up to its Design Capacity on a daily basis
(vi) and handling and disposal of STP By-Products, FSTP By-Products and the Treated Effluent;
(vii) is safe and reliable, subject to normal wear and tear of the Facilities;
(viii) is in compliance with the technology license agreement(s) executed by the Concessionaire for the technology, processes, know-how and systems used or incorporated into the Facilities
(ix) maintains the safety and security of personnel, material and property at the Site, in accordance with the approved ESHS Documents, Applicable Laws and Applicable Permits; and
(x) ensures that all waste materials and hazardous substances are stored and/or disposed in accordance with the ESHS Documents, Applicable Laws and Applicable Permits
(xi) rectify, cure, remedy all defects, deficiencies, defaults, damage etc. with all of the facilities at its own cost and risk.
(b) The Concessionaire shall provide adequate power backup at the Site (including through installation of DG Sets) to ensure continuous supply of power (even during any interruption(s) in the supply of power from the grid) for the uninterrupted operations of the Facilities during the O&M Period.

(c) The Concessionaire shall provide all necessary assistance to the Project Engineer, [Name of the State / National Level Agency, if any], and [Executing Agency] in undertaking inspection and monitoring of the operation and maintenance of the Facilities.

(d) The Concessionaire shall reasonably consider and act upon the comments/suggestions made by the Project Engineer and [Executing Agency] during any meetings of the Concessionaire with its Subcontractors.

(e) The Concessionaire shall provide [Executing Agency] and the Project Engineer with reasonable access to the Site during office hours to monitor and inspect the Facilities.

(f) The Concessionaire shall arrange for all equipment, machinery, tools and other resources required to undertake the O&M of the Facilities and shall take all reasonable measures to ensure that the transportation of any of the Concessionaire's or the Subcontractors' personnel or equipment, to or from the Site, does not interfere with local traffic in the vicinity of the Site.

(g) The Concessionaire shall develop and implement a safety and surveillance programme for the Facilities and for handling and disposal of the STP By-Products, FSTP By-Products and the Treated Effluent and adopt appropriate measures and safeguards for security of the environment, life, and property at the Site.

(h) The Concessionaire shall ensure that none of its employees, consultants, service providers, suppliers, or Subcontractors, including any O&M contractor appointed by the Concessionaire, shall engage in any corrupt, fraudulent, collusive, coercive or obstructive practice, as defined in Article 23.18.

8.5 [Executing Agency]'s rights and obligations

During the O&M Period, [Executing Agency] shall:

(a) to the extent applicable, comply with all its obligations under Applicable Laws (including, specifically the [ACT APPLICABLE IN THE STATE] Act) and [Executing Agency] Applicable Permits;

(b) monitor and review the operations and performance of the Facilities, including disposal of the STP By-Products, FSTP By-Products and the Treated Effluent. This includes the right to access the Facilities, and review the records and reports that the Concessionaire is required to maintain, during normal working hours;

(c) review the Scheduled Maintenance Programme and all other plans and documents
submitted by the Concessionaire in an expeditious manner, in accordance with this Agreement; and

(d) ensure that the Concessionaire continues to enjoy peaceful access to the Site and shall not assign, transfer, or otherwise dispose of its rights, title, and interest in the Site or create any Encumbrance over any part of the Site, which may adversely impact the exercise of the Concessionaire's rights and duties under this Agreement.

8.6 [Name of the State / National Level Agency, if any]'s rights and obligations

During the O&M Period, [Name of the State / National Level Agency, if any] shall:

(a) comply with all its obligations under the Applicable Laws;

(b) make the O&M Payments in accordance with Clause 9.4; and

(c) ensure that the Escrow Account is funded with the Minimum Escrow Balance.

8.7 Utilities

(a) The Concessionaire shall apply for and obtain the power connection (at the battery limit of the relevant Site) for the operation of the Facilities, in its name, at least 30 (thirty) days prior to the Scheduled Construction Completion Date. The [Executing Agency] shall provide all necessary assistance to the Concessionaire in procuring the power connection, including by providing all documents and information necessary to complete the application process.

(b) The Concessionaire shall install and maintain at its cost, all utilities necessary for the O&M of the Facilities, including water, telephone connections, internet connections, etc., at the Site. Specifically, to procure water for the O&M of the Facilities, the Concessionaire may dig bore wells at the Site after obtaining all Applicable Permits (including any no-objection certificates from the Central Ground Water Authority or the relevant state authority).

(c) The Concessionaire shall not be entitled to any additional costs to comply with its obligations in this Clause 8.7.

(d) [Executing Agency] shall provide any reasonable assistance required by the Concessionaire to obtain the utilities for the O&M of the Facilities.

8.8 Monitoring and Reporting

(a) Online Monitoring and Meters

(i) At [Location] STP/Pumping Stations, the Concessionaire shall install and

30If not applicable the rights & obligations mentioned under this Clause has to be merged with the rights and obligations of the Executing Agency under Clause 8.5
maintain an online monitoring system, in accordance with the Technical Specifications and Applicable Laws (including specifically, the EPA) to monitor the volume, specifications and characteristics of the incoming Sewage/Faecal Sludge/Septage ensures that each of the [Location] STP(s) and [Location] FSTP(s) is capable of treating Sewage/Faecal Sludge/Septage up to its Design Capacity on a daily basis.

(ii) The online monitoring devices should be capable of measuring and analyzing:

(A) the flow rate and characteristics of the Sewage/Faecal Sludge/Septage at the Inlet Point and of the Treated Effluent at the Outlet Point.
(B) the sump level of the Pumping Station and the flow rate of the Sewage/Faecal Sludge/Septage at the Outlet Point of the Pumping Station

Apart from flow monitoring, record shall be maintained for equipment’s historical running information, status, faults, and any other parameters required to judge its conditions. Such monitoring shall be conducted in accordance with Applicable Laws and Good Industry Practices.

(iii) As part of the online monitoring system, the Concessionaire shall also install flow measurement meters in accordance with Applicable Laws and Technical Specifications, at the rising mains, Inlet Point, the Outlet Point and at any other point set out in the Technical Requirements/Specifications or required as per Applicable Laws, to measure the flow of Sewage/Faecal Sludge/Septage over the weir and the volume and concentration of Sewage/Faecal Sludge/Septage delivered to the Facilities, and the Treated Effluent discharged from the Facilities.

(iv) The Concessionaire shall record and transmit all data collected from the online monitoring systems and the meter reading of the grade, volume and characteristics of the incoming Sewage/Faecal Sludge/Septage and the Treated Effluent. The Concessionaire shall furnish a summary report for [Location] STP(s) and [Location] FSTP(s) to [Executing Agency] (with a copy to the Project Engineer) on a daily basis, which shall indicate: (A) the volume of the Sewage/Faecal Sludge/Septage received at the relevant [Location] STP(s) and [Location] FSTP(s) and the volume of the Treated Effluent discharged from the relevant [Location] STP(s) and [Location] FSTP(s) during each hour of the relevant day; (B) the periods during which the volume of Sewage/Faecal Sludge/Septage received at the relevant [Location] STP(s) and [Location] FSTP(s) exceeded its Design Capacity; (C) the quality of the incoming Sewage/Faecal Sludge/Septage was beyond the Influent Standards; (D) the quality of the Treated Effluent was beyond the Discharge Standards, (E) hourly sump level for each sewage pumping station (SPS); and (F) the hourly volume of Sewage discharged at each SPS.

(v) The Concessionaire shall also be required to upload the periodic reports from the online monitoring on the Central Pollution Control Board's website.

(vi) The Concessionaire shall maintain the online monitoring systems and meters at
its own cost and expense for the entire O&M Period.

(i) At [Location] STP(s) and [Location] FSTP(s), the Concessionaire shall also install meters and gauges at the DG Sets to measure the total number of energy units (in kWh) consumed from the DG Sets in each month of the O&M Period.

(ii) If the Concessionaire sets up a Power Plant, then the Concessionaire shall install meters at the Power Plant to measure the total number of energy units (in kWh) generated from the Power Plant in each month of the O&M Period.

(iii) The meters shall be calibrated once every year during the O&M Period in accordance with Good Industry Practices and the meters shall be jointly tested by [Executing Agency] and the Concessionaire to ensure the accuracy of the meters installed by the Concessionaire.

(b) Records and Reporting Requirements

(i) The Concessionaire shall maintain:

(A) records of the volume and characteristics of the Sewage/Faecal Sludge/Septage received at, and the STP By-Products, FSTP By-Products, and the Treated Effluent discharged from the [Location] STP(s) and [Location] FSTP(s); and
(B) records of the sump levels and volume of the Sewage/Faecal Sludge/Septage discharged from the relevant location’s SPSs; and
(C) books of accounts recording all payments received from [Name of the State / National Level Agency, if any] and other revenues derived/collected by it from the Facilities or resulting from its use, separately for [Location] STP(s) and [Location] FSTP(s).

(ii) The Concessionaire shall provide to [Executing Agency], 2 (two) copies of its audited financial statements along with a report from its statutory auditors, within 90 (ninety) days of the close of each Financial Year.

(iii) For [Location] STP(s) and [Location] FSTP(s), the Concessionaire shall deliver to [Executing Agency], with a copy to the Project Engineer, the following during the O&M Period within the specified timelines:

(A) reports relating to any activity, problem, incident or circumstance that threatens or may threaten public health, safety, the environment or the safety and security of the Facilities, and any action taken to mitigate the effect of such incident or problem, as soon as reasonably practicable but no later than 12 hours after the occurrence of such event or circumstance;

(B) reports on any critical breakdowns or failures in the Facilities, within 12 hours of such occurrence;

(C) reports on accidents or other incidents in relation to the O&M personnel or
any third party, along with statements on actions taken to minimize recurrence, within 2 (two) days of such occurrence;

(D) daily reports with the data collected from the monitoring and metering system, the online monitoring system and the tests conducted by the Concessionaire in accordance with Clause 8.10 on the characteristics and volume of Sewage/Faecal Sludge/Septage treated at the Facilities, the STP By-Products, FSTP By-Products and the Treated Effluent discharged from the Facilities, at the end of each day (i.e., on or before 1500 hours every day);

(E) monthly progress reports relating to the performance of O&M services (including on compliance with the KPIs, details of disposal or sale, as the case may be, of the STP By-Products, FSTP By-Products and the Treated Effluent, and details of any Emergency during the relevant month), on or before the 7th (seventh) day of the following month. The monthly progress report must be certified by the Project Engineer before it is submitted to [Executing Agency];

(F) copies of any reports, notices or responses submitted for compliance/non-compliance with Applicable Laws or Applicable Permits, within 2 (two) days of making such submissions to the relevant Government Authority; and

(G) reports on any material litigation, including any winding-up proceedings or notice to commence winding-up proceedings or material disputes to which the Concessionaire is a party, appointment of a receiver or administrator in relation to the business or assets of the Concessionaire and any adverse orders or judgments passed by any Government Authorities that affects or is likely to affect the performance of the O&M services, as soon as reasonably possible after the occurrence of any such event.

(c) It is clarified that the reports set out in this Clause 8.8 will be separately prepared and furnished for [Location] STP(s) and [Location] FSTP(s).

8.9 Design Capacity Utilization

(a) During each day of the O&M Period, the Concessionaire shall ensure that [Location] STP(s) and [Location] FSTP(s) can accept, treat, and process Sewage/Faecal Sludge/Septage up to its Design Capacity.

(b) The Concessionaire shall notify [Executing Agency] (with a copy to the Project Engineer) as soon as it becomes aware that the volume of Sewage/Faecal Sludge/Septage received at the relevant [Location] STP(s) and [Location] FSTP(s) is more than its Design Capacity.

(c) In such circumstances, if the Concessionaire is unable to accept and treat the excess
Sewage/Faecal Sludge/Septage (i.e., over and above the Design Capacity) at the relevant [Location] STP(s) and [Location] FSTP(s), then such failure shall be treated as a Forced Unavailability for which the Concessionaire shall not be liable, subject to the Concessionaire having notified [Executing Agency] in accordance with Clause 8.9(b) above. [Executing Agency] reserves the right to require the Project Engineer to verify the capacity utilization at any [Location] STP(s) and [Location] FSTP(s), at any time during the O&M Period.

8.10 Testing

(a) The Sewage/Faecal Sludge/Septage and the Treated Effluent will be tested at the Inlet Point and the Outlet Point, respectively in accordance with this Clause 8.10 and the Technical Specifications.

(b) The Concessionaire shall test the characteristics of the incoming Sewage/Faecal Sludge/Septage at the Inlet Point to determine if the incoming Sewage/Faecal Sludge/Septage meets the Influent Standards. The Concessionaire will be required to carry out such tests at the Inlet Point at the intervals specified in the Technical Specifications or at such other time interval as may be instructed by [Executing Agency].

(c) The Concessionaire shall test the characteristic of the Treated Effluent at the Outlet Point to determine if the Treated Effluent meets the Discharge Standards. The Concessionaire will be required to carry out such tests at the Outlet Point at the intervals specified in the Technical Specifications or such other time interval as may be instructed by [Executing Agency].

(d) The Concessionaire shall test the characteristics of the Digested Sludge after digestion of the raw Sewage/Faecal Sludge/Septage at the [Location] STP(s) and [Location] FSTP(s) to assess the volatile suspended solids value of the Digested Sludge, in accordance with the Technical Specifications.

(e) The Concessionaire shall maintain proper records of the tests conducted at the Inlet Point, the Outlet Point or at any other point at the [Location] STP(s) and [Location] FSTP(s) (for the Digested Sludge) and the test results shall be verified by the Project Engineer. Separately, the Project Engineer shall also have the right to take random samples of the incoming Sewage/Faecal Sludge/Septage, the Digested Sludge and the Treated Effluent at any time during the O&M Period to test compliance with the Influent Standards and the Discharge Standards.

(f) For [Location] STP(s) and [Location] FSTP(s), the Concessionaire shall prepare daily reports compiling the test reports for each day, which shall be submitted to [Executing Agency], after being duly certified by the Project Engineer.

8.11 Maintenance and Repair of the Facilities

(a) During the O&M Period, the Concessionaire shall, at its own cost, undertake the maintenance of the Facilities and repair any damage to the Facilities either by itself, or through an approved Subcontractor, such that the Facilities shall be:
(i) in good working condition (subject only to wear and tear and Force Majeure) and achieve their full useful economic life in accordance with the Designs and Drawings;

(ii) maintained in compliance with the Technical Specifications, O&M (iii) Manual, Scheduled Maintenance Programme, Applicable Laws, Applicable Permits, Good Industry Practice and the recommendations of the technology providers;

(iii) capable of meeting the KPIs.

(b) For the first year of the O&M Period, the Concessionaire shall submit its scheduled maintenance programme for the [Location] STP(s) and [Location] FSTP(s), specifying the Scheduled Maintenance periods for [Location] STP(s) and [Location] FSTP(s) and the impact of such Scheduled Maintenance periods on the Availability of each [Location] STP(s) and [Location] FSTP(s) (the “Scheduled Maintenance Programme”) to [Executing Agency] at least 1 (one) month before the Scheduled COD and for every subsequent year of the O&M Period, the Concessionaire shall submit the Scheduled Maintenance Programme, at least 1 (one) month prior to the beginning of the relevant year. The Scheduled Maintenance Programme for the first year will cover the period from the COD until the end of the calendar year in which the COD occurs. It is clarified that the Concessionaire shall submit a consolidated Scheduled Maintenance Programme for the Facilities.

(c) Within 15 (fifteen) days of receipt of the Scheduled Maintenance Programme, [Executing Agency] shall notify the Concessionaire of its approval of such schedule.

If [Executing Agency] does not accept any one or more of the requested Scheduled Maintenance periods or its impact on the Availability of Facilities, [Executing Agency] shall advise the Concessionaire within 15 (fifteen) days of the receipt of the Scheduled Maintenance Programme on when any Scheduled Maintenance can be rescheduled or how its impact on the Availability of Facilities may be minimised. The rescheduled time shall be as close as reasonably practicable to the requested time and shall be of equal duration as the requested period. If [Executing Agency] fails to object to any Scheduled Maintenance within the specified time period or fails to advise the Concessionaire of a substitute time, the Concessionaire may schedule the Scheduled Maintenance for such duration and at such time as initially requested.

(d) Notwithstanding the finalization of the Scheduled Maintenance Programme pursuant to this Clause 8.11, [Executing Agency] may require the Concessionaire to reschedule a Scheduled Maintenance in the Scheduled Maintenance Programme, provided that:

(i) [Executing Agency] has given the Concessionaire at least 30 (thirty) days’ prior written notice of such re-scheduling;

(ii) [Executing Agency] shall not require such Scheduled Maintenance to be rescheduled for a period of shorter or longer duration;
(iii) [Executing Agency] shall not require that a single Scheduled Maintenance period be split into two or more periods; and

(iv) [Executing Agency] shall not require that a Scheduled Maintenance be brought forward any earlier than 15 (fifteen) days from the date of such notice without the consent of the Concessionaire.

(e) Notwithstanding the finalization of the Scheduled Maintenance Programme pursuant to this Clause 8.11, the Concessionaire may request a rescheduling of any Scheduled Maintenance upon 60 (sixty) days' prior written notice to [Executing Agency]. [Executing Agency] shall respond to such request within 10 (ten) days and shall not unreasonably withhold its permission for such re-scheduling.

(f) Within 5 (five) days of any re-scheduling of a Scheduled Maintenance in accordance with Clause 8.11(d) or Clause 8.11(e) above, the Concessionaire shall provide to [Executing Agency], the amended Scheduled Maintenance Programme, which shall then be the "Scheduled Maintenance Programme".

(g) During the O&M Period, the Concessionaire shall, at its own cost, replace any component or part of the Facilities that is damaged or worn out or in the Concessionaire's judgment becomes no longer practicable to repair as a result of normal wear and tear.

(h) If at any time during the O&M Period, a Facilities is damaged by a Minor Casualty, the Concessionaire shall, with reasonable diligence, proceed to process the claim with insurance providers and repair, replace, and restore the damaged portion of the Facilities to the same condition that it was in before the occurrence of such Minor Casualty. To the extent available, insurance proceeds shall be applied to such repair, replacement or restoration.

(i) If at any time during the O&M Period, a Facilities is damaged by a Total Casualty, then this Agreement shall be terminable at the option of the Concessionaire. If the Concessionaire elects to terminate the Agreement, then the consequences set out at Clause 14.7 will follow. If, however, the Concessionaire elects not to terminate the Agreement, then the Concessionaire shall repair, replace and restore the damaged Facilities to the same condition that it was in before the occurrence of such Total Casualty. To the extent available, insurance proceeds shall be applied to such repair, replacement or restoration.

8.12 Key Performance Indicators

(a) Availability

(i) The Concessionaire shall ensure that the Availability of each Facilities and Associated Infrastructure on every day during the O&M Period shall be 100% (one hundred per cent) (the "Guaranteed Availability"). Provided that during the period of a Scheduled Maintenance that is undertaken as per the approved Scheduled Maintenance Programme or as notified and approved in accordance
with Clause 8.11 for the Facilities, the Concessionaire shall ensure that the Guaranteed Availability of such Facilities and Associated Infrastructure is at least 95% (ninety five per cent).

The 'Availability' of each Facilities and Associated Infrastructure will be determined as a ratio of the number of hours in a day during which such Facilities was available to convey, pump, accept and treat the Sewage/Faecal Sludge/Septage up to its Design Capacity, to the total number of hours in a day, and the term 'Available' shall be construed accordingly.

(ii) In computing the Availability of each Facilities and Associated Infrastructure, the Concessionaire agrees that the Facilities will be deemed to be Available at all times, other than during the period of:

(A) an Unscheduled Outage affecting such Facilities and Associated Infrastructure;
(B) a Power Outage affecting such Facilities and Associated Infrastructure;
(C) suspension of the O&M services for such Facilities, for reasons attributable to the Concessionaire (in accordance with Clause 15.1 and 15.2); or an Emergency affecting such Facilities, attributable to the Concessionaire,
(D) during which the Facilities and Associated Infrastructure will be deemed to be not Available.

(iii) Notwithstanding anything to the contrary contained in this Agreement, during the period of a Forced Unavailability or a Force Majeure, the Facilities and Associated Infrastructure affected by such Forced Unavailability or a Force Majeure will be deemed to be Available.

(iv) If the Availability for a Facilities on any given day is less than the Guaranteed Availability, [Executing Agency] shall issue a notice to the Concessionaire requiring the Concessionaire to cure the default causing the reduction in Availability in [3 (three)] days. Any failure to cure the default and achieve the Guaranteed Availability within [3 (three)] days of receipt of the notice from [Executing Agency] shall constitute a Concessionaire Event of Default. The [Executing Agency] may claim Availability Liquidated Damages would be available till the default is cured or the Agreement is terminated.

(v) Availability Liquidated Damages

Without prejudice to Clause 8.12(a)(iv), if the Availability of any Facilities and Associated Infrastructure on any given day is less than the Guaranteed Availability, then the Concessionaire shall pay the liquidated damages set out in Schedule 7.

The aggregate Availability Liquidated Damages payable by the Concessionaire in any quarter of the O&M Period will be deducted from the O&M Payments due to the Concessionaire for such quarter. If the Availability Liquidated Damages for a quarter exceed the O&M Payments for such quarter, then the excess amounts
shall, at the discretion of [Executing Agency], either be adjusted against the O&M Payments for the subsequent quarter or recovered from the O&M Securities.

(b) Influent Standards and Discharge Standards

(i) The Concessionaire is required to receive, treat, and dispose all Sewage, Faecal Sludge/Septage delivered to the [Location] STP(s) and [Location] FSTP(s). If, however the Sewage/Faecal Sludge/Septage is beyond the Influent Standards as set out in Schedule 10, then the Concessionaire shall be required to treat such Sewage/Faecal Sludge/Septage but will not be liable for any Performance Liquidated Damages if the Treated Effluent and/or the Digested Sludge fails to meet the Discharge Standards

(ii) Subject to Clause 8.12(b)(i) above, the Concessionaire shall ensure that the Treated Effluent and Digested Sludge comply with the Discharge Standards set out in the Technical Specifications.

(iii) Subject to Clause 8.12(b)(iv) below, for each Facilities, if the Treated Effluent or the Digested Sludge does not comply with the Discharge Standards, then the process set out below shall follow:

(A) In the first instance of non-compliance of the Treated Effluent or the Digested Sludge with the Discharge Standards (First Breach), [Executing Agency] shall issue a notice to the Concessionaire on the first day of such non-compliance (First Breach Notice) requiring the Concessionaire to cure the First Breach within 20 days from the date of the First Breach Notice. If the First Breach is cured within 2 days of the First Breach Notice, then the Concessionaire shall not be liable to pay any Performance Liquidated Damages. If, however, the First Breach continues beyond 2 days of the First Breach Notice, then, the Concessionaire shall be liable to pay the Performance Liquidated Damages specified in Schedule 7, from the 3rd day of the First Breach.

(B) If: (I) the First Breach continues for 20 (twenty) days from the date of the First Breach Notice; or (II) another instance of non-compliance with the Discharge Standards occurs within 6 (six) months of the First Breach, then such breach shall constitute the Second Breach. Upon occurrence of the Second Breach, [Executing Agency] shall issue a notice to the Concessionaire on the first day of the Second Breach (Second Breach Notice) requiring the Concessionaire to cure the Second Breach within 20 days from the date of the Second Breach Notice. If the Second Breach continues beyond 2 (two) days of the Second Breach Notice, then, the Concessionaire shall be liable to pay twice the amount of the Performance Liquidated Damages specified in Schedule 7, from the 1st day of the Second Breach. In case of (I) above, it is clarified that the Concessionaire will be liable to pay Performance Liquidated Damages at the rate specified in Schedule 6, for the first 2 days of a continuing breach from the date of the
Second Breach Notice and twice the specified Performance Liquidated Damages from the 3rd day of a continuing Second Breach.

(C) If: (I) the Second Breach continues for 20 (twenty) days from the date of the Second Breach Notice; or (II) another instance of non-compliance with the Discharge Standards occurs within 6 (six) months of the Second Breach, then such breach shall constitute the Third Breach. Upon occurrence of the Third Breach, [Executing Agency] shall issue a notice to the Concessionaire on the first day of the Third Breach (Third Breach Notice) requiring the Concessionaire to cure the Third Breach within 20 days from the date of the Third Breach Notice. If the Third Breach continues beyond 2 (two) days of the Third Breach Notice, then: (X) the Concessionaire shall be liable to pay thrice the amount of the Performance Liquidated Damages specified in Schedule 7, from the 1st (first) day of the Third Breach; and (Y) the Capex Annuity for the relevant quarter(s) will be reduced by an amount equal to the Capex Annuity for the relevant quarter/90 (ninety) days for each day that the Third Breach continues beyond the 1st(first) day of the Third Breach. In case of (I) above, it is clarified that the Concessionaire will be liable to pay twice the Performance Liquidated Damages specified in Schedule 7, for the first 2 (two) days of a continuing breach from the date of the Third Breach Notice and thrice the specified Performance Liquidated Damages from the 3rd(third) day of the Third Breach, in addition to the reduction in the Capex Annuity.

(D) If: (I) the Third Breach is not cured within 20 (twenty) days from the Third Breach Notice; or (II) a failure to comply with the Discharge Standards results in occurrence of a Third Breach more than 3 (three) times in a continuous 12 (twelve) month period, it will be treated as a Concessionaire Event of Default and the consequences set out at Article 16 shall apply.

(E) The Parties acknowledge that the Performance Liquidated Damages (including any escalation contemplated in this Clause 8.12(b)(iii) are a genuine pre-estimation of and reasonable compensation for the environmental damage that may be caused by the Concessionaire's continuing failure to comply with the Discharge Standards, and not as penalty. The payment of Performance Liquidated Damages will not absolve the Concessionaire from any other liability under Applicable Law, for causing any environmental pollution or health hazard due to its failure to comply with the Discharge Standards and/or Applicable Law.

(iv) If the Treated Effluent and/or the Digested Sludge does not meet the Discharge Standards on account of: (A) the characteristics of the Sewage/Faecal Sludge/Septage being beyond the permissible Influent Standards; or (B) the volume of the Sewage/Faecal Sludge/Septage being more than the Design Capacity of the relevant [Location] STP(s) and [Location] FSTP(s), then, the Concessionaire shall not be liable to pay any Performance Liquidated Damages for a failure to meet the Discharge Standards.
In the event of the actual volume of Sewage/Faecal Sludge/Septage being more than the design capacity, the Concessionaire shall not be bound by the Guaranteed Energy Consumption limits and the payment of power charges shall be as per the actuals.

(v) The Performance Liquidated Damages payable by the Concessionaire in any quarter of the O&M Period will be deducted from the O&M Payments due to the Concessionaire for such quarter. If the Performance Liquidated Damages for a quarter exceed the O&M Payments for such quarter, then the excess amounts shall, at the discretion of [Executing Agency], either be adjusted against the O&M Payments for the subsequent quarter or recovered from the O&M Security.

(vi) Within 7 (seven) days from the end of each month, the Concessionaire shall be required to provide the monthly progress report for each Facilities (prepared in accordance with Clause 8.8(B)(iii)(E)above) on compliance of such Facilities with the KPIs, which should indicate the periods during which such Facilities did not meet the Guaranteed Availability or the Treated Effluent and/or the Digested Sludge did not meet the Discharge Standards and the reasons for such failure. The Project Engineer shall be required to certify each such monthly report before it is provided to [Executing Agency]. Such certified report on compliance with KPIs shall be referred to as the KPI Adherence Report and shall form the basis for O&M Payments being made to the Concessionaire during the O&M Period.

8.13 Disposal of STP By-Products, FSTP By-Products and the Treated Effluent

The Concessionaire shall be required to store, handle and dispose the STP By-Products, FSTP By-Products and the Treated Effluent in the manner set out in this Clause 8.13 during the O&M Period:

(a) Waste Disposal Site

(i) Within 30 (thirty) days from the Effective Date, [Executing Agency] shall inform the Concessionaire of each Waste Disposal Site at which the Concessionaire shall be required to dispose the STP By-Products, FSTP By-Products resulting from the treatment of the Sewage/Faecal Sludge/Septage at the [Location] STP(s) and [Location] FSTP(s), and any other waste materials resulting from the construction of the Facilities during the Construction Period (including silt).

(ii) [Executing Agency] may shift any Waste Disposal Site from time to time during the O&M Period provided that, the Waste Disposal Sites will always be within a radius of 10 km (ten kilometers) from the boundary of the relevant Site and any shifting of a Waste Disposal Site will be with at least 30 (thirty) days’ prior written notice to the Concessionaire.

(iii) If, at any time during the O&M Period, [Executing Agency] shifts a Waste Disposal Site to a location beyond a radius of 10 km (ten kilometers) from the boundary of the relevant Site, then, [Executing Agency] shall compensate the Concessionaire for any additional transportation costs incurred by the
Concessionaire in transporting the STP By-Products, FSTP By-Products to such Waste Disposal Site.

(iv) Any approval for disposal of the STP By-Products, FSTP By-Products at the Waste Disposal Sites will be obtained by [Executing Agency] at its cost. Further, all costs and charges in connection with the setting up and maintaining the Waste Disposal Sites (including any tipping fee for the disposal of the STP By-Products and FSTP By-Products) will be borne by [Executing Agency]. The Concessionaire shall only be responsible for transporting the STP By-Products, FSTP By-Products to the Waste Disposal Sites and subject to Clause 8.13(a) above, bearing the costs for transportation and unloading of the STP By-Products, FSTP By-Products at the Waste Disposal Sites.

(b) Disposal of Residual Grit and Screenings

(i) The Concessionaire shall, at its cost and expense, be required to transfer the Residual Grit and the Screenings to the relevant Waste Disposal Site and shall make adequate transportation arrangements for this purpose.

(ii) The Concessionaire shall ensure that the Residual Grit and the Screenings are neither disposed at any place on or about the Site, other than the Waste Disposal Sites, (nor discharged into the --------). The disposal of the Residual Grit and the Screenings at the Waste Disposal Sites must be strictly in accordance with all Applicable Laws. The Concessionaire shall indemnify [Executing Agency] against any costs or liabilities that may arise due to the Concessionaire's failure to comply with this Clause 8.13(b) and all Applicable Laws in disposal of the Residual Grit and the Screenings.

(c) Disposal of Digested Sludge

(i) As part of each Facilities, the Concessionaire shall be required to set up and maintain a sludge handling Facilities at the relevant Site, where the Concessionaire can dry the Digested Sludge during the O&M Period.

(ii) The Concessionaire shall, at its cost and expense, provide for a storage Facilities within the [Location] Site to temporarily store the dried Digested Sludge until such Digested Sludge is sold or disposed in accordance with this Agreement.

(iii) The Concessionaire shall, subject to compliance with Applicable Laws and Applicable Permits, be free to sell the Digested Sludge, at such price and to such Persons as it may deem fit or dispose the Digested Sludge at the Waste Disposal Sites. Provided that if the Concessionaire sells the digested sludge to any third party, the Concessionaire shall be required to share 10% of the revenues from such sale with [Executing Agency].

(iv) The Concessionaire shall maintain proper records of sale of any Digested Sludge

31Insert the name of the water body. Delete if not applicable.
generated from the Facilities (including the revenues earned by the Concessionaire from such sale) and make them available to [Executing Agency] for its review.

(v) The Concessionaire shall ensure that the Digested Sludge is neither disposed at any place on or about the Site, except the Waste Disposal Sites, {nor discharged into the \ldots\ldots\ldots}^{32}. The Concessionaire shall indemnify [Executing Agency] against any costs or liabilities that may arise due to the Concessionaire's failure to comply with this Clause 8.13(c) and all Applicable Laws in disposal of the Digested Sludge.

(d) Disposal of Treated Effluent

(i) The Concessionaire is required to transfer the Treated Effluent through the Supporting Infrastructure to any discharge point(s) indicated by [Executing Agency].

(ii) The Concessionaire is permitted to divert, transfer or sell the Treated Effluent generated from the STP/FSTP to any third party, provided that if the Concessionaire sells the Treated Effluent to any third party, the Concessionaire shall be required to share 10% (ten per cent) of the revenues from such sale with [Executing Agency].

(iii) The Concessionaire shall maintain proper records of sale of any Treated Effluent generated from the Facilities (including the revenues earned by the Concessionaire from such sale) and make them available to [Executing Agency] for its review.

(iv) The Concessionaire shall indemnify [Executing Agency] against any costs or liabilities that may arise due to the Concessionaire's failure to comply with this Article 8.13(d) and all Applicable Laws in disposal of the Treated Effluent.

