- Is Contraceptive Prevalence Declining in India? An Appraisal Based on NFHS-4

COUNTRY REPORTS

- An Endemic Disease: Impact on Health and Well-being
- Export Induced Loss in Employment and Earnings: Impact on First Year of the COVID-19

EDITORIALS

- Pandemic and Employment Loss: India's so-called "comparative advantage" has not been immune to the COVID-19 shock as the loss in exports has led to major job losses and loss of savings of the employees in the exporting industries. page 54
- Algorithm Regulations in China: The rules regulating the algorithm recommendation service providers indicate that the Chinese government seeks to prevent the subcontracting of technology companies to prevent the subcontracting of social dynamics to private technological dynamics. page 78
- Fisheries Sector and Decent Work: As the laborers belonging to the richer states rank lower in terms of decent work, the need for state intervention and strengthening policies is underscored. page 38
- Endosulfan and Health Problems: While the decision to ban endosulfan in India is welcome according to the precautionary principle, attributing adverse health outcomes without strong supporting evidence can be counterproductive. page 40
- Contraceptive Prevalence in India: The decline in modern contraceptive methods observed in the NFHS-4 is explained, and certain errors in the survey data are pointed out. page 32
