

DMEO

S. No	Title	Disclosure
Manual 2.	<p>The procedure followed in the decision making process, including channels of supervision and accountability;</p>	<p>. DMEO undertakes evaluation of selected programmes, either <i>suo-motu</i> or on the request of the implementing Ministries/ Departments of the Government of India. The purpose of programme evaluations include an objective assessment of the longer term impacts of the development programmes, identification of the areas and reasons for the successes and failures at different stages of programme execution; suggesting mid-course corrections and disseminating lessons for the future. The parameters for evaluation would include the relevance, effectiveness, efficiency, equity and sustainability of service delivery, outcomes and impacts.</p> <p>DMEO is working with various partners to leverage and activate existing capacities in the external ecosystem to undertake a greater depth and breadth of activities than DMEO can undertake by itself. DMEO aims to explore multi-stakeholder engagements involving organizations like funding partners, technical partners and researchers, technology and data partners, field partners etc. DMEO will act as a conduit for M&E knowledge and skills: learning from leading organizations in India and abroad and helping channel this learning towards Union Ministries, States and other external organizations, thereby raising the equilibrium of the entire M&E ecosystem.</p>