(e) Rights and interest in the STP By-Products, FSTP By-Products and the Treated Effluent

(i) Subject to the [Executing Agency]'s right to revenue share, all rights and interest in the STP By-Products, FSTP By-Products discharged from the [Location] STP(s) and [Location] FSTP(s) shall vest with the Concessionaire at all times during the O&M Period, unless transferred by the Concessionaire to a third party buyer/off-taker in accordance with this Agreement.

(ii) All rights and interest in the Treated Effluent discharged from the [Location] STP(s) and [Location] FSTP(s) shall vest with the Concessionaire at all times during the O&M Period, unless transferred by the Concessionaire to [Executing Agency] in accordance with this Agreement.

\[^{32}\text{Delete if not applicable.}\]
8.14 Remedial Measures

If after the COD, the Concessionaire ceases to operate Facilities for a period of 48 consecutive hours other than due to a Forced Unavailability, Scheduled Maintenance, or a suspension pursuant to Clause 15.1 or Clause 15.2, which is not attributable to the Concessionaire, or a Force Majeure Event, without the prior written consent of [Executing Agency], then [Executing Agency] shall be entitled to step-in and undertake O&M of such Facilities until the Concessionaire demonstrates to the satisfaction of [Executing Agency] that it can and will resume normal operation and maintenance of the Facilities. The exercise of [Executing Agency]'s rights under this Clause 8.14 shall be at the cost, risk and expense of the Concessionaire. The Concessionaire shall not be entitled to receive any O&M Charges for the duration that [Executing Agency] steps-in to operate and maintain the Facilities.

8.15 O&M Personnel

(a) The Concessionaire shall engage (either directly or through an approved Subcontractor) adequate number of suitably skilled and qualified personnel to undertake the O&M of the Facilities in accordance with the requirements set out in this Article 8.

(b) The Concessionaire shall be solely responsible for discharging all obligations in connection with the employment of the O&M personnel, including the payment of wages, salaries, Taxes, and retrenchment compensation and providing all amenities and benefits required under applicable laws.

(c) Subject to compliance with the Applicable Laws, the Concessionaire shall have full freedom to determine its internal human resources (HR) policies, including, the wages, benefits and salary structure of its employees, the conditions of service, the shifts of work, its hire and fire policy (whether for misconduct or other cause), and payment of severance or retrenchment compensation.

(d) [Executing Agency] is not and shall not be treated as the "principal employer" of or be deemed to have any contractual or other relationship with the O&M personnel. The Concessionaire shall hold harmless and indemnify [Executing Agency] against all losses, claims, costs and damages that [Executing Agency] may suffer due to the Concessionaire's or any of its Subcontractor's failure to comply with applicable laws.
ARTICLE 9
PAYMENT AND INVOICING

9.1 In consideration of the works and services required to be performed by the Concessionaire for designing, constructing, operating and maintaining the Facilities in accordance with this Agreement, the Concessionaire shall be entitled to receive the Construction Payments and the O&M Payments from [Executing Agency] and/or [Name of the State / National Level Agency, if any] in accordance with this Article 9.

9.2 The Concessionaire shall be deemed to have satisfied itself regarding the adequacy, accuracy and sufficiency of the Construction Payments and the O&M Payments. Except for any adjustment in accordance with Clause 8.13(a) and Clause 13.2, or any permitted Variation, the Construction Payments and the O&M Payments are the total consideration payable to the Concessionaire for undertaking the Project.

9.3 Construction Payments

(a) [Name of the State / National Level Agency, if any]/ [Executing Agency] shall deposit an amount equivalent to the first 2 (two) [Location] Facilities Payment Milestones in the Escrow Account in accordance with Clause 9.5 and the Escrow Agreement, prior to the Effective Date. From the Effective Date and during the Construction Period, [Name of the State / National Level Agency, if any]/ [Executing Agency] shall ensure that the Escrow Account is funded with an amount equivalent to the next 2 [Location] Facilities Payment Milestones for the [Location] Facilities.

(b) 10% of the Bid Project Cost for the Facilities shall be given to the Concessionaire as a Mobilization Advance in accordance with Clause 9.3(d), which will be adjusted against the Construction Payments to be paid by [Name of the State / National Level Agency, if any]/ [Executing Agency] to the Concessionaire in 4 instalments, in accordance with Clause 9.3(e). The Construction Payments will be paid to the Concessionaire upon completion of the work corresponding to the Payment Milestones and certification of completion of such Payment Milestones by [Executing Agency] in accordance with Clause 7.13.

(c) Adjustment in Construction Payments

(i) The Construction Payments shall be adjusted during the Construction Period to reflect the variation in the Construction Price Index occurring after the Reference Index Date immediately preceding the Bid Due Date.

(ii) All Invoices to be submitted by the Concessionaire to [Executing Agency] for any installment of the Construction Payments shall be the product of the relevant percentage of the Bid Project Cost and the Price Index Multiple applicable on the date of the Invoice.

33 Delete whichever is not applicable
34 Delete whichever is not applicable.
(d) Mobilization Advance

(i) 10% of the [Location] Facilities Bid Project Cost shall be payable to the Concessionaire as the Mobilization Advance, within 30 (thirty) days from the Effective Date, subject to the Concessionaire having submitted a Mobilization Advance Guarantee in accordance with Clause 5.21.

(ii) Subject to Article 9.3(d)(iv) below, [Location] Facilities Mobilization Advance shall be an interest free advance for mobilization and towards execution of the construction works for the [Location] Facilities.

(iii) The Mobilization Advance shall be deducted in equal instalments from the 4 instalments of the Construction Payments to be made to the Concessionaire upon progressive completion of the Payment Milestones.

(iv) However, the Concessionaire is liable to pay a simple interest at the rate of 8% on the Mobilization Advance, if the Payment Milestones are not achieved by the Concessionaire in accordance with the agreed Construction Plan and for the reasons attributed to the Concessionaire. The interest shall be payable for the period between the actual Payment Milestone and agreed Payment Milestone. The interest amount shall be deducted along with the Mobilization Advance from the Construction Payments.

(e) Milestone Construction Payments

(i) Subject to this Clause 9.3(e), for each Facilities, the Construction Payments will be paid by [Name of the State / National Level Agency, if any]/ [Executing Agency]35 to the Concessionaire in the following 4 (four) equal instalments (Payment Milestones) (after adjusting the Mobilization Advance (and the interest payable if any as per Clause 9.3(d)(iii)):

(A) 1st (first) installment equal to [10% (ten per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 25% (twenty five per cent) physical progress, upon the issuance of the first Milestone Completion Certificate;

(B) 2nd (second) installment equal to [10% (ten per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 50% (fifty per cent) physical progress, upon the issuance of the second Milestone Completion Certificate;

(C) 3rd (third) installment equal to [10% (ten per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 75% (seventy five per cent) physical progress, upon the issuance of the third Milestone Completion Certificate; and

35Delete whichever is not applicable.
(D) 4th (fourth) installment equal to [10% (ten per cent)] of the Bid Project Cost, as adjusted for the Price Index Multiple applicable on the date of the relevant Invoice, on achievement of 100% (hundred per cent) physical progress, upon the issuance of the Construction Completion Certificate.

(ii) For the Facilities, within 7 (seven) days of issuance of the Milestone Completion Certificate for a Payment Milestone, the Concessionaire shall submit an Invoice to [Executing Agency] for the amount of the Construction Payment linked to such Payment Milestone along with the KPI Adherence Report. Any Invoice raised by the Concessionaire for the Construction Payments shall be accompanied by a copy of the relevant Milestone Completion Certificate issued by [Executing Agency].

(iii) Within 10 (ten) days of receipt of an Invoice from the Concessionaire pursuant to Clause 9.3(e)(ii) above, [Executing Agency] shall verify and certify the amounts due and payable to the Concessionaire, and either:

(A) approve the Invoice and issue a certificate to the Escrow Bank (with a copy to [Name of the State / National Level Agency, if any]/ [Executing Agency] and the Concessionaire), conveying its approval for the release of the amount specified in the Invoice, less any necessary deductions or adjustments in accordance with this Agreement and/or Applicable Laws (including for payments to be made by the Concessionaire under applicable labour laws); or

(B) issue a notice to the Concessionaire disputing the Invoice and directing the Concessionaire to issue a revised Invoice, after rectifying the errors or discrepancies identified by [Executing Agency].

The Concessionaire shall submit a revised Invoice to [Executing Agency] after rectifying the errors or discrepancies identified by [Executing Agency] and this process will be repeated until [Executing Agency] approves the Invoice and issues a certificate to the Escrow Bank {with a copy to [Name of the State / National Level Agency, if any]} and the Concessionaire, conveying its approval for release of the amount specified in the Invoice.

(iv) Any dispute between the Parties in relation to a disputed Invoice will be settled in accordance with Article 21 (Dispute Resolution).

(v) A certificate issued by [Executing Agency] in accordance with Clause 9.3(e)(iii) shall be referred to as a Payment Certificate.

(vi) If, within 10 (ten) days from the date of receipt of an Invoice, [Executing Agency] does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by [Executing Agency], and the Concessionaire may issue instructions to the Escrow Bank {with a copy to [Executing Agency] and [Name

36To be deleted if not applicable.
of the State / National Level Agency, if any])\(^ {37}\) to release the amounts specified in the Invoice, upon the expiry of the 10-day period.

(vii) Immediately upon receipt of a Payment Certificate from [Executing Agency] in accordance with Clause 9.3(e)(iii) or upon receipt of instructions from the Concessionaire in accordance with Clause 9.3(e)(vi), the Escrow Bank shall release the amount specified in the Payment Certificate or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice, in accordance with the Escrow Agreement.

(viii) Notwithstanding anything to the contrary in this Agreement, [Executing Agency] shall have no obligation to issue a Payment Certificate unless:

(A) the Performance Securities remain valid and in effect;

(B) the insurances to be obtained by the Concessionaire in accordance with Clause 11.2 are valid and in effect;

(C) the Concessionaire Applicable Permits for construction of the Facilities are in full force and effect, unless the withdrawal or cancellation of any Applicable Permit is not attributable to the Concessionaire's failure to comply with Applicable Laws;

(D) the Concessionaire has complied with the ESHS Documents in undertaking the construction of the Facilities; and

(E) there is no subsisting Concessionaire Event of Default.

(F) the Concessionaire shall be paid the Construction Payments in Rupees. [However, if, in the Financial Proposal, the Selected Bidder specified any percentage of the Bid Project Cost which it would want to receive in a foreign currency during the Construction Period, then the Construction Payments corresponding to such percentage of the Bid Project Cost shall be paid to the Concessionaire in the relevant foreign currency. For the purpose of payment in a foreign currency, the exchange rate shall be [•]. It is clarified that the aggregate Construction Payments due to the Concessionaire shall not exceed 40% of the Bid Project Cost, as quoted by the Selected Bidder in Rupees and adjusted for inflation as per Clause 9.3(c), on account of a percentage of the Bid Project Cost being paid to the Concessionaire in foreign currencies]\(^ {38}\).

9.4 O&M Payments

(a) During the O&M Period, [Name of the State / National Level Agency, if

\(^ {37}\)To be deleted if not applicable.

\(^ {38}\)Applicable for Bank funded and other international proposals
shall be required to make the O&M Payments in Rupees to the Concessionaire for each Facilities comprising the Capex Annuity, the interest on the reducing balance of 60% of the Completion Cost, the O&M Charges and the Power Charges, in accordance with this Clause 9.4.

(b) Calculation of Completion Cost

(i) The [Location] Completion Cost for the [Location] Facilities will be the aggregate of (A) – (D) below, for the Facilities:

(A) 25% of the Bid Project Cost for the relevant Facilities adjusted for the Price Index Multiple as applicable on the Reference Index Date preceding the date of the Invoice for the first Payment Milestone;

(B) 25% of the Bid Project Cost for the relevant Facilities adjusted for the Price Index Multiple as applicable on the Reference Index Date preceding the date of the Invoice for the second Payment Milestone;

(C) 25% of the Bid Project Cost for the relevant Facilities adjusted for the Price Index Multiple as applicable on the Reference Index Date preceding the date of the Invoice for the third Payment Milestone; and

(D) 25% of the Bid Project Cost for the relevant Facilities adjusted for the Price Index Multiple as applicable on the Reference Index Date preceding the date of the Invoice for the fourth Payment Milestone.

60% of the [Location] Completion Cost will be paid in quarterly instalments during the O&M Period as Capex Annuity.

(c) On and from the COD and during the O&M Period, [Name of the State / National Level Agency, if any] [Executing Agency] shall deposit the O&M Payments for each Facilities in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuity (along with interest), the O&M Charges and the estimated Power Charges for the next 2 years for the Facilities.

(d) Adjustment in O&M Charges

(i) The O&M Charges shall be adjusted during the O&M Period to reflect the variation in the O&M Price Index occurring after the Reference Index Date immediately preceding the Bid Due Date.

(ii) All Invoices to be submitted by the Concessionaire to [Executing Agency] for the quarterly O&M Charges shall be the product of the applicable O&M Charges for the relevant quarter and the Price Index Multiple applicable on the date of the Invoice.

Delete whichever not applicable.

Delete whichever not applicable.
(e) Capex Annuity

(i) The Capex Annuity shall be payable in 60 equal quarterly installments during the O&M Period.

(ii) Interest shall be payable on the reducing balance of 60% of the Completion Cost for the Facilities, at the rate of the SBI MCLR plus 3% per annum. Such interest shall be due and payable quarterly along with each instalment of the Capex Annuity. The Parties agree that such interest shall be calculated on the basis of the number of days for which the relevant rate of the SBI MCLR was applicable during the period of calculation.

By way of illustration, assuming that the balance Completion Cost to be paid to the Concessionaire on the date of payment of the 1st Capex Annuity installment is INR 50,00,00,000 (Rupees fifty crores), the applicable SBI MCLR for the first 50 (fifty) days is 8% and thereafter it is revised to 7.5% and remains unchanged till the date of payment of the 2nd Capex Annuity, the interest would be calculated as (50*11%*50)/365+(50*10.5%*40)/365. For the avoidance of doubt, the interest shall be calculated on simple interest basis and the interest shall not be compounded for the purpose of payment.

(f) O&M Charges

(i) The Authority shall pay to the Concessionaire, every [month/quarter] the amount required by the Concessionaire to operate and maintain the Facilities, excluding the Power Charges, during the O&M Period (the “O&M Charges”).

(ii) The O&M Charges shall be made for every MLD of Sewage treated and /Faecal Sludge collected and treated in the Project Area by the Concessionaire during the Post-COD period. It shall also include cost of infrastructure for door-to-door collection of Faecal Sludge.

(iii) The O&M Charges for the first [month/quarter] after COD will be calculated on the basis of the O&M Charges quoted by the Selected Bidder in the Financial Proposal for the first month from the COD, which amount shall be adjusted for the Price Index Multiple applicable on the Reference Index Date preceding the date of the first Invoice for the O&M Payments.

(iv) For each subsequent quarter of the O&M Period, the O&M Charges will be adjusted for the Price Index Multiple applicable on the Reference Index Date preceding the date of the relevant Invoice for the O&M Payments.

(g) Power Charges

(i) The Power Charges for the Facilities shall initially be borne by the Concessionaire, which shall be reimbursed by [Name of the State / National
**Level Agency, if any**[Executing Agency]\(^{41}\) to the Concessionaire, subject to a cap of: (A) the Power Charges based on the [Location] Facilities Guaranteed Energy Consumption.

(ii) The Power Charges for any given quarter of the O&M Period will be calculated as follows:

(A) For the units of energy consumed from the grid (as evidenced by a copy of the bill issued by the distribution licensee), the Power Charges will be calculated by multiplying the number of units consumed in such quarter (subject to the Guaranteed Energy Consumption for the energy consumed by the relevant Facilities) with the Power Unit Rate.

If the Concessionaire procures power from outside [State of Location], then, the Power Unit Rate will be the prevalent power unit rate in [State of Location] or the tariff at which the Concessionaire procures power from outside [State of Location], whichever is lower.

(B) If there is any interruption in the supply of power from the grid, and the Concessionaire uses backup power supply from the DG Sets, then,

(I) the Concessionaire's Representative and [Executing Agency] shall jointly take readings from the meters installed at the DG Sets to determine the number of units of energy consumed from the DG Sets for O&M of the Facilities;

(II) the number of units of energy consumed from the DG Sets (determined as per (I) above) shall be adjusted such that the aggregate of the total number of units consumed from the grid and the total number of units consumed from the DG Sets shall not exceed the Guaranteed Energy Consumption for the Facilities (Adjusted DG Set Units);

(III) the quantity of diesel consumed to generate the Adjusted DG Set Units in the relevant quarter shall be calculated by [Executing Agency] based on the rated specific fuel consumption of the DG Sets specified by the manufacturers of the DG Sets; and

(IV) the Power Charges for the Adjusted DG Set Units will be calculated by multiplying the quantity of diesel consumed (determined as per (III) above) with the Fuel Price.

(C) For each Facilities, the Concessionaire shall be liable to pay liquidated damages to [Executing Agency] for any units of energy consumed beyond the Guaranteed Energy Consumption (whether from the grid or from the DG Sets) for such Facilities (Power Consumption Liquidated Damages),

\(^{41}\)Delete whichever not applicable.
which will be calculated as follows:

(I) For excess power consumption up to 5% (five per cent) of the Guaranteed Energy Consumption of the Facilities:

Power Consumption Liquidated Damages: (Number of power units consumed in the relevant quarter – Guaranteed Energy Consumption for such quarter) * [Power Unit Rate] * 0.25

(II) For excess power consumption between 5% (five per cent) and 10% (ten per cent) of the Guaranteed Energy Consumption of the Facilities:

Power Consumption Liquidated Damages: (Number of power units consumed in the relevant quarter – Guaranteed Energy Consumption for such quarter) * [Power Unit Rate] * 0.5

(III) For excess power consumption above 10% (five per cent) of the Guaranteed Energy Consumption of the Facilities:

Power Consumption Liquidated Damages: (Number of power units consumed in the relevant quarter – Guaranteed Energy Consumption for such quarter) * [Power Unit Rate]

(D) The Power Consumption Liquidated Damages payable by the Concessionaire in any quarter of the O&M Period will be deducted from the O&M Charges for the Facilities payable to the Concessionaire for such quarter. If the Power Consumption Liquidated Damages for a quarter exceed the O&M Charges for the Facilities for such quarter, then the excess amounts shall, at the discretion of [Executing Agency], either be adjusted against the O&M Charges for the Facilities for the subsequent quarter or recovered from the O&M Security.

(h) The O&M Payments shall be paid by [Name of the State / National Level Agency, if any] / [Executing Agency] to the Concessionaire on a quarterly basis. For each Facilities, the Concessionaire shall submit an Invoice to [Executing Agency] for each quarter on or before the 7th (seventh) day of the first month of the following quarter, which should set out: (i) the Capex Annuity due to the Concessionaire in such quarter, along with interest in accordance with Clause 9.4(d)(ii) above; (ii) the O&M Charges due to the Concessionaire in such quarter; and (iii) the Power Charges incurred by the Concessionaire during such quarter for power drawn from the grid or the DG Sets, subject to the cap of the Power Charges based on the Guaranteed Energy Consumption for the Facilities. Any Invoice raised by the Concessionaire for O&M Payments shall be accompanied with a copy of the: (A) KPI Adherence Report for each month of the relevant quarter, duly certified by the Project Engineer; and (B) copy of the bill(s) issued by the state distribution utility for the Power Charges, and if relevant, copy of the joint meter reading for consumption of power from the DG Sets.

42Delete whichever not applicable.
If the Invoice is not accompanied with the supporting documents specified at (A) and (B) above, [Executing Agency] shall not be required to process such Invoice.

(i) Within 10 (ten) days of receipt of an Invoice from the Concessionaire pursuant to Clause 9.4(h) above, [Executing Agency] shall verify and certify the amounts due and payable to the Concessionaire, and either:

   (i) Approve the invoice and issue a certificate to the Escrow Bank \{\text{(with a copy to [Name of the State / National Level Agency, if any])}^{43}\text{ and the Concessionaire), conveying its approval for the release of the amount specified in the Invoice, less any necessary deductions or adjustments in accordance with this Agreement and/or Applicable Laws (including any statutory dues); or}

   (ii) issue a notice to the Concessionaire disputing the Invoice and directing the Concessionaire to issue a revised Invoice, after rectifying the errors or discrepancies identified by [Executing Agency].

The Concessionaire shall submit a revised Invoice to [Executing Agency] after rectifying the errors or discrepancies identified by [Executing Agency] and this process will be repeated until [Executing Agency] approves the Invoice and issues a certificate to the Escrow Bank \{\text{(with a copy to [Name of the State / National Level Agency, if any])}^{44}\text{ and the Concessionaire), conveying its approval for release of the amount specified in the Invoice.}

(j) Any dispute between the Parties in relation to a disputed Invoice will be settled in accordance with Article 21.

(k) A certificate issued by [Executing Agency] in accordance with Clause 9.4(i) shall be referred to as a Payment Certificate.

(l) If, within 10 (ten) days from the date of receipt of an Invoice, [Executing Agency] does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by [Executing Agency], and the Concessionaire may issue instructions to the Escrow Bank \{\text{(with a copy to [Executing Agency] and [Name of the State / National Level Agency, if any])}^{45}\text{ to release the amounts specified in the Invoice, upon the expiry of the 10 (ten) day period.}

(m) Immediately upon receipt of a Payment Certificate in accordance with Clause 9.4(i)(A) [or upon receipt of instructions from the Concessionaire in accordance with Clause 9.4(l)], the Escrow Bank shall release the amount specified in the Payment Certificate or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice, in accordance with the Escrow Agreement.

(n) Notwithstanding anything to the contrary in this Agreement, [Executing Agency] shall have no obligation to issue a Payment Certificate unless:

---

44 To be deleted if not applicable.
45 To be deleted if not applicable.
(i) the O&M Securities remain valid and in effect;

(ii) the insurances to be obtained by the Concessionaire in accordance with Clause 11.2 are valid and in effect;

(iii) the Concessionaire Applicable Permits for O&M of the Facilities are in full force and effect, unless the withdrawal or cancellation of any Applicable Permit is not attributable to the Concessionaire's failure to comply with Applicable Laws;

(iv) the Concessionaire has complied with the ESHS Documents in undertaking the O&M of the Facilities; and

(v) there is no subsisting Concessionaire Event of Default.

9.5 Escrow Account

(a) Prior to the Effective Date, the Concessionaire, [Name of the State / National Level Agency, if any];[Executing Agency] and the Escrow Bank shall enter into the Escrow Agreement and [Name of the State / National Level Agency, if any] shall open the Escrow Account with the Escrow Bank in accordance with the Escrow Agreement, which shall be operational until the expiry of the Term. The Escrow Agreement shall set out the terms of appointment of the Escrow Bank, [Name of the State / National Level Agency, if any]'s obligation to deposit the Construction Payments and the O&M Payments in accordance with this agreement with the Escrow Bank and terms of withdrawal of amounts from the Escrow Account.

(b) Minimum Escrow Balance

At all times, to maintain the minimum balance in the Escrow Account (the “Minimum Escrow Balance”):

(i) [Name of the State / National Level Agency, if any] shall deposit an amount equivalent to the first 2 [Location] Facilities Payment Milestones prior to the Effective Date. From the Effective Date and during the Construction Period, [Name of the State / National Level Agency, if any]/[Executing Agency] shall ensure that the Escrow Account is funded with an amount equivalent to the next 2 [Location] Facilities Payment Milestones for the [Location] Facilities; and

(ii) on and from the COD until Expiry Date, [Name of the State / National Level Agency, if any]/[Executing Agency] shall deposit the O&M Payments in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuity (along with interest), the O&M Charges and the estimated Power Charges for the next 2 years for both the [Location] Facilities.

46To be deleted if not applicable.
47Delete whichever not applicable.
48Delete whichever not applicable.
If at any time during the Construction Period or the O&M Period, the balance in the Escrow Account falls below the Minimum Escrow Balance, [Name of the State / National Level Agency, if any]/[Executing Agency] shall promptly, and in any event, no later than 90 (ninety) days, fund the Escrow Account such that the Minimum Escrow Balance is maintained. A failure to maintain the Minimum Escrow Balance for 90 (ninety) days would be treated as a [Name of the State / National Level Agency, if any]/[Executing Agency] Event of Default and the consequences set out in Article 16 would follow.

It is clarified that any interest earned on the amounts deposited by [Name of the State / National Level Agency, if any]/[Executing Agency] in the Escrow Account will be counted towards the Minimum Escrow Balance.

(c) The Concessionaire may withdraw amounts from the Escrow Account in accordance with the provisions of this Agreement and the Escrow Agreement.

9.6 Taxes and Royalties

(a) The Construction Payments and the O&M Payments are inclusive of all Taxes.

(b) [Executing Agency] may deduct from the Construction Payments, the O&M Payments and any other amounts due to the Concessionaire, any income tax or withholding tax that is required to be deducted at source.

(c) The Concessionaire shall be responsible for payment of all applicable Taxes, including all procedural compliances related to the payment of Taxes pursuant to this Agreement, and shall be solely responsible for any proceedings initiated by any Government Authority, in respect of any non-payment or short-payment of Taxes.

(d) The Concessionaire shall be responsible for payment of all applicable royalties on any fine and coarse aggregate, core sand, fine sand, grit and any other minerals extracted and/or used by the Concessionaire or any Subcontractor during the Construction Period and furnish proof of payment of such royalties to [Executing Agency] along with the Invoices for the Construction Payments.

(e) Upon a request from the Concessionaire, [Name of the State / National Level Agency, if any]/[Executing Agency] will provide all relevant certificates and information to enable the Concessionaire to obtain any Tax exemptions available in relation to the Project. It is clarified that [Executing Agency] shall not be responsible in any manner for ensuring that any applicable Tax exemptions are available to the Concessionaire.

(f) The Concessionaire shall indemnify [Name of the State / National Level Agency, if any] and [Executing Agency] from and against any cost or liability that may arise due to the Concessionaire's failure to pay all applicable Taxes, in connection with the
Project.

(g) Any Taxes payable in relation to the [Location] Facilities Sites shall be borne by [Executing Agency].

9.7 Default Interest

Upon any Party's failure to make a payment due and payable by it on the due date for such payment, the defaulting Party shall be liable to pay default interest on all such outstanding amounts at the prevailing SBI MCLR + 3% per annum or part thereof. This is without prejudice to any Party's right to terminate this Agreement in accordance with Article 16 or any other right or remedy available to it under this Agreement or Applicable Laws.

9.8 Right of Set-Off

The Concessionaire shall not be entitled to retain or set off any amount due to ([Name of the State / National Level Agency, if any] or)[53][Executing Agency] by it, but ([Name of the State / National Level Agency, if any] or)[54][Executing Agency] may retain or set off any amount owed to it by the Concessionaire under this Agreement, which has fallen due and payable against any amount due to the Concessionaire under this Agreement. [Name of the State / National Level Agency, if any]/[Executing Agency][55] shall notify the Concessionaire at the time it exercises its right to set-off and shall provide the Concessionaire its reasons for exercising such right to set-off.

9.9 Revenue Share

The Concessionaire agrees to pay to the Authority, for every [year] of the Concession Period, based on the audited financial report issued by an independent Auditor commencing from the [second quarter Post-COD], [10% (ten per cent)] of the Revenue from Disposal and sale of STP By-Products, FSTP By-Products, Treated Effluent, Digested Sludge, Residual Grit and Screenings, etc., as its share in the revenues earned from the Project (the “Revenue Share”), as escalated in accordance with this Article 9.

9.10 Payment of Revenue Share

(a) The Revenue Share payable under this Agreement shall be due and payable as follows:

(i) Revenue Share to be paid by the Concessionaire shall be due and payable within [15 (fifteen)] days of the commencement of the Financial Year. Provided that the Revenue Share for the first Financial Year shall be paid within [15 (fifteen)] days of the occurrence of the COD; and

(ii) The Revenue Share shall be payable in [monthly] installments. Within [7 (seven)] days of the end of each month, the Concessionaire shall pay to the Authority against the Revenue Share, a provisional amount calculated on the basis of

Delete if not applicable.

Delete if not applicable.

Delete whichever not applicable.
Revenue from Disposal of STP By-Products, FSTP By-Products, Treated Effluent, Digested Sludge, Residual Grit and Screenings, etc., of the immediately preceding month and final settlement thereof, based on audited accounts of the Concessionaire, shall be made within [120 (one hundred and twenty)] days of completion of the respective Financial Year.

The Concessionaire shall, with each payment of the Revenue Share submit: (a) a certificate that the amounts paid are correct and in accordance with the provisions of the Agreements; [(b) detailed calculations of the Revenue Share based on the Revenue from Disposal of STP By-Products, FSTP By-Products, Treated Effluent, Digested Sludge, Residual Grit and Screenings, etc.]; (c) details in respect of Taxes/duties payable/reimbursable in accordance with the provisions of this Agreement; (d) details in respect of other Damages payable in accordance with the provisions of this Agreement; and (e) net amount payable under the provisions of this Agreement.
ARTICLE 10
FINANCING ARRANGEMENTS AND SECURITY

10.1 Financing and Bankability Support

(a) The Parties acknowledge that for the purposes of implementing the Project, the Concessionaire may require Financial Assistance from the Lenders. To this end, [Executing Agency] shall co-operate with the Concessionaire to achieve Financial Close, including providing such consents and waivers as may be reasonably required by the Lenders.

(b) In case of a Concessionaire Event of Default, [Executing Agency] and [Name of the State / National Level Agency, if any] acknowledge that the Lenders will have a right to substitute the Concessionaire in accordance with Clause 16.2 and the Substitution Agreement. [Executing Agency] will suspend its right to step-in or terminate this Agreement until the expiry of the period available to the Lenders to exercise their substitution rights under Clause 16.2.

(c) The Concessionaire shall maintain books of accounts recording all its receipts (including fees and other revenues derived/collected by it from or on account of any of the Facilities and/or its use), income, expenditure, payments (including payments from the Escrow Account), assets and liabilities, in accordance with this Agreement, Good Industry Practice, Applicable Laws and Applicable Permits.

(d) The Concessionaire shall not make any addition, replacement or amendments to any of the Financing Documents without the prior written consent of the [Executing Agency] if such addition, replacement or amendment has, or may have, the effect of imposing or increasing any financial liability or obligation on the [Executing Agency], and in the event that any replacement or amendment is made without such consent, the Concessionaire shall not enforce such replacement or amendment nor permit enforcement thereof against the [Executing Agency]. For avoidance of doubt, the [Executing Agency] acknowledges and agrees that it shall not unreasonably withhold its consent for restructuring or rescheduling of the debt of the Concessionaire.

10.2 Security Creation

(a) The Concessionaire shall be entitled to create assignment by way of Security over all of its rights, title and interests in and to the Concession Agreement and the Escrow Agreement in favour of the Lenders for the purpose of obtaining Financial Assistance for the Project, provided that the creation of such Security will not result in any financial liability to [Executing Agency] (or [Name of the State / National Level Agency, if any]),56.

(b) The Concessionaire shall be entitled to include the Lenders as co-insured and/or additional loss payees in any of the insurances taken by the Concessionaire in accordance with Clause 11.2 and/or grant Security over the proceeds of such insurance.

56Delete if not applicable.
(c) Except for any Security created by operation of law and any Security created pursuant to this Clause 10.2, the Concessionaire shall not be entitled to create any other Security over the Concession Agreement, the Escrow Agreement or insurance policies taken by it in favour of any third Persons, without the prior written consent of [Executing Agency], which consent [Executing Agency] may deny in its sole discretion.

(d) The Concessionaire shall not be entitled to create any Security over the Site or any part thereof, or any of the Facilities or the Power Plant, if any, whether in favour of the Lenders or any third Persons.
ARTICLE 11
INSURANCE AND INDEMNITIES

11.1 Indemnity and Limitation of Liability

(a) Subject to Clause 11.1(b) below, the Concessionaire shall be responsible for release, hold harmless and indemnify [Executing Agency], [Name of the State / National Level Agency, if any], and [Executing Agency] Related Parties {and the [Name of the State / National Level Agency, if any]}57 Related Parties on demand from and against, all suits, actions, claims, demands, losses, damages, fines, penalties, costs or expenses (including costs of legal fees) or liability for:

(i) death or personal injury of any person;

(ii) loss of or damage to property;

(iii) non-compliance with Applicable Laws or Applicable Permits (including specifically, environmental laws and environmental consents);

(iv) any damage caused to the environment by the Concessionaire (including specifically, due to the Concessionaire's failure to meet the Discharge Standards); and

(v) any third-party losses or claims;

which may arise out of, or in consequence of the performance or non-performance of the Concessionaire's obligations under this Agreement.

(b) The Concessionaire shall not be responsible or be obliged to indemnify [Executing Agency] {or [Name of the State / National Level Agency, if any]} for any injury, loss, damage, cost and expense caused by the negligence or Wilful Misconduct of [Executing Agency], [{Name of the State / National Level Agency, if any}]58 {Executing Agency} Related Parties {or the [Name of the State / National Level Agency, if any]} Related Parties or by a breach by [Executing Agency] {or [Name of the State / National Level Agency, if any]} of their respective obligations under this Agreement, provided the Concessionaire was/is not partly/ wholly or directly/ indirectly responsible for such injury, loss, damage, cost and expense.

(c) [Executing Agency] {and [Name of the State / National Level Agency, if any]} shall have the right, but not the obligation, to contest, defend, and litigate any claim, action, suit or proceeding by any third party alleged or asserted against them in respect of, resulting from, related to or arising out of any matter for which they are entitled to be indemnified under this Agreement, and the reasonable costs and expenses (including legal fees) thereof, shall be subject to the indemnification obligations of the Concessionaire.

57Delete if not applicable.
58Contents in the curly parenthesis may be deleted if not applicable.
If, however, the Concessionaire acknowledges in writing its obligations to indemnify [Executing Agency] [and/or [Name of the State / National Level Agency, if any]] in respect of loss to the full extent provided by this Agreement, the Concessionaire shall be entitled, at its option, to assume and control the defense of such claim, action, suit or proceeding at its expense and through a counsel of its choice if it gives prompt notice of its intention to do so to [Executing Agency] [and [Name of the State / National Level Agency, if any]] and reimburses [Executing Agency] [and/or [Name of the State / National Level Agency, if any]] for the costs and expenses incurred by [Executing Agency] [and/or [Name of the State / National Level Agency, if any]] prior to the assumption by the Concessionaire of such defense. A Party shall not settle or compromise any such claim, action, suit or proceeding without the prior written consent of the other Parties, which consent shall not be unreasonably withheld or delayed. Notwithstanding the foregoing, [Executing Agency] [and/or [Name of the State / National Level Agency, if any]] shall have the right to employ its own counsel and such counsel may participate in such action, but the fees and expenses of such counsel, as and when incurred, shall be at the expense of [Executing Agency] [or [Name of the State / National Level Agency, if any]], as the case may be.

(d) [Executing Agency] shall be responsible for, release, hold harmless and indemnify the Concessionaire and the Concessionaire Related Parties on demand from and against, all suits, actions, claims, demands, losses, damages, fines, penalties, costs or any other liability incurred or suffered by the Concessionaire under Applicable Laws, or pursuant to the law of torts, principles of absolute liability or strict liability or polluter pays principle, as a result of any environmental pollution or health hazard caused by the quality of raw Sewage/Faecal Sludge/Septage which is delivered at the Facilities not pertaining to the Influent Standards, for which the Concessionaire was/is not partly/wholly or directly/indirectly responsible.

(e) Limitation of liability

(i) Notwithstanding anything to the contrary contained in this Contract, the maximum overall liability of any Party under this Agreement shall not exceed [Amount of Liability]

(ii) Provided that the limitation of liability set out in Clause 11.1(e) above shall not apply to the following:

(A) breach of Applicable Law and Applicable Permits;

(B) breach of any third-party Intellectual Property Rights;

(C) fraud and Wilful Misconduct;

59Contents in the curly parenthesis may be deleted if not applicable.
60Total agreed capital cost.
(D) gross negligence;
(E) damages to or loss of third-party property;
(F) damage caused to the environment;
(G) misrepresentation by the Concessionaire; and
(H) health hazard, bodily injury or loss of life.

(iii) The Parties agree and acknowledge that the provisions of this Clause 11.1(e) in respect of limitation and exclusion of liabilities is an agreed allocation of risk between the Parties, the sufficiency of which the Parties hereby agree and acknowledge.

(f) The provisions of this Clause 11.1 shall survive the termination of this Agreement.

11.2 Insurance

(a) The Concessionaire shall, obtain and maintain the policies of insurance set out below in the minimum coverage amounts and during the specified periods. In addition, the Concessionaire shall obtain any additional coverage required by Applicable Laws and/or deemed necessary by the Concessionaire, the Lenders or [Executing Agency] in accordance with this Clause 11.2.

Insurances during the Construction Period

During the Construction Period, the Concessionaire shall obtain and maintain such insurances for such maximum sums as may be required under the Financing Documents and Applicable Laws, and such insurances as may be necessary or prudent in accordance with Good Industry Practices.

Insurances during the O&M Period

During the O&M Period, the Concessionaire shall obtain and maintain insurance policies including but not limited to the following:

(i) loss, damage or destruction of the Facilities, at replacement value;

(ii) comprehensive third-party liability insurance including injury to or death of personnel of [Executing Agency] {or [Name of the State / National Level Agency, if any]} or others caused by the Project;

(iii) the Concessionaire's general liability arising out of the Project;

(iv) liability to third parties for goods or property damage;

---

61 Delete if not applicable.
(v) workmen's compensation insurance; and

(vi) any other insurance that may be necessary to protect the Facilities, the Concessionaire and its employees, including for all Force Majeure Events that are insurable at commercially reasonable premiums and not otherwise covered in items (i) to (v) above.

(b) The level of insurance to be maintained by the Concessionaire after repayment of the Lenders’ dues in full shall be determined on the same principles as applicable for determining the level of insurance prior to such repayment of the Lenders’ dues, in accordance with the Financing Documents.

(c) The Concessionaire shall, within 30 (thirty) days of the Effective Date, provide a notice to [Executing Agency], setting out information in respect of the insurances that it proposes to effect and maintain. Within 15 (fifteen) days of receipt of such notice, [Executing Agency] may require the Concessionaire to effect and maintain such other insurances as it may deem necessary, and in the event of any difference or disagreement relating to any such insurance, the provisions of Article 21 (Dispute Resolution) shall apply.

(d) The Concessionaire shall purchase insurance from reputable Indian and/or international companies licensed to operate in India, at competitive terms, and shall maintain the insurances on terms consistent with Good Industry Practices. Within 15 (fifteen) days of obtaining any insurance cover, the Concessionaire shall furnish to [Executing Agency], notarised true copies of the certificate(s) of insurance, copies of insurance policies and premium payment receipts in respect of such insurance.

(e) Each insurance policy shall contain the following endorsements:

(i) [Executing Agency] shall be additional insured under all policies maintained by the Concessionaire in relation to the Site and the Project, against loss or damage;

(ii) the insurers shall waive all rights of subrogation against [Executing Agency] {and [Name of the State / National Level Agency, if any]};

(iii) the insurance policy may not be cancelled or materially changed by the insurer without giving 45 (forty five) days’ prior written notice, except in the case of non-payment, in which case it will be 10 (ten) days’ prior written notice, to [Executing Agency]; and

(iv) [Executing Agency] shall not be responsible for payment of any insurance premium.

(f) Any changes in the insurances which impact the Site, or the Project will need the prior written consent of [Executing Agency], which consent shall not be unreasonably withheld.

---

62 Delete if not applicable.
(g) The Concessionaire shall apply proceeds from all insurance claims, except life and injury, for any necessary repair, reconstruction, reinstatement, replacement, improvement, delivery or installation of the Facilities, and the balance remaining, if any, shall be applied in accordance with the provisions contained in this behalf in the Financing Documents.

(h) If the Concessionaire fails to procure or maintain any insurance required pursuant to this Clause 11.2 which is required to be obtained for the Site or the Project, [Executing Agency] shall have the right to procure and maintain such insurance in accordance with the requirements of this Clause 11.2 and charge the full cost thereof to the Concessionaire.
ARTICLE 12
CHANGE IN OWNERSHIP

12.1 Ownership Information

The Selected Bidder shall inform [Executing Agency] that it has caused the Concessionaire to be incorporated as a special purpose company to implement the Project and undertake other obligations of the Concessionaire under and in accordance with this Agreement. The shareholding pattern of the [Selected Bidder/Members] in the Concessionaire is as follows:

<table>
<thead>
<tr>
<th>S. No.</th>
<th>Name of the shareholder</th>
<th>No. of shares held</th>
<th>Nature of the shares [Equity/Preference]</th>
<th>Value of the shares held [INR]</th>
<th>Shareholding [in %]</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

The Concessionaire represents and warrants to [Executing Agency] [and [Name of the State / National Level Agency, if any]] that no arrangements are in place that have resulted or may result in a breach of the change in ownership restrictions set out in Clause 12.2 below.

12.2 Change in Ownership Restrictions

(a) The Concessionaire shall ensure that the Selected Bidder holds at least 51% (fifty one per cent) of the total Capital and voting rights of the Concessionaire until the COD, and at least [26% (twenty six per cent)] of the total Capital and voting rights of the Concessionaire until [1 (one)] year after the COD.

After the expiry of [1 (one)] year from the COD, with the prior consent of the [Executing Agency], the Selected Bidder can exit the Concessionaire, subject to: (i) the entity acquiring the shareholding of the Selected Bidder in the Concessionaire meeting the O&M qualification criteria set out in the RFP; or (ii) the Concessionaire appointing an O&M contractor who complies with the technical qualification criteria set out in the RFP.

(b) The Concessionaire shall ensure that the change in ownership restrictions set out in Clause 12.2(a) are incorporated in the articles of association of the Concessionaire.

(c) If, any Associate, whose credentials were taken into consideration for determining Technical Capacity, ceases or will cease to be an Associate of the [Selected Bidder/Member], then, the Concessionaire shall seek the approval of [Executing Agency] for such occurrence along with all relevant details. While [Executing Agency] shall not unreasonably withhold or delay such approval, the decision of [Executing Agency]...
Agency] will be final in this regard. If [Executing Agency] is of the view that such occurrence is likely to affect the Technical Capacity of the Concessionaire to undertake the Project, then [Executing Agency] may treat such occurrence as a Concessionaire Event of Default, in which case the consequences set out in Article 16 shall follow.

(d) If, at any time after the expiry of [1 (one)] year from the COD, the [Selected Bidder/any Member]\(^{67}\) is proposed to be replaced by an entity that meets the O&M qualification criteria set out in the RFP or the Concessionaire proposes to appoint an O&M contractor to meet the change in ownership condition set out in Clause 12.2(a), then the Concessionaire shall submit a proposal to [Executing Agency] with details of the proposed shareholder/O&M contractor, for its approval. The proposal should demonstrate to the satisfaction of [Executing Agency] that the Concessionaire or the proposed O&M contractor meets the O&M qualification criteria specified in the RFP.

Within 15 (fifteen) days of receipt of a proposal from the Concessionaire, [Executing Agency] shall notify the Concessionaire of its approval or rejection (along with reasons) of the proposed shareholder/O&M contractor.

The approval of the proposed shareholder/O&M contractor by [Executing Agency] shall be at [Executing Agency]'s sole discretion.

If [Executing Agency] does not notify its approval or rejection of the proposed shareholder/O&M contractor within 60 (sixty) days of the receipt of the proposal from the Concessionaire, then such proposed shareholder/O&M contractor will be deemed to be approved by [Executing Agency].

ARTICLE 13
CHANGE IN LAW

13.1 Change in Law

The Concessionaire may claim the benefit of and/or relief for a Change in Law event subject to and in accordance with this Article 13.

13.2 Consequences of Change in Law

(a) The Concessionaire shall not be allowed any relief and/or compensation for any Change in Law which is not a: (i) Qualifying Change in Law; or (ii) Fundamental Change in Law.

(b) If a Qualifying Change in Law occurs, then the Concessionaire shall notify [Executing Agency] {and [Name of the State / National Level Agency, if any]} of such Qualifying Change in Law along with details of:

(i) any necessary change in the Construction Plan, the O&M Manual or the Technical Specifications on the basis of which construction works and O&M services are required to be undertaken for the Facilities;

(ii) any changes that are required to the terms of this Agreement to deal with such Qualifying Change in Law;

(iii) any extension of the Scheduled Payment Milestone Completion Date or the Scheduled Construction Completion Date, to account for the delay, if any, resulting from the Qualifying Change in Law; and/or

(iv) any increase in Costs that will result from the Qualifying Change in Law.

(c) As soon as practicable and in any event, within 30 days from the receipt of any notice from the Concessionaire under Clause 13.2(b) above, the Parties shall agree on the consequences of the Qualifying Change in Law, as specified in the notice, and any way in which the Concessionaire can mitigate the effect of the Qualifying Change in Law, including:

(i) providing evidence that the Concessionaire has used reasonable endeavors (including, where practicable, the use of competitive quotes) to minimise any increase in Costs or oblige the Subcontractors to minimise any increase in Costs;

(ii) providing evidence as to how the Qualifying Change in Law has affected prices of materials used for construction or O&M of STP which are similar to the Facilities; and

(iii) demonstrating to [Executing Agency] {and [Name of the State / National Level Agency, if any]} for such increase in Costs.

[Contents in curly parenthesis may be deleted if not applicable.]

112
Agency, if any] that the Qualifying Change in Law is the direct cause of the increase in Costs or delay and the estimated increase in Costs, or extension of time could not reasonably be expected to be mitigated or recovered by the Concessionaire.

(d) If the Parties fail to agree on the consequences of the Qualifying Change in Law within 30 days from the receipt of any notice from the Concessionaire under Clause 13.2(b) above, the dispute will be finally settled in accordance with the dispute resolution procedure set out in Article 21 (Dispute Resolution).

(e) If the Concessionaire has complied with Clause 13.2 (c) above and the Parties mutually agree or it is determined in accordance with Clause 13.2 (d) above, that the Concessionaire is required to incur additional Costs due to a Qualifying Change in Law, then:

(i) the Concessionaire shall be required to bear all Costs resulting from any one or more Qualifying Change in Law events, up to an aggregate amount equivalent to 0.5% of the total Bid Project Cost (Threshold Limit); and

(ii) for any additional Costs resulting from the Qualifying Change in Law, which is in excess of the Threshold Limit, the Concessionaire shall be entitled to be compensated for such additional Costs, in excess of the Threshold Limit, by way of,

(A) a lump-sum payment of an amount equivalent to the additional Costs incurred by the Concessionaire, over and above the Threshold Limit; or

(B) an appropriate adjustment in the O&M Charges.

(f) If the Concessionaire has complied with Clause 13.2(c) above and the Parties mutually agree or it is determined in accordance with Clause 13.2(c) above that the Concessionaire will suffer any delay as a result of the occurrence of a Qualifying Change in Law, then the Concessionaire shall be entitled to an extension of time in accordance with Clause 7.11(b).

(g) In case of a dispute with respect to the quantum of relief (whether extension of time or compensation) that the Concessionaire shall be entitled to under this Clause 13.2 shall be as agreed by the Parties or as determined in accordance with Article 21, provided always that:

(i) the Concessionaire shall bear any increased Cost to the extent of the Threshold Limit; and

(ii) the Concessionaire shall only be entitled to relief that is reasonable for such Qualifying Change in Law.

(h) Notwithstanding anything to the contrary in this Agreement, the Concessionaire shall not be entitled to any schedule relief and/or compensation or adjustment in the Bid
Project Cost or the O&M Charges due to a Qualifying Change in Law, if such Qualifying Change in Law becomes applicable as a result of a delay in the execution of the Project, which is not attributable to a Delay Event.

(i) If a Fundamental Change in Law occurs, then,

   (i) the affected Party may notify the other Parties of the effects of such Fundamental Change in Law on the validity and enforceability of this Concession Agreement or on the rights of the Concessionaire under this Agreement; and

   (ii) any Party may propose amendments to the Concession Agreement, which would make the Concession Agreement compliant with Applicable Laws, while enabling the Parties to achieve their commercial objectives.

If the Parties are unable to agree on necessary amendments to the terms of this Agreement within 30 days of receipt of a notice from the affected Party or the Fundamental Change in Law event is such that it cannot be mitigated with amendments to the terms of this Agreement, the Fundamental Change in Law event shall be treated as a Direct Political Force Majeure Event in accordance with Article 14.
ARTICLE 14
FORCE MAJEURE

14.1 Force Majeure Events

(a) A Force Majeure Event means any act, event or circumstance or a combination of acts, events or circumstances or the consequence(s) thereof occurring after the date of this Agreement, which is/are:

(i) beyond the reasonable control of the Affected Party;
(ii) such that the Affected Party is unable to overcome or prevent despite exercise of due care and diligence;
(iii) which does/do not result from the negligence of such Affected Party or the failure of such Affected Party to perform its obligations hereunder; and
(iv) such that it/they has/have a Material Adverse Effect.

(b) A Force Majeure Event means the following events and circumstances to the extent that they satisfy the conditions set out in Clause 14.1(a):

(i) Non-Political Force Majeure Events

(A) acts of God including storm, tempest, cyclone, hurricane, tsunami, flood, whirlwind, lightning, earthquake, washout, landslide, soil erosion, volcanic eruption, or extreme adverse weather or environmental conditions or actions of the elements;

(B) fire or explosion caused by reasons not attributable to the Concessionaire or any Concessionaire Related Parties;

(C) chemical or radioactive contamination or ionising radiation;

(D) epidemic, plague or quarantine;

(E) the discovery of geological conditions, toxic contamination or archaeological remains on the Site that could not reasonably have been expected to be discovered through a site inspection; and

(F) accidents of navigation, air crash, shipwreck, train wreck or other similar failures of transportation of equipment and/or material necessary for construction or O&M of the Facilities.

Non-Political Force Majeure Event shall not include the following conditions, except to the extent resulting from a Non-Political Force Majeure Event:

(A) heavy rainfall;

(B) quantum of the Sewage/Faecal Sludge/Septage being more than the Design Capacity;
(C) characteristics of the Sewage/Faecal Sludge/Septage being beyond the Influent Standards;

(D) unavailability, late delivery or changes in cost of plant, machinery, equipment, materials or spare parts required for undertaking the Project;

(E) a delay in the performance of any Subcontractor;

(F) non-performance resulting from normal wear and tear; or

(G) non-performance caused by the non-performing Party's (I) negligent or intentional acts, errors or omissions, (II) failure to comply with the Applicable Laws or Applicable Permits, or (III) breach of, or default under, this Agreement, as the case may be.

(ii) Indirect Political Force Majeure Events

(A) hostilities (whether declared as war or not), riot, civil disturbance, revolution, rebellion, insurrection, act of terrorism, in each case involving the GoI or the Go[XX]69 or occurring in [State of Location];

(B) invasion, armed conflict, coup d’état, act of foreign enemy, blockade, embargo, revolution, insurgency, nuclear blast/explosion, politically motivated sabotage, religious strife or civil commotion, in each case involving the GoI or the Go[XX]69 or occurring in [State of Location];

(C) strikes or boycotts (including non-political strikes other than those involving the Concessionaire, Sub-Contractors or their respective employees/representatives, or attributable to any act or omission of any of them and the indirect political strikes such as industry-wide or state-wide strikes), lockout, or other industrial disputes which are not directly attributable to the actions of the Affected Party;

(D) any orders issued by the relevant Government Authority, which require the Concessionaire to suspend the construction or O&M of the Facilities provided that, such orders are not attributable to the Concessionaire’s breach or violation of any Applicable Laws or Applicable Permits; and

(E) delay or failure by relevant Government Authorities in renewing or granting any Applicable Permit, despite the Concessionaire having applied for such Applicable Permit expeditiously and complied with the requirements of Applicable Laws in making such application or the unlawful revocation of any Applicable Permit.

(iii) Direct Political Force Majeure Events

69Name of the State Government.
(A) occurrence of a Fundamental Change in Law in accordance with Clause 13.2(i);

(B) compulsory acquisition in national interest or expropriation of the Site; and

(C) any order, notification or judgement issued or passed by any Government Authority/ Court of Law/ Tribunal which restricts the Concessionaire from constructing or operating the Facilities as contemplated in this Agreement on the Site, unless such restriction is, in any manner, attributable to the Concessionaire.

(c) Without prejudice to the provisions of Clauses 14.1(a) or 14.1(b) above,

(i) any act, event or circumstance which primarily affects any of the Concessionaire Related Parties associated with the Project shall constitute a Force Majeure Event if and to the extent that it is of a kind or character that, if it had directly affected the Concessionaire, it would have come within the definition of Force Majeure Event under this Clause 14.1; and

(ii) any act, event or circumstance which primarily affects any of [Executing Agency] Related Parties [or the [Name of the State / National Level Agency, if any] Related Parties]\(^7\) shall constitute a Force Majeure Event if and to the extent that it is of a kind or character that, if it had directly affected [Executing Agency] or [Name of the State / National Level Agency, if any], it would have come within the definition of Force Majeure Event under this Clause 14.1.

(d) If the Parties are unable to agree in good faith on the occurrence or existence of a Force Majeure Event, such dispute shall be finally settled in accordance with the dispute resolution procedure set out in Article 21, provided however that the burden of proof as to the occurrence or existence of such Force Majeure Event shall be upon the Affected Party.

### 14.2 Notice of Force Majeure Events

(a) The Affected Party shall give notice to the other Party in writing of the occurrence of any Force Majeure Event (the **FM Notice**), as soon as the same arises or as soon as reasonably practicable and in any event within 3 days after the Affected Party knew of its occurrence, the adverse effect it has or is likely to have on the performance of its obligations under this Agreement, the actions being taken and an estimate of the time period required to overcome the Force Majeure Event and/or its nature and effects (if it is possible to estimate the same).

(b) If, following the issue of the FM Notice, the Affected Party receives or becomes aware of any further information relating to the Force Majeure Event, it shall submit such further information to the other Party as soon as reasonably practicable.

(c) Any party claiming to have been affected by a Force Majeure Event shall not be entitled

\(^7\)Contents in curly parenthesis may be deleted if found not applicable.
to any relief unless it has complied with all the provisions of this Clause 14.2.

14.3 **Excuse of Performance**

If the Affected Party is rendered wholly or partially unable to perform its obligations under this Agreement because of a Force Majeure Event, it shall be excused from performance of such of its obligations to the extent it is unable to perform on account of such Force Majeure Event; provided that:

(a) the suspension of performance shall be of no greater scope and of no longer duration than is reasonably required by the Force Majeure Event;

(b) the Affected Party shall make all reasonable efforts to mitigate or limit damage to the other Party arising out of or as a result of the existence or occurrence of such Force Majeure Event and to cure the same with due diligence; and

(c) when the Affected Party is able to resume performance of its obligations under this Agreement, it shall give to the other Party notice to that effect and shall promptly resume performance of its obligations hereunder.

If a Force Majeure Event affects only one Facilities, and not the other Facilities, then the Affected Party shall only be excused from the performance of its obligations in relation to the affected Facilities.

14.4 **No Liability for Other Losses**

Save and except as expressly provided in this Agreement, no Party shall be liable in any manner whatsoever to the other Parties in respect of any loss relating to or arising out of the occurrence or existence of any Force Majeure Event or the exercise by it of any right pursuant to this Article 14.

14.5 **Resumption of Performance**

The Affected Party shall in consultation with the other Parties, make all reasonable efforts to limit or mitigate the effects of a Force Majeure Event on the performance of its obligations under this Agreement. The Affected Party shall also make efforts to resume performance of its obligations under this Agreement as soon as possible and upon resumption, shall notify the other Parties of the same in writing. The other Parties shall afford all reasonable assistance to the Affected Party in this regard.

14.6 **Allocation of costs during a Force Majeure Event**

(a) Upon occurrence of a Force Majeure Event prior to the COD, the Parties shall bear their respective Costs and no Party shall be required to pay any Costs to the other Parties.

(b) Upon occurrence of a Force Majeure Event after the COD, the costs incurred and
attributable to such event and directly relating to the Facilities (the “**Force Majeure Costs**”) shall be allocated and paid as follows:

(i) upon occurrence of a Non-Political Event, the Parties shall bear their respective Force Majeure Costs and neither Party shall be required to pay to the other Party any costs thereof;

(ii) upon occurrence of an Indirect Political Event, all Force Majeure Costs attributable to such Indirect Political Event, and not exceeding the Insurance Cover for such Indirect Political Event, shall be borne by the Concessionaire, and to the extent Force Majeure Costs exceed such Insurance Cover, one half of such excess amount shall be reimbursed by the Authority to the Concessionaire; and

(iii) upon occurrence of a Political Event, all Force Majeure Costs attributable to such Political Event shall be reimbursed by the Authority to the Concessionaire.

Provided that upon occurrence of a Force Majeure Event post the COD, the Concessionaire shall be entitled to continue receiving the Capex Annuity (along with interest) and the O&M Charges during the subsistence of the Force Majeure Event.

(c) For avoidance of doubt, Force Majeure Costs may include interest payments on debt, O&M Charges, any increase in the cost of development, construction and operation and maintenance of the Facilities on account of inflation and all other costs directly attributable to the Force Majeure Event, but shall not include loss of Revenue, or debt repayment obligations, and for determining such costs, information contained in the Financial Package may be relied upon to the extent that such information is relevant.

(d) Save and except as expressly provided in this Article, neither Party shall be liable in any manner whatsoever to the other Party in respect of any loss, damage, cost, expense, claims, demands and proceedings relating to or arising out of occurrence or existence of any Force Majeure Event or exercise of any right pursuant hereto.

14.7 **Termination due to Force Majeure Event**

(a) **Termination due to a Non-Political Force Majeure Event**

If within a continuous period of [365 (three hundred and sixty five)] days, a Non-Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of a Non-Political Force Majeure Event or any extended period agreed in pursuance of Clause 14.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

Notwithstanding anything contained in this Clause 14.7:

(i) if the [Location] Facilities are affected by a Total Casualty, then the Concessionaire may terminate this Agreement without having to wait for the expiry of the period of [180 (one hundred and eighty)] days stipulated for a Non-Political Force Majeure Event;
(ii) if the [Location] Facilities are affected by a Minor Casualty, then the Concessionaire shall be required to repair and restore the [Location] Facilities to the same condition as previously existed and the Concessionaire shall not be entitled to terminate this Agreement on the grounds of a continuing Non-Political Force Majeure Event.

(b) **Termination due to an Indirect Political Force Majeure Event**

If within a continuous period of [365 (three hundred and sixty five)] days, an Indirect Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of an Indirect Political Force Majeure Event or any extended period agreed in pursuance of Clause 14.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

(c) **Termination due to a Direct Political Force Majeure Event**

If within a continuous period of [365 (three hundred and sixty five)] days, a Direct Political Force Majeure Event continues for a period of [180 (one hundred and eighty)] days or more, after the notification of a Direct Political Force Majeure Event or any extended period agreed in pursuance of Clause 14.3, any Party shall, after the expiry of the period of [180 (one hundred and eighty)] days or any other mutually extended period, be entitled to forthwith terminate this Agreement in its sole discretion by issuing a notice to that effect to the other Parties.

All the other consequences of termination that are set out at Article 17 shall apply in case of termination of this Agreement due to a Force Majeure Event.
ARTICLE 15
SUSPENSION

15.1 [Suspension by the Concessionaire]

(a) Suspension of construction or O&M of the Facilities

(i) At any time during the Term, the Concessionaire may suspend, whether partially or wholly, the construction or O&M of any Facilities, in case of an Emergency.

(ii) The Concessionaire acknowledges that suspension of the construction of any Facilities during the Construction Period pursuant to Clause 15.1(a)(i) shall not entitle the Concessionaire to an extension of time, if such event is attributable to the Concessionaire.

(iii) In case of suspension of the performance of the O&M services of any Facilities pursuant to Clause 15.1(a)(i) for reasons attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, but not the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Clause 15.1(a)(i).

(iv) In case of suspension of the performance of the O&M services pursuant to Clause 15.1(a)(i) for reasons not attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, and the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Clause 15.1(a)(i).

(v) Upon the occurrence of an Emergency, the Concessionaire shall as soon as reasonably possible, and in no event later than 3 (three) days after such occurrence, notify [Executing Agency] of such occurrence.

(vi) If, upon notification, [Executing Agency] does not concur with the Concessionaire on the nature of such occurrence, then the Concessionaire shall be required to immediately re-commence the construction or O&M of the Facilities, as the case may be. Upon re-commencement of the construction or O&M services, the Concessionaire may initiate a Dispute regarding its claim for the occurrence of such an event or circumstance, and such Dispute shall be finally settled in accordance with the dispute resolution procedure set out in Article 21, provided however that the burden of proof as to the occurrence or existence of such an event shall be upon the Concessionaire.]

(b) Mitigation, Resumption and Termination

(i) The Concessionaire shall make best endeavors to:

(A) mitigate the effects (including incremental costs and delays) of the events or circumstances resulting in suspension pursuant to Clause 15.1(a)(i) above. Notwithstanding anything to the contrary contained in this
Agreement, if [Executing Agency], in its sole assessment, is not satisfied with the steps being taken by the Concessionaire to mitigate the effects of the Emergency, [Executing Agency] shall have the right to step-in to this Agreement and undertake necessary measures to mitigate the effect of the Emergency at the cost and risk of the Concessionaire; and

(B) resume the construction or O&M services of the Facilities within 24 hours of the ceasing of any of the events or circumstances resulting in suspension pursuant to Clause 15.1(a)(i) or such longer period as may be approved by [Executing Agency] and notify [Executing Agency] of the resumption of the works or services.

(ii) Without prejudice to Clause 15.1(b)(i):

(A) if suspension of the construction or O&M of a Facilities pursuant to Clause 15.1(a)(i) continues for a period of 60 days, and such event is attributable to the Concessionaire, then such suspension shall amount to a Concessionaire Event of Default in accordance with Clause 16.1; and

(B) if suspension of the construction or O&M of a Facilities pursuant to Clause 15.1(a)(i) continues for a period of 60 days, and such event is not attributable to the Concessionaire, then such event will be treated as a Force Majeure Event and the consequences set out in Article 14 shall apply.

15.2 Suspension by [Executing Agency]

(a) Suspension of construction and/or O&M of the Facilities

(i) At any time during the Term, [Executing Agency] may suspend, whether partially or wholly, the construction or O&M of a Facilities, in any of the following events or circumstances:

(A) upon the occurrence of an Emergency; or

(B) if the Concessionaire fails to comply with Applicable Laws, Applicable Permits, the ESHS Documents, the O&M Manual or otherwise fails to perform its obligations in accordance with this Agreement (including the Technical Specifications).

(ii) The Concessionaire acknowledges that suspension of the construction of the Facilities during the Construction Period pursuant to Clause 15.2(a)(i) shall not entitle the Concessionaire to an extension of time if such event is attributable to the Concessionaire.

(iii) In case of suspension of the performance of the O&M services pursuant to Clause 15.2(a)(i) for reasons attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, less the
Liquidated Damages payable by the Concessionaire for failure to operate the Facilities pursuant to Clause 15.2(a)(i). The Concessionaire shall not be entitled to the O&M Charges for the period during which it suspends the performance of the O&M services pursuant to Clause 15.2(a)(i).

(iv) In case of suspension of the performance of the O&M services pursuant to Clause 15.2(a)(i) for reasons not attributable to the Concessionaire, the Concessionaire shall be entitled to continue to receive the Capex Annuity along with interest, and the O&M Charges, for the period during which it suspends the performance of the O&M services pursuant to Clause 15.2(a)(i).

(b) Mitigation, Resumption and Termination

(i) The Concessionaire shall make best endeavors to:

(A) mitigate the effects (including incremental costs and delays) of the events or circumstances resulting in suspension pursuant to Clause 15.2(a) above. Notwithstanding anything to the contrary contained in this Agreement, if [Executing Agency], in its sole assessment, is not satisfied with the steps being taken by the Concessionaire to mitigate the effects of the Emergency, [Executing Agency] shall have the right to step-in to this Agreement and undertake necessary measures to mitigate the effect of the Emergency at the cost (as determined by the Project Engineer) and risk of the Concessionaire; and

(B) resume the construction or O&M services of the relevant Facilities within 24 hours of the ceasing of any of the events or circumstances resulting in suspension pursuant to Clause 15.2(a) or such longer period as may be agreed between the Parties, and notify [Executing Agency] of the resumption of the works or services.

(ii) Without prejudice to Clause 15.2(b)(i):

(A) if suspension of the construction or O&M of the relevant Facilities pursuant to Clause 15.2(a)(i)(A) and the Emergency is attributable to the Concessionaire, or a suspension pursuant to Clause 15.2(a)(i)(B), continues for a period of 60 days, and such suspension is attributable to the Concessionaire then such suspension shall amount to a Concessionaire Event of Default in accordance with Clause 16.1; and

(B) if suspension of the construction or O&M of the relevant Facilities pursuant to Clause 15.2(a)(i)(A) continues for a period of 60 days, and such suspension is not attributable to the Concessionaire, then such suspension will be treated as a Force Majeure Event and the consequences set out in Article 14 shall apply.
ARTICLE 16
EVENTS OF DEFAULT

16.1 Concessionaire Events of Default

A Concessionaire Event of Default means any of the following events arising out of any acts or omissions of the Concessionaire and which have not occurred solely as a consequence of a [Executing Agency] Event of Default, [an Name of the State / National Level Agency, if any] Event of Default, a Qualifying Change in Law, a Fundamental Change in Law or any other Force Majeure Event, and where the Concessionaire has failed to remedy the defects within any specified time period (to the extent any time period is provided):

(a) failure of the Concessionaire to complete the construction of a Facilities by the expiry of the Grace Period;

(b) failure of the Concessionaire to pay the Delay Liquidated Damages within the timelines specified in this Agreement;

(c) failure of the Concessionaire to achieve successful completion of Trial Operations of a Facilities in accordance with Clause 7.14;

(d) failure of the Concessionaire to remedy any reduction in Availability within 3 days of receipt of a notice from [Executing Agency] in accordance with Clause 8.12(a)(v);

(e) for any Facilities, failure of the Concessionaire to cure a Third Breach within 20 days from the Third Breach Notice or a failure to comply with the Discharge Standards results in occurrence of a Third Breach more than 3 times in a continuous 12 (twelve) month period, in accordance with Clause 8.12(b)(iii)(D);

(f) for any Facilities, failure of the Concessionaire to achieve the KPIs for 2 (two) consecutive days, 32 (thirty two) times in a continuous 12 (twelve) month period;

(g) for any Facilities, failure of the Concessionaire to achieve the KPIs for one day, 64 (sixty four) times in a continuous 12 (twelve) month period;

(h) suspension of the construction or O&M of a Facilities pursuant to Clause 15.1(a)(i) (to the extent such Emergency is attributable to the Concessionaire) for a continuous period of 60 (sixty) days;

(i) suspension of construction or O&M of a Facilities pursuant to Clause 15.2(a)(i)(A) (to the extent the Emergency is attributable to the Concessionaire) or a suspension pursuant to Clause 15.2(a)(i)(B), for a continuous period of 60 (sixty) days;

(j) a breach by the Concessionaire of its obligations under this Agreement which has a Material Adverse Effect on the ability of the Concessionaire to construct and/or operate and maintain the Facilities and such breach, if capable of being remedied, is not remedied within 30 (thirty) days of issuance of written notice from [Executing Agency] specifying such breach and requiring the Concessionaire to remedy the same;
(k) any representation made or warranties given by the Concessionaire under this Agreement being found to be false or misleading in any material respect;

(l) failure of the Concessionaire to submit and maintain a valid Performance Security in accordance with Clause 5.1 or a valid O&M Security in accordance with Clause 5.4;

(m) failure of the Concessionaire to maintain a valid Mobilization Advance Guarantee in accordance with Clause 5.21;

(n) breach by the Concessionaire of its obligations under Article 4, 10.2 or 23.12;

(o) breach of the Concessionaire's obligations under Article 12;

(p) failure of the Concessionaire to obtain, renew and maintain any Concessionaire Applicable Permit;

(q) failure of the Concessionaire to comply with any Applicable Law (including specifically the EPA);

(r) failure of the Concessionaire to obtain and maintain insurance cover in accordance with Clause 11.2;

(s) failure of the Concessionaire or the Subcontractors to comply with the ESHS Documents in accordance with Clause 7.4;

(t) (i) a resolution for insolvency of the Concessionaire is passed, or any petition for insolvency of the Concessionaire is initiated before a court (including tribunal) of competent jurisdiction in accordance with the provisions of Insolvency and Bankruptcy Code, 2016 and such application has not been withdrawn within 14 (fourteen) days of the date thereof;

(ii) if a trustee or receiver is appointed for the Concessionaire or for the whole or material part of its assets that has a material bearing on the Project;

(iii) a resolution for winding up of the Concessionaire is passed, or any petition for winding up of the Concessionaire is admitted by a court (including tribunal) of competent jurisdiction in accordance with the provisions of Insolvency and Bankruptcy Code, 2016 or Companies Act, 1956/Companies Act, 2013 and a liquidator or receiver is appointed and such order has not been set aside within 90(ninety) days of the date thereof or the Concessionaire is ordered to be wound up by Court except for the purpose of amalgamation or reconstruction; provided that, as part of such amalgamation or reconstruction, the entire property, assets and undertaking of the Concessionaire are transferred to the amalgamated or reconstructed entity and that the amalgamated or reconstructed entity has unconditionally assumed the obligations of the Concessionaire under this Agreement and the agreements in relation thereto; and provided that:
(A) the amalgamated or reconstructed entity has the capability and operating experience necessary for the performance of its obligations under this Agreement and the agreements in relation thereto; and

(B) the amalgamated or reconstructed entity has the financial standing to perform its obligations under this Agreement and the agreements in relation thereto and has a credit worthiness at least as good as that of the Concessionaire as at the Effective Date; or

(u) the breach of the Concessionaire's obligations under or the occurrence of an 'event of default' or analogous event under the Financing Documents or the Escrow Agreement, or termination of the Financing Documents, or the Escrow Agreement (for reasons attributable to the Concessionaire).

(v) [failure of the Concessionaire to meet the obligations in Clause 3.2(d) and 3.2(e) of the RFP document.]\(^{71}\)

(w) [failure of the Concessionaire to meet the obligations in Clause 2.4(c) of this Concession Agreement.]\(^{72}\)

16.2 Notice of Intent to Terminate upon occurrence of a Concessionaire Event of Default

(a) Without prejudice to the other provisions of this Agreement, upon the occurrence of a Concessionaire Event of Default, [Executing Agency] may initiate termination by delivering a Notice of Intent to Terminate to the Concessionaire, [with a copy to [Name of the State / National Level Agency, if any]]\(^{73}\). The Notice of Intent to Terminate shall specify with reasonable detail the grounds on which termination is sought.

(b) If, within 60 days from the date of the Notice of Intent to Terminate, the Concessionaire rectifies or remedies the Event of Default to the satisfaction of [Executing Agency] or [Executing Agency] is satisfied with the steps taken or proposed to be taken by the Concessionaire or the Event of Default has ceased to exist, [Executing Agency] shall withdraw the Notice of Intent to Terminate, in writing.

(c) If, within 60 days from the date of the Notice of Intent to Terminate, the Concessionaire does not rectify or remedy the Event of Default to the satisfaction of [Executing Agency] or [Executing Agency] is not satisfied with the steps taken or proposed to be taken by the Concessionaire to remedy the Event of Default, [Executing Agency] shall issue a notice to the Lenders to exercise their substitution rights.

(d) If, within 60 days from the date of receipt of the Notice of Intent to Terminate pursuant to Clause 16.2(c) or such longer period as may be mutually agreed between [Executing Agency] and the Lenders, the Lenders have notified their intent to substitute the defaulting Concessionaire, then:

\(^{71}\)To be deleted if not applicable

\(^{72}\)To be deleted if not applicable

\(^{73}\)To be deleted if not applicable.
(i) [Executing Agency] shall withdraw the Notice of Intent to Terminate, in writing, with a copy to the Lenders; and

(ii) the process set out in the Substitution Agreement for nomination and approval of a substitute concessionaire will apply.

(e) If, within 60 days from the date of receipt of the Notice of Intent to Terminate pursuant to Clause 16.2(c) or such longer period as may be mutually agreed between [Executing Agency] and the Lenders, the Lenders have not notified their intent to substitute the defaulting Concessionaire, then, [Executing Agency] shall terminate the Agreement and the consequences set out in Article 17 shall apply.

(f) Notwithstanding anything contained in this Clause 16.2, during the subsistence of a Concessionaire Event of Default, the Parties shall continue to perform such of their respective obligations under this Agreement, which are capable of being performed in accordance with this Agreement.

16.3 [Executing Agency]'s Events of Default

[Executing Agency] Event of Default means any of the following events, unless such an event has occurred as a consequence of a Concessionaire Event of Default, or a Force Majeure Event and where [Executing Agency] has failed to remedy the defects within any specified time period (to the extent any time period is provided):

(a) a breach by [Executing Agency] of Clause 23.12 (b);

(b) a breach by [Executing Agency] of its obligations under this Agreement which has a Material Adverse Effect on the ability of the Concessionaire to construct or operate and maintain a Facilities and such breach, if capable of being remedied, is not remedied within 30 (thirty) days of a notice being given by the Concessionaire;

(c) failure to achieve successful completion of Trial Operations due to the inadequate quantity or inferior quality of the Sewage/Faecal Sludge/Septage delivered to the relevant Facilities;

(d) a breach by [Executing Agency] of its obligations under Clause 7.8(g) or Clause 8.5(d), in relation to its rights, title and interest in the Site; or

(e) any representation made or warranties given by [Executing Agency] under this Agreement being found to be false or misleading in any material respect.

16.4 [Name of the State / National Level Agency, if any]'s Events of Default

An [Name of the State / National Level Agency, if any] Event of Default means any of the following events, unless such an event has occurred as a consequence of a Concessionaire

²⁴If not applicable the provisions under this Clause shall be added to the Executing Agency event default in Clause 16.3.
Event of Default, or a Force Majeure Event and where [Name of the State / National Level Agency, if any] has failed to remedy the defects within any specified time period (to the extent any time period is provided):

(a) a failure by [Name of the State / National Level Agency, if any] to pay any undisputed amounts due and payable for 90 consecutive days, notwithstanding service of a formal written demand by the Concessionaire;

(b) a failure by [Executing Agency]/[Name of the State / National Level Agency, if any] to maintain the Minimum Escrow Balance for a period of 90 (ninety) days;

(c) a breach by [Name of the State / National Level Agency, if any] of Clause 23.12 (b); or

(d) any representation made or warranties given by [Name of the State / National Level Agency, if any] under this Agreement being found to be false or misleading in any material respect.

16.5 Notice of Intent to Terminate upon occurrence of a [Executing Agency] Event of Default {or an [Name of the State / National Level Agency, if any] Event of Default}

(a) Without prejudice to the other provisions of this Agreement, upon the occurrence of a [Executing Agency] Event of Default {or an [Name of the State / National Level Agency, if any] Event of Default}75, the Concessionaire may initiate termination of this Agreement by delivering a Notice of Intent to Terminate, which shall specify with reasonable detail the grounds on which termination is sought.

(b) If, within 60 days from the date of the Notice of Intent to Terminate, [Executing Agency] {or [Name of the State / National Level Agency, if any], }as the case may be, rectifies or remedies [Executing Agency] Event of Default {or the [Name of the State / National Level Agency, if any] Event of Default,}76 to the satisfaction of the Concessionaire or the Concessionaire is satisfied with steps taken or proposed to be taken by[Executing Agency] {or [Name of the State / National Level Agency, if any]} or [Executing Agency] Event of Default {or the [Name of the State / National Level Agency, if any] Event of Default}, as the case may be, has ceased to exist, the Concessionaire shall withdraw the Notice of Intent to Terminate.

(c) If, within 60 days from the date of the Notice of Intent to Terminate, [Executing Agency] Event of Default {or the [Name of the State / National Level Agency, if any] Event of Default} has not been remedied or [Executing Agency] {or [Name of the State / National Level Agency, if any], as the case may be}, has not taken steps or proposed to take steps to remedy [Executing Agency] Event of Default {or the [Name of the State / National Level Agency, if any] Event of Default} to the satisfaction of the Concessionaire, then the Concessionaire shall terminate the Agreement and the consequences set out in Article 17 shall follow.

76Contents in curly parenthesis may be deleted if not applicable.
(d) During the subsistence of a [Executing Agency] Event of Default (or an [Name of the State / National Level Agency, if any] Event of Default), the Parties shall continue to perform such of their respective obligations under this Agreement, which are capable of being performed in accordance with this Agreement.
ARTICLE 17

CONSEQUENCES OF TERMINATION

17.1 Upon termination of this Agreement

(a) the Concessionaire shall cease all work in relation to construction of the Facilities and the Power Plant (if any);

(b) the Concessionaire shall cease all work in relation to O&M of the Facilities and the Power Plant (if any);

(c) the Concessionaire shall take all necessary steps to safeguard and protect the Facilities and the Power Plant (if any) (at whatever stage of completion or operation) and all other equipment, materials and goods on the Site;

(d) the Concessionaire shall hand over the Site, the Facilities and the Power Plant, if any, to [Executing Agency] or its nominee in accordance with the Hand-back Requirements set out in Clause 19.3, to the extent applicable; and

(e) in case of termination of this Agreement due to a [Executing Agency] Event of Default {or an [Name of the State / National Level Agency, if any] Event of Default,} [Executing Agency] shall return the Performance Security(ies), the O&M Security(ies) and the Mobilization Advance Guarantee(s), if not already returned to the Concessionaire, after adjusting any outstanding amounts owed by the Concessionaire, within 30 (thirty) days from the date of the Transfer Date.

17.2 Consequences of termination due to a Force Majeure Event

In case of termination of the Agreement due to a Force Majeure Event, the following consequences shall apply:

(a) the Concessionaire shall hand over the Site, the Facilities and the Power Plant, if any, to [Executing Agency] on an "as is where is" basis and to the extent relevant, in accordance with the Hand-back Requirements set out in Clause 19.3;

(b) [Executing Agency] shall be required to return the Mobilization Advance Guarantees, Performance Securities or the O&M Securities, as the case may be, after adjusting any outstanding amounts owed by the Concessionaire, within 30 (thirty) days from the date of the Transfer Date; and

(c) in case of termination due to an Indirect Political Force Majeure Event or a Direct Political Force Majeure Event, [Executing Agency] shall (or shall require the Project Engineer) to assess the Cost of the construction work undertaken by the Concessionaire in relation to the Facilities as on the date of the notice of termination under Clause 14.7 and based on such assessment, pay the Termination Compensation in accordance with Clause 18.4.
17.3 Accrued Rights and Liabilities

(a) Notwithstanding anything to the contrary contained in this Agreement, any termination of this Agreement shall be without prejudice to the accrued rights of a Party, including its right to claim and recover damages and other rights and remedies which it may have in law or contract. All accrued rights and obligations of a Party under this Agreement, including without limitation, all rights and obligations with respect to Termination Compensation, shall survive the termination of this Agreement, to the extent such survival is necessary for giving effect to such rights and obligations.

(b) Nothing in Article 16 or this Article 17 shall prevent or restrict a Party to seek injunctive relief or a decree of specific performance or other discretionary remedies of the court.
ARTICLE 18
TERMINATION COMPENSATION

18.1 Termination Compensation for Termination post the Effective Date but prior to the Construction Completion Date

(a) For a [Executing Agency] Event of Default {or an [Name of the State / National Level Agency, if any] Event of Default}

If the Agreement is terminated prior to the Construction Completion Date for a [Executing Agency] Event of Default {or an [Name of the State / National Level Agency, if any] Event of Default,}77 [Name of the State / National Level Agency, if any]/[Executing Agency]78 shall be liable to pay to the Concessionaire the aggregate of:

(i) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by [Executing Agency] as on the date of the Notice of Intent to Terminate;

(ii) Debt Due;

(iii) Equity infused in the Concessionaire as on the date of Notice of Intent to Terminate along with interest on the Equity at the rate of the prevailing SBI MCLR + 3%;

LESS

(iv) any unadjusted Mobilization Advance (and interest if any);

(v) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages).

(b) For a Concessionaire Event of Default

If the Agreement is terminated prior to the Construction Completion Date for a Concessionaire Event of Default, [Name of the State / National Level Agency, if any] / [Executing Agency]79 shall pay to the Concessionaire, the aggregate of:

(i) Construction Payments due to the Concessionaire for Payment Milestones completed and certified by [Executing Agency] as on the date of the Notice of Intent to Terminate;

(ii) 85% of Debt Due;

87 Delete whichever not applicable.
of termination under Clause 14.7;

(B) Debt Due;

(C) Equity infused in the Concessionaire as on the date of the notice of termination under Clause 14.7 along with interest on the Equity at the rate of the prevailing SBI MCLR + 3%;

LESS

(D) any unadjusted Mobilization Advance (and interest if any);

(E) any insurance proceeds received and retained by the Concessionaire; and

(F) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages and any amount payable under Clause 19.2).

(ii) If the Agreement is terminated due to a Direct Political Force Majeure Event post the COD, [Name of the State / National Level Agency, if any]/[Executing Agency] shall be liable to pay to the Concessionaire:

(A) Construction Payments that remain outstanding on the date of the notice of termination under Clause 14.7;

(B) O&M Payments due to the Concessionaire as on the date of the notice of termination under Clause 14.7;

(C) Capex Annuity for the unexpired portion of the O&M Period;

LESS

(D) any insurance proceeds received and retained by the Concessionaire; and

(E) any amounts due and payable by the Concessionaire under this Agreement (including Liquidated Damages and any amount payable under Clause 19.2).

18.5 All Termination Compensation required to be paid by [Name of the State / National Level Agency, if any] to the Concessionaire shall be paid within 60 (sixty) days of handover of the Site, the Facilities and the Power Plant, if any, to [Executing Agency] in accordance with Article 19.

18.6 Limitations on Termination Compensation

(a) Termination Compensation, due and payable under this Agreement shall be limited to the Debt Due and Adjusted Equity, as the case may be, which form part of the Bid Project Cost, in accordance with the provisions of this Agreement. For avoidance of

88Delete whichever not applicable.
doubt, it is agreed that within a period of [60 (sixty)] days from COD, the Concessionaire shall notify to the [Executing Agency], the Bid Project Cost and its disaggregation between Debt Due and Equity, and only the amounts so conveyed shall form the basis of computing Termination Compensation, and it is further agreed that in the event such disaggregation is not notified to the Authority, the Equity and Debt Due shall be arrived at by adopting the proportion between debt and equity as specified in the Financing Documents. The Parties also agree that, notwithstanding anything contained in this Agreement, for the purposes of computing Termination Compensation, the Debt Due shall at no time exceed [50% (fifty percent)] of the Bid Project Cost.

(b) The amount payable in respect of any Debt Due expressed in foreign currency shall be computed at the Reference Exchange Rate for conversion into the relevant foreign currency as on the date of Termination Compensation. Provided, however, that the provisions of this Article 18.6 (b) shall not apply if the Concessionaire does not notify the particulars of any foreign currency loans within [60 (sixty)] days of the date of conversion of such foreign currency loans into Indian currency. Provided further that all borrowings in foreign currency shall be restricted to the financing of the Bid Project Cost and no borrowings in excess thereof shall not qualify for computation of Termination Compensation.

18.7 Full and Final Settlement

Notwithstanding anything to the contrary elsewhere in this Agreement, any Termination Compensation determined pursuant to this Article 18 shall, once paid, be in full and final settlement of any claim, demand and/or proceedings of the Concessionaire against { [Name of the State / National Level Agency, if any] and }\textsuperscript{89} [Executing Agency] in relation to termination of this Agreement and the Concessionaire shall be excluded from all other rights and remedies in respect of such termination.

18.8 The provisions of this Article 18 shall survive the termination of this Agreement.

\textsuperscript{89}Delete if not applicable.
ARTICLE 19
TRANSFER UPON THE EXPIRY OR ON TERMINATION

19.1 Transfer of the Site and the Facilities

Upon the expiry or early termination of this Agreement, the Concessionaire shall hand over the Site, the Facilities, and the Power Plant, if any, to [Executing Agency] or any other entity nominated by [Executing Agency] in accordance with this Article 19 on a date mutually decided by the [Executing Agency] and the Concessionaire (the “Transfer Date”).

19.2 Inspection of the Site and the Facilities

(a) No later than 30 days from the end of the 14th (fourteenth) year of the O&M Period or 30 (thirty) days from the date of termination of the Agreement, as the case may be, [Executing Agency] shall or shall cause the Project Engineer to carry out a survey of the Site, the Facilities and the Power Plant, if any, to assess whether they have been maintained by the Concessionaire in accordance with its obligations under this Agreement, and are in working condition in line with the design life stipulated in the Technical Specifications.

(b) [Executing Agency] shall notify the Concessionaire at least 7 (seven) days prior to the date on which it wishes to carry out the survey of the Site, the Facilities and the Power Plant, if any.

(c) If the survey carried out by [Executing Agency] or the Project Engineer shows that the Concessionaire has not or is not complying with its obligations under this Agreement, then [Executing Agency] shall notify the Concessionaire of the rectification and/or maintenance work which is required to ensure that the condition of the Site, the Facilities and the Power Plant, if any, is restored to the Hand-back Conditions.

(d) The Concessionaire shall carry out such rectification and/or maintenance work to achieve the Hand-back Conditions within 30 (thirty) days from the receipt of a notice from [Executing Agency] in accordance with Clause 19.2(c) above, at its own cost and risk. Upon completion of the rectification and/or maintenance work, the Concessionaire shall request [Executing Agency] to carry out a final survey and inspection of the Site, the Facilities, and the Power Plant, if any. [Executing Agency] shall carry out the final survey within 7 (seven) days of receipt of a notice from the Concessionaire pursuant to this Clause 19.2(d).

If [Executing Agency] is satisfied with the results of the final survey, then [Executing Agency] shall notify the Concessionaire within 7 days of carrying out the final survey that the Site, the Facilities and the Power Plant, if any, comply with the Hand-back Conditions. If [Executing Agency] is not satisfied with the results of the final survey, then [Executing Agency] shall or shall cause the Project Engineer to estimate the cost of restoring the Site, the Facilities and/or the Power Plant, if any, to the Hand-back Conditions and recover such cost from the Concessionaire.
19.3 Hand-back Requirements

On the expiry or early termination of this Agreement, the Concessionaire shall, at its own cost:

(a) hand over to [Executing Agency] or any entity nominated by [Executing Agency], the Site, the Facilities and the Power Plant, if any;

(b) to the extent that such rights and interests are not already vested in [Executing Agency], transfer all its rights and interests in the assets comprising in the Facilities and the Power Plant, if any, and execute such deeds and documents as may be necessary for this purpose and complete all related legal or other formalities;

(c) hand over all records and documents relating to the Site, the Facilities and the Power Plant, if any, including as-built records, Designs and Drawings, online monitoring and metering data, operating logs, manuals, reports, plans and records;

(d) transfer to [Executing Agency] or its nominee (free of cost) the license to use the Proposed Technology and other know-how relating to the Facilities and the Power Plant, if any;

(e) transfer or cause to be transferred to [Executing Agency] or its nominee any Subcontract that [Executing Agency] or its nominee has chosen to take over and terminate all other Subcontracts;

(f) transfer to [Executing Agency] or its nominee all Concessionaire Applicable Permits which [Executing Agency] or its nominee may require, and which can be legally transferred;

(g) remove from the Site all employees and workmen, and assets, equipment and materials that are not required to be taken over by [Executing Agency] or its nominee; and

(h) cooperate with and assist the [Executing Agency] with the Project post the handing over.

19.4 The provisions of this Article 19 shall survive the termination of this Agreement.
ARTICLE 20
VARIATION

20.1 Both [Executing Agency] and the Concessionaire may, at any time during the Term, propose a Variation to the Scope of Work, Technical Specifications, and/or the Designs and Drawings.

20.2 [Executing Agency] Proposed Variation

(a) [Executing Agency] may propose a Variation in the Scope of Work, Technical Specifications or the approved Designs and Drawings. Provided that, [Executing Agency] shall not propose a Variation, which: (i) is not technically feasible; or (ii) is not in compliance with any Applicable Law or Applicable Permit.

(b) Within 15 (fifteen) days of receipt of a request for Variation from [Executing Agency], the Concessionaire shall submit a proposal to [Executing Agency] (with a copy to the Project Engineer) setting out in sufficient detail the implications of the proposed Variation, including any implications on the Construction Plan, the Scheduled Milestone Completion Date, the Scheduled Construction Completion Date and Scope of Work and additional Costs incurred in undertaking the Variation or any reduction in Costs resulting from the Variation. It is clarified that the additional Costs incurred in undertaking the Variation or any reduction in Costs resulting from the Variation will be determined on the basis of [Executing Agency]'s schedule of rates for similar works applicable at the time of undertaking such works.

(c) Notwithstanding anything to the contrary in this Clause 20.2, the Concessionaire shall have the right to reject a Variation proposed by [Executing Agency] if, in the Concessionaire's view, the proposed variation will result in: (i) the Concessionaire incurring additional Costs, of more than 25% of the Bid Project Cost of the Facilities; (ii) reduction in the Bid Project Cost of the Facilities by more than 25%; or (iii) a delay of more than 120 days in a Scheduled Milestone Completion Date or the Scheduled Construction Completion Date.

(d) Based on its review of the proposal submitted by the Concessionaire, [Executing Agency] may, at its sole discretion: (i) accept the proposal and the corresponding adjustment to the Construction Plan and/or the additional Costs or reduction in the Bid Project Cost for undertaking the Variation; (ii) provide its comments on the proposal seeking amendments and/or justification for the implications put forth by the Concessionaire; or (iii) reject the proposal submitted by the Concessionaire and withdraw the proposed Variation, within 15 (fifteen) days from the date of receipt of the Concessionaire's proposal under Clause 20.2(b) above. 90

(e) To the extent [Executing Agency] seeks amendments and/or justification in the proposal submitted by the Concessionaire, the Concessionaire shall incorporate or address, in writing, [Executing Agency]'s comments and submit a revised proposal.

90The Executing Agency may include a threshold amount for undertaking variations up to which the costs would be borne by the Concessionaire, beyond which the costs would be reimbursed by the Executing Agency.
(f) On approval of the proposal or the revised proposal, as the case may be, [*Executing Agency*] shall issue a Variation Order and Concessionaire shall proceed with the Variation in accordance with the Variation Order.

(g) If the Parties are unable to agree on the implications of a Variation proposed by [*Executing Agency*], which in [*Executing Agency*]'s view is necessary or desirable for the Project, [*Executing Agency*] shall have the right to require the Concessionaire to carry out the proposed variation at the cost determined in accordance with [*Executing Agency*]'s schedule of rates for similar works. Where [*Executing Agency*]'s schedule of rates do not provide schedule of rates for similar works, then the cost of the works covered by the proposed Variation will be determined by [*Executing Agency*], in consultation with the Project Engineer. Any dispute on the terms of the Variation will be resolved in accordance with Article 21.

(h) On implementation of a Variation Order, the Concessionaire shall be entitled to the agreed adjustment to the Construction Plan, Scheduled Milestone Completion Date, Scheduled Construction Completion Date and/or payment of additional amounts, if any, set out in the Variation Order.

### 20.3 Concessionaire Proposed Variation

(a) The Concessionaire may propose a Variation if it considers such Variation necessary or desirable to improve the efficiency, quality, reliability, durability, maintainability or safety of the Facilities.

(b) To propose a Variation, the Concessionaire shall submit a proposal to [*Executing Agency*] (with a copy to the Project Engineer), with a statement setting out:

(i) the need for a Variation;

(ii) the additional work required; and

(iii) adjustment to the Effective Date, Construction Plan, Scheduled Milestone Completion Date and Scheduled Construction Completion Date;

(c) Based on its review of the proposal submitted by the Concessionaire, if [*Executing Agency*] is of the view that the proposed Variation is justified, then it will determine the cost of the proposed Variation using [*Executing Agency*]'s schedule of rates for similar works and where [*Executing Agency*]'s schedule of rates do not provide schedule of rates for similar works, then the cost of the works covered by the proposed Variation will be determined by [*Executing Agency*], in consultation with the Project Engineer. Thereafter, [*Executing Agency*] shall notify the Concessionaire of the additional cost determined by [*Executing Agency*] for the proposed Variation and any other comments that [*Executing Agency*] may have on the implications of the proposed Variation. To the extent [*Executing Agency*] seeks amendments and/or justification in the proposal submitted by the Concessionaire, the Concessionaire shall incorporate or address, in writing, [*Executing Agency*]'s comments.
(d) On the Concessionaire's acceptance of the costs determined by [Executing Agency] for the proposed Variation and any other amendments sought by [Executing Agency] to the Concessionaire's proposal, [Executing Agency] shall issue a Variation Order and Concessionaire shall proceed with the Variation in accordance with the Variation Order.

(e) On implementation of a Variation Order, the Concessionaire shall be entitled to the agreed adjustment in the Construction Plan and/or additional costs, as set out in the Variation Order.

20.4 To the extent of Variation in Scope of Work and Technical Specifications and Standards, the Concessionaire shall be obliged to implement the Project in accordance with the provisions set forth, inter-alia, in Articles 7 and 8 shall be applicable.

20.5 Pursuant to a Variation Order, if the Concessionaire does not undertake additional works, the [Executing Agency] shall hold the right to undertake such additional works (by itself or through a contractor), at the cost of the Concessionaire.

20.6 Notwithstanding anything to the contrary in this Article 20, the Concessionaire shall be bound to implement any Variation that is necessitated by a Change in Law and any consequent adjustment in the Construction Plan and additional Costs shall be determined in accordance with Article 13.

20.7 Notwithstanding the above, a Variation made necessary due to any act, omission or default of the Concessionaire or any Subcontractor in the performance of the Concessionaire's obligations under this Agreement shall not entitle the Concessionaire to any adjustment in the Construction Plan or any other compensation or relief.

20.8 No Variation shall invalidate this Agreement.
ARTICLE 21
DISPUTE RESOLUTION

21.1. Amicable Resolution

(a) Save where expressly stated to the contrary in this Agreement, any dispute, difference or controversy of whatever nature between the Parties, howsoever arising under, out of or in relation to this Agreement, including those arising with regard to acts, decision or opinion of the [Executing Agency] (the "Dispute") and so notified in writing by either Party, shall in the first instance be attempted to be resolved amicably by the representatives of the Parties in accordance with the procedure set forth in Article 21.1(b) below.

(b) In the event of a Dispute, either Party may require such Dispute to be referred to the Competent [Executing Agency], the [Executing Agency] (or the Person holding charge) and the Chief Executive Officer of the Concessionaire for the time being, for amicable settlement. Upon such reference, the representatives of the Parties shall within 15 (fifteen) days of service of a written notice from one Party to the other Party(ies) (the “Dispute Notice”) hold a meeting (the “Dispute Meeting”) in an effort to resolve the Dispute in good faith. In the absence of any agreement to the contrary, the Dispute Meeting shall be held at the office of the [Executing Agency] in [Location] and the Dispute may be mutually settled between the parties.

(c) The Parties agree to use their best efforts for resolving all Disputes arising under or in respect of this Agreement promptly, equitably and in good faith, and further agree to provide each other with reasonable access during normal business hours to all non-privileged records, information and data pertaining to any Dispute.

(d) If the Dispute is not amicably settled within 15 (fifteen) days of the Dispute Meeting, either Party may refer the Dispute to conciliation or arbitration in accordance with the provisions of Articles 21.2 and 21.3 below.

21.2. Conciliation

In the event of any Dispute between the Parties, either Party may call upon the Project Engineer, as the case may be, to mediate and assist the Parties in arriving at an amicable settlement thereof. Failing mediation by the Project Engineer or without the intervention of the Project Engineer, as the case may be, either Party may require such Dispute to be referred to Principal Secretary to the [Executing Agency] and the Chairman of the Board of Directors of the Concessionaire for amicable settlement, and upon such reference, the said persons shall meet no later than [7 (seven)] days from the date of reference to discuss and attempt to amicably resolve the Dispute. If such meeting does not take place within the [7 (seven)] day period or the Dispute is not amicably settled within [15 (fifteen)] days of the meeting or the Dispute is not resolved as evidenced by the signing of written terms of settlement within [30 (thirty)] days of the notice in writing referred to in Article 21.1(a) or such longer period as may be mutually agreed by the Parties, either Party may refer the Dispute to arbitration in accordance with the provisions of Article 21.3.
21.3. Arbitration

(a) Procedure

Subject to the provisions of Articles 21.1 and 21.2, any Dispute which is not resolved amicably shall be finally settled by reference to arbitration. Such arbitration shall be held in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi, or such other rules as may be mutually agreed by the parties, and shall be subject to the provisions of the Arbitration and Conciliation Act, 1996. The expenses of arbitration shall be borne equally by both the Parties.

(b) Arbitration Panel

There shall be a panel of three arbitrators, of whom each Party shall appoint one, and the third arbitrator shall be appointed by the two arbitrators so selected, and in the event of disagreement between the two arbitrators, the appointment shall be made in accordance with the Rules of Arbitration of the International Centre for Alternative Dispute Resolution, New Delhi.

(c) Place of Arbitration

The place of arbitration shall ordinarily be [Location] but by agreement of the Parties, the arbitration hearings, if required, may be held elsewhere.

(d) Language

The request for arbitration, the answer to the request, the terms of reference, any written submissions, any orders and awards shall be in English and, if oral hearings take place, English shall be the language to be used in the hearings. Any party using other than English as language shall supply the other party an authorized transcript of true translation of its submissions into English at its costs and expenses.

(e) Enforcement of Award

(i) The arbitrators shall make a reasoned award (the “Award”). Any Award made in any arbitration held pursuant to this Article 39 shall be final and binding on the Parties as from the date it is made, and the Concessionaire and the [Executing Agency] agree and undertake to carry out such Award without delay subject to the rights of the aggrieved parties to secure relief from any higher forum.

(ii) The Concessionaire and the [Executing Agency] agree that an Award may be enforced against the Concessionaire and/or the [Executing Agency], as the case may be, and their respective assets wherever situated.

(iii) This Agreement and the rights and obligations of the Parties shall remain in full force and effect, pending the Award in any arbitration proceedings hereunder.

21.4. Performance during Dispute

Pending the submission of and/or decision on a Dispute and until the arbitral Award is published, the Parties shall continue to perform their respective obligations under this
Agreement without prejudice to a final adjustment in accordance with such Award.

21.5. **Adjudication by Regulatory [Executing Agency] or Commission**

In the event of constitution of a statutory regulatory authority or commission with powers to adjudicate upon Disputes between the Concessionaire and the [Executing Agency], all Disputes arising after such constitution shall, instead of reference to arbitration under Article 21.3, be adjudicated upon by such regulatory authority or commission in accordance with the Applicable Law and all references to Dispute Resolution Procedure shall be construed accordingly. For the avoidance of doubt, the Parties hereto agree that the adjudication hereunder shall not be final and binding until an appeal against such adjudication has been decided by an appellate tribunal or High Court, as the case may be, or no such appeal has been preferred within the time specified in the Applicable Law.
ARTICLE 22
REPRESENTATIONS AND WARRANTIES

22.1 **Mutual Representations and Warranties**

Each Party represents and warrants to the other Parties that:

(a) it has full power and authority to execute, deliver and perform its obligations under this Agreement, the Substitution Agreement, the Escrow Agreement and any other agreements required in relation to the Project;

(b) it has taken all necessary action to authorise the execution, delivery and performance of this Agreement, the Substitution Agreement and the Escrow Agreement; and

(c) there are no actions, suits or proceedings pending or to its best knowledge, threatened against or affecting it before any court, administrative body or arbitral tribunal which might materially and adversely affect its ability to meet or perform any of its obligations under this Agreement, the Substitution Agreement or the Escrow Agreement.

22.2 **Concessionaire's Representations and Warranties**

The Concessionaire represents and warrants to [Executing Agency] {and [Name of the State / National Level Agency, if any]} that:

(a) it is duly organized, validly existing and of good standing under the laws of India;

(b) it has the financial standing and capacity to design, finance, construct, complete, operate and maintain the Facilities in accordance with this Agreement;

(c) this Agreement constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms, and its obligations under this Agreement will be legally valid, binding and enforceable obligations against it in accordance with the terms hereof;

(d) it is subject to the laws of India, and hereby expressly and irrevocably waives any immunity in any jurisdiction in respect of this Agreement or matters arising thereunder including any obligation, liability or responsibility hereunder;

(e) the information furnished in the Bid of the Selected Bidder, and as updated on or before the date of this Agreement is true and accurate in all respects as on the Appointed Date as applicable;

(f) all undertakings and obligations of the Concessionaire arising from the [RFP/RFQ] or otherwise shall be binding on the Concessionaire as if they form part of this Agreement;

91 Delete if not applicable.
(g) the execution, delivery and performance of this Agreement will not conflict with, result in the breach of, constitute a default under any of the terms of its memorandum and articles of association/charter documents or any Applicable Laws or Applicable Permits or any covenant, contract, agreement, arrangement, understanding, decree or order to which it is a party or by which it or any of its properties or assets is bound or affected;

(h) it has no knowledge of any violation or default with respect to any order, writ, injunction or decree of any court or any legally binding order of the GoI or the Go[XX] [State of Location] which may result in any Material Adverse Effect on its ability to perform its obligations under this Agreement and no fact or circumstance exists which may give rise to such proceedings that would adversely affect the performance of its obligations under this Agreement;

(i) it has complied with all Applicable Laws and Applicable Permits in all material respects and has not been subject to any fines, penalties, injunctive relief or any other civil or criminal liabilities, which in the aggregate have or may have a Material Adverse Effect on its ability to perform its obligations under this Agreement;

(j) none of its employees, consultants, service providers, suppliers, or Subcontractors, including any O&M contractor, as of this day, have been engaged in any corrupt, fraudulent, collusive, coercive or obstructive practice, as defined in Clause 23.18; and

(k) no representation or warranty by it contained in this Agreement or in any other document furnished by it to [Executing Agency], [Name of the State / National Level Agency, if any], the GoI or the Go[XX] [State of Location] in relation to Applicable Permits contains any untrue or misleading statement of material fact or omits to state a material fact necessary to make such representation or warranty.

22.3 [Executing Agency]'s Representations and Warranties

[Executing Agency] represents and warrants to the Concessionaire and [Name of the State / National Level Agency, if any] that:

(a) it is duly organized, validly existing and in good standing under the laws of India;

(b) it has the financial standing and legal capacity to execute this Agreement and perform its obligations under this Agreement;

(c) it has taken all necessary approvals to execute this Agreement (including any approval required under the [ACT APPLICABLE IN THE State of Location] Act) and perform its obligations under this Agreement;

(d) this Agreement constitutes legal, valid and binding obligations enforceable against it in accordance with the terms hereof;

92 Name of the State Government.
93 Name of the State Government.
(e) it has no knowledge of any violation or default with respect to any order, writ, injunction or any decree of any court or any legally binding order of the GoI or the Go[XX\textsuperscript{94}] [State of Location], which may result in any Material Adverse Effect on its ability to perform its obligations under this Agreement; and

(f) it has complied with all Applicable Laws and Applicable Permits in all material respects.

22.4 [Name of the State / National Level Agency, if any]'s\textsuperscript{95} Representations and Warranties

[Name of the State / National Level Agency, if any] represents and warrants to the Concessionaire and [Executing Agency] that:

(a) it is duly organized, validly existing and in good standing under the laws of India;

(b) it has the financial standing and legal capacity to execute this Agreement and perform its obligations under this Agreement;

(c) it has taken all necessary approvals to execute this Agreement and perform its obligations under this Agreement;

(d) this Agreement constitutes legal, valid and binding obligations enforceable against it in accordance with the terms hereof;

(e) it has no knowledge of any violation or default with respect to any order, writ, injunction or any decree of any court or any legally binding order of the GoI or the Go[XX] [State of Location], which may result in any Material Adverse Effect on its ability to perform its obligations under this Agreement; and

(f) it has complied with all Applicable Laws and Applicable Permits in all material respects.

\textsuperscript{94}Name of the State Government.

\textsuperscript{95}If not applicable the representations and warranties shall be merged with that of the Executing Agency in Clause 22.3 and the Clause 22.4 may be deleted.
ARTICLE 23
MISCELLANEOUS

23.1 Survival

(a) Any cause or action which may have occurred in favour of any Party or any right which is vested in any Party under this Agreement as a result of any act, omission, deed, matter or thing done or omitted to be done by any Party before the expiry of the Term by efflux of time or otherwise in accordance with this Agreement, shall survive the expiry of the Agreement.

(b) The provisions of this Agreement, to the fullest extent necessary to give effect thereto, survive the Term or the termination of this Agreement and the obligations of Parties to be performed or discharged following the termination of this Agreement, shall accordingly be performed or discharged by the Parties.

23.2 Entire Agreement

The Parties hereto acknowledge, confirm and undertake that this Agreement and the RFP constitutes the entire understanding between the Parties regarding the development of the Project and supersedes all previous written or oral representations and/or arrangements regarding the Project.

23.3 Non-exhaustive Remedies

(a) Save and except as provided in this Agreement, the remedies available to the Concessionaire under this Agreement are not exhaustive and the Concessionaire and third parties shall be entitled to all other rights and remedies and to take all actions in law and in equity in addition to the remedies provided for herein.

(b) Save and except as provided in this Agreement, the exercise of any rights by any Party under this Agreement shall not preclude such Party from availing of any other rights or remedies that may be available to it under this Agreement or any other agreement in relation to the Project. All remedies available to the Parties shall be cumulative and the exercise or failure thereof of one or more remedies by any Party shall not limit or preclude the exercise of or constitute a waiver of any other remedies by such Party.

23.4 Notices

(a) Any notice or request in reference to this Agreement shall be written in English language and shall be sent by email, registered post, courier or facsimile and shall be directed to the other Parties at the address mentioned below:

[Executing Agency]:
Attention:
Address:
Tel: [__________]
Fax: [__________]
Email: [______________]

[Name of the State / National Level Agency, if any]:
Attention: -----------------
Address: ---------------
Tel: 
Fax: 
Email: 

Concessionaire:
Attention: [______________]
Address: [______________]
Tel: [______________]
Fax: [______________]
Email: [______________]

(b) Any notice or demand served by registered post or courier shall be deemed to be duly served 48 hours after posting and a notice or demand sent by facsimile shall be deemed to have been served at the time of its transmission and in proving service of the same it will be sufficient to prove, in the case of a letter, that such letter was sent by registered post or courier, addressed and placed in the post and in the case of a facsimile transmission, that such facsimile was duly transmitted to a current facsimile number of the addressee at the address referred above.

(c) Each Party may change the above address by prior written notice to the other Parties.

23.5 Governing Law and Jurisdiction

This Agreement shall be governed by the laws of India and shall be subject to the jurisdiction of the courts at [COURTS AS DECIDED BY THE EXECUTING AGENCY].

23.6 Counterparts

This Agreement may be executed in three counterparts, each of which, when executed and delivered, will be an original, and all three counterparts together shall constitute one and the same instrument.

23.7 Language

(a) The formal text of this Agreement and other agreements in relation to the Project shall be in the English language.

(b) All notices and communications between the Parties under this Agreement shall be in English and all arbitration proceedings undertaken pursuant to this Agreement shall be conducted in English.

---

96To be deleted if not applicable.
23.8 Confidentiality

(a) No recipient Party shall, without the prior written consent of the disclosing Party, at any time divulge or disclose or suffer or permit its representatives to divulge or disclose to any person or use for any purpose unconnected with the Project any Confidential Information during the Term and for a period of 5 years after the expiry or termination of this Agreement, except to its representatives officers, directors, advisors, employers, agents and Associates (including [Executing Agency] Related Parties, {the [Name of the State / National Level Agency, if any] Related Parties}{\textsuperscript{97}} and the Concessionaire Related Parties) who have a legitimate need to know the Confidential Information in order to perform their duties relating to the Agreement.

(b) This Clause 23.8 shall not apply to Confidential Information, which:

(i) at the time of disclosure or thereafter has become part of public knowledge or literature without a breach of this Agreement;

(ii) is already in the possession of the Party receiving such Confidential Information before it was received from any other Party and which was not obtained under any obligation of confidentiality from the Party which disclosed such information;

(iii) was obtained from a third party (other than one disclosing it on behalf of a Party) who was free to divulge the same and who was not under any obligation of confidentiality in relation to such Confidential Information to the Party, which disclosed the information;

(iv) is disclosed by the Concessionaire to the Lenders, any actual or bona fide potential shareholders, investors or bankers (and their professional advisers) of the Concessionaire;

(v) is required to be disclosed pursuant to any legal and mandatory requirement of any court, legislative or administrative body or any Government Authority, or the rules of any applicable stock exchange;

(vi) is disclosed by the Concessionaire to its Associates or the permitted assignees and transferees;

(vii) is disclosed by the Concessionaire to any Subcontractor of the Concessionaire;

(viii) is disclosed to actual or prospective insurers, re-insurers and insurance brokers;

(ix) is disclosed to any professional advisors or consultants of any persons to whom a Party is entitled to disclose Confidential Information under this Clause 23.8(b);

(x) is disclosed to any Person in connection with the dispute resolution provisions

\textsuperscript{97}To be deleted if not applicable.
under this Agreement;

(xi) is independently developed by the receiving Party without reliance on the Confidential Information disclosed by the disclosing Party; or

(xii) is disclosed to any Government Authority or any other body in any relevant jurisdiction in connection with the obtaining or renewal of any Applicable Permit required for the Project.

Provided that the Party making a disclosure of Confidential Information pursuant to (iv) and (vi) to (ix) (inclusive) above shall ensure that any Person to whom it makes such disclosure undertakes to hold such Confidential Information subject to the same confidentiality obligations as those set out in Clause 23.8(a) above.

(c) A Party making a disclosure of Confidential Information pursuant to Clause 23.8(a) shall,

(i) at the time of making such disclosure, inform its representatives and Associates of their obligation of confidentiality pursuant to this Agreement and ensure their compliance; and

(ii) be liable for any breach of such obligations by such representatives and Associates.

(d) In the event that a Party is required or requested to make a disclosure of Confidential Information referred to in Clause 23.8(b)(v) above, such Party shall prior to such disclosure (to the extent permissible by Applicable Law) use its best efforts to promptly notify the disclosing Party or its Associate so that appropriate protection order and/or other action can be taken if possible. In the absence of such a protection order restricting disclosure, the Party required to make such disclosure may disclose only that portion of the Confidential Information which it is legally required to disclose and shall use reasonable efforts to obtain assurances that confidential treatment will be accorded to the Confidential Information.

(e) The recipient party agrees that it, its Associates and representatives shall, upon request by the disclosing Party promptly:

(i) return, and use all reasonable endeavors to procure that any third party to whom the recipient party has disclosed the Confidential Information pursuant to this Agreement shall return, all the Confidential Information that is in tangible form (including, without limitation, Confidential Information contained on compact discs or other electronic storage media or devices) furnished, together with any copies or extracts; and

(ii) destroy, and use all reasonable endeavors to procure that any third party to whom the recipient party has disclosed the Confidential Information pursuant to this Agreement shall destroy, all analysis, compilations, studies or other documents which have been prepared and which reflect or refer to any Confidential
provided that the recipient party shall be entitled to retain such Confidential Information which forms part of the permanent records of the recipient party or its Associates and which was prepared for the purposes of the review or decision-making process of the recipient party or such Affiliate and/or which the recipient party or its Associates is required to retain by Applicable Law if it continues to keep such Confidential Information confidential in accordance with this Agreement.

23.9 Amendments

(a) Any provision of this Agreement may be amended, supplemented or modified only by an agreement in writing signed by all the Parties.

(b) A Party may at any time request the other to enter into discussions to review the operation of any part of this Agreement and, but without commitment by the other Parties, to determine whether it should be amended by mutual agreement provided that, unless there is such mutual agreement, the provisions of this Agreement (as then most recently, if at all, amended) shall continue to apply whatever the outcome of any such discussions or review and whether or not any such discussions or review take place.

23.10 Waivers and Consents

(a) Unless otherwise specified, any provision or breach of any provision of this Agreement may be waived before or after it occurs only if evidenced by an agreement in writing signed by the Parties.

(b) Any consent under or pursuant to any provision of this Agreement must also be in writing and given prior to the event, action or omission for which it is sought.

(c) Any such waiver or consent may be given subject to any conditions thought fit by the Party giving it and shall be effective only in the instance and for the purpose for which it is given.

23.11 Severability

(a) If any provision of this Agreement is or becomes illegal, invalid or unenforceable in any respect under any Applicable Law, the legality, validity or enforceability of the remaining provisions will not, in any way, be affected or impaired.

(b) The Parties shall negotiate in good faith with a view to agreeing one or more provisions which may be substituted for any such invalid, illegal or unenforceable provision and which produce as nearly as is practicable in all the circumstances the appropriate balance of the commercial interests of the Parties.

23.12 Assignment

(a) Except as expressly permitted in this Agreement, the Concessionaire shall not be
entitled to divest, transfer, assign or novate all or substantially all of its rights, interests, benefits and obligations under this Agreement, without the prior written consent of [Executing Agency] \{and [Name of the State / National Level Agency, if any]\}\(^98\).

(b) The rights and obligations of [Executing Agency] \{or [Name of the State / National Level Agency, if any]\} under this Agreement shall not be assigned, novated or otherwise transferred (whether by virtue of any Applicable Law or otherwise) to any Person other than a public body or a government company or a statutory corporation that:

(i) is a single entity;

(ii) acquires the whole of the Agreement;

(iii) has the legal capacity, power and authority to become a party to and to perform the obligations of [Executing Agency] \{or [Name of the State / National Level Agency, if any]\} under this Agreement, as the case may be; and

(iv) has sufficient financial standing or financial resources to perform the obligations of [Executing Agency] \{or [Name of the State / National Level Agency, if any]\} under this Agreement, as the case may be.

23.13 No Agency or Partnership

Nothing contained or implied in this Agreement shall constitute or be deemed to constitute a partnership or agency between the Parties and none of the Parties shall have any authority to bind, commit or make any representations on behalf of the other Parties.

23.14 Costs and Expenses

(a) Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution of this Agreement, the Substitution Agreement and the Escrow Agreement.

(b) The Concessionaire shall bear the applicable stamp duty and registration fee (if applicable) in respect of this Agreement, the Substitution Agreement and the Escrow Agreement.

23.15 Reservation of Rights

No forbearance, indulgence, relaxation or inaction by the Concessionaire at any time to require performance of any of the provisions of this Agreement shall in any way affect, diminish or prejudice the right of [Executing Agency] \{or [Name of the State / National Level Agency, if any]\}\(^99\) to require performance of that provision, and no delay in exercising or omitting to exercise any right, power or remedy accruing to [Executing Agency] \{or

\(^{98}\)Contents in curly parenthesis may be deleted if not applicable.

\(^{99}\)Contents in the curly parenthesis may be deleted if not applicable.
[Name of the State / National Level Agency, if any] upon any default or otherwise under this Agreement shall impair any such right, power or remedy or shall be construed to be a waiver thereof or any acquiescence in such default, nor shall the action or inaction of [Executing Agency] {or [Name of the State / National Level Agency, if any]} in respect of any default or any acquiescence by it in any default, affect or impair any right, power or remedy of [Executing Agency] {or [Name of the State / National Level Agency, if any]} in respect of any other default.

23.16 Third Parties

This Agreement and all rights hereunder are intended for the sole benefit of the Parties and, to the extent expressly provided, for the benefit of [Executing Agency] Related Parties, {[Name of the State / National Level Agency, if any] Related Parties}, the Concessionaire Related Parties and the Lenders, and shall not imply or create any rights on the part of, or obligations to, any other Person.

23.17 Inspection and Audit

The Concessionaire shall permit and shall cause its Subcontractors and sub consultants to permit, {the [Name of the State / National Level Agency, if any]}100 / [Executing Agency] to inspect the Site and/or the accounts and records relating to the performance of the Contract and the submission of the Bid, and to have such accounts and records audited by auditors appointed by { [Name of the State / National Level Agency, if any] / [Executing Agency] if requested by {[Name of the State / National Level Agency, if any] / [Executing Agency]. The Concessionaire’s and its Subcontractors’ and sub consultants’ attention is drawn to Clause 23.18 which provides, inter alia, that acts intended to materially impede the exercise of the [Name of the State / National Level Agency, if any]101 / [Executing Agency]’s inspection and audit rights provided for under Sub-Clause 23.18.1 constitute a prohibited practice subject to contract termination.

Schedules
SCHEDULE 1: SCOPE OF WORK

1. **Scope of work of activities to be undertaken at every site**

In general, the scope includes as a minimum but not limited to design, supply, construction, installation, testing & commissioning and operation, & maintenance of project infrastructure, as necessary.

Designing, part-financing, supplying, constructing, erecting, installing, testing, commissioning and completing the following project infrastructure works and facilities by the scheduled construction completion date and operating and maintaining the facilities and the associated infrastructure for [15 (fifteen)] years from the date of COD, in compliance to Applicable Laws, Applicable Permits, Technical Specifications, Designs and Drawings, the Construction Plan, the ESHS plan, the resource plan, mobilization plan of manpower, material & machinery, QA/QC plan and good industry practices to ensure compliance with the KPIs.

The works should be completed in a manner as desired by Executing Agency and their authorized representatives, as per standard engineering practices, Applicable Laws, Applicable Permits and governing BIS codes or other relevant codes. The Concessionaire shall verify and satisfy themselves with their own reassessment of the engineering requirements as per actual site requirements to ensure smooth operation and maintenance of the entire infrastructure during the Concession Period and handing over all the assets in good operating condition at the end of Concession Period. The details provided below are only for guidance purpose.

Necessary permits, approvals required during construction and operation stage need to be obtained by the Concessionaire. Necessary field investigations such as topography survey, soil investigation and any other testing required to be carried out by the Concessionaire to validate the design basis and assumptions.

The sewage and treated sewage testing need to be carried out by the Concessionaire on a monthly basis at NABL accredited laboratory to validate the testing to be carried out on daily basis at the site level and the online parameters.

All the designs, drawings, specification need to be submitted to [Executing Agency] for approval. All the works shall be carried out only with the approval of the [Executing Agency].

List of suggested vendors for equipments, materials, and machineries should be submitted by the Concessionaire to [Executing Agency] for approval and the procurement/placement of order should be carried out after approval of the [Executing Agency].

Appointment of subcontractors, agents, advisors and consultants and entering sub-contracts to undertake the project with the prior approval of the [Executing Agency]. The Concessionaire shall operate and maintain the facilities and the associated infrastructure and treat the sewage in a manner such that the KPIs are achieved, and the treated effluent and digested sludge comply with the discharge standards.

The STP by-products and FSTP by-products will be trifurcated into screenings, digested sludge, and residual grit. The Concessionaire will be required to dispose the STP by-products FSTP by-products as follows:
- The residual grit and the screenings will be disposed at the waste disposal site to be identified by the [Executing Agency] within a radius of 10 (ten) kms from the Project site, in accordance with technical specifications.
- The Concessionaire shall dry the digested sludge at a sludge handling facility to be provided by the Concessionaire at the site and have the option to sell the digested sludge to farmers/other third-party buyers or dispose the digested sludge at the waste disposal site.
- The Concessionaire shall transfer the treated sewage/faecal sludge/septage through the treated effluent disposal pipeline/channel to the discharge point for discharge into the -------(Name of the water body, if applicable), sell to third parties or utilize for irrigation purposes free of cost.

[As per standards set by Executing Agency/MoHUA]

2. Design, supply, installation, testing and commissioning of Main Sewage pumping station of [Capacity of STP/FSTP Plant in MLD] MLD capacity with necessary civil works, electro-mechanical items, including rising main and all standard accessories / fittings complete with fully automatic Y/D starters / VFD starters/ ATS starter panels (for both working and standby pumps), power backup, CI pipes & specials, level switches, earthing, cabling, structural supports / duck foot bends etc., as required as per site requirements, sanitary and plumbing works, cleaning of site and approach road, gate, peripheral drain, internal drainage, internal road, streetlight, plastering, painting, flooring, lights and fans, wiring, rubber mats in front of electrical switch boards/panel boards, first air boxes, firefighting system, voltage stabilizer etc. And carry out operation and maintenance for the Concession Period.

Provision of Diesel Generator set and electric substation, internal and external electrification as per CPWD/Applicable guidelines/codes.

3. Design, supply, construction, testing & commissioning of civil, mechanical and electrical & instrumentation works for I&D works at [name of the Drain(s)], as necessary and carry out the operation and maintenance for the Concession Period. The Concessionaire needs to install flow measurement instrument and actuator gates at I&D structure. Provision of manual and mechanical screen at each I&Ds.

[As decided by the Executing Agency]

4. Design, supply, construction of trapezoidal type RCC drain at upstream of each I&Ds and carry out operation and maintenance for the Concession Period.

[As decided by the Executing Agency]

The intercept sewer shall be connected to the manholes of trunk sewer which is being laid by [Executing Agency] under [Name of Central Govt. Scheme/Other Convergence Project] project.

6. Design and Construction of inlet works of [xx] MLD with distribution chamber designed to feed proposed [Capacity of the STP/FSTP Plant in MLD] MLD STP/FSTP. The Concessionaire needs to install flow measurement instrument and actuator gates at distribution structure. The process control of distribution chamber shall be completely automated.

7. Design, supply, installation, testing and commissioning of all hardware and software items related to provision of Online Monitoring System at MPS, STP, FSTP and I&D for online real-time data transmission of various operating parameters from these proposed MPS/STP/FSTP/I&DS to cloud-based web server over GSM / land telephony for monitoring from central office / sub-offices and by various authorized government agencies from fixed / portable devices / locations. The frequency of data storage for sewage / effluent quality shall be for every 2 hours and shall be to the nearest millisecond of each event.

[As decided by the Executing Agency]
The Sequence-of-event (SOE) data shall be collected by the RTOLMS system from PLCs. The description of each event shall include the database description name, device state, the date, and the time (to the nearest millisecond) of each event. Information Storage and Retrieval (ISR) system shall collect and store analog data (telemetered and calculated) periodically at every 5 minute (configurable) and status data by exception.

8. Any other works as necessary for smooth operation of the sewerage system

2. Overview of procedural activities to be undertaken (Submissions by Concessionaire with timelines)

a) Submit Basic Engineering Drawings as defined in the Agreement;
b) Submit the Construction Plan for the facilities and the Associated Infrastructure;
c) Carry out all preparatory work like survey & investigations, clearing out debris and proper disposal of the extra surplus excavated earth to a suitable location as per Applicable Laws;
d) Develop the site, landscaping, arboriculture, and horticulture at the STP/FSTP Site and by providing earth filling, greenery, plantation, and diversion & extension of stormwater drainage network, etc. and maintain condition of landscape establishment;
e) Design and construct all necessary buildings for administrative, laboratory, PLC room buildings for E&M equipment as per Technical Specifications;
f) Undertake electrical and instrumentation works as per provisions detailed in key single line diagrams and plant control configuration diagrams.
g) Provide electrical substation, as required, in accordance with the requirements of State power corporation limited;
h) Keep the Facilities in clean, hygienic, tidy and safe conditions;
i) Illuminate the STP/FSTP with suitable arrangement, as per the Technical Specifications;
j) Undertake trial runs, testing, commissioning of Facilities as per the requirements of Concession Agreement;
k) Based on its assessment of the power supply, make necessary arrangements, as required, to ensure continuous uninterrupted operations of the Facilities during any power supply failure from the grid;
l) Undertake Operations and Maintenance of Facilities as per Technical Specifications and safe disposal of Treated Effluent, STP By-Products and FSTP By-Products;
m) Develop and implement the environment, social, health and safety plans as per the requirements of the Concession Agreement;
n) Implement quality system and environmental management system in accordance with ISO 9001 and ISO 14001;
o) Prepare appropriate records and reports as outlined in the Concession Agreement;
p) Undertake security control of the Facilities
q) Carry out the required tests and laboratory analysis;
r) Obtain and renew licenses, permits, and certificates necessary to operate the Facilities;
s) Hand-back the Facilities and the Associated Infrastructure to the [Executing Agency] at the end of the O&M Period;
t) Develop the necessary Design and Drawings and other submissions, as per the requirements of the Concession Agreement. These submissions, inter-alia are outlined in the table below:
### Submissions required from the Concessionaire

| **Construction Plan before effectiveness** | Detailed construction plan for the Facilities and the Associated Infrastructure setting out the work plan to achieve each of the Payment Milestones, such that the Facilities and the Associated Infrastructure are completed on or prior to the Scheduled Construction Completion Date. The should include the following sections at the minimum:  
  - Site manpower and labor mobilization details. Details of project management and health & safety personnel to be deployed at the site to be provided separately.  
  - Detailed implementation schedule (including details of construction milestones)  
  - Construction method statements  
  - Details of civil works and equipment control  
  - Quality assurance plans  
  - Subcontracting details |
| **Designs and Drawings before Effectiveness** | Process design and calculations:  
  - Description of Proposed Technology including proposed treatment process, process design calculations, and mass balance diagrams  
  - Hydraulic calculations and Hydraulic Flow Diagram  
  - Details of the aeration device stating the turndown ratio  
  - Details of the sludge digestion system stating maintenance mechanism from outside the digester (without draining its contents)  
  - I&D design document  
  
  Site layout  
  - Facilities layout: general arrangement drawings for the buildings, tanks, foundations, process units, approach road, Inlet Point, Outlet Point  
  - Alignment drawings for Effluent Disposal Pipeline  
  - Location of site office, staff quarters,  
  - Location of batching - plant, go-down / yard, store/workshop, etc.  
  - Details of the stormwater drainage inside the STP/FSTP  
  - Layout of the earthen embankment  
  - I&D Layout drawing  
  
  Architectural Designs and Concepts  
  - Architectural design proposals for interior and exterior architecture along with an appropriate landscaping scheme  
  - Architectural statement explaining the factors considered in the design  
  - Architectural work shall include walls, roof, flooring and floor finish, roof waterproofing, down water pipes, windows, ventilators, doors, glazing, equipment access doors, painting and other ornamental works |

</table>
| Structural designs and calculations | - Basic design calculations of foundations  
- General arrangement drawings and explanatory sketches  
- Methods statement describing work procedure before commencing concrete work |
| Power | - Power single line diagrams  
- Process data sheets to define design criteria, installed capacities and loading rates of principal items of plant and equipment  
- Control philosophy report  
- Electrical load list |
| Instrumentation and Control | - Process and Instrumentation Diagrams  
- Instrument schedule & I/O schedule for each Motor Control Centre  
- Functional Design Specification - Comprising an overall description of the plant, its functioning and control, and description of each section of the control system covering modes of operation, manual overrides, set-point and parameter selection and adjustment. It shall describe the ‘fail-safe’ features incorporated into the design for the event of failure of a plant item or system or loss of an input signal affecting a control loop or process sequence. It shall also describe control actions taken and monitoring functions which remain available during a power failure, and any automatic controls or sequencing which take place during system start-up and shut-down. It shall include figures or drawings where appropriate.  
- Drawings and schedules – Including the following -  
  - Process and instrumentation diagram which shall comply with BS 1646 (all parts) and BS 1553-1:1977.  
  - General arrangement drawings of field-mounted instruments showing installation details.  
  - General arrangement drawings of instrument and control panels, fully-dimensioned in plan and elevation views, showing foundation and fixing details, access doors, clearances, cable-entry positions, weight and lifting arrangement.  
  - Layout drawings of panel showing instruments, controls, and details of all labels.  
  - Layout drawings of panel interior showing equipment, terminal blocks & cableways.  
  - Annunciator arrangement and engraving details.  
  - Internal circuit and wiring diagrams for instrument and control panels.  
  - Schematic control diagrams.  
  - Instrument loop diagrams.  
  - Instrument wiring and piping diagrams.  
  - Interconnection wiring diagrams.  
  - Cable block diagrams, drawings, and schedules. |

SCHEDULE 2: SUBSTITUTION AGREEMENT

This Substitution Agreement (Substitution Agreement) is executed on this [●] day of [●] 2019 at [Location]:

AMONGST

(1) [Executing Agency], a statutory body constituted under the [Act under which the Executing Agency is established] with its registered office at [Address of Executing Agency]. (hereinafter referred to as [Executing Agency], which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(2) [Name of the State / National Level Agency, if any], a statutory body constituted --------, with its registered office at ----------- (hereinafter referred to as --------, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(3) [___________[insert name of the Concessionaire], a company organized, incorporated, registered and existing under the Companies Act, with its registered office at ______________________________ [insert address] acting through ______________________________ [insert name of the authorised signatory and his/her designation] duly authorized by resolution dated __________ [insert date of the Board Resolution] (hereinafter referred to as the Concessionaire, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(4) [Insert name of the Lenders’ Representative] a company organized, incorporated, registered and existing under the Companies Act, with its registered office at [insert address] (hereinafter referred to as the Lenders’ Representative, which expression shall, unless it be repugnant to the context having its registered office at [insert address], [acting for itself and for and on behalf of the Lenders listed in Annexure 1].

The [Executing Agency], (Name of the National/State Level Agency, if any), the Concessionaire and the Lenders’ Representative are hereinafter collectively referred to as Parties and individually as Party.

WHEREAS:

A. With a view to implement --------(Name of the Projects/scheme), the [Executing Agency] in association with (Name of the National/State Level Agency, if any), has decided to undertake

104 If there is a State Level/National Level intermediate agency funding the project and such an entity is part of the contract/procurement process the name of that agency can be inserted here. Otherwise all references to the National/State Level agency in the document are to be deleted.
integrated development, operation and maintenance of Sewage Treatment Plant(s) (the “STP”) and Faecal Sludge Management System, with a proposed Design Capacity of [Capacity of STP in MLD] MLD of STP and [Capacity of FSTP in MLD] MLD of Faecal Sludge Treatment Plant(s) (the “FSTP”), along with other Facilities and its Associated Infrastructure at [Location], on a PPP basis, through a hybrid annuity model.

B. For this purpose, the [Executing Agency] selected the Concessionaire post a bid process to: (i) design, develop, part-finance, construct, operate and maintain the Facilities on the Site and the Associated Infrastructure, and after the expiry of the Term, transfer the Facilities and the Associated Infrastructure to the [Executing Agency] (collectively the “Project”).

C. The [Executing Agency], (Name of the National/State Level Agency, if any) and the Concessionaire executed a Concession Agreement dated [Insert date] to implement the Project (the “Concession Agreement”).

D. The Lenders have agreed to finance the Project in accordance with the terms and conditions of the Financing Documents and have requested the [Executing Agency] and (Name of the National/State Level Agency, if any) to enter into this Substitution Agreement for securing their interests through substitution of the Concessionaire to a nominated Company, in accordance with this Substitution Agreement.

E. The Parties have agreed to execute this Substitution Agreement on the terms and conditions mentioned herein below.

IT IS AGREED as follows:

1. DEFINITIONS AND INTERPRETATION

1.1. Definitions

The capitalised terms used but not defined in this Agreement shall have the meaning ascribed to them in the Concession Agreement:

<table>
<thead>
<tr>
<th>Term</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annexure</td>
<td>means an annexure to this Substitution Agreement.</td>
</tr>
<tr>
<td>Arbitration</td>
<td>has the meaning ascribed to it in Clause 8.2</td>
</tr>
<tr>
<td>Article</td>
<td>means an article of this Substitution Agreement.</td>
</tr>
<tr>
<td>Clause</td>
<td>means a clause of this Substitution Agreement.</td>
</tr>
<tr>
<td>Companies Act</td>
<td>means the (Indian) Companies Act, 1956 or the (Indian) Companies Act, 2013, as amended from time to time, as the context may require.</td>
</tr>
<tr>
<td>Company</td>
<td>means a company incorporated under the Companies Act or a foreign company incorporated under the relevant statute of its jurisdiction.</td>
</tr>
<tr>
<td>Concession Agreement</td>
<td>has the meaning ascribed to it in Recital C.</td>
</tr>
<tr>
<td>Concession Event of Default</td>
<td>means a Concessionaire Event of Default as defined under the Concession Agreement</td>
</tr>
<tr>
<td>Dispute</td>
<td>means any difference or dispute of whatsoever nature relating to this Substitution Agreement between the Parties arising under, out of or in connection with this Substitution Agreement.</td>
</tr>
<tr>
<td><strong>Financial Assistance</strong></td>
<td>means all funded and non-funded financial assistance, including loans, advances and guarantees or any re-financing that the Concessionaire has availed of for the Project from the Lenders, as set out in the Financing Documents.</td>
</tr>
<tr>
<td><strong>Financial Default</strong></td>
<td>means a Concessionaire event of default as set out under the financing Documents.</td>
</tr>
<tr>
<td><strong>Financing Documents</strong></td>
<td>means, collectively, the documents entered into or to be entered into by the Concessionaire with the Lenders, in respect of all funded and non-funded financial assistance, including loans, advances and or any re-financing that the Concessionaire may avail of for the Project from the Lenders and includes any document providing Security to the Lenders.</td>
</tr>
<tr>
<td><strong>Indemnified Party</strong></td>
<td>has the meaning ascribed to it in Clause 7.2.</td>
</tr>
<tr>
<td><strong>Indemnifying Party</strong></td>
<td>has the meaning ascribed to it in Clause 7.2.</td>
</tr>
<tr>
<td><strong>Lenders</strong></td>
<td>means the financial institutions set out in Annexure 1.</td>
</tr>
<tr>
<td><strong>Lenders' Dues</strong></td>
<td>means the aggregate of all monies owed by the Concessionaire to the Lenders under the Financing Documents on account of principal thereunder for funding the whole or any part of the cost to be incurred for implementing the Project and all accrued interest, additional interest, liquidated damages, commitment fees, commission, prepayment premium, costs, charges and other monies including financing charges and fees owed by the Concessionaire to the Lenders under the Financing Documents for the Project that are payable under the Financing Documents, up to the date of the Notice of Intent to Terminate or notice of termination issued under the Concession Agreement, or up to the date of issuance of the Notice of Financial Default under the Financial Documents, as the case may be.</td>
</tr>
<tr>
<td><strong>Notice of Dispute</strong></td>
<td>has the meaning ascribed to it in Clause 8.1.</td>
</tr>
<tr>
<td><strong>Notice of Financial Default</strong></td>
<td>has the meaning ascribed to it in Clause 3.2(a).</td>
</tr>
<tr>
<td><strong>Notice of Intent to Terminate</strong></td>
<td>means a notice issued by the [Executing Agency] upon occurrence of a Concessionaire Event of Default in accordance with the Concession Agreement, conveying its intention to terminate the Concession Agreement.</td>
</tr>
<tr>
<td><strong>Person</strong></td>
<td>means any individual, company, corporation, partnership, joint venture, trust, society, sole proprietor, limited liability partnership, co-operative society, government company, unincorporated organization or any other legal entity.</td>
</tr>
<tr>
<td><strong>Project</strong></td>
<td>has the meaning ascribed to it in Recital B.</td>
</tr>
<tr>
<td><strong>Proposal</strong></td>
<td>shall have the meaning ascribed to it in Clause 4.1(c).</td>
</tr>
<tr>
<td><strong>RFP</strong></td>
<td>means the request for proposal dated [insert date] issued by the [Executing Agency], for conducting a bid process to implement the Project.</td>
</tr>
</tbody>
</table>
Selectee means a new Company proposed by the Lenders pursuant to this Substitution Agreement for performing the rights and obligations of the Concessionaire for the remaining Term of the Concession Agreement.

Substitution notice under Concession Agreement has meaning ascribed to it in Clause 3.3(c).

Substitution has meaning ascribed to it in Clause 3.3 (b)

1.2. Interpretation

In this Substitution Agreement, unless the context otherwise requires:

(a) Any reference to a statutory provision shall include such provision as modified or re-enacted or consolidated from time to time.

(b) The words importing the singular shall mean the plural and vice-versa; and words importing the masculine shall include the feminine and neuter and vice-versa.

(c) Headings in this Substitution Agreement are for convenience of reference only.

(d) The references to the word 'include' or 'including' or to the phrase 'in particular', shall be construed without limitation.

(e) References to any date or time of day are to Indian Standard Time; any reference to day shall mean a reference to a calendar day; any reference to a month shall mean a reference to a calendar month, any reference to a year shall mean a reference to a calendar year.

(f) The references to any agreement or deed or other instrument shall be construed as a reference to such agreement, deed, or other instrument as may be amended, varied, supplemented or novated, from time to time.

(g) A requirement that a payment be made on a day which is not a Business Day shall be construed as a requirement that the payment be made on the next Business Day.

(h) Whenever provision is made for the giving or issuing of any notice, endorsement, consent, approval, permission, certificate or determination by any person, such notice, etc., shall be reasonably given, shall not be unreasonably withheld or delayed and shall be in writing and the words 'notify', 'endorse', 'approve', 'permit', 'certify' or 'determine' shall be construed accordingly. Where any notice, consent or approval is to be given by either of the Parties, the notice, consent or approval shall be given on their behalf only by any authorized persons.

(i) The words written and in writing include a facsimile transmission and any means of reproducing works in a tangible and permanently visible form.
(j) The provisions of the Articles, Clauses and Annexures of this Agreement shall be interpreted in such a manner that will ensure that there is no inconsistency in interpretation between the intent expressed in the Articles, Clauses or Annexures.

(k) In the event of any ambiguities or discrepancies between two Clauses of this Agreement, the provisions of the specific Clause relevant to the issue under consideration shall prevail over those in other Clauses.

(l) The rule of construction, if any, that an agreement should be interpreted against the Party responsible for the drafting and preparation thereof shall not apply to this Agreement.

2. ASSIGNMENT

The Concessionaire hereby agrees to assign its rights, title and interest under the Concession Agreement to and in favour of the Lenders pursuant to and in accordance with this Substitution Agreement and the Concession Agreement by way of Security in respect of the Financial Assistance provided by the Lenders.

The [Executing Agency] {and (Name of the National/State Level Agency, if any)} hereby consent to assignment by the Concessionaire of its rights, title and interest under the Concession Agreement by way of Security to and in favour of the Lenders in connection with the Financial Assistance provided by the Lenders.

3. SUBSTITUTION OF THE CONCESSIONAIRE

3.1. Right of Substitution

(a) The [Executing Agency] and {(Name of the National/State Level Agency, if any)} hereby irrevocably agree to substitute the Concessionaire with a Selectee, selected by the Lenders in accordance with the provisions of this Substitution Agreement and approved by the [Executing Agency].

(b) The Lenders shall, at their sole discretion, exercise one of the 2 (two) modes below for substituting the Concessionaire in accordance with the provisions set out in this Agreement and Applicable Laws:

(i) Novation: In this case, the Concession Agreement will be novated in favour of the Selectee, and the Selectee will be a party to the Concession Agreement;

(ii) Share sale: In this case, the Selectee will acquire the entire Capital of the Concessionaire, and upon such transfer, the ‘Concessionaire’ will be deemed to be the Selectee under and in accordance with this Agreement.

105 Contents in curly parenthesis may be deleted if not applicable.
(c) The [Executing Agency] {and (Name of the National/State Level Agency, if any)} agree that they shall provide all necessary consents and assistance to effect such substitution of the Concessionaire with a Selectee.

(d) It is clarified that nothing contained herein shall entitle the Lenders to design, develop, construct, rehabilitate, complete, operate or maintain the Facilities or the Associated Infrastructure themselves under and in accordance with the Concession Agreement either individually or collectively.

3.2. Procedure in case of a Financial Default

(a) Upon occurrence of a Financial Default, the Lenders' Representative shall notify the Concessionaire by a notice, with a copy simultaneously sent to the [Executing Agency] {and (Name of the National/State Level Agency, if any)}, about the occurrence of a Financial Default and the amount of the Lenders' Dues (Notice of Financial Default).

The Notice of Financial Default shall be conclusive evidence of occurrence of the Financial Default and the Lenders' Dues, and shall be final, conclusive and binding upon the Concessionaire for the purpose of this Substitution Agreement and the Financing Documents.

The Parties agree that the [Executing Agency] shall have the right to trigger a Concessionaire Event of Default and issue a Notice of Intent to Terminate under the Concession Agreement upon receipt of a Notice of Financial Default.

(b) The Lenders' Representative (on behalf of the Lenders) may, within 60 days after the issuance of the Notice of Intent to Terminate under Clause 3.2(a) above or such longer period as may be mutually agreed between the [Executing Agency] and the Lenders, make a representation to the [Executing Agency], stating the intention to substitute the Concessionaire by a Selectee (Substitution Notice under Financing Documents).

In the event that the Lenders' Representative issues the Substitution Notice under Financing Documents, then, within 90 days of issue of such notice, the Lenders shall be entitled to undertake and complete the substitution of the Concessionaire by a Selectee, in accordance with the provisions of this Substitution Agreement. The Lenders' right to substitute the Concessionaire shall be without prejudice to any other right or remedy available to the Lenders under the Financing Documents and/or this Substitution Agreement.

(c) If the Lenders' Representative does not convey the intention to substitute the Concessionaire with a Selectee within 60 days of the Notice of Intent to Terminate under Clause 3.2(a) above or such longer period as may be mutually agreed between the [Executing Agency] and the Lenders, or the Lenders fail to substitute the Concessionaire within the time period set out in (b) above, the [Executing Agency] shall be entitled to terminate the Concession Agreement in accordance with its provisions.

3.3. Procedure in case of a Concessionaire Event of Default
Upon occurrence of a Concessionaire Event of Default, the [Executing Agency] shall issue a Notice of Intent to Terminate issued to the Concessionaire.

If, within 60 days from the date of the Notice of Intent to Terminate, the Concessionaire does not rectify or remedy the Event of Default to the satisfaction of the [Executing Agency] or the [Executing Agency] is not satisfied with the steps taken or proposed to be taken by the Concessionaire to remedy the Event of Default, the [Executing Agency] shall issue a Notice of Intent to Terminate to the Lenders to exercise their substitution rights. The Notice of Intent to Terminate issued by the [Executing Agency] to the Lenders under this Clause 3.3(b) shall be conclusive evidence of occurrence of the Financial Concessionaire Event of Default, and shall be final, conclusive and binding upon the Concessionaire for the purpose of this Substitution Agreement and the Financing Documents.

The Lenders' Representative (on behalf of the Lenders) may, within 60 days after the issuance of the Notice of Intent to Terminate under Clause 3.3(b) above or such longer period as may be mutually agreed between the [Executing Agency] and the Lenders make a representation to the [Executing Agency], stating the intention to substitute the Concessionaire by a Selectee (Substitution Notice under Concession Agreement). In the event that the Lenders' Representative issues the Substitution Notice under Concession Agreement, then, within 90 days of issue of such notice, the Lenders shall be entitled to undertake and complete the substitution of the Concessionaire by a Selectee, in accordance with the provisions of this Substitution Agreement. The Lenders' right to substitute the Concessionaire shall be without prejudice to any other right or remedy available to the Lenders under the Financing Documents and/or this Substitution Agreement.

If the Lenders' Representative does not convey the intention to substitute the Concessionaire with a Selectee within 60 days of issuance of the Notice of Intent to Terminate under Clause 3.3(b) above or such longer period as may be mutually agreed between the [Executing Agency] and the Lenders, or the Lenders fail to substitute the Concessionaire within the time period set out in (c) above, the [Executing Agency] shall be entitled to terminate the Concession Agreement in accordance with its provisions.

3.4. Criteria for Selection of Selectee

(a) The Lenders' Representative shall apply the following criteria while selecting a Company as the Selectee:

(i) the Company shall meet the financial, eligibility and qualification criteria set out in the RFP, demonstrating that it has the necessary experience and technical qualification to construct and operate and maintain the Facilities and the Associated Infrastructure for the remaining Term. Provided that if the Financial Default or the Concessionaire Event of Default has occurred during the O&M Period, the Selectee shall be required to meet only the O&M qualification criteria set out in the RFP, in addition to the financial and eligibility criteria;

(ii) the Company shall be capable of properly discharging the duties, obligations and liabilities of the Concessionaire under the Concession Agreement;
(iii) the Company shall provide Security to the satisfaction of the Lenders for the repayment of Lenders' Dues;

(iv) the Company shall have the capability and shall unconditionally consent to assume the liability for the payment and discharge of dues of the Concessionaire to the [Executing Agency] under and in accordance with the Concession Agreement and of Lenders' Dues upon terms and conditions as agreed to with the Lenders;

(v) the Company shall have not been in breach of any agreement between itself {and (Name of the National/State Level Agency, if any)}\(^{106}\), the [Executing Agency], the GoI or the Go[XX] [STATE OF Location]; and

(vi) any other appropriate condition or criterion determined by the Lenders [or the [Executing Agency]], whereby continuity in the performance of the Concessionaire's obligations under the Concession Agreement is maintained and the Security in favour of the Lenders under the Financing Documents is preserved.

(b) At any time prior to the approval of a Company as the Selectee by the [Executing Agency] pursuant to this Substitution Agreement, the [Executing Agency] may require the Lenders' Representative to satisfy the [Executing Agency] as to the eligibility of such Selectee and the decision of the [Executing Agency] in this behalf shall be reasonable, final, conclusive and binding on the Lenders and such Selectee.

4. MODALITIES OF SUBSTITUTION

4.1. Modalities

The following modalities shall be applicable to any substitution of the Concessionaire by the Selectee:

(a) the Lenders' Representative may invite, negotiate, procure offers either through private negotiations or public auction or process of tender or otherwise for the substitution of the Concessionaire by another Company; the Lenders' Representative shall on behalf of the Lenders propose to the [Executing Agency].

(b) with a copy to { (Name of the National/State Level Agency, if any) }, pursuant to Clause 4.1(c), the name of such Company proposed to be the Selectee for acceptance and shall apply to the [Executing Agency] for:

(i) grant to such Company, as substitute to the Concessionaire, the right to design, construct, rehabilitate, finance, operate, maintain and transfer the Facilities and the Associated Infrastructure under and in accordance with and subject to and on the terms and conditions set out in the Concession Agreement;

---

\(^{106}\) Contents in the curly parenthesis may be deleted if not applicable.
(ii) In case the Lenders intend to exercise their substitution rights through share transfer, the Lenders' Representative shall also apply to the [Executing Agency] for permitting such share transfer to the Selectee upon approval in accordance with this Concession Agreement.

In case the Lenders intend to exercise their substitution rights through novation, the Lenders' Representative shall also apply to the [Executing Agency] for: (i) novation of the Concession Agreement to such Company, upon being approved as the Selectee, on the same terms and conditions for the remaining Term under the Concession Agreement; and

(iii) the execution of a new substitution agreement with such Company, upon being approved as the Selectee, for the remaining Term, on the same terms and conditions as set out in this Substitution Agreement.

(c) the Lenders' Representative shall be entitled, within the time period set out in Clause 3.2(b) or Clause 3.3(c) above as the case may be, to select and propose a Company as the Selectee to the [Executing Agency] (with a copy to (Name of the National/State Level Agency, if any)) for its approval (Proposal). The Proposal of the Lenders' Representative pursuant to this Clause 4.1(c) shall contain the details of such Company (including information in relation to the Company's ability to meet the technical and financial criteria set out in the RFP), the Lenders' Dues and any other data and information as may be relevant for the [Executing Agency] to consider and take a decision on the Proposal.

(d) Without prejudice to the foregoing, the Lenders' Representative agrees and undertakes to provide to the [Executing Agency] (and (Name of the National/State Level Agency, if any)), such further and other information and clarifications in respect of any data, details or information, furnished by the Lenders' Representative as the [Executing Agency] and/or (Name of the National/State Level Agency, if any) may reasonably require. The [Executing Agency] shall convey its approval or otherwise of such Proposal, including such Company proposed as the Selectee, in its sole discretion within [15] days of (i) the date of receipt of the Proposal by the [Executing Agency]; or (ii) the date when the last of any further information and clarifications in respect of any data, details or information comprised in the Proposal, have been provided by the Lenders' Representative to the [Executing Agency], whichever is later. It is expressly agreed between the Parties that the Proposal shall be accompanied by an unconditional undertaking of the Company proposed as the Selectee that it shall, upon approval by the [Executing Agency] of the Proposal, perform and fulfill the terms and conditions of the Concession Agreement as if such Company was the original signatory to the Concession Agreement and shall be liable for and shall assume, discharge and pay the Lenders' Dues under and in accordance with the terms and conditions of the Financing Documents. Upon approval of the Proposal by the [Executing Agency], the Company shall become the Selectee hereunder;

(e) the [Executing Agency] shall, upon its satisfaction of the eligibility of the Selectee and in accordance with the provisions of this Substitution Agreement and subject to the

107 Contents in the curly parenthesis may be deleted if not applicable.
provisions of Clause 4.1(e), proceed to substitute the Concessionaire with the Selectee by novation of the Concession Agreement or such other form of document as the [Executing Agency] (and (Name of the National/State Level Agency, if any)) may reasonably require, on the same terms and conditions as set out under the Concession Agreement for the remaining Term; or (ii) by requiring selectee to the substitution as aforesaid shall be subject to the Selectee completing corporate compliances for executing the documents and obtaining Applicable Permits necessary for implementing and/or operating and maintaining the Facilities and the Associated Infrastructure under and in accordance with the Concession Agreement;

(f) the [Executing Agency] shall have the right to object to the choice of the proposed Selectee after hearing the Lenders' Representative, provided however, that in the event of a refusal as stated above, the Lenders' Representative may propose another Company as the Selectee, within 90 days of the issuance of the Substitution Notice under Financing Documents or Substitution Notice under Concession Agreement, as the case may be. In the event that no objection is raised with respect to the Company proposed to be the Selectee by the [Executing Agency] within the period set forth in Clause 4.1(c), the Company proposed as the Selectee shall be deemed to have been accepted by the [Executing Agency];

(g) the substitution as aforesaid, shall be deemed to be complete only upon the Selectee accepting and complying with the terms and conditions stipulated in the Concession Agreement; and

(h) all actions of the Lenders' Representative hereunder shall be deemed to be on behalf of the Lenders and be binding upon them. The Lenders' Representative is authorised to receive payment of compensation, payment to cure default and any other payments, consideration for transfer in accordance with the Substitution Notice under Financing Documents or Substitution Notice under the Concession Agreement, as the case may be, the Concession Agreement and the Financing Documents and give valid discharge on behalf of all the Lenders.

4.2. Waiver of Concessionaire's Right to Remedy

The Concessionaire hereby irrevocably agrees and waives any right to challenge the Lenders' decision to apply to the [Executing Agency] for substitution as aforesaid and neither the Concessionaire nor the [Executing Agency] shall be entitled to prevent the Lenders' Representative from proceeding to seek such a substitution of the Concessionaire by the Selectee as provided in this Article 4. The Concessionaire agrees and confirms that the Concessionaire shall not have any right to seek re-evaluation of the Concessionaire's assets and the Concession Agreement, otherwise than as contracted in the Financing Documents while the [Executing Agency] permits substitution as hereinbefore provided, pursuant to the Lenders' Representative's request. The Parties acknowledge that the rights of the Lenders under this Article 4 are irrevocable and shall not be contested in any proceedings before any court of law and the Concessionaire shall not have any right or remedy to prevent, obstruct, injunct or restrain the [Executing Agency] and/or the Lenders from effecting or causing the substitution as aforesaid. No third party shall have the right to question the decision of the Lenders/Lenders' Representative, the [Executing Agency] (or (Name of the National/State Level Agency, if
4.3. No Guarantee

Nothing contained in this Article 4 shall mean or be interpreted as provision of any guarantee or surety by the [Executing Agency] {or (Name of the National/State Level Agency, if any)} and it is expressly agreed that the [Executing Agency] {and (Name of the National/State Level Agency, if any)} have not provided any surety, guarantee or counter guarantee whether directly or indirectly for the recovery of amount of Financial Assistance advanced by the Lenders to the Concessionaire.

5. INTERIM PROTECTION

If the Lenders notify the [Executing Agency] of a Financial Default and until such time that a Selectee is approved in accordance with this Substitution Agreement, the Lenders agree that the [Executing Agency] shall (either itself or through an entity nominated by it) be entitled to maintain, preserve and protect the Facilities and the Associated Infrastructure if, in the [Executing Agency]'s opinion, it is necessary and required for the construction or operation and maintenance of the Facilities and the Associated Infrastructure. In case of such interim protection during the O&M Period, the [Executing Agency] or an entity nominated by the [Executing Agency] shall operate and maintain the Facilities and the Associated Infrastructure pending the substitution of the Concessionaire by the Selectee.

6. STAND-ILL

The [Executing Agency] agrees that on the occurrence of any Concessionaire Event of Default or a Financial Default, it shall not exercise: (a) its [Executing Agency] right to step-in in place of the Concessionaire; (b) suspend or terminate the Concession Agreement; or (c) take any action for the winding-up of the Concessionaire or the appointment of a receiver or administrator in respect of the Concessionaire's business and assets, until expiry of the time period available to the Lenders to exercise the substitution rights, as set out in Article 3.

7. INDEMNITY

(a) The Concessionaire shall indemnify, defend and hold harmless the [Executing Agency], {(Name of the National/State Level Agency, if any)}, the Lenders and the Lenders' Representative against any and all proceedings, actions and third party claims for any loss, damage, cost and expenses of whatever kind and nature arising out of any breach by the Concessionaire of any of its obligations under this Substitution Agreement or on account of failure of the Concessionaire to comply with Applicable Laws and Applicable Permits.

108 Contents in the curly parenthesis may be deleted if not applicable
(b) The Lender shall indemnify, defend and hold harmless the [Executing Agency] and 
{(Name of the National/State Level Agency, if any)}\(^{109}\) against any and all proceedings, 
actions and third party claims for any loss, damage, cost and expenses arising out of the 
Lenders' or the Lenders' Representative's failure to fulfill their obligations under this 
Substitution Agreement, materially or adversely affecting the performance of the 
Concessionaire's, the [Executing Agency]'s 
{(Name of the National/State Level 
Agency, if any)}'s obligations under the Concession Agreement, other than any loss, 
damage, cost and expenses arising out of acts done in discharge of their lawful 
functions by the Lenders/Lenders' Representative.

7.2. **Notices and Contest of Claims**

In the event that any Party receives a claim from a third party in respect of which it is entitled 
to the benefit of an indemnity under Clause 7.1 or in respect of which it is entitled to 
reimbursement (Indemnified Party), it shall notify the other Party responsible for 
indemnifying such claim hereunder (Indemnifying Party) within 30 days of receipt of claim 
and shall not settle or pay the claim without prior approval of the Indemnifying Party, such 
approval not being unreasonably withheld or delayed. In the event that the Indemnifying Party 
wishes to contest or dispute the claim, it may conduct the proceedings in the name of the 
Indemnified Party and shall bear all costs involved in contesting it. The Indemnified Party shall 
provide all cooperation and assistance in contesting any claim and shall sign all such writings 
and documents as the Indemnified Party may reasonably require.

8. **DISPUTE RESOLUTION**

8.1. **Amicable Settlement**

In the event of a Dispute, either Party may give the other written notice at any time of a Dispute 
having arisen (Notice of Dispute). The Notice of Dispute shall set out brief details of the nature 
of the Dispute.

The Parties agree that they shall endeavor to resolve any Dispute amicably and in good faith 
within 30 days of a Notice of Dispute being served by one Party on the other Party in respect 
of that Dispute. In the event that resolution of the Dispute is reached pursuant to this Clause 
8.1, the resolution and its terms shall be recorded in writing and signed by one representative 
from each of the Parties.

8.2. **Dispute Resolution by Arbitration**

Failing amicable settlement and/or settlement of a Dispute pursuant to the provisions of Clause 
8.1, each of the Parties unconditionally and irrevocably agrees to the submission of such 
Dispute to binding arbitration governed by the Arbitration and Conciliation Act, 1996.

Any arbitration proceedings commenced pursuant to this Clause 8.2 shall be referred to as the 
Arbitration.

\(^{109}\) Contents in the curly parenthesis may be deleted if not applicable
If a Dispute is referred to Arbitration by any Party, such Dispute shall be resolved by a sole arbitrator to be appointed by mutual agreement of the Parties. If Parties fail to appoint an arbitrator within 30 days after service of the notice of Arbitration, such arbitrator shall be appointed in accordance with the provisions of the Arbitration Act.

8.3. **Place of Arbitration**

The place of the Arbitration shall be [Location OF CHOICE OF Executing Agency]

8.4. **English Language**

The request for the Arbitration, the answer to the request, the terms of reference, any written submissions, any orders and rulings pursuant to the Arbitration shall be in English and, if oral hearings take place, English shall be the language to be used in the hearings.

8.5. **Fees and Expenses**

The fees and expenses of the arbitrator and all other expenses of the Arbitration shall be initially borne and paid by respective Parties, subject to determination by the arbitrator. The arbitrator may provide in the award for the reimbursement to the prevailing Party of its costs and expenses in bringing or defending the Arbitration claim, including legal fees and expenses incurred by such Party.

8.6. **Performance of Obligations during the Pendency of the Arbitration Proceedings**

The Substitution Agreement and rights and obligations of the Parties shall remain in full force and effect pending the award under any Arbitration proceedings pursuant to this Article 8.

8.7. **Survival**

The provisions of this Article 8 shall survive the termination of the Substitution Agreement.

9. **GOVERNING LAW AND JURISDICTION**

The Substitution Agreement shall be construed and interpreted in accordance with and governed by the laws of India, and the courts in Allahabad shall have exclusive jurisdiction over matters arising out of or relating to this Substitution Agreement.

10. **MISCELLANEOUS**

10.1. **Duration of this Agreement**

This Agreement shall come into force from the date hereof and shall expire at the earliest to occur of the following events:

(a) termination of the Concession Agreement; or
(b) no sum remains to be advanced and no sum are outstanding to the Lenders, under the Financing Documents.

10.2. Survival

(a) Any cause or action which may have occurred in favour of any Party or any right which is vested in any Party under this Agreement as a result of any act, omission, deed, matter or thing done or omitted to be done by any Party before the expiry of the Term by efflux of time or otherwise in accordance with this Agreement, shall survive the expiry of the Agreement.

(b) The provisions of this Agreement, to the fullest extent necessary to give effect thereto, survive the Term or the termination of this Agreement and the obligations of Parties to be performed or discharged following the termination of this Agreement, shall accordingly be performed or discharged by the Parties.

10.3. Counterparts

This Agreement may be executed in four counterparts, each of which, when executed and delivered, will be an original, and all four counterparts together shall constitute one and the same instrument.

10.4. Waivers and Consents

(a) Unless otherwise specified, any provision or breach of any provision of this Agreement may be waived before or after it occurs only if evidenced by an agreement in writing signed by the Parties.

(b) Any consent under or pursuant to any provision of this Agreement must also be in writing and given prior to the event, action or omission for which it is sought.

(c) Any such waiver or consent may be given subject to any conditions thought fit by the Party giving it and shall be effective only in the instance and for the purpose for which it is given.

10.5. Severability

(a) If any provision of this Agreement is or becomes illegal, invalid or unenforceable in any respect under any Applicable Law, the legality, validity or enforceability of the remaining provisions will not, in any way, be affected or impaired.

(b) The Parties shall negotiate in good faith with a view to agreeing one or more provisions which may be substituted for any such invalid, illegal or unenforceable
provision and which produce as nearly as is practicable in all the circumstances the appropriate balance of the commercial interests of the Parties.

10.6. Waiver of sovereign immunity

The [Executing Agency] {and (Name of the National/State Level Agency, if any)}\(^{110}\) unconditionally and irrevocably:

(a) agree that the execution, delivery and performance by it of this Agreement constitute commercial acts done and performed for commercial purpose;

(b) agree that, should any proceedings be brought against it or its assets, property or revenues in any jurisdiction in relation to this Agreement or any transaction contemplated by this Agreement, no immunity (whether by reason of sovereignty or otherwise) from such proceedings shall be claimed by or on behalf of the [Executing Agency] {and (Name of the National/State Level Agency, if any)} with respect to its assets; and

(c) consent to the enforcement of any judgment or award against them in any such proceedings.

10.7. Language

(a) The formal text of this Agreement and other agreements in relation to the Project shall be in the English language.

(b) All notices and communications between the Parties under this Agreement shall be in English.

10.8. Third Parties

This Agreement and all rights hereunder are intended for the sole benefit of the Parties and shall not imply or create any rights on the part of, or obligations to, any other Person.

10.9. Representations and Warranties

The Parties hereto expressly represent and warrant that they are duly empowered to sign and execute this Substitution Agreement.

10.10. Notices

Notices under this Substitution Agreement shall be sent to the addresses first hereinabove mentioned and Annexure 1 (in case of Lenders). Any change in the address of any Party shall be duly notified by registered post acknowledgement due and delivered to other Parties.

10.11. Amendments to Substitution Agreement

(a) This Substitution Agreement shall not be affected by re-organisation of any Lender, Lenders’ Representative, the [Executing Agency], {or (Name of the National/State

\(^{110}\) Contents in the curly parenthesis may be deleted if not applicable
Level Agency, if any)} and the successor-in-interest of such Lender, Lenders' Representative, the [Executing Agency] {or (Name of the National/State Level Agency, if any)} shall have the benefit of this Substitution Agreement.

(b) No amendment, variation or modification to this Substitution Agreement shall be valid and effectual unless made in writing and executed by the duly authorised representatives of all the Parties.

(c) All stamp duties or other imposts and charges as are applicable on this Substitution Agreement or on novation of the Concession Agreement for the purpose of substitution as specified in this Substitution Agreement shall be borne by the Concessionaire. In the event of Lenders making such payment in the interim, such amount shall be deemed to be a part of the Lenders' Dues.

10.12. Harmonious Construction

(a) For the purpose of giving full and proper effect to this Substitution Agreement, the Concession Agreement and this Substitution Agreement shall be read together and construed harmoniously. The terms of the Concession Agreement shall prevail in the event of any inconsistencies with this Substitution Agreement.

(b) The consultation, recommendation or approval of the Lenders' Representative under this Substitution Agreement shall always be taken as consultation, recommendation or approval of every concerned Lender and each such Lender shall be bound by the same and hereby waives its right to question or dispute it.

(c) This Substitution Agreement shall be in addition to and shall not be in derogation of the terms of the Financing Documents.

(d) It shall not be necessary for the Lenders or the Lenders' Representative to enforce or exhaust any other remedy available to them before invoking the provisions of this Substitution Agreement.

In witness whereof the Parties hereto have signed this Agreement on this ___________ day of 20**.

SCHEDULE 3: FORMAT OF THE ESCROW AGREEMENT
(on appropriate stamp paper)

THIS ESCROW AGREEMENT (this Escrow Agreement) is entered into at [ ] on [ ] by and among:

(5) [Executing Agency], a statutory body constituted under the [Act under which the Executing Agency is established] with its registered office at [Address of Executing Agency], (hereinafter referred to as [Executing Agency], which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(6) [Name of the State / National Level Agency, if any]113, a statutory body constituted --------, with its registered office at ----------------- (hereinafter referred to as ----------, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

AND

(7) [insert name of the Concessionaire], a company organized, incorporated, registered and existing under the Companies Act, with its registered office at __________________________ [insert address] acting through __________________________, _______________________________ [insert name of the authorised signatory and his/her designation] duly authorized by resolution dated ____________ [insert date of the Board Resolution] (hereinafter referred to as the Concessionaire, which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns)

AND

(4) [Insert name of Escrow Bank], a bank duly constituted in accordance with Applicable Laws and carrying on the business of banking in India as a Scheduled Commercial Bank, with its registered office at [insert address] and acting for the purposes of this Escrow Agreement through its branch office at [insert address] (hereinafter referred to as Escrow Bank, which expression shall unless repugnant to the context or meaning thereof includes its successors and permitted assigns).

The [Executing Agency], {(Name of the National/State Level Agency, if any)}114, the Concessionaire and the Escrow Bank are collectively referred to as Parties and individually as Party.

WHEREAS:

113 If there is a State Level/National Level intermediate agency funding the project and such an entity is part of the contract/procurement process the name of that agency can be inserted here. Otherwise all references to the National/State Level agency in the document are to be deleted.

114 Contents in the curly parenthesis may be deleted if not applicable.
A. [Executing Agency]. {in association with (Name of the National/State Level Agency, if any)}, has decided to undertake the development of STP along with other Facilities and Associated Infrastructure at [Location] on a PPP basis, through a hybrid annuity model.

B. For this purpose, the [Executing Agency] selected the Concessionaire post a bid process to undertake integrated development, operation and maintenance of Sewage Treatment Plant(s) (the “STP”) and Faecal Sludge Management System, with a proposed Design Capacity of [Capacity of STP in MLD] MLD of STP and [Capacity of FSTP in MLD] MLD of Faecal Sludge Treatment Plant(s) (the “FSTP”), along with other Facilities and its Associated Infrastructure at [Location], on a PPP basis, through a hybrid annuity model. While the Executing Agency i.e., [Executing Agency] / (Name of the National/State Level Agency, if any)\(^{115}\) will be responsible for making payments to the Concessionaire.

C. The [Executing Agency], { (Name of the National/State Level Agency, if any)}\(^{116}\) and the Concessionaire executed a Concession Agreement dated [•] to implement the Project (the “Concession Agreement”), which is annexed to this Escrow Agreement.

D. In consideration of the Concessionaire designing, developing, financing, constructing, operating and maintaining the Facilities and the Associated Infrastructure on the Site for the Term, [Executing Agency] / (Name of the National/State Level Agency, if any)\(^{117}\) is required to pay the Concessionaire: (i) during the Construction Period, the Construction Payments upon satisfactory completion of works corresponding to Payment Milestones; and (ii) during the O&M Period, O&M Payments comprising the Capex Annuity (along with interest), the O&M Charges and the Power Charges for the Facilities at actuals (subject to a cap based on the Guaranteed Energy Consumption), and the Power Charges for the Associated Infrastructure at actuals.

E. As per the provisions of the Concession Agreement, {(Name of the National/State Level Agency, if any)}, the [Executing Agency], the Concessionaire are required to enter into an escrow agreement with an escrow bank and [Executing Agency] / (Name of the National/State Level Agency, if any)\(^{118}\) is required to open an escrow account with such escrow bank and maintain the Minimum Escrow Balance for the payment of the Construction Payments and the O&M Payments.

F. The escrow account shall be funded by [Executing Agency]\(^{119}\) / (Name of the National/State Level Agency, if any) in accordance with the terms of this Escrow Agreement and such account shall serve to secure [Executing Agency] / (Name of the National/State Level Agency, if any)'s\(^{120}\) payment obligations towards the Concessionaire under the Concession Agreement.

G. The Escrow Bank is willing to serve as an escrow bank in accordance with the terms and conditions of this Escrow Agreement.

NOW, THEREFORE, the Parties hereto agree as follows:

1. DEFINITIONS AND INTERPRETATION

1.1. Capitalized terms used but not defined in this Escrow Agreement shall have the meaning given to them in the Concession Agreement.

1.2. In this Escrow Agreement, unless the context otherwise requires:

(a) Any reference to a statutory provision shall include such provision as modified or reenacted or consolidated from time to time.

(b) The words importing the singular shall mean the plural and vice-versa; and words importing the masculine shall include the feminine and neuter and vice-versa.

(c) Headings in this Escrow Agreement are for convenience of reference only.

(d) The references to the word 'include' or 'including' or to the phrase 'in particular', shall be construed without limitation.

(e) References to any date or time of day are to Indian Standard Time; any reference to day shall mean a reference to a calendar day; any reference to a month shall mean a reference to a calendar month, any reference to a year shall mean a reference to a calendar year.

(f) The references to any agreement or deed or other instrument shall be construed as a reference to such agreement, deed, or other instrument as may be amended, varied, supplemented or novated, from time to time.

(g) Whenever provision is made for the giving or issuing of any notice, endorsement, consent, approval, permission, certificate or determination by any person, such notice, etc., shall be reasonably given, shall not be unreasonably withheld or delayed and shall be in writing. Where any notice, consent or approval is to be given by either of the Parties, the notice, consent or approval shall be given on their behalf only by any authorized persons.

(h) The words written and in writing include a facsimile transmission and any means of reproducing works in a tangible and permanently visible form.

(i) The provisions of the clauses of this Escrow Agreement shall be interpreted in such a manner that will ensure that there is no inconsistency in interpretation between the intent
expressed in the clauses.

(j) In the event of any ambiguities or discrepancies between two clauses of this Escrow Agreement, the provisions of the specific clause relevant to the issue under consideration shall prevail over those in other clauses.

(k) The rule of construction, if any, that an agreement should be interpreted against the Party responsible for the drafting and preparation thereof shall not apply to this Escrow Agreement.

2. ESCROW ACCOUNT

2.1. Appointment

(a) \{(Name of the National/State Level Agency, if any)\}^{121}, the [Executing Agency] and the Concessionaire hereby appoint the Escrow Bank to serve as the escrow bank for the purposes of this Escrow Agreement and the Escrow Bank hereby accepts this appointment.

(b) \{(Name of the National/State Level Agency, if any)\} hereby settles in trust with the Escrow Bank a sum of INR 1,000 (Rupees one thousand). The Escrow Bank has accepted the above amount of INR 1,000 (Rupees one thousand) in trust declared and, subject to the terms and conditions in this Escrow Agreement, agreed to act as trustee for the benefit of the Concessionaire, \{(Name of the National/State Level Agency, if any)\} and the [Executing Agency].

(c) The Escrow Bank shall hold and safeguard the Escrow Account and any monies held therein, during the term of this Escrow Agreement and shall treat the amount in the Escrow Account as monies deposited by [Executing Agency] / (Name of the National/State Level Agency, if any)\}^{122} with the Escrow Bank in trust in accordance with the provisions of this Escrow Agreement. In performing its functions and duties under this Escrow Agreement, the Escrow Bank shall act as an agent of \{(Name of the National/State Level Agency, if any)\}^{123}, the [Executing Agency] and the Concessionaire.

2.2. Escrow Account

(a) [Executing Agency]/(Name of the National/State Level Agency, if any)\}^{124} has established a bank account in the name of \{\} (name of account and account number), with \{\} (name of the bank), which shall be an interest bearing, no lien account, denominated in Indian Rupees for the benefit of the Concessionaire (the Escrow Bank).

---

\(^{121}\) Contents in the curly parenthesis may be deleted if not applicable.

\(^{124}\) Delete whichever not applicable.
Account).

(b) The Escrow Bank shall provide details of the Escrow Account in writing to the Concessionaire and the [Executing Agency], including the date of opening of the Escrow Account.

c) The Parties agree and acknowledge that:

(i) the Escrow Account shall be opened pursuant to, and specifically for the purposes of, this Escrow Agreement and shall be used and operated only for the purposes and in the manner provided in this Escrow Agreement and for no other use or purposes and in no other manner;

(ii) the Escrow Bank shall maintain the Escrow Account in accordance with the terms of this Escrow Agreement and its usual practices and applicable regulations;

(iii) the Escrow Bank and the Concessionaire, after consultation with [Executing Agency] / (Name of the National/State Level Agency, if any)\(^\text{125}\), shall agree on the detailed mandates, terms and conditions and operating procedures for the Escrow Account but in the event of any inconsistency between this Escrow Agreement and such mandates, terms and conditions or procedures in this Escrow Agreement shall prevail; and

(iv) no instruction shall be given to the Escrow Bank which is not contemplated by or which is contrary to or inconsistent with this Escrow Agreement. In the event any such inconsistent or contrary instruction is given, the same shall be null and void and the Escrow Bank shall not be obliged to act upon, and shall ignore, such instructions and continue to comply with the provisions of this Escrow Agreement.

2.3. Deposits into Escrow Account

(a) Minimum Escrow Balance

At all times, to maintain the minimum balance in the Escrow Account (the “Minimum Escrow Balance”):

(i) [Executing Agency] / (Name of the National/State Level Agency, if any)\(^\text{126}\) shall deposit in the Escrow Account an amount equivalent to the first 2 Payment Milestones prior to the Effective Date. From the Effective Date and during the Construction

\(^{125}\) Delete whichever not applicable.

\(^{126}\) Delete whichever not applicable.
Period, [Executing Agency] / (Name of the National/State Level Agency, if any)\textsuperscript{127} shall ensure that the Escrow Account is funded with an amount equivalent to the next 2 Payment Milestones until the Facilities COD; and

(ii) on and from the COD and during the O&M Period, [Executing Agency] / (Name of the National/State Level Agency, if any)\textsuperscript{128} shall deposit the O&M Payments in the Escrow Account such that the Escrow Account is funded at all times with the Capex Annuities (along with interest), the O&M Charges and the estimated Power Charges for the next 2 years for the Facilities,

(b) \textbf{[Executing Agency]} / (Name of the National/State Level Agency, if any)\textsuperscript{129} shall ensure that the minimum balance in the Escrow Account at all times during the Term is not less than the Minimum Escrow Balance.

If at any time during the Construction Period or the O&M Period, the balance in the Escrow Account falls below the Minimum Escrow Balance, [Executing Agency] / (Name of the National/State Level Agency, if any)\textsuperscript{130} shall promptly, and in any event, no later than 90 days, fund the Escrow Account such that the Minimum Escrow Balance is maintained.

(c) The Parties agree that a failure to maintain the Minimum Escrow Balance for 90 days would be treated as a [Executing Agency] / (Name of the National/State Level Agency, if any)\textsuperscript{131} Event of Default and in such case, the consequences set out in the Concession Agreement shall apply.

(d) It is clarified that any interest earned on the amounts deposited by [Executing Agency] / (Name of the National/State Level Agency, if any)\textsuperscript{132} in the Escrow Account will be counted towards the Minimum Escrow Balance.

2.4. \textbf{Withdrawals from Escrow Account during the Construction Period}

(a) Upon successful completion and verification of a Payment Milestone as per the Concession Agreement, the \textbf{[Executing Agency]} is required to approve the Invoice raised by the Concessionaire within 10 days of receipt of the Invoice and issue a Payment Certificate to the Escrow Bank. The Payment Certificate shall convey the \textbf{[Executing Agency]}'s approval for

the release of the amount specified in the Invoice for the relevant Payment Milestone, less any necessary deductions or adjustments in accordance with the Concession Agreement and/or Applicable Laws (including for payments to be made by the Concessionaire under applicable labour laws).

(b) If, within 10 days from the date of receipt of an Invoice, the [Executing Agency] does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by the [Executing Agency], and the Concessionaire may issue instructions to the Escrow Bank (with a copy to the [Executing Agency] and (Name of the National/State Level Agency, if any))\(^{133}\) to release the amounts specified in the Invoice, upon the expiry of the 10-day period. Any such instruction issued by the Concessionaire to the Escrow Bank shall be accompanied with the Invoice raised by the Concessionaire for the relevant Payment Milestone.

(c) Immediately upon receipt of a Payment Certificate from the [Executing Agency] in accordance with clause 2.4(a) above or upon receipt of instructions from the Concessionaire in accordance with clause 2.4(b), the Escrow Bank shall release the amount specified in the Payment Certificate or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice to the bank account of the Concessionaire mentioned below:

Bank:
Account number: BIC (SWIFT):
Address of Bank:
[Insert bank account details]

The Concessionaire may change the above bank account details by giving a 5-day prior written notice to the Escrow Bank, (Name of the National/State Level Agency, if any)\(^{134}\) and the [Executing Agency].

(d) Upon any termination of the Concession Agreement during the Construction Period of the Facilities, [Executing Agency] / (Name of the National/State Level Agency, if any)\(^ {135}\) shall issue instructions to the Escrow Bank requesting it to release and transfer any amounts due and payable to the Concessionaire, including termination payments, if any, as certified by [Executing Agency] / (Name of the National/State Level Agency, if any)\(^ {136}\) in a statement and any remaining amounts standing to the credit of the Escrow Account shall be transferred to the following account of [Executing Agency] / (Name of the National/State Level Agency, if any)\(^ {137}\):

Bank:
Account number: BIC (SWIFT):
Address of Bank:

[Executing Agency] / (Name of the National/State Level Agency, if any)\(^\text{138}\) may change the above bank account details by giving 5 (five) day prior written notice to the Escrow Bank, the Concessionaire and the [Executing Agency].

2.5. Withdrawals from Escrow Account during the O&M Period

(a) For O&M Payments in each quarter, the [Executing Agency] is required to approve the Invoice raised by the Concessionaire within 10 days of receipt of the Invoice and issue a Payment Certificate to the Escrow Bank. The Payment Certificate shall convey the [Executing Agency]'s approval for the release of the amount specified in the Invoice, less any necessary deductions or adjustments in accordance with the Concession Agreement and/or Applicable Laws (including for payments to be made by the Concessionaire under applicable labour laws).

(b) If, within 10 days from the date of receipt of an Invoice, the [Executing Agency] does not dispute an Invoice, then the Invoice shall be deemed to have been accepted by the [Executing Agency], and the Concessionaire may issue instructions to the Escrow Bank (with a copy to the [Executing Agency] \{and (Name of the National/State Level Agency, if any)\}\(^\text{139}\) to release the amounts specified in the Invoice, upon the expiry of the 10-day period. Any such instruction issued by the Concessionaire to the Escrow Bank shall be accompanied with the Invoice raised by the Concessionaire.

(c) Immediately upon receipt of a Payment Certificate from the [Executing Agency] in accordance with clause 2.5(a) above or upon receipt of instructions from the Concessionaire in accordance with clause 2.5(b), the Escrow Bank shall release the amount specified in the Payment Certificate, or if no Payment Certificate has been issued, then the amount specified in the relevant Invoice to the bank account of the Concessionaire mentioned below:
Bank:
Account number:
BIC (SWIFT):
Address of Bank:
[Insert bank account details]

The Concessionaire may change the above bank account details by giving a 5-day prior written notice to the Escrow Bank, \{(Name of the National/State Level Agency, if any)\} and the [Executing Agency].

(d) Upon any termination of the Concession Agreement during the O&M Period, [Executing

\(^\text{138}\) Delete if not applicable
\(^\text{139}\) Contents in curly parenthesis may be deleted if not applicable.
Agency] / (Name of the National/State Level Agency, if any) shall issue instructions to the Escrow Bank requesting it to release and transfer any amounts due and payable to the Concessionaire, including termination payments, if any, as certified by [Executing Agency] / (Name of the National/State Level Agency, if any) in a statement and any remaining amounts standing to the credit of the Escrow Account shall be transferred to the following account of [Executing Agency] / (Name of the National/State Level Agency, if any):

Bank:
Account number:
BIC (SWIFT):
Address of Bank:
[Insert bank account details]

[Executing Agency] / (Name of the National/State Level Agency, if any) may change the above bank account details by giving 5 (five) - day prior written notice to the Escrow Bank, and the Concessionaire.

2.6. Identification and Separation

The Escrow Bank shall clearly identify in its records the Escrow Account as an escrow account and shall keep the funds standing to the credit of the Escrow Account separated and segregated from the Escrow Bank's own funds or funds of any of its other customers or third parties.

2.7. Fees

[Executing Agency] / (Name of the National/State Level Agency, if any) shall pay [Rs. [ ] per annum] as fees to the Escrow Bank for the establishment and management of the Escrow Account. [Executing Agency] / (Name of the National/State Level Agency, if any) shall pay such fees to the Escrow Bank within 10 days of receipt of an invoice from the Escrow Bank.

2.8. Escrow Account Statements

The Escrow Bank shall provide monthly statements regarding the Escrow Account to the [Executing Agency] and the Concessionaire.

3. ESCROW AMOUNT

3.1. Promptly upon [Executing Agency] / (Name of the National/State Level Agency, if any)
transferring any amount to the Escrow Account, the Escrow Bank shall send a notice to the Concessionaire and the [Executing Agency] notice informing them of the transfer.

3.2. The Escrow Bank shall hold all amounts in the Escrow for the benefit of both the Concessionaire and the [Executing Agency]. Subject to clause 2.4(d) and clause 2.5(d) of this Escrow Agreement, the Escrow Bank shall not release any amount in the Escrow Account to any person other than the Concessionaire.

3.3. The Escrow Bank shall not apply any right of set-off against the amount in the Escrow Account, grant any lien over such amount, or apply any fee or deduction in relation to such amount.

4. RIGHTS, DUTIES AND OBLIGATIONS OF THE ESCROW BANK

4.1. The Escrow Bank

(a) may, in the absence of bad faith, fraud, wilful default or gross negligence on its part, rely as to any matters of fact which might reasonably be expected to be within the knowledge of {((Name of the National/State Level Agency, if any) or}{148 the [Executing Agency], as the case may be;}

(b) may, in the absence of bad faith, fraud, wilful default or gross negligence on its part, rely upon the authenticity of any communication or documents believed by it to be authentic;

(c) shall, within 5 days after receipt, deliver a copy to the [Executing Agency] {and (Name of the National/State Level Agency, if any}) of any notice or document received by the Escrow Bank from the Concessionaire or any other Person hereunder or in connection herewith;

(d) shall, within 5 days after receipt, deliver a copy to the Concessionaire of any notice or document received by the Escrow Bank from the [Executing Agency] {or (Name of the National/State Level Agency, if any)} in connection herewith; and

(e) shall maintain all records of deposits and withdrawals from the Escrow Account for the term of this Escrow Agreement.

4.2. The duties of the Escrow Bank are only as herein specifically provided, and are purely administrative in nature. The Escrow Bank shall neither be liable for, nor chargeable with knowledge of, the terms and conditions of any other agreement, instrument or document in connection herewith, including, without limitation, the Concession Agreement, and shall be required to act in respect of the amounts in the Escrow Account only as provided in this Escrow Agreement.

148 Contents in the curly parenthesis may be deleted if not applicable.
Agreement. This Escrow Agreement sets out all the obligations of the Escrow Bank with respect to any and all matters pertinent to the Escrow Account contemplated hereunder and no additional obligations of the Escrow Bank shall be implied from the terms of any other agreement. The Escrow Bank shall incur no liability in connection with the discharge of its obligations under this Escrow Agreement or in connection therewith, except such liability as may arise from the Escrow Bank's negligence, wilful misconduct or otherwise from any breach of this Escrow Agreement. Such liability, however, shall not exceed the amount in the Escrow Account at the date of the said breach by the Escrow Bank.

4.3. The Escrow Bank shall not be required to perform any act which will violate any Applicable Laws.

4.4. In the event of any bankruptcy proceedings or enforcement proceedings against any of the Parties pursuant to Applicable Laws, the Escrow Bank shall, notwithstanding the provisions of this Escrow Agreement, act and perform in accordance with Applicable Laws.

5. ESCROW AGREEMENT DEFAULTS

5.1. The following events shall constitute an event of default by the Concessionaire (an Escrow Default), unless such event of default has occurred as a result of any act or omission of{ (Name of the National/State Level Agency, if any) or} \(^{149}\) the [Executing Agency]:

(a) in case the Concessionaire diverts funds drawn from the Escrow Account for a project/activity/usage other than the Project, and fails to cure such breach by not depositing an equal amount in the Escrow Account within 5 days; or

(b) in the case of any other breach, by failing to remedy the breach within 5 days to the satisfaction of the [Executing Agency] \({}\) and (Name of the National/State Level Agency, if any)\).

5.2. The Parties agree that an Escrow Default in terms of this Escrow Agreement shall be treated as a Concessionaire Event of Default under the Concession Agreement, and the consequences of an Escrow Default shall be dealt with in accordance with the Concession Agreement.

5.3. Upon the occurrence of an Escrow Default, the Concessionaire agrees that [Executing Agency] / (Name of the National/State Level Agency, if any) \(^{150}\) shall have the right to direct the Escrow Bank to suspend withdrawals from the Escrow Account until further notice from [Executing Agency] / (Name of the National/State Level Agency, if any) \(^{151}\).

\(^{149}\) Contents in the curly parenthesis may be deleted if not applicable.

\(^{150}\) Delete if not applicable.

\(^{151}\) Delete if not applicable
6. MISCELLANEOUS

6.1. Representations and Warranties

Each Party represents and warrants that:

(a) it has the authority to enter into this Escrow Agreement;

(b) this Escrow Agreement constitutes a legally valid and binding obligation, enforceable against it in accordance with its terms;

(c) its entry into and/or performance under this Escrow Agreement will not be in breach of any express or implied terms of any contract with or other obligation to any third party; and

(d) it is solvent and able to perform all of its obligations under this Escrow Agreement.

6.2. Notices

Any notice or other communication to be given or made under this Escrow Agreement to the Parties shall be in writing. Except as otherwise provided in this Escrow Agreement, such notice, request or other communication shall be delivered by registered mail or facsimile to the Party(ies) at the following addresses:

(Name of the National/State Level Agency, if any)\textsuperscript{152}:

Attention: -------------------------
Tel: 
Fax:

[Executing Agency]:
Attention: 
Address: 
Email: 

[Concessionaire]: [ ]
Escrow Bank: [ ]

6.3. Entire Agreement

This Escrow Agreement and the Concession Agreement constitutes the entire agreement and understanding between the Parties with respect to its subject matter (i.e., escrow arrangement),

\textsuperscript{152}Delete if not applicable.
and replaces and supersedes all prior agreements, arrangements, undertakings or statements regarding such subject matter.

6.4. Amendments

No variation of or amendment to this Escrow Agreement shall be effective unless made in writing and executed by all the Parties hereto.

6.5. Harmonious Construction

For the purpose of giving full and proper effect to this Escrow Agreement, the Concession Agreement and this Escrow Agreement shall be read together and construed harmoniously. The terms of the Concession Agreement shall prevail in the event of any inconsistencies with this Escrow Agreement.

6.6. Assignment

Neither this Escrow Agreement nor any of the rights or obligations hereunder may be assigned by a Party without the prior written consent of the other Parties, provided that the Concessionaire shall be entitled, to the extent permitted by Applicable Law and as may be required under any Financing Documents entered into by the Concessionaire, to assign or create liens over its rights and interests under or pursuant to this Escrow Agreement.

6.7. Severability

Whenever possible, each provision of this Escrow Agreement shall be interpreted in such a way as to be effective and valid under Applicable Law, but if any provision of this Escrow Agreement is unenforceable or invalid under Applicable Law, such provision shall be ineffective only to the extent of such unenforceability or invalidity, and the remaining provisions of this Escrow Agreement shall continue to be binding and in full force and effect.

6.8. Confidentiality

The Parties, their employees, representatives and agents shall keep the provisions of this Escrow Agreement strictly confidential and, except as may be required by Applicable Laws, shall make no disclosure thereof to any Person, except the Parties' respective legal counsels and professional advisers, without the prior written consent of the other Parties.

6.9. Termination

This Escrow Agreement shall be automatically terminated upon the expiry of the Term or termination of the Concession Agreement and after disbursement of all amounts due and payable to the Concessionaire under the Concession Agreement, including Termination Compensation, if any, and any remaining amounts to [Executing Agency] / (Name of the
National/State Level Agency, if any)\textsuperscript{153} in accordance with clause 2.4(d) and clause 2.5(d) of this Escrow Agreement.

6.10. Dispute Resolution Mechanism

(a) If any dispute arises out of or in connection with this Escrow Agreement, this dispute shall not affect the Parties' duty to continue the performance of all of their undisputed obligations.

(b) If any dispute arises, a Party shall give notice to the other Parties of the same, whereupon the Parties shall meet promptly and in good faith to attempt to reach an amicable settlement.

(c) All disputes not settled amicably pursuant to (b) above shall be heard by the competent courts of [State of Location].

6.11. Governing Law

This Escrow Agreement shall be governed by and construed in accordance with the laws of India.

IN WITNESS WHEREOF, the Parties hereto have caused these presents to be executed by its authorized representatives as of the date first written above.

SCHEDULE 4: FORMAT OF THE MOBILIZATION ADVANCE GUARANTEE

[on appropriate stamp paper]

Guarantee No. : [●]
Amount of Guarantee : [●]

This Mobilization Advance Guarantee is executed on this [●] day of [●] at [●]

BY

[●] with its registered office at [●] and a branch office at [●] (hereinafter referred to as the "Bank", which expression shall unless repugnant to the context thereof, be deemed to include its successors-in-interest and permitted assigns)

IN FAVOUR OF

[Executing Agency], a statutory body constituted under the [Act under which the Executing Agency is established] with its registered office at [Address of Executing Agency]. (hereinafter referred to as [Executing Agency], which expression shall, unless it be repugnant to the context or meaning thereof, include its successors and permitted assigns);

WHEREAS

A. [insert name of the Concessionaire] with its registered office at [insert address], hereinafter referred to as the "Concessionaire", which expression shall unless repugnant to the context thereof, be deemed to include its successors-in-interest and permitted assigns) has executed a concession agreement dated [insert date.] with the [Executing Agency] (and National/State level agency if any)155 ("Concession Agreement") in relation to design, construction, operation and maintenance of sewage treatment plants along with other facilities and associated infrastructure at [Location] by concessionaire.

B. In terms of Clause 5.21 of the Concession Agreement, the Concessionaire is required to furnish a Mobilization Advance Guarantee to the [Executing Agency] in the form of an unconditional, irrevocable and on demand bank guarantee for securing the Mobilization Advance made to the Concessionaire in accordance with the Concession Agreement ("Mobilization Advance Guarantee") for INR [insert amount equal to 110 % of the Mobilization Advance] (Rupees [●]) ("Guaranteed Amount").

C. At the request of the Concessionaire and for sufficient consideration, the Bank has agreed to issue this guarantee in favor of the [Executing Agency].

NOW THEREFORE THIS DEED WITNESSETH AS FOLLOWS:

1. Capitalised terms used herein but not defined shall have the meaning ascribed to them in the Concession Agreement.

155 Contents in the flower parenthesis may be deleted if not applicable.
2. The Bank shall upon a written demand from the [Executing Agency] informing the Bank of the Concessionaire's failure to fulfill its obligations under the Concession Agreement, pay to the [Executing Agency], within five (5) days of receipt of such written demand from the [Executing Agency], without further proof or conditions and without contest, recourse, demur or protest and without any enquiry to the [Executing Agency] or the Concessionaire, forthwith and in full amount, without any deductions or set off or counter claims whatsoever, the sum claimed by the [Executing Agency] in such demand not exceeding an amount equivalent to the Guaranteed Amount. The Bank will pay the amount specified in the demand notwithstanding any direction to the contrary given or any dispute raised by the Concessionaire or any other person.

The Bank agrees that this Mobilization Advance Guarantee does not limit the number of claims that may be made by the [Executing Agency] against the Bank provided that such claims taken together shall not exceed the Guaranteed Amount.

Any payment made hereunder shall be made free and clear of and without deduction for, or on account of, any present or future taxes, deductions or withholdings of any nature whatsoever and by whomsoever imposed, and where any withholding on a payment is required by any Applicable Law, the Bank shall comply with such withholding obligations and shall pay such additional amount in respect of such payment such that the [Executing Agency] receives the full amount due hereunder as if no such withholding had occurred.

3. This Mobilization Advance Guarantee shall be a continuing guarantee during its currency and shall remain in force and effect until 21 months from the Effective Date or until the entire Mobilization Advance has been adjusted against the Construction Payments in accordance with the Concession Agreement, whichever is later, upon which the obligations of the Bank under this Mobilization Advance Guarantee shall stand discharged.

4. The obligations of the Bank herein are absolute and unconditional, irrespective of the value, genuineness, validity, regularity or enforceability of the Concession Agreement or the insolvency, bankruptcy, reorganisation, dissolution or liquidation of the Concessionaire or any change in ownership of the Concessionaire or any purported assignment by the Concessionaire or any other circumstance whatsoever which might otherwise constitute a discharge or defence of a guarantor or a surety.

a. Further, this Mobilization Advance Guarantee is in no way conditional upon any requirement that the [Executing Agency] first attempts to procure the Guaranteed Amount from the Concessionaire or any other person, or resort to any other means of obtaining payment of the Guaranteed Amount.

5. The Bank hereby agrees that its liability under this Mobilization Advance Guarantee shall not be discharged by virtue of any agreement between the Concessionaire and the [Executing Agency], whether with or without the Bank's knowledge, or by reason of the [Executing Agency] showing any indulgence or forbearance to the Concessionaire.

6. The Bank's obligations under this Mobilization Advance Guarantee for the Guaranteed
Amount is primary, independent and absolute and not by way of surety only.

7. The obligations of the Bank under this Mobilization Advance Guarantee shall not be affected by any act, omission, matter or thing which, but for this provision, would prejudice or diminish the Guaranteed Amount in whole or in part, including (whether or not known to it or the [Executing Agency]):

   (a) any time or waiver granted to, or composition with, the Concessionaire or any other person;
   
   (b) any incapacity or lack of powers, authority or legal personality of or dissolutions or change in the status of the Concessionaire or any other person;
   
   (c) any variation of the Concession Agreement so that references to the Concession Agreement in this Mobilization Advance Guarantee shall include each variation;
   
   (d) any unenforceability, illegality or invalidity of any obligation of any person under the Concession Agreement or any unenforceability, illegality or invalidity of the obligations of the Bank under this Mobilization Advance Guarantee or the unenforceability, illegality or invalidity of the obligations of any person under any other document or guarantee, to the extent that each obligation under this Mobilization Advance Guarantee shall remain in full force as a separate, continuing and primary obligation, and its obligations be construed accordingly, as if there were no unenforceability, illegality or invalidity;
   
   (e) any extension, waiver, or amendment whatsoever which may release a guarantor or the Bank (other than performance or indefeasible payment of a Guaranteed Amount); or
   
   (f) any part performance of the Concession Agreement by the Concessionaire or by any failure by the [Executing Agency] / (National/State level agency if any) to timely pay or any failure by the [Executing Agency] to timely perform any of its obligations under the Concession Agreement.

8. So long as any sum remains due from the Concessionaire to the [Executing Agency], the Bank shall not exercise any right of subrogation or any other rights of a guarantor or enforce any guarantee or other right or claim against the Concessionaire (whether in respect of its liability under this Mobilization Advance Guarantee or otherwise) or claim in the insolvency or liquidation of the Concessionaire or any such other person in competition with the [Executing Agency]. If the Bank receives any payment or benefit in breach of this Clause 8, it shall hold the same in trust for the [Executing Agency].

9. The Bank represents, warrants and undertakes to the [Executing Agency] that:

   (a) it has the power to execute, deliver and perform the terms and provisions of this Mobilization Advance Guarantee and has taken all necessary action(s) to authorize the execution, delivery and performance by it of this Mobilization Advance Guarantee;
   
   (b) the Bank has duly executed and delivered this Mobilization Advance Guarantee, and this Mobilization Advance Guarantee constitutes its legal, valid and binding obligation enforceable

156 Delete whichever not applicable.
in accordance with its terms except as the enforceability thereof may be limited by applicable bankruptcy, insolvency, moratorium or other similar laws affecting the enforcement of creditors’ rights generally and by general equitable principles;

(c) neither the execution, delivery or performance by the Bank of this Mobilization Advance Guarantee, nor compliance by it with the terms and provisions hereof will: (i) contravene any material provision of any law, statute, rule or regulations or any order, writ, injunction or decree of any court or governmental instrumentality; (ii) conflict or be inconsistent with or result in any breach of any of the material terms, covenants, conditions or provisions of, or constitute a default under any agreement, contract or instrument to which the Bank is a party or by which it or any of its property or assets is bound; or (iii) violate any provision of the Bank's constituent documents;

(d) no order, consent, approval, license, authorization or validation of, or filing, recording or registration with (except as have been obtained or made prior to the date hereof), or exemption by, any governmental or public body or authority, or any subdivision thereof, is required to authorize, or is required in connection with: (i) the execution, delivery and performance of this Mobilization Advance Guarantee; or (ii) the legality, validity, binding effect or enforceability of this Mobilization Advance Guarantee; and

(e) this Mobilization Advance Guarantee will be enforceable when presented for payment to a Scheduled Commercial Bank (as defined by the Reserve Bank of India Act, 1934) at [Location].

10. This Mobilization Advance Guarantee is a continuing one and all liabilities to which it applies or may apply under the terms hereof shall be conclusively presumed to have been created in reliance hereon. No failure or delay on the part of the [Executing Agency] in exercising any right, power or privilege hereunder and no course of dealing between the [Executing Agency] and the Bank, or the Concessionaire, shall operate as a waiver thereof, nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

11. If any one or more of the provisions contained in this Mobilization Advance Guarantee are or become invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby, and the Bank shall enter into good faith negotiations with the [Executing Agency] to replace the invalid, illegal or unenforceable provision.

12. The Bank hereby agrees to execute and deliver all such instruments and take all such actions as may be necessary to make effective fully the purposes of this Mobilization Advance Guarantee.

13. This Mobilization Advance Guarantee may be executed in one or more duplicate counterparts, and when executed and delivered by the Bank and the [Executing Agency] shall constitute a single binding agreement.

14. Any demand, notice, request or other communication to be given or made under this Mobilization Advance Guarantee shall be deemed to have been duly given or served:

(a) Upon, [Executing Agency], [LOCAL ADDRESS OF THE Executing Agency], marked for the attention of the [OFFICER IN CHARGE];

(b) Upon a Scheduled Commercial Bank (as defined by the Reserve Bank of India Act, 1934),
15. The Bank:

(a) acknowledges that the Lenders will review this Mobilization Advance Guarantee and may require changes thereto as a condition of granting any Financial Assistance and/or providing political risk insurance; and

(b) shall consider any such requirements in good faith.

16. This Mobilization Advance Guarantee shall be governed by, and construed in accordance with, the laws of India. The Bank irrevocably agrees that any legal action, suit or proceeding arising out of or relating to this Mobilization Advance Guarantee may be brought in the courts in [STATE OF Location].

17. The [Executing Agency] may assign or transfer all or any part of its interest herein together with the Concession Agreement to any other person with prior consent of to the Bank. The Bank may not assign or transfer any of its rights or obligations under this Mobilization Advance Guarantee.

IN WITNESS WHEREOF the Bank has set its hands hereunto on the day, month and year first hereinabove written.

Signed and delivered by [insert name of Bank] Bank by hand
SCHEDULE 5: DISCHARGE POINT

[map/layout/google image of the discharge point for the proposed site to be inserted]
SCHEDULE 6: SCOPE OF WORK OF THE PROJECT ENGINEER

The Project Engineer shall assist the [Executing Agency] in supervising the construction, rehabilitation, operation and maintenance of the Facilities and shall work closely with the [Executing Agency] to monitor compliance with the KPIs. The detailed scope of work of the Project Engineer, to be read in conjunction with the provisions of the Concession Agreement, is outlined below:

a) The Project Engineer shall review the Designs and Drawings to be provided by the Concessionaire. These will include, inter-alia, the site layout plan, process design, drawings, structural calculations, mechanical, electrical and instrumentation works, quality plans, implementation schedules, and the environment, health & safety plans for all Facilities. On the basis of its review, the Project Engineer shall provide its recommendations to the [Executing Agency].

b) During relevant Construction Periods, the Project Engineer shall inspect the relevant Facilities at least once a month and prepare an inspection report, setting out the progress of the construction of the relevant Facilities, defects or deficiencies, if any, and status of compliance with the Construction Plan, Technical Specifications and Designs and Drawings and the Guaranteed Interim Availability.

c) The Project Engineer shall be responsible to monitor the implementation of the approved environment, health & safety plan by the Concessionaire. The Project Engineer shall also verify the material safety data sheets of hazardous chemicals if any.

d) The Project Engineer shall review the construction progress of the project as per the Payment Milestones proposed by the Concessionaire and provide necessary recommendations to the [Executing Agency] for the purpose of issuance of Milestone Construction Certificates.

e) The Project Engineer shall assist [Executing Agency] in estimating the Interim Availability Liquidated Damages and Delay Liquidated Damages as applicable.

f) At the end of the Construction Period for different Facilities, the Project Engineer shall review the relevant Facilities and provide necessary recommendations to the [Executing Agency] with regards to the issuance of the respective Construction Completion Certificates to the Concessionaire to certify completion of construction of such Facilities, and the satisfaction of all other conditions required to be fulfilled by the Concessionaire.

g) The Project Engineer shall monitor the Trial Operations of different Facilities during their respective Trial Periods and provide necessary recommendations to the [Executing Agency] for the purpose of the issuance of the respective COD Certificates to the Concessionaire. The review shall be based on the Trial Operations Procedures outlined in the Concession Agreement and include the following.
- Verify quality of installations, operation of equipment and workmanship;
- Verify the Discharge Standard of the Treated Effluent, Treated Water and Facilities By-Products;
• Verify the consumption of electricity and generation of power if any vis-à-vis the Guaranteed Energy Consumption.

h) The Project Engineer shall review the O&M Manual and the Scheduled Maintenance Program submitted by the Concessionaire and provide its recommendations to the [Executing Agency].

i) During the O&M Period, the Project Engineer shall inspect all the Facilities at least once a month and prepare an inspection report, setting out the defects or deficiencies, if any, and status of compliance with the relevant KPIs (including specifically, the Influent Standards and the Discharge Standards).

j) The Project Engineer shall review the reports generated from the Online Monitoring Systems of different Facilities to assess adherence to their relevant KPIs and submit the monthly KPI Adherence Reports to the [Executing Agency].

k) The Project Engineer shall assist [Executing Agency] in estimating the Availability Liquidated Damages, the Performance Liquidated Damages and the Power Consumption Liquidated Damages as applicable.

l) The Project Engineer shall inspect laboratories where tests are conducted on samples to ensure conformance and compliance with laboratory procedures and requirements.

m) During the Term, and as requested by the [Executing Agency], the Project Engineer shall provide its opinion and assessment on the implications of the events related to Emergency, Change in Law, Force Majeure, Fundamental Change in Law, Minor casualty, Total casualty, Variation and Unforeseen Site Conditions.

n) The Project Engineer shall participate in the survey to determine the Hand-back Conditions as per the Hand-back Requirements. It shall review the survey report of the Hand-back Conditions submitted by the Concessionaire and provide its recommendations to the [Executing Agency] on the compliance with the Hand-back Requirements.
# SCHEDULE 7: LIQUIDATED DAMAGES

## 1. Availability of Main Pumping Stations

<table>
<thead>

</tbody>
</table>

158 The List of Applicable Permits provided herein is indicative and non-exhaustive.
11. Consent to Operate for Existing Facilities

ULB and SPCB

The Concessionaire shall proactively assist the [Executing Agency] in obtaining all the required permits.
SCHEDULE 9: ENVIRONMENT, HEALTH & SAFETY

1. **Link to the Environment and Social Management Framework (ESMF) to be followed for Projects**

   Environmental and Social Management Framework of -------- Project:
   http://-------------------

2. **Requirements for preparation of ESHS Management Strategies and Implementation Plans (ESHS-MSIP)**

   The Concessionaire shall submit comprehensive and concise Environmental, Social, Health and Safety Management Strategies and Implementation Plans (ESHS-MSIP). These strategies and plans shall describe in detail the actions, materials, equipment, management processes etc. that will be implemented by the Concessionaire, and its subcontractors.

   In developing these strategies and plans, the Concessionaire shall have regard to the ESHS provisions of the Concession Agreement including those as may be more fully described in the following:
   a. Works Requirements described in Concession Agreement;
   b. Environmental and Social Impact Assessment (ESIA);
   c. Environmental and Social Management Plan (ESMP);
   d. Consent Conditions (regulatory authority conditions attached to any permits or approvals for the project).

   …………………………………………………………………………………………………………………………………………………………………………………………………………………………………………………

   **Metrics for Progress Reports**

   The following Metrics should be used for regular reporting:
   a. **environmental incidents or non-compliances with Concession Agreement requirements, including contamination, pollution or damage to ground or water supplies**;
   b. **health and safety incidents, accidents, injuries and all fatalities that require treatment**;
   c. **interactions with regulators: identify agency, dates, subjects, outcomes (report the negative if none)**;
   d. **status of all permits and agreements**;

215
i. work permits: number required, number received, actions taken for those not received;

ii. status of permits and consents:
   - list areas/facilities with permits required (quarries, asphalt & batch plants), dates of application, dates issued (actions to follow up if not issued), dates submitted to resident engineer (or equivalent), status of area (waiting for permits, working, abandoned without reclamation, decommissioning plan being implemented, etc.);
   - list areas with landowner agreements required (borrow and spoil areas, camp sites), dates of agreements, dates submitted to resident engineer (or equivalent);
   - identify major activities undertaken in each area this month and highlights of environmental and social protection (land clearing, boundary marking, topsoil salvage, traffic management, decommissioning planning, decommissioning implementation);
   - for quarries: status of relocation and compensation (completed, or details of monthly activities and current status).

e. health and safety supervision:
   i. safety officer: number days worked, number of full inspections & partial inspections, reports to construction/project management;
   ii. number of workers, work hours, metric of PPE use (percentage of workers with full personal protection equipment (PPE), partial, etc.), worker violations observed (by type of violation, PPE or otherwise), warnings given, repeat warnings given, follow-up actions taken (if any);

f. worker accommodations:
   i. number of expats housed in accommodations, number of locals;
   ii. date of last inspection, and highlights of inspection including status of accommodations’ compliance with national and local law and good practice, including sanitation, space, etc.;
   iii. actions taken to recommend/require improved conditions, or to improve conditions.

g. HIV/AIDS: provider of health services, information and/or training, location of clinic, number of non-safety disease or illness treatments and diagnoses (no names to be provided);

h. gender (for expats and locals separately): number of female workers, percentage of workforce, gender issues raised and dealt with (cross-reference grievances or other sections as needed);

i. training:
   i. number of new workers, number receiving induction training, dates of induction training;
ii. number and dates of toolbox talks, number of workers receiving Occupational Health and Safety (OHS), environmental and social training;

iii. number and dates of HIV/AIDS sensitization training, no. workers receiving training (this month and in the past); same questions for gender sensitization, flaglady/flagman training.

j. environmental and social supervision:

i. environmentalist: days worked, areas inspected and numbers of inspections of each part of the Facilities created, highlights of activities/findings (including violations of environmental and/or social best practices, actions taken), reports to environmental and/or social specialist/construction/site management;

ii. sociologist: days worked, number of partial and full site inspections of each part of the Facilities created, highlights of activities (including violations of environmental and/or social requirements observed, actions taken), reports to environmental and/or social specialist/construction/site management; and

iii. community liaison person(s): days worked (hours community center open), number of people met, highlights of activities (issues raised, etc.), reports to environmental and/or social specialist/construction/site management.

k. Grievances: list this month’s and unresolved past grievances by date received, complainant, how received, to whom referred to for action, resolution and date (if completed), data resolution reported to complainant, any required follow-up (Cross-reference other sections as needed):

i. Worker grievances;

ii. Community grievances

l. Traffic and vehicles/equipment:

i. traffic accidents involving project vehicles & equipment: provide date, location, damage, cause, follow-up;

ii. accidents involving non-project vehicles or property (also reported under immediate metrics): provide date, location, damage, cause, follow-up;

iii. overall condition of vehicles/equipment (subjective judgment by environmentalist); non-routine repairs and maintenance needed to improve safety and/or environmental performance (to control smoke, etc.).

m. Environmental mitigations and issues (what has been done):
i. dust: number of working bowsers, number of waterings/day, number of complaints, warnings given by environmentalist, actions taken to resolve; highlights of quarry dust control (covers, sprays, operational status); % of rock/muram/spoil lorries with covers, actions taken for uncovered vehicles;

ii. erosion control: controls implemented by location, status of water crossings, environmentalist inspections and results, actions taken to resolve issues, emergency repairs needed to control erosion/sedimentation;

iii. quarries, borrow areas, spoil areas, asphalt plants, batch plants: identify major activities undertaken this month at each, and highlights of environmental and social protection: land clearing, boundary marking, topsoil salvage, traffic management, decommissioning planning, decommissioning implementation;

iv. blasting: number of blasts (and locations), status of implementation of blasting plan (including notices, evacuations, etc.), incidents of off-site damage or complaints (cross-reference other sections as needed);

v. spill cleanups, if any: material spilled, location, amount, actions taken, material disposal (report all spills that result in water or soil contamination);

vi. waste management: types and quantities generated and managed, including amount taken offsite (and by whom) or reused/recycled/disposed on-site;

vii. details of tree plantings and other mitigations required undertaken this month;

viii. details of water and swamp protection mitigations required undertaken this month.

n. compliance:

i. compliance status for conditions of all relevant consents/permits, for the Work, including quarries, etc.): statement of compliance or listing of issues and actions taken (or to be taken) to reach compliance;

ii. compliance status of ESMP/ESIP requirements: statement of compliance or listing of issues and actions taken (or to be taken) to reach compliance

iii. other unresolved issues from previous months related to environmental and social: continued violations, continued failure of equipment, continued lack of vehicle covers, spills not dealt with, continued compensation or blasting issues, etc. Cross-reference other sections as needed.

3. Requirements for the preparation of the Code of Conduct
The Concessionaire shall submit the Code of Conduct that will apply to the Concessionaire’s employees and subcontractors. The Code of Conduct shall ensure compliance with the ESHS provisions of the Concession Agreement, including those as may be more fully described in the following:

a. Works Requirements described in Concession Agreement;
b. Environmental and Social Impact Assessment (ESIA);
c. Environmental Management Plan (EMP);
d. Consent Conditions (regulatory authority conditions attached to any permits or approvals for the project).

**MINIMUM REQUIREMENTS FOR THE CODE OF CONDUCT**

A minimum requirement for the Code of Conduct should be set out, taking into consideration the issues, impacts, and mitigation measures identified in:

- project reports e.g. ESIA/ESMP
- consent/permit conditions
- required standards including World Bank Group EHS Guidelines and Performance Standards
- national legal and/or regulatory requirements and standards (where these represent higher standards than the WBG EHS Guidelines and PS)
- relevant standards e.g. Workers’ Accommodation: Process and Standards (Indian Standards, and in the absence of such Indian Standards those of IFC and EBRD)
- relevant sector standards e.g. workers accommodation
- grievances redress mechanisms.

The types of issues identified could include risks associated with: labor influx, spread of communicable diseases, sexual harassment, gender based violence, illicit behavior and crime, and maintaining a safe environment etc.

A satisfactory code of conduct will contain obligations on all project staff (including sub-contractors and day workers) that are suitable to address the following issues, as a minimum.

**Compliance with applicable laws, rules, and regulations of the jurisdiction**

1. Compliance with applicable health and safety requirements (including wearing prescribed personal protective equipment, preventing avoidable accidents and a duty to report conditions or practices that pose a safety hazard or threaten the environment)
2. The use of illegal substances
3. Non-Discrimination (for example on the basis of family status, ethnicity, race, gender, religion, language, marital status, birth, age, disability, or political conviction)

4. Interactions with community members (for example to convey an attitude of respect and non-discrimination)

5. Sexual harassment (for example to prohibit use of language or behavior, in particular towards women or children, that is inappropriate, harassing, abusive, sexually provocative, demeaning or culturally inappropriate)

6. Violence or exploitation (for example the prohibition of the exchange of money, employment, goods, or services for sex, including sexual favors or other forms of humiliating, degrading or exploitative behavior)

7. Protection of children (including prohibitions against abuse, defilement, or otherwise unacceptable behavior with children, limiting interactions with children, and ensuring their safety in project areas)

8. Sanitation requirements (for example, to ensure workers use specified sanitary facilities provided by their employer and not open areas)

9. Avoidance of conflicts of interest (such that benefits, Concession Agreement, or employment, or any sort of preferential treatment or favors, are not provided to any person with whom there is a financial, family, or personal connection)

10. Respecting reasonable work instructions (including regarding environmental and social norms)

11. Protection and proper use of property (for example, to prohibit theft, carelessness or waste)

12. Duty to report violations of this Code

13. Non retaliation against workers who report violations of the Code, if that report is made in good faith.

The Code of Conduct should be written in plain language and signed by each worker to indicate that they have:

- received a copy of the code;
- had the code explained to them;
- acknowledged that adherence to this Code of Conduct is a condition of employment; and
- understood that violations of the Code can result in serious consequences, up to and including dismissal, or referral to legal authorities.

4. **Guidelines for staffing of a Core team of 3 people for implementation of the Concessionaire's ESHS obligations**

</table>

* He/she should have worked as a sole expert for Urban Infrastructure projects. Experience in environment / safety / Social Risk Assessment, resettlement and rehabilitation and Management plans related to similar project would be preferred.

5. **Minimum Requirements and Guidelines for the preparation of the Screening Report**

The extent of assessment required to identify and mitigate the impacts largely depends upon the complexities of project activities. The scrutiny and screening will be based on a detailed Environment and Social Screening exercise, summarized in the following Format:

**Environment and Social information format for screening**

<table>
<thead>
<tr>
<th>Project Title:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Implementing agency:</td>
</tr>
<tr>
<td>Project cost:</td>
</tr>
<tr>
<td>Project components:</td>
</tr>
<tr>
<td>Project location (Area/ district)</td>
</tr>
</tbody>
</table>

**Screening Criteria**

<table>
<thead>
<tr>
<th>Screening Criteria</th>
</tr>
</thead>
<tbody>
<tr>
<td>Is the project in an eco-sensitive area or adjoining an eco-sensitive area? (Yes/No) If Yes, which is the area? Elaborate impact accordingly.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Assessment of category (High/ low)</th>
<th>Explanatory note for categorisation</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td></td>
</tr>
<tr>
<td>2</td>
<td></td>
</tr>
</tbody>
</table>

**Will the project create significant/ limited/ no social impacts?**

- Involuntary land taking resulting in loss of income from
agricultural land, plantation or other existing land-use.
- Involuntary land taking resulting in relocation of title holder or non-titleholder households.
- Any reduction of access to traditional and river dependent communities (to river and areas where they earn for their primary or substantial livelihood).
- Any displacement or adverse impact on tribal settlement(s).
- Any specific gender issues.

3. Will the project create significant / limited / no environmental impacts during the construction stage? (Significant / limited / no impacts)
   - Clearance of vegetation/ tree-cover
   - Direct discharge of construction run-off, improper storage and disposal of excavation spoils, wastes and other construction materials adversely affecting water quality and flow regimes.
   - Flooding of adjacent areas
   - Improper storage and handling of substances leading to contamination of soil and water
   - Elevated noise and dust emission
   - Disruption to traffic movements
   - Damage to existing infrastructure, public utilities, amenities etc.
   - Failure to restore temporary construction sites
   - Possible conflicts with and/or disruption to local community
   - Health risks due to unhygienic conditions at workers’ camps
   - Safety hazards during construction

4. Will the project create significant / limited / no environmental impacts during the operational stage? (Significant / limited / no impacts)
   - Flooding of adjacent areas
   - Impacts to water quality due to effluent discharge
   - Gas emissions
   - Safety hazards

5. Do projects of this nature / type require prior environmental clearance either from the MOEF&CC or from a relevant state Government department? (MOEF&CC/ relevant State Government department/ No clearance at all)

6. Does the project involve any prior clearance from the MOEF&CC or State Forest department for either the conversion of forest land
or for tree-cutting? (Yes/ No).
If yes, which?

Please attach photographs and location maps along with this completed Environmental Information Format For Screening.

**Overall assessment**

*Detailed explanation/ justification for arriving at specific category (high/ low) to be provided in the specified column*
SCHEDULE 10: KEY PERFORMANCE INDICATORS

1. Availability
   The Concessionaire shall ensure that the Availability of the Facilities and the Associated Infrastructure on every day during the O&M Period shall be 100% (one hundred per cent) (the “Guaranteed Availability”).

2. Treated Effluent Quality
   The Treated Effluent shall meet the following requirements:

<table>
<thead>
<tr>
<th>Parameter</th>
<th>Unit</th>
<th>Value for [Location] STP/FSTP</th>
</tr>
</thead>
<tbody>
<tr>
<td>pH</td>
<td></td>
<td>5.5-9.0</td>
</tr>
<tr>
<td>BOD</td>
<td>mg/L</td>
<td>≤0</td>
</tr>
<tr>
<td>TSS</td>
<td>mg/L</td>
<td>≤20</td>
</tr>
<tr>
<td>COD</td>
<td>mg/L</td>
<td>≤50</td>
</tr>
<tr>
<td>Nitrogen Total</td>
<td>mg/L</td>
<td>≤10</td>

</thead>
<tbody>
<tr>
<td>Salmonella</td>
<td>≤3 MPN/4 g</td>
</tr>
<tr>
<td>Viruses</td>
<td>≤1 FPU/4 g</td>
</tr>
</tbody>
</table>

159 If co-treatment of Faecal sludge is proposed.
4. **Energy guarantee**
The concessionaire shall guarantee the maximum number of units of power per MLD of treated sewage/faecal sludge/septage. This should be less or equivalent to consumption power units in terms of units in each of during the O&M period (other than any units expected to be generated and consumed from any power plant proposed to be set up by the Concessionaire), to operate and maintain the Facilities including STP/FSTP, pump houses and other associated Infrastructure (at varying volumes and BOD of sewage).

5. **Assessment of compliance to KPIs**
The assessment of compliance to KPIs for each of the parameters shall be checked in accordance with the reports from online monitoring system or laboratory tests as set out in the Schedule 12 (Part D).
SCHEDULE 11: PROJECT INFORMATION MEMORANDUM

Project specific Information as available to be provided in this schedule for the Bidders. Indicative headings for the Schedule are as below:

1. Project background
   ...

2. [Location] town at a glance:

PART A - PROCESS REQUIREMENTS AND DESIGN CRITERIA OF SEWERAGE WORK
PART A - PROCESS REQUIREMENTS AND DESIGN CRITERIA OF SEWERAGE WORK

1. Flow and Raw sewage/faecal sludge/septage characteristic for [LOCATION] STP(s)/FSTP(s)

The Influent standards for STP(s)/FSTP(s) design purpose are stated below.

<table>
<thead>
<tr>
<th>Item/Parameter/Description</th>
<th>Units</th>
<th>Design Capacity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Design capacity for sewage/faecal sludge/septage (Average)</td>

</tr>
</tbody>
</table>

Note: Influent standards provided above is the influent sewage/faecal sludge/septage characteristic. In addition to the above, The concessionaire must make sure that the treated effluent and digested sludge meet the disposal standards as mentioned in the KPI.

2. General design requirements

The Concessionaire shall design the Facilities in accordance with the provisions of the IS codes, Central Public Health and Environmental Engineering Organisation (CPHEEO) manual on Sewerage and Sewage Treatment, Good Industry Practices and Applicable Laws.

The precedence for process and hydraulics shall be CPHEEO manual followed by the IS codes and Good Industry Practices. The precedence for civil, structural, mechanical & electrical processes shall be ISO/BIS Codes followed by CPHEEO manual and Good Industry Practices.

The STP(s)/FSTP(s) shall be designed by the Concessionaire to receive and treat all combinations of sewage/faecal sludge/septage influent flows and loads in accordance with the Influent Standards specified above.

Concessionaire's plant design shall fully comply with the minimum requirements specified in this schedule and other schedules, regardless of whether or not such requirements or any related components are shown in any drawings included or document issued by the Employer.

All interconnecting channels, launders, pipe line shall be designed for peak flows.

2.1. Design life

The Facilities shall be designed and constructed to provide the minimum service life as prescribed
in CPHEEO guidelines (2013) Chapter-2 Table 2.1 Design period of sewerage components.

2.2. *Per Capita Water Supply and Sewage/Faecal Sludge/Septage Generation*

Per Capita water supply and Sewage/Faecal Sludge/Septage Generation shall be considered as per CPHEEO Sewerage manual.

2.3. *Infiltration*

Estimate of flow in sanitary sewers have to include flows due to infiltration of ground water. In light of general geological structure, ground water occurrence and topography, the ground water infiltration is considered for the proposed networks. For the design purpose, infiltration is considered as 10% (ten per cent).

2.4. *Peak factors*

The peak factor shall be considered as per CPHEEO guidelines (2013).

2.5. *Design flows*

Design flows are essentially peak dry weather flows. Peak dry weather flows would comprise of peak domestic sewage/faecal sludge/septage flow plus infiltration as per below.

<table>
<thead>
<tr>
<th>Pipe Sectional Average flow</th>
<th>Cumulative Average flow</th>
<th>Cumulative Infiltration</th>
<th>Peak flow</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) = Sectional population x sewage/faecal sludge/septage (water supply rate x return factor)</td>
<td>(b) = Sectional sewage/faecal sludge/septage Average flow + cumulative average flow from previous connecting node(s)</td>
<td>(c) = 10% of Cumulative sewage/faecal sludge/septage Average flow</td>
<td>(e) = (c) x Peak Factor + (d)</td>
</tr>
</tbody>
</table>

2.6. *IS codes for Sewerage System*

Proposed sewerage system shall generally conform to the following publications of the Indian Standards Institution and applicable Indian standards:

| IS: 458 | Precast Concrete Pipes (With and Without Reinforcement) – Specification |
| IS: 14333 | High density polyethylene pipe for sewerage |
| IS: 15328 | Un-plasticised Non-Pressure Polyvinyl Chloride (PVC-U) Pipes for use in Underground Drainage and Sewerage Systems |
| IS: 783 | Code of Practice for Laying of Concrete Pipes |
2.7. **Design parameters for gravity collection system**

2.7.1. **Design formula (As per CPHEEO)**

Manning’s formula is adopted for design of gravity sewers.

\[
Q_f = A \times V_f \\
V_f = \frac{I}{N} \times R^{2/3} \times S^{1/2}
\]

Where,

- \(Q_f\) = Flow rate when pipe flows full in cumecs
- \(V_f\) = Velocity when pipe flows full in mps

2.7.2. **Coefficient of Roughness**

For sewers with diameters within range of 150-1400mm, RCC pipes with S&S joints have been proposed where Manning’s coefficient ‘n’ is considered as 0.011. For HDPE pipes manning’s coefficient ‘n’ is considered as 0.011. For design purpose, \(n/N\) is considered as constant.

2.7.3. **Pipe Material for Gravity Sewers**

RCC NP3 class pipes conforming to IS: 458 with Sulphate Resistant Cement and rubber ring joints shall be proposed. For highway crossings and pipe jacking, RCC NP4 pipes are proposed.

2.7.4. **Design Capacity of Sewers**

Sewers are designed to carry estimated peak flows generated in the design year. As far as
possible, they will be designed to run maximum 80% full at ultimate peak flow as per the CPHEEO Manual. This is to ensure proper ventilation and to prevent the sewage/faecal sludge/septage getting septic.

2.7.5. Self Cleansing Velocities

To ensure that deposition of suspended solids does not take place, self-cleansing velocities using Shield’s formula will be considered in the design of sewers.

\[ V = \left( \frac{1}{n} \right) \times R^{\frac{1}{6}} \times \{ K_S \times (S_S - 1) \times d_p \}^{\frac{1}{2}} \]

- \( K_S \) = Dimensionless constant @ 0.04 to start motion of granular particle and @ 0.8 for adequate self cleansing velocity.
- \( S_S \) = Specific Gravity of Particle
- \( d_p \) = Particle size

The above formula indicates that velocity required to transport material in sewers is mainly dependent on the particle size and specific gravity and only slightly dependent on conduit shape and depth of flow.

The sewers are designed on the assumption that although silting might occur at minimum flow, it would be flushed out during peak flows. Erosion of sewers is caused by sand and other gritty material in the sewer and also by excessive velocity.

Based on above, the velocity criteria which is considered is as given below.

- Minimum velocity = 0.80 m/s
- Maximum velocity = 3.00 m/s

An attempt shall be made to obtain adequate self cleansing velocities in the design of sanitary sewer at the average or at least at the maximum flow at the beginning of the design period. If the velocity criteria do not meet for initial stretches of sewers due to less flow, these stretches will need to be flushed at regular intervals to avoid clogging of sewers.

2.7.6. Minimum size and gradient of sewers

The gradients adopted for the sewers shall be in concurrence with the CPHEEO manual. The gradients adopted for the sewers shall be based on flow and velocity requirements. The crown levels of incoming and outgoing sewers shall be kept same. Whenever required drop manholes shall be provided.

2.7.7. Depth of cover

Minimum depth of cover
To facilitate house sewer connections and future laterals connections to the street manholes and to provide sewer protection from external loads, the minimum depth of cover is considered as 1 m.

2.8. Design parameters for rising mains / pressure pipes (As per CPHEEO)

For Pressure pipe, Hazen William formula is adopted $V = 0.85 \times C \times R^{0.63} \times S^{0.54}$

for circular conduits, the expression becomes

$$V = 4.567 \times 10^{-3} \times C \times D^{0.63} \times S^{0.54}$$

where,

- $Q$: Discharge in m$^3$/hr
- $D$: Internal diameter of pipe in mm
- $V$: Velocity in m/s
- $R$: Hydraulic radius in m
- $S$: Slope of hydraulic gradient and
- $C$: Hazen - Williams coefficient as in Table 3.14 (CPHEEO Manual)

For Rising Mains, Ductile Iron (DI) of Class K9 pipes with internally smooth cement mortar lining are proposed.

Minimum velocity $= 0.80$ m/s
Maximum velocity $= 3.00$ m/s

Losses in fitting shall be computed as per latest CPHEEO Manual.

2.9. Bedding for sewers

The type of bedding (Granular Bedding, Plain Cement Concrete Cradle Bedding, Reinforced Cement Concrete Cradle Bedding and Reinforced Cement Concrete Encasement) depends on the weight of soil above the pipe based on width of trench, depth at which the sewer pipe is laid and the class of superimposed vehicular load considered based on the traffic condition.

For RCC (NP3 class) pipes, the appropriate bedding shall be provided based on the bedding factor calculated considering load due to backfill, the superimposed (live) load and the three edge bearing strength of RCC pipes as per IS:458.

The bedding factor is calculated by following formula.

$$Bedding\ Factor = \frac{Total\ Load\ (kN/m) \times Factor\ of\ Safety}{Three\ Edge\ Bearing\ Strength\ (kN/m)}$$

Where, Total load is sum of Earth load, Vehicular load and Water load
Three Edge Bearing Strength of RCC pipe is considered as per IS: 458

Factor of safety is considered as 1.1.

Impact factor for vehicular traffic depends on cover above top of pipes. For sewers, the depth of cover is more than 900mm, hence impact factor is considered as 1.0 as per IS:783.

The type of bedding to be used, depending on the bedding factor shall be as indicated.

<table>
<thead>
<tr>
<th>Bedding factor</th>
<th>Type of bedding</th>
<th>Class of bedding</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 1.9</td>
<td>Granular Bedding with Carefully Compacted Backfill (GRB)</td>
<td>B</td>
</tr>
<tr>
<td>For more than 1.9 and upto 2.8</td>
<td>Concrete Cradle Bedding with Carefully Compacted Backfill (PCCB)</td>
<td>A b</td>
</tr>
<tr>
<td>For more than 2.8 and up to 3.4</td>
<td>Reinforced concrete cradle with percentage of reinforcement ‘p’ equal to 0.4% with carefully compacted backfill (RCCB)</td>
<td>A c</td>
</tr>
<tr>
<td>For more than 3.4 and up to 4.8</td>
<td>Reinforced Concrete Encasement with percentage of reinforcement ‘p’ equal to 1% (RCE)</td>
<td>A d</td>
</tr>
</tbody>
</table>

(Note: ‘p’ is the ratio of the area of transverse reinforcement to the area of concrete cradle at the pipe invert above the base)

2.10. Manholes

2.10.1. Ordinary manhole

Manholes are to be provided at all junctions, change of sewer size, gradient and direction. The sizes of manholes adopted are in line with the recommendations of CPHEEO Manual for Sewerage and Sewage treatment. In general, to facilitate the cleaning and maintenance the Manhole spacing is kept as per CPHEEO Manual.

The clear opening at the top in case of ordinary manholes is kept as 560 mm. The manhole frame and cover is proposed of Steel Fiber Reinforced Concrete (SFRC) capable of withstanding heavy-duty loads (HD-20 for side lanes), (HD-35 for main roads) conforming to IS: 12592-2002.
